The accompanying Notes to the Financial Statements are an integral part of this statement.

LIVINGSTON COUNTY, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2024

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Livingston County, Missouri (“County”) is governed by a three-member board of commissioners. In addition to the three board members, there are nine elected Constitutional Officers: Assessor, Circuit Clerk, Collector/Treasurer, Coroner, County Clerk, Prosecuting Attorney, Public Administrator, Recorder, Sheriff.

As discussed further in Note 1, these financial statements are presented using accounting practices prescribed or permitted by Missouri law, which differ from accounting principles generally accepted in the United States of America, which would include all relevant Governmental Accounting Standards Board (GASB) pronouncements. The differences include use of a prescribed definition of the reporting entity and the cash basis of accounting.

A. Reporting Entity

The County’s operations include tax assessments and collections, state/county courts, county recorder, public safety, economic development, social and human services, and cultural and recreation services.

The financial statements referred to above include the primary government of Livingston County, Missouri, which consists of all funds, organizations, institutions, agencies, departments, and offices that are considered to comprise the County’s legal entity under the regulatory basis of accounting. Financial data of other entities that may be considered to be component units of the County under generally accepted accounting principles is not included.

In accordance with the regulatory basis of accounting, the financial statements of the County do not include the activity of the Circuit Court, which is part of the Missouri court system and is considered to be a state function, including the operations of the Circuit Clerk (other than the portion that is funded by the General Revenue Fund) and all funds under their control.

B. Basis of Presentation

Governmental Funds – Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. A fund is considered a separate accounting entity with self-balancing accounts that comprise its assets, liabilities, net assets, revenues/receipts and expenditures/disbursements. The County’s funds are governmental funds. Governmental funds are those through which most governmental functions are financed. The County’s expendable financial resources are accounted for through governmental funds.

Fiduciary Funds – Fiduciary funds consist of custodial funds. Custodial funds account for assets held by the County as an agent of individuals, private organizations, taxing units, other governments and/or funds. Budgets are not adopted for the County’s custodial funds.

C. Basis of Accounting

The financial statements are prepared on the cash basis of accounting; accordingly, amounts are recognized when received or disbursed in cash. This basis of accounting differs from accounting principles generally accepted in the United States of America. Those principles require revenues to be recognized when they become available and measurable or when they are earned, and expenditures or expenses to be recognized when the related liabilities are incurred.

D. Budgets and Budgetary Accounting

The County follows these procedures in establishing the budgetary data reflected in the financial statements:

1. In accordance with Chapter 50, RSMo, the County's policy is to adopt a budget for each governmental fund.
2. On or before January 15, each elected officer and department director will transmit to the County Commission and County Clerk, who serves as budget officer, the budget request and revenue estimates for their office or department for the budget year.
3. The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning January 1. The proposed budget includes estimated revenues and proposed expenditures, on the cash basis of accounting, for all budgeted funds. Budgeting of appropriations is based upon an estimated fund balance at the beginning of the year as well as estimated revenues to be received.
4. State law requires that, at the individual fund level, budgeted expenditures not exceed budgeted revenues plus anticipated beginning fund balance.
5. A public hearing is conducted to obtain public comment on the budget. Prior to its approval by the County Commission, the budget document is available for public inspection, which usually takes place the third and fourth weeks of January.
6. Prior to February 1, the budget is legally enacted by a vote of the County Commission.
7. Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by a formal vote of the Commission. Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year.
8. Budgets are prepared and adopted on the cash basis of accounting.
9. Adoption of a formal budget is required by law.
10. Section 50.740, RSMo prohibits expenditures in excess of the approved budgets.

- E. Property taxes are based on the voter-approved tax levy applied to the real and personal assessed property values. Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on October 1 and tax bills are mailed to taxpayers in November, at which time they are payable. All unpaid property taxes become delinquent as of January 1 of the following year.

The assessed valuations of the tangible taxable property included within the County's boundaries for the calendar year 2024 for purposes of taxation were:

Real Estate	\$ 151,141,180
Personal Property	65,639,147
Railroad and Utilities	17,400,365
Total	<u>\$ 234,180,692</u>

For calendar year 2024, the County Commission approved a tax levy per \$100 of assessed valuation of tangible taxable property as follows:

General Revenue	\$ 0.0272
Senior Citizens Tax Board	0.0498
Senate Bill 40 Board	0.0997

In addition to the levy above, the County receives 5% of Road & Bridge taxes levied and collected by each township in the County.

F. Cash Deposits and Investments

Deposits and investments are stated at cost, which approximates market. Cash balances for all the County Treasurer funds are pooled and invested to the extent possible. Interest earned from these balances is allocated to each of the funds based on the funds' average daily cash balance. Cash equivalents may include repurchase agreements and any other instruments with an original maturity of ninety days or less. State law authorizes the deposit of funds in banks and trust companies or the investment of funds in bonds or treasury certificates of the United States, other interest-bearing obligations guaranteed as to both principal and interest by the United States, or any instrumentality thereof, certain municipal bonds authorized by Missouri statute, or time certificates of deposit. Funds in the form of cash on deposit or time certificates of deposit are required to be insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized by authorized investments held in the County's name at third-party banking institutions. Details of these cash and investment balances are presented in Note 2.

G. Interfund Activity

During the course of operations, interfund activity occurs for purposes of providing supplemental funding, reimbursements for goods provided or services rendered, or short and long-term financing. Interfund activities are reported as "transfers in" by the recipient fund and as "transfers out" by the disbursing fund. However, interfund reimbursements have been eliminated from the financial statements in order that reimbursed expenditures are reported only in the funds incurring the costs.

2. CASH AND INVESTMENTS

The County maintains a cash and temporary investment pool that is available for use by all funds. Each fund's portion of this pool is displayed on the financial statements within the "Cash and Investments" caption. Cash includes deposits and short-term investments with maturities that are less than ninety days. Investments consist of certificates of deposit with original maturities that are greater than ninety days.

Custodial Credit Risk - Deposits – Custodial credit risk is the risk that in the event of a bank failure, a government's deposits may not be returned to it. Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits. At December 31, 2024, the County had the following cash and investment balances:

	<u>Carrying Value</u>	<u>Bank Balance</u>	<u>FDIC Coverage</u>
Cash and Cash Equivalents	\$ 1,804,743	\$ 2,759,143	\$ 586,877
Investments	<u>5,189,015</u>	<u>5,189,015</u>	<u>744,923</u>
Total Governmental Funds	<u>\$ 6,993,758</u>	<u>\$ 7,948,158</u>	<u>\$ 1,331,800</u>
Cash and Cash Equivalents - Fiduciary Funds	<u>\$ 15,053,544</u>	<u>\$ 10,338,869</u>	<u>\$ 1,452,371</u>

The remainder of the balances not covered by FDIC deposit insurance at December 31, 2024 were covered by collateral held at the Federal Reserve Bank and the County's safekeeping bank agent in the County's name or by a line of credit held by the County or by its agent in the County's name, except for \$40,030 held by the Public Administrator for one ward in one bank.

3. COUNTY EMPLOYEES' RETIREMENT PLANS

A. Missouri Local Government Employees Retirement System (LAGERS)

1) Plan Description

Livingston County participates in the Missouri Local Government Employees Retirement System (LAGERS), an agent multiple-employer public employee retirement system that acts as a common investment and administrative agent for local government entities in Missouri. LAGERS is a defined benefit pension plan which provides retirement, disability, and death benefits to plan members and beneficiaries. LAGERS was created and is governed by statute, Section 70.600-70.755, RSMo. As such, it is the system's responsibility to administer the law in accordance with the expressed intent of the General Assembly. The plan is qualified under the Internal Revenue Code Section 401 (a) and is tax exempt.

The Missouri Local Government Employees Retirement System issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to LAGERS, P.O. Box 1665, Jefferson City, Missouri 65102 or by calling 1-800-447-4334, or by the following website, www.molagers.org.

2) Pension Benefits

Benefits are available to all full-time employees working in a LAGERS covered department. Benefits vest when an employee earns five years (60 months) of service credit in the system. Normal retirement age is 60 (General) or 55 (Police), and early retirement is 55 (General) and 50 (Police). Benefits are paid out using a formula that is based on the employee's final average salary and amount of credited service time.

3) Funding Policy

Full-time employees of Livingston County do not contribute to the pension plan. The June 30th statutorily required contribution rates were 15.6% (General), and 14.6% (Police) of annual covered payroll for 2024. The contribution requirements of plan members are determined by the governing body of the political subdivision. The contribution provisions of the political subdivision are established by state statute. For the year ended December 31, 2024, the County contributed \$278,519 to LAGERS.

B. County Employees' Retirement Fund (CERF)

The County Employees' Retirement Fund was established by the State of Missouri to provide pension benefits for County officials and employees.

1) Plan Description

The Retirement Fund is a cost-sharing multiple employer defined benefit pension plan covering any county elective or appointed officer or employee whose performance requires the actual performance of duties during not less than one thousand (1,000) hours per calendar year in each county of the state, except for any city not within a county and any county of the first classification having a charter form of government. It does not include county prosecuting attorneys covered under Sections 56.800 to 56.840, RSMo, circuit clerks and deputy circuit clerks covered under the Missouri State Retirement System, county sheriffs covered under Sections 57.949 to 57.997, RSMo and certain personnel not defined as an employee per Section 50.1000(8), RSMo. The Fund was created by an act of the legislature and was effective August 28, 1994.

The general administration and the responsibility for the proper operation of the Fund and the investment of the Fund are vested in a board of directors of eleven persons.

2) Pension Benefits

Beginning January 1, 1997, employees attaining the age of sixty-two years may retire with full benefits with eight or more years of creditable service. The monthly benefit for County Employees is determined by selecting the highest benefit calculated using three different prescribed formulas (flat-dollar formula, targeted replacement ratio formula, and prior plan's formula). A death benefit of \$10,000 will be paid to the designated beneficiary of every active member upon his or her death.

Upon termination of employment, any member who is vested is entitled to a deferred annuity, payable at age sixty-two. Early retirement is at age fifty-five. Any member with

less than eight years of creditable service forfeits all rights in the Fund but will be paid his or her accumulated contributions.

The County Employees' Retirement Fund issues audited financial statements. Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, 2121 Schotthill Woods Drive, Jefferson City, MO 65101, by calling 1-877-632-2373, or by the following website, www.mocerf.org.

3) Funding Policy

In accordance with State Statutes, the Plan is partially funded through various fees collected by counties and remitted to the CERF. Further, all participants hired on or after February 24, 2002 are required to contribute an additional 4% of their gross compensation to CERF, starting January 1, 2003. An active LAGERS participant who was employed with the County prior to February 24, 2002, is not required to make contributions. During 2024, the County collected and remitted to CERF employee withholdings and fees collected of \$198,122 for the year then ended.

C. Prosecuting Attorney Retirement Fund

In accordance with Section 56.807, RSMo, the County contributes monthly to the Missouri Office of Prosecution Services for deposit to the credit of the Missouri Prosecuting Attorneys and Circuit Attorney Retirement System Fund. Once remitted, the State of Missouri is responsible for administration of this plan. The County contributed \$6,392 for the year ended December 31, 2024.

4. POST EMPLOYMENT BENEFITS

The County does not provide post-employment benefits except as mandated by the Consolidated Omnibus Budget Reconciliation Act (COBRA). The requirements established by COBRA are fully funded by employees who elect coverage under the Act, and no direct costs are incurred by the County.

5. CLAIMS, COMMITMENT AND CONTINGENCIES

A. Compensated Absences

The County provides employees with up to three weeks of paid vacation based upon the number of years of continuous service. Employees may carry over a maximum of two weeks of vacation time. Compensation for unused vacation is at the discretion of the County Commission. Upon termination from County employment, an employee is reimbursed for unused vacation and overtime, if applicable. Failure to give proper notice forfeits all unused vacation time.

Regular full-time employees accrue sick leave at six to ten hours per month depending on the length of their normal work week. Employees may accrue sick leave days with pay to a maximum of 72 regular working days in a fiscal year.

B. Federal and State Assisted Programs

The County has received proceeds from several federal and state grants. Periodic audits of these grants, when performed, could result in the disallowance of certain costs. Accordingly, such audits could result in the refund of grant monies to the grantor agencies. Management believes that any required refunds, if determined necessary, will be immaterial and, therefore, no provision has been made in the accompanying financial statements for the potential refund of grant monies.

C. Litigation

The County was involved in pending litigation as of the audit report date. The County's management and legal counsel anticipate that potential claims, if any, against the County resulting from such litigation would not have a material effect on the financial position of the County.

6. RISK MANAGEMENT

The County is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters, and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

The County is a member participant in a public entity risk pool which is a corporate and political body. The purpose of the risk pool is to provide liability protection to participating public entities, their officials, and employees. Annual contributions are collected based on actuarial projections which are intended to produce sufficient funds to pay losses and expenses. Should contributions not produce sufficient funds to meet its obligations, the risk pool is empowered with the ability to make special assessments. Members are jointly and severally liable for all claims against the risk pool.

The County is a member of the Missouri Association of Counties Self-Insured Workers' Compensation Trust. The County purchases workers' compensation insurance through this fund, a non-profit corporation established for the purpose of providing insurance coverage for Missouri counties. The Fund is self-insured up to \$2,000,000 per occurrence and is reinsured up to the statutory limit through excess insurance.

7. LONG-TERM DEBT

On December 21, 2018, the County entered into a lease purchase agreement with BTC Bank for funding Courthouse renovations. The lease is for \$863,000 with 15 varying annual payments with an interest rate of 4.1%.

Fiscal Year Ending December 31,	Principal	Interest	Total
2025	\$ 60,872	\$ 27,048	\$ 87,920
2026	63,661	24,552	88,213
2027	66,575	21,942	88,517
2028	69,624	19,213	88,837
2029	72,813	16,358	89,171
2030 - 2033	326,165	34,180	360,345
Totals	<u>\$ 659,710</u>	<u>\$ 143,293</u>	<u>\$ 803,003</u>

The following schedule shows changes in long-term debt during the year ended December 31, 2024:

Description	Balance 12/31/2023	Additions	Payments	Balance 12/31/2024	Interest Paid
Courthouse Renovations	\$ 717,916	\$ -	\$ (58,206)	\$ 659,710	\$ 29,435

8. SUBSEQUENT EVENTS

The County has evaluated events subsequent to December 31, 2024 to assess the need for potential recognition or disclosure in the financial statements. Such events were evaluated through August 21, 2025, the date the financial statements were available to be issued.

COMPLIANCE SECTION

McBRIDE, LOCK & ASSOCIATES, LLC

CERTIFIED PUBLIC ACCOUNTANTS

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the County Commission and
Officeholders of Livingston County, Missouri

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Livingston County, Missouri which comprise the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory Basis and the Statement of Fiduciary Receipts, Disbursements and Changes in Cash – Regulatory Basis as of December 31, 2024, and the related Statements of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis for the year then ended, and the related notes to the financial statements, which collectively comprise Livingston County, Missouri's basic financial statements and have issued our report thereon dated August 21, 2025.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Livingston County, Missouri's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Livingston County, Missouri's internal control. Accordingly, we do not express an opinion on the effectiveness of Livingston County, Missouri's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements, on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the County's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses, or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether Livingston County, Missouri's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited Livingston County, Missouri's compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of Livingston County, Missouri's major federal programs for the year ended December 31, 2024. Livingston County, Missouri's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, Livingston County, Missouri complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended December 31, 2024.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of Livingston County, Missouri and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of Livingston County, Missouri's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to Livingston County, Missouri's federal programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on Livingston County, Missouri's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about Livingston County, Missouri's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding Livingston County, Missouri's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of Livingston County, Missouri's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of Livingston County, Missouri's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant

deficiencies over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

LIVINGSTON COUNTY, MISSOURI
NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
YEAR ENDED DECEMBER 31, 2024

NOTE A – BASIS OF PRESENTATION

The accompanying Schedule of Expenditures of Federal Awards (SEFA) includes the federal award activity of Livingston County, Missouri for the year ended December 31, 2024. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the financial statements.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures are reported on the cash basis of accounting. Such expenditures are recognized following the cost principles contained in Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance), wherein certain types of expenditures are not allowed or are limited as to reimbursement. The County has elected not to use the 10 percent de minimis indirect cost rate as allowed under the Uniform Guidance.

NOTE C – SUBRECIPIENTS

The County did not pass any federal awards through to subrecipients during the year ended December 31, 2024.

CERTIFIED PUBLIC ACCOUNTANTS

August 21, 2025

To the County Commission
Livingston County, Missouri

We have audited the regulatory basis financial statements of Livingston County, Missouri for the year ended December 31, 2024. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards (and, if applicable, *Government Auditing Standards* and the Uniform Guidance), as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated May 27, 2025. Professional standards also require that we communicate to you the following information related to our audit.

Significant Audit Matters

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by Livingston County, Missouri are described in Note 1 to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during 2024. We noted no transactions entered into by the County during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. Since the County is reporting on the cash basis of accounting, there are no particularly sensitive estimates affecting the financial statements.

The financial statement disclosures are neutral, consistent, and clear.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. There were no misstatements detected during the audit.

Disagreements with Management

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated August 21, 2025.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the County's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the County's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

Other Matters

We were engaged to report on the Schedule of Expenditures of Federal Awards, which accompanies the financial statements but is not Required Supplementary Information. With respect to this supplementary information, we made certain inquiries of management and evaluated the form, content, and methods of preparing the information to determine that the information complies with accounting principles prescribed or permitted by Missouri law, the method of preparing it has not changed from the prior period, and the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the supplementary information to the underlying accounting records used to prepare the financial statements or to the financial statements themselves.

Restriction on Use

This information is intended solely for the information and use of the County Commission and management of Livingston County, Missouri and is not intended to be, and should not be, used by anyone other than these specified parties.

Very truly yours,

(Original Signed by McBride, Lock & Associates, LLC)

McBride, Lock & Associates, LLC

Scott Fitzpatrick

Missouri State Auditor

City of Louisiana

Report No. 2025-054

September 2025

auditor.mo.gov

CITIZENS SUMMARY

Findings in the audit of the City of Louisiana

Water Account Adjustments	The city does not have policies or procedures requiring Board approval or documentation to support water account adjustments. Water records indicate the city received approximately \$803,000 in water revenues during the year ended May 31, 2024, and personnel posted a total of 655 adjustments, totaling approximately \$373,000, during that time. A review of the list of adjustments for the 3 fiscal years ended May 31, 2024, found many individuals with adjustments in multiple years or significant adjustments. A review performed by the city of the fiscal year 2024 adjustments identified 31 inappropriate adjustments totaling over \$2,000 for 26 individuals. Further review by the State Auditor's Office (SAO) found some additional adjustments were inappropriate because city staff processed them without accurate supporting documentation or any explanation of the adjustment reason.
City Policies and Procedures	The city does not have a written policy for overtime to address the hours, including non-working time, to be considered when calculating overtime. The city paid 17 of 44 employees approximately 170 hours of overtime for July 2022 when they did not work a total of 40 hours in a week because the city counted holiday or leave hours as part of the 40 hours worked during the week. Proceeds from some scrap metal sales totaling \$900 were not deposited and are missing. The city allows employees to take extra scrap metal to a local scrap metal company and sell the metal. The funds paid for the scrap metal are to be turned over to the city. Reports from the scrap metal company for the period December 2019 through December 2023 show city employees received approximately \$2,300 for scrap metal sales, but city deposit records indicate only approximately \$1,400 in scrap metal income was deposited.
Financial Reporting	The city failed to submit its year ended May 31, 2023, annual financial report to the State Auditor's Office (SAO) until April 18, 2025. As a result, the submission was almost 17 months late, and the Missouri Department of Revenue (DOR) assessed fines totaling \$196,500, which the DOR collected by withholding monthly sales tax distributions. The Mayor contacted the SAO in July 2025, and provided documentation of submission to the DOR and the SAO agreed to show the report received as of the August 21, 2024, DOR submission date. Even with the earlier submission date, the report was almost 9 months late and the city is subject to over \$60,000 in fines.

In the areas audited, the overall performance of this entity was **Fair**.*

*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

- Excellent:** The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.
- Good:** The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.
- Fair:** The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.
- Poor:** The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

Information	

SCOTT FITZPATRICK
MISSOURI STATE AUDITOR

To the Honorable Mayor
and
Members of the City Council
City of Louisiana, Missouri

We have audited certain operations of the City of Louisiana as they relate to the city's finances in fulfillment of our duties under Chapter 29, RSMo. The State Auditor initiated the audit in response to a formal request from the City Council. The city engaged Hood and Associates, Certified Public Accountants (CPAs), PC, to audit the city's financial statements for the fiscal year ended May 31, 2023. To minimize duplication of effort, we reviewed the CPA firm's fiscal year 2023 audit report, since the fiscal year 2024 audit had not been completed. The scope of our audit included, but was not necessarily limited to, the year ended May 30, 2024. The objectives of our audit were to:

1. Evaluate the city's internal controls over significant management and financial functions.
2. Evaluate the city's compliance with certain legal provisions.
3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.

Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the city, as well as certain external parties; and performing sample testing using haphazard and judgmental selection, as appropriate. The results of our sample testing cannot be projected to the entire populations from which the test items were selected. We obtained an understanding of internal control that is significant to the audit objectives and planned and performed procedures to assess internal control to the extent necessary to address our audit objectives. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted this performance audit in accordance with generally accepted government auditing standards. Those standards require that we plan and perform the audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides a reasonable basis for our findings and conclusions based on our audit objectives.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the city's management and was not subjected to the procedures applied in our audit of the city.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, and (3) the need for improvement in management practices and procedures. The accompanying Management Advisory Report presents our findings arising from our audit of the City of Louisiana.

A handwritten signature in black ink, reading "S. Fitzpatrick". The signature is stylized, with a large "S" and a cursive "Fitzpatrick".

Scott Fitzpatrick
State Auditor

City of Louisiana

Management Advisory Report

State Auditor's Findings

1. Water Account Adjustments

The city does not have policies or procedures requiring Board approval or documentation to support water account adjustments. Water records indicate the city received approximately \$803,000 in water revenues during the year ended May 31, 2024, and personnel posted a total of 655 adjustments, totaling approximately \$373,000, during that time.

Water account adjustments are transactions for which no money is received; however, the account balance (amount due) in the utility system is changed showing a credit or debit to the customer's account. The Water Clerk posts adjustments; however, the city does not require supervisor or Board approval of the adjustments or documentation explaining the adjustments.

We scanned a list of adjustments for the 3 fiscal years ended May 31, 2024, and noted many individuals with adjustments in multiple years or significant adjustments. At our request, city officials reviewed the fiscal year 2024 adjustments and identified 31 inappropriate adjustments totaling over \$2,000 for 26 individuals. We further reviewed adjustments, totaling \$300, for 5 of these individuals, to determine why officials considered them inappropriate and found city staff processed these adjustments without accurate supporting documentation or any explanation of the adjustment reason. Additionally, staff did not reconcile proposed adjustments to actual changes in the computer system.

Because the water clerk position is responsible for collecting water payments and has the ability to alter or delete individual water account information without review, there is an increased risk that unsupported or unauthorized adjustments could be made in the water system without detection. Both employees responsible for the adjustment entries left city employment when the audit started, and we did not have the opportunity to discuss the process with them prior to their departure. City officials indicated they were not aware that establishing review and reconciliation procedures was necessary.

Approval and supporting documentation are necessary to ensure all adjustments are necessary and properly handled. In addition, an independent review of adjustments, including comparing adjustments to actual changes posted to the computer system, would help ensure all such transaction are necessary and properly handled. Written policies and procedures are necessary to outline employee's responsibilities, provide guidance when questions or disputes arise, and help ensure policies are fairly and consistently applied to all city water accounts.

Recommendation

The City Council develop written policies and procedures for the handling of water account adjustments, and ensure adjustments are properly approved, and reasons for adjustments are documented.

City of Louisiana
Management Advisory Report - State Auditor's Findings

Auditee's Response

The city acknowledges the concerns raised regarding water account adjustments. This issue was voluntarily disclosed to the audit team. Prior to the conclusion of the audit fieldwork, the city developed and implemented a comprehensive written policy that includes requirements for documentation, supervisory approval, and reconciliation of all water account adjustments. The irregular adjustments identified were linked to two former employees who had separated from the city before the audit began. Prompt corrective actions have been taken to strengthen controls and prevent recurrence.

2. City Policies and Procedures

The city's overtime and scrap metal policies and procedures need improvement.

2.1 Overtime Policy

The city does not have a written policy for overtime to address the hours, including non-working time, to be considered when calculating overtime.

The city pays employees on a weekly basis and requires employees to record their time on timesheets for the number of daily work hours, overtime hours, holiday hours, and leave hours. We reviewed the timesheets and payroll payments for all 44 employees for November 2023 and all 39 employees for July 2022, and noted 17 employees who were paid at time and a half if they worked more than 8 hours a day, even though the employees were not working more than 40 hours a week. The city paid approximately 170 hours of overtime for July 2022 for employees who did not work a total of 40 hours in a week because the city counted holiday or leave hours as part of the 40 hours worked during the week.

The Fair Labor Standards Act (FLSA) only requires any time worked over 40 hours in a week (for non-emergency personnel) to be paid at time and a half. Written personnel policies and strict compliance with those policies are necessary to ensure equitable treatment of employees, prevent misunderstandings, and ensure employees are properly compensated. The overtime payments noted above that were processed in July 2022 were handled by the prior City Administrator. Our review noted no issues with the November 2023 payments and city staff indicated beginning with the change in administration in 2023, overtime is no longer paid unless the employee works 40 hours, with no holiday or leave used during the week. However, there remains no written policy detailing the hours to be considered when paying overtime.

2.2 Scrap Metal Sales

Proceeds from some scrap metal sales totaling \$900 were not deposited and are missing. The city allows employees to take extra scrap metal to a local scrap metal company and sell the metal. The funds paid for the scrap metal are to be turned over to the city. The city provided us with reports from the scrap metal company for the period December 2019 through December 2023.

City of Louisiana Management Advisory Report - State Auditor's Findings

We noted city employees received approximately \$2,300 for scrap metal sales, but city deposit records indicate only approximately \$1,400 in scrap metal income was deposited, a difference of \$900. The city has not taken any action to investigate the difference.

The city does not have official policies or procedures related to the selling of the scrap metal and handling of sales proceeds, including to which employee(s) the proceeds should be submitted. Instead, city officials indicated there were informal procedures that were verbally communicated to staff. This likely contributed to the undeposited receipts.

Written policies and procedures are necessary to ensure all scrap metal sales are appropriate and in compliance with city revenue policies, and to reduce the risk of loss, theft, or misuse of sales proceeds occurring.

Recommendations

The City Council:

- 2.1 Develop detailed personnel policies and procedures for overtime that are in compliance with the FLSA.
- 2.2 Develop policies and procedures to ensure all scrap metal sales proceeds are turned over to the city and deposited.

Auditee's Response

- 2.1 *This concern was brought to the auditors' attention by the current Mayor. The overtime practices in question originated under the previous administration. Since early 2023, the city has adopted a revised overtime policy that fully complies with the FLSA, ensuring overtime is paid only after employees work more than 40 actual hours in a week, excluding holiday and leave time. While this policy is currently followed, the city recognizes the need to formalize these procedures in writing and is committed to developing detailed personnel policies to provide clear guidance and ensure consistent application.*
- 2.2 *The city acknowledges the discrepancies identified in scrap metal sales proceeds and recognizes the absence of formal policies contributed to this issue. This matter was disclosed by the Mayor based on prior practices. In response, the city has implemented a new policy requiring all scrap metal sale proceeds to be properly documented and submitted directly to the City Treasurer for immediate deposit. This policy was established prior to the auditors on-site work to enhance accountability and reduce the risk of loss or misuse of funds. The city remains committed to maintaining strong internal controls over all revenue sources.*

City of Louisiana
Management Advisory Report - State Auditor's Findings

3. Financial Reporting

The city failed to submit its year ended May 31, 2023, annual financial report to the State Auditor's Office (SAO) until April 18, 2025. As a result, the submission was almost 17 months late, and the Missouri Department of Revenue (DOR) assessed fines totaling \$196,500, which the DOR collected by withholding monthly sales tax distributions. The Mayor was not aware of the DOR withholdings until we informed him. After we informed him, city officials determined the report was erroneously sent to the DOR in August 2024, rather than to the SAO. The Mayor contacted the SAO in July 2025, and provided documentation of submission to the DOR and the SAO agreed to show the report received as of the August 21, 2024, DOR submission date. Even with the earlier submission date, the report was almost 9 months late and the city is subject to over \$60,000 in fines.

Section 105.145, RSMo, requires each political subdivision to file annual reports of financial transactions with the SAO. Rule 15 CSR 40-3.030, requires each political subdivision to file annual reports within 6 months of the end of the subdivision's fiscal year. Section 105.145.5, RSMo, prohibits elected officials from continuing to receive compensation or processing disbursements after the deadline to submit the financial statement and until the financial statement is submitted to the SAO. Section 105.145.9, RSMo, requires political subdivisions to be fined \$500 per day for missing filing deadlines.

Recommendation

The City Council timely submit annual financial reports to the SAO as required by state law.

Auditee's Response

We acknowledge the delay in submitting the city's annual financial report for the year ended May 31, 2023, to the State Auditor's Office. We understand the importance of timely filing as required by Section 105.145, RSMo, and Rule 15 CSR 40-3.030, and we regret any inconvenience caused by this delay.

The city is committed to complying with all state reporting requirements moving forward. We have implemented additional internal controls and monitoring procedures to ensure that future financial reports are prepared and submitted within the required deadlines. We appreciate the guidance provided and will work diligently to prevent recurrence of such delays.

City of Louisiana

Organization and Statistical Information

The City of Louisiana is located in Pike County. The city was incorporated in 1848 and is currently a third-class city. The city employed 36 full-time employees and 19 part-time employees on May 31, 2024. The city's population was 3,199 in 2020, according to the U.S. Census Bureau.

City operations include utility services (water, sewer, and trash), police, fire, library, animal control, and maintenance of streets.

Mayor and City Council

The city government consists of a mayor and 8-member council. The members are elected for 2-year terms. The mayor is elected for a 2-year term, presides over the council, and votes only in the case of a tie. The Mayor and Councilmembers, at May 31, 2024, are identified below. The Mayor is paid \$506.25 each month and Councilmembers are paid \$150 each month. The compensation of these officials is established by ordinance.

Tim Carter, Mayor
Bill Suddarth, Councilman
Billy Price, Councilman
Cassie Cordes, Councilwoman
Don Giltner, Councilman
Rudy Bell, Councilman
Steven Twitchell, Councilman
Jim Gott, Councilman
John Phillips, Councilman

Other Principal Officials

The City Administrator, City Treasurer, and City Clerk are appointed positions. These officials at May 31, 2024, are identified below.

Bryan Spencer, City Administrator
Alissa Horton, City Treasurer
April Gilbert, City Clerk

Financial Activity

A summary of the city's unaudited financial activity, which was published in the local newspaper, for the year ended May 31, 2024, follows. The city did not include beginning cash balances in the published information. We added these cash balances along with other unpublished receipts and disbursements to the financial activity.

Missouri State Auditor

Randolph County Sheriff

Report No. 2025-053

September 2025

auditor.mo.gov

CITIZENS SUMMARY

Findings in the audit of the Randolph County Sheriff

Misappropriated and Improper Disbursements and Missing Money	From February 2023 through October 2024, money totaling at least \$222,605 was misappropriated or inappropriately spent. During this time, the Sheriff made improper and/or unsupported payments totaling \$166,105, withdrew \$47,500 in cash from office bank accounts, and cashed 2 checks totaling \$9,000 payable to his office. In addition, office personnel did not deposit at least \$1,988 in commissary receipts between March 29, 2023, and April 18, 2024, and the money is missing.
Accounts Outside County Treasury	The Sheriff maintained the Benevolent Fund, K-9 Fund, and CCW Fund accounts outside of the county treasury. The Sheriff diverted county receipts collected by his office to these accounts, which allowed additional funds to be available for the improper spending discussed in finding number 1. The Sheriff also created accounts (e.g., Retained Earnings and Commit Time) within the commissary system to record certain receipts he improperly retained in the Commissary bank account and excluded from monthly turnovers of commissary net proceeds to the County Treasurer.
Accounting Controls and Procedures	Sheriff's office accounting controls and procedures need significant improvement. The lack of segregation of duties and adequate accounting controls and procedures resulted in the improper and unsupported payments. The Sheriff did not segregate accounting duties or perform supervisory reviews of detailed accounting and bank records. Sheriff's office procedures for receipting, recording, and depositing were inadequate. As a result, personnel did not deposit all receipts and money is missing. The Sheriff's office did not use pre-numbered bond forms or issue receipt slips immediately for bond money received. In addition, while staff maintained a bond log, it was not sequentially numbered to allow personnel to account for all receipts. Sheriff's office personnel did not prepare bank reconciliations for the Main, Evidence, Benevolent Fund, CCW Fund, and K-9 Fund bank accounts. In addition, they did not maintain book balances for the Evidence, Benevolent Fund, CCW Fund, and K-9 Fund accounts and did not maintain an accurate book balance for the Main account. Personnel did not prepare lists of liabilities for the Main, Evidence, and Commissary bank accounts. The Sheriff's office did not retain adequate supporting documentation for 27 of 51 disbursements reviewed (53 percent) totaling \$96,837 during the period January 2023 through April 2024, including improper and questionable disbursements discussed in finding number 1. The Sheriff did not establish adequate controls over the signature stamp and blank check stock for the Commissary account.
Prisoner Boarding	The Sheriff's office did not enter into written contracts with 12 of 14 counties for the boarding of prisoners detailing the housing rate to be paid, the services to be provided, or any required notification for emergency or non-routine situations. The Sheriff's office over billed the 2 counties it had written contracts with by \$7,513 during the 2 years ended December 31, 2023. The over billings resulted from billing at higher than the contracted rates. The Sheriff's office had not performed an evaluation of the costs of housing inmates to ensure billing rates were sufficient to recover all costs.

Seized Property Controls	Sheriff's office personnel did not maintain complete, accurate records of seized property, and did not conduct periodic physical inventories of seized property. A judgmental selection of 20 items from the seized property inventory system identified 4 items that could not be located: \$6 cash, ammunition, a turkey fryer burner, and a blood sample.
--------------------------	--

In the areas audited, the overall performance of this entity was **Poor**.*

*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

- Excellent:** The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.
- Good:** The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.
- Fair:** The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.
- Poor:** The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

SCOTT FITZPATRICK MISSOURI STATE AUDITOR

County Commission
and
Sheriff of Randolph County

We have audited certain operations of the Randolph County Sheriff in fulfillment of our duties under Chapter 29, RSMo. The State Auditor initiated the audit at the request of the Randolph County Commission. The scope of our audit included, but was not necessarily limited to, January 1, 2023, through June 30, 2024. The objectives of our audit were to:

1. Evaluate the Sheriff's internal controls over significant management and financial functions.
2. Evaluate the Sheriff's compliance with certain legal provisions.
3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.
4. Determine if improper use of public resources occurred, and if so, quantify the amount to the extent possible.

Our methodology included reviewing written policies and procedures financial records, and other pertinent documents; interviewing various personnel of the county, including recorded interviews with the Sheriff, as well as certain external parties; and performing sample testing using haphazard and judgmental selection, as appropriate. The results of our sample testing cannot be projected to the entire populations from which the test items were selected. We obtained an understanding of internal control that is significant to the audit objectives and planned and performed procedures to assess internal control to the extent necessary to address our audit objectives. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted this performance audit in accordance with generally accepted government auditing standards. Those standards require that we plan and perform the audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides a reasonable basis for our findings and conclusions based on our audit objectives.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, (3) significant deficiencies in management practices and procedures, and (4) improper use of public resources totaling at least \$222,605 and undeposited and missing receipts totaling at least \$1,988. The accompanying Management Advisory Report presents our findings arising from our audit of the Randolph County Sheriff.

We previously issued a report for the county: *Randolph County*, report number 2025-029, in May 2025.

A handwritten signature in black ink, appearing to read "S. Fitzpatrick".

Scott Fitzpatrick
State Auditor

Randolph County Sheriff

Introduction

Background

The Sheriff is the chief law enforcement officer of the county. The Sheriff's duties are defined in state law, and include patrol of county highways, housing prisoners, transporting prisoners, and serving various legal papers and processes. The Sheriff's office collects money for civil process fees, conceal carry weapon (CCW) permits, bonds, prisoner boarding, inmate money, and other miscellaneous receipts. The Randolph County Sheriff also collects fees from the City of Huntsville for law enforcement services.

Sheriff Aaron K. Wilson was elected Randolph County Sheriff in 2020 for a 4 year term beginning in 2021. Sheriff Wilson received a salary of \$77,516 in 2023. Sheriff Wilson was defeated in the August 2024 primary election by Andy Boggs, who was subsequently elected Sheriff in November 2024 and took office on January 1, 2025. References in this report to the Sheriff refer to Sheriff Wilson unless otherwise specified. At December 31, 2023, the Sheriff's office employed 59 persons including deputies, jailers, and administrative personnel.

The Sheriff maintained 6 bank accounts. The Main account was primarily used for handling civil process fees, bonds, prisoner boarding, and miscellaneous receipts. The Commissary account was used to operate a commissary in the jail for the use and benefit of inmates. The CCW Fund account was used for handling CCW permits. The K-9 Fund account was used to account for donations to pay for care of the police dog. The Evidence account was used for handling cash seized as evidence. The Benevolent Fund account was opened by a previous administration for donations on behalf of fallen officers.

The Benevolent Fund account remained mostly dormant until Sheriff Wilson chose to begin using the account for making purchases outside the county procurement process. As of December 30, 2022, the Benevolent Fund account had a balance of only \$1,368. Sheriff Wilson maintained the debit card associated with the account and was primarily responsible for the disbursements from this account. The Administrative Assistant was primarily responsible for receiving and depositing funds for this account, at the instruction of the Sheriff.

The Administrative Assistant's primary duties included receipting, depositing, and disbursing on all accounts except the Benevolent Fund account. This included processing kiosk receipts deposited by members of the public for inmate accounts and depositing those funds into the Commissary account. Jailers were responsible for receiving and recording money for bonds and the inmate commissary, and issuing disbursements to inmates upon their release. Office personnel receipted CCW fees and submitted them to the Administrative Assistant for deposit. The Administrative Assistant was Theresa Finley from March 10, 2023, through June 5, 2023, and Teresa Hunt from June 26, 2023, until March 9, 2024. The position was vacant in June

Randolph County Sheriff Introduction

2023 and from March 10, 2024, until April 22, 2024. During the vacancies, some of the Administrative Assistant's duties were performed by various office staff, while other duties were left undone.

In February 2023, the State Auditor's Office (SAO) whistleblower hotline received concerns regarding the Sheriff's use of county funds. In March 2024, we began audits of the Sheriff's office and the remainder of the county under our authority granted in Section 29.230, RSMo. The county's fiscal year is January 1 through December 31. The scope of our audit included, but was not necessarily limited to, the period January 1, 2023, through June 30, 2024.

Randolph County Sheriff

Management Advisory Report

State Auditor's Findings

1. Misappropriated and Improper Disbursements and Missing Money

From February 2023 through October 2024, money totaling at least \$222,605¹ was misappropriated or inappropriately spent. During this time, the Sheriff made improper and/or unsupported payments totaling \$166,105, withdrew \$47,500 in cash from office bank accounts, and cashed 2 checks totaling \$9,000 payable to his office. In addition, office personnel did not deposit at least \$1,988 in commissary receipts between March 29, 2023, and April 18, 2024, and the money is missing.

The Sheriff improperly retained commissary profits and deposited county receipts in the Benevolent Fund account outside of the county treasury (see MAR finding number 2) during the 2 years ended December 31, 2024, and used these funds for cash withdrawals, improper additional employee compensation, personal purchases, donations, and other improper payments outside the normal county procurement process.

The Randolph County Circuit Court issued a Temporary Restraining Order on October 25, 2024, to prohibit the Sheriff from ". . . transferring, encumbering, concealing, or in any way disposing of any property, assets or funds held in all bank accounts holding funds or receipts of county monies, inmate funds, accounts receivable, petty cash, and operating funds . . ." and to notify the County Commission of ". . . any proposed expenditures necessary and obtain written approval . . . for all expenditures made." The application from the County Commission for the Restraining Order alleged an inappropriate cash withdrawal of \$7,000 was made from the Benevolent Fund account on October 24, 2024, (included in the table in section 1.1). The Randolph County Circuit Court issued a Permanent Injunction on October 29, 2024, to prohibit the Sheriff from ". . . making any expenditures that are not in the ordinary course of business or outside of normal county general revenue expenditure approval procedure . . ." and the Sheriff was ordered to return the \$7,000 cash withdrawal to the account, and turn over all accounts to the county.

As stated in the State Auditor's Report, the scope of our audit included, but was not necessarily limited to, the period January 2023 through June 2024. After identification of missing money and inappropriate transactions during this period, we applied limited procedures to transactions for the period January to December 2022 and July to December 2024 for the purpose of identifying and quantifying any additional misappropriated and missing money.

¹ Amounts presented in the report are rounded to the nearest dollar, whereas amounts presented in the appendixes are not rounded.

Randolph County Sheriff
Management Advisory Report - State Auditor's Findings

1.1 Misappropriated and improper cash transactions

The Sheriff made 11 unsupported, improper cash withdrawals totaling \$47,500 and improperly cashed 2 checks totaling \$9,000.

Nine of the cash withdrawals, totaling \$33,500, came from the Benevolent Fund account and the remaining 2, totaling \$14,000, came from the Commissary account. The Sheriff withdrew the money between May 8, 2023, and October 24, 2024, at a bank or by debit card at an automatic teller machine (ATM). The Sheriff indicated he was the only individual with access to the debit card and his signature was on the 10 withdrawal slips.²

Unsupported cash withdrawals and cashed checks

Date	Type	Amount
May 8, 2023	Bank Withdrawal	\$ 2,500
May 24, 2023	Bank Withdrawal	2,000
July 10, 2023	Bank Withdrawal	1,500
August 2, 2023 (1)	Bank Withdrawal	6,000
September 8, 2023	Bank Withdrawal	6,000
November 9, 2023	Bank Withdrawal	6,500
December 4, 2023 (1)	Bank Withdrawal	8,000
January 26, 2024	Cashed Check	4,000
May 8, 2024	ATM Withdrawal	500
August 13, 2024	Bank Withdrawal	2,500
August 20, 2024	Cashed Check	5,000
September 4, 2024	Bank Withdrawal	5,000
October 24, 2024 (2)	Bank Withdrawal	7,000
		\$ 56,500

(1) These withdrawals were made from the Commissary account. All others were from the Benevolent Fund account.

(2) The Sheriff reimbursed this withdrawal pursuant to the October 2024 Injunction.

In addition to the cash withdrawals, on January 26, 2024, the Sheriff improperly cashed a \$4,000 City of Huntsville check issued to the Sheriff's office for patrolling services on January 19, 2024. Further, the Sheriff improperly cashed a second check for \$5,000 on August 20, 2024. The check was from the annual advertising calendar vendor. The Sheriff works with a vendor to print and distribute a calendar featuring local businesses, then receives a commission from the advertising sales. The Sheriff informed law enforcement officials³ investigating this missing check that the payment was given to him personally in appreciation for the longstanding partnership with the vendor; however, the vendor stated to law enforcement that the check was for annual commissions earned for the calendar. The Sheriff could not provide

² There was no withdrawal slip for the ATM withdrawal.

³ The current Sheriff identified the missing check and turned the matter over to outside law enforcement for investigation.

Randolph County Sheriff
Management Advisory Report - State Auditor's Findings

documentation to support the use of these funds, and the funds were not deposited into a Sheriff's account. The checks should have been transmitted to the County Treasurer.

The Sheriff stated the December 2023, \$8,000 cash withdrawal was used to purchase holiday gifts for children who had not been selected from an area retailer's "Giving Tree" program. The Sheriff retained no documentation such as how many children received gifts, what was purchased, and the disposition of excess cash (if any) to support this statement. In addition, the Sheriff indicated he withdrew cash at other times to provide to deputies for their expenses while at training. However, there is little or no documentation to support any cash was ever provided to deputies, including receipts from the deputies. It is also unclear why any of these transactions would need to be in cash rather than by check as county disbursement procedures dictate.

1.2 Improper and unsupported disbursements

The Sheriff made improper and unsupported disbursements from the Benevolent Fund and Commissary account totaling at least \$166,105 from January 2023 through October 2024. The following table identifies the disbursements by category and account.

Improper and Unsupported Transactions by Category and Account

Category	Benevolent Fund Account	Commissary Account	Total
Vehicle purchases	\$ 0	78,650	78,650
Uniform allowances	0	15,692	15,692
Vehicle repairs and supplies	1,751	10,499	12,250
Lodging	9,590	485	10,075
Membership fees	0	9,600	9,600
Building/grounds equipment and supplies	2,427	6,337	8,764
Donations (1)	6,689	1,000	7,689
Additional employee compensation	5,214	0	5,214
Training registration fees	0	4,505	4,505
Food and dining (2)	3,785	536	4,321
Office equipment and supplies	3,007	0	3,007
K-9 supplies and veterinary services	734	1,335	2,069
Rotary club dues	1,695	0	1,695
Damage reimbursements (3)	0	1,400	1,400
Auctioneer services	400	0	400
Miscellaneous expenditures	398	0	398
Boots	376	0	376
Total	\$ 36,066	130,039	166,105

(1) Includes a \$600 cash withdrawal from the Benevolent Fund account.

(2) Includes a \$509 cash withdrawal (\$500 cash and \$9 ATM fees) from the Benevolent Fund account.

(3) Two payments were made to citizens related to property damage caused by the Sheriff's deputies.

Randolph County Sheriff Management Advisory Report - State Auditor's Findings

Some of these disbursements may have been appropriate if completed using the required county purchasing process. However, the Sheriff disbursed the money outside of the normal process and, as a result, circumvented county purchasing controls including County Commission oversight, and the budget process. Complete detail of the transactions are included in Appendix A.

Additional cash withdrawals

Included in the table are two additional cash withdrawals totaling \$1,109 not included in MAR section 1.1. The Sheriff made a cash withdrawal of \$600 that was donated to a local foster care organization in December 2023. In April 2024, the Sheriff provided an employee a \$500 cash advance to purchase food while attending an out of state training. The Sheriff obtained the money at an ATM in a casino in LaGrange, Missouri on April 26, 2024, and incurred \$9 in ATM and bank fees. At our request, the employee provided receipts totaling \$378 dated from May 12 to May 24, 2024. After the SAO inquired about the remaining \$122, the employee returned \$120 and provided a letter on July 3, 2024, confirming she had received \$500 to attend the training and had submitted receipts totaling \$378. The \$120 was redeposited into the Benevolent Fund account on July 3, 2024. The entire amount is identified as inappropriate as the travel expenditures should be reimbursed through the normal county process and purchase receipt slips were not available until our request.

Vehicle purchases

The Sheriff purchased 8 vehicles and a trailer totaling \$78,650 using the Commissary account, allowing him to forego the normal county purchasing review and approval process. The Sheriff did not obtain bids as required by state law for 5 of the vehicles as shown in the following table:

Date	Vehicles	Amount
March 22, 2023	2 Vehicles	\$ 27,610
August 31, 2023 (1)	1 Vehicle	10,000
May 1, 2024	2 Vehicles	12,200

(1) This purchase, while under the bidding threshold on its own, was within 90 days of another purchase to the same vendor and purchases over \$12,000 within a 90 day period must be bid.

The March 2023 and May 2024 purchases were from an online auction site, and the August 2023 purchase was from an Illinois auto repair shop. The remaining 3 vehicles (and the trailer) purchased did not meet the requirements for formal bids. The Sheriff indicated he believed the online auction was the most cost-effective way to purchase vehicles for the office.

Section 50.660, RSMo, requires solicitation of competitive bids for all purchases of \$12,000 or more within 90 days from a single vendor. Routine use of a competitive procurement process for major purchases ensures the county has made every effort to receive the best and lowest price and all interested parties receive an equal opportunity to participate in county business. Retention of documentation of the various proposals received, the

Randolph County Sheriff
Management Advisory Report - State Auditor's Findings

selection process, and criteria is necessary to demonstrate compliance with applicable laws or regulations and support decisions made.

Uniform allowances and
other additional compensation

The Sheriff made one-time payments, which appear to be bonuses, to 20 jailers, totaling \$15,692, in November and December 2023, in violation of the Missouri Constitution. He also improperly paid additional compensation, totaling \$5,214, to 3 office employees and a former employee. None of the payments went through the normal county payroll process.

While the check memo lines identified some of the payments as a "uniform allowance," these payments appear to represent year-end bonuses because they were issued as one-time payments late in the year rather than the standard practice of including an allowance in each of the employees' monthly paychecks. These payments ranged from \$237 to \$1,978 per employee, with most employees receiving \$800. The Sheriff indicated the former Administrative Assistant calculated the payments based on the employee's rank and tenure, which also indicates the payments were not related to uniform needs. The Sheriff stated these payments were limited to jailers because the uniform allowance paid to jailers was less than that paid to certified deputies, and this was an effort to reduce the difference. There was no documentation retained to support the calculations or reasoning.

Given the circumstances surrounding the "uniform allowance" payments, these transactions appear to be an attempt to disguise year-end bonuses. Payments for services previously rendered are in violation of the Missouri Constitution, Article III, Section 39(3), and contrary to Attorney General's Opinion 72-1955 (June 14, 1955), which states, ". . . a government agency which derives its power and authority from the Constitution and laws of this state would be prohibited from granting extra compensation in the form of bonuses to public officers or servants after the service has been rendered."

The Sheriff also paid an employee \$3,000 for "Pay Recoupment" in August 2024. According to the employee, the Sheriff had promised her a rate of pay higher than that approved by the County Commission, and this check was to make up the difference. A second employee was paid \$1,414 for "Supplemental Pay" in August 2023, and a third employee was paid \$500 in January 2023 for what the memo line indicated was "Bereavement." The county bereavement policy allows for paid time off from work, but does not allow for cash payments to employees. The Sheriff indicated this payment was not related to bereavement but was instead to help the newly hired employee purchase additional uniforms and equipment necessary for his position. The Sheriff also paid a former employee \$300 in June 2024 because she was asked to come back for a short time to assist in the office.

Since none of the payments were processed through the county payroll system, they have not been reported on the employee's W-2 forms,

Randolph County Sheriff Management Advisory Report - State Auditor's Findings

appropriate payroll taxes were not withheld, and the employer's share of payroll taxes were not paid. IRS regulations require individuals treated as employees to have all compensation reported on W-2 forms. To ensure all compensation is properly reported and taxed, all compensation needs to be paid through the normal county payroll process. The failure to properly report and tax all wages could result in penalty and interest charges assessed against the county. The Sheriff stated he told employees they would need to prepare and file an IRS form 1099 for the uniform allowances; however, this is an employer function and not the responsibility of the employees.

Donations

The Sheriff used public money from the Benevolent Fund account and the Commissary account to make donations totaling \$7,689, including \$4,732 in December 2023 for toys, clothing, and other items purchased for local children as part of a "shop with a deputy" program. In addition, the Sheriff provided the same local foster care organization that received the \$600 cash donation, a check for \$500 in August 2023 to sponsor a table at its fundraising dinner. Finally, the Sheriff paid a local private school \$1,500, \$500 from the Benevolent Fund account and \$1,000 from the Commissary account, in January 2024 to sponsor a table at its fundraising event. According to the County Commission, the Sheriff's child attended this school at the time of the donation.

Missouri Constitution, Article VI, Sections 23 and 25, prohibit the use of public money or property to benefit any private individual, association, or corporation except as provided in the constitution. Because the Sheriff improperly deposited county receipts into the Benevolent Fund account and improperly retained money in the Commissary account, any donations made were likely with public money.

Food and dining

The Sheriff purchased food and paid for meals at local restaurants totaling \$4,321 with Benevolent Fund and Commissary account funds.

The Sheriff purchased snacks and drinks totaling \$1,465 and paid for meals at 6 restaurants totaling \$925. One of the meals was a Christmas party costing \$250. The Sheriff did not provide documentation to support who attended or the business purpose of the meals. The Sheriff also paid \$185 for a retirement party in June 2023. The Sheriff stated he believed this was a common occurrence among the offices in the courthouse; however, there is no county policy for providing food and gifts to employees.

In addition, the Sheriff reimbursed two employees for food purchased while attending a training in November 2023. One employee received \$99 and the second received \$252. The sheriff retained no documentation to support the payments. Both employees stated they provided receipts to the former Administrative Assistant. It is unclear why the employees were not reimbursed through the standard county process, or why these employees

Randolph County Sheriff Management Advisory Report - State Auditor's Findings

were reimbursed after their travel when another employee was provided a \$500 cash advance.

Established policies on county provided food and gifts would provide employees necessary guidance and better transparency for citizens about the use of public funds. The county Mileage and Travel Reimbursement policy requires the submission of receipts to the County Clerk and the Commission for reimbursement of travel meals and lodging expenditures.

Rotary Club dues

The Sheriff made 5 payments totaling \$1,695 to a local Rotary Club for his personal membership dues and it is unclear what public purpose his membership provided.

Conclusion

Public funds should be spent only on items necessary and beneficial to the county. Detailed supporting documentation might have improved the Sheriff office's ability to demonstrate purchases were reasonable. County residents have placed a fiduciary trust in their public officials to spend county money in a prudent and necessary manner.

1.3 Undeposited receipts

The Sheriff's office did not deposit at least \$1,988 in commissary receipts during the period March 29, 2023, to April 18, 2024, and the money is missing (see Appendix B). During this period, the Sheriff's office collected \$178,482 in commissary receipts.

Jailers and family members deposited inmate money into kiosks in the booking area or the jail lobby and the money was applied to an inmate's commissary account. The Administrative Assistant retrieved the money from the kiosks and prepared the bank deposits. Because the missing receipts were recorded in the commissary accounting system, we determined the money went missing between the time it was removed from the kiosks and receipts were deposited. Two different Administrative Assistants were responsible for retrieving and preparing the deposits during the time period the money went missing as shown in the following table. Because the differences also occurred during periods when the Administrative Assistant position was vacant, we cannot determine the individual(s) responsible for the undeposited funds.

Undeposited Receipts by Administrative Assistant

Administrative Assistant	First Deposit Date	Last Deposit Date	Receipts per Commissary System	Amount Deposited	Difference
Theresa Finley	03/29/2023	05/26/2023	\$ 34,983	33,327	(1,656)
Vacant	06/08/2023	06/22/2023	11,830	11,238	(592)
Teresa Hunt	06/28/2023	03/08/2024	122,476	122,756	280
Vacant	03/19/2024	04/18/2024	9,183	9,163	(20)

Randolph County Sheriff Management Advisory Report - State Auditor's Findings

The lack of segregation of duties and inadequate receipting and depositing controls as discussed in MAR finding number 3, resulted in the missing receipts going undetected.

Recommendations

The County Commission:

- 1.1-1.2 Work with law enforcement, as necessary, regarding criminal prosecution for the improper cash withdrawals, cashed checks, and payments, and take necessary actions to obtain restitution, if possible.

The Sheriff:

- 1.1-1.2 Ensure all disbursements are a necessary and prudent use of public funds, discontinue making purchases from the Commissary bank account, and disburse excess funds as appropriate. In addition, ensure travel expenses including meals are reimbursed in accordance with county policy and work with the County Commission to establish policies regarding food and gift purchases, if such purchases are considered necessary. Further, discontinue paying employee bonuses and work with the County Commission to ensure all compensation is paid through the county's normal payroll process, properly taxed, and reported to the IRS as employee compensation. Finally, solicit competitive bids for all applicable purchases in accordance with state law. Documentation of bids solicited and justification for bid awards should be maintained.
- 1.3 Work with the County Commission and other law enforcement officials regarding criminal prosecution of the missing money and take the necessary actions to obtain restitution.

Auditee's Response

The County Commission and the current Sheriff provided the following responses:

- 1.1 *The Sheriff has consulted with the Randolph County Prosecuting Attorney's office and has referred these matters to law enforcement for further investigation and criminal prosecution. In addition, we will take the necessary actions to obtain restitution.*
- 1.2 *All disbursements, including employee compensation, are now handled through normal county procedures, paid from accounts held by the County Treasurer, and are necessary and prudent. We have discontinued paying employee bonuses and will follow state law for bidding. The county travel policy will be strictly followed and we will work with the County Commission to establish a food and gift policy.*

Randolph County Sheriff
Management Advisory Report - State Auditor's Findings

1.3 This matter had been referred to the Randolph County Prosecuting Attorney for further investigation.

2. Accounts Outside County Treasury

Receipts

The Sheriff maintained the Benevolent Fund, K-9 Fund, and CCW Fund accounts outside of the county treasury and as noted in MAR finding number 1, and kept certain receipts, which allowed him to improperly spend county funds.

The Sheriff diverted county receipts collected by his office to accounts improperly held outside of the county treasury. This allowed additional funds to be available for the improper spending discussed in MAR finding number 1. The following table shows money deposited into funds the Sheriff held outside of the county treasury from January 1, 2023 through December 31, 2024, according to the Sheriff's bank records. Most of these receipts would typically be deposited into one of the Sheriff's fee accounts and subsequently turned over to the county:

Receipts by Type	Amount
Benevolent Fund:	
City patrolling services (1)	\$43,333
Board bills	23,830
Community donations	5,572
Calendar commissions (2)	5,000
Commissary phone commissions	3,017
Commissions from Sheriff's sales (3)	1,322
Civil paper service fees	259
Sale of safe	100
Vendor Refund	97
Debit card rebates	64
Unknown Cash Deposits (4)	1,705
K-9 Fund:	
Community donations	350
CCW Fund:	
CCW Permit Fees(5)	630
Total Deposits to Outside Accounts	\$59,477

(1) Does not include the \$4,000 check noted in MAR 1.1 that was cashed.

(2) The Sheriff sells calendar advertising to local businesses each year. The calendar vendor pays the costs of the calendar and splits the advertising revenue with the Sheriff. This amount represents the office's share of the advertising revenue and does not include the \$5,000 check noted in MAR finding number 1.1 that was cashed.

(3) Commissions from a partition sale and a foreclosure sale conducted by the Sheriff.

(4) Cash from unknown sources included in five deposits between July 3, 2024 and October 28, 2024.

(5) CCW permit fees deposited into this account were properly disbursed to the County Treasurer except for \$630 from the March 2024 collections.

Randolph County Sheriff Management Advisory Report - State Auditor's Findings

There is no statutory authority allowing the Sheriff to maintain these accounts outside the county treasury. Section 50.370, RSMo, requires every county official who receives any fees or remuneration for official services to pay such money to the County Treasurer. In addition, Attorney General's Opinion 45-1992 (April 23, 1992) states sheriffs are not authorized to maintain a bank account for law enforcement purposes separate from the county treasury.

Commissary system accounts The Sheriff also created accounts (e.g., Retained Earnings and Commit Time) within the commissary system to record certain receipts he improperly retained in the Commissary bank account and excluded from monthly turnovers of commissary net proceeds to the County Treasurer. According to commissary system, bank, and county records, money deposited into the Commissary account and retained from January 1, 2023, through June 30, 2024, included:

Receipts by Type	Amount
Commissary account:	
Phone commissions (1)	\$107,738
Board bills	7,260
Commit time fees (2)	1,600
Drug test fees	223
Total Improperly Retained Commissary Deposits	\$116,821

(1) Includes \$12,467 in phone commissions that were not receipted into the commissary system. See MAR finding number 3.2 for additional information.

(2) Commit time represents fees paid by inmates to the county to offset the costs of their incarceration. The fees are only paid when specifically included in the sentence issued by the judge.

The Sheriff indicated he maintained these funds to account for revenues earned by his office that should be available for use by his office. The Sheriff also stated if these funds were turned over to the County Treasurer, most would be credited to the county's General Revenue Fund where they could be used for other purposes, and would require the approval of the County Commission to be expended. However, statute only allows retention of these funds to the extent they are needed for cash flow and current expenses. The County Commission was unaware the Sheriff was retaining these funds.

Section 221.102, RSMo, requires each county jail to keep revenues from its commissary in a separate account and pay for goods and other expenses from that account, allows retention of a minimum amount of money in the account for cash flow purposes and current expenses, and requires deposit of the remaining funds (net proceeds) into the county Inmate Prisoner Detainee Security Fund held by the County Treasurer. Because the Inmate Prisoner Detainee Security Fund has limited uses by state law, retaining the excess money in the Commissary account allowed the Sheriff continued access to

Randolph County Sheriff
Management Advisory Report - State Auditor's Findings

the funds for improper and unsupported spending as detailed in MAR finding number 1.2.

Recommendation

The County Commission and the Sheriff ensure the Sheriff does not maintain bank accounts outside the county treasury, ensure all money is disbursed to the County Treasurer timely as required by state law, close the unallowed accounts, and turn over account balances to the County Treasurer.

Auditee's Response

This has already been corrected. All unallowed accounts were closed and the account balances turned over to the County Treasurer. In addition, all money collected is disbursed to the County Treasurer each month.

3. Accounting Controls and Procedures

Sheriff's office accounting controls and procedures need significant improvement. The lack of segregation of duties and adequate accounting controls and procedures resulted in the improper and unsupported payments reported in MAR finding number 1 going undetected for a significant period of time.

3.1 Segregation of duties

The Sheriff did not segregate accounting duties or perform supervisory reviews of detailed accounting and bank records.

The Administrative Assistant was primarily responsible for receipting, recording, and depositing receipts; billing for paper service, patrol service, and prisoner board; making disbursements; reviewing and transmitting bill payments received, and performing bank reconciliations. According to the former Administrative Assistant, neither the Sheriff nor anyone else reviewed any of the work she performed. The Sheriff indicated the Administrative Assistant was qualified and capable of handling these duties and he did not see the need for distributing the job duties to other employees or for reviewing her work. Additionally, the Sheriff maintained the Benevolent Fund account checkbook and debit card and was solely responsible for disbursements from that account. There was no oversight of his use of the account.

Proper segregation of duties is necessary to ensure transactions are accounted for properly and assets are adequately safeguarded. Internal controls would be improved by segregating the duties of receiving, recording, and depositing receipts; making disbursements; reconciling bank accounts; billing; and receiving and transmitting payments collected. If proper segregation of duties cannot be achieved, documented independent or supervisory review of detailed accounting records are essential and should include comparing receipts to deposits.

3.2 Receipting, recording, and depositing

Sheriff's office procedures for receipting, recording, and depositing were inadequate. As a result, as discussed in MAR finding number 1, personnel did not deposit all receipts and money is missing.

Randolph County Sheriff Management Advisory Report - State Auditor's Findings

Our review noted the following concerns:

- Office personnel did not always deposit commissary receipts intact and timely, and as indicated in MAR finding number 1.3, receipts totaling \$1,988 were not deposited and are missing. Office personnel did not deposit receipts intact and timely for 33 of 62 deposits made between March 29, 2023, and April 18, 2024. For example, the September 7, 2023 deposit did not include \$1,332 cash receipted from August 30 to September 7. The subsequent deposit on September 11, 2023 contained \$1,350 more cash than was receipted. Current office personnel could not explain why receipts were not deposited intact and timely by former personnel. See Appendix B for a schedule of the missing receipts for the Commissary account.
- Office personnel did not issue receipt slips or maintain a record of money received and deposited into the Benevolent Fund and K-9 Fund accounts. The Sheriff indicated he was unaware of the need to issue receipt slips for these accounts. In addition, office personnel did not record 2 telephone commission checks totaling \$12,469 deposited into the Commissary bank account in the commissary accounting system. Current office personnel could not explain why former personnel did not record these transactions.
- Office personnel did not issue receipt slips in numerical sequence for fees and bonds deposited into the Main account and receipt slips did not include a place to indicate the method of payment. The receipt slips were printed 3 per page⁴ and pre-numbered with the numerical sequence increasing from the bottom to the top of the page, but personnel issued the slips from the top to the bottom of the page (in reverse order). Without accounting for the method of payment and the numerical sequence of receipt slips, officials could not reconcile the composition of receipts to the composition of deposits, ensure all receipts are accounted for, or ensure all receipts were deposited intact. Former office personnel believed the receipt slips were sufficient and their receipting procedures were adequate.

Failure to implement adequate receipting, recording, and depositing procedures increases the risk loss, theft, or misuse of money received will occur and errors will go undetected.

3.3 Bonds

The Sheriff's office did not use prenumbered bond forms or issue receipt slips immediately for bond money received. In addition, while staff maintained a

⁴ The receipts slip pages were unbound and the duplicate copies were maintained in a file folder by the office personnel after the 3 receipts on each page are issued.

Randolph County Sheriff Management Advisory Report - State Auditor's Findings

bond log, it was not sequentially numbered to allow personnel to account for all receipts.

Upon an inmate's release on bond, the jailer completed an unnumbered bond form, recorded the bond on the unnumbered bond log, and received the cash bond (if applicable). For in-county bonds, the bond form and any cash were subsequently transmitted to the Circuit Clerk's office and recorded on a turnover log. For out-of-county bonds, the bond forms and any cash were transmitted to the Sheriff's Administrative Assistant who issued manual receipt slips, deposited the bonds, and disbursed the money received to other political subdivisions. There was no reconciliation of the bond log, the court turnover log, or the receipt slips issued by the Administrative Assistant to ensure all bonds were accounted for. The Sheriff indicated he believed the procedures for bonds was sufficient.

Failure to use prenumbered bond forms and/or receipt slips, account for the numerical sequence of the documents, and reconcile the amounts on the documents to the amounts transmitted or deposited, increases the risk loss, theft, or misuse of money will occur and go undetected.

3.4 Bank reconciliations, book balances and liabilities

Sheriff's office personnel did not prepare bank reconciliations for the Main, Evidence, Benevolent Fund, CCW Fund, and K-9 Fund bank accounts. In addition, they did not maintain book balances for the Evidence, Benevolent Fund, CCW Fund, and K-9 Fund accounts and did not maintain an accurate book balance for the Main account. Finally, personnel did not prepare lists of liabilities for the Main, Evidence, and Commissary bank accounts.

The following table lists the year-end bank statement balances for 2023⁵ and 2024.

Sheriff's bank account balances

Account	December 29, 2023	December 31, 2024
Main	\$ 80,034	107,534
Benevolent Fund (1)	6,526	0
CCW Fund	992	1,301
Commissary	19,174	39,857
Evidence	28,423	28,391
K-9 Fund	333	350

(1) The Benevolent Fund account was closed in November 2024.

In our review of bank statements and check registers for all accounts we identified outstanding checks totaling \$1,500 and book balance adjustments totaling \$9,000 from a \$1,000 issued check and a \$10,000 voided check that were not recorded in the check register for the Main account as of December

⁵ The December 2023 bank statement was issued on December 29, 2023.

Randolph County Sheriff Management Advisory Report - State Auditor's Findings

29, 2023. The former Administrative Assistant also did not record deposits made and checks issued in the checkbook register until they cleared the bank. The adjusted book balance should have been \$78,534, which agrees to the reconciled bank balance at December 29, 2023. We identified liabilities totaling \$19,206 consisting of undisbursed fees and bank interest, resulting in an unidentified balance in the account of \$59,828. The former Administrative Assistant indicated the unidentified balance is likely caused by her failure to accurately ensure all money received was disbursed at the end of each month.

We also obtained a report from the seized property system of cash reported as located in the Evidence account totaling \$30,326. As a result, there appears to be a shortage of \$1,903 in the account at December 29, 2023.

The Sheriff indicated there was no formal policy or procedure to require the preparation and supervisory review of book balances, bank reconciliations, and liability listings.

Preparing a cumulative book balance, adequate monthly bank reconciliations, and monthly lists of liabilities helps ensure receipts and disbursements have been properly handled and recorded, and increases the likelihood errors will be identified and corrected timely. Regular identification of liabilities and a comparison of liabilities to the reconciled bank balance is necessary to ensure accounting records are in balance, all amounts received are disbursed, and money is available to satisfy all liabilities. Section 447.532, RSMo, provides that any unclaimed funds held by a political subdivision for more than 3 years should be turned over to the Missouri State Treasurer's Unclaimed Property Division.

3.5 Supporting documentation

The Sheriff's office did not retain adequate supporting documentation for 27 of 51 disbursements we reviewed (53 percent) totaling \$96,837 during the period January 2023 through April 2024, including improper and questionable disbursements discussed in MAR finding number 1. The disbursements reviewed were judgmentally selected from our population totaling approximately \$1.06 million from the Main, Benevolent Fund, Commissary, and Evidence bank accounts. Supporting documentation was subsequently obtained for some of these disbursements from applicable vendors. The Sheriff indicated copies of the supporting documentation were turned into the former Administrative Assistant but could not be located after the Administrative Assistant left the county's employment.

To ensure obligations were incurred and amounts paid are proper, all disbursements should be supported by itemized vendor invoices or other detailed documentation with payment information clearly indicated. Retention of records is necessary to ensure the validity of transactions and provide an audit trail. Section 109.270, RSMo, provides that all records made or received by an official in the course of his/her public duties are public

Randolph County Sheriff Management Advisory Report - State Auditor's Findings

property and are not to be disposed of except as provided by law. Section 109.255, RSMo, provides that the Local Records Board issue directives for the destruction of records. Record retention schedules can be found on the Secretary of State's website.⁶

3.6 Signature stamp and blank check stock

The Sheriff did not establish adequate controls over the signature stamp and blank check stock for the Commissary account.

The Sheriff's signature stamp was intended to be used by the criminal clerk to apply the Sheriff's signature to documents related to bonds and warrants and by other office personnel to issue checks from the Commissary account when the Sheriff or Administrative Assistant were unavailable. There was no indication, such as initials, of who applied the stamp and the Sheriff did not subsequently review use of the stamp. The stamp was stored in a safe in the office; however, the combination was known to several office personnel. In addition, the blank check stock for the Commissary account was stored in an unsecured location by the Administrative Assistant. The Sheriff stated he was unaware of the need to securely store and review the use of the stamp and secure the check stock because it is blank.

Establishing controls over the use of and access to the signature stamps and blank checks is necessary to safeguard against possible loss, theft, or misuse of funds and to ensure disbursements are properly handled. If the Sheriff is unavailable to sign documents, he should subsequently document his review and approval of the documents where his signature stamp was used.

Recommendations

The Sheriff:

- 3.1 Segregate accounting duties or ensure adequate independent or supervisory reviews of detailed accounting and bank records are performed and documented.
- 3.2 Establish controls for receipting, recording, and depositing money received including immediately issuing prenumbered receipt slips for all money received and ensuring the method of payment is indicated on all receipt slips, receipt slips are issued in numerical sequence, the composition of receipts is reconciled to the composition of deposits, and all money received is deposited timely and intact.
- 3.3 Use prenumbered bond forms and/or issue prenumbered receipt slips immediately upon receipt. Reconcile the jailer's bond log to the court turnover log and the Administrative Assistant's receipt slips. In addition, account for the numerical sequence of the receipts/forms

⁶ <<https://www.sos.mo.gov/archives/localrecs/schedules>>, accessed June 9, 2025.

Randolph County Sheriff
Management Advisory Report - State Auditor's Findings

and reconcile the amounts on the documents to the amounts transmitted.

- 3.4 Ensure cumulative book balances, adequate monthly bank reconciliations, and monthly lists of liabilities are prepared and reconciled timely. Any discrepancies between accounting records and reconciliations should be promptly investigated and resolved.
- 3.5 Ensure adequate supporting documentation is maintained for all disbursements, and all records are retained in accordance with state law.
- 3.6 Establish proper controls over the signature stamp and blank checks that includes restricted access.

Auditee's Response

- 3.1 *Duties have already been segregated to the extent possible. The Jail Administrator and the Sheriff will perform supervisory reviews of accounting records on a periodic basis.*
- 3.2 *As of August 1, 2025, the Sheriff's office will use electronic receipting and procedures to immediately issue prenumbered receipt slips for all money received, reconcile the composition of receipts to the composition of deposits, account for the numerical sequence of receipt slips, and deposit all money received timely and intact.*
- 3.3 *The Sheriff's office will maintain a separate bond log, bond forms, and prenumbered receipt slips at each individual location that bonds are received. We will record the receipt slip number on the bond logs and reconcile the log to the amounts transmitted to the Administrative Assistant and Randolph Circuit Clerk's office.*
- 3.4 *As of August 1, 2025, Sheriff's office personnel will maintain book balances and prepare adequate monthly bank reconciliations including preparing monthly lists of liabilities and address any discrepancies promptly.*
- 3.5 *This has already been addressed. Sheriff's office personnel will submit all receipts and supporting documentation for disbursements to the Administrative Assistant and records will be retained as required by state law.*
- 3.6 *The Sheriff's signature stamp is now locked in the Sheriff's office. Only the Sheriff and the Chief Deputy Sheriff have access to and are allowed to use it and must initial and date beside it. The blank check stock has been relocated to a secure location and is accessible to the Administrative Assistant when needed.*

4. Prisoner Boarding

The Sheriff's office did not enter into written contracts for some prisoner boarding and did not have sufficient procedures to bill other counties for prisoner board. The Sheriff's office billed approximately \$291,000 for prisoner boarding for the year ended December 31, 2023. We identified the following concerns during our review of prisoner boarding:

- The Sheriff's office did not enter into written contracts with 12 of 14 counties for the boarding of prisoners detailing the housing rate to be paid, the services to be provided, or any required notification for emergency or non-routine situations. The Sheriff indicated contracts only existed if a lower rate than the office's standard rate of \$60 a day was billed. The Sheriff was not aware written contracts are required by state law for all counties, not just those at reduced rates.
- The Sheriff's office over billed the 2 counties it had written contracts with by \$7,513 during the 2 years ended December 31, 2023. The over billings resulted from billing at higher than the contracted rates. For example, one county with a contracted rate of \$38 per prisoner per day was charged \$40 per prisoner per day for some inmates. The other county, with a contracted rate of \$50 per day, was charged the standard rate of \$60 for some of its inmates. The Sheriff could not explain why the 2 counties were overbilled.
- The Sheriff's office had not performed an evaluation of the costs of housing inmates to ensure billing rates were sufficient to recover all costs. The Sheriff had not considered it necessary to evaluate the costs of housing inmates.

Section 432.070, RSMo, requires contracts for political subdivisions to be in writing. Written agreements, signed by the parties involved and specifying the services to be rendered and the manner and amount of compensation to be paid, are necessary to ensure all parties are aware of their duties and responsibilities and to prevent misunderstandings. Establishing procedures for reviewing board bills is necessary to ensure billings are accurate and any errors are corrected in a timely manner. Periodic evaluation of the costs of housing inmates is necessary to ensure billing rates are sufficient to cover costs and prevent the county from subsidizing the housing for other counties' inmates.

Recommendations

The Sheriff work with the County Commission to obtain written agreements with all counties for the boarding of prisoners, refund any overbillings, and develop procedures to ensure all prisoner boarding costs are accurately billed. In addition, the Sheriff periodically review the cost of boarding prisoners and establish billing rates that are sufficient to recover costs.

Randolph County Sheriff
Management Advisory Report - State Auditor's Findings

Auditee's Response

We are in the process of developing a standard written contract for boarding of all inmates and will ensure all counties who board prisoners in our jail have a signed contract in place by January 2026. In addition, we have implemented procedures to ensure all prisoner boarding costs are accurately billed and will discuss the best way to correct the over billings with the affected counties. Finally, we agree to determine the cost of boarding prisoners for budgeting purposes; however, we do not plan to change the standard rate of \$60 per day at this time as this is the current rate charged by all jails in our area.

5. Seized Property Controls

Sheriff's office personnel did not maintain complete, accurate records of seized property, and did not conduct periodic physical inventories of seized property.

The Sheriff's office recorded seized property in an electronic system with approximately 2,100 items recorded. We judgmentally selected 20 items from the system to determine if the information was accurate and identified 4 items that could not be located: \$6 cash, ammunition, a turkey fryer burner, and a blood sample. Sheriff's office personnel indicated the cash, ammunition, and burner were likely returned or disposed of, but they did not update the records. In addition, they indicated the blood sample was in the evidence room refrigerator but was not labeled. We later observed the sample had been labeled.

Office personnel had not conducted a periodic physical inventory of seized property since 2021. The Sergeant responsible for maintaining evidence indicated completion of a physical inventory had not been a priority.

Considering the often sensitive nature of seized property, adequate internal controls are essential and would significantly reduce the risk of loss, theft, or misuse of the property. Maintaining complete and accurate inventory control records and performing periodic physical inventories with the results compared to such records is necessary to ensure seized property is accounted for properly.

Recommendation

The Sheriff maintain complete and accurate seized property records, ensure a periodic inventory is conducted and reconciled to the seized property records, and investigate any differences.

Auditee's Response

At the beginning of Sheriff Boggs' term in office, a complete inventory of seized property was performed and the seized property records were updated. Going forward, complete and accurate seized property records will be maintained and an annual inventory will be completed and documented.

- (A) The memo line on the check for this transaction indicates the payment was a Christmas donation, the receipt for the transaction indicates the purchase was food for a local church Thanksgiving dinner.
- (B) These purchases were part of the Shop with a Deputy program.
- (C) The Sheriff provided a receipt indicating this cash was donated to Faith Bridge, a local foster care charity.
- (D) These three purchases were split into separate categories based on the items purchased.
- (E) Cash from this ATM withdrawal was provided to an employee as a travel cash advance for training. The Deputy returned \$120 after the trip and our inquiry and redeposited into the account.
- (F) All unsupported transactions were also considered to be improper.
- (G) Documentation of this transaction consisted of only the debit card charge slip and did not detail the purchases.

SCOTT FITZPATRICK
MISSOURI STATE AUDITOR

Honorable Mike Kehoe, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this compilation is to report the filing status for political subdivisions, other than cities, towns, and villages, required to file a financial report under Section 105.145, RSMo, and 15 CSR 40-3.030. Section 105.145, RSMo, provides that the State Auditor's Office shall notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Due to different filing requirements, a separate report is issued for cities, towns, and villages.

The filing status for the 10 political subdivisions required to file a financial report by July 31, 2025, is presented in summary on page 3 and by individual entity in Appendix A. We have not audited the information submitted and, accordingly, do not express an opinion or any other form of assurance on it.

This report also includes the updated filing status for political subdivisions, other than cities, towns, and villages, that filed a financial report in July 2025, after their filing deadline. The filing status for these 63 entities is presented in summary on page 3 and by individual entity in Appendixes B to D.

A handwritten signature in black ink that reads "Scott Fitzpatrick". The signature is stylized with a large, flowing "S" and "F".

Scott Fitzpatrick
State Auditor

Monthly Report on Political Subdivision Filings

July 2025

Executive Summary

Executive Summary

Section 105.145, RSMo, requires the governing body of each political subdivision in the state, except counties and school districts, to prepare and remit to the state auditor an annual report of financial transactions. Rule 15 CSR 40-3.030 requires the financial report to be remitted to the state auditor within 6 months of the end of the political subdivision's fiscal year. The State Auditor's Office posts individual annual financial reports to its website. A searchable link is available at <http://auditor.mo.gov>.

Section 105.145, RSMo, requires the state auditor to notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Any political subdivision that fails to timely submit the annual financial report shall be subject to a fine of \$500 per day upon notice by the Department of Revenue.

This report includes the filing status for the 10 political subdivisions, other than cities, towns, and villages, with a fiscal year end of January 31, 2025. Cities, towns, and villages have additional filing requirements and their reporting status is included in a separate report. Of the 10 political subdivisions, 8 filed an annual financial report timely.

This report also includes the filing status for 63 political subdivisions, other than cities, towns, and villages, that filed their financial report in July 2025, after their filing deadline.

SCOTT FITZPATRICK
MISSOURI STATE AUDITOR

Honorable Mike Kehoe, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this compilation is to report the filing status for the municipalities required to file a financial report by July 31, 2025, under Section 105.145, RSMo, and 15 CSR 40-3.030 and, when applicable, an addendum under Section 479.359, RSMo, and 15 CSR 40-3.170 and a municipal court certification under Section 479.360, RSMo, and 15 CSR 40-3.180.

Section 105.145, RSMo, provides that the State Auditor's Office (SAO) shall notify the Department of Revenue if any city, town, or village fails to timely submit a copy of its annual financial report. Additionally, Section 479.362, RSMo, provides that the SAO shall notify the Department of Revenue whether counties, cities, towns, and villages have timely filed under Sections 479.359 and 479.360, RSMo. Due to different filing requirements, a separate report is issued for all other political subdivisions required to file a financial report.

The filing status for the 1 city is presented in summary on page 3 and in detail in Appendix A. This compilation is limited to presenting information submitted to our office. We have not audited the information submitted and, accordingly, do not express an opinion or any other form of assurance on it.

This report includes the updated filing status for municipalities that filed at least one of the items (financial report, addendum, or certification) in July 2025, after their filing deadline. The filing status for these 31 cities, 2 towns, and 3 villages is presented in summary on page 4 and by individual entity in Appendixes B to F.

Scott Fitzpatrick
State Auditor

Monthly Report on Municipal Court and Revenue Filings

July 2025

Executive Summary

Executive Summary

Section 105.145, RSMo, requires the governing body of each political subdivision in the state, except counties and school districts, to prepare and remit to the state auditor an annual report of financial transactions. Rule 15 CSR 40-3.030 requires the financial report to be remitted to the state auditor within 6 months of the end of the political subdivision's fiscal year. The State Auditor's Office (SAO) posts individual annual financial reports to its website. A searchable link is available at <http://auditor.mo.gov>.

Section 105.145, RSMo, requires the state auditor to notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Any political subdivision that fails to timely submit the annual financial report shall be subject to a fine of \$500 per day upon notice by the Department of Revenue.

Section 479.359.1, RSMo, requires every county, city, town, and village to annually calculate the percentage of its annual general operating revenue received from fines, bond forfeitures, and court costs for minor traffic violations.

Section 479.359.3, RSMo, provides that all entities having a municipal court file an addendum to the annual financial report containing items listed in 15 CSR 40-3.170, which also provides the procedure to file an addendum.

Section 479.360, RSMo, requires every county, city, town, and village that has a municipal court to file, with its annual financial report, a certification of substantial compliance with 10 municipal court procedures. This certification must be signed by the municipal court judge. Rule 15 CSR 40-3.180 provides the procedure to file the municipal court certification. Any county, city, town, or village that does not have a municipal court judge is not required to file a certification.

Section 479.362, RSMo, requires the SAO to notify the Department of Revenue whether counties, cities, towns, or villages have timely filed their addendums under Section 479.359, RSMo, and certificates of substantial compliance under Section 479.360, RSMo. Section 479.368, RSMo, provides penalties for counties, cities, towns, and villages that fail to file, including loss of revenue and a mandatory ballot measure to dissolve the political subdivision.

This report includes the filing status for the 1 city with a fiscal year end of January 31, 2025, whose financial report was due by July 31, 2025. The 1 municipality filed the financial report timely. No municipalities were required to file an addendum or certification.

Monthly Report on Municipal Court and Revenue Filings
July 2025
Executive Summary

This report includes the filing status for 31 cities, 2 towns, and 3 villages that filed at least one of the items (financial report, addendum, or certification) in July 2025, after their filing deadline. Of these municipalities, 23 filed an annual financial report, 14 filed an addendum, and 5 filed a certification.

MISSOURI STATE AUDITOR'S OFFICE

ANNUAL REPORT

2024

Report # 2025-050

BY THE NUMBERS

* OVERSIGHT OF FEDERAL FUNDS

\$20.9 BILLION

This year's annual Statewide Single Audit reviewed: \$20.9 billion in federal funds, 16 federal programs, and 8 state agencies. The report included 18 findings.

* PROPERTY TAX RATES REVIEW

4,856

The State Auditor's Office annually reviews rates to determine compliance with state law. In 2024, staff reviewed 4,856 property tax rates of 2,807 taxing authorities.

* FINANCIAL REPORTS

3,303

The Missouri State Auditor's Office received 963 financial reports from municipalities and 2,340 financial reports from other political subdivisions.

* FISCAL NOTES

177

For the 2024 election cycle, the State Auditor's Office worked on fiscal notes for 174 initiative petitions submitted by citizens and 3 for joint resolutions approved by the legislature.

* BONDS REGISTERED

152

* REPORTS ISSUED

109

MESSAGE FROM AUDITOR FITZPATRICK

**SCOTT
FITZPATRICK**
Missouri State Auditor

2024 was a busy and productive year in the State Auditor's Office as we continued efforts to rebuild our staff to a level that will allow us to better fight waste, fraud, and abuse at the state, county, and local level. 2024 also saw our office receive new authority to audit municipalities and other local governmental entities when wrongdoing occurs. This newfound authority will allow us to shine the penetrating light of transparency in areas that have too often been plagued by fraudulent activities that took place under the cover of darkness.

During the 2024 calendar year, our office released 109 reports that give taxpayers a closer look at how their governmental entities are performing, as well as a roadmap for how they can improve. Whether we uncovered theft of public money, or simple mismanagement of taxpayer funds, our reports brought the truth of how these political subdivisions were performing into the public's view. As the state's taxpayer watchdog, this is a responsibility we do not take lightly, and we will continue to work each and every day to make sure your government is functioning in a manner you can trust.

It is an incredible honor to serve as Missouri's taxpayer watchdog and I take very seriously the duties entrusted to me by the voters to ensure their tax dollars are not misused. We have an incredible team here at the State Auditor's Office and you can rest assured we will remain vigilant in our efforts to make sure government at all levels is transparent, efficient, and accountable.

Scott Fitzpatrick

DUTIES OF THE STATE AUDITOR

The State Auditor's Office is Missouri's independent watchdog for taxpayers. The Missouri Constitution and state law give the State Auditor authority to audit:

- All state agencies, boards, and commissions
- School districts
- State court system
- Public employee retirement and healthcare systems
- Counties that do not have a county auditor
- Transportation Development Districts, Community Improvement Districts, and Land Bank Agencies
- Other political subdivisions upon petition by the voters of those subdivisions

The State Auditor's Office also has the discretionary authority to conduct an audit of any political subdivision of the state, if, after receiving a whistleblower complaint, the office deems the complaint credible following an initial investigation.

Audits examine financial accountability; look for waste, abuse and fraud; and evaluate whether government organizations and programs are achieving their purposes and operating economically and efficiently. All audits are performed in accordance with generally accepted government auditing standards issued by the Comptroller General of the United States.

Whistleblower Hotline

Missourians may contact the state auditor's Whistleblower Hotline with concerns related to fraud or waste in government operations by calling (800) 347-8597, by emailing moaudit@auditor.mo.gov, or by using the online submission form at auditor.mo.gov/hotline. Callers may choose to remain anonymous. Citizens are urged to contact the Auditor's Office if they have information they believe could be useful to audit staff.

DUTIES OF THE STATE AUDITOR

Fiscal Notes

The State Auditor's Office is responsible for assessing the fiscal impact of constitutional amendment petitions, statutory initiative petitions, and referendum petitions, as well as joint resolutions proposing constitutional amendments or bills adopted by the General Assembly without a fiscal note summary, which are to be referred to a public vote. The fiscal note and fiscal note summary for each petition, joint resolution, or bill state the initiative's estimated costs or savings, if any, to state and local governmental entities, and must be completed within 20 days of receipt.

Bond Registration

The State Auditor's Office is responsible for reviewing and registering general obligation bonds issued by political subdivisions in Missouri to ensure those bonds comply with both state law and the conditions of the contracts under which the bonds will be issued.

Review of Property Tax Rates

State law requires the Missouri State Auditor to annually certify all taxing jurisdictions throughout Missouri as to their compliance with state law and the tax limitation provisions in Article X, Sections 16 through 24 of the Missouri Constitution, commonly known as the Hancock Amendment. The State Auditor's Office property tax rate report states whether a taxing jurisdiction has met its obligation to set an overall tax rate at a level approved by voters and within the limits set by Missouri law.

Financial Reports

State law requires the State Auditor's Office to notify the Department of Revenue if any city, town, or village fails to timely submit a copy of its annual financial report. State statute also requires the office to report the filing status of political subdivisions other than cities, towns, and villages that are required to file.

SCHOOL ACCOUNTABILITY

When Auditor Fitzpatrick first took office in 2023, he emphasized the need to give parents and taxpayers more information about how their schools are performing. While schools are required by law to have financial audits every year, historically they have rarely received audits that evaluate the efficiency and effectiveness of district operations. While the State Auditor's Office has the authority to perform such audits of the more than 500 school districts in Missouri, Fitzpatrick said previous administrations had on average produced one school district audit per year. In 2024 he was able to make good on his promise to perform more reviews of Missouri school districts as his office released audit reports for two school districts while also launching audits of two more.

Francis Howell R-III School District

A report released on the school district gave parents and taxpayers in the Francis Howell R-III School District the answers they deserve on how a new high school projected to cost \$86 million skyrocketed to a final cost of more than \$164 million. The audit report gave the school district the lowest possible rating of "poor" and identified several issues with the management of projects financed by Proposition S, as well as other aspects of how the district is run.

Kingston K-14 School District

A report on the Kingston K-14 School District gave district leaders recommendations to improve the way they manage and oversee taxpayer dollars. The audit, which was initiated by a petition signed by 299 residents of the district, gave the district a rating of "fair" noting the School Board gave \$68,500 in unreasonable stipends to district employees and violated the Missouri Constitution by paying retroactive extra-duty stipends totaling \$2,600.

Independence School District

Auditor Fitzpatrick announced his office launched an audit of the Independence School District that will look not only at the district's finances but also at its overall performance as it relates to providing a quality education to students.

"We will take a thorough look at how the Independence School District is operating with the goal of providing parents with the information they deserve to know about how the district is performing and make necessary recommendations on how the district can make their schools more efficient and more effective for their students," said Fitzpatrick.

St. Louis Public School District

Auditor Fitzpatrick launched an audit of the St. Louis Public School District amid growing concerns over the district's operating budget, which went from a \$17 million surplus to a \$35 million projected deficit, as well as contracts that may have been issued without competitive bidding requirements or scrutiny of the SLPS Board of Education.

FIGHTING PUBLIC CORRUPTION

The Public Corruption and Fraud Division is a unit within the Missouri State Auditor's Office dedicated to rooting out fraud, waste, and abuse in state, county, and local government and assisting law enforcement to ensure public officials are held accountable.

Audits performed by the Public Corruption and Fraud Division examine financial accountability, waste, opportunities for fraud, and whether government organizations and programs are operating economically and efficiently.

Naylor-Neelyville Ambulance District

The audit of the ambulance district resulted in criminal charges being filed against the former director after the report found he authorized nearly a quarter of a million dollars in unsupported payments using district funds.

The audit found at least \$249,247 was misappropriated from the district. From 2017 to 2020, the former director improperly paid his wife, who served as billing clerk, \$55,010 and authorized improper payments to his mother, who served as board secretary, totaling \$20,950. From 2017 to 2023, the former director improperly paid himself \$173,287.

City of Excelsior Estates

The audit found a municipality in total disarray with missing financial records, other vital city records stored in a makeshift camper trailer made from the bed of a pickup truck, and potentially hundreds of thousands of taxpayer dollars wasted by improper payments made by the former mayor.

The audit report detailed how a lack of proper oversight and segregation of duties allowed the former mayor to improperly pay himself more than \$37,000, and potentially funnel more than \$200,000 in city funds to businesses he owned.

City of Desloge Municipal Court

The report detailed how the former Court Administrator for the City of Desloge Municipal Court was responsible for at least \$3,886 in missing money, and may have used methods to conceal another \$4,482 in potentially missing funds.

The audit report, which was prompted by a Whistleblower Hotline submission, gave the court a rating of "poor" and recommended the City of Desloge Municipal Court Division work with law enforcement officials to pursue those responsible for the missing money.

Washington County Collector

The report shed additional light on the questionable decisions made by the former Washington County Collector that led to her removal from office and criminal charges being filed against her.

The report found the former collector did not record or deposit at least \$107,081 in county trustee property sales receipts from the sale of over 1,700 properties from 2018 to 2021. The audit also identified how she improperly transferred at least \$3,700 from the Tax Maintenance Fund bank account to her personal bank account, and made at least \$3,211 in questionable disbursements by check and debit card.

EVALUATING STATE PROGRAMS

Missouri's Property Tax Credit Program

A report released by Auditor Fitzpatrick found significant inadequacies with Missouri's Property Tax Credit that led to incomplete claims being approved, eligible claims being denied, and incorrect amounts being awarded. The report, which gave the program a rating of "poor," also found the Department of Revenue (DOR) failed to retain supporting documentation in some cases, exposed the system to an increased risk of fraud, and failed to give the General Assembly complete and accurate information for use in budget decisions.

The audit looked at 59 claims that were approved by the department's Revenue Premier software but did not receive a manual review by a human being. Only 24 of the 59 claims were appropriately determined to be eligible and supported by required documentation. More than half the claims (31) had insufficient documentation to determine eligibility, 3 claims were eligible but the amount of the claim was miscalculated, and 1 claim was ineligible for the credit and approved in error. The report noted that for the year ended June 30, 2022, 77 percent of the 142,203 claims were processed without a manual review by DOR personnel.

Proxy Voting Policies of Public Pension Systems

Another report released by the State Auditor's Office detailed how most of the state's largest public pension systems failed to put policies in place to ensure corporate voting decisions prioritize shareholder return. The report examined the proxy voting policies of the state's eight largest public retirement systems, which manage more than \$85.2 billion, and found most of the systems need to provide more guidance on how they want proxy votes cast, and that all of the systems need to improve their review of proxy votes to make sure they comply with their policies. The lack of guidelines and review resulted in proxy votes for these systems being cast in an inconsistent manner. A review of seven Environmental, Social, and Governance (ESG)-related proxy votes during the audit period noted five instances in which proxy votes for a system were made both for and against the same proposal, effectively canceling out the vote of pension members.

Cyber Security Awareness and Training

A report released by Auditor Fitzpatrick looked at awareness and training efforts for 34 state government entities that include nearly 52,000 state employees and found both a need for improved oversight for awareness training efforts for some entities, and the need to implement effective training and phishing testing for others.

The audit report examined the policies and procedures related to security awareness training for 18 state government entities that are overseen by the Office of Administration Information Technology Services Division (ITSD), as well as 16 state entities that are structurally independent of the ITSD. For the consolidated entities (CEs) overseen by ITSD, the report found approximately 20 percent of employees did not complete any security awareness training during the test period despite the fact ITSD policy requires all employees who use state-owned systems to complete monthly security awareness training. For the non-consolidated entities (NCEs) not overseen by ITSD, the report found 4 of the 16 entities do not provide or obtain ongoing security awareness training for their employees.

COUNTY GOVERNMENT OVERSIGHT

Vernon County

The former Vernon County Clerk misused taxpayer dollars to buy himself a retirement gift, and to make other questionable purchases of items such as a heated vest according to a report released by Auditor Fitzpatrick. The regularly-scheduled audit, which gave the county the lowest possible rating of "poor," also found Vernon County residents were overtaxed by approximately \$123,000 in property tax revenue by not properly rolling back the property tax levy for all sales tax collected. The audit documented nearly \$5,300 in purchases by the former clerk that were either inappropriate or inessential to the administration and operation of the office.

Benton County

A regularly-scheduled audit conducted by the office of Auditor Fitzpatrick gave Benton County the lowest possible rating of "poor" and found county officials intentionally disregarded and violated state law to overtax residents by approximately \$200,000. The report also found the Benton County Public Administrator made questionable payments to members of her family for tax preparation services for wards without considering other vendors and ensuring the services were obtained at the lowest cost, and identified lacking financial controls and procedures for the county.

Montgomery County

An audit of Montgomery County showed county officials have made improvements to several areas of county government since a 2016 audit gave the county a rating of "poor," but also contained several findings that indicate the county still has work to do. The audit gave the county a rating of "fair," and found the county overtaxed its residents by approximately \$89,000 in 2022 because the County Clerk reported incorrect assessed valuation totals to the State Auditor's Office.

Butler County

According to a report released by Auditor Fitzpatrick, Butler County residents were overtaxed by approximately \$222,770 over a three-year period because of a miscalculation by the County Clerk. The regularly-scheduled audit of Butler County also contained 10 other findings and gave the county an overall rating of "fair." The report documented how the County Clerk failed to accurately calculate property tax levy reduction amounts, which resulted in approximately \$222,770 in excess property taxes being collected for 2020, 2021, and 2022.

Bates County

The audit, which gave the county a rating of "fair," focused on how the Prosecuting Attorney's Office procedures resulted in some crime victims not receiving the restitution payments they are owed. The report documented how, as of December 2023, the Prosecuting Attorney was holding and planned to improperly disburse at least \$2,000 to victims other than those intended. The Prosecuting Attorney also improperly disbursed unclaimed court-ordered restitution to victims other than those intended totaling \$17,386, in June 2021.

Missouri State Auditor

St. Louis Regional Convention and Sports
Complex Authority and Use of Rams
Settlement Funds

Report No. 2025-049

August 2025

auditor.mo.gov

CITIZENS SUMMARY

Findings in the audit of the St. Louis Regional Convention and Sports Complex Authority and Use of Rams Settlement Funds

Insufficient Planning for Future Needs of the Dome

The St. Louis Regional Convention and Sports Complex Authority (RSA) has not adequately planned to meet the future maintenance obligations of The Dome at America's Center (the Dome), bringing into question the long-term financial condition of the RSA and the Dome, despite receiving a substantial settlement from the NFL. Expected Dome maintenance needs exceed available resources by approximately \$67 million. Based on a recent facility condition assessment conducted for the RSA, the Dome will require an estimated \$155 million in repairs and maintenance over the next 10 years to keep equipment functional, deliver a positive guest experience, and remain locally and nationally relevant. As of December 31, 2023, the cash balance of the RSA was approximately \$87 million. This balance includes the \$70 million in NFL settlement funds the RSA received in 2023. After investment of NFL settlement funds, the cash balance of the RSA increased to approximately \$88 million by December 31, 2024. While significant, this balance is still well below what is needed to complete the necessary repairs and maintenance.

Revenues generated from the events and activities hosted in the Dome currently do not go toward funding the RSA and preservation of the Dome. For example, attendees of an event held at the Dome come to St. Louis, pay for admission to attend the event, pay for hotel stays that generate lodging taxes, eat at restaurants in the city and/or the county, and potentially shop and spend money on entertainment while attending the event. Currently, none of the revenues from any of these activities go toward the maintenance and preservation of the Dome. This includes a 3.5 percent Convention and Sports tax imposed by St. Louis County on hotel stays within the county. The statutory purpose of this tax is for "funding a regional convention and sports complex authority and for other recreational and entertainment purposes." St. Louis County previously used this tax to make the county's preservation payments to the RSA. While St. Louis County has stopped making preservation payments to the RSA, the county still collects this lodging tax.

The RSA also has an ongoing lease agreement with the Convention and Visitors Commission (CVC) that originated in 1991. The lease agreement allows the CVC to market the space in the Dome and attract vendors and events to use the facility. According to the RSA Executive Director, the RSA does not receive any money for events hosted at the Dome, and instead all money received from events goes to the CVC. However, the lease agreement states the CVC is not responsible for assisting the RSA with preserving the Dome, which remains an obligation of the RSA. Additionally, the CVC receives funds from a 3.75 percent Convention and Tourism tax charged on hotel stays within St. Louis County that was approved by voters in 1984. This tax is separate from, and in addition to, the 3.5 percent Convention and Sports tax assessed on hotel stays in St. Louis County and received by the county.

Invoice Reviews Are Not Adequate and Procurement Procedures Do Not Exist

Significant weaknesses were noted in the oversight of the planning phase of the riverfront stadium project. Normal commission approval procedures were overridden for expenses related to the riverfront stadium. This change resulted in the payment of invoices without sufficient detail, payment of unreasonable expenses, and payment of invoices without any formal approval. In addition, the RSA did not use a formal policy for procuring professional services related to the riverfront stadium project and continues to not have a formal procurement policy in place.

During the riverfront stadium project, a total of 44 vendors were contracted and paid, including 23 vendors for professional services and 21 vendors for land contract options. The audit judgmentally selected 30 invoices that collectively totaled \$2.1 million to determine if sufficient detail was included to describe the product or service. These 30 invoices were from 15 different vendors contracted by the RSA for planning, developing, financing, and constructing the riverfront stadium. These 15 vendors received \$15.1 million of the total \$19.4 million spent by the RSA on the riverfront stadium project. Testing of these invoices identified various issues including invoices that were not adequately detailed, unreasonable expenses that were paid because of inadequate review, and the project consultant approving his own invoices for payment.

County Settlement Funds Spent Without Formal Analysis of Needs

The St. Louis County Council has approved spending \$56.2 million of the \$169 million received for the settlement related to the Ram's departure from the City of St. Louis without a formal process to evaluate potential uses and to determine the most effective use of the funds. The Council has not established formal criteria for deciding which projects will receive settlement funding or established any potential restrictions on settlement fund use. Instead, the Council has decided on a case-by-case basis to use settlement funds for various purposes. In contrast to the county, the City of St. Louis has not allocated any of its settlement funds. Instead, it is performing planning to identify the best uses for its share of the settlement funds based on the needs of the city. The RSA similarly has not allocated any of its settlement funds, and is also developing a plan to identify how it can best benefit from this money.

In the areas audited, the overall performance of this entity was Fair .*

*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

- Excellent:** The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.
- Good:** The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.
- Fair:** The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.
- Poor:** The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

SCOTT FITZPATRICK
MISSOURI STATE AUDITOR

Board of Commissioners
and
Marty Finn, Executive Director
and
Brian McMurtry, Preservation Manager
St. Louis Regional Convention and Sports Complex Authority
and
Honorable Cara Spencer, City of St. Louis Mayor
and
Honorable Dr. Sam Page, St. Louis County Executive
St. Louis, Missouri

We have audited certain operations of the St. Louis Regional Convention and Sports Complex Authority (RSA) and the use of Rams settlement funds by the RSA, City of St. Louis, and St. Louis County in fulfillment of our duties under Chapter 29, RSMo. The RSA spent approximately \$19.4 million to attract the St. Louis Rams to stay in Missouri, and a settlement of more than \$790 million was received to be allocated between the RSA, the city, and the county after the Rams departed the City of St. Louis in 2016. Both of these amounts are of significant interest to the public and to the St. Louis region. The scope of our audit included but was not necessarily limited to the fiscal year ended December 31, 2023. The objectives of our audit were to:

1. Evaluate procurement procedures, contracts, and work products related to professional services performed for the RSA.
2. Evaluate the use of the Rams settlement funds by the RSA, the City of St. Louis, and St. Louis County.
3. Evaluate the RSA's financial condition.

We conducted this performance audit in accordance with generally accepted government auditing standards. Those standards require that we plan and perform the audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides a reasonable basis for our findings and conclusions based on our audit objectives.

For the areas audited, we identified (1) weaknesses in the RSA's procurement procedures and work products, (2) a deficiency in the use of settlement funds by St. Louis County, and (3) concerns regarding the RSA's financial condition.

The accompanying Management Advisory Report presents our findings arising from our audit of the St. Louis Regional Convention and Sports Complex Authority and Use of Rams Settlement Funds.

A handwritten signature in black ink, appearing to read "S. Fitzpatrick". The signature is stylized with a large initial "S" and a prominent horizontal line.

Scott Fitzpatrick
State Auditor

St. Louis Regional Convention and Sports Complex Authority and Use of Rams Settlement Funds

Introduction

Background

The St. Louis Regional Convention and Sports Complex Authority (RSA) is established by Sections 67.650 through 67.658, RSMo. The RSA is empowered to plan, construct, operate, and maintain convention centers, sports stadiums, field houses, and indoor and outdoor recreational and entertainment facilities in the City of St. Louis. The RSA Board of Commissioners consists of its statutory maximum of 11 individuals, and 1 commissioner serves as the chairman. All of the commissioners are residents of either the City of St. Louis, St. Louis County, or a county that borders St. Louis County. In accordance with Section 67.652, RSMo, 3 commissioners were appointed by the City of St. Louis Mayor with the advice and consent of the Board of Aldermen, 3 commissioners were appointed by the County Executive of St. Louis County with the advice and consent of the County Council, and 5 commissioners were appointed by the Governor with the advice and consent of the Senate. The current commissioners¹ and their titles, if applicable, are as follows:

Rev. Earl Nance Jr., Chairman
David Spence, Vice Chairman
Joseph Blanner, Secretary-Treasurer
Charlie Dooley
Steve Brown
Sherita Haigler
Leah Harris
Zoe Wolkowitz Brannon
Chrissy Nardini
Christopher Saracino
Phil Torrisi

The RSA's primary responsibility is maintaining The Dome at America's Center (the Dome), a domed sports stadium that hosts various types of events including athletic events, conventions, concerts, and trade shows. These events generate direct and indirect economic benefits from a variety of sources, including admission fees, meals, and hotel stays. Attached to the Dome is the America's Center Convention Complex, which offers meeting rooms, exhibit halls, and ballroom and conference space. Although the Dome and the America's Center Convention Complex are physically connected, the RSA is only responsible for maintaining the Dome, and the Convention and Visitors Commission (CVC) maintains the America's Center Convention Complex.

Construction of the Dome began in 1992 as an eastward expansion to the already existing Cervantes Convention Center in downtown St. Louis.

¹ Current commissioners as of April 10, 2025, according to the RSA website <<http://www.stlrsoa.org/index.html>>, accessed April 10, 2025.

St. Louis Regional Convention and Sports Complex Authority and Use of Rams Settlement Funds

Introduction

Construction ended in 1995, and the Dome was completed to contain approximately 1.7 million square feet of multipurpose convention and trade show space and an indoor sports facility with 122 luxury suites. The Dome has a capacity of approximately 67,000 seats for viewing arena-style events. Project bonds with a total principal amount of \$258,670,000 were issued to pay the costs of acquiring land and constructing the expansion. The bonds were sponsored by the state of Missouri, St. Louis County, and the City of St. Louis.

On August 1, 1994, the RSA entered into an agreement with the City of St. Louis, St. Louis County, and the state of Missouri that required each entity to make semiannual preservation payments to the RSA for the purpose of maintaining and improving the stadium facility. The RSA continued to receive preservation payments until February 1, 2024, when the agreement was scheduled to end. According to the agreement, the payment amounts were as follows:

- State of Missouri - \$1 million (\$2 million annually)
- City of St. Louis - \$500,000 (\$1 million annually)
- St. Louis County - \$500,000 (\$1 million annually)

Preservation costs are distinctly different than other operating costs or regular maintenance. Preservation costs are considered the costs of repairs and replacements of the physical structure, fixtures, machinery, equipment, and furniture of the facility.

Relationship with the Convention and Visitors Commission

The RSA has an ongoing lease agreement with the CVC that originated in 1991. The lease agreement allows the CVC to market the space in the Dome and attract vendors and events to use the facility. The CVC is authorized to enter into any contracts or agreements it deems necessary, and to define in these contracts the terms of payment. According to the RSA Executive Director, the RSA does not receive any money for events hosted at the Dome, and instead all money received from events goes to the CVC. In exchange for receiving the money for hosting the events at the Dome, the CVC is obligated to pay for various costs and charges including some operating expenses, the costs of insurance, and the costs of select taxes and governmental charges. However, the lease agreement states the CVC is not responsible for assisting the RSA with preserving the Dome, which remains an obligation of the RSA. Additionally, the CVC also receives funds from a 3.75 percent Convention and Tourism tax charged on hotel stays within St. Louis County that was approved by voters in 1984. The statutory purpose of this tax is "to provide

St. Louis Regional Convention and Sports Complex Authority and Use of Rams Settlement Funds

Introduction

funds for the promotion of regional convention and tourism and cultural and performing arts development."²

Riverfront stadium project

In 2014 the RSA began pre-construction on a new multipurpose stadium on the St. Louis riverfront (the riverfront stadium project) in an effort to entice the St. Louis Rams to remain in St. Louis instead of moving to Los Angeles, California. To assist the RSA with this project, former Missouri governor Jay Nixon appointed a task force consisting of two individuals: Robert Blitz and David Peacock. Robert Blitz is an attorney and founding member of the legal firm Blitz, Bardgett, & Deutsch (BB&D), and David Peacock was the former St. Louis Sports Commission Chairman in addition to having previously held other positions in the private sector. Along with the task force, the RSA contracted a third-party consulting firm, Unlimited Projects Inc., to be the primary project consultant. According to the task force, planning and consulting for the construction of a multipurpose sports stadium requires a very specialized skillset. The President of Unlimited Projects Inc. had previous experience with constructing sports stadiums, and therefore, was recommended to the RSA by the task force, and was selected without a formal procurement process. The RSA spent approximately \$19.4 million on the riverfront stadium project as shown in Table 1:

Table 1: Summarized riverfront stadium project expenses

Purpose	Expense Amount
Consulting services	\$ 14,286,937
Legal services	2,068,175
Land acquisition option fees	1,337,500
Other miscellaneous expenses	1,701,276
Total	\$ 19,393,888

Source: Prepared by the State Auditor's Office (SAO) using RSA-provided expense records. See Appendix D for the amount paid to each vendor in their respective categories.

The riverfront stadium project was canceled in January 2016 when the owners of the Rams made the decision to relocate the Rams to California. Following the Rams' relocation to California, the RSA took legal action against the NFL, believing the Rams owners were not transparent about their desire to relocate the team. The RSA claimed the Rams led the RSA to believe a new riverfront stadium would keep the team in St. Louis; however, the team left despite the RSA's planning efforts for a new stadium. Other accusations against the NFL included a breach of contract and violation of NFL relocation guidelines.

In addition to the RSA, the City of St. Louis and St. Louis County were plaintiffs in the lawsuit. All three parties were jointly represented by BB&D

² As authorized by Section 67.619, RSMo. This tax is separate from, and in addition to, the 3.5 percent Convention and Sports tax assessed on hotel stays in St. Louis County and received by the county. See page 11 for additional information on this tax.

St. Louis Regional Convention and Sports Complex Authority and Use of Rams Settlement Funds

Introduction

and Dowd Bennett. Based on conversations with the RSA, the city, and the county, no other firm offered to take the case, and the plaintiffs were satisfied with the terms of the contract with BB&D and Dowd Bennett. For example, the contract was a contingent agreement, so the firms would only be paid if they won the case, and the percentage of the winnings to be paid to the firms was agreeable to all parties. After almost 5 years of litigation, a settlement agreement was reached in November 2021, and \$790 million, collectively, was awarded to the plaintiffs. The contingent agreement between the law firms and the plaintiffs stated 35 percent of this sum was to be paid to BB&D and Dowd Bennett, leaving approximately \$513 million to be shared between the RSA, the city, and the county.

When the settlement agreement was signed, the RSA, the city, and the county entered into mediation to determine how to distribute the funds between the three entities. After approximately 1 year, the parties came to an agreement and a distribution contract was signed in November 2022.

The \$513 million collective sum was originally placed in a lawyer's trust checking account on December 23, 2021. The money remained in this account until April 29, 2022, when the sum was moved to a money market account. In total, the collective sum grew to \$519 million before a distribution contract was enacted and the settlement funds were distributed in January 2023 as follows:

- The City of St. Louis received \$250 million,³
- St. Louis County received \$169 million, and
- The RSA received \$70 million.

Scope and Methodology

The scope of our audit included, but was not necessarily limited to, the year ended December 31, 2023.

To evaluate procurement procedures, contracts, and work products related to professional services performed for the RSA, we reviewed the RSA's procurement requirements in Section 8.289, RSMo, and interviewed RSA personnel to identify relevant procedures. We also obtained a listing of all expenses paid by the RSA between January 2015 and December 2023 for professional legal services. In total, there were 158 invoices for legal services paid to 5 firms. We also reviewed all invoices for all services relating to the pre-construction of the riverfront stadium project. In total, there were 235

³ In addition to the \$250 million, the city also received \$30 million on contingency that it decided to appropriate to the convention center expansion project. Had the city decided not to appropriate the contingent funds, the RSA would have received an additional \$30 million.

St. Louis Regional Convention and Sports Complex Authority and Use of Rams Settlement Funds

Introduction

invoices for consulting services, land acquisition, project legal expenses, and advertising paid to 44 vendors.

During our testing of procurement procedures we identified deficiencies in the review process and a significant lack of controls regarding invoice review for services the RSA procured for the riverfront stadium project (see Management Advisory Report finding number 2).

To evaluate the RSA's use of the settlement funds, we met with the RSA Executive Director, the RSA Preservation Manager, and multiple RSA commissioners at various points during the audit to discuss use of settlement funds. We also reviewed long-range plans and budget analyses prepared by the RSA to identify the expected future costs and how the settlement funds might be used to pay for those costs. We also met with officials from the City of St. Louis and St. Louis County to discuss their plans for the settlement funds. We discussed current plans for the funds, as well as projects they already allocated funds toward, with members of the St. Louis County Council. The City of St. Louis Board of Aldermen provided us several sources of information including an online tool for collecting public suggestions and a proposed board resolution to prioritize select projects based on public suggestions.

To evaluate the RSA's financial condition we reviewed several different indicators of financial performance. We obtained copies of the RSA's audited and compiled financial statements from 2014 through 2023 and analyzed trends in net position and outstanding debt. To avoid duplication of work, we reviewed prior financial statement audits for any relevant information. We also received copies of the 2022 and 2023 monthly bank statements. We identified the three primary accounts that the RSA uses: a checking account, a preservation account, and an expense account. We analytically reviewed the various withdrawals and deposits to and from those accounts and reviewed the net changes to the beginning and ending market values of the preservation and expense funds. Using bank records we created a schedule of transactions for the RSA's checking account for analytical review. Additional discussions were held with RSA and county officials regarding potential funding sources and uses of those funds.

St. Louis Regional Convention and Sports Complex Authority and Use of Rams Settlement Funds

Management Advisory Report - State Auditor's Findings

1. Insufficient Planning For Future Needs of the Dome

The St. Louis Regional Convention and Sports Complex Authority (RSA) has not adequately planned to meet the future maintenance obligations of The Dome at America's Center (the Dome), bringing into question the long-term financial condition of the RSA and the Dome, despite receiving a substantial settlement from the NFL. Expected Dome maintenance needs exceed available resources by approximately \$67 million.

Future maintenance projections significantly exceed current financial resources, and the RSA does not currently have any significant sources of ongoing revenue beyond interest income from investments. Previously, the RSA was receiving annual preservation payments from the City of St. Louis, St. Louis County, and the state of Missouri, which allowed for a base level of funding for maintenance, but those payments contractually ended as of February 1, 2024. RSA commissioners were aware this funding stream was going to end, but the Commission has made no significant effort to seek additional reoccurring funding to replace the preservation payments. While the NFL settlement funds provided much-needed funding for maintenance, these funds alone are not sufficient to meet long-term maintenance needs. Without adequate resources in place to cover the long-term maintenance needs of the Dome, the long-term viability of the Dome may be at risk.

Preservation funds were insufficient for the maintenance needs of the Dome

Prior to receiving the NFL settlement in 2023, the RSA was almost entirely dependent on the ongoing preservation payments from the city, county, and state. Preservation payments of \$4 million per year were paid to the RSA from August 1994 until February 2024. These payments were to pay for operating expenses as well as maintenance of the Dome. Long range maintenance projections provided by the RSA show that those preservation payments had been insufficient to pay for all maintenance needs, and that significant levels of maintenance expenses were being deferred due to the limited funding.

It is unclear how the Dome's maintenance was going to be paid past 2024 with the expiration of these preservation funds. The payment of \$70 million in NFL settlement funds in 2023 provided a timely and significant influx of funds to the RSA for maintenance needs. However, even with this influx of funds, RSA resources are insufficient to meet short-term maintenance needs.

Based on a recent facility condition assessment conducted for the RSA, the Dome will require an estimated \$155 million in repairs and maintenance over the next 10 years to keep equipment functional, deliver a positive guest experience, and remain locally and nationally relevant. As of December 31, 2023, the cash balance of the RSA was approximately \$87 million. This balance includes the \$70 million in NFL settlement funds the RSA received in 2023. After investment of NFL settlement funds, the cash balance of the RSA increased to approximately \$89 million by December 31, 2024. While significant, this balance is still well below what is needed to complete the necessary repairs and maintenance.

St. Louis Regional Convention and Sports Complex Authority and Use of Rams Settlement Funds Management Advisory Report - State Auditor's Findings

Figure 2 shows the RSA's non-settlement revenue during the 10 years ended December 31, 2023.

Figure 2: RSA non-settlement revenue, year ended June 30, 2014 to 2023

* The RSA received \$70 million in settlement money in January 2023, resulting in the significant increase in interest/investment income in 2023.

Source: Prepared by the State Auditor's Office (SAO) using the RSA Financial Statements for years ended December 31, 2014, through December 31, 2023.

In anticipation of the preservation payments ending, the RSA commissioners reduced short-term maintenance expenses in an attempt to extend the life of remaining preservation funds. The Commission began discussions in June 2022 to reduce 2023 budgeted maintenance from \$4 million annually to less than \$2.5 million annually. This adjustment was necessary because mediation for the distribution of the collective settlement funds was still ongoing at the time, and the RSA had not yet received its share of the funds.

RSA settlement was less than the amount requested

During negotiations for distributing the NFL settlement funds, the RSA prepared a document to detail the RSA's needs and potential uses of the settlement funds. The RSA asked for \$135 million from the collective settlement to reimburse funds spent on the riverfront stadium project, fulfill various financial obligations, pay for 15 years of operating expenses, and pay for various preservation projects that were not already scheduled in the preservation budget. The RSA estimated the total costs for these projects as \$108 million. The \$70 million received from the settlement was significantly less than what was requested, leaving a substantial gap in funding needed to maintain and operate the Dome.

RSA Commission has not requested additional funding

Despite the substantial gap in needed funding, the RSA Commission has taken no significant effort to pursue additional sources of funding. For example, as of May 1, 2025, the RSA has not contacted the city or the county to begin discussions about obtaining continuous funding, according to

St. Louis Regional Convention and Sports Complex Authority and Use of Rams Settlement Funds Management Advisory Report - State Auditor's Findings

representatives of the City of St. Louis Board of Aldermen and the St. Louis County Council.

According to the RSA Executive Director, the decision to abstain from requesting additional funding was based on a perceived lack of need. The RSA felt that it could not justify a request for additional funding because of the significant financial windfall from the NFL settlement. Furthermore, legal counsel for the RSA indicated the RSA frequently communicates with its governmental affairs consultant who provides legislative updates. The consultant indicated there could be some animosity at the state level toward the RSA if it pursues funding after the unsuccessful riverfront stadium project, and recommended to the RSA not to request additional funding from the state at this time. No attempts to obtain additional funding from the state have been made as of May 1, 2025.

Additional funding options are available to the RSA, but are not dedicated

St. Louis County currently imposes a 3.5 percent Convention and Sports tax charged on hotel stays within St. Louis County, and deposits these revenues into the Convention and Recreation Trust Fund. The statutory purpose of this tax is for "funding a regional convention and sports complex authority and for other recreational and entertainment purposes."⁴ St. Louis County previously used this tax to make the county's preservation payments to the RSA. While St. Louis County has stopped making preservation payments to the RSA, the county still collects this lodging tax.

Statute requires collections for the tax to be used to pay the county's share of any rent, fees, or charges payable to any contracts or agreements with the RSA. Any funds in excess of these obligations may be retained by the county for general revenue purposes if the county has another qualifying project. The RSA Executive Director indicated the only relevant agreement that defined what the county was required to pay was the agreement previously establishing the preservation payments. Since this agreement has expired and the preservation payments have ended, all Convention and Sports tax collections are considered to be in excess of the county's now-fulfilled obligation. As a result, the county may continue collecting the tax and use those collections for its own general revenue purposes. According to the county's Council Budget Policy Coordinator, the portion of the county's collections from the tax that do not go to the RSA are used for refunding various county bonds, paying trustee fees, and performing a feasibility study for a track and field complex in the county.

⁴ As authorized by Section 67.657.4, RSMo. This tax is separate from, and in addition to, the 3.75 percent Convention and Tourism tax assessed on hotel room stays in St. Louis County that is distributed to the CVC.

St. Louis Regional Convention and Sports Complex Authority and Use of Rams Settlement Funds Management Advisory Report - State Auditor's Findings

The county's 2023 Annual Comprehensive Financial Report indicated the Convention and Recreation Trust Fund, which receives the collections from this tax, had an increase of \$9.1 million in 2023, and an ending fund balance of \$37.9 million. When asked if the RSA had considered requesting additional funding from the county because the county is still receiving the Convention and Sports tax, the RSA Executive Director indicated no such conversations have taken place. When asked if the county would consider making payments to the RSA now that the preservation payments stopped, county officials indicated they do not have intentions of providing future funding to the RSA given the county's weak financial position.

Conclusions and insight

The settlement funds received have provided the RSA with the ability to perform a level of maintenance on the Dome that otherwise would not be able to be performed. However, based on the RSA's own projections, current resources are not sufficient to maintain the Dome in the long term.

The RSA has a fiduciary responsibility to the public to preserve the Dome. By neglecting to prudently plan for the future of the Dome, the resources available to the RSA are significantly less than the amount needed for long-term repairs and maintenance. This brings into question the financial condition of the RSA and its ability to meet its statutory obligations to continue providing maintenance and repair to the Dome.

Funding options for the RSA and the preservation and maintenance of the Dome are limited, but available. However, there are no longer any ongoing sources of revenue dedicated to the Dome's maintenance and preservation. Revenues generated from the events and activities hosted in the Dome currently do not go toward funding the RSA and preservation of the Dome. This includes indirect economic activity generated by events held at the Dome, direct revenue from the events hosted at the Dome, and the specific lodging taxes meant for convention and tourism purposes.

For example, attendees of an event held at the Dome come to St. Louis, pay for admission to attend the event, pay for hotel stays that generate lodging taxes, eat at restaurants in the city and/or the county, and potentially shop and spend money on entertainment while attending the event. Currently, none of the revenues from any of these activities go toward the maintenance and preservation of the Dome. All economic activity taxes go to the city and county, a convention and lodging tax goes to the CVC, and an additional convention and lodging tax goes to the county.

Recommendation

The RSA pursue additional recurring sources of revenue to provide the funds necessary for expected long-range needs of the Dome, and continue to develop a maintenance plan that maximizes available resources. In addition, the RSA, City of St. Louis, and St. Louis County should engage in discussions

St. Louis Regional Convention and Sports Complex Authority and Use of
Rams Settlement Funds
Management Advisory Report - State Auditor's Findings

to help ensure the preservation of the Dome to allow the facility to continue to serve the St. Louis region in the long term.

Auditee's Response

The RSA agrees with this recommendation. The full response to our recommendation is included at Appendix A.

St. Louis County partially agrees with this recommendation. The county's full response to our recommendation is included at Appendix B.

The City of St. Louis agrees with this recommendation. The city's full response to our recommendation is included at Appendix C.

Auditor's Comment

The St. Louis County Executive's response agrees with the portion of the recommendation that the RSA should continue to have discussions to identify ongoing funding for the Dome. However, the county's response indicates the county's involvement in any discussions will be limited to county representation on the RSA board, and that county funding needs to be used for the county and not for Dome maintenance. The county's response implies the report is recommending the county use its settlement funds to support the Dome or establish a new funding stream to support the Dome. The report does not recommend this, but rather, it mentions the possibility of the county using a portion of the restricted convention and recreation funds the county collects from hotel stays for this purpose. Based on the county's response, the county has effectively taken the position that it will continue to collect revenue from Dome events and the activities these events create, but will not provide any funds for ongoing maintenance for the Dome. Using a portion of the restricted convention and recreation funds the county collects from hotel stays to help fund Dome maintenance is a reasonable use of these restricted funds, and would help ensure the county continues to benefit from Dome events.

2. Invoice Reviews Are Not Adequate and Procurement Procedures Do Not Exist

Significant weaknesses were noted in the oversight of the planning phase of the riverfront stadium project. Normal commission approval procedures were overridden for expenses related to the riverfront stadium. This change resulted in the payment of invoices without sufficient detail, payment of unreasonable expenses, and payment of invoices without any formal approval. In addition, the RSA did not use a formal policy for procuring professional services related to the riverfront stadium project and continues to not have a formal procurement policy in place.

St. Louis Regional Convention and Sports Complex Authority and Use of Rams Settlement Funds Management Advisory Report - State Auditor's Findings

Normal Commission oversight policies and procedures were overridden for the riverfront stadium project

According to conversations with the former RSA Executive Director and meetings with members of the task force,⁵ the RSA commissioners passed a resolution allowing the Chairman of the RSA and the Executive Director to take any and all action in their discretion necessary to plan, develop, finance, and construct the new stadium. This change in procedure removed the requirement for the full RSA commission to approve RSA expenses. According to the former RSA Executive Director and David Peacock of the task force, this resolution was necessary because of the significant scope, and short timeline, of the riverfront stadium project. Although the RSA Executive Director and Chairman had authority to act at their own discretion, all decisions made during the riverfront stadium project were substantially guided by instructions from the task force and the project consultant, who is the president and owner of the company Unlimited Projects Inc.

Expense review and approval delegated to project consultant

According to the former Executive Director, approval of riverfront stadium project expenses was delegated to the project consultant hired by the RSA. When the RSA received an invoice from a vendor, it would defer to the project consultant and ask if the invoice was appropriate to pay. According to the project consultant, when he reviewed invoices, he would typically compare the services described on the invoice to the construction plans. If the services billed to the RSA were part of the plans, the project consultant concluded they were appropriate services and were necessary to pay, and would relay the approval to the RSA. The project consultant could not recall further specifics about the review.

During the riverfront stadium project, a total of 44 vendors were contracted and paid, including 23 vendors for professional services and 21 vendors for land contract options. We judgmentally selected 30 invoices that collectively totaled \$2.1 million to determine if sufficient detail was included to describe the product or service. These 30 invoices were from 15 different vendors contracted by the RSA for planning, developing, financing, and constructing the riverfront stadium. These 15 vendors received \$15.1 million of the total \$19.4 million spent by the RSA on the riverfront stadium project. Testing of these invoices identified various issues.

2.1 Questionable expenses paid because of inadequate review

Approved invoices were not always adequately detailed, and as a result, the project consultant could not always determine if the expense was necessary and appropriate for payment. Of the 30 approved invoices tested, 6 invoices (20 percent) did not indicate the product or service provided by the vendor. Despite this, the project consultant approved those invoices for payment on

⁵ Former Missouri Governor Jay Nixon appointed a two-person task force to assist the RSA with the riverfront stadium project. According to separate interviews with RSA personnel and the task force members themselves, Robert Blitz and David Peacock were selected because they collectively had the expertise and connections necessary to assist with the pre-construction of a multipurpose sports stadium.

St. Louis Regional Convention and Sports Complex Authority and Use of
Rams Settlement Funds
Management Advisory Report - State Auditor's Findings

Invoices are not adequately
detailed

behalf of the RSA. Neither the RSA Executive Director nor the commission reviewed the invoices before paying them, but relied on the project consultant's review and approval.

Of the 6 invoices that lacked detail, 4 invoices only included a generalized description of the services, such as "professional services" or "expenses," but did not elaborate further to indicate what those services or expenses were. For example, an invoice totaling \$24,492.01 for consulting services only included the hours worked and the hourly rate of the Principal, Senior Manager, and Consultant, and indicated it was for "Professional Fees - 12/16/15 through 1/19/16." A separate line on the invoice included a description of "Travel (Air/Hotel/Taxi/Meals/Etc.)" as a reimbursable expense, but supporting details, such as the date or location of the travel, were not specified. See Appendix E for a copy of this invoice.

The remaining 2 of the 6 invoices that lacked detail were submitted by the project consultant himself. Invoices for these services did not have sufficient documentation and only included the number of hours the project consultant worked multiplied by a flat hourly rate for a total of each day worked; there was no generalized description of the services, only dates and total hours worked. Because we noted issues with the invoices submitted by the project consultant, we reviewed the remainder of the invoices submitted by the project consultant during the riverfront stadium project. The remaining invoices also lacked documentation and only included dates, hours worked, and the flat hourly rate. In total, the project consultant submitted 25 invoices and was paid \$525,122.

Unreasonable expenses paid
because of inadequate review

During our review of expenses we identified an instance in which a firm was paid \$22,999.78 for services that did not appear reasonable. This firm was contracted to provide analysis and consideration of various financing options to construct the riverfront stadium. However, the RSA spent significantly more money to reimburse the firm for travel-related expenses than for professional work products. Of the nearly \$23,000 paid to the firm, only \$1,300 related to reports, presentation, and other professional services. The remaining \$21,700 was for entertainment and travel, including airfare, carfare, lodging, and meals. The entertainment expenses included \$3,280 paid to a hotel in New York City, New York. The travel expenses reimbursed included hotels in Austin, Texas and New York City, New York where the firm is headquartered, in addition to other travel expenses in St. Louis. Based on review of this invoice it is unclear how any of these travel expenses related to the riverfront stadium project or how they were a necessary and prudent use of RSA money. See Appendix F for a copy of this invoice.

Project consultant approved
his own invoices for payment

The project consultant indicated part of his duties included reviewing and approving invoices, including his own invoices from his own firm. The RSA did not establish any controls that could have prevented the consultant from

St. Louis Regional Convention and Sports Complex Authority and Use of Rams Settlement Funds

Management Advisory Report - State Auditor's Findings

abusing this authority and approving a fraudulent bill. When asked if any controls existed to prevent abuse, the project consultant could not identify any protections and only indicated, "[he] would never" instruct the RSA to pay a fraudulent invoice to his company.

Based on the lack of oversight to prevent abuse by the project consultant, we performed a review of additional invoices sent from Unlimited Projects Inc. For any given month, the project consultant would submit 1 invoice for professional services, and 1 invoice for travel reimbursement. We judgmentally selected 4 months of invoices (8 invoices total), totaling \$193,850.87, to review for propriety and reasonableness.

The project consultant submitted expense reimbursement invoices that were disorganized and frequently did not follow a strict chronological recount of what dates travel was occurring or the method of travel used. The project consultant requested reimbursement for lodging at the maximum amount allowed by the contract, even when evidence of travel was not apparent. For example, in the September 2015 expense reimbursement invoice, the only line item for reimbursement was \$1,920 for lodging. In all other months we reviewed, at least one other expense type, usually mileage reimbursement or airfare, was incurred with the lodging. The project consultant always recorded the first of each month as the date of the lodging expense, regardless of when the lodging occurred, further hindering our ability to evaluate the legitimacy of the invoices. Given the nature of the invoices, we were unable to determine the appropriateness of the amounts billed.

See Appendix G for copies of the Unlimited Projects Inc. invoices from September 2015 submitted by the project consultant for consulting work and the related expense reimbursement invoice. All invoices submitted by the project consultant were structurally identical to how these invoices were formatted.

RSA did not perform due diligence to review invoices

When asked why the questionable invoices were approved and paid without indication as to what good or service was actually provided, RSA personnel indicated they were instructed by the project consultant to pay the invoices. We further asked how the RSA knew it was receiving the projects or services it was billed for, and the former Executive Director indicated that was the responsibility of the project consultant to know, so if the project consultant decided an invoice needed to be paid, the RSA would pay it.

Keeping detailed documentation about the professional services received can be beneficial to ensure transparency about what is being charged, resolve potential disputes about services provided, and assist the purchaser with planning and budgeting. Furthermore, proper segregation of duties can help prevent fraud or abuse of funds. Had the RSA been more involved with

St. Louis Regional Convention and Sports Complex Authority and Use of Rams Settlement Funds Management Advisory Report - State Auditor's Findings

2.2 RSA does not have formal procurement procedures

reviewing invoices before paying them, it could have identified potentially unknown and unreasonable costs and reacted accordingly.

The RSA does not have a formal written policy for procuring professional services. Informally, when the RSA needs to hire a firm for professional services such as legal counsel, service contracts may be procured by the commission by a majority vote, except for contracts for architectural, engineering, or land services, which must be procured in accordance with Section 8.289, RSMo. However, this procedure is not formally documented in the RSA's policies or bylaws. Rather, the RSA Executive Director indicated this was informally agreed upon by previous RSA commissioners in 2011.

We reviewed all 5 of the firms that provided legal services and counsel to the RSA for purposes other than the riverfront stadium project to determine if the firms were selected using the RSA's informal policy. We identified 3 firms (60 percent) that were contracted without commission resolution.

For the first firm, the RSA commissioners needed to find an independent firm separate from its existing legal counsel due to a conflict of interest. A recommendation was made to the commissioners by an attorney from the RSA's external counsel, but there was no formal resolution or vote by the commission to hire the firm.

The second firm has been assisting the RSA as bond counsel for many years. The RSA could not identify when or if a commission resolution was passed to hire this firm for its services.

The third firm was already hired by the City of St. Louis and St. Louis County for the mediation of NFL settlement funds. No formal resolution or motion by the RSA occurred because the firm was already hired by these other entities.

Establishing a formal procurement policy would clarify the procurement process and provide a guide for future commissions to follow. Additionally, following established procedures helps ensure expenses are appropriate and a prudent use of RSA funds.

Recommendations

The RSA:

- 2.1 Ensure commission approval procedures remain in place for all expenses, and ensure invoices contain sufficient detail and are for reasonable purposes before making payment.
- 2.2 Establish a formal procurement policy to guide commissioner decisions for contracting firms, and follow established procedures for future procurement actions.

St. Louis Regional Convention and Sports Complex Authority and Use of
Rams Settlement Funds
Management Advisory Report - State Auditor's Findings

Auditee's Response

The RSA agrees with these recommendations and indicates policies and procedures are being developed to improve both expenditure review and procurement. The full response to our recommendation is included at Appendix A.

3. County Settlement Funds Spent Without Formal Analysis of Needs

The St. Louis County Council has approved spending \$56.2 million of the \$169 million received for the settlement related to the Ram's departure from the City of St. Louis without a formal process to evaluate potential uses and to determine the most effective use of the funds. As a result, the Council and taxpayers have less assurance the settlement funds are being used in the most effective manner.

The Council has approved spending \$56.2 million of the \$169 million received (33 percent) on 5 unrelated projects, as follows:

- Subdivision Streets Projects (\$40 million) - street repair and replacement, and sidewalk and curb maintenance projects.
- IT Department and Cybersecurity Upgrades (\$9.9 million) - maintain current cybersecurity protections and support addressing key vulnerabilities associated with the Human Resources Information System.
- Building Maintenance Contract (\$5.2 million) - comprehensive facility maintenance and repair services for 49 county facilities over a period of 2 years.
- Climate Action Plan (\$765,000) - help identify how the county can reduce greenhouse gas emission in the county and identify vulnerabilities across the area. Included in this amount is \$15,000 for support of the salary and benefits for one planning manager.
- Spanish Lake Study (\$340,000) - a small area study of the greater Spanish Lake area for potential development.

While the majority of the settlement funds spent have been used for infrastructure improvements, which appears to be an appropriate use of such one-time funds, the Council has not gone through a formal process to establish potential needs and identify the most effective and strategic use of settlement funds. Additionally, the Council has not established formal criteria for deciding which projects will receive settlement funding or established any potential restrictions on settlement fund use. Instead, the Council has decided on a case-by-case basis to use settlement funds for various purposes.

The Council indicated it informally considers the current and future costs of a project and the benefit the project could have on the county before allocating funds to a project. The Council indicated it has chosen to select projects

St. Louis Regional Convention and Sports Complex Authority and Use of Rams Settlement Funds Management Advisory Report - State Auditor's Findings

without an already existing revenue source that requires a one-time payment to complete and will not cause recurring future payments from the county.

A formal process to identify and consider potential uses of settlement funds, possibly including input from the public, would help ensure the county is considering both short- and long-term needs, would increase transparency, and would ensure all factors are being considered before using these one-time funds. In addition, using a strategic planning process to identify potential uses of settlement funds would help ensure the funds are used in the most effective manner. According to Government Finance Officers Association (GFOA) best practices, the use of strategic planning processes can help "provide a vision for the future that can be used to align budgeting with organizational priorities."⁶

Planning by the other plaintiffs

In contrast to the county, the City of St. Louis has not allocated any of its settlement funds. Instead, it is performing planning to identify the best uses for its share of the settlement funds based on the needs of the city. The Board of Aldermen created a five-phase plan⁷ that relied on input directly from city residents to identify priority projects that could be funded with the settlement money. With each phase, the Board of Aldermen is reviewing ideas for feasibility and ultimately planning for projects to be budgeted in future city legislation.

The RSA similarly has not allocated any of its settlement funds, and is also developing a plan to identify how it can best benefit from this money. Commissioners and members of the preservation committee communicate to discuss the status of the Dome and the expected upcoming maintenance projects. The most pressing issue the RSA is planning for is the expected repair needs for the Dome. A recent facility condition assessment report⁸ indicated the Dome will require significant maintenance and/or replacement of key equipment over the next 10 years, and the estimated costs for these repairs will be significantly more than what the RSA could spend given its current financial position. See Management Advisory Report finding number 1 for additional details about this issue. Despite this financial shortcoming, the RSA continues to develop a plan to prioritize projects based on necessity.

Recommendation

St. Louis County formalize a process to identify and consider potential uses for remaining settlement funds, including input from the public, to ensure the

⁶ "Best Practices / Strategic Planning" <<https://www.gfoa.org/materials/bp-strategicplanning>>, accessed on September 23, 2024.

⁷ For a full description of each phase, see <<https://stlouis.govocal.com/en/projects/rams-settlement>>, accessed September 6, 2024.

⁸ *Technology, Vertical Transport & Food Service Equipment Facility - The Dome At America's Center Facility Condition Assessment Report*, prepared by Venue Solutions Group and published on August 9, 2024.

St. Louis Regional Convention and Sports Complex Authority and Use of
Rams Settlement Funds
Management Advisory Report - State Auditor's Findings

use of these funds aligns with the county's short- and long-term needs and priorities.

Auditee's Response

St. Louis County disagrees with this recommendation and indicates it has engaged in various outreach efforts. The full response is included at Appendix B.

Auditor's Comment

The county's response outlines numerous outreach efforts the council and the executive have engaged in to obtain public input on budget and strategic priorities. The SAO commends the county on such efforts. However, the Ram's settlement funds represent a unique and significant influx of one-time funds. As such, a more formalized process for these one-time funds would help ensure adequate transparency and use of the funds is in the best interests of the residents of St. Louis County. Additionally, the County Council, as well as the County Executive, provided limited comments regarding any planning and strategic discussions of these funds during the audit or during the exit meeting process.

REV. EARL NANCE, JR.,
CHAIRMAN

June 16, 2025

MARTIN FINN,
EXECUTIVE DIRECTOR

Honorable Scott Fitzpatrick
Missouri State Auditor
P.O. Box 869
Jefferson City, MO 65102

**RE: 2025 Missouri State Auditor's Draft Management Advisory Report for the St.
Louis Regional Convention and Sports Complex Authority**

Dear Auditor Fitzpatrick:

Below is the St. Louis Regional Convention and Sports Complex Authority's ("Authority") written response to the Missouri State Auditor's draft Management Advisory Report, which was prepared following the Auditor's recent audit of the Authority. The Authority's response follows the numerical outline of the findings in the Report.

Section 1. Insufficient Planning For Future Needs Of The Dome

The Authority has been pursuing additional sources of revenue since September, 2024, to provide the funds necessary for expected long-term needs of the Dome. These meetings will continue to take place. Furthermore, the Authority will continue to develop and update a maintenance plan through the Preservation Committee that maximizes availability of resources.

Section 2. Invoice Reviews Are Not Adequate and Procurement Procedures Do Not Exist

Section 2.1 Questionable Expenses Paid Because of Inadequate Review— All invoices that come to the Authority are reviewed to ensure that each has proper detail and are reasonable before payment is made. The Authority is currently updating its Organizational Procedures manual and the commission will review before finalizing.

Section 2.2 The RSA Does Not Have Formal Procurement Procedures—The Authority currently decides whether to obtain bids and/or proposals for professional services on a case-by-case basis. The Authority is currently formalizing a procurement policy to guide commissioner decisions for contracting firms. This will be included in the Organizational Procedure manual and the commission will review before finalizing.

Sincerely,

Martin Finn,
Executive Director

St. Louis County Responses to Audit Recommendations

SAINT LOUIS COUNTY
County Executive

June 20, 2025

Honorable Scott Fitzpatrick
Missouri State Auditor
P.O. Box 869
Jefferson City, MO 65102

RE: 2025 Audit, St. Louis Regional Convention and Sports Complex Authority and Use of Rams Settlement Funds

Dear Mr. Fitzpatrick:

Please consider this letter as St. Louis County's official response to your findings in your 2025 audit of "certain operations of the St. Louis Regional Convention and Sports Complex Authority (RSA) and the use of Rams settlement funds." Thanks to you and your team for the professionalism exhibited during the audit process. I would like to also thank the County Council for their partnership and cooperation with the audit process. Please see below for the County's response to audit findings numbers 1 and 3.

1. Insufficient Planning for Future Needs of the Dome

Recommendation: The RSA pursue additional recurring sources of revenue to provide the funds necessary for expected long-range needs of the Dome, and to continue to develop a maintenance plan that maximizes available resources. In addition, the RSA, City of St. Louis, and St. Louis County should engage in discussions to help ensure the preservation of the Dome to allow the facility to continue to serve the St. Louis region in the long-term.

Auditee's Response: *St. Louis County disagrees in part with this recommendation.*

The County Executive emphasizes fiscal responsibility by protecting taxpayer dollars through smart governance. Tough decisions must be made about the use of limited financial resources. The Rams settlement funds are an important spending option for the County's budget shortfall.

St. Louis County faces significant budget challenges. The County Council cut \$72,000,000 from what the County Executive recommended to the Council for the County's budgetary needs. We currently estimate a \$50,000,000 shortfall in our General Revenue Fund for 2025.

For over 30 years, St. Louis County invested taxpayer money to support the Dome. In that time, St. Louis County taxpayers invested a total of \$180,150,000 in support of the Dome, including \$150,000,000 in "Base Rental Payments" and \$30,000,000 in "Preservation Payments." In October 2014, the County paid \$150,000 for sound system upgrades as part of a consent fee the County earned for agreeing to the refunding of Dome bonds in that year.

St. Louis County Responses to Audit Recommendations

SAINT LOUIS COUNTY
County Executive

In 2017, St. Louis County, St. Louis City, and the RSA sued the National Football League and Rams owner Stan Kroenke after the Rams moved to Los Angeles in 2016. The case ultimately settled. In November 2022, the three plaintiffs agreed to split the settlement proceeds; the County received \$169,000,000, the City received \$250,000,000, and the RSA received \$70,000,000. Another \$30,000,000 was allocated to the City and set aside for an expansion of the America's Center convention center, which is attached to the dome.

Despite criticism by many County Council members for the agreed upon settlement allocation of \$70,000,000 to the RSA, we are pleased to see the RSA now spending these funds on Dome maintenance. These settlement funds are intended for future needs of the Dome, albeit received in one lump sum as opposed to a yearly \$1,000,000 allocation from the County.

The County supports the auditor's suggestion that the RSA should continue discussions about the future of the Dome. The County is represented on the RSA Board through appointed members who are experienced and engaged. They will play an important part of these discussions. However, any implication that County government will spend County Rams settlement proceeds or establish a new funding stream to support the Dome is impractical considering the current state of the County's budget shortfall. County dollars must be allocated to the needs of the people of St. Louis County at this time.

3. County Settlement Funds Spent Without Formal Analysis of Needs

Recommendation: St. Louis County formalize a process to identify and consider potential uses for remaining settlement funds, including input from the public, to ensure the use of these funds aligns with the county's short- and long-term needs and priorities.

Auditee's Response: *St. Louis County has already accomplished this recommendation.*

The County engages in continuous community conversations designed to give feedback and input on community priorities and budget allocation recommendation such as Rams settlement money. There have been hundreds of community engagement events and opportunities that have occurred since the settlement announcement.

The County Executive has an extensive and ongoing process to engage the public and incorporate community input into spending decisions, including those related to the Rams settlement funds. Community engagement is accomplished through several channels, such as newsletters, open houses, town halls, coffees with the County Executive, our interactive website, and a robust social media footprint. Constituents are invited to communicate with County Executive staff on policy matters through a dedicated email address at cecomments@stlouiscountymo.gov. These opportunities for engagement allow for consistent feedback from our constituents.

St. Louis County Responses to Audit Recommendations

SAINT LOUIS COUNTY

County Executive

The County Council also practices regular engagement with the community and receives consistent feedback through public forum and committee meetings. Individual Council members receive constituent communication and hold community meetings and town halls.

The information gathered from our constituents in our continuous community engagement shapes the County's priorities. Excellence in routine functions of County government, such as a commitment to maintaining roads and bridges, public safety, parks, and public health, are key areas of importance to our community. The top priority of our community is public safety. As a result, over 50% of the County's general fund budget is dedicated to public safety programming, including salary increases for police employees and the construction of new police buildings. County spending is consistent with what the community tells us they care about. The Rams settlement money will be spent taking care of the people in St. Louis County.

In 2025, the County Executive hosted three open houses in North, South, and West County for residents to learn more about the services provided by County government. At these events residents connected with the County Executive and representatives from County departments and programs, including Public Health, Parks and Recreation, Transportation & Public Works, Human Services, Police, and more. Open house dates:

- Saturday February 1, 2025: North County Recreation Complex
- Tuesday, February 25, 2025: Pavilion at Lemay Recreation Complex
- Tuesday March 25, 2025: Greensfelder Recreation Complex

Since January 2024, the County has held 160 community engagement events such as open houses, focus groups, and stakeholder meetings to discuss the formation of the St. Louis County 2050 Comprehensive Plan. The STLCO 2050 Comprehensive Plan is a forward-thinking initiative designed to address the evolving needs of Saint Louis County residents, and these open houses offer an opportunity for the community to voice their opinions and ideas. The County called on residents to participate in shaping the future of our region. Community members had the opportunity and provided input on issues that will impact the county for decades to come, including housing affordability, transportation, and sustainability.

The Planning Commission held a Public Hearing on June 16, 2025, for a presentation of STLCO 2050: An Equitable and Sustainable Comprehensive Plan. There was a public forum where residents shared feedback. Currently, the County is accepting feedback on its draft plan. To date, our 2050 website received almost 2,000 views and over 65 survey responses on our plan since launching at the beginning of June 2025.

At Coffee with the County Executive events local business owners engage with Dr. Page, County staff, and Council members. Two recent events include:

- February 14, 2025: Greater North County Chamber of Commerce
- March 21, 2025: Affton Lemay Chamber of Commerce

Appendix B

St. Louis Regional Convention and Sports Complex Authority and Use of Rams Settlement Funds

St. Louis County Responses to Audit Recommendations

SAINT LOUIS COUNTY

County Executive

In 2023, the County Executive hosted four town halls with the goal of engaging the public in the budget process. Council members and department directors were present. At the meetings, the public learned about the budget process and discussed how to use existing County dollars for their budget priorities. The County's budget simulation tool, Balancing Act, provided residents the experience of balancing competing needs and limited resources. Residents learned about different budget funding streams, including the Rams settlement funds, and considered how much of these funds should be used to meet County budget needs. This process allowed the County to better understand what the public values in the services provided by County government. This tool made the budget process more accessible and transparent for our residents. Budget Town Hall dates:

- June 8, 2023, Florissant Valley Library
- June 14, 2023, Des Peres Lodge
- June 27, 2023, Oak Bend Library
- June 29, 2023, Grants View Library

Council members routinely hold town hall and community meeting events to engage with their constituents. County Executive staff attend these events and solicit feedback from attendees. Representative examples include:

- March 19, 2025, town hall with Councilman Harder and Prosecuting Attorney Melissa Price Smith: Ballwin Golf Club
- May 22, 2025, town hall meeting with Shalonda Webb: Hazelwood East Auditorium
- 2025, town hall meetings with Assessor Jake Zimmerman in each Council district

The Council hosts robust Budget Committee meetings annually to discuss each County department and office's budget. These meetings are informative and collaborative. They also include a public forum where constituents provide their budget priorities. Required by Charter, the Council hosts an opportunity for the public to provide their thoughts on the budget during an annual meeting as part of the budget process.

The Council also posts a "Weekly NFL Settlement Tracker" memorandum on its agenda. Councilwoman Lisa Clancy requests and shares this weekly report that gives an overview of the status of NFL funds and proposed expenditures.

Additionally, the County Council holds weekly meetings every Tuesday in Clayton. The meeting includes two public forums; one for agenda items and another for topics that are not addressed on the agenda. In these forums the County learns about community concerns and is a place for constituents to address their priorities. Since the initial Rams settlement in November 2021, there have been 170 opportunities at regular council meetings for the public to speak to their representatives about their goals for spending these funds. The public has spoken, and we have heard them. The community told us they care about public safety, public health, pool inspections, mosquito spraying, and our parks. They care about basic services that keep their families healthy and safe.

Appendix B
St. Louis Regional Convention and Sports Complex Authority and Use of
Rams Settlement Funds
St. Louis County Responses to Audit Recommendations

SAINT LOUIS COUNTY
County Executive

Listening to this feedback, the County Executive recently asked the Council to appropriate \$20,800,000 of Rams settlement funds to address needs at the County's animal shelter. We have learned that humane and compassionate care of animals is a priority for our residents. The County Executive also requested \$1,752,920 from the settlement fund to support public safety initiative Save Lives Now! A partnership with surrounding counties supported by East West Gateway Council of Governments. This initiative is focused on reducing homicides and shootings by 20% over three years. Public safety is the top concern of our community.

In addition to the Council approved spending listed in this section of the audit, the Council has approved Rams settlement funds to be spent on the following:

- Election costs (\$520,000) – to fund election for the failed Council Proposition B ballot measure in April 2025.
- Pay increases for police union members (\$10,003,169) – to fund salary increases for law enforcement for 2025 as contemplated by collective bargaining agreements.
- Storm clean-up (\$5,000,000) – to pay for damage to County property caused 3/14/25 storms
- Postage costs (\$400,000) – for the Department of Revenue to fund costs associated with mailing tax bills to residents after the department's 2025 budget was cut by the Council.
- Land Bank seed funding (\$1,000,000) – to fund startup costs for new County land bank.

The Council has considered but not approved funding for the following projects:

- Climate Action Plan (\$765,000) – In 2024, the Council appropriated money to this item. However, it was not spent due to time constraints, and it has since lapsed. This item is on the Council's agenda but has not been funded for 2025.
- Spanish Lake Study (\$340,000) – In 2024, the Council appropriated money to this item. However, it was not spent due to time constraints, and it has since lapsed. This item failed to be perfected at the June 10, 2025, Council meeting. The County Executive supports this study as a vital step toward redeveloping the area surrounding the St. Louis Zoo's WildCare Park in North St. Louis County.

With the exception of the police department salary increases, which are reoccurring, the Council has appropriated Rams settlement funds to projects that require a one-time payment.

The County has accomplished the Auditor's recommendation. We are connected to the community, solicit their feedback, and incorporate this feedback into our spending priorities.

Regards,

Sam Page
St. Louis County Executive

City of St. Louis Response to Audit Recommendation

CARA SPENCER
MAYOR

OFFICE OF THE MAYOR
CITY OF ST. LOUIS
MISSOURI

CITY HALL - ROOM 200
1200 MARKET STREET
SAINT LOUIS, MISSOURI 63103-2877
(314) 622-3201

City Response to the Applicable Audit Recommendation

The audit makes one recommendation pertaining to the City: “the RSA, City of St. Louis, and St. Louis County should engage in discussions to help ensure the preservation of the Dome to allow the facility to continue to serve the St. Louis region in the long-term.”

The City agrees with this recommendation. The findings of the audit pertaining to the gap in needed funding and lack of planning for the future of the Dome are surprising and concerning. The County and RSA are required partners if such discussions are to be productive.

Comment to Provide Clarity on City’s Approach Regarding Rams Settlement Funds Allocation

The City wishes to provide clarity to inform the “Planning by the other plaintiffs” section regarding how it may use its Settlement allocation. Some community surveys were conducted in 2023 and 2024 by some BOA offices regarding potential uses of those funds. Those surveys and their results are not binding, and instead reflect one component of the City’s commitment to conducting broad and ongoing community engagement regarding potential uses for these funds.

The City’s May 16, 2025, tornado recovery needs are a critical and recent addition to this ongoing community conversation. On June 17, 2025, following community engagement, the BOA passed a bill appropriating \$30 million in interest from its Settlement allocation to support the City’s ability to meet these needs in the near-term. The City is committed to continuing to ensure that any subsequent expenditures of its Settlement funds are also informed by community engagement that is responsive to and centers both emergent and ongoing community needs.

Sincerely,

Cara Spencer
Mayor, City of St. Louis

SCOTT FITZPATRICK
MISSOURI STATE AUDITOR

Honorable Mike Kehoe, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this compilation is to report the filing status for political subdivisions, other than cities, towns, and villages, required to file a financial report under Section 105.145, RSMo, and 15 CSR 40-3.030. Section 105.145, RSMo, provides that the State Auditor's Office shall notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Due to different filing requirements, a separate report is issued for cities, towns, and villages.

The filing status for the 1,532 political subdivisions required to file a financial report by June 30, 2025, is presented in summary on page 3 and by individual entity in Appendix A. We have not audited the information submitted and, accordingly, do not express an opinion or any other form of assurance on it.

This report also includes the updated filing status for political subdivisions, other than cities, towns, and villages, that filed a financial report in June 2025, after their filing deadline. The filing status for these 3 entities is presented in summary on page 3 and by individual entity in Appendixes B to D.

A handwritten signature in black ink that reads "Scott Fitzpatrick". The signature is written in a cursive, flowing style.

Scott Fitzpatrick
State Auditor

Monthly Report on Political Subdivision Filings

June 2025

Executive Summary

Executive Summary

Section 105.145, RSMo, requires the governing body of each political subdivision in the state, except counties and school districts, to prepare and remit to the state auditor an annual report of financial transactions. Rule 15 CSR 40-3.030 requires the financial report to be remitted to the state auditor within 6 months of the end of the political subdivision's fiscal year. The State Auditor's Office posts individual annual financial reports to its website. A searchable link is available at <http://auditor.mo.gov>.

Section 105.145, RSMo, requires the state auditor to notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Any political subdivision that fails to timely submit the annual financial report shall be subject to a fine of \$500 per day upon notice by the Department of Revenue.

This report includes the filing status for the 1,532 political subdivisions, other than cities, towns, and villages, with a fiscal year end of December 31, 2024. Cities, towns, and villages have additional filing requirements and their reporting status is included in a separate report. Of the 1,532 political subdivisions, 1,180 filed an annual financial report timely.

This report also includes the filing status for 3 political subdivisions, other than cities, towns, and villages, that filed their financial report in June 2025, after their filing deadline.

SCOTT FITZPATRICK
MISSOURI STATE AUDITOR

Honorable Mike Kehoe, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this compilation is to report the filing status for the municipalities required to file a financial report by June 30, 2025, under Section 105.145, RSMo, and 15 CSR 40-3.030 and, when applicable, an addendum under Section 479.359, RSMo, and 15 CSR 40-3.170 and a municipal court certification under Section 479.360, RSMo, and 15 CSR 40-3.180.

Section 105.145, RSMo, provides that the State Auditor's Office (SAO) shall notify the Department of Revenue if any city, town, or village fails to timely submit a copy of its annual financial report. Additionally, Section 479.362, RSMo, provides that the SAO shall notify the Department of Revenue whether counties, cities, towns, and villages have timely filed under Sections 479.359 and 479.360, RSMo. Due to different filing requirements, a separate report is issued for all other political subdivisions required to file a financial report.

The filing status for the 269 cities, 11 towns, and 127 villages is presented in summary on page 3 and by individual entity in Appendix A. The filing status for 5 counties is presented in summary on page 4 and by individual entity in Appendix B. This compilation is limited to presenting information submitted to our office. We have not audited the information submitted and, accordingly, do not express an opinion or any other form of assurance on it.

This report includes the updated filing status for municipalities that filed at least one of the items (financial report, addendum, or certification) in June 2025, after their filing deadline. The filing status for these 4 cities is presented in summary on page 4 and by individual entity in Appendixes C and D.

A handwritten signature in black ink that reads "S. Fitzpatrick". The signature is stylized with a large, flowing "S" and a cursive "Fitzpatrick".

Scott Fitzpatrick
State Auditor

Monthly Report on Municipal Court and Revenue Filings

June 2025

Executive Summary

Executive Summary

Section 105.145, RSMo, requires the governing body of each political subdivision in the state, except counties and school districts, to prepare and remit to the state auditor an annual report of financial transactions. Rule 15 CSR 40-3.030 requires the financial report to be remitted to the state auditor within 6 months of the end of the political subdivision's fiscal year. The State Auditor's Office (SAO) posts individual annual financial reports to its website. A searchable link is available at <http://auditor.mo.gov>.

Section 105.145, RSMo, requires the state auditor to notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Any political subdivision that fails to timely submit the annual financial report shall be subject to a fine of \$500 per day upon notice by the Department of Revenue.

Section 479.359.1, RSMo, requires every county, city, town, and village to annually calculate the percentage of its annual general operating revenue received from fines, bond forfeitures, and court costs for minor traffic violations.

Section 479.359.3, RSMo, provides that all entities having a municipal court file an addendum to the annual financial report containing items listed in 15 CSR 40-3.170, which also provides the procedure to file an addendum.

Section 479.360, RSMo, requires every county, city, town, and village that has a municipal court to file, with its annual financial report, a certification of substantial compliance with 10 municipal court procedures. This certification must be signed by the municipal court judge. Rule 15 CSR 40-3.180 provides the procedure to file the municipal court certification. Any county, city, town, or village that does not have a municipal court judge is not required to file a certification.

Section 479.362, RSMo, requires the SAO to notify the Department of Revenue whether counties, cities, towns, or villages have timely filed their addendums under Section 479.359, RSMo, and certificates of substantial compliance under Section 479.360, RSMo. Section 479.368, RSMo, provides penalties for counties, cities, towns, and villages that fail to file, including loss of revenue and a mandatory ballot measure to dissolve the political subdivision.

This report includes the filing status for the 269 cities, 11 towns, and 127 villages with a fiscal year end of December 31, 2024, whose financial report was due by June 30, 2025. Of the 407 municipalities, 284 filed the financial report timely. Of the 240 municipalities required to file an addendum, 96 filed timely. Of the 92 municipalities required to file a certification, 51 filed timely.

Monthly Report on Municipal Court and Revenue Filings June 2025 Executive Summary

This report includes the filing status for the 5 counties with a fiscal year end of December 31, 2024, whose addendum and certification was due by June 30, 2025. Of these entities, 3 filed their addendum timely, and 4 filed their certification timely.

This report includes the filing status for 4 cities that filed at least one of the items (financial report, addendum, or certification) in June 2025, after their filing deadline. Of these municipalities, 2 filed an annual financial report, 1 filed an addendum, and 1 filed a certification.

Scott Fitzpatrick

Missouri State Auditor

Independence School District

Report No. 2025-046

August 2025

auditor.mo.gov

CITIZENS SUMMARY

Findings in the audit of the Independence School District

Cash Controls and Procedures	Receipting and depositing procedures were not always followed at some schools, and change funds were not maintained at constant amounts. For the 6 schools reviewed, personnel at 1 school did not record or deposit receipts timely. At 2 other schools, district staff did not always prepare event sheets for student activity receipts in accordance with district procedures, or promptly turn over the event sheets and money collected to the respective building's Activities Office. Personnel at 2 of the 3 schools reviewed that have change funds do not maintain the change funds at constant amounts and 1 of those schools also use the funds for petty cash expenses.
Closed Meeting Topics	The Board discussed and voted on some topics in closed meetings that were not allowable under the Sunshine Law. For example, in one meeting, the Board discussed the 4-day instructional school week and observed a presentation that included data from a previous survey by the Superintendent. In this same meeting, the Board considered the need for additional surveys regarding the 4-day instructional school week. In another closed meeting, the Board discussed the district's operating tax levy and the need to place an operating levy on the ballot at an upcoming election.
Electronic Communication Policy	The district has not developed a records management and retention policy that includes electronic communication in compliance with the Missouri Secretary of State Records Services Division guidance, as approved by the Missouri Local Records Commission. This guidance recommends government/public entities have a policy on electronic messaging, including text messages, email, and other third party platforms.

In the areas audited, the overall performance of this entity was **Good**.*

*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

- Excellent:** The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.
- Good:** The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.
- Fair:** The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.
- Poor:** The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

SCOTT FITZPATRICK

MISSOURI STATE AUDITOR

Board of Education
Independence School District

The State Auditor conducted an audit of the Independence School District under authority granted in Section 29.205, RSMo. We have audited certain operations of the district in fulfillment of our duties. The district engaged Daniel Jones & Associates, Certified Public Accountants, to audit the district's financial statements for the year ended June 30, 2024. To minimize duplication of effort, we reviewed the CPA firm's audit report. The scope of our audit included, but was not necessarily limited to, the year ended June 30, 2024. The objectives of our audit were to:

1. Evaluate the district's internal controls over significant management and financial functions.
2. Evaluate the district's compliance with certain legal provisions.
3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.

Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the district, as well as certain external parties; and performing sample testing using haphazard and judgmental selection, as appropriate. The results of our sample testing cannot be projected to the entire populations from which the test items were selected. We obtained an understanding of internal control that is significant to the audit objectives and planned and performed procedures to assess internal control to the extent necessary to address our audit objectives. We obtained an understanding of the process for implementation of the 4-day school week, including reviewing minutes of meetings, internal and external surveys, and interviewing various district personnel. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted this performance audit in accordance with generally accepted government auditing standards. Those standards require that we plan and perform the audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides a reasonable basis for our findings and conclusions based on our audit objectives.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the district's management and its audited financial statements and was not subjected to the procedures applied in our audit of the district.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, and (3) the need for improvement in management practices and procedures. The accompanying Management Advisory Report presents our findings arising from our audit of the Independence School District.

Scott Fitzpatrick
State Auditor

Independence School District Management Advisory Report State Auditor's Findings

1. Cash Controls and Procedures

District cash handling procedures at some school buildings need improvement. Our review noted receipting and depositing procedures were not always followed, and change funds were not maintained at constant amounts. District financial records show total student activity collections of over \$2.1 million for the 2023-2024 school year. These are comprised of various cash and check receipts, including student activity fees, athletic fees, event admissions, school meal fees, bookstore sales, etc. These funds are at greater risk because there is a variety of handling and record-keeping methods throughout the schools.

School administrative and activity bookkeepers are generally responsible for the receipting, recording, depositing, and reconciling of money collected by teachers, organization sponsors, and school office personnel. Athletic event attendance and concession sales are generally handled by applicable school organizations and the money collected is later transmitted to the school activity office. Administrators at each school provide minimal oversight of these functions and records.

We judgmentally selected and reviewed procedures at 2 high schools, 1 middle school, and 3 elementary schools.

1.1 Depositing and recording timely

District personnel do not always record or deposit receipts timely in accordance with district procedures.

Accounting system and depositing

For the 6 schools reviewed, personnel at 1 school did not record or deposit receipts timely. For example, \$11,167 deposited on May 20, 2024, included receipts collected from May 9, 2024. The majority of these receipts were not recorded in the accounting system when received, but rather on the day of the deposit. The building secretary indicated she is unable to record receipts into the accounting system timely or prepare the deposits daily because students frequently stop by the office and she has concerns with cash being out during that time.

The District's internal control policy requires personnel to deposit receipts daily. Not transmitting and depositing money timely increases the risk of loss, theft, or misuse of funds. The District's internal control policy also requires receipts to be recorded in the accounting system when received.

Event sheets

District staff did not always prepare event sheets for student activity receipts in accordance with district procedures, or promptly turn over the event sheets and money collected to the respective building's Activities office.

District procedures require, at the end of an event, 2 people count activity receipts; record the total collected on an event sheet; prepare the bank deposit slip; and remit the form, slip, and money to the school office by the following day. Personnel in the school office are supposed to count the receipts and

Independence School District Management Advisory Report - State Auditor's Findings

reconcile that amount to the amounts recorded on the event sheet and deposit slip prior to deposit.

Personnel at 1 school do not complete an admission or concession event sheet, detailing the amounts received, at the conclusion of the sporting event; instead the office secretary counts the receipts turned in and then records the receipts on an event sheet and prepares the deposit. At another school, personnel do not follow the established policy of 2 individuals completing the event sheet and deposit slip at the end of the activity event. Personnel at that school also do not always turn in the event sheets timely to the office secretary. We identified 2 event sheets during our cash count in May 2024 that were not turned into the secretary the next day. For these issues to occur, district personnel either did not know the district's procedures or there was a lack of oversight ensuring these procedures were followed.

Conclusion

Compliance with district procedures for the handling and processing of student activity receipts is necessary to properly account for all receipts and ensure money received is deposited. The failure to timely record, transmit, and deposit money and properly perform and document verification procedures increases the risk that loss, theft, or misuse of funds will go undetected.

1.2 Change funds

Personnel at 2 of the 3 schools reviewed that have change funds do not maintain change funds at constant amounts and also use the funds for petty cash expenses. The change fund for each school building is set at \$200. We performed cash counts of change funds at 3 schools in May 2024, and identified the following concerns:

- One school office had cash on hand of \$180, a \$20 shortage. Personnel used the change fund to issue vending machine refunds and the vending machine log indicated they issued \$11 in refunds. The Bookkeeper was unable to identify the exact cause for the remaining \$9 cash shortage, but indicated errors in accounting for vending machine refunds likely led to the shortage.
- The other school's main office had cash on hand of \$436. The office collected \$215 in fees, so the total cash on hand should have only been \$415, including the change fund. The Bookkeeper indicated the \$21 overage was most likely due to adding personal funds to the change fund.

Maintaining a change fund at a constant amount and periodically counting and reconciling the fund to the authorized balance is necessary to safeguard this money from possible loss, theft, or misuse. The separation of the petty cash expenses from the change fund, and avoiding commingling personal funds with district funds, is necessary to properly account for the money in the change fund.

Independence School District
Management Advisory Report - State Auditor's Findings

Recommendations

The Board of Education:

- 1.1 Ensure receipts are promptly recorded and deposited and event forms are properly completed and verified.
- 1.2 Maintain change funds at a constant amount and avoid comingling personal funds with school funds. If needed, a petty cash fund should be established and maintained on an imprest basis to account for any petty cash expenses like the vending machine refunds.

Auditee's Response

- 1.1 *The Independence School District acknowledges the Auditor's findings and has taken significant steps to strengthen cash handling procedures and internal controls. Beginning in March 2024, the district evaluated and, by July 2024, implemented MySchoolBucks (MSB) Ticketing and MSB Concessions to track event sales, minimize manual errors, and enhance financial transparency.*

To ensure secure cash collection, all event funds are now counted by two staff members, documented, and secured in a lockbox until verified the next business day by the bookkeeper against system reports. Discrepancies are promptly investigated. MSB continues to be used for other transactions, including student fees and meals, with training provided to ensure compliance.

New bookkeepers receive formal onboarding, and all bookkeepers participate in annual reviews and training. Expectations for dual-staff cash counts and secure storage have been reinforced districtwide.

Since spring 2025, the district has also implemented unannounced internal audits to monitor compliance, with follow-up training or supervisory action when needed. These comprehensive measures demonstrate the district's commitment to financial accountability and transparency.

- 1.2 *The Independence School District acknowledges the Auditor's findings regarding change fund management and the use of funds for petty cash. In response, the district has reinforced procedures and enhanced training for all bookkeepers, including onboarding support, year-round virtual resources, and annual policy reviews with signed acknowledgments. To strengthen oversight, the Independence School District began conducting unannounced internal audits in spring 2025 at all buildings and athletic departments. These occur at least annually, with follow-ups and retraining if issues are found. The district prohibits commingling of funds and only the proper use of petty cash funds. Only two*

Independence School District Management Advisory Report - State Auditor's Findings

designated petty cash funds exist, and change funds must remain at a fixed amount and used solely to provide change. Violations are reported to supervisors and may result in administrative action.

2. Closed Meeting Topics

The Board discussed and voted on some topics in closed meetings that were not allowable under the Sunshine Law. The Board held 27 closed meetings during the period July 1, 2022, through June 30, 2024.

Our review of meeting minutes identified closed meeting discussion topics that were not allowed. For example, in one meeting, the Board discussed the 4-day instructional school week and observed a presentation that included data from a previous survey by the Superintendent. In this same meeting, the Board considered the need for additional surveys regarding the 4-day instructional school week. In another closed meeting, the Board discussed the district's operating tax levy and the need to place an operating levy on the ballot at an upcoming election. The Board also discussed, in another closed meeting, having language added to the student/parent handbook clarifying how course credits would be recorded for students transferring into the school district and how class rank would be determined based on this information.

Missouri's Sunshine Law, Chapter 610, RSMo, provides for transparency and openness of government. Section 610.021, RSMo, provides that the discussion topics and actions in closed meetings should be limited to only those specifically allowed by law. Discussion of unallowable topics in closed meetings reduces public transparency. The Superintendent indicated the Board discussed these topics before realizing the Sunshine Law did not allow these discussions in closed meetings.

Recommendations

The Board of Education ensure only topics allowed by state law are discussed in closed meetings.

Auditee's Response

The Independence School District acknowledges the findings of the State Auditor regarding the need for strict adherence to the Missouri Sunshine Law. Moving forward, we will ensure that only items explicitly permitted under the Sunshine Law will be discussed in closed session meetings. The Board of Education will take proactive steps to review and confirm the appropriateness of each agenda item designated for closed session. In the event a topic is inadvertently introduced during a closed session that does not fall within the legal exceptions, board members will work collaboratively to redirect the conversation and ensure such matters are appropriately addressed in open session. We are implementing additional training and procedural reviews to strengthen our compliance.

Independence School District Management Advisory Report - State Auditor's Findings

3. Electronic Communication Policy

The district has not developed a records management and retention policy that includes electronic communication in compliance with the Missouri Secretary of State Records Services Division guidance, as approved by the Missouri Local Records Commission. This guidance recommends government/public entities have a policy on electronic messaging, including text messages, email, and other third party platforms.

Section 109.270, RSMo, provides that all records made or received by an official in the course of his/her public duties are public property and are not to be disposed of except as provided by law. Section 109.255, RSMo, provides that the Local Records Board issue directives for the destruction of records. The guidelines for managing electronic communications records can be found on the Secretary of State's website.¹

Development of a written policy to address the use of electronic communications is necessary to ensure all documentation of official business of the district is retained as required by state law. The Superintendent and Board of Education indicated they were unaware of the record retention requirements and the electronic communications guidelines.

Recommendations

The Board of Education develop a written records management and retention policy to address electronic communications management and retention to comply with Missouri Secretary of State Records Services Division electronic communications guidelines.

Auditee's Response

The Independence School District acknowledges the findings of the State Auditor regarding lack of a policy regarding records management and retention that explicitly includes electronic communications. We acknowledge the importance of establishing clear and comprehensive procedures to ensure compliance with applicable state records laws and to promote transparency and accountability in all aspects of district operations. The district is committed to working with legal counsel to develop and implement a records management and retention procedure that includes guidelines for the appropriate use, storage, and retention of electronic communication.

¹ Missouri Secretary of State Records Services Division, *Electronic Communications Records Guidelines for Missouri Government*, May 14, 2019, is available at <<https://www.sos.mo.gov/CMSImages/LocalRecords/CommunicationsGuidelines.pdf>>, accessed April 8, 2025.

Independence School District

Organization and Statistical Information

The Independence School District is located in Jackson County.

In the 2023-2024 school year, the Independence School District had 2 early childhood centers (grades PK), 20 elementary schools (grades K-4), 4 middle schools (grades 5-8), 3 high schools (grades 9-12), and 1 alternative learning school. Enrollment was approximately 14,639 for the 2023-2024 school year. The district employed 2,608 full- and part-time employees, at June 30, 2024.

The Independence School District has been classified under the Missouri School Improvement Program as "Accredited" by the Missouri Department of Elementary and Secondary Education.

School Board

An elected board acts as the policy-making body for the district's operations. The board's seven members serve 3-year terms without compensation. Members of the board at June 30, 2024, were

- Carrie Dixon, President
- Anthony J. Mondaine, Vice President
- Denise Fears, Member
- Jill Esry, Member
- Blake Roberson, Member
- Wendy Baird, Member
- Brandi Prunte, Member

Superintendent

The district's superintendent at June 30, 2024, was Dr. Dale Herl and his annual compensation was \$270,000. An additional \$21,000 is paid annually to a tax-sheltered annuity or investment of the Superintendent's choosing. The superintendent's compensation is established by the school board.

Salary Averages -
Administrators and Teachers

Average salaries for district administrators and teachers for each of the 5 fiscal years through the year ended June 30, 2024, were as follows:

Year Ended June 30,	Average Annual Salaries			
	Administrators			Teachers
	Central Office	Building	All	
2020	\$ 142,226	\$ 92,263	\$ 105,529	\$ 54,002
2021	138,993	91,803	104,773	53,544
2022	142,395	94,710	108,416	54,608
2023	148,669	99,007	110,386	56,455
2024	156,964	100,609	112,183	59,138

Independence School District Organization and Statistical Information

Other Information

In December 2022, the Independence School District Board of Education voted to establish a 4-day instructional school week starting in the 2023-2024 school year. In May 2024, Missouri Senate Bill 727,² required school districts with more than 30,000 inhabitants to obtain voter approval before implementing a 4-day school week starting in the 2026-2027 school year. In November 2024, the district filed suit requesting the court find the newly passed law to be unconstitutional and issue an injunction barring enforcement and application of the statute. The case is ongoing as of August 15, 2025.

Financial Activity

A summary of the district's financial activity obtained from the financial statement audit report for the year ended June 30, 2024, follows.

² Senate Bill 727, First Regular Session, 102nd General Assembly (2024).

Scott Fitzpatrick

Missouri State Auditor

St. Louis Public Schools Procurement, Hiring, and Budgetary Practices

Report No. 2025-045

August 2025

auditor.mo.gov

CITIZENS SUMMARY

Findings in the audit of the St. Louis Public Schools - Procurement, Hiring, and Budgetary Practices

Financial Planning and Budget Process	The district's long term financial plan is out of date and incomplete, and does not show clear evidence of planning for future years. Additionally, continued deficit spending will result in the unassigned general operating fund balances falling below the Board's own benchmark if not addressed. If the district continues deficit spending at the rate currently projected, the unassigned operating fund balances will fall below 30 percent of expenditures in fiscal year 2027 and below 20 percent in fiscal year 2028. In fiscal year 2030, if not addressed, the current rate of deficit spending will result in fund balances at or below 3 percent, which the Department of Elementary and Secondary Education defines as a financially stressed district. The Board does not receive budget information in sufficient time to properly evaluate the information prior to approving the annual proposed budget, does not monitor the budget during the year, and does not always amend the budget as required. As a result, actual expenditures exceeded the budgeted amounts in several prior years. Public district budget documents were inaccurate and some monthly financial statement information was not accessible to the public.
Disbursements	District personnel purchased items that were questionable, unreasonable, and/or did not provide an educational benefit; and district controls were insufficient to prevent such purchases. A review of 27 judgmentally selected transactions, totaling \$17,040, from the period June 6, 2023, through August 5, 2024, identified 17 credit card transactions (63 percent), totaling \$12,436, that were questionable and/or unreasonable. Questionable purchases included unsupported travel and meals, unnecessary gifts, and other purchases that did not have an apparent educational purpose. Additionally, district personnel did not review credit limits for reasonableness, reimbursed employees for moving expenses that were not adequately supported, and did not always pay the district's credit card bill timely, resulting in late fees of \$1,106.
Procurement	District procurement procedures and practices did not comply with Board policy and state law. The district bypassed the required sealed bid process by classifying 3 purchases, totaling \$266,780, as emergencies or sole source procurements when they did not qualify as such. The Board approved a \$115,000 emergency contract with a transportation consultant that did not meet the requirements for an emergency purchase. The Board authorized an emergency purchase of asphalt repairs and the replacement of a retaining wall at 2 elementary schools that did not meet the requirements for an emergency purchase. The Board extended an agreement with a sports technology company for athletics livestreaming without competitive procurement. The district did not competitively select some vendors as required by district policies and state law. For 14 of the applicable 17 vendors reviewed, the district did not retain adequate supporting documentation or obtain quotes, Board approval, and contracts when required.

Payroll and Personnel Records	The district paid approximately \$3.5 million in attendance incentives to employees in violation of the Missouri Constitution during the 2 years ended June 30, 2024. The former Superintendent approved cabinet member salaries in excess of the district salary schedule without Board approval, and gave pay raises to cabinet members with no support to justify the increase, some of which were retroactive. A review of the salaries of 10 cabinet members, identified 6 cabinet members to whom the former Superintendent offered and authorized salaries that exceeded the maximum salary allowed on Board-approved salary schedules. District personnel are not comparing employees' payroll entries with approved salary schedules, and as a result, other salaries also exceeded salary schedule amounts. Twenty-two of the 30 employees' annual salaries reviewed (73 percent) did not agree with the Board-approved salary schedules. Of the 22 employees, 21 exceeded the salary schedule by \$1,446 to \$45,189. District personnel files did not have records of some employee background checks, and employment records for several employees were otherwise incomplete. In addition, the district did not properly store and maintain personnel records.
-------------------------------	--

Policies	The Board did not have sufficient policies over district travel prior to the 2024-2025 school year, and even after it implemented additional policies and procedures, the Board did not always ensure compliance with the new policies. Prior to July 8, 2024, the district had no guidance or policies for the use of purchasing cards for travel. The district implemented purchasing card guidelines, effective July 8, 2024, that prohibit cardholders from using purchasing cards for travel-related purchases. However, from July 8, 2024, through August 5, 2024, the audit identified 72 purchasing card transactions totaling \$24,401 for airfare, rail, rental car, lodging, and travel agent fees. In addition, the audit noted additional travel-related transactions included on purchasing card statements from September 2024 through March 2025. The district's guidelines for meals purchased do not reflect current practices for student meals. Accounts payable department personnel did not maintain a travel log as required by the Travel Policy (effective Spring 2017). According to district personnel, the district has not maintained the travel log since at least 2020. The Board did not ensure district personnel followed established travel policies. District and Board policies and Board regulations are inconsistent, some appear duplicative, and many are outdated.
----------	---

In the areas audited, the overall performance of this entity was **Poor**.*

*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

- Excellent:** The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.
- Good:** The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.
- Fair:** The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.
- Poor:** The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

SCOTT FITZPATRICK MISSOURI STATE AUDITOR

Board of Education
St. Louis Public Schools

The State Auditor conducted an audit of the St. Louis Public Schools - Procurement, Hiring, and Budgetary Practices under the authority granted in Section 29.205, RSMo. We have audited certain operations of the district in fulfillment of our duties. The district engaged RubinBrown, Certified Public Accountants (CPAs), to audit the district's financial statements for the year ended June 30, 2024, and the district's legal counsel engaged Armanino CPA LLP to perform an assessment of certain district processes. To minimize duplication of effort, we reviewed the CPA firms' reports. The scope of our audit included, but was not necessarily limited to, the period July 1, 2023, through July 31, 2024. The objectives of our audit were to:

1. Evaluate the district's internal controls over significant management and financial functions, as they relate to procurement and hiring.
2. Evaluate the district's compliance with certain legal provisions, as they relate to procurement, hiring, and budgets.
3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions, as they relate to procurement and hiring.
4. Evaluate and review the district's budget process.

We conducted this performance audit in accordance with generally accepted government auditing standards. Those standards require that we plan and perform the audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides a reasonable basis for our findings and conclusions based on our audit objectives.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the district's management and the Department of Elementary and Secondary Education, and was not subjected to the procedures applied in our audit of the district.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, (3) the need for improvement in management practices and procedures, and (4) the need for improvement in the district's budget process. The accompanying Management Advisory Report presents our findings arising from our audit of the St. Louis Public Schools - Procurement, Hiring, and Budgetary Practices.

An additional audit of the St. Louis Public Schools - General District Operations is in process, and any additional findings and recommendations will be included in the subsequent report.

Scott Fitzpatrick
State Auditor

St. Louis Public Schools

Procurement, Hiring, and Budgetary Practices

Introduction

Background

In August 2024, City of St. Louis Mayor Tishaura Jones sent a letter to the State Auditor's Office (SAO) requesting an audit of the St. Louis Public Schools (SLPS). In addition, the SAO received numerous phone calls, letters, news articles, and other communications outlining concerns about the district and detailing questionable practices by the district under former Superintendent Dr. Keisha Scarlett. The State Auditor determined an audit was warranted and announced an audit under the authority granted in Section 29.205, RSMo.

The following events are significant to our review of the school district's procurement, hiring, and budgetary practices.

- Dr. Scarlett was employed with the district from July 1, 2023, through October 14, 2024, when the School Board terminated her 3-year employment contract. On July 25, 2024, Dr. Millicent Borishade was appointed Interim Superintendent after Dr. Scarlett was placed on a paid temporary leave of absence. On February 18, 2025, Dr. Borishade was appointed Superintendent by the Board. Dr. Borishade has served in several roles within the district including Chief of Schools, Deputy Superintendent, and Superintendent and is referred to as the Superintendent throughout this report. Dr. Scarlett is referred to as the former Superintendent throughout this report.
- In July 2024, external district legal counsel engaged an independent CPA firm to conduct an assessment of the hiring practices of the former Superintendent, district credit card usage, expense reimbursements, and procurement. The management report was released in December 2024.

Scope and Methodology

The scope of our audit included, but was not necessarily limited to, July 1, 2023, through July 31, 2024. The school district's fiscal year is July 1 through June 30.

Our methodology included reviewing Board meeting minutes, written policies and procedures, financial records, and other pertinent documents; gathering information for procurement, hiring, and budgetary practices through discussions with district personnel, as well as certain external parties; and performing sample testing using judgmental and random selection, as appropriate. The results of our sample testing cannot be projected to the entire populations from which the test items were selected. We reviewed the management report prepared by Armanino CPA LLP,¹ but did not rely on the work performed. To minimize duplication of effort, we did not report on areas previously identified unless we noted additional related issues or evidence.

¹ *Management Report: St. Louis Public Schools Assessment*, Armanino CPA LLP, issued December 9, 2024, <<https://www.slps.org/Page/81196>>, accessed June 4, 2025.

St. Louis Public Schools
Procurement, Hiring, and Budgeting Practices
Introduction

We obtained an understanding of internal control that is significant to the audit objectives and planned and performed procedures to assess internal control to the extent necessary to address our audit objectives. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contracts, grant agreements, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

To evaluate (1) the district's internal control system, (2) compliance with district and Board procedures and statutory requirements, (3) the economy and efficiency of certain other management practices and procedures, and (4) the budgetary process, we performed the following tests and procedures:

- We reviewed the personnel files of 11 judgmentally selected cabinet members,² and 15 randomly selected district employees.
- We reviewed the district's process for adding employees to the payroll system and reviewed haphazardly selected payroll transactions and pay scale placement for 10 judgmentally selected cabinet members and 30 randomly selected district employees.
- We reviewed the district's attendance incentive for compliance with district policies and applicable laws.
- We reviewed the district's procurement process and policies, including competitive selection and the use of sole source and emergency purchases. We reviewed 20 judgmentally selected disbursements for compliance with district policies and applicable laws from a population of disbursements from the period July 1, 2023, through July 31, 2024, totaling approximately \$415 million.
- We analyzed district credit card use and limits of district credit cards, and judgmentally selected and reviewed 23 purchasing card and 4 travel card transactions for the period June 6, 2023, through August 5, 2024.³
- We reviewed 25 randomly selected disbursements for compliance with district policies and applicable laws from a population of disbursements

² The cabinet includes the Superintendent, the Deputy Superintendent, and employees with any job title containing "Chief." There were 13 cabinet positions during our audit period. Some cabinet members were only employed for a very limited time, so were not included in test work.

³ Dates are based on credit card statement dates that included June 2023 through July 2024 credit card transactions.

St. Louis Public Schools
Procurement, Hiring, and Budgeting Practices
Introduction

from the period July 1, 2023, through September 30, 2024, totaling approximately \$490 million.

- To evaluate and review the district's budget process, we interviewed various personnel and reviewed the district's budget, long term financial plan, and public budget reports for the audit period.

St. Louis Public Schools

Procurement, Hiring, and Budgetary Practices

Management Advisory Report -State Auditor's Findings

1. Financial Planning and Budget Process

The Board of the St. Louis Public Schools (SLPS) is not sufficiently planning for the long-term financial future of the district, is projecting continued deficit spending, and the district budget process needs significant improvement. For fiscal year 2024, the district budgeted \$465.8 million in revenues and \$483.5 million in expenditures, resulting in projected deficit spending of \$17.7 million. Additionally, the district budgeted deficits of \$35.4 million and \$33.4 million for the fiscal year 2025 and fiscal year 2026 budgets, respectively. As of June 30, 2024, the unassigned fund balance of the General Fund was \$202.9 million.

1.1 Long term planning

The district's long term financial plan is out of date and incomplete, and does not show clear evidence of planning for future years. Additionally, continued deficit spending will result in the unassigned general operating fund balances falling below the Board's own benchmark if not addressed.

Planning tool

The 2024-2025⁴ Budget Book indicates the district's long-term financial modeling tool is a major component of its annual planning process; however, we found numerous errors and information that was not updated in the tool. For example, the modeling tool included data from fiscal years 2006 to 2028, but the formulas in the future years' columns erroneously relied on factors such as prior year enrollment data. This prevented the tool from properly forecasting future financial information. For the general operating budget, the tool only included fiscal years 2020 through 2025 and did not have projections after fiscal year 2025.

Deficit spending

The district's long-term plans also do not address if/when the district will discontinue its deficit spending and use of budget reserves to meet planned expenditures. Based on the district's budgeted spending for fiscal year 2026, the balance of the General Fund at June 30, 2026, will be \$135.9 million.⁵ If the district continues deficit spending at the rate currently projected, the unassigned operating fund balances will fall below 30 percent of expenditures in fiscal year 2027 and below 20 percent in fiscal year 2028. In fiscal year 2030, if not addressed, the current rate of deficit spending will result in fund balances at or below 3 percent, which the Department of Elementary and Secondary Education defines as a financially stressed district. By fiscal year 2031, the district would not have sufficient funds to complete the school year.⁶

⁴ This is the budget for fiscal year 2025, ending on June 30, 2025.

⁵ Calculated using the fiscal year 2025 and 2026 budgeted General Fund revenues and expenditures.

⁶ Projected using the fiscal year 2026 budgeted General Fund excess expenditures of \$32 million.

Management Advisory Report - State Auditor's Findings

Figure 1: Revenues and expenditures by fiscal year (FY)

Source: Prepared by the State Auditor's Office (SAO) using fiscal year 2022 to 2025 budgets from <<https://www.slps.org/Page/13290>>, accessed May 29, 2025, and the fiscal year 2026 proposed budget as of May 29, 2025.

The Board approved deficit spending in fiscal year 2025, and the district is proposing additional deficit spending for fiscal year 2026.⁷ Figure 2 shows the net change in the district's fund balance. While the district built up a fund balance in prior years, the continued deficit spending will quickly diminish any reserve the district has.

⁷The Board budgeted deficit spending for fiscal year 2024, but actual revenues exceeded expenditures.

St. Louis Public Schools
Procurement, Hiring, and Budgetary Practices
Management Advisory Report - State Auditor's Findings

Figure 2: Change in fund balance by fiscal year (FY)

Source: Prepared by the SAO using fiscal year 2022 to 2025 budgets from <<https://www.slps.org/Page/13290>>, accessed May 29, 2025, and fiscal year 2026 proposed budget as of May 29, 2025.

District policy indicates the Board's goal is to maintain the unassigned General Fund balance at or above 30 percent of General and Teacher's Fund expenditures. Policy also states the Board would consider a fund balance of 20 percent or less of fund expenditures to be a concern and 10 percent or less to require action. While the policy is specific to the General Fund, similar consideration is necessary for all operating funds because the General Fund supplements the Teacher's and Capital Projects Funds.⁸ Long-term financial plans that include the district's strategy for reversing its practice of unsustainable deficit spending are necessary to prevent fund balances reaching critically low levels.

Conclusion

The former Chief Financial Officer discussed the district's financial condition during board meetings and noted concerns with the sustainability of current spending, but the discussions did not include detailed plans for future years. Current district personnel also could not provide a detailed plan for how they will sustain the current payroll and benefits expenditures in future years. The only plan district personnel provided was to indicate that the district plans to sustain payroll and benefits expenditure levels through attrition and reductions in non-salary operating costs. However, planning for, or anticipating, attrition is not a reasonable or sustainable plan, given the need to properly staff classrooms and meet the needs of district students. District

⁸ Board Policy 3160 indicates the Board's goal is to achieve and maintain an unassigned fund balance in the General Fund equal to 30 percent of the aggregate expenditures in the General and Teacher's Fund.

St. Louis Public Schools
Procurement, Hiring, and Budgetary Practices
Management Advisory Report - State Auditor's Findings

personnel stated they intend to either update the written plan or create a new 5-year strategic plan starting in June 2025.

The Government Finance Officers Association⁹ (GFOA) recommends governments prepare and maintain a long-term financial plan that projects at least five years into the future. In addition, the GFOA¹⁰ states, "beyond the annual budget cycle and multi-year capital plan, governments need to identify long-term financial trends." Long-term planning is especially important given the deficit spending by the district in recent years and the salary increases agreed upon in the collective bargaining agreement for fiscal years 2026 and 2027. The GFOA¹¹ specifies that plans to use reserves to balance the budget "should be clear about the time period over which returning to structural balance, replenishing reserves, and remediating the negative impacts of balancing actions are to occur."

The Board's failure to properly plan for the district's financial condition in the long term may result in inefficient resource allocation, difficulty adapting to changing needs, potential for reactive decision-making instead of proactive strategies, and ultimately, a negative impact on student learning outcomes due to a lack of focused goals and coordinated efforts across the school district.

1.2 Budget review and monitoring

The Board does not receive annual budget information in sufficient time to properly evaluate it prior to approving the proposed budget, does not monitor the budget during the year, and does not always amend the budget as required. As a result, actual expenditures exceeded the budgeted amounts in several prior years.

The fiscal year 2025 preliminary budget was not presented to the Board until the May 28, 2024, Board meeting and was approved 14 days later on June 11, 2024. District personnel stated the preliminary budget was not ready until May, when it was presented. The 2024-2025 Budget Book includes an explanation of the district budget process and indicates the preliminary budget should be available in March for the Board and other stakeholders' consideration. In February 2025, the Board revised its policy from requiring the budget be presented in March to no later than June 1. By statute the budget must be approved before the beginning of the next fiscal year (July 1). Presenting the budget shortly before it must be passed gives the Board and public little time for review or discussion.

⁹ *Long Term Financial Planning*, Government Finance Officers Association, March 2022, <<https://www.gfoa.org/materials/long-term-financial-planning>>, accessed on April 1, 2025.

¹¹ *Achieving a Structurally Balanced Budget*, Government Finance Officers Association, February 2012, <<https://www.gfoa.org/materials/achieving-a-structurally-balanced-budget>>, accessed on April 1, 2025.

St. Louis Public Schools
Procurement, Hiring, and Budgetary Practices
Management Advisory Report - State Auditor's Findings

In addition, the fiscal year 2020 through 2023 financial statement audit reports¹² indicate actual expenditures exceeded budgeted amounts for at least 1 fund in each year. Expenditures exceeded the budget from \$524,018 to \$21,312,473 per year.

District personnel stated that monthly reports given to the Board are by location¹³ and only include discretionary expenditures, so the Board cannot identify funds that need amended budgets. The Board did not request any other reports to allow it to adequately monitor the district budget.

Section 67.030, RSMo, requires political subdivisions to approve their budget before the beginning of the fiscal year. Section 67.040, RSMo, requires a budget amendment be approved prior to actual expenditures for a given fund exceeding the officially approved budgets for the fund. Individual categories may be in excess of budgeted amounts, but the total expenditures by fund are not to exceed the budgeted expenditure amount for that fund.

A complete and well-planned budget can serve as a useful management tool by establishing specific revenue and cost expectations for each area. Thoughtful consideration of the proposed district budget is necessary to ensure these expectations reflect the Board's plans and adequately address the needs of the students, faculty, and taxpayers. The 2024-2025 Budget Book indicates community engagement and involvement of the internal and external stakeholders is essential during the preparation of the budget. When budget information is presented shortly before approval is required, the Board has little time to properly consider the budget and stakeholder input. It is also imperative for the Board to closely monitor actual revenues and expenditures, because, as noted in section 1.1, the budget already projects some deficit spending. Continuing to spend in excess of budgets will further impact the districts future financial position.

1.3 Public information

Public district budget documents were inaccurate and some monthly financial statement information was not accessible to the public.

The 2023-2024 Budget Book erroneously included salaries of previous years in the fiscal year 2024 proposed salaries by location. The 2024-2025 Budget Book also erroneously included salaries twice in the totals by location. District personnel indicated these inaccuracies were due to clerical errors when preparing the budget books. Also, during our review of the monthly

¹² Available on district website <<https://www.slps.org/Page/96>>, accessed April 21, 2025.

¹³ Includes individual schools and central office departments, such as Academics, Support Services, and Technology.

St. Louis Public Schools
Procurement, Hiring, and Budgetary Practices
Management Advisory Report - State Auditor's Findings

financial statements,¹⁴ the website links to the November 2024 through January 2025 monthly statements did not work. District personnel indicated they did not know who was in charge of updating the website or which district personnel had the ability to update it. After we brought the errors to their attention, the district updated the budget books and document links on the website.

Budget documents are a necessary tool for the efficient management of district finances. Inaccurate and incomplete budget information limits the usefulness of the document and limits citizens from gaining a full understanding of district financial plans. Section 160.066.2, RSMo, requires each public school district, to the extent practicable, to update the financial data contained on its website no less frequently than every quarter and provide the data in a structured format.

Recommendations

The Board of Education:

- 1.1 Maintain a long-term financial plan that includes the district's strategy for reversing its practice of unsustainable deficit spending before fund balances reach critically low levels and ensure it is reviewed and updated at least annually.
- 1.2 Ensure budget information is sufficiently evaluated prior to passing the budget, and develop procedures to ensure budget amounts are not exceeded including obtaining and reviewing detailed reports to adequately monitor actual amounts compared to budgeted amounts. The Board should timely amend the budget, as needed.
- 1.3 Ensure budget documents are accurate and financial information is accessible to the public.

Auditee's Response

- 1.1 *SLPS is committed to long-term financial planning and has a draft long-term financial plan that will address several challenges, ultimately leading to opportunities that will prevent the fund balances from reaching critically low levels and ensure it is reviewed and updated at least annually.*
- 1.2 *SLPS is committed to ensuring the tentative budget proposal for the following year is presented no later than June 1 as outlined in policy DB-5. SLPS presented the tentative budget proposal for the 2025-2026 school year on May 13 and then on May 28 for approval. The budget was approved on May 28, 2025, which is in alignment with*

Procurement, Hiring, and Budgetary Practices
Management Advisory Report - State Auditor's Findings

policy DB-5. The approved budget was posted onto the SLPS website on June 1, 2025. SLPS is committed to providing quarterly updates to provide detailed reports to the Board so that the budget is adequately monitored and amendments are made, as needed.

- 1.3 *SLPS is committed to ensuring budget documents are accurate and financial information is accessible to the public. The approved 2025-2026 Budget Book is on the SLPS website.*

2. Disbursements

District personnel purchased items that were questionable, unreasonable, and/or did not provide an educational benefit; and district controls were insufficient to prevent such purchases. Additionally, district personnel did not review credit limits for reasonableness, reimbursed employees for moving expenses that were not adequately supported, and did not always pay the district's credit card bill timely, resulting in late fees.

2.1 Credit card purchases

District personnel and Board members used district credit cards for questionable and/or unnecessary purchases, failed to adequately retain supporting documentation, and improperly paid state sales tax on some transactions.

District credit cards include purchasing cards and travel cards. From June 6, 2023, through August 5, 2024, the district made approximately \$1.4 million in purchases using 24 purchasing cards,¹⁵ and approximately \$51,000 in purchases using 6 travel cards. Purchasing cards are issued to specific departments or employees. Travel cards are temporarily assigned to employees traveling on district business. Following the implementation of the Purchasing Card Guidelines and Procedures Manual on July 8, 2024, purchasing cards are only to be used for non-travel related expenses.

On December 16, 2024, the former Chief Financial Officer ordered all district credit cards, with the exception of the Human Resources, Finance Division, and travel cards, be turned into the Finance Division by December 20, 2024. After the cards were turned in, several trainings were given to current and future cardholders on the policies and procedures for district credit cards. As of March 19, 2025, the credit cards have not been returned to the cardholders. We judgmentally selected 27 transactions totaling \$17,040 to review from the period June 6, 2023, through August 5, 2024.

Questionable and
unsupported purchases

We identified 17 of the 27 credit card transactions reviewed (63 percent), totaling \$12,436, that were questionable and/or unreasonable. We considered

¹⁵ The Finance Director position had 3 cards assigned to it due to staff turnover and the replacement of 1 card. Another employee was issued a replacement card during the period. When calculating the total number of purchasing cards, we excluded the duplicate cards.

St. Louis Public Schools
Procurement, Hiring, and Budgetary Practices
Management Advisory Report - State Auditor's Findings

purchases questionable based on the nature of the purchase and information provided by district personnel. Our assessment was based on the existence of a receipt slip or other supporting documentation, the educational benefit, district personnel's responses, and auditor judgement. We identified the following questionable purchases, including unsupported travel and meals, unnecessary gifts, and other purchases that did not have an apparent educational purpose:

- \$3,888 for 2 transactions for a Top Golf venue rental and 2 meals for a Deputy Superintendent retreat attended by 42 employees. District personnel could not locate supporting documentation for 1 of the transactions.
- \$1,689 for a 4-night stay at Caesar's Palace for a district employee to attend a conference in Las Vegas, Nevada. The room rate (\$422 per night) exceeded the \$350 maximum daily room rate. District personnel stated other hotels in the area were fully booked and this was the cheapest appropriate hotel, but they could not provide any documentation to support the decision to stay at Caesar's Palace or that an exception to the policy was granted.
- \$1,282 for an Airbnb rental on the former Superintendent's credit card with no supporting documentation for who rented the property or the purposes of the rental. In addition, district personnel could not provide any documentation showing the former Superintendent notified the Board of her travel plans, as required by Board policy. On March 17, 2025, we issued a subpoena to Airbnb for information related to the reservation (see Appendix B). According to the information provided, the reservation was for 8 nights in Atlanta, Georgia and the only guest listed on the reservation was the former Senior Project Manager, despite it being charged to the former Superintendent's card. The district could not provide any additional explanation for the rental after we provided this information, including why this individual would have traveled for the district.
- \$1,136 for 2 transactions for airfare for a Board member and the Board member's spouse in August 2023. The Board member reimbursed the district for the spouse's airfare on February 27, 2025, after the SAO requested an explanation of why the purchase was made on a district card on February 2, 2025. In addition, the Board member's airfare was not booked through the district's travel agency and each transaction exceeded the \$500 maximum airfare cost by \$68.
- \$833 for St. Louis Cardinals tickets with no supporting documentation of who attended and the purpose of the tickets. The game attended was the game the former Superintendent threw out the first pitch.

St. Louis Public Schools
Procurement, Hiring, and Budgetary Practices
Management Advisory Report - State Auditor's Findings

- \$550 for airfare for a district employee to attend a conference in Dallas, Texas. The transaction exceeded the \$500 maximum airfare cost by \$50.
- \$518¹⁶ for \$10 e-gift cards given to former employees who completed an exit survey.
- \$516 for 2 retiree gifts, including \$92.50 for rush shipping.
- \$501 for a meal at a Farmington, Missouri Applebee's Grill & Bar paid with a travel card. District personnel could not provide any detailed receipt slips for the meal to indicate what was purchased.
- \$482 at a local grocery store paid with a travel card. District personnel could not provide any detailed receipt slips to indicate what was purchased, but indicated it was for a food drive. District personnel also could not provide a Missing Receipt Form, as required by policy for travel cards.
- \$431 for computer equipment purchased from Amazon. The district's Information Technology (IT) Department has 2 preferred vendors for computer equipment and technology related items. District personnel could not provide a reason as to why the equipment was not purchased through the IT Department or a preferred IT vendor.
- \$352 for Edible Arrangements to thank 4 employees after staff meetings.
- \$136 for an assortment of greeting cards.
- \$98 for DoorDash delivery of 24 Insomnia Cookies to thank Human Resources staff.
- \$25 for a Lyft gift card with no supporting documentation or identified purpose. District personnel could not locate documentation or identify the purpose for the gift card because "cards may be issued to an Admin or a Department Head, but used by Board and or other SLPS staff members."

The district did not have any guidance or policies for the acceptable use of purchasing cards until July 2024. Prior to this, the district only had the Travel Card Guidelines and Procedures Manual for travel card purchases. In addition, district personnel stated, "Several credit card users are no longer with SLPS and since those transactions were made in 2023, the 'why' was not obtained or retained." While this explains the reason the district could not provide a justification of the purchases for the audit, it does not explain why

¹⁶ Includes an \$18 service charge.

St. Louis Public Schools
Procurement, Hiring, and Budgetary Practices
Management Advisory Report - State Auditor's Findings

district personnel did not obtain this documentation at the time of the transaction to properly monitor and approve purchasing card use.

The Travel Card Guidelines and Procedures Manual states, "the Travel Card must never be used to purchase items for personal use or for non-District purposes even if the cardholder intends to reimburse the District." The Travel Policy requires personnel to submit original itemized receipt slips for all travel expenses including airline, rail, hotels, parking, ground transportation, vehicle rental, and incidentals. Board Policy P2540.1 requires the Superintendent to inform the Board before out-of-town travel with dates, destination, and purpose of the travel and upon return, with a brief report of activities. The Travel Policy requires the reimbursable room per night rate including taxes and fees to not exceed \$350, all air travel to be booked through the district travel agency, and coach airfares to not exceed \$500. The Travel Card Guidelines and Procedures Manual requires the Accounts Payable office to maintain all statements, receipt slips, and supporting documentation pertaining to purchases on travel cards for audit purposes. The manual also requires the cardholder to prepare and sign a Missing Receipt Form when a receipt slip is not maintained.

Travel upgrade purchases

District purchasing cards were used for unreasonable travel upgrades including upgraded boarding, early flight check-in, in-flight WiFi, and additional travel insurance. In total, there were 55 upgrade transactions totaling \$1,747 from June 5, 2023, to August 5, 2024. We noted \$1,460 of the transactions (84 percent) were for Board members, the former Superintendent, cabinet members,¹⁷ and other executive staff.

The Travel Policy indicates airline upgrades, convenience fees including priority check-in or preferred seat assignment, or additional travel insurance will not be reimbursed. It is unclear how travel upgrades, especially those for Board members, the former Superintendent, cabinet members, and other executive staff, are a necessary use of district funds and facilitate the educational goals of the district.

Missouri sales tax

The district approved payment for transactions that included Missouri state sales tax. During our review of credit card transactions, we noted the district paid \$77 in state sales tax on 4 transactions. District personnel could not explain why these transactions included state sales tax.

Section 144.030.19, RSMo, allows for exemptions from state and local sales and use taxes for all sales made by or to all elementary and secondary schools operated at public expense in their educational functions and activities.

¹⁷ The cabinet includes the Superintendent, the Deputy Superintendent, and employees with any job title containing "Chief." There were 13 cabinet positions during our audit period.

St. Louis Public Schools
Procurement, Hiring, and Budgetary Practices
Management Advisory Report - State Auditor's Findings

Conclusion

District residents have placed a fiduciary trust in their public officials to spend district funds in a prudent and necessary manner. Established policies on reasonable purchases and district-provided gifts would provide employees necessary guidance and better transparency for citizens about the use of public funds. Without established guidelines or policies, employees lack clear direction on how to use limited district funds appropriately and responsibly. Additionally, by not retaining documentation for purchases, the Board cannot ensure transactions provide an educational benefit to the district or comply with district policies. The district established Purchasing Card Guidelines and Procedures in July 2024, after the district became aware of misuse of purchasing cards, that prohibit the purchase of gifts using district purchasing cards, include guidance on retaining supporting documentation, and prohibit cardholders from allowing other individuals to use their purchasing cards.

2.2 Reimbursements for moving expenses

The district reimbursed the former Superintendent for moving expenses in excess of those allowed by her employment contract, and reimbursed the Interim Deputy Chief of Operations (IDCOO) for moving expenses when the district had no contract with the individual allowing for reimbursement.

The district reimbursed the former Superintendent for moving expenses totaling \$20,000 on June 9, 2023, and \$16,590 on December 8, 2023. Her employment contract only allowed for a one-time reimbursement of \$20,000. The Board approved the additional payment of \$16,590 during the November 14, 2023, closed session meeting. In a November 9, 2023, email to the former Chief Financial Officer and Board President, the former Superintendent listed her moving expenses incurred prior to May 17, 2023, and an additional expense for car shipment on June 27, 2023, as follows:

Expense Description	Amount
Moving company	\$ 13,923
Apartment security deposit	3,005
Relocation specialist	2,205
Travel	890
Car shipment	1,933
Total	\$ 21,956

The scanned email provided by district personnel contained handwritten calculations that divided the total expenses of \$21,955¹⁸ by 0.6 resulting in a total of \$36,590. The calculations then subtracted \$20,000 for the initial reimbursement amount, and the Board subsequently approved the additional payment of \$16,590. The district's external legal counsel explained that the former Superintendent was not aware that her reimbursement would be taxed

¹⁸ The email had a calculated total of \$21,955.

St. Louis Public Schools
Procurement, Hiring, and Budgetary Practices
Management Advisory Report - State Auditor's Findings

as income, so she requested the Board provide an additional amount to cover the income tax, which she estimated to be 40 percent of her reimbursement. According to external district legal counsel, the Board ultimately approved her reimbursement based upon a "mutual misunderstanding" of the tax withholding.

However, the calculation of the additional income tax burden to be reimbursed was incorrect. The calculation should only have considered the \$20,000 reimbursement allowed by contract. We recalculated the gross pay necessary to equal a \$20,000 reimbursement after income tax by applying the 40 percent calculated income tax rate. Based on our calculations, if a \$20,000 after-tax reimbursement is what the Board intended, it should only have reimbursed the former Superintendent an additional \$13,333.¹⁹ As a result, the district overpaid the former Superintendent \$3,258.

In addition, the Board reimbursed the IDCOO \$15,000 in moving expenses on April 26, 2024. The IDCOO did not have an employment contract or agreement that allowed for the reimbursement of moving expenses. The former Superintendent and the Chief Operating Officer approved the relocation allowance on April 26, 2024, because the IDCOO was willing to accept immediate employment, rather than a temporary employment contract. Based on this approval, the former Chief Financial Officer requested the Human Resources Department develop relocation guidelines for consistency throughout the district. However, the district did not develop any such guidelines.

Formal written employment contracts and contract amendments that clearly define all contractual terms, are necessary to ensure all parties are aware of their duties and responsibilities, and to prevent misunderstandings. Paying amounts beyond contract terms results in unnecessary costs and potentially inconsistent treatment of various employees.

2.3 Excessive credit limits

The district does not monitor credit limits for district purchasing and monthly-cycle card limits are excessive. The total credit limit for the district's 24 purchasing cards was \$892,000 during fiscal year 2024. As of January 31, 2025, the limit for the 6 travel cards totaled \$8,177.²⁰

We noted 11 of the 24 purchasing cards had excessive credit limits based on their limited credit use during fiscal year 2024 and the period July 1, 2024, through August 6, 2024, as follows:

¹⁹ This amount was determined by applying the estimated tax rate of 40 percent to the taxable moving expense reimbursement and to the tax liability reimbursements.

²⁰ We did not evaluate the credit limit utilization of the travel cards because the credit limits changed based on the need of temporary cardholders.

St. Louis Public Schools
Procurement, Hiring, and Budgetary Practices
Management Advisory Report - State Auditor's Findings

- The Finance Director only used 1 to 4 percent of her card's \$450,000 credit limit.
- The Transportation Department only used 7 to 38 percent of the card's \$50,000 limit and had 1 month with no transactions.
- The Human Resources Department²¹ only used 2 to 63 percent of the card's \$10,000 limit and had 2 months with no transactions.
- The Safety and Security Department only used 11 percent of the card's \$2,000 credit limit. The card was only used for 1 transaction.
- The Treasury Department only used 2 percent of the card's \$10,000 credit limit. The card was only used for 2 transactions.
- The Academics Office only used 1 to 64 percent of the card's \$50,000 credit limit and had 1 month with no transactions. Additionally, the Academics Office had 5 additional cards, with \$5,000 limits. Each of these cards was only used for 1 transaction in 1 month.

Excessive credit card limits and purchasing ability increase the risk of abuse and potential large liabilities for the district. By periodically comparing the actual purchasing card activity to monthly cycle limits and adjusting limits as needed, the district can strengthen controls over the cards and reduce potential risks. Excessive card limits occurred and were not addressed because district personnel did not review the utilization on a regular basis and policy does not require review of credit utilization after the initial credit request.

2.4 Late fees

District personnel did not ensure credit card bills were paid timely, resulting in late fees of \$1,106. The district incurred late fees on the December 2024 and March 2025 credit card statements of \$886 and \$220, respectively. District personnel indicated the December 2024 late fee was likely a result of the credit card statement not being downloaded timely enough for the Director of Cash and Investments to make the payment. For the March 2025 late fee, district personnel indicated the Executive Director of Finance was transitioning out of the district and assisting in onboarding a new Controller and Chief Financial Officer, which resulted in personnel not processing the statement timely. Controls and procedures to ensure timely disbursements are necessary to prevent late fees.

²¹ The card is used for travel, but is considered a purchasing card because it is not temporarily assigned to employees.

St. Louis Public Schools
Procurement, Hiring, and Budgetary Practices
Management Advisory Report - State Auditor's Findings

Recommendations

The Board of Education:

- 2.1 Ensure all disbursements are a necessary and prudent use of district funds. In addition, the Board should ensure supporting documentation is retained in compliance with established guidance and policies, and ensure sales tax is not included on district purchases.
- 2.2 Ensure all expense reimbursements are in accordance with employment contracts and reimbursement amounts are accurately calculated.
- 2.3 Establish a policy to periodically review and adjust credit card limits to reasonable amounts based on need and periodically evaluate the need for each card issued.
- 2.4 Implement procedures to ensure bills are paid timely.

Auditee's Response

- 2.1 *SLPS is committed to ensuring that all disbursements are a necessary and prudent use of district funds. SLPS will continue to ensure that all staff receive updated training on financial policies, documentation is retained, and sales tax is not included on district purchases.*
- 2.2 *SLPS is committed to ensuring all expenses for reimbursement are in accordance with employment contracts and reimbursements amounts are accurately calculated. The Board of Education will continue to receive training from Missouri School Board Association.*
- 2.3 *SLPS is committed to ensuring that there is adherence to the new Finance policies that were adopted by the Board of Education on February 11, 2025.*
- 2.4 *SLPS is committed to ensuring bills are paid timely through monthly procedures and reconciliations.*

3. Procurement

Emergency and sole source purchases

District procurement procedures and practices did not comply with Board policy and state law. We reviewed 20 vendors judgmentally selected based on vendor type, annual spending, and perceived risk. District disbursements to these vendors totaled approximately \$1.8 million during our audit period.

The district bypassed the required sealed bid process by classifying 3 purchases, totaling \$266,780, as emergencies or sole source procurements when they did not qualify as such.

St. Louis Public Schools
Procurement, Hiring, and Budgetary Practices
Management Advisory Report - State Auditor's Findings

District policy allows for emergency and sole source purchases to circumvent the normal district procurement requirements for instances in which immediate action is required or when only 1 vendor can provide a good or service. The district Purchasing Manual requires emergency purchases to meet one of the following requirements: (1) Board property damaged through fire, vandalism, severe weather, or other force majeure; (2) failed or broken-down Board property that has placed the safety of staff and students in immediate jeopardy; or (3) a location, amenity, or piece of equipment that cannot be used for educational purposes but is necessary to carry out the educational program. The manual also requires 3 informal bids for emergency repairs that exceed \$50,000, and the Superintendent or designee must approve all emergency purchase requests.

The district Purchasing Manual requires sole source purchases to meet one of the following requirements: (1) licensed or patented, (2) one-of-a-kind, (3) sole distributor for the region or municipality, (4) compatibility with equipment, (5) replacement part for a specific brand or existing equipment, (6) warranty, or (7) unique design. The manual requires a Single/Sole Source Justification form to be completed by the requestor then signed by various individuals and be accompanied by written justification as to why no other source of goods or services can be obtained to meet the district's requirements.

The following purchases reviewed were improperly classified as either sole source or emergency purchases:

Item	Type	Total
Transportation consultant	Emergency	\$ 115,000
Asphalt and retaining wall repair	Emergency	76,980
Athletics livestream service	Sole source	74,800
Total		\$ 266,780

Transportation consultant The Board approved a \$115,000 emergency contract with a transportation consultant that did not meet the requirements for an emergency purchase. The contract was approved on January 9, 2024, for the period February 1, 2024, through June 30, 2024, after the district received a notice of intent to terminate the contract from its transportation vendor in December 2023, with a contract termination date of June 30, 2024.

The Emergency Purchase Form, prepared by the Chief Operations Officer, identified several reasons for the district's need of the transportation consultant including support to secure a potential new mix of vendors and in-house student transportation systems and services that could be implemented for the 2024-2025 school year. These reasons do not meet the policy definitions for an emergency purchase. Also, although the Board approved the emergency contract on January 9, 2024, the agreement was not signed until March 19, 2024, with a commencement date of February 1, 2024, and

St. Louis Public Schools
Procurement, Hiring, and Budgetary Practices
Management Advisory Report - State Auditor's Findings

scope of services and performance standards within the signed agreement were blank. Without this information, the parties might not be aware of their duties and responsibilities necessary to address the situation the district deemed as an emergency. In addition, the vendor proposal was dated January 10, 2024, the day after the Board approved the agreement with the vendor, indicating the Board approved the contract prior to obtaining the written proposal.

While there may have been a need for a transportation consultant due to the pending transportation contract termination, the transportation consultant did not meet any of the requirements of an emergency purchase, the contract was not adopted in an urgent manner, and there was no justification provided as to why the purchase was an emergency.

Asphalt repair

The Board authorized an emergency purchase of asphalt repairs and the replacement of a retaining wall at 2 elementary schools that did not meet the requirements for an emergency purchase, and district personnel did not document the reasons the purchase was considered an emergency at either location. The Emergency Purchase Form, completed on February 1, 2024, only outlined the scope of work and did not provide justification for the emergency purchase. In an email dated February 5, 2024, the Executive Assistant to the Board indicated the repair services "fell below the superintendent's threshold" and was approved by the Board with work beginning February 14, 2024, and ending June 30, 2024, at a cost not to exceed \$32,964. The district could not provide an explanation for why the amount paid to the vendor of \$76,980 exceeded the approved amount by \$46,016. In addition, the damaged areas did not appear to be "jeopardizing the immediate safety of staff and students" because the Board did not require the vendor to complete the repairs until June 30, 2024, 146 days after it approved the emergency purchase. Additionally, the district did not solicit any additional informal bids for the services as required for emergency repairs.

Athletics livestreaming service

The Board extended an agreement with a sports technology company for athletics livestreaming without competitive procurement. In July 2019, the district entered an agreement with a vendor to provide livestreaming, recording, and video analysis of sporting events, as well as scouting services, athletic highlights, and recruiting reels. The district used a sealed bid process to obtain the service, and the vendor selected was the only response to the sealed bid. As a result, the district considered the vendor a sole source when the agreement was extended in August 2023 at a cost not to exceed \$75,000. However, the district did not complete the Single/Sole Source Justification Form or get the appropriate approvals as required by the Purchasing Manual. In addition, the district did not try to determine if other vendors were available 4 years later and the justification given by the district for considering the vendor as single source does not meet the Purchasing Manual requirements.

St. Louis Public Schools
Procurement, Hiring, and Budgetary Practices
Management Advisory Report - State Auditor's Findings

Sealed bids and proposals The district did not competitively select some vendors as required by district policies and state law. District personnel may select vendors from prior approved lists with whom the district maintains a contractual arrangement. Procurement requirements vary based on the type of agreement (see Appendix A for details on agreement types). District personnel may also consider vendors with whom the district does not have a contractual arrangement, but the procurement office has otherwise approved. For these vendors, personnel must go through a sealed bid request for proposal (RFP) process if the annual purchased goods exceed \$5,000 or services exceed \$50,000. We noted the following purchases were not procured as required:

Item	Type	Annual Spend
Building materials	Goods	\$ 35,423
Graduation flowers and plants	Goods	9,845
T-shirts	Goods	133,295
Advertising	Services	54,681
Hiring service	Services	90,000
Total		\$ 323,244

The vendors for the building materials and advertising were part of a single board resolution for a specific dollar amount for the school year to be used on blanket purchase orders for multiple vendors for materials, repairs, and operations; and advertising. The district could not provide documentation of a sealed bid process, quotes, or justification for the use of the vendors.

District personnel explained the purchases with the t-shirt vendor were multiple purchase orders less than \$5,000 each, which they stated was below the sealed bid threshold. However, we noted 2 invoices above the \$5,000 threshold and the threshold is based on annual spending, not individual purchases. The district has several preferred vendors that provide t-shirts and apparel, and the district could not explain why personnel used the non-RFP vendor instead of a preferred vendor. District personnel did not provide a reason why they did not use a sealed bid process for the other vendors.

The district Procurement Requirements Crosswalk (see Appendix A) requires a sealed bid process, Board Action Report,²² board resolution, and superintendent's signature for vendors with an annual spending over \$5,000 for goods and \$50,000 for services. In addition, Section 177.161, RSMo, requires all contracts for repairs and alterations to school property exceeding the sum of \$5,000 be made by the Board, after public letting, to the lowest

²² A Board Action Report provides supporting documents including background information, performance overviews, financial information, initiatives, and risks of a proposed resolution before a Board vote is made. A Board Action Report can be approved by the Board without a formal resolution.

St. Louis Public Schools
Procurement, Hiring, and Budgetary Practices
Management Advisory Report - State Auditor's Findings

responsible bidder complying with the terms of the letting. Competitive procurement not only ensures the district is complying with Board policies and state law, but also helps ensure the district has made every effort to receive fair value by contracting with the lowest and/or best bidder and all interested parties are given an equal opportunity to participate in district business.

Approval and quotes

For 14 of the applicable 17²³ vendors reviewed, the district did not retain adequate supporting documentation or obtain quotes, Board approval, and contracts when required. The following is a summary of the issues noted.

- For 7 vendors reviewed, the district did not have quotes for the goods or services purchased, as required by policy based on annual spending
- For 8 vendors reviewed, the district did not have a Board Action Report. For 4 of these vendors, the district also did not have a Board resolution indicating approval.²⁴
- For 10 vendors reviewed, the district did not have a signed contract or contract renewal.

District personnel explained 2 of the 7 vendors for which no quotes were obtained did not have any singular purchase orders greater than \$5,000, so they did not obtain quotes. However, district policy bases procurement requirements on the annual amount spent with a vendor. The district spent \$30,796 and \$46,058 with each of the 2 vendors, exceeding the \$5,000 threshold. Additionally, in fiscal year 2023, the district spent more than \$5,000 annually with each of the vendors.

Conclusion

Documentation of the procurement and selection process is necessary to demonstrate compliance with district and Board policies. Additionally, clear and detailed written contracts are necessary to ensure all parties are aware of their duties and responsibilities and prevent misunderstandings. Section 432.070, RSMo, requires contracts of political subdivisions to be in writing. See Appendix A for images of portions of the district Procurement Requirements crosswalk that outlines the requirements for procurement based on type of vendor and annual vendor spending.

²³ While 20 vendors were reviewed, 2 vendors were classified as emergency purchases and 1 vendor was classified as a sole source purchase, as discussed in the Emergency and sole source purchases section.

²⁴ A Board resolution formalizes and documents the decisions the Board has voted on and approved.

St. Louis Public Schools
Procurement, Hiring, and Budgetary Practices
Management Advisory Report - State Auditor's Findings

Recommendation

The Board of Education ensure district personnel procure goods and services in accordance with Board and district policies and state law, and maintain documentation to support procurement decisions to demonstrate compliance with policies and statute.

Auditee's Response

SLPS is committed to ensuring district personnel procure goods and services in accordance with Board Policy DJF-5 and maintain documentation to support procurement decisions to demonstrate compliance with policies and statute.

4. Payroll and Personnel Records

District payroll and personnel record procedures need significant improvement. In total, the district had 3,512 employees on June 30, 2024. During the 2 years ended June 30, 2024, the district paid employees approximately \$840.9 million in salaries and benefits, including approximately \$26.2 million in employee attendance incentives.

4.1 Employee attendance incentive

The district paid approximately \$3.5 million in attendance incentives to employees in violation of the Missouri Constitution during the 2 years ended June 30, 2024.

During fiscal year 2023, the Board began an attendance incentive program for all full-time employees, including executive staff, to encourage staff attendance and retention. The first incentive payments were paid on August 26, 2022, and were given to all full-time employees hired on or after January 4, 2022, regardless of attendance, who completed the Spring 2022 semester and returned for the 2022-2023 school year. The second and third incentives were to be paid in January and May 2023. These were to be based on employee attendance in a given semester and allowed eligible employees to be paid from \$950 to \$2,500 per semester after the completion of the semester. On April 6, 2023, Dr. Nicole Williams, Interim Superintendent, issued a letter to employees indicating the district was suspending the attendance requirement for the May incentive. See Appendix C.

The district offered the incentive payments to both employees subject to the American Federation of Teachers (AFT) Local 420 union labor agreement and non-union staff. For some union staff, the incentive was included in the July 1, 2022, labor agreement that was signed prior to the incentive program effective date.²⁵ The AFT Local 420 union and district agreement for skilled trades employees, effective January 1, 2023, included the same attendance incentive. There was no prior agreement with this group.

However, the incentive payments to non-union employees were made without a formal agreement in advance between the district and employee and were

²⁵ Includes teachers, secretarial/clerical, and paraprofessional employees.

St. Louis Public Schools
Procurement, Hiring, and Budgetary Practices
Management Advisory Report - State Auditor's Findings

not for additional duties. Therefore they represent pay for past performance in violation of the Missouri Constitution. Also, district payments to skilled trades employees prior to January 1, 2023, when the skilled trades agreement with the incentive added became effective, violated the Missouri Constitution. The district paid \$3,543,750 in attendance incentives, to the employees in these 2 groups during the 2 years ended June 30, 2024.

Payments for services previously rendered are in violation of Article III, Section 39(3), Missouri Constitution, and contrary to Attorney General's Opinion 72-1955 (June 14, 1955), which states, ". . . a government agency which derives its power and authority from the Constitution and laws of this state would be prohibited from granting extra compensation in the form of bonuses to public officers or servants after the service has been rendered." However, payments are allowable if they are included as part of an employment agreement agreed upon prior to the performance resulting in the payment.

4.2 Salaries

The former Superintendent approved cabinet member salaries in excess of the district salary schedule without Board approval, and gave pay raises to cabinet members with no support to justify the increase, some of which were retroactive. A compensation study was conducted by a consulting firm and presented to the Board, but the Board did not approve it for implementation. The unapproved cabinet member salary amounts exceeded both the existing district salary schedule as well as the recommended amounts in the compensation study. Additionally, district personnel did not always update salary schedules and ensure payroll entries agreed with Board-approved salary schedules. We reviewed the payroll transactions for 10 judgmentally selected cabinet members and 30 randomly selected other full-time employees.

Cabinet salaries exceeded salary schedules and offer letters

During our review of the salaries of 10 of the cabinet members, we identified 6 cabinet members to whom the former Superintendent offered and authorized salaries that exceeded the maximum salary allowed on Board-approved salary schedules. The following table details the differences identified:

Position	Salary Schedule Maximum	Salary (1)	Difference
Deputy Superintendent	\$ 185,961	\$ 230,000	\$ 44,039
Chief Information Officer	185,961	200,000	14,039
Chief Financial Officer	185,961	200,000	14,039
Chief Communications Officer	185,961	200,000	14,039
Chief of Schools	185,961	200,000	14,039
Interim Chief Information Officer	155,791	168,269	12,478

(1) Salary offers are for the 2024-2025 school year except for the Interim Chief Information Officer who was offered \$168,269 as of March 1, 2024. As of June 30, 2024, this position is listed in the accounting records as the Chief Technology Officer.

St. Louis Public Schools
Procurement, Hiring, and Budgetary Practices
Management Advisory Report - State Auditor's Findings

In addition, we identified 4 cabinet members (including 1 whose starting salary exceeded the salary schedule) who were promoted or given a pay increase with no signed offer letters or other documentation to support their new salaries. Of the promotions and increases approved by the former Superintendent, 3 exceeded the maximum salary allowed on Board-approved salary schedules and 2 were improperly paid retroactively. The following table details the differences identified:

Position	Salary Schedule		Difference
	Maximum	Modified Salary	
Deputy Chief of Staff (1)	\$ 155,791	\$ 175,000	\$ 19,209
Interim Chief Information Officer	155,791	175,000	19,209
Chief of Staff 2023-2024 school year (2)	185,961	194,175	8,214
Interim Deputy Chief of Operations (3)	185,961	182,070	(3,891)

- (1) Her starting position was Senior Project Manager. Her salary was increased to \$175,000 on March 1, 2024, prior to the promotion to Deputy Chief of Staff on July 1, 2024.
- (2) Salary was increased January 24, 2024, and approved by the former Superintendent for retroactive pay to August 1, 2023, totaling \$3,961.
- (3) Salary was increased April 30, 2024, and approved by the former Superintendent for retroactive pay to March 1, 2024, totaling \$1,162.

Retroactive pay increases for services previously rendered are in violation of Article III, Section 39(3), Missouri Constitution, and contrary to Attorney General's Opinion 72-1955 (June 14, 1955), which states, ". . . a government agency which derives its power and authority from the Constitution and laws of this state would be prohibited from granting extra compensation in the form of bonuses to public officers or servants after the service has been rendered." District personnel explained that the former Superintendent directed the Chief of Human Resources to make the changes to the cabinet members' salaries, give promotions, and give pay increases without notifying or obtaining approval from the Board.

Other salaries exceed salary
schedules

District personnel are not comparing employee payroll entries with approved salary schedules, and as a result, other salaries also exceeded salary schedule amounts. We noted 22 of the 30 employee annual salaries reviewed (73 percent) did not agree with the Board-approved salary schedules. Of the 22 employees, 21 exceeded the salary schedule by \$1,446 to \$45,189. In addition, the new Chief of Staff, for the 2024-2025 school year was placed on the salary step reserved for only the Superintendent, with a Board-approved range of \$265,508 to \$268,000. Her actual pay was \$194,175, \$71,333 below the minimum range. The district has no salary schedule step for Chief of Staff, and her salary does not agree with any Board-approved amount.

When asked about the differences, district personnel indicated salaries were increased for raises and cost of living adjustments. However, district personnel did not update the 10- to 12-month employee salary schedule amounts after July 1, 2022, to include the raises and cost of living

St. Louis Public Schools
Procurement, Hiring, and Budgetary Practices
Management Advisory Report - State Auditor's Findings

adjustments. According to the 10- to 12-month employee salary schedule, "on July 1, 2023 all groups received a 3 percent increase. Due to the unexpected turnover and the limbo of HR [the Human Resources Department], an updated salary schedule was not created." District personnel updated the teacher, academics coach, librarian, nurse, and executive salary schedules, effective July 2023, to include the 3 percent increase.

Conclusion

Without accurately updated salary schedules and comparison of payroll entries with Board-approved salary schedules, there is less assurance payments to employees are accurate and authorized. To ensure employees are compensated appropriately, payroll expenditures must be accurate, properly supported, and in accordance with Board-approved salary pay schedules and/or employment contracts or offer letters. Board Policy P4500 requires the Board to annually review the compensation plan recommended by the Superintendent. In addition, Board Regulation R4511.1 requires the rates of pay for all employees to be approved by the Board, and the Division of Human Resources is the responsible department to implement and assure consistent application of any rates approved by the Board.

4.3 Personnel records

District personnel files did not have records of some employee background checks, and employment records for several employees were otherwise incomplete. In addition, the district did not properly store and maintain personnel records. We reviewed the employment records, including but not limited to personnel, payroll, and I-9 (United States Citizenship and Immigration Services (USCIS) Employment Eligibility Verification) form files for 26 employees.

Incomplete records

We reviewed the personnel files of 11 judgmentally selected cabinet members and 15 randomly selected employees. We identified the following issues:

- The file for 1 employee²⁶ (cabinet member) was missing Family Care Safety Registry (FCSR) check results. The FCSR provides access to comprehensive background information such as criminal history and child abuse and neglect records and serves as a critical tool in promoting the safety and well-being of children. The district provided results for an FCSR inquiry for the employee it requested on May 22, 2025, after we requested the documentation from the district on May 19, 2025.

²⁶ This employee's file was also missing the E-Verify Confirmation, interview scorecard, annual evaluation, resume, and transcripts.

St. Louis Public Schools
Procurement, Hiring, and Budgetary Practices
Management Advisory Report - State Auditor's Findings

- The files for 2 employees²⁷ (both cabinet members) were missing an E-Verify Confirmation and 1 employee's file was missing FBI finger print background check results. Participation in the federal work authorization program, E-Verify, is required by Section 285.530, RSMo, and is necessary to ensure the district complies with federal immigration and employment regulations, and does not knowingly employ unauthorized workers. After our inquiry about the missing confirmations, district personnel performed an E-Verify Confirmation for the current employee. District personnel indicated the document was unavailable for the former employee. Background checks for potential employees are crucial for student safety to identify individuals with a history of violent behavior, abuse, or other criminal activity that could pose a threat.
- District personnel did not complete all required parts of the federal I-9 form or retain related identification documents for 1 cabinet member. Identification documents are necessary to ensure the district complies with federal immigration and employment regulations and does not knowingly employ unauthorized workers. District personnel indicated they had been unable to schedule a meeting with the cabinet member or complete the remaining portion of the I-9 form. However, beginning in August 2023, the United States Citizenship and Immigration Services allows employers to remotely examine federal I-9 form documents.
- The file for 1 cabinet member was missing a copy of her employment application. Employment applications are necessary to ensure applicants are qualified and the hiring process is completed appropriately. Applications are normally received through an electronic program. District personnel indicated the employee who was missing an application was hired directly by the former Superintendent, rather than through the standard application process.
- Files for 8 (cabinet members) of the applicable 22 files reviewed were missing an interview scorecard and the former Superintendent did not conduct interviews as required.²⁸ The interview scorecard is part of the electronic application program used by the district; however, the employment files for the majority of the applicants hired by the former Superintendent did not have an interview scorecard present. District

²⁷ For 1 of these employees, the file was also missing identification documents, interview scorecard, and tuberculosis test results. This employee's file also contained an incomplete I-9 form.

²⁸ While 26 files were reviewed, the interview scorecard was not applicable for 4 files because 3 employees were hired prior to the implementation of the electronic scorecard system and the former Superintendent was identified by a third-party recruitment agency and her scorecard was not retained by the agency.

St. Louis Public Schools
Procurement, Hiring, and Budgetary Practices
Management Advisory Report - State Auditor's Findings

personnel could not provide any documentation to support that interviews occurred. The interview scorecard is generated as part of the application and employee selection process, and helps evaluate applicants' qualifications and support hiring decisions. Without interview scorecards, there is less documentation to support hiring decisions and candidate qualifications.

- Files for 7 (6 cabinet members and 1 other employee) of the applicable 18 files reviewed were missing an annual employee evaluation.²⁹ District personnel indicated annual employee evaluations were not completed for central office employees for the 2023-2024 school year because the former Superintendent wanted to create a new evaluation tool and the Human Resources Department was told to pause the evaluation process while the new evaluation tool was being developed.

In addition, we noted other missing documents including district identification badge forms for 3 employees and tuberculosis test results for 2 employees. Also, 1 employee was missing a resume and transcripts. District personnel could not locate the missing documentation.

File storage

Some personnel records are not stored in a manner that ensures confidentiality and protection from environmental threats, including potential water or fire damage. On January 29, 2025, we conducted a site visit at the district central office and retired school building where personnel files are stored. During our visit at the central office, we noted current and recent former employee personnel files are stored in filing cabinets in a locked room in the Human Resources Department. However, the key for this room is accessible to all Human Resource Department employees. As a result, the confidentiality of information within these records, including personally identifiable information such as social security numbers, dates of birth, and drivers' license numbers, is not adequately protected.

During our January 2025 visit to the retired school building, we noted former employee personnel records were stored in cardboard file boxes in a locked room, to which only the Human Resources Director has access. We also noted a window in the room was not properly sealed, allowing rain water to leak onto the floor where the record boxes are kept. There were several boxes with visible water damage. The following pictures, taken during an April 2025 site visit, show the condition of the file boxes. We noted during the April 2025 visit that boxes had been moved away from the window and efforts were made to seal the window after we brought the file conditions to district

²⁹ While 26 employee files were reviewed, annual employee evaluations were not applicable to 2 employees because substitute teachers are considered temporary employees and do not receive annual evaluations, and 6 employees were not employed with the district long enough to receive an annual evaluation.

St. Louis Public Schools
Procurement, Hiring, and Budgetary Practices
Management Advisory Report - State Auditor's Findings

personnel's attention. Board policy does not allow for personnel files to be maintained in locations outside of the central administrative office.

Beginning in 2015, the district began scanning all physical personnel files to a digital repository, but still retain physical files in addition to the digital version. According to district personnel, the district has not considered bidding for fire proof or fire safe cabinets for active employees' personnel records because the current storage room has a sprinkler system and files are kept in cabinets. District Personnel indicated the Human Resources Department did not keep a log of those coming into the records room because only the Director of Human Resources and/or the Chief of Human Resources were accessing the room. In addition, district personnel indicated the district has not made it a priority to purchase shelves for the second location to keep file boxes off the floor to avoid any further water damage or other possible damage to records.

Conclusion

Proper storage and retention of employment records is necessary to support personnel actions, including hiring, pay rate assignment, and promotion. The Secretary of State general record retention schedule³⁰ indicates master personnel files are to be retained for 10 years after the date of separation or 20 years after date of separation if no employment summary is prepared. Best practices should be followed to ensure all records kept are placed in an environment free from excessive heat, moisture, and threats of destruction that maintains the integrity of the records. Board Regulation R4251 requires district personnel files to be accurately maintained in the central administrative office for each present and former employee. The policy also specifies the file will contain applications for employment, references, and records relative to compensation, payroll deductions, and evaluations. In addition, Section 8 CFR 274a.2(2) of the Immigration Reform and Control Act of 1986 requires employers to physically examine the employee's identification documentation and complete section 2 of the federal I-9 form, and Section 168.133, RSMo, mandates school districts to conduct criminal background checks for all new employees hired after January 1, 2005.

³⁰ Secretary of State record retention schedules can be found at <https://www.sos.mo.gov/archives/localrecs/schedules>, accessed March 25, 2025.

St. Louis Public Schools
Procurement, Hiring, and Budgetary Practices
Management Advisory Report - State Auditor's Findings

Recommendations

The Board of Education:

- 4.1 Ensure future employee incentives comply with the Missouri Constitution.
- 4.2 Ensure all payments to employees are accurate and paid in accordance with Board-approved salary schedules. In addition, ensure all salary schedules are kept up to date.
- 4.3 Ensure background checks are performed and retained; ensure employment records are retained and maintained in a secure manner that protects them from unauthorized access and environmental risks, in accordance with state law; and ensure employment records are complete for all employees. Additionally, ensure the district is in compliance with Board policy for storage of personnel records.

Auditee's Response

- 4.1 *SLPS is committed to ensuring that future employee incentives comply with the Missouri Constitution. Human Resources (HR) staff had multiple conversations with legal counsel regarding "Retention" incentives and not "Attendance". They were under the perception that offering a retention incentive in Missouri school districts was acceptable, as long as it is structured properly and in accordance with the Missouri Constitution, Article III, Section 39(3).*
- 4.2 *SLPS is committed to ensuring all payments to employees are accurate and paid in accordance with Board-approved salary schedules. The most recent salary schedule was approved December 19, 2024, and reviewed by new board members on June 24, 2025.*
- 4.3 *SLPS is committed to ensuring background checks are performed and retained; and ensuring that employment records are retained and maintained in a secure manner that protects them from unauthorized access and environmental risk. HR has moved files to a secure location that is locked and is working with the state to ensure applicants are removed from the background check system through the Record of Arrest and Prosecution (RAP) back system. The RAP back policy was approved by the board of education on June 10, 2025. RAP back is a system designed to provide governmental entities automatic criminal history updates about individuals who have been previously fingerprinted and it is available on the state and federal level.*

St. Louis Public Schools
Procurement, Hiring, and Budgetary Practices
Management Advisory Report - State Auditor's Findings

5. Policies

District policies over travel were inadequate, the Board did not ensure travel policies were followed, and some district policies conflict with other district policies.

5.1 Travel policy violations

The Board did not have sufficient policies over district travel prior to the 2024-2025 school year, and even after it implemented additional policies and procedures, the Board did not always ensure compliance with the new policies. During fiscal year 2024, district personnel charged at least \$600,000 in travel-related expenses to district purchasing and travel credit cards.

Travel purchases on purchasing cards

Prior to July 8, 2024, the district had no guidance or policies for the use of purchasing cards for travel. The district implemented purchasing card guidelines, effective July 8, 2024, that prohibit cardholders from using purchasing cards for travel-related purchases. However, from July 8, 2024, through August 5, 2024, we identified 72 purchasing card transactions totaling \$24,401 for airfare, rail, rental car, lodging, and travel agent fees. In addition, we noted additional travel-related transactions included on purchasing card statements from September 2024 through March 2025. According to district personnel, exceptions were made for certain purchasing cards. However, there are no exceptions allowed in the purchasing card guidelines. Updated policies with clear exceptions are necessary to provide guidance for spending of district funds.

Meals on travel cards

The district's guidelines for meals purchased do not reflect current practices for student meals. In total, district travel cards were used for a total of 337 meal and food delivery purchases totaling approximately \$29,300 from June 5, 2023, to August 5, 2024. During our review of 27 credit card transactions, we noted 3 meal purchases on travel cards for students on various trips. District personnel provided documentation of the prior approval of the student meals on the travel card.

The Travel Card Guidelines and Procedures Manual, effective September 2022, prohibits using travel cards to purchase meals because meal per diems are paid to employees prior to travel. District personnel indicated it is common practice for travel cards to be used to purchase meals for groups of students traveling with district staff members. In these instances, per diems are not provided for student meals so the travel cards are used. However, the Travel Card Guidelines and Procedures Manual does not include an exceptions for student meals. Updated policies with any allowed exceptions are necessary to provide guidance for spending of district funds, and to decrease the risk of unnecessary or unreasonable charges.

Travel log

Accounts payable department personnel did not maintain a travel log as required by the Travel Policy (effective Spring 2017). According to district personnel, the district has not maintained the travel log since at least 2020 when the accounts payable analyst, who was responsible for maintaining the

St. Louis Public Schools
Procurement, Hiring, and Budgetary Practices
Management Advisory Report - State Auditor's Findings

log, retired. District personnel indicated the travel log was not maintained "because no one in place at that time was aware of its presence in the travel policy."

The district Travel Policy requires the accounts payable department to maintain a district travel log that is to be reviewed monthly by the accounts payable supervisor and/or the Fiscal Control Director.

Travel authorization forms
and Travel Policy violations

The Board did not ensure district personnel followed established travel policies. We reviewed 6 travel-related credit card transactions from the period June 6, 2023, to August 5, 2024, totaling \$16,692, and noted the following policy violations:

- District personnel could not locate the Authorization for Travel and Expense Forms for 2 transactions. In addition, district personnel did not complete 3 Authorization for Travel and Expense Forms timely.
- District personnel could not locate the cardholder agreement or travel card use authorization for 1 transaction.

The district Travel Policy, effective Spring 2017, requires the Authorization for Travel and Expense Form to be submitted to the Travel Department at least 30 days before the first day of travel, or at least 45 days before the first day of travel for grant-funded travel. The Travel Card Guidelines and Procedures Manual, effective September 2022, requires a cardholder agreement be submitted for each prospective cardholder.

5.2 Conflicting policy
information

District and Board policies and Board regulations are inconsistent, some appear duplicative, and many are outdated. When reviewing policies and procedures, we identified the following issues:

- District policy, Board policy, and Board regulation conflict on who is permitted to travel for district business. Board Regulation R4521 specifies travel expenses are only for employees and does not mention Board Members. However, Board Policy P3321 indicates, "Authorized district employees and Board Members may use credit cards or purchasing cards to . . . pay for reasonable travel expenses incurred while performing job duties." The district Travel Policy allows for travel expenses and reimbursements for employees and Board members.
- District policy, Board regulation, and the travel authorization form language provide different timeframes for when the form should be submitted. Board Regulation R4521 specifies the Authorization for Travel and Expense Form must be submitted at least 15 days prior to the date of travel. The district Travel Policy specifies the form must be submitted at least 30 days, or 45 days for grant-funded travel, prior to the

St. Louis Public Schools
Procurement, Hiring, and Budgetary Practices
Management Advisory Report - State Auditor's Findings

date of travel. The authorization form, last revised in July 2014, indicates it must be submitted to the Fiscal Control Office 1 month before the scheduled trip.

- Several Board Policy requirements conflict with the Purchasing Manual and Procurement Requirements crosswalk. For example, Board Policy P3321 specifies that for purchases of supplies or capital assets over \$5,000, bids are to be collected via the sealed bid process, and does not provide for any exceptions. However, the Procurement Manual indicates bids are not required for preferred and "co-op" vendors. In addition, the Procurement Manual indicates, "There are certain items that are excluded from the competitive bid process but are necessary purchases for SLPS. These may include fees for professional membership, postage, bus passes, public utilities, professional development, textbooks, instructional services, equipment, books and materials, student activities, field trips, student incentives, professional services, and such items." However, neither Board Policies or the Procurement Requirements document mention or allow for such exclusions. The Procurement Manual is unclear about who approves any exceptions.

Additionally, the district has several policies that are duplicative or repetitive. For example, for travel, the district has a Travel Policy, Travel Card Guidelines and Procedures Manual, Board policy, and Board regulation. For procurement and purchasing, the district has a Procurement Manual, Procurement Requirements crosswalk, and Board policy. In addition, some Board policies and regulations refer to documents no longer in use by the district. For example, Board Regulation 4521 refers to "Administrative Guidelines Governing Travel Expenses," but no such document was provided during the course of the audit.

The Board has not updated its policies and regulations in several years. For example, as of December 30, 2024, Board policies were last revised on August 9, 2022, for the COVID-19 Employee Vaccination Policy, and the next most recent revision was March 9, 2021. Board regulations were last revised on June 28, 2022. The Board is currently in the process of policy revisions with assistance from the Missouri School Boards' Association.

To avoid confusion and ensure district operations are conducted in accordance with the Board's intentions, clear and consistent policies, regulations, and guidelines are necessary. Board Policy P8331 states, "Administrative guidelines must be consistent with Board Bylaws, Policies, or Regulations." Since district policies govern operations, it is important that the policies be maintained in an accurate up-to-date manner, be adequately communicated to district employees, and reflect the district's intended and actual practices.

St. Louis Public Schools
Procurement, Hiring, and Budgetary Practices
Management Advisory Report - State Auditor's Findings

Recommendations

The Board of Education:

- 5.1 Update the Purchasing Card Guidelines and Procedures Manual and Travel Card Guidelines and Procedures Manual to specify exceptions for using certain purchasing cards for travel-related expenditures and using travel cards for meals for students while traveling. In addition, the Board should ensure employees are complying with district travel policies by maintaining a travel log and ensuring travel authorization forms are completed, approved, and retained according to policy.
- 5.2 Ensure policies, regulations, and guidelines are consistent, updated, and appropriately communicated.

Auditee's Response

- 5.1 *SLPS is committed to updating the Purchasing Card Guidelines and Procedures Manual and Travel Card Guidelines and Procedures Manual to specify exceptions for using certain purchasing and travel cards. The Finance Department has created an "Exception Form" used to provide documentation and justification when necessary. The Finance Department is working on making sure that when travel requests are made, there is a timely response so that all procedures are within the guidelines and policies. SLPS is also committed to ensuring that staff have a better understanding of what type of purchases can be made using a purchasing card and what type of purchases can be made using a travel card.*
- 5.2 *SLPS is committed to ensuring policies, regulations and guidelines are consistent, up to date, and appropriately communicated. SLPS continues to work with the Missouri School Boards' Association in updating policies. During the last week of June 2025, during Professional Development for SLPS administrators, the Finance Team shared updated policies, regulations, and guidelines related to travel and purchasing cards. The finance policies have been updated and posted on the SLPS website. Currently, SLPS is working with a Task Force to review human resources policies. The Task Force has met throughout June and July to review the human resource policies. Once completed, the updated human resource policies will be shared with the Missouri School Boards' Association for review and presented to the Board by November 2025.*

St. Louis Public Schools

Procurement, Hiring, and Budgetary Practices

Organization and Statistical Information

The St. Louis Public Schools encompasses the entire City of St. Louis. The district operates 2 early childhood centers, 37 elementary schools (grades PK-5), 3 elementary/middle schools (grades PK-8), 8 middle schools (grades 6-8), 13 high schools (grades 9-12), 3 alternative schools (1 for grades PK-8, 1 for grades 5-12, and 1 for ages 17-21), 1 special education school (grades PK-8), 2 English for speakers of other languages schools (1 for grades K-8 and 1 for grades 9-10), and 1 college and career readiness school. The St. Louis Public Schools also sponsors 6 charter schools. Enrollment was 16,542 for the 2023-2024 school year. The district employed 3,162 full-time and 350 part-time employees, at June 30, 2024.

The St. Louis Public Schools has been classified under the Missouri School Improvement Program as "Accredited" by the Missouri Department of Elementary and Secondary Education.

School Board

An elected board acts as the policy-making body for the district's operations. The board's 7 members serve 4-year terms without compensation. Members of the board at June 30, 2024, were

Antionette Cousins, President
Matt Davis, Vice -President
Donna Jones, Secretary
Emily Hubbard, Member
Tracy Hykes, Member
Natalie Vowell, Member
Sadie Weiss, Member

Superintendent

The district's superintendent as of June 30, 2024, was Dr. Keisha Scarlett. Her annual compensation was \$268,000, plus costs associated with life insurance in the amount of one and a half times her base salary at the time of policy issuance and an annual contribution to a retirement program, in the amount of 10 percent of her annual base salary. In addition, she received a relocation payment of \$36,590, and \$800 per month car allowance to carry out her duties as superintendent. The superintendent's compensation is established by the school board.

District vendors fall into one of the following three (3) categories:

1. **Preferred RFP Vendor:** Vendor who has responded to an RFP or related process for a particular category and has been awarded and selected via that process.

2. **(CO-OP) Vendors:** Vendor within a cooperative purchasing organization that offers pre-bid goods and services. Contact Procurement for CO-OP details and information.

3. **SLPS "NON-RFP" Vendor:** Vendor that has been approved by SLPS Procurement office. However, the vendor does not have a formal agreement. The purchasing transaction is limited to a certain dollar amount (see chart above).

Request for Proposal (RFP): is a solicitation used by an organization in obtaining proposals or bids in search of hiring a potential vendor to satisfy a set of requirements.

*Sealed bids may be an option in some circumstances instead of a full RFP. Contact Procurement with questions.

Employee Attendance Incentive Letter

April 6, 2023

SLPS Staff,

The attendance component of the bonus incentive is meant to reward those many employees who support our students, day in and day out. However, this semester has shown us that there is lasting exhaustion from the COVID-19 pandemic and ripples of the tragedy of October 24th have reemerged with the recent incident in Nashville.

The attendance threshold has placed an additional and unintended stressor on the very employees we meant to reward. This has led us to, once again, suspend the attendance threshold of the retention bonus so that it does not become another hurdle for our valued employees.

In collaboration with our unions (AFT Local 420, MNEA and Local 42) and the Board of Education, we have once again, modified the attendance component of the incentive for the remainder of this semester.

Hours Per Workday	Number of Student Days	Work Hours in a semester	Hours You Can Miss as of March 16, 2023	Days You Can Miss as of March 16, 2023
6.5	91	591.5	41.41	6.37
7	91	637	44.59	6.37
8	91	728	50.96	6.37

Full-time employees hired on or before January 4, 2023, and who complete the Spring 2023 semester will receive the \$2,000 bonus so long as they did not miss more than the maximum hours, **as of the end-of-day on March 16, 2023**. To qualify you must be a full-time employee throughout the entire spring semester, and you must be in active status at the end of the semester, regardless of the number of days you may miss after the March 16th date.

Thank you for your service and for all the care and compassion you show to our students and your co-workers every day. Please continue to focus on yourself as well. Take advantage of the mental health resources available to you through the District and our partners.

We also want to show appreciation to our payroll team. They will put forth a tremendous effort to ensure the incentive will payout on **Friday, June 9, 2023**. All retention payments will be subject to customary taxes and deductions.

Thank you for all you do in service to our students and to your colleagues. Please speak to your supervisor or school leader if you have any questions. Take care of yourselves and each other.

Sincerely,
Dr. Nicole L. Williams
Interim Superintendent of Schools

Scott Fitzpatrick

Missouri State Auditor

Hanley Road Corridor
Transportation Development District

Report No. 2025-044

July 2025

auditor.mo.gov

Conclusions in the audit of the Hanley Road Corridor Transportation Development District

Background

The Hanley Road Corridor Transportation Development District (TDD) was formed in March 2009 with the primary objective of creating a funding source to construct an intersection located at Highway 40 and Hanley Road to help relieve traffic congestion, among other transportation-related improvements such as road straightening and widening, bridge replacement, and sidewalk installation.

The City of Brentwood, the City of Maplewood, St. Louis County, and the Bi-State Development Agency of the Missouri-Illinois Metropolitan District are the public entities with jurisdiction over the local portion of the project, and serve as the Local Transportation Authorities (LTAs). The boundaries of the district include 5 other previously existing TDDs: the Brentwood Pointe TDD and Folk Avenue South TDD, as well as the Brentwood/Strassner Road TDD, Kenilworth TDD, and the Hanley Road and North of Folk Avenue TDD. These TDDs have since dissolved. In addition, several past and present Tax Increment Financing (TIF) Redevelopment Areas overlap with the boundaries of the district. Those TIF districts include: Eager Road (Brentwood Promenade), Eager Road (Brentwood Pointe), Kenilworth (Brentwood Square), and Hanley Road/South of Folk Avenue (Maplewood Commons). As of June 30, 2024, the Hanley Road/South of Folk Avenue Redevelopment Area is the only TIF still active.

In August 2009, the Board of Directors passed a resolution formally approving the submission of the proposed sales tax rate of 1 percent on all taxable transactions within the district's boundaries. The sales tax became effective in September 2009. The district satisfied revenue bond debts in their entirety by April 2024. All district projects were completed by approximately March 2019, with costs totaling approximately \$46.6 million through June 30, 2024. In July 2024, the Board of Directors approved a resolution to repeal the sales tax collections, and subsequently notified the Missouri Department of Revenue (DOR) of the resolution. The sales tax was repealed on September 30, 2024.

Based on the audit, the cash balance of the Hanley Road Corridor TDD as of June 30, 2024, was \$3,011,154. Per the district's bank statements, their cash balance has since increased to a total of \$5,967,392 as of April 30, 2025. According to the district's legal counsel, the Hanley Road Corridor TDD has remaining estimated liabilities of \$157,700 which include the following: legal fees (\$150,000), audit fees (\$5,500), and bank fees (\$2,200). Based on these representations, the district has sufficient cash to pay any remaining costs and obligations. After the district's final costs are paid, the remaining balance will be transferred to the LTAs in accordance with state law.

Financial Status

The audit of the Hanley Road Corridor Transportation Development District indicates the financial condition of the district is such that it may be abolished.

Because of the nature of this audit, no rating is provided.

State Auditor's Report	2
------------------------	---

Management Advisory Report - State Auditor's Conclusions	Financial Status3
--	-------------------------

SCOTT FITZPATRICK
MISSOURI STATE AUDITOR

Barry Greenberg, Chairman
and
Board of Directors
Hanley Road Corridor Transportation Development District
St. Louis County, Missouri

The State Auditor is required under Section 238.275, RSMo, to audit a transportation development district prior to the question of abolishment being submitted to a vote. On July 10, 2024, the Board of Directors of the Hanley Road Corridor Transportation Development District approved a resolution of its intent to dissolve the district and request an audit as required by statute. The State Auditor was subsequently notified of this resolution.

The district engaged Wade Stables P.C., Certified Public Accountants (CPAs), to audit the district's financial statements for the fiscal year ended December 31, 2023. To minimize duplication of effort, we reviewed the CPA firm's audit report. The scope of our audit included, but was not necessarily limited to, the year ended June 30, 2024. The objectives of our audit were to evaluate the financial status of the district and determine whether it may be abolished pursuant to law.

Our methodology included reviewing minutes of meetings, financial records, and other pertinent documents; and interviewing various personnel of the district, as well as certain external parties. We obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted this performance audit in accordance with generally accepted government auditing standards. Those standards require that we plan and perform the audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides a reasonable basis for our conclusions based on our audit objectives.

The audit determined the Board of Directors may proceed with abolishment of the district in accordance with Section 238.275, RSMo.

The accompanying Management Advisory Report presents our conclusions arising from our audit of the Hanley Road Corridor Transportation Development District.

Scott Fitzpatrick
State Auditor

Hanley Road Corridor Transportation Development District Management Advisory Report - State Auditor's Conclusions

Financial Status

Our audit of the Hanley Road Corridor Transportation Development District (TDD) indicates the financial condition of the district is such that it may be abolished.

The district is located in St. Louis County with areas in portions of the cities of Brentwood, Missouri, and Maplewood, Missouri. The district was organized in March 2009 by petition from the Brentwood Pointe TDD and Folk Avenue South TDD. There are 5 members of the Board of Directors and 2 additional staff serving as treasurer and secretary. The district has a fiscal year end of December 31.

The boundaries of the district include 5 other previously existing TDDs: the aforementioned Brentwood Pointe TDD and Folk Avenue South TDD, as well as the Brentwood/Strassner Road TDD, Kenilworth TDD, and the Hanley Road and North of Folk Avenue TDD. These TDDs have since dissolved. In addition, several past and present Tax Increment Financing (TIF) Redevelopment Areas overlap with the boundaries of the district. Those TIF districts include: Eager Road (Brentwood Promenade), Eager Road (Brentwood Pointe), Kenilworth (Brentwood Square), and Hanley Road/South of Folk Avenue (Maplewood Commons). As of June 30, 2024, the Hanley Road/South of Folk Avenue Redevelopment Area is the only TIF still active.

The district's primary objective was to create a funding source to construct an intersection located at Highway 40 and Hanley Road to help relieve traffic congestion, among other transportation-related improvements such as road straightening and widening, bridge replacement, and sidewalk installation. Further, the district's creation was a collaborative effort of the 5 existing TDDs to consolidate operations, refinance existing revenue bonds, and establish a consistent sales tax within the district's boundaries. The district satisfied revenue bond debts in their entirety by April 2024. All district projects were completed by approximately March 2019, with costs totaling approximately \$46.6 million through June 30, 2024.

The City of Brentwood, the City of Maplewood, St. Louis County, and the Bi-State Development Agency of the Missouri-Illinois Metropolitan District are the public entities with jurisdiction over the local portion of the project, and serve as the Local Transportation Authorities (LTAs). At least one member from each LTA serves on the district's Board of Directors. The Missouri Highways and Transportation Commission (MHTC) serves as the entity with jurisdiction over the state portion of the project.

In August 2009, the Board of Directors passed a resolution formally approving the submission of the proposed sales tax rate of 1 percent on all taxable transactions within the district's boundaries. The sales tax became effective in September 2009. In July 2024, the Board of Directors approved a

Hanley Road Corridor Transportation Development District Management Advisory Report - State Auditor's Conclusions

resolution to repeal the sales tax collections, and subsequently notified the Missouri Department of Revenue (DOR) of the resolution. The sales tax was repealed on September 30, 2024.

In July 2024, the Board of Directors approved a resolution formalizing its intent to dissolve the district. The district's legal counsel advised the State Auditor's Office (SAO) in July 2024 of this resolution and requested the SAO proceed with all necessary actions as required pursuant to Section 238.275, RSMo. That statute requires the State Auditor to audit the district to determine its financial status, and determine whether it may be abolished pursuant to law. It also states the board shall not propose the question to abolish the district while there are outstanding claims or causes of action pending against it; if its liabilities exceed its assets; or while the district is insolvent, in receivership, or under the jurisdiction of a bankruptcy court.

The following table presents the financial activity and cash balances for the year ended June 30, 2024.

	Year Ended June 30, 2024
RECEIPTS	
Sales Tax	\$ 7,032,419
Transfer from Brentwood Pointe TDD	299,628
Interest	107,445
Total Receipts	<u>7,439,492</u>
DISBURSEMENTS	
Legal Fees	14,595
Bank Fees	154
Trustee Fees	5,653
Audit Fees	4,250
Administrative/Monitoring	19,908
Insurance	4,241
Transfer to TIF, TDD	159,470
Debt Service - Interest	109,150
Debt Service - Principal Payment	7,210,000
Total Disbursements	<u>7,527,421</u>
RECEIPTS OVER (UNDER) DISBURSEMENTS	(87,929)
BEGINNING CASH	<u>3,099,083</u>
ENDING CASH	<u>\$ 3,011,154</u>

Source: Compiled by the SAO using the district's unaudited financial statement and bank statements.

Based on our audit, the cash balance of the Hanley Road Corridor TDD as of June 30, 2024, was \$3,011,154. Per the district's bank statements, their cash balance has since increased to a total of \$5,967,392 as of April 30, 2025.

Hanley Road Corridor Transportation Development District Management Advisory Report - State Auditor's Conclusions

According to the district's legal counsel, the Hanley Road Corridor TDD has remaining estimated liabilities of \$157,700 which include the following: legal fees (\$150,000), audit fees (\$5,500), and bank fees (\$2,200). Based on these representations, the district has sufficient cash to pay any remaining costs and obligations. After the district's final costs are paid, the remaining balance will be transferred to the LTAs in accordance with Section 238.275.5(1), RSMo, after an agreement is drafted.

Based on our audit, the Board of Directors may proceed with the abolishment of the district in accordance with Section 238.275, RSMo.

Scott Fitzpatrick

Missouri State Auditor

Ripley County

Report No. 2025-043

July 2025

auditor.mo.gov

CITIZENS SUMMARY

Findings in the audit of Ripley County

Sheriff's Controls and Procedures

Sheriff's office personnel do not maintain a complete and accurate seized property inventory log and do not conduct periodic physical inventories of seized property. A request for a seized property inventory log in May 2024 resulted in the Sheriff's office providing a list of 65 entries with seizure dates ranging from January 2012 through August 2014. Sheriff's office personnel indicated the previous log was destroyed in an office flood in 2017 and efforts were made in January 2023 to recreate the log, but no further efforts were made to properly maintain the log and update it for new seizures and dispositions. Sheriff's office personnel do not issue receipt slips for all money received, use prenumbered bond forms, or reconcile receipts to deposits. Additionally, except for cash bonds, which are listed individually on monthly reports, Sheriff's office personnel do not identify the cash receipts comprising bank deposits or reconcile receipts to deposits. Failure to issue receipt slips for all money received, use prenumbered bond forms, account for the numerical sequence of the documents, and reconcile the amounts on the documents to the amounts deposited increases the risk that loss, theft, or misuse of money received could occur and go undetected.

County Fuel Use Records and Procedures

County fuel use logs are not complete, maintained for all vehicles, reviewed for reasonableness, or reconciled to fuel purchases. The Road and Bridge Department maintains a log with the employee name, date, and gallons dispensed from each tank; however, the log does not identify the vehicle or equipment fueled and is not reviewed for reasonableness or reconciled to fuel purchases. Sheriff's deputies were required to maintain a log for each vehicle recording the daily odometer reading and gallons of fuel dispensed; however, the Sheriff did not maintain a log for his vehicle. Procedures for maintaining complete vehicle and equipment use and fuel logs, evaluating the reasonableness of the fuel use recorded on the logs, and reconciling fuel use to purchases are necessary to ensure vehicles and equipment are properly used; prevent paying vendors for improper amounts; and decrease the risk of loss, theft, or misuse of fuel going undetected.

Public Administrator's Annual Settlements

The audit judgmentally selected 10 of the 20 wards for review and noted the most recent settlement was not filed timely for 8 of the wards reviewed. Settlements for these 8 cases were filed 77 to 392 days after the due date.

Sheriff's Compensation

The County Commission authorized mid-term salary increases totaling \$18,542 to the Sheriff, in violation of constitutional provisions.

Senate Bill 40 Board's Records and Procedures

The Senate Bill 40 Board did not ensure the written agreement was renewed and amended with the not-for-profit (NFP) entity funded by the Board. Section 432.070, RSMo, requires government contracts to be in writing. Written agreements, renewed and modified when necessary to reflect changes in terms, are necessary to ensure all parties are aware of their duties and responsibilities and to prevent misunderstandings. The Board did not document in open meeting minutes the specific reasons or sections of law allowing the meeting to be closed for 6 of the 7 closed meetings held from January 1, 2023, through October 15, 2024. Section 610.022, RSMo, requires public bodies to announce the specific reasons allowed by law for going into a closed meeting and to enter the vote and reason into the minutes.

Additional Comments

Because counties are managed by several separately elected individuals, an audit finding made with respect to one office does not necessarily apply to the operations in another office. The overall rating assigned to the county is intended to reflect the performance of the county as a whole. It does not indicate the performance of any one elected official or county office.

In the areas audited, the overall performance of this entity was Fair .*

*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

- Excellent:** The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.
- Good:** The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.
- Fair:** The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.
- Poor:** The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

Organization and Statistical Information	11
---	----

SCOTT FITZPATRICK MISSOURI STATE AUDITOR

County Commission
and
Officeholders of Ripley County

We have audited certain operations of Ripley County in fulfillment of our duties under Section 29.230, RSMo. The scope of our audit included, but was not necessarily limited to, the year ended December 31, 2023. The objectives of our audit were to:

1. Evaluate the county's internal controls over significant management and financial functions.
2. Evaluate the county's compliance with certain legal provisions.
3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.

Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the county; and performing sample testing using haphazard and judgmental selection, as appropriate. The results of our sample testing cannot be projected to the entire populations from which the test items were selected. We obtained an understanding of internal control that is significant to the audit objectives and planned and performed procedures to assess internal control to the extent necessary to address our audit objectives. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted this performance audit in accordance with generally accepted government auditing standards. Those standards require that we plan and perform the audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides a reasonable basis for our findings and conclusions based on our audit objectives.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the county's management and was not subjected to the procedures applied in our audit of the county.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, and (3) the need for improvement in management practices and procedures. The accompanying Management Advisory Report presents our findings arising from our audit of Ripley County.

A handwritten signature in black ink, appearing to read "S. Fitzpatrick". The signature is stylized with a large initial "S" and a cursive "Fitzpatrick".

Scott Fitzpatrick
State Auditor

Ripley County

Management Advisory Report

State Auditor's Findings

1. Sheriff's Controls and Procedures

The Sheriff's office needs to improve controls and procedures for seized property and receipts and deposits.

1.1 Seized property

Sheriff's office personnel do not maintain a complete and accurate seized property inventory log and do not conduct periodic physical inventories of seized property.

While the Sheriff's office maintains an electronic incident management system that includes a property summary report allowing for the input of information about any property seized on each incident, the reports are not used to produce a complete inventory log and the reports were not always properly completed. We requested a seized property inventory log in May 2024 and the Sheriff's office could only provide a list of 65 entries with seizure dates ranging from January 2012 through August 2014. Sheriff's office personnel indicated the previous log was destroyed in an office flood in 2017 and efforts were made in January 2023 to recreate the log, but no further efforts were made to properly maintain the log and update it for new seizures and dispositions. Additionally, for one case that the Prosecuting Attorney indicated was dismissed due to missing evidence, the property summary report contained blank fields for disposition, date the item was added to evidence, and evidence location. Office personnel could not explain the blank fields and indicated they were unaware of the importance of maintaining an updated log and conducting periodic physical inventories.

Considering the often sensitive nature of seized property, adequate internal controls are essential and would significantly reduce the risk of loss, theft, or misuse of the property. Maintaining complete and accurate inventory control records and performing periodic physical inventories, with the results compared to inventory records, is necessary to ensure seized property is accounted for properly.

1.2 Receipts and deposits

Sheriff's office personnel do not issue receipt slips for all money received, use prenumbered bond forms, or reconcile receipts to deposits. Additionally, except for cash bonds, which are listed individually on monthly reports, Sheriff's office personnel do not identify the cash receipts comprising bank deposits or reconcile receipts to deposits. Sheriff's office monthly reports indicate the office collected fees and bonds totaling \$16,039 during 2023, comprised of \$9,737 for civil fees and mileage, \$3,962 for bonds, \$2,000 for concealed carry weapons (CCW) permits, and \$340 for jail fees.

We reviewed the monthly reports for June and November 2023, which comprised 10 bank deposits totaling \$2,764, and the documentation supporting each deposit from the bank (copies of checks and cash tickets). While the amounts deposited agreed to the totals on the monthly reports, no

Ripley County Management Advisory Report - State Auditor's Findings

receipt slips were issued for cash bonds or CCW permits, and we were unable to reconcile receipt slips to the deposits and monthly reports as follows:

- The June 6, 2023, deposit contained 1 check for \$20 that was not recorded on a receipt slip and the cash contained in the deposit, totaling \$100, exceeded the receipt slips issued for cash receipts, totaling \$79, by \$21. Consequently, \$41 more was deposited than recorded.
- The cash contained in the June 20, 2023, deposit totaled \$160, no receipt slips were issued for cash receipts during the period since the previous deposit, and the monthly report indicated the deposit included CCW permits totaling \$100. Consequently, \$60 more was deposited than recorded.
- The November 13, 2023, deposit contained 1 check for \$20 that was not recorded on a receipt slip. Consequently, \$20 more was deposited than recorded.
- The cash contained in the November 30, 2023, deposit totaled \$560, receipt slips issued for cash receipts totaled \$60, and the monthly report indicated the deposit included CCW permits totaling \$560. Consequently, \$60 less was deposited than recorded.

In total for the 10 deposits reviewed, \$61 more was deposited than recorded. Because receipt slips were not issued for all receipts, there is less assurance all receipt activity was handled properly during the period reviewed. Sheriff's office personnel indicated they were unaware of the importance of using prenumbered bond forms, issuing receipt slips for all receipts, and reconciling receipts to deposits.

Failure to issue receipt slips for all money received, use prenumbered bond forms, account for the numerical sequence of the documents, and reconcile the amounts on the documents to the amounts deposited increases the risk that loss, theft, or misuse of money received could occur and go undetected.

Recommendations

The Sheriff:

- 1.1 Maintain a complete and accurate seized property log, ensure a periodic inventory is conducted and reconciled to the seized property log, and investigate any differences.
- 1.2 Establish procedures to issue receipt slips for all money received, use prenumbered bond forms, account for the numerical sequence of the documents, and reconcile receipts to deposits.

Ripley County
Management Advisory Report - State Auditor's Findings

Auditee's Response

Current Sheriff Talburt provided the following responses:

1.1 On January 1, 2025, the Ripley County Sheriff's Office began under a new administration; newly elected Sheriff Rad Talburt. One of the first actions taken was to do a complete inventory of the evidence. As of today (June 23, 2025) the evidence locker has been completely inventoried and logged. We will conduct these inventories periodically in the future. Sheriff Talburt has implemented a bar-coding device. All evidence going into the evidence locker is now recorded and bar coded for more efficient access. Also, all evidence going out of the evidence locker has an evidence release/destruction form, so we know what evidence has been taken out and by whom.

1.2 Since taking office in January 2025, I've adopted the following receipting and depositing procedures:

All money collected is deposited into the bank with a detailed deposit slip. Each deposit slip is compared with the pre-numbered receipt books to ensure all money gets deposited to the correct account. The original receipt is given to each patron and a carbon copy of receipts is kept in each designated spiral receipt book. All money coming in and going out is maintained, recorded, and compared with each entry to ensure accuracy of the deposits at the end of each month.

I will consider making further changes to procedures to fully implement the recommendation.

2. County Fuel Use Records and Procedures

County fuel use logs are not complete, maintained for all vehicles, reviewed for reasonableness, or reconciled to fuel purchases. During the year ended December 31, 2023, fuel purchases for the county's bulk tanks totaled approximately \$79,000 for the Road and Bridge Department and \$54,000 for the Sheriff's office. At December 31, 2023, the Road and Bridge Department maintained 5 vehicles and 7 motorized equipment items (tractors, backhoes, and graders), and the Sheriff's office maintained 15 vehicles.

The Road and Bridge Department maintains a log with the employee name, date, and gallons dispensed from each tank; however, the log does not identify the vehicle or equipment fueled and is not reviewed for reasonableness or reconciled to fuel purchases. Sheriff's deputies were required to maintain a log for each vehicle recording the daily odometer reading and gallons of fuel dispensed; however, the Sheriff did not maintain a log for his vehicle. County officials indicated they were not aware of the need to maintain complete logs, evaluate the logs for reasonableness, and compare the logs to fuel purchases.

Procedures for maintaining complete vehicle and equipment use and fuel logs, evaluating the reasonableness of the fuel use recorded on the logs, and

Ripley County Management Advisory Report - State Auditor's Findings

reconciling fuel use to purchases are necessary to ensure vehicles and equipment are properly used; prevent paying vendors for improper amounts; and decrease the risk of loss, theft, or misuse of fuel going undetected.

A similar condition was noted in our prior audit report.

Recommendation

The County Commission and Sheriff establish procedures to maintain and review complete fuel use logs, reconcile fuel used to fuel purchased, and document a periodic review of fuel use reports. Any significant discrepancies should be promptly investigated.

Auditee's Response

The County Commission provided the following response:

The Ripley County Road Crew Supervisor will maintain complete logs for fuel usage for the Road Department. The Supervisor will monitor fuel usage and the logs monthly, and the Supervisor will submit a report of fuel usage to the Commissioners on a quarterly basis.

The fuel tank for the Ripley County Sheriff's Department has been moved to the Ripley County Detention Center under view of security cameras. The Sheriff's Department will maintain a usage log and review it monthly. The Sheriff's Office will submit a quarterly report of fuel usage to the Commissioners.

The Commissioners will review the quarterly reports and compare them to the monthly bills from fuel purchases. Any significant discrepancies from either the Ripley County Road Department or the Sheriff's Department will be promptly investigated.

Current Sheriff Talburt provided the following response:

Since taking office in January 2025, I've adopted the following procedures for recording and controlling vehicle and fuel usage:

All patrol vehicles have mileage logs where officers, including the Sheriff, record all mileage and gallons of gas used. This also includes the 2 transport vehicles at the Ripley County Detention Center that are utilized for prisoner transport purposes. Hard copies of these forms are kept on record.

Additionally, I plan to adopt a procedure to record fuel usage at the tank in a log, review the log monthly, and submit a quarterly report of fuel usage to the County Commission.

Ripley County
Management Advisory Report - State Auditor's Findings

3. Public Administrator's Annual Settlements

The Public Administrator did not always file annual settlements timely. The Public Administrator is the court-appointed personal representative for wards or decedent estates of the Circuit Court, Probate Division. The Public Administrator's office was responsible for the financial activity of 20 wards and estates as of December 31, 2023.

From a listing of the wards assigned to the Public Administrator as of December 31, 2023, we judgmentally selected 10 wards for review and noted the most recent settlement was not filed timely for 8 of the wards. Settlements for these 8 cases were filed 77 to 392 days after the due date. The Public Administrator indicated she was not always able to timely file settlements because she had significant personal health issues, did not have any employees in her office, and had a large number of non-financial cases to manage as guardian in addition to the wards with financial activity.

Sections 473.540 and 475.270, RSMo, require the Public Administrator to file an annual settlement with the court for each ward or estate. Timely filing of annual settlements is necessary for the court to properly oversee the administration of cases and reduce the possibility that errors, loss, theft, or misuse of funds will go undetected.

Recommendation

The Public Administrator file annual settlements timely.

Auditee's Response

I have hired someone to help me in my office and we are working on getting settlements completed in a timely manner. We have been able to correct the issues and move forward in a positive manner and direction.

4. Sheriff's Compensation

The County Commission authorized mid-term salary increases totaling \$18,542 to the Sheriff, in violation of constitutional provisions. The Sheriff took office in 2021 at the salary level approved by the Ripley County Salary Commission. The County Commission authorized a salary increase for the Sheriff starting in March 2022, spreading the increase unequally over 5 years. As of December 2024, the Sheriff received raises in March 2022, January 2023, and January 2024 totaling \$18,542 during his term.

Section 57.317.1(2), RSMo, enacted in 2021, states the sheriff shall receive an annual salary computed based on a percentage of the compensation of an associate circuit judge of the county, with the percentage determined by a statutory schedule using the county's current assessed valuation level. The law indicated if the increase to the Sheriff's salary is less than \$10,000, the increase shall take effect January 1, 2022, but if the increase in salary is more than \$10,000, the increase shall be paid equally over a 5-year period. However, Article VII, Section 13, of the Missouri Constitution prohibits an increase in compensation for state, county, and municipal officers during their term of office. Court cases have concluded that to receive additional compensation during a term of office there must be: 1) no existing

Ripley County Management Advisory Report - State Auditor's Findings

compensation for the office; 2) new or additional duties extrinsic or not germane to the office; or 3) the mid-term increase must result from the application of a statutory formula for calculating compensation that was in place prior to the individual being elected or taking office. None of those circumstances exist; therefore, the increase to the Sheriff's salary should be effective only for any Sheriff elected and sworn into office after the new salary schedule was authorized.

The County Clerk indicated the County Commission sought a legal opinion from the County Prosecuting Attorney but did not receive a response, and the County Commission believed it was complying with the law by approving an increase to the Sheriff's salary.

Recommendation

The County Commission ensure salary increases comply with constitutional provisions and consider various methods for possible recoupment of any mid-term salary increases already paid.

Auditee's Response

The Ripley County Commission followed the provisions in Section 57.317, RSMo, in approving increases to the Sheriff's salary. We will discuss this issue with the Ripley County Prosecuting Attorney and determine the best course of action.

5. Senate Bill 40 Board's Records and Procedures

The Senate Bill 40 Board (Board) did not renew and amend the agreement with the entity receiving Board funding and the Board did not always comply with the closed meeting requirements of the Sunshine Law.

5.1 Written agreements

The Board did not ensure the written agreement was renewed and amended with the not-for-profit (NFP) entity funded by the Board. The Board executed an agreement in January 2019 for funding and services for 2019, and the agreement required annual renewals for modifications deemed necessary. The agreement required the Board to provide \$48,000 in \$12,000 quarterly installments to the NFP, and allowed for additional amounts upon request by the NFP and approval by the Board.

The Board increased funding in subsequent years, but did not renew or amend the 2019 agreement. During the year ended December 31, 2023, the Board made payments to the NFP totaling approximately \$218,000, including \$96,000 provided in quarterly installments of \$24,000. In April 2024, the Board reduced planned funding to the NFP and began providing some services directly. The Board negotiated an agreement with the NFP in May 2024 to provide funding through December 2024, and subsequently decided to provide funding to the NFP for 2025 with monthly payments about 4 percent larger than the payments noted in the May 2024 agreement. The

Ripley County Management Advisory Report - State Auditor's Findings

Board President indicated the Board was not aware of the need to renew and amend agreements for changes in the funding terms.

Section 432.070, RSMo, requires government contracts to be in writing. Written agreements, renewed and modified when necessary to reflect changes in terms, are necessary to ensure all parties are aware of their duties and responsibilities and to prevent misunderstandings.

5.2 Sunshine law

The Board did not document in open meeting minutes the specific reasons or sections of law allowing the meeting to be closed for 6 of the 7 closed meetings held from January 1, 2023, through October 15, 2024. The Board President indicated the Board was not aware of this requirement.

Section 610.022, RSMo, requires public bodies to announce the specific reasons allowed by law for going into a closed meeting and to enter the vote and reason into the minutes. This section also limits discussion topics and actions in closed meetings to only those specifically announced prior to closure.

Recommendations

The Senate Bill 40 Board:

- 5.1 Ensure written agreements are executed as required by state law.
- 5.2 Ensure specific reasons for closing a meeting are documented in the open meeting minutes.

Auditee's Response

- 5.1 *The Senate Bill 40 Board will endeavor to have a signed agreement similar to the one last signed in 2019.*
- 5.2 *The Senate Bill 40 Board will take notice of this and make procedural changes to make sure this is done. The actual reasons for past closed sessions were related to personnel issues and property purchases.*

Ripley County

Organization and Statistical Information

Ripley County is a county-organized, third-class county. The county seat is Doniphan. The county's population was 10,679 in 2020, according to the U.S. Census Bureau.

Ripley County's government is composed of a three-member county commission and separate elected officials performing various tasks. All elected officials serve 4-year terms. The county commission has mainly administrative duties in setting tax levies, appropriating county funds, appointing board members and trustees of special services, accounting for county property, maintaining county roads and bridges, and performing miscellaneous duties not handled by other county officials. Principal functions of these other officials relate to law enforcement, property assessment, property tax collections, conduct of elections, and maintenance of financial and other records important to the county's citizens. In addition to elected officials, the county employed 48 full-time employees and 6 part-time employees on December 31, 2023.

County operations also include the Senate Bill 40 Board, Senior Citizens' Services Board, and Law Enforcement Restitution Fund Board.

Elected Officials

The elected officials and their compensation paid for the year ended December 31 (except as noted) are indicated below:

Officeholder	2024	2023
Jesse Roy, Presiding Commissioner	\$	29,588
Keith Whiteside, Associate Commissioner		27,588
Gary Emmons, Associate Commissioner		27,588
Donnie Johnson, Recorder of Deeds		41,800
Michael A. Williams, County Clerk		41,800
Matt Michel, Prosecuting Attorney		153,125
Mike Barton, Sheriff		55,207
Terry L. Slayton, County Treasurer		41,800
Mike Jackson, County Coroner		12,100
Donna Barnett, Public Administrator		41,800
Marcia L. Tackett, County Collector (1), year ended February 28,	46,045	
Randi D. Ederer, County Assessor, year ended August 31,		41,800
William Troy Ayers, County Surveyor		3,600

(1) Includes \$4,245 of commissions earned for collecting city and drainage district property taxes.

Other Information

In 2023 the county completed construction and opened the Ripley County Detention Center. The construction was funded with Community Development Block Grants along with county matching funds and a loan from the Missouri Development Finance Board.

SCOTT FITZPATRICK
MISSOURI STATE AUDITOR

To the County Commission
and
Officeholders of Benton County, Missouri

The Office of the State Auditor contracted for an audit of Benton County's financial statements for the year ended December 31, 2023, through the state Office of Administration, Division of Purchasing and Materials Management. The audit includes an audit of each county officer in fulfillment of our duties under Section 29.230.1, RSMo. A copy of this audit, performed by Stopp & VanHoy, CPAs and Business Advisors, is attached.

Scott Fitzpatrick
State Auditor

July 2025
Report No. 2025-042

Recommendations in the contracted audit of Benton County

2023-001	The county periodically review its actual expenditures as compared to budgeted amounts. An amended budget should be prepared and approved as necessary to comply with statutes.
2023-002	The county utilize their accounting software to track cash and fund balances. Due to the nature of corrections that need to be made within the accounting software, it may require the county to engage a qualified accounting firm or software specialist who is knowledgeable with the software that that county uses to fully correct this issue.
2023-003	The county implement internal controls to ensure that the Schedule of Expenditures of Federal Awards (SEFA) completely and accurately states the expenditures of federal awards of the county each year, such as performing a reconciliation between the SEFA and underlying accounting records. Federal reimbursement grants should be reported on the SEFA based on reimbursable expenditures made during the year.
2023-004	The county implement internal controls to ensure that suspension and debarment assessments are performed during the procurement and contracting phase. In addition, sufficient documentation should be retained to evidence suspension and debarment verification is performed.

Independent Auditor's Report

To the County Commission and
Officeholders of Benton County, Missouri

Report on the Audit of the Financial Statements***Opinions***

We have audited the accompanying financial statements of Benton County, Missouri, as of and for the year ended December 31, 2023, and the related notes to the financial statements, which collectively comprise Benton County, Missouri's basic financial statements as listed in the table of contents.

Qualified Opinion on Regulatory Basis of Accounting

In our opinion, except for the effects, if any, of the matter described in the *Basis for Qualified Opinion on Regulatory Basis of Accounting* paragraph, the accompanying financial statements present fairly, in all material respects, the cash balances of each fund of Benton County, Missouri as of December 31, 2023, and their respective cash receipts and disbursements, and budgetary results for the year then ended in accordance with the basis of accounting practices prescribed or permitted by Missouri law as described in Note 1.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the *Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles* section of our report, the financial statements do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of each fund of Benton County, Missouri as of December 31, 2023, or the changes in financial position and cash flows thereof for the year then ended.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Benton County, Missouri and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Basis for Qualified Opinion on Regulatory Basis of Accounting

Benton County, Missouri has not adequately tracked cash and fund balances for all funds of the County for the year ended December 31, 2023. We were unable to verify that the beginning and ending bank balances reconcile to cash and fund balances on the fund level. The amounts by which cash and fund balances are misstated, although not reasonably determinable, are presumed to be material.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note 1 of the financial statements, the financial statements are prepared by Benton County, Missouri on the basis of accounting practices prescribed or permitted by the State of Missouri to demonstrate compliance with the State of Missouri's regulatory basis of accounting and budget laws, which is a basis of accounting other than accounting principles generally accepted in the United States of America. The effects on the financial statements of the variances between the regulatory basis of accounting described in Note 1 and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material and pervasive.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting practices prescribed or permitted by the State of Missouri to demonstrate compliance with the State of Missouri's regulatory basis of accounting and budget laws. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Benton County, Missouri's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Benton County, Missouri's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Benton County, Missouri's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Benton County, Missouri's basic financial statements. The Schedule of Expenditures of Federal Awards, as required by the audit requirements of Title 2 *U.S. Code of Federal Regulations* (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance), is presented for purposes of additional analysis and is not a required part of the basic financial statements.

The Schedule of Expenditures of Federal Awards is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Schedule of Expenditures of Federal Awards is fairly stated in all material respects in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated March 3, 2025 on our consideration of Benton County, Missouri's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Benton County, Missouri's internal control over financial reporting and compliance.

The County of Benton
Warsaw, Missouri
Notes to the Financial Statements
For the year ended December 31, 2023

Note 1 - Summary of Significant Accounting Policies

Organized in 1835, the county of Benton was named after United States Senator Thomas Hart Benton. It is a third-class county, and the county seat is Warsaw. Benton County's government is composed of a three-member county commission and the following separately elected Constitutional Officers: County Clerk, Collector, Treasurer, Sheriff, Assessor, Coroner, Circuit Clerk, Recorder of Deeds, Public Administrator, and Prosecuting Attorney.

As discussed further in Note 1, these financial statements are presented on the regulatory basis of accounting. This basis of accounting differs from accounting principles generally accepted in the United States of America (GAAP).

Reporting Entity

As required by generally accepted accounting principles, as applicable to the regulatory basis of accounting, these financial statements present financial accountability of Benton County, Missouri and the Benton County Senior Citizens Services Board.

The County's operations include tax assessments and collections, state/county courts, county recorder, public safety, transportation, economic development, social and human services, and cultural and recreation services.

The financial statements referred to above include only the primary government of Benton County, Missouri which consists of all funds, organizations, institutions, agencies, departments, and offices that comprise the County's legal entity. The Senior Citizens Services Board is controlled by a separate board and also included under the control of the County.

Certain elected County officials, such as the County Collector, Treasurer, and Sheriff, collect and hold monies in a trustee capacity as an agent of an individual, taxing units, or other governments. These assets, which are held by these officeholders for the sole benefit of external parties, are included in the Statement of Assets and Liabilities Arising from Cash Transactions - Custodial Funds - Regulatory Basis.

Basis of Presentation

The accompanying financial statements present the receipts, disbursements, and changes in cash of all funds of Benton County and the comparisons of such information with the corresponding budgeted information for all funds of the County. The funds presented are established under statutory or administrative authority, and their operations are under the control of the County Commission or an elected county official. The General Revenue Fund is the county's general operation fund, accounting for all financial resources except those required to be accounted for in another fund. The other funds presented account for financial resources whose use is restricted for specified purposes.

Basis of Accounting

The financial statements were prepared using accounting practices prescribed or permitted by Missouri law, which differ from accounting principles generally accepted in the United States of America. The effects of the variances between these regulatory accounting practices and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

As a result of the use of this regulatory basis of accounting, certain assets (such as accounts receivable and capital assets), certain revenues (such as revenue for billed or provided services not yet collected), certain liabilities (such as accounts payable, certificates of participation, bonds, and obligations under capital leases), and certain expenditures (such as expenditures for goods or services received but not yet paid) are not recorded in these financial statements.

The County of Benton
Warsaw, Missouri
Notes to the Financial Statements
For the year ended December 31, 2023

Note 1 - Summary of Significant Accounting Policies (continued)

Basis of Accounting (continued)

If the County utilized the basis of accounting recognized as generally accepted, the fund financial statements for governmental funds would use the modified accrual basis of accounting, while the fund financial statements for proprietary fund types, if applicable, would use the accrual basis of accounting. All government-wide financials would be presented on the accrual basis of accounting.

Budget and Budgetary Accounting

In accordance with Chapter 50, RSMo., Benton County adopts a budget for each governmental fund.

On or before January 15th, each elected official and department director will transmit to the County Clerk, who serves as budget officer, the budget request and revenue estimates for their office or department for the budget year.

The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning January 1. The proposed budget includes estimated revenues and proposed expenditures for all budgeted funds. Budgeted expenditures cannot exceed beginning available monies plus estimated revenues for the year. Budgeting of appropriations is based upon an estimated unencumbered fund balance at the beginning of the year as well as estimated revenues to be received. The budget to actual comparisons in these financial statements, however, do not present encumbered fund balances, but only compare budgeted and actual revenues and expenditures.

A public hearing is conducted to obtain public comment. Prior to its approval by the County Commission, the budget document is available for public inspection.

Prior to February 1, the budget is legally enacted by a vote of the County Commission.

Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by formal vote of the Commission. Adjustments made during the year are reflected in the budget financial statements.

Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year.

Budgets are prepared and adopted on the cash basis of accounting.

During the audit, it was noted the County was not in compliance with Missouri budgetary statute Chapter 50, RSMo. The following fund had actual expenditures which exceeded the budgeted expenditures: Tax Maintenance Fund.

Taxes

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on October 1 and tax bills are mailed to taxpayers in November, at which time they are payable. All unpaid property taxes become delinquent as of January 1 of the following year.

**The County of Benton
Warsaw, Missouri
Notes to the Financial Statements
For the year ended December 31, 2023**

Note 1 - Summary of Significant Accounting Policies (continued)

Taxes (continued)

The assessed valuation of the tangible taxable property, included within the County's boundaries for the calendar year for the purposes of taxation was:

Real Estate	\$ 237,546,410
Personal Property	105,992,534
Railroad and Utilities	15,361,805
	<u>\$ 358,900,749</u>

The tax levy per \$100 assessed valuation of tangible taxable property for the calendar year for the purpose of County taxation, was as follows:

General Revenue	\$ 0.1300
Special Road and Bridge	0.2107
Senior Citizens Services Board	0.0472

The County also receives sales tax collected by the State and remitted based on the County's sales tax rate to the total sales tax collected in the County.

Cash Deposits and Investments

Deposits and investments are stated at cost, which approximates market. Cash balances for all the County Treasurer funds are pooled and invested to the extent possible. Interest earned from these balances is allocated to each of the funds based on the funds' average daily cash balance. Cash equivalents include repurchase agreements and any other instruments with an original maturity of ninety days or less. State law authorizes the deposit of funds in banks and trust companies or the investment of funds in bonds or treasury certificates of the United States, other interest bearing obligations guaranteed as to both principal and interest by the United States, or any instrumentality thereof, certain municipal bonds authorized by Missouri statute, or time certificates of deposit. Funds in the form of cash on deposit or time certificates of deposit are required to be insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized by authorized investments held in the County's name at third-party banking institutions. Details of these cash and cash equivalent and investment balances are presented in Note 2.

Interfund Transactions

During the course of operations, interfund activity occurs for purposes of providing supplemental funding, reimbursements for goods provided or services rendered, or short and long-term financing.

Interfund activities are reported as "transfers in" by the recipient fund and as "transfers out" by the disbursing fund. However, interfund reimbursements have been eliminated from the financial statements in order that reimbursed expenditures are reported only in the funds incurring the costs.

**The County of Benton
Warsaw, Missouri
Notes to the Financial Statements
For the year ended December 31, 2023**

Note 2 - Deposits and Investments

Benton County maintains a cash and temporary investment pool that is available for use by all funds. Deposits with maturities greater than three months are considered investments. Each fund type's portion of this pool is displayed on the statement of receipts, disbursements, and changes in cash arising from cash transactions as "Cash and Equivalents." Cash held for others is displayed on the statement of assets and liabilities arising from cash transactions as "Cash and Equivalents."

Deposits - Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits.

The carrying values and bank balances of deposits and investments shown above are included in the financial statements at December 31, 2023, as follows:

	<u>Carrying Value</u>	<u>Bank Balance</u>
Deposits	\$ 26,048,399	\$ 26,183,632
Investments	-	-
Total Deposits and Investments as of December 31, 2023	<u>\$ 26,048,399</u>	<u>\$ 26,183,632</u>
 Total Cash and Equivalents - Governmental Funds	 \$ 13,338,424	
Total Cash and Equivalents - Custodial Funds	<u>12,709,975</u>	
	<u>\$ 26,048,399</u>	

Custodial Credit Risk - Deposits

For a deposit, custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. At December 31, 2023, \$745,057 of the County's deposits and investments were not covered by the Federal Deposit Insurance Corporation (FDIC) or collateralized.

Custodial Credit Risk - Investments

Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the government, and are held by the party that sold the security to Benton County or its agent but not in the government's name. The County does not have a policy for custodial credit risk relating to investments.

Investment Interest Rate Risk

Investment interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. Benton County does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Concentration of Investment Credit Risk

Concentration of investment credit risk is required to be disclosed by the County for any single investment that represents 5% or more of total investments (excluding investments issued by or explicitly guaranteed by the U. S. Government, investments in mutual funds, investments in external investment pools and investments in other pooled investments). The County has no policy in place to minimize the risk of loss resulting from over concentration of assets in specific maturity, specific issuer or specific class of securities.

The County of Benton
Warsaw, Missouri
Notes to the Financial Statements
For the year ended December 31, 2023

Note 3 - Long-Term Debt

In 2017, the County entered into a financing agreement with John Deere Financial for a used 2015 JD 410L Loader Backhoe for \$105,428. The agreement requires five annual payments of \$23,440, which includes interest payable at 3.500%. The financing agreement expired on January 20, 2023.

In 2019, the County entered into a financing agreement with U.S. Bancorp Government Leasing and Finance, Inc., for a 2019 6105E Cab Tractor for \$65,417. The agreement requires four annual payments of \$17,620, which includes interest payable at 3.008%. The financing agreement expired on August 26, 2023.

In 2019, the County issued \$7,200,000 Series 2019 Certificates of Participation for the purpose of paying for the construction of a new jail for detention facilities and administrative space as well as paying for certain costs in connection with the execution and delivery of the Series 2019 Certificates. The Certificates bear interest at 2.750% - 3.375% and mature in April of 2039.

In 2020, the County issued \$5,200,000 Series 2020 Certificates of Participation for the purpose of paying for the construction of a new jail for detention facilities and administrative space as well as paying for certain costs in connection with the execution and delivery of the Series 2020 Certificates. The Certificates bear interest at 3.000% and mature in April of 2034.

	Balance at 12/31/22	Amount Borrowed	Amount Repaid	Balance at 12/31/23	Interest Paid During Year

Note 5 - State of Missouri County Employees' Retirement Fund (CERF)

Plan Description

The County Employees' Retirement Fund is a cost-sharing multiple employer defined benefit pension plan covering any county elected or appointed officer or employee whose performance requires the actual performance of duties during not less than one thousand (1,000) hours per calendar year in each county of the state, except for any city not within a county and any county of the first classification having a charter form of government. It does not include county prosecuting attorneys covered under Sections 56.800 to 56.840, RSMo., circuit clerks and deputy circuit clerks covered under the Missouri State Retirement System, county sheriffs covered under Sections 57.949 to 57.997, RSMo., and certain personnel not defined as an employee per Section 50.1000(8), RSMo. The Fund was created by an act of legislature and was effective August 28, 1994.

The general administration and the responsibility for the proper operation of the fund and the investment of the fund are vested in a board of directors of eleven persons.

Benefits Provided

Beginning January 1, 1997, employees attaining the age of sixty-two years may retire with full benefits with eight or more years of creditable service. The monthly benefit for County Employees is determined by selecting the highest benefit calculated using three different prescribed formulas (flat-dollar formula, targeted replacement ratio formula, and prior plan's formula). A death benefit of \$10,000 will be paid to the designated beneficiary of every active member upon his or her death.

Upon termination of employment, any member who is vested is entitled to a deferred annuity, payable at age sixty-two. Early retirement is at age fifty-five. Any member with less than eight years of creditable service forfeits all rights in the fund but will be paid his or her accumulated contributions.

**The County of Benton
Warsaw, Missouri
Notes to the Financial Statements
For the year ended December 31, 2023**

Note 5 - State of Missouri County Employees' Retirement Fund (CERF)(continued)

Benefits Provided (continued)

The County Employees' Retirement Fund issues audited financial statements. Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, 2121 Schotthill Woods Drive, Jefferson City, Missouri, 65101, by calling (573) 632-9203, or by visiting the CERF website at www.mocerf.org.

Contributions

Prior to January 1, 2003, participating county employees were required to make contributions equal to 2% of gross compensation. Effective January 1, 2003, participating county employees hired on or after February 25, 2002 are required to make contributions of 6%. If any employee leaves covered employment before attaining 8 years of creditable service, accumulated employee contributions are refunded to the employee. The contribution rate is set by state statute and may be amended only by action of the Missouri Legislature. Counties may elect to make all or a portion of the required 6% contribution on behalf of employees. During 2023, the County collected and remitted to CERF, employee contributions of \$255,710 for the year ended.

In addition to the above contributions required of employees, the following fees and penalties prescribed under Missouri law are required to be collected and remitted to CERF by counties covered by the plan:

- Late fees on filing of personal property tax declarations;
- Twenty dollars on each merchant's and manufacturer's license issued;
- Six dollars on each document recorded or filed with county recorders of deeds, with an additional one dollar on each document recorded;
- Three sevenths of the fee on delinquent property taxes; and
- Interest earned on investment of the above collections prior to remittance to CERF.

The County collected and remitted CERF fees and penalties of \$214,889 for the year ended December 31, 2023.

Further information related to required contributions, pension benefits, other plan terms, and investments and related return and financial information can be found in the notes to the financial statements of CERF's Annual Financial Report.

Note 6 - Prosecuting Attorney Retirement Fund

In accordance with state statute Section 56.807, RSMo., the County contributes monthly to the Missouri Office of Prosecution Services for deposit to the credit of the Missouri Prosecuting Attorneys' and Circuit Attorneys' Retirement System Fund. Once remitted, the State of Missouri is responsible for administration of this plan. The County contributed \$11,628 for the year ended December 31, 2023.

Note 7 - Other Retirement Plans

Benton County has 457 and 401(a) plans administered which are paid by a deduction from employees' salary. These contributions qualify under the Internal Revenue Code and are tax exempt. Employee contributions collected and remitted by the County for the year ended December 31, 2023 for the 457 plan were \$71,646, and employee contributions collected and remitted by the County for the year ended December 31, 2023 for the 401(a) plan were \$30,734.

The County of Benton
Warsaw, Missouri
Notes to the Financial Statements
For the year ended December 31, 2023

Note 8 - Post Employment Benefits

The County does not provide post-employment benefits except as mandated by the Consolidated Omnibus Budget Reconciliation Act (COBRA). The requirements established by COBRA are fully funded by employees who elect coverage under the Act, and no direct costs are incurred by the County.

Note 9 - Claims, Commitments, and Contingencies

Litigation

The County can be subject to various claims and legal proceedings covering a wide range of matters that arise in the ordinary course of its business activities. Management believes that any liability that may ultimately result from the resolution of such matters will not have a material adverse effect on the financial condition of the County.

Compensated Absences

The County provides full-time employees with up to 40 days of sick time, to accrue at three-fourths day per complete calendar month of employment. Upon termination, employees are compensated for 25% to 50% of accrued sick time depending on the length of employment. Vacation time is accrued for every full-time employee, and accrues up to fifteen days per year depending on length of employment. However, employees may only carry over ten vacation days from one year to the next. Any days accrued in excess of ten days will be forfeited at the end of the year. Employees are not compensated for unused vacation time at termination.

Federal and State Assisted Programs

The County receives proceeds from several federal and state grants. Periodic audits of these grants are required and certain costs may be questioned. Such audits could result in refund of grant monies to the grantor agencies. Management believes that any required refunds will be immaterial. No provision has been made in the accompanying financial statements for the potential refund of grant monies.

Note 10 - Risk Management

The County is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees and natural disasters, and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

The County is also a member of the Missouri Association of Counties Self-Insured Workers' Compensation and Insurance Fund. The County purchases workers' compensation insurance through this Fund, a non-profit corporation established for the purpose of providing insurance coverage for Missouri counties. The Fund is self-insured up to \$500,000 per occurrence and is reinsured up to the statutory limit through excess insurance.

**The County of Benton
Warsaw, Missouri
Notes to the Financial Statements
For the year ended December 31, 2023**

Note 11 - Subsequent Events

The County has evaluated events subsequent to December 31, 2023 to assess the need for potential recognition or disclosure in the financial statements. Such events have been evaluated through March 3, 2025, the date the financial statements were available to be issued. Based upon this evaluation, it was determined that no subsequent events occurred that require recognition or additional disclosure in the financial statements.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON
COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL
STATEMENTS PERFORMED IN ACCORDANCE
WITH *GOVERNMENT AUDITING STANDARDS*

Independent Auditor's Report

To the County Commission and
Officeholders of Benton County, Missouri

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*), the accompanying financial statements of Benton County, Missouri as of and for the year ended December 31, 2023, and the related notes to the financial statements, which collectively comprise Benton County, Missouri's basic financial statements, and have issued our report thereon dated March 3, 2025. Our report modifies an opinion on such financial statements due to inadequate reconciliation of beginning and ending fund balances and bank balances.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Benton County, Missouri's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Benton County, Missouri's internal control. Accordingly, we do not express an opinion on the effectiveness of Benton County, Missouri's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of Benton County, Missouri's financial statements will not be prevented or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. We identified a certain deficiency in internal control, described in the accompanying schedule of findings and questioned costs as item 2023-002 that we consider to be a material weakness.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether Benton County, Missouri's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material

effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed an instance of noncompliance or other matters that is required to be reported under *Government Auditing Standards*, and which is described in the accompanying schedule of findings and questioned costs as item 2023-001.

Benton County, Missouri's Response to Findings

Government Auditing Standards requires the auditor to perform limited procedures on Benton County, Missouri's response to the findings identified in our audit and described in the accompanying schedule of findings and questioned costs. Benton County, Missouri's response was not subjected to the other auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the response.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Benton County, Missouri's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Benton County, Missouri's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

A handwritten signature in dark ink, appearing to read "Stopp & VanHoy", with a stylized flourish at the end.

St. Louis, Missouri
March 3, 2025

REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND REPORT
ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH THE
UNIFORM GUIDANCE

Independent Auditor's Report

To the County Commission and
Officeholders of Benton County, Missouri

Report on Compliance for Each Major Federal Program

Qualified Opinion

We have audited Benton County, Missouri's compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of Benton County, Missouri's major federal programs for the year ended December 31, 2023. Benton County, Missouri's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Qualified Opinion on COVID-19 Coronavirus State and Local Fiscal Recovery Funds

In our opinion, except for the noncompliance described in the Basis for Qualified and Unmodified Opinions section of our report, Benton County, Missouri complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on COVID-19 Coronavirus State and Local Fiscal Recovery Funds for the year ended December 31, 2023.

Basis for Qualified Opinion

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*); and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of Benton County, Missouri and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of Benton County, Missouri's compliance with the compliance requirements referred to above.

Matter Giving Rise to Qualified Opinion on COVID-19 Coronavirus State and Local Fiscal Recovery Funds

As described in the accompanying schedule of findings and questioned costs, Benton County, Missouri did not comply with requirements regarding Assistance Listing No. 21.027 COVID-19 Coronavirus State and Local Fiscal Recovery Funds as described in finding number 2023-004 for Suspension and Debarment.

Compliance with such requirements is necessary, in our opinion, for Benton County, Missouri to comply with the requirements applicable to that program.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to Benton County, Missouri's federal programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on Benton County, Missouri's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about Benton County, Missouri's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding Benton County, Missouri's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of Benton County, Missouri's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of Benton County, Missouri's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Other Matters

The results of our auditing procedures disclosed an instance of noncompliance which is required to be reported in accordance with the Uniform Guidance and which is described in the accompanying schedule of findings and questioned costs as item 2023-003. Our opinion on each major federal program is not modified with respect to these matters.

Government Auditing Standards requires the auditor to perform limited procedures on Benton County, Missouri's response to the noncompliance findings identified in our compliance audit described in the accompanying schedule of findings and questioned costs. Benton County, Missouri's response was not subjected to the other auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

Report on Internal Control Over Compliance

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance and therefore, material weaknesses or significant deficiencies may exist that were not identified. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, as discussed below, we did identify certain deficiencies in internal control over compliance that we consider to be significant deficiencies.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance. We consider the deficiencies in internal control over compliance described in the accompanying schedule of findings and questioned costs as items 2023-003 and 2024-004 to be significant deficiencies.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

Government Auditing Standards requires the auditor to perform limited procedures on Benton County, Missouri's response to the internal control over compliance findings identified in our audit described in the accompanying schedule of findings and questioned costs. Benton County, Missouri's response was not subjected to the other auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

The County of Benton
Warsaw, Missouri
Notes to the Schedule of Expenditures of Federal Awards
For the year ended December 31, 2023

Note 1 - Summary of Significant Accounting Policies

Purpose of Schedule and Reporting Entity

The accompanying Schedule of Expenditures of Federal Awards has been prepared to comply with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). This Uniform Guidance requires a schedule that provides total federal awards expended for each federal program and the assistance listing number or other identifying number when the assistance listing number is not available.

This schedule includes all federal awards administered by Benton County, Missouri.

Basis of Presentation

The *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* includes these definitions, which govern the contents of the schedule:

Federal financial assistance means assistance that non-Federal entities receive or administer in the form of grants, loans, loan guarantees, property (including donated surplus property), cooperative agreements, interest subsidies, insurance, food commodities, direct appropriations, and other assistance, but does not include amounts received as reimbursement for services rendered to individuals.

Federal award means Federal financial assistance and Federal cost-reimbursement contracts that non-Federal entities receive directly from Federal awarding agencies or indirectly from pass-through entities. It does not include procurement contracts, under grants or contracts, used to buy goods or services from vendors.

Because the Schedule presents only a selected portion of the operations of Benton County, Missouri, it is not intended to and does not present the financial position, changes in net assets, or cash flows of Benton County, Missouri.

Basis of Accounting

The accompanying Schedule of Expenditures of Federal Awards is presented on the cash basis of accounting. The information in this schedule is presented in accordance with the requirements of the *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of the financial statements.

Federal expenditures are considered to have occurred when cash is disbursed for allowable expenditures.

Benton County, Missouri has not elected to use the 10% de minimis indirect cost rate.

**The County of Benton
Warsaw, Missouri
Schedule of Findings and Questioned Costs
For the year ended December 31, 2023**

Section 2 - Financial Statement Findings

2023-001 **Criteria:** Missouri statutes require Counties to prepare an annual budget as applicable to each fund. Expenditures are not to exceed the budget.

Condition: During the audit, it was noted the County was not in compliance with Missouri budgetary statute Chapter 50, RSMo. The following fund had actual expenditures which exceeded the budgeted expenditures: Tax Maintenance Fund.

Cause: Oversight

Effect: The County is in violation of Missouri Revised Statutes due to exceeding budgeted expenditures in certain funds.

Recommendation: We recommend that the County periodically review its actual expenditures as compared to budgeted amounts. An amended budget should be prepared and approved as necessary to comply with statutes.

Management's Response: The 2022 audit noted that the Tax Maintenance Fund was not corrected by a year-end budget adjustment. The 2023 audit noted that this occurred again. However, based upon recommendations of previous audits, on October 28, 2024, an adjustment was made to correct revenue and expenses for this fund for FY2024. We anticipate that this procedure will be utilized in the future.

2023-002 **Criteria:** Strong internal controls over financial statement reporting require that cash and fund balances be tracked for all funds.

Condition: During our audit, we noted the County was not adequately tracking cash and fund balances for all County funds within the accounting system. Beginning cash balances per the Treasurer's records did not reconcile to beginning fund balances by \$42,870. Ending cash balances per the Treasurer's records did not reconcile to ending fund balances by \$61,965.

Cause: The County is not properly tracking cash and fund balances within their accounting system due to uncorrected software entry errors.

Effect: Because cash and fund balances are not adequately being tracked within the accounting system or by the Treasurer, it is possible that cash and fund balances are materially misstated due to error or fraud.

Recommendation: We recommend that the County utilize their accounting software to track cash and fund balances. Due to the nature of corrections that need to be made within the accounting software, it may require the County to engage a qualified accounting firm or software specialist who is knowledgeable with the software that the County uses to fully correct this issue.

Management's Response: The discrepancy between cash and fund balances has been an on-going problem. However, locating the original and subsequent short-falls is probably impossible. If acceptable, the Treasurer could generate an adjustment amount so that so that FY2025 could be tracked and reconciled on a monthly basis. The Commissioners, the Treasurer, and the County Clerk will seek assistance from a Certified Public Accounting (CPA) firm to determine if this one-time adjustment could be conducted.

The County of Benton
Warsaw, Missouri
Schedule of Findings and Questioned Costs
For the year ended December 31, 2023

Section 3 - Federal Award Findings

2023-003 **Criteria:** Title 2 *U.S. Code of Federal Regulations* Part 200.510(b) requires auditees to prepare a schedule of expenditures of federal awards which must report total federal awards expended during the audit period. At a minimum, the schedule must include: expenditures by individual program, program title and assistance listing number, programs required to be identified as part of a cluster, name of the pass-through entity and identifying number assigned by the pass-through entity for awards not received directly from the federal government, and the total amount provided to subrecipients from each federal program.

Condition: The schedule of expenditures of federal awards (SEFA) reported by the County in the annual budget documents contained errors in amounts of federal expenditures reported. Additionally, the schedule did not include the identification of programs required to be part of a cluster, names of pass-through entities, identifying numbers assigned by the pass-through entities, or total amounts provided to subrecipients for the applicable programs.

Discrepancies in amounts reported on the SEFA and amounts supported by underlying accounting records are summarized as follows:

Federal Agency	Assistance Listing Number	Federal Program	Original SEFA	As Corrected	Difference
Defense	12.112	Payments to States in Lieu of Real Estate Taxes	\$ 100,572	\$ 100,572	\$ -
Interior	15.226	Payments in Lieu of Taxes	181,053	181,053	-
Justice	16.575	Crime Victim Assistance	32,413	34,520	(2,107)
Justice	16.738	Edward Byrne Memorial Justice Assistance Grant	-	3,733	(3,733)
Transportation	20.205	Highway Planning and Construction	13,375	66,877	(53,502)
Treasury	21.027	COVID-19 Coronavirus State and Local Fiscal Recovery Funds	955,622	955,622	-
Treasury	21.032	COVID-19 Local Assistance and Tribal Consistency Fund	118,600	118,600	-

			<u>\$ 1,402,474</u>	<u>\$ 1,461,816</u>	<u>\$ (59,342)</u>

The County reported \$13,375 in expenditures under assistance listing number 20.205 - Highway Planning and Construction, however, underlying accounting records support expenditures of \$66,877.

**The County of Benton
Warsaw, Missouri
Schedule of Findings and Questioned Costs
For the year ended December 31, 2023**

Section 3 - Federal Award Findings (continued)

2023-003 **Cause:** The County has not implemented a proper system of internal control over SEFA preparation, such as a (cont.) reconciliation to underlying accounting records or having a separate individual review the SEFA for clerical accuracy after it has been prepared. Reasons for discrepancies varied.

Effect: The SEFA presented for the audit did not accurately reflect the County's actual expenditures of federal awards for the year ended December 31, 2023.

Recommendation: We recommend that the County implement internal controls to ensure that the SEFA completely and accurately states the expenditures of federal awards of the County each year, such as performing a reconciliation between the SEFA and underlying accounting records. Federal reimbursement grants should be reported on the SEFA based on reimbursable expenditures made during the year.

Management's Response: 16.575 - U.S. Department of Justice - Crime Victim Assistance Grant. This grant provides the salary and expenses for the Prosecuting Attorney's Victim Advocate. The County Clerk utilized the year-end expenses for the Victim Advocate grant effort which included salary, office expenses, mileage and training expenses. Our records show that a grant reimbursement of \$34,583 was received for 2023. In the future, the County Clerk will ensure the total grant reimbursement amounts are utilized.

16.738 - U.S. Department of Justice - Edward Byrne Memorial Justice Assistance Grant. Our research revealed that this grant was received by our Sheriff's Office. However, the grant application and approval was not provided to the County Clerk's office. Therefore, she was unable to reflect this grant in the budget document. We have asked the Sheriff's Office to send us their grant applications so we are able to set-up a tracking system in the future.

20.205 - U.S. Department of Transportation - Highway Planning and Construction. These funds are pass-through grants from the federal government to the Missouri Department of Transportation to fund bridge replacement projects under the BRO Program. The financial audit for the fiscal year ended December 31, 2022, (finding 2022-003) cited Benton County for improperly accounting for these SEFA grants. The original SEFA amount in 2022 was \$428,993 and was corrected to show \$343,194. The difference was the 20% local match for these grants.

The 2023 audit indicates that the County should report 100% of the grant, not just the 80% that will represent the federal/state funds. The County utilized the guidance from the 2022 to report for the 2023 projects, however, this was incorrect due the source of the funds used for matching. Benton County will ensure that 100% of the federal grants will be reflected in the financial documents moving forward for projects that are funded with soft match credit from the Missouri Department of Transportation.

	No.:	21.027
	Award Period:	2023
	Pass-through Entity:	n/a
	Questioned Costs:	n/a
	Compliance Requirement:	(I) - Suspension and Debarment

**The County of Benton
Warsaw, Missouri
Schedule of Findings and Questioned Costs
For the year ended December 31, 2023**

Section 3 - Federal Award Findings (continued)

2023-004 **Criteria:** Title 2 *U.S. Code of Federal Regulations* Part 200.303 requires that non-federal entities receiving federal awards establish and maintain internal control designed to reasonably ensure compliance with federal statutes, regulations, and the terms and conditions of the federal award. Effective internal controls should include procedures in place to ensure the required certifications for covered contracts and subawards are received, documented, and contracts are not made with a debarred or suspended party.

Condition: During our testing, it was noted that the County did not have adequate controls designed to ensure that suspension and debarment requirements were being met.

Context: Of the 10 vendors tested, we noted that all 10 were not verified by the County or certifications from the vendors were not collected to ensure the vendors were neither suspended or debarred.

Cause: The County has not designed and implemented internal controls to ensure compliance with suspension and debarment requirements outlined.

Effect: Failure to obtain the required certifications or perform verification procedures with SAM.gov could result in the payment of federal funds to vendors that are suspended or debarred from participation in federal assistance programs.

Recommendation: We recommend that the County implement internal controls to ensure that suspension and debarment assessments are performed during the procurement and contracting phase. In addition, sufficient documentation should be retained to evidence suspension and debarment verification is performed.

Management's Response: Benton County has not established adequate controls to ensure grant recipients were not debarred or suspended from receiving federal grants. The County will establish a procedure to verify each grant recipient is authorized to receive federal grant funds.

The County of Benton
Warsaw, Missouri
Summary Schedule of Prior Year Findings and Questioned Costs
For the year ended December 31, 2023

In accordance with *Government Auditing Standards*, this section reports the auditor's follow-up on action taken by Benton County, Missouri, on the applicable findings in the prior audit report issued for the year ended December 31, 2022.

Prior Year Financial Statement Findings

2022-001 **Criteria:** Missouri statutes requires Counties to prepare an annual budget as applicable to each fund. Expenditures are not to exceed the budget.

Condition: During the audit, it was noted the County was not in compliance with Missouri budgetary statute Chapter 50, RSMo. The following fund had actual expenditures which exceeded the budgeted expenditures: Tax Maintenance Fund.

Cause: Oversight

Effect: The County is in violation of Missouri Revised Statutes due to exceeding budgeted expenditures in a certain fund.

Recommendation: We recommend that the County periodically review its actual expenditures as compared to budgeted amounts. An amended budget should be prepared and approved as necessary to comply with statutes.

Management's Response: In response to the audit findings, referencing 2022-001, I take responsibility for going over the budgeted amount in 2022. However, when we set the budget in January of a given year it is almost impossible to forecast what emergency expenses one might incur during the year. I take my responsibility very serious in that regard and do my very best to not spend money I do not need to spend. We do without some upgrades at times for that very reason. I will be more diligent in the future to track this closer so we can prevent this from happening. David Brodersen, Benton County Collector.

Status: This was not corrected. This finding will be repeated in the current year as 2023-001.

2022-002 **Criteria:** Strong internal controls over financial statement reporting require that cash and fund balances be tracked for all funds.

Condition: During our audit, we noted the County was not adequately tracking cash and fund balances for all County funds within the accounting system. Beginning cash balances per the Treasurer's records did not reconcile to beginning fund balances by \$6,005. Ending cash balances per the Treasurer's records did not reconcile to ending fund balances by \$42,870.

Cause: The County is not properly tracking cash and fund balances within their accounting system due to uncorrected software errors.

Effect: Because cash and fund balances are not adequately being tracked within the accounting system or by the Treasurer, it is possible that cash and fund balances are materially misstated due to error or fraud.

Recommendation: We recommend that the County utilize their accounting software to track cash and fund balances. Due to the nature of corrections that need to be made within the accounting software, it may require the County to engage a qualified accounting firm or software specialist who is knowledgeable with the software that the County uses to fully correct this issue.

The County of Benton
Warsaw, Missouri
Summary Schedule of Prior Year Findings and Questioned Costs
For the year ended December 31, 2023

Prior Year Financial Statement Findings (continued)

2022-002 **Management's Response:** The County has recently changed banks and this change should make it easier to reconcile the Treasurer's accounting programs on a monthly basis.

Status: This was not corrected. This finding will be repeated in the current year as 2023-002.

Prior Year Federal Award Findings

2022-003 **Criteria:** Title 2 *U.S. Code of Federal Regulations* Part 200.510(b) requires auditees to prepare a schedule of expenditures of federal awards which must report total federal awards expended during the audit period. At a minimum, the schedule must include: expenditures by individual program, program title and assistance listing number, programs required to be identified as part of a cluster, name of the pass-through entity and identifying number assigned by the pass-through entity for awards not received directly from the federal government, and the total amount provided to subrecipients from each federal program.

Condition: The schedule of expenditures of federal awards (SEFA) reported by the County in the annual budget documents contained errors in amounts of federal expenditures reported. Additionally, the schedule did not include the identification of programs required to be part of a cluster, names of pass-through entities, identifying numbers assigned by the pass-through entities, or total amounts provided to subrecipients for the applicable programs.

Discrepancies in amounts reported on the SEFA and amounts supported by underlying accounting records are summarized as follows:

<u>Federal Agency</u>	<u>Assistance Listing Number</u>	<u>Federal Program</u>	<u>Original SEFA</u>	<u>As Corrected</u>	<u>Difference</u>
Defense	12.112	Payments to States in Lieu of Real Estate Taxes	\$ 47,045	\$ 47,045	\$ -
Interior	15.226	Payments in Lieu of Taxes	168,979	168,979	-
Justice	16.575	Crime Victim Assistance	34,436	35,581	(1,145)
Transportation	20.205	Highway Planning and Construction	428,993	343,194	85,799
Treasury	20.607	Alcohol Open Container Requirements	305	305	-
Treasury	21.027	COVID-19 Coronavirus State and Local Fiscal Recovery Funds	1,853,538	1,853,538	-
Election	90.404	HAVA Election Security Grants	12,097	12,097	-
Homeland Sec.	97.042	Emergency Management Performance Grants	12,287	12,287	-
			<u>\$ 2,557,680</u>	<u>\$ 2,473,026</u>	<u>\$ 84,654</u>

**The County of Benton
Warsaw, Missouri
Summary Schedule of Prior Year Findings and Questioned Costs
For the year ended December 31, 2023**

Prior Year Federal Award Findings (continued)

2022-003 (cont.) The County reported \$34,436 in expenditures under assistance listing number 16.575 - Crime Victim Assistance. Expenditures of the County, as supported by the underlying accounting records for the reporting period, totaled \$35,581. The pass-through grantor identified (Missouri Department of Public Safety) was incorrect, and the County omitted the identifying numbers assigned by the pass-through entity for the various grant agreements. The County was funded for this award through the Missouri Association of Prosecuting Attorneys under three separate grant agreements.

The County reported \$428,993 in expenditures under assistance listing number 20.205 - Highway Planning and Construction, however, underlying accounting records support expenditures of \$343,194. Per the MODOT project agreement, "All costs incurred by County will be reimbursed at the pro-rata share established for each project phase." Upon reviewing the disbursements and reimbursement requests, the federal pro rata share established for the costs incurred for this project was eighty percent. The County reported the amount that was federally expended as one hundred percent of the amounts reimbursed instead of the pro rata share of eighty percent. Twenty percent of the project reimbursements received were not remitted by MODOT but instead by another local entity. In addition, the County failed to identify the Highway Planning and Construction Cluster on the SEFA.

Cause: The County has not implemented a proper system of internal control over SEFA preparation, such as a reconciliation to underlying accounting records or having a separate individual review the SEFA for clerical accuracy after it has been prepared. Reasons for discrepancies varied.

Effect: The SEFA presented for the audit did not accurately reflect the County's actual expenditures of federal awards for the year ended December 31, 2022.

Recommendation: We recommend that the County implement internal controls to ensure that the SEFA completely and accurately states the expenditures of federal awards of the County each year, such as performing a reconciliation between the SEFA and underlying accounting records. Federal reimbursement grants should be reported on the SEFA based on reimbursable expenditures made during the year.

Management's Response: The County recognizes that the accounting system for federal grants is not an accurate recording of expenditures for the MoDOT BRO program. A tracking system will be implemented to ensure that the expended funds are properly recorded.

Status: This was not corrected, and no partial correction was accomplished during the fiscal year. This finding will be repeated in the current year as 2023-003.

BENTON COUNTY COMMISSION
PO BOX 1238, 316 VAN BUREN ST.
WARSAW, MO 65355
(660) 438-7406

CORRECTIVE ACTION PLAN

Audit Finding Reference: 2023-001

Planned Corrective Action: The 2022 audit noted that the Tax Maintenance Fund was not corrected by a year-end budget adjustment. The 2023 audit noted that this occurred again. However, based upon recommendations of previous audits, on October 28, 2024, an adjustment was made to correct revenue and expenses for this fund for FY2024. We anticipate that this procedure will be utilized in the future.

Name of Contact Person: David Brodersen, County Collector. Expected completion date is December 31, 2025.

Audit Finding Reference: 2023-002

Planned Corrective Action: The discrepancy between cash and fund balances has been an on-going problem. However, locating the original and subsequent short-falls is probably impossible. If acceptable, the Treasurer could generate an adjustment amount so that so that FY2025 could be tracked and reconciled on a monthly basis. The Commissioners, the Treasurer, and the County Clerk will seek assistance from a Certified Public Accounting (CPA) firm to determine if this one-time adjustment could be conducted.

Name of Contact Person: Rick Renno, Treasurer. Expected completion date is December 31, 2025.

Audit Finding Reference: 2023-003

Planned Corrective Action:

16.575 - U.S. Department of Justice - Crime Victim Assistance Grant. This grant provides the salary and expenses for the Prosecuting Attorney's Victim Advocate. The County Clerk utilized the year-end expenses for the Victim Advocate grant effort which included salary, office expenses, mileage and training expenses. Our records show that a grant reimbursement of \$34,583 was received for 2023. In the future, the County Clerk will ensure the total grant reimbursement amounts are utilized.

16.738 - U.S. Department of Justice - Edward Byrne Memorial Justice Assistance Grant. Our research revealed that this grant was received by our Sheriff's Office. However, the grant application and approval was not provided to the County Clerk's office. Therefore, she was unable to reflect this grant in the budget document. We have asked the Sheriff's Office to send us their grant applications so we are able to set-up a tracking system in the future.

20.205 - U.S. Department of Transportation - Highway Planning and Construction. These funds are pass-through grants from the federal government to the Missouri Department of Transportation to fund bridge replacement projects under the BRO Program. The financial audit for the fiscal year ended December 31, 2022, (finding 2022-003) cited Benton County for improperly accounting for these SEFA grants. The

original SEFA amount in 2022 was \$428,993 and was corrected to show \$343,194. The difference was the 20% local match for these grants.

The 2023 audit indicates that the County should report 100% of the grant, not just the 80% that will represent the federal/state funds. The County utilized the guidance from the 2022 to report for the 2023 projects, however, this was incorrect due the source of the funds used for matching. Benton County will ensure that 100% of the federal grants will be reflected in the financial documents moving forward for projects that are funded with soft match credit from the Missouri Department of Transportation.

Name of Contact Person: Susan Porterfield, County Clerk. Expected completion date is December 31, 2024.

Audit Finding Reference: 2023-004

Planned Corrective Action: Benton County has not established adequate controls to ensure grant receipts were not debarred or suspended from receiving federal grants. The County will establish a procedure to verify each grant recipient is authorized to receive federal grant funds.

Name of Contact Person: Susan Porterfield, County Clerk. Expected completion date is December 31, 2024.

Scott Fitzpatrick

Missouri State Auditor

Office of State Treasurer

Report No. 2025-041

July 2025

auditor.mo.gov

Scott Fitzpatrick
Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of the Office of State Treasurer

Background

The Office of State Treasurer (STO) is an elective office as provided in the Missouri Constitution. The duties of the State Treasurer as defined by Article IV, Section 15 are to be the custodian of all state funds; to determine the amount of state money not needed for current operating expenses; and to invest such money in interest-bearing time deposits at Missouri banking institutions selected by the State Treasurer and approved by the Governor and State Auditor, short-term U.S. government securities, or certain allowable commercial paper and bankers' acceptances.

The STO operates in five major functional areas (1) accounting and banking services, (2) general and administrative services, (3) investments and deposit programs, (4) unclaimed property, and (5) program administration.

Governor Michael L. Parson appointed Scott Fitzpatrick as the forty-seventh State Treasurer, and he was sworn in on January 14, 2019. He served in this role until January 9, 2023, when he was sworn in as Missouri's thirty-ninth State Auditor. His term as State Treasurer was to expire in January 2025. Governor Michael L. Parson appointed Vivek Malek as State Treasurer and he was sworn in on January 17, 2023. From January 9, 2023, until January 17, 2023, Leslie Korte served as Assistant State Treasurer.

Investment Interest Improperly Retained

The STO did not handle investment interest income in accordance with state law for 2 new funds created during the fiscal year ended June 30, 2024. During the 2023 legislative session, the General Assembly appropriated money to 3 new state funds in House Bill 4 and House Bill 5 when determining appropriations designated for the Interstate 70 (I-70) expansion project. The Office of Administration (OA) then created the respective state funds to hold the related appropriations for the project: State Road Fund I-70 Project Bond Proceeds Fund, State Road Fund I-70 Project Fund, and OA I-70 Project Fund. Revenues into these funds came from the issuance of state road bonds and transfers from the General Revenue Fund. The STO credited interest income to these funds during the year ended June 30, 2024, totaling approximately \$4,781,000, \$364,000, and \$34,337,000 for State Road Fund I-70 Project Bond Proceeds Fund, State Road Fund I-70 Project Fund, and OA I-70 Project Fund, respectively.

Section 30.240, RSMo, specifies that unless otherwise provided by law, all interest received from the investment of state moneys shall be credited by the state treasurer to general revenue. The STO provided no constitutional or statutory provision to support that the State Road Fund I-70 Project Fund and the OA I-70 Project Fund are authorized to retain the investment interest income in each fund.

Oversight of the MOScholars Program	Improvements are needed in the oversight and monitoring procedures of the Missouri Empowerment Scholarship Accounts (MOScholars) Program. The STO did not conduct an annual audit of MOScholars Program accounts as required by state regulations. The STO did not have procedures in place to adequately review or monitor annual reports submitted by the Educational Assistance Organizations (EAOs). The audit identified a discrepancy in reported amounts.
-------------------------------------	--

In the areas audited, the overall performance of this entity was **Good**.*

*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

- Excellent:** The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.
- Good:** The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.
- Fair:** The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.
- Poor:** The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

SCOTT FITZPATRICK
MISSOURI STATE AUDITOR

Honorable Vivek Malek, State Treasurer
Jefferson City, Missouri

We have audited certain operations of the Office of State Treasurer in fulfillment of our duties under Chapter 29, RSMo. The State Auditor served as State Treasurer through January 9, 2023; therefore, the State Auditor recused himself from all portions of the audit involving decisions made by the Office of the State Treasurer pertaining to the year ended June 30, 2023. For that period, the Audit Director oversaw procedures performed by the State Auditor's professional audit staff. The objectives of our audit were to:

1. Evaluate the office's internal controls over significant management and financial functions.
2. Evaluate the office's compliance with certain legal provisions.
3. Review the State Treasurer's oversight efforts over the Missouri Empowerment Scholarship Accounts (MOScholars) Program established pursuant to Sections 135.712 to 135.719, RSMo, and Sections 166.700 to 166.720, RSMo.
4. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.

We conducted this performance audit in accordance with generally accepted government auditing standards. Those standards require that we plan and perform the audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides a reasonable basis for our findings and conclusions based on our audit objectives.

For the areas audited, we identified (1) no significant deficiencies in internal controls, (2) noncompliance with legal provisions, (3) deficiencies with the oversight of the MOScholars Program, and (4) the need for improvement in management practices and procedures. The accompanying Management Advisory Report presents our findings arising from our audit of the Office of State Treasurer.

Robert E. Showers, CPA, CGAP
Director of Audits

Office of State Treasurer

Introduction

Background

The Office of State Treasurer (STO) is an elective office as provided in the Missouri Constitution. The duties of the State Treasurer as defined by Article IV, Section 15 are to be the custodian of all state funds; to determine the amount of state money not needed for current operating expenses; and to invest such money in interest-bearing time deposits at Missouri banking institutions selected by the State Treasurer and approved by the Governor and State Auditor, short-term U.S. government securities, or certain allowable commercial paper and bankers' acceptances.

Governor Michael L. Parson appointed Scott Fitzpatrick as the forty-seventh State Treasurer, and he was sworn in on January 14, 2019. He served in this role until January 9, 2023, when he was sworn in as Missouri's thirty-ninth State Auditor. His term as State Treasurer was to expire in January 2025. Governor Michael L. Parson appointed Vivek Malek as State Treasurer and he was sworn in on January 17, 2023. From January 9, 2023, until January 17, 2023, Leslie Korte served as Assistant State Treasurer.

Functional areas

The STO operates in five major functional areas (1) accounting and banking services, (2) general and administrative services, (3) investments and deposit programs, (4) unclaimed property, and (5) program administration.

The accounting and banking services area (1) maintains a fund accounting system to fulfill a statutory responsibility to keep separate accounts of the funds of the state and to allocate investment interest to funds, (2) maintains ledger controls on fund balances and appropriations to assure no check is issued that exceeds the lawful appropriated balances, (3) controls receipt of state money collected by state agencies and deposited in local banks throughout the state, (4) reconciles bank activity to receipt and disbursement activity reflected on the state books, (5) determines the amount of state money not needed for current operating expenses, and (6) confirms daily disbursements with the bank as certified by the Office of Administration.

The general and administrative services area provides processing support to other areas of the office by (1) operating the central check mail service, (2) controlling and processing outlawed and replacement checks, and (3) processing invoices for office expenditures.

The investments and deposit programs area places state money not needed for current operating expenses in interest-bearing time deposits, U.S. government and agency securities, commercial paper, bankers' acceptances, and repurchase agreements. This area also administers the State Treasurer's statutory linked deposit program and monitors and accounts for the collateralization of state funds.

The unclaimed property area administers Missouri's Unclaimed Property Act of Chapter 447, RSMo. This area is responsible for (1) ensuring unclaimed

Office of State Treasurer Introduction

property is reported, (2) receiving and recording reports of unclaimed property, (3) depositing unclaimed funds to the Abandoned Fund Account Fund, (4) maintaining custody and safekeeping of abandoned or unclaimed physical property, and (5) processing owner claims for abandoned funds or physical property.

The program administration area administers all other programs under the authority of the State Treasurer, including the Missouri Empowerment Scholarship Accounts (MOScholars) Program, Missouri's 529 Education Plan (MOST), and Missouri's Achieving a Better Life Experience (ABLE) Program.

Employees

As of June 30, 2023, the STO had 43 full-time positions to assist in the accomplishment of its mission.

Financial activity

A summary of the office's operating financial activity, cash and investment balances, investment income, and unclaimed property activity is presented in Appendixes B through G and in the Notes to the Appendixes.

Trends in cash and investment activity

As shown in Figure 1, total cash and investment balances held by the State Treasurer have significantly increased from \$4.1 billion at June 30, 2019, to \$17.7 billion at June 30, 2023, for a 327 percent increase during this time period.

Figure 1: Total cash and investment balance at fiscal year end, 2019 to 2023

Source: STO records. See additional detail at Appendix E.

The STO is responsible for determining the amount of state money not needed for current operating expenses and investing such money in certain types of investments, such as time deposits, repurchase agreements, U.S. government securities, and commercial paper and bankers' acceptances, as required by

Office of State Treasurer Introduction

state law and as provided in the STO's written investment policy.¹ Figure 2 shows the state's total pooled investments, by investment type, at June 30 of each year from 2019 through 2023.

Figure 2: Pooled investments, by investment type, at fiscal year end, 2019 to 2023

Source: STO records. See additional detail at Appendix E.

Figure 3 shows the significant increase in interest earned on pooled investments during fiscal year 2023. Historical investment reports maintained by the STO identified the effective interest rate for fiscal years 2019, 2020, 2021, 2022, and 2023, as 2.01 percent, 1.57 percent, 0.46 percent, 0.56 percent, and 2.43 percent, respectively. These interest rates, along with the increase in total pooled investments shown in Figure 2, have resulted in interest earnings totaling \$75.0 million, \$76.1 million, \$36.3 million, \$45.0 million, and \$325.2 million, for fiscal years 2019 through 2023, respectively, for a 333 percent increase in interest earnings during this time period.

¹ Allowable investments of the STO are discussed in Article IV, Section 15, Missouri Constitution; Section 30.260, RSMo; and the STO's written investment policy, available through the STO's website at <<https://treasurer.mo.gov/Invest/Investpolicy.pdf>>, accessed March 18, 2025.

Office of State Treasurer Introduction

Figure 3: Interest earned on pooled investments, by fiscal year, 2019 to 2023

Source: STO records. See additional detail at Appendix F.

Trends in unclaimed property activity

As shown in Figure 4, with the exception of fiscal year 2020, unclaimed property received and returned to owners by the STO has consistently increased. From fiscal year 2019 to fiscal year 2023, unclaimed property received increased from \$101.9 million to \$147.1 million (44 percent), while unclaimed property returned increased from \$45.1 million to \$55.3 million (23 percent).

Office of State Treasurer Introduction

MOScholars Program

The MOScholars Program² was established by the Missouri General Assembly in 2021 to provide educational opportunities and resources to Missouri students and families. The program provides options for eligible families, allowing them to seek alternative educational services ranging from private schools to therapeutic services. The MOScholars Program began on July 1, 2022, for the fall semester of the 2022-2023 school year.

Through the MOScholars Program, scholarships are awarded to Missouri students with Individual Education Plans (IEPs) and students living in low-income households. The student scholarships are funded with donations to non-profit Educational Assistance Organizations (EAOs). Once approved by the STO, an EAO can receive qualified donations from individuals and businesses to establish scholarship accounts for the qualified students.³ The EAOs establish and maintain relationships with eligible schools⁴ to create a network of schools students may use scholarship funds⁵ to attend. The MOScholars Program does not reduce the funding received by a student's resident school district.⁶ Parents and students interested in applying for a MOScholars Program scholarship must do so through an EAO partnered with the school the student wishes to attend.

In return for making qualified donations to an EAO, state law allows for individuals and businesses⁷ that file a Missouri income tax return, to receive state tax credits. A MOScholars Program tax credit is equal to 100 percent of an eligible donation, not to exceed 50 percent of the donor's state tax liability for the tax year the credit is claimed. MOScholars Program tax credits may be carried forward for 4 subsequent tax years. The tax credit is not sellable, transferrable, or refundable. For the 2022-2023 school year, total tax credits were limited to \$25 million.

As of June 30, 2023, tax credits totaling approximately \$8.4 million were issued, and student scholarships totaling \$7.7 million were awarded to 1,360 students.

² House Bill 349 and Senate Bill 86, First Regular Session, 101st General Assembly (2021) established the MOScholars Program. The program is governed by Sections 135.712 to 135.719, and Sections 166.700 to 166.720, RSMo. For additional information on the MOScholars Program, see the STO's website at <<https://treasurer.mo.gov/MOScholars/>>, accessed March 18, 2025.

³ Qualified students are defined by Section 166.700(9), RSMo.

⁴ Eligible schools are defined by Section 166.700(8), RSMo.

⁵ Appropriate uses of scholarship funds are defined by Section 166.705.1(4), RSMo.

⁶ Continued funding to a student's resident school district is required by Section 166.720.4, RSMo.

⁷ Eligible donors are defined by Section 135.712.2(7), RSMo.

Office of State Treasurer Introduction

Scope and Methodology

The scope of our audit included, but was not necessarily limited to, the year ended June 30, 2023. During our audit fieldwork we became aware of concerns regarding the allocation of interest proceeds occurring after June 30, 2023. Therefore, we expanded the audit's scope to include interest allocations made by the STO during the year ended June 30, 2024.

As indicated in the State Auditor's Report, the State Auditor recused himself from all portions of the audit involving decisions made by the Office of the State Treasurer pertaining to the year ended June 30, 2023. Similarly, the State Auditor recused all SAO executive staff members who previously served in the Office of the State Treasurer from all portions of the audit involving the same time period.

Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, contractual agreements, and other pertinent documents; interviewing various personnel of the STO; gathering information regarding various expenditure transactions, applicable laws and regulations; and performing sample testing using haphazard, judgmental, and random selection, as appropriate. The results of our sample testing cannot be projected to the entire populations from which the test items were selected.

We obtained an understanding of internal control that is significant to the audit objectives and planned and performed procedures to assess internal control to the extent necessary to address our audit objectives. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violation of applicable contract or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We performed tests and procedures to (1) evaluate the office's internal control system; (2) evaluate procedures for compliance with statutory requirements, state regulations, and contract provisions; (3) review the MOScholars Program; and (4) evaluate the economy and efficiency of certain management practices and procedures. This included performing the following reviews and evaluations:

- We reviewed applicable state laws and written policies and procedures; interviewed various office personnel; and evaluated current office operations.
- We reviewed the office's revenue, expenditure, and payroll activity; applied analytical procedures to balances; and judgmentally selected and tested a sample of 8 expenditure transactions from areas not reviewed during the annual statewide financial statement audit.

Office of State Treasurer Introduction

- We evaluated the Office of State Treasurer's (STO) compliance with legal provisions relating to the Sunshine Law; various banking contracts, including compensating balance requirements; and requirements regarding the handling of investment interest income.
- We reviewed interest allocation, distribution, and amortization procedures, including testing the interest handling for a sample of 63 state funds.
- We reviewed the MOScholars Program and evaluated the STO's compliance with program and contract requirements. We reviewed internal controls, policies and procedures, program revenues and expenditures, statutory requirements, contracts, STO governance and monitoring procedures, and audit responsibility of the program. We also reviewed documentation of reporting by the Educational Assistance Organizations (EAOs) for the collection of donations, student counts, amount of scholarships awarded, and program administrative expenses.
- We evaluated the STO's compliance with program and contract requirements for Missouri's 529 Education Plan (MOST) and Missouri's Achieving a Better Life Experience (ABLE) Program. We reviewed minutes of board meetings and reviewed the statutorily required annual report for the MOST Program and the semi-annual reviews for the ABLE Program.
- We also reviewed and relied upon audit work completed by our office at the STO as part of our annual statewide audit of the State of Missouri's financial statements for the fiscal year ended June 30, 2023. This audit work⁸ included review of more than \$14.6 billion in cash and investment balances in various funds and review of \$55 million in expenditure activity for the Abandoned Fund Account (Unclaimed Property) Fund.

⁸ For additional information regarding the audit work completed at the STO, see Report No. 2024-079, *STO Statewide Audits Summary Letter*, issued in September 2024, available at <<https://auditor.mo.gov>>.

Office of State Treasurer

Management Advisory Report

State Auditor's Findings

1. Investment Interest Improperly Retained

The Office of State Treasurer (STO) did not handle investment interest income in accordance with state law for 2 new funds created during the fiscal year ended June 30, 2024.

During the 2023 legislative session, the General Assembly appropriated money to 3 new state funds in House Bill 4 and House Bill 5⁹ when determining appropriations designated for the Interstate 70 (I-70) expansion project. The Office of Administration (OA) then created the respective state funds to hold the related appropriations for the project: State Road Fund I-70 Project Bond Proceeds Fund (Fund 0323), State Road Fund I-70 Project Fund (Fund 0324), and OA I-70 Project Fund (Fund 0334). Revenues into these funds came from the issuance of state road bonds and transfers from the General Revenue Fund (Fund 0101). The STO credited interest income to these funds during the year ended June 30, 2024, totaling approximately \$4,781,000, \$364,000, and \$34,337,000 for Funds 0323, 0324, and 0334, respectively.

Section 30.240, RSMo, specifies that unless otherwise provided by law, all interest received from the investment of state moneys shall be credited by the state treasurer to general revenue. Of the state funds involved in the I-70 expansion project, only the General Revenue Fund was created by state law.¹⁰ The new funds created for the I-70 expansion project did not exist prior to House Bills 4 and 5, and these funds were neither constitutionally nor statutorily created. As an issuer of tax-exempt bonds, the state must comply with federal tax rules both at the time the bonds are issued and during the entire time period the bonds are outstanding in order for the bonds to maintain their tax-exempt status. Therefore, the interest on Fund 0323 must be tracked and segregated. However, since there is no law allowing interest to be credited to Funds 0324 or 0334, there is no legal basis for these 2 funds retaining or being credited with the interest earned from the investment of each fund's respective balance.

STO officials indicated they, in consultation with the OA Division of Accounting, determined Fund 0334 would retain its interest. According to the STO, Fund 0334 was created by the General Assembly in House Bill 5 (2023) as an administrative "account" within Fund 0101 (General Revenue Fund), and because the interest of Fund 0334 is retained in an "account" within Fund 0101, the interest in Fund 0334 has been "credited" to an account within general revenue, thus satisfying the requirements of Section 30.240, RSMo.

However, Section 30.240, RSMo, does not state the interest shall be credited to the General Revenue Fund; rather, it states the interest shall be credited by

⁹ House Bill 4 and House Bill 5, First Regular Session, 102nd General Assembly (2023).

¹⁰ The General Revenue Fund was created pursuant to Section 33.543, RSMo.

Office of State Treasurer
Management Advisory Report - State Auditor's Findings

the state treasurer "to the general revenue."¹¹ Therefore, this interest shall become general revenue which is subject to appropriation by the General Assembly for any purpose. While at one time the General Assembly had the ability to establish accounts within the General Revenue Fund as it deemed necessary when enacting appropriations, this authority was eliminated with the repeal of Section 33.571, RSMo, in 2010.¹²

The STO provided no constitutional or statutory provision to support that Funds 0324 and 0334 are authorized to retain the investment interest income in each fund. Further, no other administratively created account has its interest income credited to the account by the STO unless there is a valid legal basis for such action, such as specific law, a court order, or a federal regulation. The STO has not provided any authority to support that the STO, or the OA, has the ability to make the determination that a specific "fund" or "account" is allowed to retain its interest in the absence of law explicitly setting forth the interest retention. By doing so, interest that should be available for any purpose for which the general revenue is appropriated, is instead reserved only for which the specific purpose that "fund" or "account" is appropriated.

Recommendation

The STO work with the General Assembly to ensure all investment interest income is handled in accordance with state law; and unless otherwise provided by law, ensure all interest received from the investment of state moneys is credited by the state treasurer to general revenue. In addition, the STO should credit interest earned on Funds 0324 and 0334 during fiscal year ended June 30, 2024, to the general revenue in compliance with state law.

Auditee's Response

The State Treasurer's response is included at Appendix A.

Auditor's Comment

The STO's response suggests the SAO is not in agreement with the "clear opinion" that the interest earned on the funds set aside for the reconstruction of Interstate 70 should be retained and dedicated to use for that purpose. This is not an accurate statement. However, the SAO's "opinion" on how interest should be allocated is not the basis for the finding. The audit report unequivocally concludes that state law does not support the STO's retention of interest in these funds. The STO's response provides no legal basis for its

¹¹ While "general revenue" is located in the General Revenue Fund, the General Revenue Fund is the name of the fund where general revenue is located; "general revenue" is that revenue which is subject to appropriation by the General Assembly for any public purpose. Money, once appropriated and received, loses its character as general state revenue (*Petition of Board of Public Buildings*, 363 S.W.2d 598, 604 (Mo. banc 1962)).

¹² Prior to its repeal in 2010, Section 33.571.2, RSMo, specified "[w]hen enacting appropriations, the general assembly may establish such accounts within the general revenue fund as it deems necessary and appropriate to control expenditures, and any appropriation authorizing an expenditure from the general revenue fund shall specify the appropriate account within the general revenue fund."

Office of State Treasurer
Management Advisory Report - State Auditor's Findings

retention of interest in Funds 0324 and 0334, and instead cites a memorandum of understanding between the transportation commission and the Office of Administration, and "contemporaneous communications" with the Governor's office as justification.

More specifically, the STO's response claims Funds 0323 and 0324 are "sub-funds" of the State Road Fund (Fund No. 0320) established by Section 226.220, RSMo. The STO has not provided any authority to support its assertion that Funds 0323 and 0324 are considered "sub-funds" of the State Road Fund. The STO's response relies heavily on *Missouri Health Care Ass'n v. Holden*, 89 S.W.3d 504 (Mo. banc 2002) to support the rationale that a "fund" and a "sub-account," or "sub-fund," are two distinct budgetary mechanisms in the state budget. However, the state financial administration statute discussed in that case, Section 33.571, RSMo, was repealed *in toto* in 2010.¹³ The STO further references a memorandum of understanding between the Missouri Highways and Transportation Commission and the Office of Administration as justification for treating Fund 0324 as a "sub-fund" of the State Road Fund, but provides no explanation of why these funds were not credited/deposited to the State Road Fund (Fund 0320).

Regarding Fund 0334, the STO has provided no legal explanation whatsoever for why Fund 0334 kept its interest in fiscal year 2024. The STO argues, "contemporaneous communications from the Parson Administration and the General Assembly related to the budget compromise represented by these two provisions in HB 5 indicated the consensus understanding that Fund 0334 holds its own interest and is not subject to the biennial sweep." However, "contemporaneous communications" do not carry the force and effect of a duly authorized state law. It should be noted that the vast majority of interest in question (\$34,337,000, or 99 percent of the total) was generated by Fund 0334.

The STO further argues the inclusion of language pertaining to investment interest and the biennial sweep of these funds in the fiscal year 2025 appropriations bills "ratified" the prior communications that Fund 0334 should retain its own interest and not be subject to the biennial sweep. However, appropriation bills have specific effective dates (July 1 through June 30) and an appropriation from fiscal year 2024 cannot be retroactively impacted by an appropriation bill that becomes effective in fiscal year 2025. Furthermore, the inclusion of this new language pertaining to these funds in the fiscal year 2025 appropriation bills implies an awareness that such language was necessary to resolve the investment interest issue going forward.

¹³ Conference Committee Substitute for Senate Committee Substitute for House Committee Substitute for House Bill No. 1965, 95th General Assembly, 2nd Regular Session (2010).

2. Oversight of the MOScholars Program

2.1 Annual audit of program accounts

Improvements are needed in the oversight and monitoring procedures of the Missouri Empowerment Scholarship Accounts (MOScholars) Program. Audits of program accounts were not completed in compliance with state regulation, and procedures have not been established to review required annual reports from Educational Assistance Organizations (EAOs).

The STO did not conduct an annual audit of MOScholars Program accounts as required by state regulations.

Section 166.710.1, RSMo, requires that beginning with the 2023-2024 school year, the State Treasurer "shall conduct or contract for annual audits" of MOScholars Program accounts to ensure compliance with program requirements as stated in Section 166.705.1, RSMo.¹⁴ State statute does not define what constitutes an "audit" as it relates to the MOScholars Program. However, State Regulation 15 CSR 50-5.040(2)(D), states the annual audit shall conform to the standards for auditing of governmental organizations, programs, activities, and functions established by the Comptroller of the United States, also known as *Government Auditing Standards*.¹⁵ The STO did not conduct or contract for an audit in accordance with Government Auditing Standards, but instead performed an internal review of MOScholars Program accounts.

Government Auditing Standards provide a framework for performing high-quality audit work with competence, integrity, objectivity, and independence to provide accountability and to help improve government operations and services. *Government Auditing Standards* contain requirements and guidance to assist auditors in objectively obtaining and evaluating sufficient, appropriate evidence and reporting the results.

2.2 Program reporting

The STO did not have procedures in place to adequately review or monitor annual reports submitted by the EAOs. During our review, a discrepancy in reported amounts was identified.

State Regulation 15 CSR 50-5.040(3)(C) and (E), requires EAOs to file quarterly and annual reports of program activity to the STO. These reports include such information as the amount and number of donations received, amount directed to the EAOs and to the STO for administration purposes,

¹⁴ Section 166.705.1, RSMo, states the provisions to be included in a written agreement between the parent of a qualified student and an EAO, such as, (1) the student shall enroll in a qualified school, (2) enrollment will not be in a public school or charter school within the student's district of residence, (3) grant money (scholarship) will be deposited into the student's MOScholars Program account, and (4) scholarship funds are only to be used for specified purposes.

¹⁵ *Government Auditing Standards* may be obtained at < <https://www.gao.gov/yellowbook> >, accessed March 18, 2025.

Office of State Treasurer
Management Advisory Report - State Auditor's Findings

amount of donations directed to student scholarships, etc. Our review of quarterly and annual reports submitted by the 6 EAOs for the 2022-2023 school year identified a discrepancy in the quarterly and annual reports submitted by one EAO. The EAO had reported \$2,500 in administrative expenses on one quarterly report; however, the annual report, which is a summary of the 4 quarterly reports, included no administrative expenses. Once this discrepancy was brought to the attention of the STO, a corrected annual report was obtained from the EAO.

Procedures to review annual EAO reports are necessary to help ensure accuracy and consistency of reported information. Without properly reviewing and monitoring program reports submitted by the EAOs, there is increased risk that errors and noncompliance with program requirements will go undetected.

Recommendations

The Office of State Treasurer:

- 2.1 Ensure annual audits of program accounts are conducted in accordance with state regulation.
- 2.2 Establish procedures to ensure all program reports are reviewed and monitored for accuracy and compliance with program requirements.

Auditee's Response

The State Treasurer's response is included at Appendix A.

VIVEK MALEK
MISSOURI STATE TREASURER

May 22, 2025

Mr. Robert E. Showers
Director of Audits
State Auditor's Office
Jefferson City, Missouri

Dear Mr. Showers:

We have reviewed the findings presented in your office's revised draft audit of the State Treasurer's Office (STO) for the year ended June 30, 2023. It is, however, important to note that the findings identified in this audit occurred during the year ending June 30, 2024, rather than during the year ending June 30, 2023, which places the findings beyond the scope of this particular audit and outside the recusal period of the State Auditor and other State Auditor's Office (SAO) executive staff members who previously served in the STO from all portions of the audit involving the same time period. Below you will find our responses to the audit findings.

SAO Finding and Recommendation 1.

The STO disagrees with Finding 1 and states that all moneys and credits for the two funds have been handled in accordance with state law.

The SAO is alone in its conclusion that investment and interest income from these funds should be credited to general revenue. It is unfortunate and disappointing that the SAO is contradictory in its finding not only with the STO, but also to the will of the people as represented by the General Assembly, the Governor's Office and his administration, who are all of the clear opinion that the investment and interest income earned by these funds set aside for the reconstruction of Interstate 70 should be dedicated to road construction and improvements. The STO's handling of these funds is legally sound, and the STO believes these funds play a pivotal role in promoting our state's economic growth. Good roads attract investment, lead to new business development, create jobs, facilitate access to markets, reduce accidents, and promote safety. The STO fully supports the decision of the current Kehoe Administration, the former Parson Administration, and the General Assembly to ensure that the investment and interest income earned by these funds is dedicated to road construction and improvements of the most significant infrastructure project in a generation.

Appendix A
Office of State Treasurer
State Treasurer's Response to Audit Recommendations

Your revised draft audit identified two funds:

1. The **State Road Fund** [emphasis added] I-70 Project Fund (Fund 0324), and
2. The OA I-70 Project Fund (Fund 0334).

These two identified administrative funds were utilized as part of the fiscal year 2024 appropriation process. As part of the appropriation process supporting the I-70 project, the Missouri General Assembly granted spending authority to the Department of Transportation from Funds 0323 and 0324 in House Bill No. 4 (HB 4). Specifically, HB 4 directed the appropriated moneys as "From the **State Road Fund** [emphasis added] I-70 Project Bond Proceeds Fund (0323)" and "From **State Road Fund** [emphasis added] I-70 Project Fund (0324)." In House Bill No. 5 (HB 5), the General Assembly utilized Fund 0334, which, as related to this letter, provided for the transfer of money among certain funds by the Office of Administration (OA).

First, the HB 4 administrative funds are considered sub-funds of the State Road Fund created by statute under Section 226.220, Revised Statutes of Missouri.

The STO is handling Fund 0323 identically to how prior state treasurers handled administrative bond funds in FY 2001, 2002, 2003, 2004, 2006, 2007, 2008, and 2009. In fact, the FY 2002 administrative fund was also Fund 0323. Fund 0323 is a sub-fund of the State Road Fund because the moneys and credits in Fund 0323 are proceeds from the sale of the State Appropriations Mega Projects State Road Bonds Series A 2023 authorized and issued by the Missouri Highways and Transportation Commission (Commission) in November of 2023. The State Road Fund receives all moneys and credits from the sale of state road bonds. RSMo. §226.220.1(1). As a result, interest and income from Fund 0323 must be credited to that sub-fund.

Similarly, Fund 0324 is also a sub-fund of the State Road Fund because the State Road Fund receives all moneys and credits from any source if they are held for expenditure by or under the department of transportation or the state highways and transportation commission. RSMo. §226.220.1(4). As further evidence that Fund 0324 is a sub-fund of the State Road Fund, the Commission and the OA entered into a Memorandum of Understanding (MOU) on August 16, 2023. That MOU represents the "financing agreement" required under Section 4.429, HB 4 (2023), and Section 5.241, HB 5 (2023). In that MOU, the Commission and the OA specifically acknowledged the consensus understanding that Fund 0324 is a sub-fund of the State Road Fund. The MOU expressly states that Fund 0324 is "a separate fund within the State Road Fund dedicated to the I-70 project." See also Article IV, Section 30(b) of the Constitution of Missouri, and *State Highway Comm'n v. Spainhower*, 504 S.W.2d 121, 125 (Mo. 1973) (It is clear, however, that the people of Missouri, by Article IV, Section 30(b), and the General Assembly, by its enactment of Section 226.220 ... intended that no money be diverted from the state road

Appendix A
Office of State Treasurer
State Treasurer's Response to Audit Recommendations

fund and no other use be permitted of the fund except for the enumerated state highway purposes.) Consequently, interest and income earned by Fund 0324 must be credited to that sub-fund.

Second, HB 5 administratively utilized Fund 0334. HB 5, which began July 1, 2023, and ended June 30, 2024, transferred money out of the treasury to Fund 0334 under Section 5.241 and granted OA authority to transfer that money to Fund 0324 under Section 5.242. Contemporaneous communications from both the Parson Administration and the General Assembly related to the budget compromise represented by these two provisions in HB 5 indicated the consensus understanding that Fund 0334 holds its own interest and is not subject to the biennial sweep.

While the original appropriation in HB 5 included no language related to interest or the biennial sweep, the General Assembly subsequently ratified the prior communications that Fund 0334 hold its own interest and not be subject to the biennial sweep by adding language to HB 5 and the transfer that “[a]ny interest and moneys earned ...shall be deposited to the credit of the OA I-70 Project Fund [Fund 0334] and any moneys remaining in the fund [Fund 0334] at the end of the biennium shall not revert back to the credit of the general revenue fund.” HB 5 (2024), which began July 1, 2024, and ends June 30, 2025, was signed by Governor Parson on June 28, 2024. As of the date of this letter, the Truly Agreed and Finally Passed version of HB 5 (2025) includes this identical language.

SAO Finding and Recommendation 2.1.

The STO agrees with the finding and has taken steps to address the matter. The STO appreciates the auditor’s acknowledgement that internal reviews of the Missouri Empowerment Scholarship Accounts were performed at the proper frequency required by statute. However, state regulations indicate that annual audits should have been conducted or contracted in accordance with the methodology known as the Government Auditing Standards, which was specifically listed in the state regulation. The STO has engaged OA’s Division of Purchasing to award a contract to an independent Certified Public Accountant (CPA) to fulfill the requirements of state regulations.

SAO Finding and Recommendation 2.2.

The STO agrees with the finding and has taken steps to address the matter. A Programs Division has been established to strengthen oversight and management of various programs supported by the STO. In January 2025, the Director of Programs was staffed and is tasked with implementing recommendation 2.2.

Sincerely,

Vivek Malek, Treasurer
State of Missouri

The accompanying Notes to the Appendixes are an integral part of this statement.

Office of State Treasurer
Notes to the Appendixes

1. Basis of Presentation

Amounts presented in Appendixes B through G are reported on the budgetary or cash basis of accounting. The budgetary basis recognizes revenues as cash is received and expenditures as cash is disbursed. Missouri issues an Annual Comprehensive Financial Report (ACFR) for each fiscal year ended June 30, in conformity with generally accepted accounting principles as prescribed by the Governmental Accounting Standards Board. The financial activity of the Office of State Treasurer is included in the ACFR.

The amounts presented in Appendix B represent receipts, disbursements, transfers, and cash and investment balances of funds that are dedicated to the activities and programs of the office.

The amounts presented in Appendixes C and D represent funds appropriated to the office by the Missouri General Assembly and expended by the office.

The amounts presented in Appendixes E and F represent all funds in the state treasury and all trust funds in the custody of the State Treasurer, if any.

The amounts presented in Appendix G represent unclaimed property amounts received, returned, and available for owners. Unclaimed properties are held by the State Treasurer until returned to their rightful owners.

State treasury funds are subject to appropriation; trust funds are not. The appendixes do not include any funds or investments that are not in the custody of the State Treasurer.

2. Cash and Investments

Article IV, Section 15 of the Missouri Constitution establishes the State Treasurer as custodian of all state funds and funds received from the U.S. government. This section further authorizes the State Treasurer to place all such money on time deposit, bearing interest, in Missouri banking institutions selected by the State Treasurer and approved by the Governor and the State Auditor, or in obligations of the U.S. government or any agency or instrumentality thereof maturing or becoming payable not more than 5 years from the date of purchase. In addition, the State Treasurer may enter into repurchase agreements maturing and becoming payable within 90 days secured by U.S. Treasury obligations or obligations of U.S. government agencies or instrumentalities of any maturity, as provided by law. The State Treasurer may also invest in bankers' acceptances issued by domestic commercial banks possessing the highest rating issued by at least 2 nationally recognized statistical rating organizations and in commercial paper, issued by domestic corporations receiving the highest rating issued by at least 2 nationally recognized statistical rating organizations. Investments in bankers' acceptances and commercial paper shall mature and become payable not more than 180 days from the date of purchase, maintain the highest rating throughout the duration of the investment and meet any other requirements provided by law. The State Treasurer shall prepare, maintain, and adhere to a written investment policy that shall include an asset allocation plan limiting

Office of State Treasurer
Notes to the Appendixes

the total amount of state money that may be invested in each investment category authorized by law.

Deposits

The State Treasurer maintains approximately 44 demand deposit bank accounts that serve as the state's primary operating accounts, and 72 additional demand deposit bank accounts throughout the state, some with multiple depositing locations, that serve as collection accounts for various state agencies. Cash balances in the state's operating accounts that are not needed for immediate use are invested.

The demand deposit accounts on Appendix E are used to manage the state's daily receipt, disbursement, and transfer activities and to segregate funds available for investing. The demand deposit accounts consist of the following:

Demand Deposit Accounts

	June 30, 2021		June 30, 2022		June 30, 2023	
	Bank Balance (\$)	Number of Accounts	Bank Balance (\$)	Number of Accounts	Bank Balance (\$)	Number of Accounts
US Bank	2,468,047	1	1,078,825	1	14,919	3
Central Bank	127,171,579	28	99,235,513	32	91,678,090	32
Commerce Bank	16,192,384	8	8,278,121	8	226,042	8
Principal Custody Solutions	0	0	6,757	1	0	0
Wells Fargo	60,000,000	1	0	0	0	0
UMB Bank	4,602,369	1	1,016,430	1	1,095,293	1
Collection bank accounts	2,429,588	81	2,611,078	75	2,742,660	155

Banking service agreements on the operating demand accounts allow the State Treasurer to invest outstanding checks up until the checks clear the bank, thereby investing an amount in excess of book balances. Negative balances at June 30 (Appendix E) for any bank's appropriated funds demand deposits represent the book balance net of amounts invested.

The State Treasurer's deposits at June 30, 2023, were entirely covered by federal depositary insurance or by collateral securities held by the custodial banks in the State Treasurer's name.

To protect the safety of state deposits, Sections 30.270 and 110.020, RSMo, require depositories to pledge collateral securities to secure deposits not insured by the Federal Deposit Insurance Corporation.

Investments

The State Treasurer's investments at June 30, 2023, are listed by type in the following table to give an indication of the level of risk assumed by the state at year end. All investments are insured or registered, or have collateral held by the State Treasurer or a custodial bank in the state's name.

Office of State Treasurer
Notes to the Appendixes

Investments in Custody of State
Treasurer - June 30, 2023

	Reported Amount	Fair Value
Time deposits	\$ 511,016,356	510,998,356
U.S. Government securities	14,675,951,323	13,938,239,855
Commercial paper	346,901,014	347,502,800
Repurchase agreements	2,231,163,000	2,231,163,000
Other investments	5,130	142,029
Total investments	\$ 17,765,036,823	17,028,046,040

Investments are recorded at acquisition cost except "other" investments, which are recorded at par value. Investments in time deposits and repurchase agreements are acquired at face value and earn a stated interest rate. Investments in U.S. government securities are acquired at fair value and mature at face value.

3. Special Fund Dedicated
Investments

The State Treasurer is assigned the authority for recording direct investments of special funds in the accounting system. The amounts presented as special fund dedicated investments in the appropriated funds on Appendix E include funds under the control of certain state agencies that represent specific investments made or held by the State Treasurer on behalf of the Pansy Johnson-Travis Memorial State Gardens Trust Fund and the State Public School Fund. The State Treasurer is responsible for purchasing, custodial, income collection, distribution, and record-keeping duties related to the investments of these funds.

The investments of the Pansy Johnson-Travis Memorial State Gardens Trust Fund are maintained in the instruments transferred to the State Treasurer from the previous trustee of the fund. The investment purchases for the State Public School Fund are made in accordance with the instructions of the State Public School Fund investment committee.

CITIZENS SUMMARY

Conclusions in the review of Article X, Sections 16 through 24

Background

On November 4, 1980, the voters of Missouri passed Constitutional Amendment No. 5, which added Article X, Sections 16 through 24 to the Constitution of Missouri. The amendment is commonly referred to as the Hancock Amendment.

Section 18(a-d) of the Hancock Amendment requires annual total state revenue limits. The amendment limits the amount of personal income that may be used to fund state government to no greater than the portion used to do so in 1981, except as authorized by a vote of the people. The amendment provides for taxpayer refunds of excess revenues.

A 1996 amendment added Section 18(e) to the Hancock Amendment, which imposes an additional revenue limit on tax and fee increases. Section 18(e) states the general assembly shall not increase taxes or fees in any fiscal year, without voter approval, that in total produce new annual revenues greater than \$50 million, adjusted annually by the percentage change in the personal income of Missouri for the second previous year, or 1 percent of total state revenue for the second fiscal year prior to the general assembly's action, whichever is less.

Fiscal Year 2024 Conclusions

For the year ended June 30, 2024, no refunds are due to taxpayers. Total state revenue was approximately \$4.9 billion under the refund threshold. This revenue limit has not been exceeded since the year ended June 30, 1999.

For the year ended June 30, 2024, the Office of Administration, Division of Budget and Planning determined that based on fiscal notes prepared for each bill by the Committee on Legislative Research - Oversight Division, as a result of general assembly legislative actions, net taxes and fees are projected to decrease by a total of \$199.5 million, which is under the tax and fee increase revenue limit of \$144.4 million. The projected net decrease does not include 5 bills for which the Section 18(e) fiscal impact could not be projected. Actual compliance with the Section 18(e) revenue limit is determined by measuring the aggregate actual new annual revenues produced in the first fiscal year each tax and fee increase and decrease is fully effective. Since Section 18(e) was added to the Hancock Amendment in 1996, the 2016 legislative session was the only year the limit has been projected to be exceeded.

Because of the nature of this audit, no rating is provided.

SCOTT FITZPATRICK
MISSOURI STATE AUDITOR

Honorable Mike Kehoe, Governor
and
Members of the General Assembly
and
Kenneth J. Zellers, Commissioner
Office of Administration
Jefferson City, Missouri

We have conducted a review of revenues of the state of Missouri for the year ended June 30, 2024, and the application to those revenues of Article X, Sections 16 through 24, Missouri Constitution, more commonly referred to as the Hancock Amendment (included as an Appendix). We previously reported on revenues of the state for the years ended June 30, 1982 through 2023. The amendment, which was adopted by the voters of Missouri on November 4, 1980, limits the growth of state revenues collected in any fiscal year. The objectives of this review were to:

1. Evaluate the formulas to calculate the state's revenue limits.
2. Determine the specific items included in total state revenue.
3. Verify the accuracy of the revenue limit computations and compare the limits to total state revenue and projected tax and fee increases from legislative actions.
4. Review the state's overall compliance with the provisions of the amendment.

Our review included only the application of the revenue limit to state revenues and, accordingly, did not include a review of the effects of the amendment on any local governmental unit.

Our methodology to accomplish these objectives included discussions with personnel of the Office of Administration, Division of Budget and Planning, inspecting relevant records and reports compiled by that office, and reviewing data and reports from the statewide accounting system.

The Executive Summary and the Background and Methodology present our comments and conclusions concerning the state's overall compliance with the provisions of Article X, Sections 16 through 24, Missouri Constitution.

A handwritten signature in black ink that reads "S. Fitzpatrick".

Scott Fitzpatrick
State Auditor

Review of Article X, Sections 16 Through 24, Constitution of Missouri Executive Summary

Executive Summary

The amendment, commonly referred to as the Hancock Amendment, limits annual state revenues, and tax and fee increases, and requires refunds to taxpayers if revenue or tax increases exceed prescribed limits.

For the year ended June 30, 2024, no refunds are due to taxpayers. Total state revenue (TSR) was approximately \$4.9 billion under the refund threshold. In addition, the tax and fee increase limit for fiscal year 2024 was \$144.4 million, while net taxes and fees are projected to decrease by a total of \$199.5 million, primarily due to tax cuts enacted by the legislature.¹

Total State Revenue (TSR) Section 18(a-d)

Section 18(a-d) of the Hancock Amendment requires no greater portion of Missourians' personal income (MPI) be used in any future year to fund state government than was the case in fiscal year 1981, except as authorized by a vote of the people. The amendment provides for taxpayer refunds of excess revenues. Figure 1 shows TSR for fiscal year 1981 to 2024, and the Hancock Amendment refund threshold from fiscal year 1982 to 2024.

Since TSR was below the refund threshold by approximately \$4.9 billion in fiscal year 2024, no refund is required. The TSR refund threshold limit has not been exceeded since fiscal year 1999. Over the last 5 years, the amount of TSR under the refund threshold has ranged from \$3.7 billion to \$6.3 billion.

Figure 1: Total State Revenue compared to Hancock Amendment refund threshold, fiscal years 1982 to 2024, dollars in billions

Source: This chart was prepared using the Office of Administration, Division of Budget and Planning's analysis of TSR prepared using data from the Statewide Advantage for Missouri (SAM II) system.

¹ When fully implemented, Senate Bills 727 and 872, Second Regular Session, 102nd General Assembly (2024), are estimated to reduce state revenue by approximately \$75 million and \$100 million, respectively.

Review of Article X, Sections 16 through 24, Constitution of Missouri Executive Summary

Tax and fee increases Section 18(e)

Section 18(e) of the Hancock Amendment states the general assembly shall not increase taxes or fees in any fiscal year, without voter approval, that in total produce new annual revenues greater than \$50 million, adjusted annually by the percentage change in Missouri personal income (MPI) for the second previous year, or 1 percent of TSR for the second fiscal year prior to the general assembly's action, whichever is less. See additional information on page 8. Figure 2 shows the historical calculation of the tax and fee increase limit. For fiscal year 2024, this tax and fee increase limit was determined to be \$144.4 million.

Figure 2: Section 18(e) Tax and Fee Limit Calculation, Fiscal Year 1996 through 2024; Missourians' personal income each year compared to 1 percent of Total State Revenue for the second fiscal year prior (fiscal years 1994 to 2022).

Source: Missouri personal income (MPI) data was obtained from the federal Bureau of Economic Analysis, while TSR data was obtained from the Office of Administration, Division of Budget and Planning's analysis prepared using data from the Statewide Advantage for Missouri (SAM II) system.

For the year ended June 30, 2024, the Office of Administration, Division of Budget and Planning (OA-BP) determined based on fiscal notes prepared for each bill, net taxes and fees are projected to decrease by a total of \$199.5 million, which is under the tax and fee increase revenue limit of \$144.4 million. The projected net decrease does not include 5 bills for which the Section 18(e) fiscal impact could not be projected.

Actual compliance with the Section 18(e) revenue limit is determined by measuring the aggregate actual new annual revenues produced in the first fiscal year each tax and fee increase and decrease is fully effective. Since Section 18(e) was added to the Hancock Amendment in 1996, the 2016 legislative session was the only year the limit has been projected to be exceeded.

Review of Article X, Sections 16 Through 24, Constitution of Missouri

Background and Methodology

On November 4, 1980, the voters of Missouri passed Constitutional Amendment No. 5, which added Article X, Sections 16 through 24 to the Constitution of Missouri. The amendment is commonly referred to as the Hancock Amendment.

This review addresses the components of the amendment that relate to state revenues, primarily the requirements outlined in Section 18(a-d) which limit annual state revenues and Section 18(e) which limits tax and fee increases.

Total State Revenue Section 18(a-d)

Section 18(a-d) of the Hancock Amendment requires annual total state revenue limits. The amendment limits the amount of personal income that may be used to fund state government to no greater than the portion used to do so in 1981, except as authorized by a vote of the people. The amendment provides for taxpayer refunds of excess revenues.

The Office of Administration, Division of Budget and Planning (OA-BP) calculates annual total state revenue (TSR), revenue limits, refund thresholds, and refund amounts.

Calculation

The following table summarizes the calculated TSR, revenue limits, refund thresholds, and refund calculations for the 5 years ended June 30, 2024.

	Year Ended June 30,				
	2020	2021	2022	2023	2024
	(in millions)				
TOTAL STATE REVENUE (TSR)					
Total revenues	\$ 31,217.74	34,300.73	40,708.88	42,614.08	42,729.91
Less excluded revenue	(19,503.80)	(19,505.91)	(24,938.31)	(25,950.64)	(25,657.70)

Refund	\$ 0.00	0.00	0.00	0.00	0.00

Review of Article X, Sections 16 Through 24, Constitution of Missouri Background and Methodology

The calculation shows for the year ended June 30, 2024, TSR was approximately \$4.9 billion under the refund threshold. As a result, no refund is due for the year ended June 30, 2024. This revenue limit has not been exceeded since the year ended June 30, 1999.

Revenue limit formula

The OA-BP calculated the 1981 base year ratio of personal income to TSR as 5.6 percent, and uses this ratio to calculate the annual revenue limit.

Section 18(a) establishes the revenue limit formula as follows:

$$\begin{array}{lcl} \text{Revenue limit} & \text{Total state revenue (TSR)} & \text{The greater of MPI in the} \\ \text{for fiscal year} & \text{in FY 1981} & \text{calendar year (CY) prior} \\ \text{(FY) 20XX} = & \frac{\text{CY 1979 Missouri}}{\text{personal income (MPI)}} \times & \text{to the CY in which} \\ & & \text{appropriations are made} \\ & & \text{for FY 20XX or Average} \\ & & \text{MPI for 3 CYs preceding} \\ & & \text{FY 20XX.} \end{array}$$

The formula is composed of two principal parts. The first part of the formula, the base year ratio (BYR), is as follows:

$$\frac{\text{TSR in FY 1981}}{\text{CY 1979 MPI}}$$

The application of this ratio to the second part of the formula (future years' MPI) sets the revenue limit to ensure no greater portion of a future year's personal income will be used to fund state government than was the case at the time of passage of the amendment.

The MPI amounts used in the formula for the base year and subsequent years are reported by the U.S. Department of Commerce (DOC). The OA-BP uses the MPI first officially published by the DOC after the close of the calendar year to calculate the revenue limit for the applicable fiscal year. The OA-BP does not adjust the MPI used in the BYR or the second part of the formula for subsequent adjustments to the MPI by the DOC. Section 17(2) refers to ". . . total income . . . as defined and officially reported by" the DOC. Even though the amendment does not specifically refer to such adjustments, this wording suggests the revenue limit should be recalculated each time the MPI is adjusted by the DOC. For example, the BYR would be adjusted whenever the CY 1979 MPI is adjusted by the DOC. The use of the initial reporting of MPI provides at least two benefits. First, by having a consistent and unchanging BYR, the state can more easily plan and make appropriate adjustments to stay under the revenue limit. Second, if the initial MPI is subsequently adjusted, retroactive refunds are a possibility. That is, an adjustment to MPI for any prior year (including the base year) could reduce the revenue limit for a prior year below that year's TSR, providing a refund where one previously was not due. Therefore, we find this approach reasonable if it is followed consistently.

Review of Article X, Sections 16 Through 24,
Constitution of Missouri
Background and Methodology

The BYR was calculated by the OA-BP as follows (dollar amounts are in millions):

$$\frac{\$ 2,232.204096}{\$ 39,581.0} = .05639584891$$

In its calculations of the revenue limit, the OA-BP rounded the BYR to .056395. To determine the revenue limit for the fiscal year, this amount is multiplied by the MPI in the calendar year preceding the calendar year in which appropriations were made for the fiscal year or the average MPI for the 3 calendar years preceding the fiscal year. For the fiscal year 2024 revenue limit calculation, the OA-BP used the CY 2022 MPI which was greater than the average MPI for the preceding 3 calendar years.

Adjustments

Section 18(d) provides the revenue limit may be adjusted, "[i]f responsibility for funding a program or programs is transferred from one level of government to another, as a consequence of constitutional amendment, . . . provided that the total revenue authorized for collection by both state and local governments does not exceed that amount which would have been authorized without such a change."

The OA-BP has adjusted the revenue limit for the transfer of deputy circuit clerks from the county payroll to the state payroll under Section 483.245, RSMo, effective on July 1, 1981. In *Kelly v. Hanson*, 959 S.W.2d 107 (Mo. banc 1997), the Supreme Court of Missouri held that this adjustment to the revenue limit is appropriate.

Refund threshold

Section 18(b) allows the state to exceed the revenue limit by less than 1 percent before a refund is due. Therefore, to determine the point at which the refund provision takes effect (the refund threshold) the revenue limit is adjusted upward by 1 percent. However, should TSR exceed the refund threshold, all revenues in excess of the revenue limit are subject to refund.

TSR

An integral part in applying the provisions of the amendment to state revenues is to determine what constitutes TSR. The amendment does not specify the methodology to be used to determine TSR. Consequently, procedures to calculate TSR have been established and certain decisions as to items that would be either included or excluded have been made, except for items ruled on by the Attorney General or the Missouri courts.

TSR includes all revenues recorded in the Statewide Accounting System for Missouri (SAM II) and receipted by the state treasurer, which may only be withdrawn pursuant to an appropriation or which stand appropriated by the Constitution of Missouri. Various funds not in the state treasury are not included in TSR. These funds include university local funds; Department of

Review of Article X, Sections 16 Through 24, Constitution of Missouri Background and Methodology

Revenue local sales and use tax fund collections; various funds held in trust for inmates, patients, etc.; and funds of various quasi-governmental agencies such as the Board of Public Buildings, the Housing Development Commission, the Higher Education Loan Authority, the Health and Educational Facilities Authority, and the state's retirement and other employee benefit plans. The Hancock Amendment states the composition of TSR is, "defined in the budget message of the governor for fiscal year 1980-81." The funds described above were not addressed in the governor's budget message for that year since the funds were not in the state treasury and not appropriated. Thus, it is reasonable to conclude these funds should not be included in TSR.

From the revenue amounts obtained from SAM II, 8 funds are entirely excluded and 29 types of revenues are excluded to arrive at TSR, as defined in Section 17(1). These excluded funds and revenue types, and other exclusions and limits considered to arrive at TSR are described at Appendix B. A detailed schedule of SAM II revenue, adjustments for excluded funds and revenue types and other exclusions and limits, and resulting TSR for the 5 years ended June 30, 2024, is shown at Appendix A.

Tax and Fee Increases Section 18(e)

A 1996 amendment added Section 18(e) to the Hancock Amendment, which imposes an additional revenue limit on tax and fee increases.

Section 18(e) states the general assembly shall not increase taxes or fees in any fiscal year, without voter approval, that in total produce new annual revenues greater than \$50 million, adjusted annually by the percentage change in the personal income of Missouri for the second previous year, or 1 percent of TSR for the second fiscal year prior to the general assembly's action, whichever is less. Sections 18(e) and 23 provide any taxpayer can bring suit in a court of law to enforce the provisions of the Hancock Amendment.

The OA-BP calculates the limits and monitors new legislation for tax and fee increases and decreases for each legislative session.

Calculation

The following table summarizes the OA-BP's annual projected net increases/decreases from legislative actions based on fiscal notes prepared for each bill by the Committee on Legislative Research - Oversight Division, calculated revenue limits, and projected amounts over/under revenue limits for the 5 years ended June 30, 2024.

* Includes the projected increases/decrease from 2 bills passed during the fiscal year 2022 1st extraordinary legislative session.

** Legislative action amounts do not include bills for which Section 18(e) fiscal impact could not be projected.

N/A For fiscal years 2020 and 2022 through 2024, the projections showed a net decrease in taxes and fees.

For the year ended June 30, 2024, the OA-BP determined based on fiscal notes prepared for each bill by the Oversight Division, as a result of general assembly legislative actions, net taxes and fees could decrease by a total of \$199.5 million, which is under the tax and fee increase revenue limit of \$144.4 million. As noted in the Legislative actions section, the projected net decrease does not include 5 bills for which the Section 18(e) fiscal impact could not be projected. As noted in the Compliance section, actual compliance can be determined after each bill is fully effective. The 2016 legislative session was the only year the limit has been projected to be exceeded.

Revenue limit formula

Section 18(e) establishes the revenue limit as the lesser of (1) \$50 million adjusted annually by the percentage change in MPI for the second previous year, or (2) 1 percent of TSR for the second fiscal year prior to the legislative session.

For fiscal year 2024, the OA-BP calculated the MPI growth limit at \$164.2 million by multiplying the fiscal year 2023 MPI growth limit (\$158.3 million) by the percentage change in the MPI for fiscal year 2022 (3.71 percent). The OA-BP calculated the TSR limit at \$144.4 million by multiplying the fiscal year 2022 TSR (\$14.4 billion) by 1 percent. The revenue limit was established at the lesser of these amounts, or the TSR limit of \$144.4 million.

Legislative actions

After each legislative session, OA-BP personnel prepare a spreadsheet to quantify the potential fiscal impact of tax and fee increases and decreases from legislation enacted during the session. In accordance with Section 18(e), the OA-BP includes each House Bill and Senate Bill truly agreed and finally

Review of Article X, Sections 16 Through 24,
Constitution of Missouri
Background and Methodology

passed during the session, except bills vetoed by the governor and not overridden by the general assembly, and the estimated fiscal impact amount.

The OA-BP determines estimated Section 18(e) fiscal impact amounts by compiling information and amounts in fiscal notes for each bill. The fiscal notes are prepared by the Oversight Division with input from state agencies and local political subdivisions. In accordance with Section 18(e), the OA-BP compiles an amount for the first fiscal year the bill is fully effective. For most bills with Section 18(e) fiscal impact, the OA-BP determines an increase or decrease amount based on information in the fiscal note. For some bills, the fiscal note indicates the fiscal impact is "unknown." Accordingly, the OA-BP lists "unknown," rather than a dollar amount, in the legislative actions spreadsheet for these bills. OA-BP personnel indicated they did not attempt to develop a more precise estimate for this calculation because in some cases, it is not possible to quantify the potential impact of the legislation. The legislative actions spreadsheet contains a net total tax and fee increase/decrease for all bills combined. That information is compared to the calculated revenue limit to determine potential Section 18(e) compliance. The netting of the tax and fee increases and decreases is reasonable and in compliance with the amendment language.

The OA-BP legislative actions spreadsheet for the fiscal year 2024 included 28 bills, 12 of which the OA-BP determined had potential Section 18(e) fiscal impact. For 5 of these bills, the Section 18(e) fiscal impact could not be projected.

Compliance

Section 18(e)(4) provides compliance with Section 18(e) shall be measured by calculating the aggregate actual new annual revenues produced in the first fiscal year each individual tax or fee change is fully effective. For the fiscal year 2024 legislative session, actual compliance can be measured after each 2024 legislative session bill is fully effective.

Section 18(e)(5) provides any taxpayer or statewide elected official may bring action under Section 23 of the Hancock Amendment to enforce compliance with the provisions of Section 18(e). For actions brought by any statewide elected official, the Missouri Supreme Court has original jurisdiction. In such enforcement actions, the court will invalidate the taxes and fees that should have received a public vote. The court will order remedies in the amount of excess revenues collected, such as refunds or reductions in future taxes and/or fees.

Revenue amounts excluded from SAM II revenue amounts to arrive at Total State Revenue are discussed at Appendix B.

Source: This appendix was prepared using revenue data obtained from the Statewide Advantage for Missouri (SAM II) system.

¹ In fiscal year 2023, \$93,965,615 of \$94,295,438 received from tobacco companies under the Tobacco Master Settlement Agreement were coded in error to revenue source code 1624 - settlements rather than revenue source code 1806 - recovery costs. See Appendix B for further details.

Review of Article X, Sections 16 Through 24, Constitution of Missouri

Appendix B - Total State Revenue Exclusions

TSR Exclusions

Various revenue amounts are excluded from Statewide Accounting System for Missouri (SAM II) revenue amounts to arrive at Total State Revenue (TSR), as shown on Appendix A. These exclusions, which include certain funds, certain revenue types, and other exclusions and limits, are discussed below.

Excluded Funds

From the revenue amounts obtained from SAM II, certain funds are entirely excluded to arrive at TSR, as defined in Article X, Section 17(1), Missouri Constitution, as follows:

(A) Lottery Funds

In November 1984, the voters approved Article III, Section 39(b), Missouri Constitution, which authorized the creation of the Missouri State Lottery. This provision states that revenues produced from the conduct of a state lottery shall not be a part of TSR. Since the voters approved the state lottery, all revenue and expenditure refunds related to the state lottery are excluded. Beginning in fiscal year 2017, lottery proceeds are deposited in the State Lottery Fund. In prior fiscal years, they were deposited in the Lottery Enterprise Fund.

(B) Alternative Care Trust Fund

The Alternative Care Trust Fund was established in 1989 under Section 210.560, RSMo. The Department of Social Services uses this fund to account for funds held in trust for the benefit of children who have been placed in the legal custody of the state. The Department of Corrections, Department of Mental Health, and the Missouri Veterans Commission hold funds in trust for inmates and patients. Funds held in trust are not state funds since the funds remain the property of the individual. Since the Alternative Care Trust Fund does not account for state funds, it is excluded.

(C) Student Loan Funds

Federal legislation passed in 1997 made changes in the accounting required for federal education loans. Starting in federal fiscal year 1998, the federal government considers all monies in these funds as property of the federal government or guaranty agency. As a result, the state excludes the two student loan funds held in trust.

(D) Pansy Johnson-Travis Memorial State Gardens Trust Fund

The state received an endowment in 1987 for the purpose of establishing a memorial state garden. The state is to invest the endowment for 100 years before using the funds to establish the memorial garden. Since the funds cannot be appropriated until 2087, the revenue is excluded from TSR.

(E) Division of Youth Services Child Benefits Fund

The Division of Youth Services (DYS) Child Benefits Fund was administratively created to account for payments from the Social Security Administration held in trust for the benefit of youth in the DYS custody. Funds held in trust are not deemed to be state funds, and are therefore excluded. This fund was added as an excluded fund in fiscal year 2016. In prior years, most of the fund revenues were excluded as federal funds.

Constitution of Missouri
Appendix B - Total State Revenue Exclusions

- | | |
|------------------------------------|---|
| (F) Veterans' Health and Care Fund | In November 2018, the voters approved Article XIV, Section 1.4, Missouri Constitution, which authorized the creation of the Missouri Veterans' Health and Care Fund. The fund is used to account for various taxes and fees also authorized by that section for the regulation of medical marijuana licensing and distribution. Since voters directly approved these taxes and fees, the fund is excluded from TSR. |
|------------------------------------|---|

Excluded Revenues

From the revenue amounts obtained from SAM II, certain types of revenues are excluded to arrive at TSR, as defined in Article X, Section 17(1), Missouri Constitution, as follows:

- | | |
|---|---|
| (1) Federal Funds | Article X, Section 17, Missouri Constitution, specifically excludes federal funds. |
| (2) Proposition C Sales and Use Tax/Interest | In November 1982, the voters approved Proposition C, which increased the state sales and use tax by 1 percent. Since Proposition C received direct voter approval as provided in Article X, Section 16, Missouri Constitution, the proceeds from the additional 1 percent sales and use tax, including any interest earned on the investment of such taxes, are excluded. |
| (3) Proposition A Gas Tax and License Fee Increases | In April 1987, the voters approved Proposition A, which increased the motor fuel tax by 4 cents per gallon and increased the annual registration fee for certain motor vehicles, effective July 1, 1987. Since the increase in tax and fees received direct voter approval, these revenues are excluded. Also, see item (24). |
| (4) Bond Sales | Attorney General Opinion 22-1982 concluded that proceeds of the state's general obligation bonds were not to be included in TSR. |
| (5) Refunds | Refunds received due to the overpayment of obligations by the state, as identified by certain revenue source codes, are excluded. Refunds also include cost recoveries and prescription drug rebates received through the Medicaid and Children's Health Insurance programs. |
| (6) Interagency Sales and Receipts | Since interagency transactions do not generate additional revenue for the state as a whole, interagency sales and receipts, as identified by certain revenue source codes, are excluded. |
| (7) Soil and Water Sales and Use Tax/Interest and
(8) Parks Sales and Use Tax/Interest | In August 1984, the voters approved a one-tenth of 1 percent sales tax for soil and water conservation and state parks. Article IV, Section 47(c), Missouri Constitution, states that the additional revenue provided by the tax shall not be part of TSR. Since the voters approved the sales tax, the sales tax and any interest earned on the investment of the balance in these funds are excluded. |
| (9) Redeposit of Investment Principal | The redeposit of investment principal is excluded. |

Review of Article X, Sections 16 Through 24,
Constitution of Missouri
Appendix B - Total State Revenue Exclusions

(10) Outlawed Checks	Outlawed checks (issued checks not cashed by the payee within the time allowed) are redeposited in the state treasury and are excluded.
(11) Redeposit of Loan Principal	Redeposits of loan principal are excluded.
(12) Bingo Tax	The August 1992 amendment to Article III, Section 39(d), Missouri Constitution, related to gaming activities also applies to bingo games, in that all state revenues derived from the conduct of gaming activities shall be appropriated beginning July 1, 1993, solely for public education and shall not be included in TSR. Section 313.007, RSMo, requires the bingo tax to be deposited in the Bingo Proceeds for Education Fund. The bingo tax, certain fees, and the interest earned on the investment of the fund are excluded from TSR.
(13) Riverboat Gambling and Other Gaming Proceeds	In August 1992, voters approved an amendment to Article III, Section 39(d), Missouri Constitution, that requires all state gaming revenues be appropriated for public education and excludes these revenues from TSR. In 1993, the state enacted Senate Bills 10 and 11. This comprehensive gaming legislation established riverboat gaming in the state. The legislation repealed House Bill (HB) 149 related to riverboat gaming, which had been enacted by voters as Proposition A in November 1992. Under Senate Bills 10 and 11, the state imposed a 20 percent tax on adjusted gross receipts from gambling games. In November 2008, the voters approved increasing the tax to 21 percent. The state treats 90 percent of this revenue as state gaming revenues under Article III, Section 39(d), Missouri Constitution, and earmarks the revenues to the Gaming Proceeds for Education Fund. The remaining 10 percent of this revenue is allocated to the home dock city or county. Under Article III, Section 39(d), Missouri Constitution, the 90 percent portion of the adjusted gross receipts tax is exempted from TSR. The remaining 10 percent portion of the adjusted gross receipts tax is also excluded from TSR because these funds are distributed by the Department of Revenue without deposit in the state treasury and without appropriation. Under Senate Bills 10 and 11, the legislature also established a Gaming Commission Fund in the state treasury and authorized gaming commission license fees, penalties, administrative fees, reimbursements, and admission fees to be deposited in this fund and expended pursuant to state appropriation for various purposes. On November 24, 1998, the Missouri Court of Appeals, Western District, entered its final decision in <i>Kelly v. Hanson</i>, 984 S.W. 2d 540 (Mo. App. W.D. 1998). The Missouri Court of Appeals, Western District, held that revenue from the \$1 portion of the state-imposed \$2 admission fee payable to the state is excluded from TSR, while the revenue from the payments to the

Review of Article X, Sections 16 Through 24,
Constitution of Missouri
Appendix B - Total State Revenue Exclusions

state to recoup public safety and regulatory enforcement costs is included in TSR. The remaining \$1 portion of the \$2 admission fee is also excluded from TSR because these funds are distributed by the Department of Revenue without deposit in the state treasury and without appropriation.

In 2016, the state enacted HB 1941 that requires licensed fantasy sports contest operators to pay an annual operation fee equal to 11.5 percent of the operator's net revenue from the previous calendar year. These revenues are deposited in the Gaming Proceeds for Education Fund. Section 313.822, RSMo, provides all monies deposited in the Gaming Proceeds for Education Fund are to be treated as proceeds of river boat gambling. Under Article III, Section 39(d), Missouri Constitution, these annual operation fees are excluded from TSR.

(14) Redeposit of State Funds

The redeposit of state funds for which a state expenditure was originally incurred, such as from closing a petty cash fund and returning the funds to the state treasury, is excluded.

(15) Loan Proceeds

The state periodically receives loans or advancements from the federal government, local governments, or private sources, to finance the acceleration of state projects. Since the loans must be repaid in the future, they are excluded.

(16) Conservation Sales and Use
Tax/Interest

In *Conservation Federation of Missouri v. Richard Hanson*, 994 S.W. 2d 27 (Mo. Banc. 1999), the Supreme Court held that the revenue derived from the one-eighth of 1 percent conservation sales tax, and any interest earned on the investment of these funds, are excluded.

(17) State Employee Expense
Reimbursement

The state receives reimbursement from private individuals, firms, partnerships, corporations, etc., for state employee expenses incurred in providing testimony in a court of law, for which the employee has already been reimbursed by a state expense account. These reimbursements are excluded.

(18) Recovery Costs

Monies received from others for costs incurred by the state or to be incurred by the state are excluded. Monies received from tobacco companies under the Tobacco Master Settlement Agreement are included in the recovery costs exclusion. See Tobacco Master Settlement Agreement Proceeds section. Also, see item (19).

(19) Cost Reimbursements

Monies received from other governments for reimbursements of costs incurred by the state are excluded.

Regarding items (18) and (19), the state has excluded from TSR receipts for cost reimbursements since fiscal year 1982 and receipts for recovery costs since fiscal year 1988. Although the constitution does not specifically

Review of Article X, Sections 16 Through 24,
Constitution of Missouri
Appendix B - Total State Revenue Exclusions

mention cost reimbursements and recovery costs and they have not been the subject of a court decision, we have agreed with such exclusions because from an accounting standpoint, they would not be considered revenue.

(20) Canceled Checks

Receipts derived from the redeposit of state checks that have been canceled are excluded.

(21) Local Match

Local governments provided funds to the state to use as a local match to qualify for federal or state funding. Since these funds are not state funds, they are excluded.

(22) Proceeds of Surplus Property
Sales

The proceeds from some sales of surplus property are excluded. Although the constitution does not specifically mention proceeds of surplus property sales and they have not been the subject of a court decision, we have agreed with such exclusions because from an accounting standpoint, they would not be considered revenue.

(23) DHSS Program Rebates

The Department of Health and Senior Services (DHSS) receives rebates through various federal programs, including the Special Supplemental Nutrition Program for Women, Infants, and Children and the HIV Care Formula Grants. These rebates are related to purchases made with federal funds and are therefore excluded.

(24) Amendment 3 Revenue
Derived From Highway
Users

In November 2004, the voters approved an amendment to Article IV, Sections 29 and 30(a) through 30(c) and added Section 30(d), Missouri Constitution, effective July 1, 2005.

Section 30(a)(4) provides for the apportionment and distribution of net proceeds of motor fuel tax. This section further provides that, "The net proceeds of fuel taxes apportioned, distributed and deposited under this section to the state road fund, counties, cities, towns and villages shall not be included within the definition of 'total state revenues'. . . ."

Section 30(b) provides for the use and distribution of revenue derived from highway users as an incident to their use or right to use the highways of the state (including all state license fees and taxes on motor vehicles, trailers and motor vehicle fuels and excepting sales tax on motor vehicles and trailers which are not distributed to the state road fund). This section further provides that, "The moneys apportioned or distributed under this section to the state road fund, the state transportation fund, the state road bond fund, counties, cities, towns or villages shall not be included within the definition of 'total state revenues'. . . ."

As a result, motor vehicle sales tax and special fuel non-gas tax, and fees from motor vehicle licenses or permits, interstate transportation licenses or permits, driver's licenses or permits, overdimension/overweight permits, other

Review of Article X, Sections 16 Through 24,
Constitution of Missouri
Appendix B - Total State Revenue Exclusions

licenses and permits, and non-motor fuel decals credited to the State Road Fund, State Road Bond Fund, and/or State Transportation Fund are excluded from TSR.

The increase in interstate transportation license or permits for certain motor vehicles excluded under this section were previously excluded and, as a result, have no impact on TSR. (See item (3))

Sections 29, 30(c), and 30(d) have no Hancock implications.

(25) Interest - Federal

Interest assessed and received on advances made to the state by the federal government. Since the interest is due to the federal government, it is excluded from TSR.

(26) Suspense Holding

The collection of unidentified funds for both state and non-state entities. Since these monies have not been identified, they are excluded from TSR.

(27) Recreational Marijuana Tax
and
(28) Recreational Marijuana Fee

In November 2022, the voters approved an amendment to Article XIV, Section 2. The amendment, which was effective December 8, 2022, includes a 6 percent sales tax on the retail price of marijuana to benefit various programs and various licensing fees. Since the sales tax and licensing fees received direct voter approval, the sales tax and any interest earned on the investment of the balance in these funds are excluded from TSR.

(29) Other Debt Proceeds

Receipts from the issuance of other debt, such as notes. Since the debt must be repaid in the future, these receipts are excluded from TSR.

Other Exclusions and
Limits

Other exclusions and limits have been considered to arrive at TSR, as follows:

Cash Management Improvement
Act (CMIA)

The state has to enter into an agreement with the federal government that governs the timing of when the state can obtain federal grant monies. If the state holds federal funds longer than needed, the state has to reimburse the federal government for interest earnings. Since the interest was earned on federal funds and has to be returned to the federal government, it is excluded from TSR.

Agency Remitted Sales Tax

Some state agencies sell goods or services to the public and collect sales tax. To avoid counting the same receipts in TSR twice, the sales tax remitted by state agencies to the Department of Revenue is excluded from TSR.

Abandoned Funds Claim
Payments

Under Section 447.543, RSMo, the state receives abandoned funds from various sources (banks, businesses, insurance companies, etc.). These funds are placed in the state Abandoned Fund Account. The rightful owner may receive these funds if properly claimed. The state includes the receipts in TSR. Starting in fiscal year 1998, the state excludes from TSR amounts paid to the rightful owner.

Review of Article X, Sections 16 Through 24,
Constitution of Missouri
Appendix B - Total State Revenue Exclusions

Circuit Courts Escrow and Debt
Offset Escrow

Under Section 488.5028, RSMo, the Department of Revenue and State Lottery Commission make setoffs of income tax refunds and lottery prize payouts, respectively, for amounts owed to circuit courts. Similarly, under Section 143.784, RSMo, the Department of Revenue makes setoffs of income tax refunds for amounts due to state agencies. Amounts setoff under both provisions are placed in escrow accounts until any review hearings are held and the matter is resolved. As a result, this revenue is not included in TSR.

Expenditure Refunds

Under Article X, Section 17(1), Missouri Constitution, TSR shall exclude the amount of any credits based on actual tax liabilities. Refunds disbursed due to the excess collection by the state of liabilities owed the state, largely tax refunds, as identified by certain expenditure object codes are excluded. The method used to determine expenditure refunds is not specified in the amendment. Although the OA-BP initially used the appropriation basis to determine expenditures refunds, during fiscal year 1984, the OA-BP changed to the cash basis. In *Kelly v. Hanson*, 959 S.W.2d 107 (Mo. Banc 1997), the Supreme Court held that a cash basis of accounting should be used to determine compliance with the Hancock Amendment. A schedule of expenditure refunds is included at Appendix C.

Federal Reimbursement
Allowance and Nursing Facility
Reimbursement Allowance

The majority of the Federal Reimbursement Allowance and the Nursing Facility Reimbursement Allowance tax imposed by the state to pay the state's share of the costs of the Medicaid program is collected by an offset against Medicaid claims, and is not directly deposited in the state treasury. As a result, this revenue is not included in TSR. This exclusion is pursuant to the Missouri Supreme Court's decision in *Kelly v. Hanson*, 984 S.W. 2d 540 (Mo. App. W.D. 1998). A small portion of the tax is not collected by an offset and is deposited in the state treasury and is, therefore, included in TSR.

Tobacco Master Settlement
Agreement Proceeds

The OA-BP excluded \$104,918,358 received from tobacco companies during fiscal year 2024. The Master Settlement Agreement was entered into effective November 23, 1998, between the major cigarette manufacturers and the states' Attorneys General. Missouri received its first payments under the settlement agreement during fiscal year 2001 and future payments from tobacco companies extend in perpetuity. The payment received in 2001 included amounts under the settlement agreement for 1998, 2000, and 2001. The settlement agreement did not require a payment for 1999. Payments for fiscal years 2001 through 2024 were as follows:

Review of Article X, Sections 16 Through 24,
Constitution of Missouri
Appendix B - Total State Revenue Exclusions

Fiscal Year	Amount
2001	\$ 338,230,653
2002	172,679,543
2003	166,895,179
2004	142,829,966
2005	144,964,644
2006	133,078,222
2007	139,292,616
2008	153,277,453
2009	168,066,958
2010	140,318,927
2011	132,631,552
2012	135,246,224
2013	135,166,246
2014	66,085,418
2015	132,261,643
2016	123,645,603
2017	191,261,135
2018	138,311,530
2019	134,225,943
2020	129,544,993
2021	138,571,552
2022	139,365,296
2023	94,295,438
2024	104,918,358

The amounts received in fiscal years 2001 through 2022 and 2024 were coded in the state's accounting system to revenue source code 1806 - recovery costs, which is excluded from TSR. Recovery costs are defined under revenue source code 1806 as, "*all money recovered from others for costs incurred by the state or to be incurred by the state.*" In fiscal year 2023, \$329,223 was coded correctly to revenue source code 1806; however, \$93,965,615 was coded in error to revenue source code 1624 - settlements. The OA-BP has concluded these receipts should be excluded from TSR because the amounts represent a recovery of health care costs previously incurred or to be incurred by the state attributable to smoking.

Public information was not readily available to determine if the amounts recovered from the tobacco companies under the master settlement agreement were more or less than the health care costs incurred. For our fiscal year 2001 report, we reviewed three extensive research projects conducted by experts. We limited our analysis to Medicaid costs incurred in fiscal years 1998 through 2001. We did not consider Medicaid costs prior to fiscal year 1998. In addition, we did not consider other costs incurred by the state, such as employee health care costs attributable to smoking. These research projects showed that Medicaid costs attributable to smoking were higher than the

Review of Article X, Sections 16 Through 24,
Constitution of Missouri
Appendix B - Total State Revenue Exclusions

amount the state received from the tobacco companies under the settlement agreement. As a result, in our 2001 report we concluded it was proper for the OA-BP to exclude the amounts received from the tobacco companies as a recovery cost.

A study, "Tobacco Damages to the State of Missouri" by Glenn W. Harrison, was commissioned by the Missouri Attorney General's Office for use in a lawsuit against tobacco companies filed May 12, 1997. This lawsuit was dropped because Missouri joined a consortium of states in December 1998, in the Master Settlement Agreement with the tobacco companies. As a result, the Harrison study was not fully completed. However, the draft report provided an estimate of Medicaid costs attributable to smoking for 1970 through 2007 and an estimate of state employee health care costs attributable to smoking for 1970 through 1997. This study estimates that state costs attributable to smoking were higher than the amount the state received. OA officials could not locate any current studies, but they believe continued exclusion is reasonable.

Review of Article X, Sections 16 Through 24, Constitution of Missouri

Appendix D - Constitutional Language

Article X, Sections 16 through 24, Constitution of Missouri (Adopted November 4, 1980, Amended April 2, 1996)

TAXATION

Section 16. Taxes and state spending to be limited--state to support certain local activities--emergency spending and bond payments to be authorized. Property taxes and other local taxes and state taxation and spending may not be increased above the limitations specified herein without direct voter approval as provided by this constitution. The state is prohibited from requiring any new or expanded activities by counties and other political subdivisions without full state financing, or from shifting the tax burden to counties and other political subdivisions. A provision for emergency conditions is established and the repayment of voter approved bonded indebtedness is guaranteed. Implementation of this section is specified in sections 17 through 24, inclusive of this article.

Section 17. Definitions. As used in sections 16 through 24 of Article X:

(1) **"Total state revenues"** includes all general and special revenues, license and fees, excluding federal funds, as defined in the budget message of the governor for fiscal year 1980-1981. Total state revenues shall exclude the amount of any credits based on actual tax liabilities or the imputed tax components of rental payments, but shall include the amount of any credits not related to actual tax liabilities.

(2) **"Personal income of Missouri"** is the total income received by persons in Missouri from all sources, as defined and officially reported by the United States Department of Commerce or its successor agency.

(3) **"General price level"** means the Consumer Price Index for All Urban Consumers for the United States, or its successor publications, as defined and officially reported by the United States Department of Labor, or its successor agency.

Section 18. Limitation on taxes which may be imposed by general assembly--exclusions--refund of excess revenue--adjustments authorized.

(a) There is hereby established a limit on the total amount of taxes which may be imposed by the general assembly in any fiscal year on the taxpayers of this state. Effective with fiscal year 1981-1982, and for each fiscal year thereafter, the general assembly shall not impose taxes of any kind which, together with all other revenues of the state, federal funds excluded, exceed the revenue limit established in this section. The revenue limit shall be calculated for each fiscal year and shall be equal to the product of the ratio of total state revenues in fiscal year 1980-1981 divided by the personal income of Missouri in calendar year 1979 multiplied by the personal income of Missouri in either the calendar year prior to the calendar year in which appropriations for the

Review of Article X, Sections 16 Through 24,
Constitution of Missouri
Appendix D

fiscal year for which the calculation is being made, or the average of personal income of Missouri in the previous three calendar years, whichever is greater.

(b) For any fiscal year in the event that total state revenues exceed the revenue limit established in this section by one percent or more, the excess revenues shall be refunded pro rata based on the liability reported on the Missouri state income tax (or its successor tax or taxes) annual returns filed following the close of such fiscal year. If the excess is less than one percent, this excess shall be transferred to the general revenue fund.

(c) The revenue limitation established in this section shall not apply to taxes imposed for the payment of principal and interest on bonds, approved by the voters and authorized under the provisions of this constitution.

(d) If responsibility for funding a program or programs is transferred from one level of government to another, as a consequence of constitutional amendment, the state revenue and spending limits may be adjusted to accommodate such change, provided that the total revenue authorized for collection by both state and local governments does not exceed that amount which would have been authorized without such change.

(e). Voter approval required for taxes or fees, when, exceptions--definitions--compliance procedure, remedies.¹

1. In addition to the revenue limit imposed by section 18 of this article, the general assembly in any fiscal year shall not increase taxes or fees without voter approval that in total produce new annual revenues greater than either fifty million dollars adjusted annually by the percentage change in the personal income of Missouri for the second previous fiscal year, or one percent of total state revenues for the second fiscal year prior to the general assembly's action, whichever is less. In the event that an individual or series of tax or fee increases exceed the ceiling established in this subsection, the taxes or fees shall be submitted by the general assembly to a public vote starting with the largest increase in the given year, and including all increases in descending order, until the aggregate of the remaining increases and decreases is less than the ceiling provided in this subsection.

2. The term "new annual revenues" means the net increase in annual revenues produced by the total of all tax or fee increases enacted by the general assembly in a fiscal year, less applicable refunds and less all contemporaneously occurring tax or fee reductions in that same fiscal year, and shall not include interest earnings on the proceeds of the tax or fee increase. For purposes of this calculation, "enacted by the general assembly"

¹ The 1996 amendment added section 18(e).

Review of Article X, Sections 16 Through 24,
Constitution of Missouri
Appendix D

shall include any and all bills that are truly agreed to and finally passed within that fiscal year, except bills vetoed by the governor and not overridden by the general assembly. Each individual tax or fee increase shall be measured by the estimated new annual revenues collected during the first fiscal year that it is fully effective. The term "increase taxes or fees" means any law or laws passed by the general assembly after May 2, 1996, that increase the rate of an existing tax or fee, impose a new tax or fee, or broaden the scope of a tax or fee to include additional class of property, activity, or income, but shall not include the extension of an existing tax or fee which was set to expire.

3. In the event of an emergency, the general assembly may increase taxes, licenses or fees for one year beyond the limit in this subsection under the same procedure specified in section 19 of this article.

4. Compliance with the limit in this section shall be measured by calculating the aggregate actual new annual revenues produced in the first fiscal year that each individual tax or fee change is fully effective.

5. Any taxpayer or statewide elected official may bring an action under the provisions of section 23 of this article to enforce compliance with the provisions of this section. The Missouri supreme court shall have original jurisdiction to hear any challenge brought by any statewide elected official to enforce this section. In such enforcement actions, the court shall invalidate the taxes and fees which should have received a public vote as defined in subsection 1 of this section. The court shall order remedies of the amount of revenue collected in excess of the limit in this subsection as the court finds appropriate in order to allow such excess amounts to be refunded or to reduce taxes and/or fees in the future to offset the excess monies collected.

Section 19. Limits may be exceeded, when, how. The revenue limit of section 18 of this article may be exceeded only if all of the following conditions are met: (1) The governor requests the general assembly to declare an emergency; (2) the request is specific as to the nature of the emergency, the dollar amount of the emergency, and the method by which the emergency will be funded; and (3) the general assembly thereafter declares an emergency in accordance with the specifics of the governor's request by a majority vote for fiscal year 1981-1982, thereafter a two-thirds vote of the members elected to and serving in each house. The emergency must be declared in accordance with this section prior to incurring any of the expenses which constitute the emergency request. The revenue limit may be exceeded only during the fiscal year for which the emergency is declared. In no event shall any part of the amount representing a refund under section 18 of this article be the subject of an emergency request.

Section 20. Limitation on state expenses. No expenses of state government shall be incurred in any fiscal year which exceed the sum of the revenue limit

Review of Article X, Sections 16 Through 24,
Constitution of Missouri
Appendix D

established in sections 18 and 19 of this article plus federal funds and any surplus from a previous fiscal year.

Section 21. State support to local governments not to be reduced, additional activities and services not to be imposed without full state funding. The state is hereby prohibited from reducing the state financed proportion of the costs of any existing activity or service required of counties and other political subdivisions. A new activity or service or an increase in the level of any activity or service beyond that required by existing law shall not be required by the general assembly or any state agency of counties or other political subdivision, unless a state appropriation is made and disbursed to pay the county or other political subdivision for any increased costs.

Section 22. Political subdivisions to receive voter approval for increases in taxes and fees--rollbacks may be required--limitation not applicable to taxes for bonds.

(a) Counties and other political subdivisions are hereby prohibited from levying any tax, license or fees, not authorized by law, charter or self-enforcing provisions of the constitution when this section is adopted or from increasing the current levy of an existing tax, license or fees, above that current levy authorized by law or charter when this section is adopted without the approval of the required majority of the qualified voters of that county or other political subdivision voting thereon. If the definition of the base of an existing tax, license or fees, is broadened, the maximum authorized current levy of taxation on the new base in each county or other political subdivision shall be reduced to yield the same estimated gross revenue as on the prior base. If the assessed valuation of property as finally equalized, excluding the value of new construction and improvements, increases by a larger percentage than the increase in the general price level from the previous year, the maximum authorized current levy applied thereto in each county or other political subdivision shall be reduced to yield the same gross revenue from existing property, adjusted for changes in the general price level, as could have been collected at the existing authorized levy on the prior assessed value.

(b) The limitations of this section shall not apply to taxes imposed for the payment of principal and interest on bonds or other evidence of indebtedness or for the payment of assessments on contract obligations in anticipation of which bonds are issued which were authorized prior to the effective date of this section.

Section 23. Taxpayers may bring actions for interpretations of limitations. Notwithstanding other provisions of this constitution or other law, any taxpayer of the state, county or other political subdivision shall have standing to bring suit in a circuit court of proper venue and additionally, when the state is involved, in the Missouri supreme court, to enforce the provisions of sections 16 through 22, inclusive, of this article and, if the suit is sustained,

Review of Article X, Sections 16 Through 24,
Constitution of Missouri
Appendix D

shall receive from the applicable unit of government his costs, including reasonable attorneys' fees incurred in maintaining such suit.

Section 24. Voter approval requirements not exclusive--self-enforceability.

(a) The provisions for voter approval contained in sections 16 through 23, inclusive, of this article do not abrogate and are in addition to other provisions of the constitution requiring voter approval to incur bonded indebtedness and to authorize certain taxes.

(b) The provisions contained in sections 16 through 23, inclusive, of this article are self-enforcing; provided, however, that the general assembly may enact laws implementing such provisions which are not inconsistent with the purposes of said sections.

F	Status of Political Subdivisions Required to File Annual Financial Reports - Reports Due April 30, 2025 Filed in May 2025	9

SCOTT FITZPATRICK
MISSOURI STATE AUDITOR

Honorable Mike Kehoe, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this compilation is to report the filing status for political subdivisions, other than cities, towns, and villages, required to file a financial report under Section 105.145, RSMo, and 15 CSR 40-3.030. Section 105.145, RSMo, provides that the State Auditor's Office shall notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Due to different filing requirements, a separate report is issued for cities, towns, and villages.

The filing status for the 9 political subdivisions required to file a financial report by May 31, 2025, is presented in summary on page 3 and by individual entity in Appendix A. We have not audited the information submitted and, accordingly, do not express an opinion or any other form of assurance on it.

This report also includes the updated filing status for political subdivisions, other than cities, towns, and villages, that filed a financial report in May 2025, after their filing deadline. The filing status for these 15 entities is presented in summary on page 3 and by individual entity in Appendixes B to F.

A handwritten signature in black ink that reads "Scott Fitzpatrick". The signature is written in a cursive, flowing style.

State Auditor

Monthly Report on Political Subdivision Filings

May 2025

Executive Summary

Executive Summary

Section 105.145, RSMo, requires the governing body of each political subdivision in the state, except counties and school districts, to prepare and remit to the state auditor an annual report of financial transactions. Rule 15 CSR 40-3.030 requires the financial report to be remitted to the state auditor within 6 months of the end of the political subdivision's fiscal year. The State Auditor's Office posts individual annual financial reports to its website. A searchable link is available at <http://auditor.mo.gov>.

Section 105.145, RSMo, requires the state auditor to notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Any political subdivision that fails to timely submit the annual financial report shall be subject to a fine of \$500 per day upon notice by the Department of Revenue.

This report includes the filing status for the 9 political subdivisions, other than cities, towns, and villages, with a fiscal year end of November 30, 2024. Cities, towns, and villages have additional filing requirements and their reporting status is included in a separate report. Of the 9 political subdivisions, 8 filed an annual financial report timely.

This report also includes the filing status for 15 political subdivisions, other than cities, towns, and villages, that filed their financial report in May 2025, after their filing deadline.

SCOTT FITZPATRICK
MISSOURI STATE AUDITOR

Honorable Mike Kehoe, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this compilation is to report the filing status for the municipalities required to file a financial report by May 31, 2025, under Section 105.145, RSMo, and 15 CSR 40-3.030 and, when applicable, an addendum under Section 479.359, RSMo, and 15 CSR 40-3.170 and a municipal court certification under Section 479.360, RSMo, and 15 CSR 40-3.180.

Section 105.145, RSMo, provides that the State Auditor's Office (SAO) shall notify the Department of Revenue if any city, town, or village fails to timely submit a copy of its annual financial report. Additionally, Section 479.362, RSMo, provides that the SAO shall notify the Department of Revenue whether counties, cities, towns, and villages have timely filed under Sections 479.359 and 479.360, RSMo. Due to different filing requirements, a separate report is issued for all other political subdivisions required to file a financial report.

The filing status for the 3 cities is presented in summary on page 3 and by individual entity in Appendix A. This compilation is limited to presenting information submitted to our office. We have not audited the information submitted and, accordingly, do not express an opinion or any other form of assurance on it.

This report includes the updated filing status for municipalities that filed at least one of the items (financial report, addendum, or certification) in May 2025, after their filing deadline. The filing status for these 6 cities and 1 town is presented in summary on page 4 and by individual entity in Appendixes B to E.

A handwritten signature in black ink that reads "Scott Fitzpatrick". The signature is stylized with a large, flowing "S" and "F".

Scott Fitzpatrick
State Auditor

Monthly Report on Municipal Court and Revenue Filings

May 2025

Executive Summary

Executive Summary

Section 105.145, RSMo, requires the governing body of each political subdivision in the state, except counties and school districts, to prepare and remit to the state auditor an annual report of financial transactions. Rule 15 CSR 40-3.030 requires the financial report to be remitted to the state auditor within 6 months of the end of the political subdivision's fiscal year. The State Auditor's Office (SAO) posts individual annual financial reports to its website. A searchable link is available at <http://auditor.mo.gov>.

Section 105.145, RSMo, requires the state auditor to notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Any political subdivision that fails to timely submit the annual financial report shall be subject to a fine of \$500 per day upon notice by the Department of Revenue.

Section 479.359.1, RSMo, requires every county, city, town, and village to annually calculate the percentage of its annual general operating revenue received from fines, bond forfeitures, and court costs for minor traffic violations.

Section 479.359.3, RSMo, provides that all entities having a municipal court file an addendum to the annual financial report containing items listed in 15 CSR 40-3.170, which also provides the procedure to file an addendum.

Section 479.360, RSMo, requires every county, city, town, and village that has a municipal court to file, with its annual financial report, a certification of substantial compliance with 10 municipal court procedures. This certification must be signed by the municipal court judge. Rule 15 CSR 40-3.180 provides the procedure to file the municipal court certification. Any county, city, town, or village that does not have a municipal court judge is not required to file a certification.

Section 479.362, RSMo, requires the SAO to notify the Department of Revenue whether counties, cities, towns, or villages have timely filed their addendums under Section 479.359, RSMo, and certificates of substantial compliance under Section 479.360, RSMo. Section 479.368, RSMo, provides penalties for counties, cities, towns, and villages that fail to file, including loss of revenue and a mandatory ballot measure to dissolve the political subdivision.

This report includes the filing status for the 3 cities with a fiscal year end of November 30, 2024, whose financial report was due by May 31, 2025. Of the 3 municipalities, 2 filed the financial report timely. Of the 3 municipalities required to file an addendum, 1 filed timely. Of the 2 municipalities required to file a certification, 2 filed timely.

Monthly Report on Municipal Court and Revenue Filings May 2025 Executive Summary

This report includes the filing status for 6 cities and 1 town that filed at least one of the items (financial report, addendum, or certification) in May 2025, after their filing deadline. Of these municipalities, 6 filed an annual financial report, 2 filed an addendum, and 1 filed a certification.

SCOTT FITZPATRICK
MISSOURI STATE AUDITOR

Board of Directors
Carroll County Ambulance District
Carrollton, Missouri

We have conducted follow-up work on certain audit report findings contained in Report No. 2022-108, *Carroll County Ambulance District*, (rated as Poor), issued in November 2022. The objectives of the follow-up were to:

1. Identify audit report findings for which follow up is considered necessary, and inform the ambulance district about the follow-up review on those findings.
2. Identify and provide status information for each recommendation reviewed. The status of each recommendation reviewed will be one of the following:
 - Implemented: Auditee fully implemented the recommendation, either as described in the report or in a manner that resolved the underlying issue.
 - In Progress: Auditee has specific plans to begin, or has begun, to implement and intends to fully implement the recommendation.
 - Partially Implemented: Auditee implemented the recommendation in part, but is not making efforts to fully implement it.
 - Not Implemented: Auditee has not implemented the recommendation and has no specific plans to implement the recommendation.

As part of the work conducted, we reviewed documentation provided by the Business Office Manager and the Director and held discussions with the Business Office Manager and the Director to verify the status of implementation for the recommendations. Documentation provided by the ambulance district included Board meeting minutes, financial records, and other pertinent documents. This report is a summary of the results of this follow-up work, which was substantially completed during May 2025.

A handwritten signature in black ink that reads "Scott Fitzpatrick". The signature is stylized with a large "S" and "F".

Scott Fitzpatrick
State Auditor

Carroll County Ambulance District

Follow-Up Report on Audit Findings

Status of Findings

- | | |
|--------------------------|--|
| 1. Misappropriated Money | From June 1, 2020, through March 31, 2021, money totaling at least \$91,794 was misappropriated from the district. |
|--------------------------|--|

Between July 16, 2020, and March 10, 2021, the former Director improperly claimed 642 hours of overtime that resulted in \$35,150 in improper overtime payments. The former Director also improperly approved the issuance of a \$15,000 payment to himself on December 30, 2020, and improperly approved payments to himself, totaling \$4,380, for 72 holiday hours at time and one-half. The former Director claimed 3,500 miles of travel and was reimbursed \$1,945 for mileage between October 2020 and January 2021. The Board did not review or approve the 4 reimbursement requests and documentation was not adequate. The former Director improperly authorized the creation of an employee benefit reimbursement account and owed the Carroll County Ambulance District (CCAD) \$4,021 for reimbursements received. Additionally, the former Director charged \$108 in questionable shipping charges with the district's credit card on March 2, 2021, the day before his termination. The Director also improperly authorized payroll payments totaling \$29,560 to 15 district employees between November 2020 and January 2021, and a final payment of \$1,630 to a district employee in July 2020.

Recommendation

The Board of Directors work with law enforcement officials regarding criminal prosecution of the improper overpayments, questionable and improper reimbursements, and improper purchases; and take the necessary actions to obtain restitution.

Status

Implemented

The Board was working with law enforcement officials and the Prosecuting Attorney's office for the criminal prosecution and was attempting to obtain restitution. In September 2024, the former Director was charged with a class C felony of stealing \$25,000 or more. However, the former Director passed away in October 2024 and the charges filed were nolle prosequi. Restitution had not been obtained as of the time of his death. Additionally, the current Director indicated the district was unable to recover any money from a bond, insurance policy, or the former Director's estate.

-
- | | |
|--|--|
| 2. Oversight and Segregation of Duties | |
|--|--|

The Board did not provide adequate oversight of the former Director or establish segregation of duties over the various financial accounting functions. The Board did not adequately monitor the district's payroll and disbursements activity.

Recommendation

The Board of Directors segregate accounting duties to the extent possible and implement appropriate reviews and monitoring procedures.

Carroll County Ambulance District
Follow-up Report on Audit Findings
Status of Findings

Status

Implemented

The Board has segregated accounting duties to the extent possible. The Business Manager presents invoices and checks to be signed to the Treasurer. The Treasurer, who is a Board member, reviews the invoice and signs the check along with the Board President. The Board reviews reports detailing payroll and other disbursements, and budgeted versus actual spending and approves all disbursements.

3. Payroll Controls and Procedures

District payroll policies and procedures needed improvement.

3.1 Employment contract

The Board did not enter into a written employment contract with the former Director. Between June 16, 2020, and March 10, 2021, the district paid the Director \$117,164, including \$44,348 in overtime, \$5,256 in holiday pay, and \$15,000 for retention and reimbursement of personal health insurance costs, without a written contract documenting his compensation or employment classification.

In July 2020, the Board passed a motion authorizing the former Director be paid \$75,000 annually; however, there was no formal approval for compensation in excess of this.

Recommendation

The Board of Directors ensure employment contracts are executed with the Director.

Status

Implemented

We reviewed the current Director's employment contract, and found that it details employment conditions, expected work hours, pay, and benefits.

3.2 Time records

Time records and time summaries prepared by the former Director were not always accurate and sometimes lacked adequate detail. In addition, the Board did not review the former Director's time records and summaries.

Recommendation

The Board of Directors ensure the Director's time records and summaries are reviewed for completeness and accuracy and properly approved.

Status

Implemented

According to the Director and the Business Office Manager, the district has implemented a timekeeping system that is used by all employees. The time records for all employees are verified and signed off on by the Director and the Business Office Manager. The Board reviews payroll amounts and details, approves payroll, and the Treasurer signs off on payroll disbursements. The

Carroll County Ambulance District
Follow-up Report on Audit Findings
Status of Findings

Board receives a breakdown of the Director's hours as part of the packet provided for Board meetings.

3.3 Board review and approval process

The Board did not review or approve payroll transactions or reports. From June 2020 through March 2021, the former Director did not provide payroll or direct deposit reports for the Board's review in their monthly meeting packets. The only payroll information provided to the Board was summarized in a budget to actual financial report.

Recommendation

The Board of Directors ensure payroll reports are prepared and the Board's review is documented.

Status

Implemented

We reviewed the records provided to the Board for the April 15, 2025, meeting and they included payroll reports. Board approval is documented in the meeting minutes, and the Treasurer signs off on the reports.

3.4 Personnel files

The district did not maintain complete personnel files for all district employees. Some files were missing W-4 forms, I-9 forms, application forms, copies of driver licenses, drug screening forms, and copies of professional licenses, while other employee personnel files included these records.

Recommendation

The Board of Directors maintain complete personnel files for all district employees.

Status

Partially Implemented

We reviewed 3 personnel files and noted one file was missing an employment application. The Director indicated that in the past, he was not verifying personnel files for completeness. According to the Business Office Manager and the Director, the district is currently working on establishing a digital personnel file system and is reviewing files for any missing or expired documents. Currently personnel files are only maintained in paper form.

3.5 Salary change notification

The Board did not approve employee salary change notification forms. The former Director authorized wages for himself and 4 other employees higher than what was approved by the Board. No explanation was included on the salary change notification forms justifying the increase in pay and the forms were not approved by the Board. In a recorded interview the former Business Office Manager indicated she prepared the Director's Salary Change Notification form based on his statement that the Board approved a \$36.50 rate of pay.

Recommendation

The Board of Directors ensure salary changes are approved.

Carroll County Ambulance District
Follow-up Report on Audit Findings
Status of Findings

Status

Implemented

We reviewed salary change notification forms for 3 employees and noted that the Business Manager, the Director, and a Board member signed each form. The current Director's salary agreed with his approved contract, and no changes to his salary have been made since he was hired.

3.6 Mileage
reimbursements

Mileage reimbursements exceeded the amounts authorized by the Board. In addition, mileage reimbursement forms did not require the employee to indicate where they traveled, in order to ensure mileage claimed was reasonable.

Recommendation

The Board of Directors ensure mileage reimbursement forms are adequately detailed to indicate where the employee was traveling to and from, Board approved mileage forms are used, and mileage is reimbursed in accordance with district policy.

Status

Implemented

We reviewed the Board approved revised mileage reimbursement form and noted it includes space for the reason for travel and for the mileage reimbursement rate. However, the district has not reimbursed any mileage since the audit.

3.7 Personnel policies

The former Director revised district holiday, sick leave benefit, and bereavement leave policies without Board approval.

Recommendation

The Board of Directors ensure all personnel policy changes are approved.

Status

Implemented

The current Director indicated the Board approves any personnel policy change that results in a financial obligation to the district and he approves any other personnel policy changes. Both approvals are recorded in the meeting minutes. We reviewed a policy that was changed on April 25, 2025, by the Board and noted all the members had approved and signed off on the new policy. We also reviewed the employee policy manual that was last updated on April 30, 2025, and noted 3 policy changes. We reviewed the associated meeting minutes and noted the Director notified the Board of the changes and the Board approved the changes.

4. Disbursements

District disbursement policies and procedures needed improvement.

Carroll County Ambulance District
Follow-up Report on Audit Findings
Status of Findings

4.1 Procurement, Board review and approval, and unnecessary purchases

The district did not have a formal approval and bid policy, including procedures for sole source procurements or emergency purchases. Bids, or reasons for only obtaining one bid, were not documented for several purchases of goods or services during the period June 1, 2020, through March 31, 2021. In addition, the Board did not authorize significant purchases of medical supplies and some purchases of medical equipment were unnecessary.

Recommendation

The Board of Directors establish formal bidding policies and procedures, including documentation requirements regarding bid specifications, the bids or quotes received, and justification for bids selected. The Board should also document its approval of significant disbursements in meeting minutes and by signing or initialing the monthly list of bills, and ensure disbursements are a necessary use of public funds and provide a benefit to the district.

Status

Partially Implemented

The Board established a bidding policy; however, the policy does not address documenting bid specifications, the bids or quotes received, or the justification for bids selected. The Board documents its approval of all disbursements in the meeting minutes, but does not sign or initial the monthly list of bills as recommended. We reviewed one month of disbursements that were presented to the Board, and all appeared to be necessary uses of public funds that benefited the district.

4.2 Credit cards

The former Director made improper personal purchases using the district's credit card, and the district had not adopted formal credit card policies and procedures, including who had the authority to increase monthly credit card limits and appropriate use for credit cards. Between August and October 2020, the Director increased the monthly credit card limits from \$4,100 to \$20,000, and \$1,500 to \$5,000, without approval, which allowed greater purchasing authority.

Recommendation

The Board of Directors establish complete and detailed written credit card policies and procedures. In addition, periodically evaluate the need for each credit card issued and adjust employee credit card limits as deemed appropriate.

Status

Partially Implemented

The Board has established written credit card policies and procedures. However, according to the current Director, credit card limits have not been recently evaluated or adjusted.

5. Sunshine Law

Some closed meeting minutes did not include sufficient details of the topics discussed to demonstrate compliance with statutory provisions, and some

Carroll County Ambulance District
Follow-up Report on Audit Findings
Status of Findings

records of the votes taken were not documented. Additionally, some Board meeting minutes were not signed.

Recommendation

The Board of Directors ensure the purpose, contents, and other necessary information is included in closed meeting minutes; closed meeting votes are documented; and meeting minutes are signed.

Status

Implemented

We reviewed minutes for 2 meetings and noted the closed meeting minutes included sufficient details of the topics discussed, votes were documented in the minutes, and the minutes were signed by the Board Secretary.

6. Passwords

Employees shared passwords to access computer systems and were not required to keep passwords confidential. District personnel recorded passwords in a password book kept in the district safe. Three employees had access to the safe and the password book.

Recommendation

The Board of Directors require confidential passwords to prevent unauthorized access to district computers and data.

Status

Implemented

The Business Office Manager and the current Director indicated district employees now have confidential passwords for logging into their computer systems.

SCOTT FITZPATRICK
MISSOURI STATE AUDITOR

Honorable Mike Kehoe, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this compilation is to report the filing status for political subdivisions, other than cities, towns, and villages, required to file a financial report under Section 105.145, RSMo, and 15 CSR 40-3.030. Section 105.145, RSMo, provides that the State Auditor's Office shall notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Due to different filing requirements, a separate report is issued for cities, towns, and villages.

The filing status for the 57 political subdivisions required to file a financial report by April 30, 2025, is presented in summary on page 3 and by individual entity in Appendix A. We have not audited the information submitted and, accordingly, do not express an opinion or any other form of assurance on it.

This report also includes the updated filing status for political subdivisions, other than cities, towns, and villages, that filed a financial report in April 2025, after their filing deadline. The filing status for these 13 entities is presented in summary on page 3 and by individual entity in Appendixes B to D.

A handwritten signature in black ink, reading "Scott Fitzpatrick". The signature is written in a cursive, flowing style.

State Auditor

Monthly Report on Political Subdivision Filings

April 2025

Executive Summary

Executive Summary

Section 105.145, RSMo, requires the governing body of each political subdivision in the state, except counties and school districts, to prepare and remit to the state auditor an annual report of financial transactions. Rule 15 CSR 40-3.030 requires the financial report to be remitted to the state auditor within 6 months of the end of the political subdivision's fiscal year. The State Auditor's Office posts individual annual financial reports to its website. A searchable link is available at <http://auditor.mo.gov>.

Section 105.145, RSMo, requires the state auditor to notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Any political subdivision that fails to timely submit the annual financial report shall be subject to a fine of \$500 per day upon notice by the Department of Revenue.

This report includes the filing status for the 57 political subdivisions, other than cities, towns, and villages, with a fiscal year end of October 31, 2024. Cities, towns, and villages have additional filing requirements and their reporting status is included in a separate report. Of the 57 political subdivisions, 47 filed an annual financial report timely.

This report also includes the filing status for 13 political subdivisions, other than cities, towns, and villages, that filed their financial report in April 2025, after their filing deadline.

SCOTT FITZPATRICK
MISSOURI STATE AUDITOR

Honorable Mike Kehoe, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this compilation is to report the filing status for the municipalities required to file a financial report by April 30, 2025, under Section 105.145, RSMo, and 15 CSR 40-3.030 and, when applicable, an addendum under Section 479.359, RSMo, and 15 CSR 40-3.170 and a municipal court certification under Section 479.360, RSMo, and 15 CSR 40-3.180.

Section 105.145, RSMo, provides that the State Auditor's Office (SAO) shall notify the Department of Revenue if any city, town, or village fails to timely submit a copy of its annual financial report. Additionally, Section 479.362, RSMo, provides that the SAO shall notify the Department of Revenue whether counties, cities, towns, and villages have timely filed under Sections 479.359 and 479.360, RSMo. Due to different filing requirements, a separate report is issued for all other political subdivisions required to file a financial report.

The filing status for the 14 cities is presented in summary on page 3 and by individual entity in Appendix A. This compilation is limited to presenting information submitted to our office. We have not audited the information submitted and, accordingly, do not express an opinion or any other form of assurance on it.

This report includes the updated filing status for municipalities that filed at least one of the items (financial report, addendum, or certification) in April 2025, after their filing deadline. The filing status for these 17 cities and 3 villages is presented in summary on page 4 and by individual entity in Appendixes B to D.

A handwritten signature in black ink that reads "Scott Fitzpatrick". The signature is stylized with a large, flowing "S" and "F".

Scott Fitzpatrick
State Auditor

Monthly Report on Municipal Court and Revenue Filings

April 2025

Executive Summary

Executive Summary

Section 105.145, RSMo, requires the governing body of each political subdivision in the state, except counties and school districts, to prepare and remit to the state auditor an annual report of financial transactions. Rule 15 CSR 40-3.030 requires the financial report to be remitted to the state auditor within 6 months of the end of the political subdivision's fiscal year. The State Auditor's Office (SAO) posts individual annual financial reports to its website. A searchable link is available at <http://auditor.mo.gov>.

Section 105.145, RSMo, requires the state auditor to notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Any political subdivision that fails to timely submit the annual financial report shall be subject to a fine of \$500 per day upon notice by the Department of Revenue.

Section 479.359.1, RSMo, requires every county, city, town, and village to annually calculate the percentage of its annual general operating revenue received from fines, bond forfeitures, and court costs for minor traffic violations.

Section 479.359.3, RSMo, provides that all entities having a municipal court file an addendum to the annual financial report containing items listed in 15 CSR 40-3.170, which also provides the procedure to file an addendum.

Section 479.360, RSMo, requires every county, city, town, and village that has a municipal court to file, with its annual financial report, a certification of substantial compliance with 10 municipal court procedures. This certification must be signed by the municipal court judge. Rule 15 CSR 40-3.180 provides the procedure to file the municipal court certification. Any county, city, town, or village that does not have a municipal court judge is not required to file a certification.

Section 479.362, RSMo, requires the SAO to notify the Department of Revenue whether counties, cities, towns, or villages have timely filed their addendums under Section 479.359, RSMo, and certificates of substantial compliance under Section 479.360, RSMo. Section 479.368, RSMo, provides penalties for counties, cities, towns, and villages that fail to file, including loss of revenue and a mandatory ballot measure to dissolve the political subdivision.

This report includes the filing status for the 14 cities with a fiscal year end of October 31, 2024, whose financial report was due by April 30, 2025. Of the 14 municipalities, 10 filed the financial report timely. Of the 13 municipalities required to file an addendum, 8 filed timely. Of the 6 municipalities required to file a certification, 3 filed timely.

Monthly Report on Municipal Court and Revenue Filings
April 2025
Executive Summary

This report includes the filing status for 17 cities and 3 villages that filed at least one of the items (financial report, addendum, or certification) in April 2025, after their filing deadline. Of these municipalities, 14 filed an annual financial report, 9 filed an addendum, and 7 filed a certification.

SCOTT FITZPATRICK
MISSOURI STATE AUDITOR

To the County Commission
and
Officeholders of Bates County, Missouri

The Office of the State Auditor contracted for an audit of Bates County's financial statements for the year ended December 31, 2023, through the state Office of Administration, Division of Purchasing and Materials Management. The audit includes an audit of each county officer in fulfillment of our duties under Section 29.230.1, RSMo. A copy of this audit, performed by McBride, Lock & Associates, LLC, Certified Public Accountants, is attached.

A handwritten signature in black ink that reads "S. Fitzpatrick".

Scott Fitzpatrick
State Auditor

June 2025
Report No. 2025-034

Recommendations in the contracted audit of Bates County

2023-001	The Sheriff's office implement procedures to ensure that commissary sales funds in excess of current operating needs are turned over to the Treasurer for deposit into the Inmate Security Fund in compliance with RSMo 221.102.
2023-002	The Sheriff implement procedures to ensure that any balances of public funds held on deposit in excess of Federal Deposit Insurance Corporation (FDIC) coverage be adequately collateralized in accordance with state statute.
2023-003	The Senate Bill 40 Board adhere to the authorized spending limits as documented in the adopted budget or follow the appropriate procedures to amend the budget.
2023-004	The county file the required reports for the State and Local Fiscal Recovery Funds (SLFRF) program and implement procedures to ensure that future reports are filed in a timely manner.
Public Administrator's Collateralization of Bank Deposits	The Public Administrator implement procedures to ensure that any balances of funds held on deposit in excess of FDIC coverage be adequately collateralized.

INDEPENDENT AUDITOR'S REPORT

To the County Commission and
Officeholders of Bates County, Missouri

Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying financial statements of Bates County, Missouri, which comprise the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory Basis and the Statement of Fiduciary Receipts, Disbursements and Changes in Cash – Regulatory Basis as of December 31, 2023, and the related Statements of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis for the year then ended, and the related notes to the financial statements.

Unmodified Opinion on Regulatory Basis of Accounting

In our opinion, the financial statements referred to above present fairly, in all material respects, the cash balances of each fund of Bates County, Missouri, as of December 31, 2023, and their respective cash receipts and disbursements, and budgetary results for the year then ended, in accordance with the financial reporting provisions prescribed or permitted by Missouri Law as described in Note 1.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles section of our report, the financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of Bates County, Missouri, as of December 31, 2023, or the changes in financial position thereof for the year then ended.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Bates County, Missouri, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note 1, the financial statements are prepared by Bates County, Missouri on the basis of the financial reporting provisions prescribed or permitted by Missouri Law, which is a basis of accounting other than accounting principles generally accepted in the United States of America, to meet the requirements of Missouri Law. The effects on the financial statements of the variances between the regulatory basis of accounting described in Note 1 and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material and pervasive.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles prescribed or permitted by Missouri law. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Bates County, Missouri's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the

financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Bates County, Missouri's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise Bates County, Missouri's basic financial statements. The accompanying schedule of expenditures of federal awards, as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated August 22, 2024, on our consideration of Bates County, Missouri's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Bates County, Missouri's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Bates County, Missouri's internal control over financial reporting and compliance.

The accompanying Notes to the Financial Statements are an integral part of this statement.

BATES COUNTY, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2023

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Bates County, Missouri (“County”) is governed by a three-member board of commissioners. In addition to the three board members, there are ten elected Constitutional Officers: Assessor, Circuit Clerk, Collector/Treasurer, Coroner, County Clerk, Prosecuting Attorney, Public Administrator, Recorder, Sheriff, and Surveyor.

As discussed further in Note 1, these financial statements are presented using accounting practices prescribed or permitted by Missouri Law, which differ from accounting principles generally accepted in the United States of America, which would include all relevant Government Accounting Standards Board (GASB) pronouncements. The differences include use of a prescribed definition of the reporting entity and the cash basis of accounting.

A. Reporting Entity

The County’s operations include tax assessments and collections, state/county courts, county recorder, public safety, economic development, social and human services, and cultural and recreation services.

The financial statements referred to above include the primary government of Bates County, Missouri, which consists of all funds, organizations, institutions, agencies, departments, and offices that are considered to comprise the County’s legal entity under the regulatory basis of accounting. Financial data of other entities that may be considered to be component units of the County under generally accepted accounting principles is not included.

In accordance with the regulatory basis of accounting, the financial statements of the County do not include the activity of the Circuit Court, which is part of the Missouri court system and is considered to be a state function, including the operations of the Circuit Clerk (other than the portion that is funded by the General Revenue Fund) and all funds under their control.

B. Basis of Presentation

Governmental Funds – Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. A fund is considered a separate accounting entity with self-balancing accounts that comprise its assets, liabilities, net assets, revenues/receipts and expenditures/disbursements. The County’s funds are governmental funds. Governmental funds are those through which most governmental functions are financed. The County’s expendable financial resources are accounted for through governmental funds.

Fiduciary Funds – Fiduciary funds consist of custodial funds. Custodial funds account for assets held by the County as an agent of individuals, private organizations, taxing units, other governments and/or funds. Budgets are not adopted for the County’s custodial funds.

C. Basis of Accounting

The financial statements are prepared on the cash basis of accounting; accordingly, amounts are recognized when received or disbursed in cash. This basis of accounting differs from accounting principles generally accepted in the United States of America. Those principles require revenues to be recognized when they become available and measurable or when they are earned, and expenditures or expenses to be recognized when the related liabilities are incurred.

D. Budgets and Budgetary Accounting

The County follows these procedures in establishing the budgetary data reflected in the financial statements:

1. In accordance with Chapter 50, RSMo, the County's policy is to adopt a budget for each governmental fund.
2. On or before January 15, each elected officer and department director will transmit to the County Commission and County Clerk, who serves as budget officer, the budget request and revenue estimates for their office or department for the budget year.
3. The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning January 1. The proposed budget includes estimated revenues and proposed expenditures, on the cash basis of accounting, for all budgeted funds. Budgeting of appropriations is based upon an estimated fund balance at the beginning of the year as well as estimated revenues to be received.
4. State law requires that, at the individual fund level, budgeted expenditures not exceed budgeted revenues plus anticipated beginning fund balance.
5. A public hearing is conducted to obtain public comment on the budget. Prior to its approval by the County Commission, the budget document is available for public inspection, which usually takes place the third and fourth weeks of January.
6. Prior to February 1, the budget is legally enacted by a vote of the County Commission.
7. Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by a formal vote of the Commission. Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year.
8. Budgets are prepared and adopted on the cash basis of accounting.
9. Adoption of a formal budget is required by law. However, the County did not adopt a formal budget for the Prosecuting Attorney Bad Check Fund and Prosecuting Attorney Check Fee Fund in 2023.
10. Section 50.740, RSMo prohibits expenditures in excess of the approved budgets. Actual expenditures exceeded budgeted amounts for the Prosecuting Attorney Training and Senate Bill 40 Board Funds. Also, the expenditures of the Prosecuting Attorney Check Fee Fund exceeded budgetary authority to the extent that a formal budget was not adopted for this fund.

- E. Property taxes are based on the voter-approved tax levy applied to the real and personal assessed property values. Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on October 1 and tax bills are mailed to taxpayers in November, at which time they are payable. All unpaid property taxes become delinquent as of January 1 of the following year.

The assessed valuations of the tangible taxable property, included within the County's boundaries for the calendar year 2023, for purposes of taxation were:

Real Estate	\$ 176,263,353
Personal Property	75,304,662
Railroad and Utilities	41,758,388
Total	<u>\$ 293,326,403</u>

For calendar year 2023, the County Commission approved a tax levy per \$100 of assessed valuation of tangible taxable property as follows:

General Revenue	\$ 0.2677
Senate Bill 40 Board	0.1367
Senior Services Board	0.0489

In addition to the levy above, the County receives 5% of Road & Bridge taxes levied and collected by each township in the County.

F. Cash Deposits and Cash Equivalents

Deposits and cash equivalents are stated at cost, which approximates market. Cash balances for all the County Treasurer funds are pooled and invested to the extent possible. Interest earned from these balances is allocated to each of the funds based on the funds' average daily cash balance. Cash equivalents may include repurchase agreements and any other instruments with an original maturity of ninety days or less. State law authorizes the deposit of funds in banks and trust companies or the investment of funds in bonds or treasury certificates of the United States, other interest bearing obligations guaranteed as to both principal and interest by the United States, or any instrumentality thereof, certain municipal bonds authorized by Missouri statute, or time certificates of deposit. Funds in the form of cash on deposit or time certificates of deposit are required to be insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized by authorized investments held in the County's name at third-party banking institutions. Details of these cash and cash equivalents balances are presented in Note 2.

G. Interfund Activity

During the course of operations, interfund activity occurs for purposes of providing supplemental funding, reimbursements for goods provided or services rendered, or short and long-term financing. Interfund activities are reported as "transfers in" by the recipient fund and as "transfers out" by the disbursing fund. However, interfund reimbursements have been eliminated from the financial statements in order that reimbursed expenditures are reported only in the funds incurring the costs.

2. CASH AND CASH EQUIVALENTS

The County maintains a cash and temporary investment pool that is available for use by all funds. Each fund's portion of this pool is displayed on the financial statements within the "Cash and Cash Equivalents" caption. Cash and cash equivalents include deposits and short-term investments with maturities that are less than ninety days.

Custodial Credit Risk - Deposits – Custodial credit risk is the risk that in the event of a bank failure, a government's deposits may not be returned to it. Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits. At December 31, 2023, the County had the following cash and cash equivalent balances:

	<u>Carrying Value</u>	<u>Bank Balance</u>	<u>FDIC Coverage</u>
Cash and Cash Equivalents - Governmental Funds	\$ 8,288,586	\$ 8,731,910	\$ 557,905
Cash and Cash Equivalents - Fiduciary Funds	15,310,832	12,795,141	1,320,847

The remainder of the balances not covered by FDIC deposit insurance at December 31, 2023 were covered by collateral held at the Federal Reserve Bank and the County's safekeeping bank agent in the County's name or by a line of credit held by the County or by its agent in the County's name, except for \$78,580 at December 31, 2023 held by the Sheriff in one bank that was not collateralized and \$22,767 held by the Public Administrator for one ward in one bank in excess of FDIC coverage.

3. COUNTY EMPLOYEES' RETIREMENT PLANS

A. County Employees' Retirement Fund (CERF)

The County Employees' Retirement Fund was established by the State of Missouri to provide pension benefits for County officials and employees.

1) Plan Description

The Retirement Fund is a cost-sharing multiple employer defined benefit pension plan covering any county elective or appointed officer or employee whose performance requires the actual performance of duties during not less than one thousand (1,000) hours per calendar year in each county of the state, except for any city not within a county and any county of the first classification having a charter form of government. It does not include county prosecuting attorneys covered under Sections 56.800 to 56.840, RSMo, circuit clerks and deputy circuit clerks covered under the Missouri State Retirement System, county sheriffs covered under Sections 57.949 to 57.997, RSMo and certain personnel not defined as an employee per Section 50.1000(8), RSMo. The Fund was created by an act of the legislature and was effective August 28, 1994.

The general administration and the responsibility for the proper operation of the Fund and the investment of the Fund are vested in a board of directors of eleven persons.

2) Pension Benefits

Beginning January 1, 1997, employees attaining the age of sixty-two years may retire with full benefits with eight or more years of creditable service. The monthly benefit for County Employees is determined by selecting the highest benefit calculated using three different prescribed formulas (flat-dollar formula, targeted replacement ratio formula, and prior plan's formula). A death benefit of \$10,000 will be paid to the designated beneficiary of every active member upon his or her death.

Upon termination of employment, any member who is vested is entitled to a deferred annuity, payable at age sixty-two. Early retirement is at age fifty-five. Any member with less than eight years of creditable service forfeits all rights in the Fund but will be paid his or her accumulated contributions.

The County Employees' Retirement Fund issues audited financial statements. Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, 2121 Schotthill Woods Drive, Jefferson City, MO 65101, by calling 1-877-632-2373, or by the following website, www.mocerf.org.

3) Funding Policy

In accordance with State Statutes, the Plan is partially funded through various fees collected by counties and remitted to the CERF. Further, a contribution to CERF of 2% of annual salary is required for eligible employees hired before February 2002, while a contribution of 6% of annual salary is required of employees hired after February 2002. During 2023, the County collected and remitted to CERF employee withholdings and fees collected of \$453,314 for the year then ended.

B. Prosecuting Attorney Retirement Fund

In accordance with Section 56.807, RSMo, the County contributes monthly to the Missouri Office of Prosecution Services for deposit to the credit of the Missouri Prosecuting Attorneys and Circuit Attorney Retirement System Fund. Once remitted, the State of Missouri is responsible for administration of this plan. The County contributed \$10,659 for the year ended December 31, 2023.

4. POST EMPLOYMENT BENEFITS

The County does not provide post-employment benefits except as mandated by the Consolidated Omnibus Budget Reconciliation Act (COBRA). The requirements established by COBRA are fully funded by employees who elect coverage under the Act, and no direct costs are incurred by the County.

5. CLAIMS, COMMITMENT AND CONTINGENCIES

A. Compensated Absences

The County provides employees with up to five weeks of paid vacation based upon the number of years of continuous service. Only regular full-time employees who have completed their three-month introductory period are eligible to receive vacation time. Vacation time must be used in its entirety within the year that it is earned, and unused time is forfeited at year end. Vacation time is not paid out if the employment terminates. Regular full-time employees earn one day of sick leave for each calendar month of employment up to a maximum of 45 days. Unused sick leave is not paid out upon termination.

B. Federal and State Assisted Programs

The County has received proceeds from several federal and state grants. Periodic audits of these grants, when performed, could result in the disallowance of certain costs. Accordingly, such audits could result in the refund of grant monies to the grantor agencies. Management believes that any required refunds, if determined necessary, will be immaterial and, therefore, no provision has been made in the accompanying financial statements for the potential refund of grant monies.

C. Litigation

The County was involved in pending litigation as of the audit report date. The County's management and legal counsel anticipate that potential claims, if any, against the County resulting from such litigation would not have a material effect on the financial position of the County.

6. RISK MANAGEMENT

The County is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters, and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

The County is a member of the Missouri Association of Counties Self-Insured Workers' Compensation Trust. The County purchases workers' compensation insurance through this fund, a non-profit corporation established for the purpose of providing insurance coverage for Missouri counties. The Fund is self-insured up to \$2,000,000 per occurrence and is reinsured up to the statutory limit through excess insurance.

7. LONG-TERM DEBT

The County had the following long-term debt outstanding as of December 31, 2023:

- A. On March 7, 2018, the county entered into a certificates of participation (COPS) agreement for \$6,580,000. Principal and interest payments are due April 15 and interest only payments are due every October 15, with variable rates ranging from 1.75% to 4%. In 2022, the COPS were

refinanced and \$4,825,000 of series 2022 certificates were issued. The following reflects the future payments due on the refinancing certificates:

Fiscal Year Ending December 31,	Principal	Interest	Total
2024	\$ 500,000	\$ 109,050	\$ 609,050
2025	535,000	98,700	633,700
2026	535,000	88,000	623,000
2027	530,000	74,700	604,700
2028	525,000	58,875	583,875
2029-2031	1,700,000	77,100	1,777,100
Totals	<u>\$ 4,325,000</u>	<u>\$ 506,425</u>	<u>\$ 4,831,425</u>

- B. On October 29, 2018, the County entered into a lease purchase agreement for an armored officer transport truck. The lease was in the amount of \$87,000 with five annual payments of \$19,809. The agreement has an interest rate of 5.791%. The final payment was made in February 2023.

On December 14, 2020, the County entered into a lease purchase agreement for the purchase of 10 Chevrolet Tahoe's for the Sheriff's department. The lease is in the amount of \$319,500 with four annual payments of \$85,433. The agreement has an interest rate of 3.189%.

Fiscal Year Ending December 31,	Principal	Interest	Total
2024	\$ 82,778	\$ 2,655	\$ 85,433
Totals	<u>\$ 82,778</u>	<u>\$ 2,655</u>	<u>\$ 85,433</u>

The following schedule shows changes in long-term debt during the year ended December 31, 2023:

Description	Balance 12/31/2022	Additions	Payments	Balance 12/31/2023	Interest Paid
COPS	\$4,825,000	\$ -	\$(500,000)	\$4,325,000	\$119,050
Officer Transport Truck	18,719	-	(18,719)	-	1,090
10 Sheriff Tahoe's	162,984	-	(80,206)	82,778	5,227

8. CHANGE IN REPORTING ENTITY

The County has changed the definition of the reporting entity at January 1, 2023 to include the Prosecuting Attorney Bad Check, DEA Forfeiture, and Prosecuting Attorney Check Fee Funds and to reclassify the Deputy Wage Supplement Fund as a fiduciary fund. This change had the effect of increasing the County's cash balances at January 1, 2023 by \$2,442.

9. SUBSEQUENT EVENTS

The County has evaluated events subsequent to December 31, 2023 to assess the need for potential recognition or disclosure in the financial statements. Such events were evaluated through August 22, 2024, the date the financial statements were available to be issued.

COMPLIANCE SECTION

McBRIDE, LOCK & ASSOCIATES, LLC

CERTIFIED PUBLIC ACCOUNTANTS

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL
REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT
OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS**

To the County Commission and
Officeholders of Bates County, Missouri

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Bates County, Missouri which comprise the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory Basis and the Statement of Fiduciary Receipts, Disbursements and Changes in Cash – Regulatory Basis as of December 31, 2023, and the related Statements of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis for the year then ended, and the related notes to the financial statements, which collectively comprise Bates County, Missouri's basic financial statements and have issued our report thereon dated August 22, 2024.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Bates County, Missouri's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Bates County, Missouri's internal control. Accordingly, we do not express an opinion on the effectiveness of Bates County, Missouri's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements, on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the County's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses, or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether Bates County, Missouri's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed two instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and are described in the accompanying schedule of findings and questioned costs as items 2023-001, 2023-002 and 2023-003.

Bates County, Missouri's Response to Findings

Government Auditing Standards requires the auditor to perform limited procedures on Bates County, Missouri's responses to the findings identified in our audit and described in the accompanying schedule of findings and questioned costs. Bates County, Missouri's responses were not subjected to the other auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the responses.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

CERTIFIED PUBLIC ACCOUNTANTS

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

To the County Commission and
Officeholders of Bates County, Missouri

Report on Compliance for Each Major Federal Program

Qualified Opinion

We have audited Bates County, Missouri's compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of Bates County, Missouri's major federal programs for the year ended December 31, 2023. Bates County, Missouri's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, except for the noncompliance described in the Basis for Qualified Opinion section of our report, Bates County, Missouri complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended December 31, 2023.

Basis for Qualified Opinion

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of Bates County, Missouri and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of Bates County, Missouri's compliance with the compliance requirements referred to above.

Matter Giving Rise to Qualified Opinion on Major Program

As described in the accompanying schedule of findings and questioned costs, Bates County, Missouri did not comply with the requirements regarding the Coronavirus State and Local Fiscal Recovery Funds as described in finding 2023-003 for Reporting. Compliance with such requirements is necessary, in our opinion, for Bates County, Missouri to comply with the requirements applicable to that program.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to Bates County, Missouri's federal programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on Bates County, Missouri's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about Bates County, Missouri's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding Bates County, Missouri's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of Bates County, Missouri's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of Bates County, Missouri's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Other Matters

Government Auditing Standards requires the auditor to perform limited procedures on Bates County, Missouri's response to the noncompliance findings identified in our compliance audit described in the accompanying schedule of findings and questioned costs. Bates County, Missouri's response was not subjected to the other auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

Report on Internal Control over Compliance

Our consideration of internal control over compliance was for the limited purposes described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance and therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as discussed below, we did identify a certain deficiency in internal control over compliance that we consider to be a material weakness.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance. We consider the deficiency in internal control over compliance described in the accompanying schedule of findings and questioned costs as item 2023-004 to be a material weakness.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

Government Auditing Standards requires the auditor to perform limited procedures on Bates County, Missouri's response to the internal control over compliance findings identified in our compliance audit described in the accompanying schedule of findings and questioned costs. Bates County, Missouri's response was not subjected to the other auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

See accompanying Notes to the Schedule of Expenditures of Federal Awards

BATES COUNTY, MISSOURI
NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
YEAR ENDED DECEMBER 31, 2023

NOTE A – BASIS OF PRESENTATION

The accompanying Schedule of Expenditures of Federal Awards (SEFA) includes the federal award activity of Bates County, Missouri for the year ended December 31, 2023. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the financial statements.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures are reported on the cash basis of accounting. Such expenditures are recognized following the cost principles contained in Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance), wherein certain types of expenditures are not allowed or are limited as to reimbursement. The County has elected not to use the 10 percent de minimis indirect cost rate as allowed under the Uniform Guidance.

NOTE C – SUBRECIPIENTS

The County did not pass any federal awards through to subrecipients during the year ended December 31, 2023.

BATES COUNTY, MISSOURI
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
YEAR ENDED DECEMBER 31, 2023

SECTION I – SUMMARY OF AUDITOR’S RESULTS

Financial Statements:

Type of auditor’s report issued on whether the financial statements
audited were prepared in accordance with GAAP: Adverse

Type of auditor’s report issued on whether the financial statements
were prepared in accordance with the regulatory basis: Unmodified

The special purpose framework used as a basis of accounting was not required by state law.

Internal Control Over Financial Reporting:

- Material weakness(es) identified? Yes X No
- Significant deficiencies identified that are
not considered to be material weaknesses? Yes X None Reported
- Noncompliance material to financial
statements noted? X Yes No

Federal Awards:

Internal Control Over Major Programs:

- Material weakness(es) identified? X Yes No
- Significant deficiencies identified that are
not considered to be material weaknesses? Yes X None Reported

Type of Auditor’s Report Issued on Compliance
For Major Programs: Qualified

Any audit findings disclosed that are required to be
reported in accordance with Uniform Guidance
section 200.516? X Yes No

Identification of Major Programs:

<u>Assistance Listing Number(s)</u>	<u>Name of Federal Program or Cluster</u>
21.027	Coronavirus State and Local Fiscal Recovery Funds

Dollar Threshold Used to Distinguish Between
Type A and Type B Programs: \$750,000

Auditee Qualified as low-risk: Yes X No

SECTION II – FINANCIAL STATEMENTS FINDINGS

MATERIAL WEAKNESSES IN INTERNAL CONTROL

None

SIGNIFICANT INTERNAL CONTROL DEFICIENCIES

None reported

ITEMS OF NONCOMPLIANCE

2023-001: Sheriff Turnover of Commissary Receipts

Criteria: Section 221.102, RSMo states, “Each county jail shall keep revenues received from its canteen or commissary in a separate account. The acquisition cost of goods sold and other expenses shall be paid from this account. A minimum amount of money necessary to meet cash flow needs and current operating expenses may be kept in this account. The remaining funds from sales of each canteen or commissary shall be deposited into the “Inmate Prisoner Detainee Security Fund” and shall be expended for purposes provided in subsection 3 of section 488.5026.”

Condition: The Sheriff’s office receives funds from sales of jail commissary items. The commissary account is maintained by a third-party provider who separately tracks the financial activity for the inmate trust and commissary accounts. The total account balance as of December 31, 2023 was \$279,443, including \$24,199 reserved for current detainees and \$54,283 retained as unclaimed funds from previous detainee reserves. The remaining balance represents funds from commissary sales that have not been turned over to the Treasurer for deposit into the Inmate Security Fund. The Sheriff did turnover funds to the Treasurer on a monthly basis in 2023, but the amount retained is in excess of current operating needs.

Cause: The commissary bank account has accumulated funds from commissary revenues received in 2023 and previous years. The Sheriff has not deposited all remaining funds from commissary sales in excess of the amount necessary to meet current operating expenses into the Inmate Security Fund.

Effect: The Sheriff’s office has not fully turned over funds to the Treasurer for deposit into the Inmate Security Fund in accordance with state statute, leading to an excess accumulation of funds on hand.

Recommendation: We recommend the Sheriff’s office implement procedures to ensure that commissary sales funds in excess of current operating needs are turned over to the Treasurer for deposit into the Inmate Security Fund in compliance with RSMo 221.102.

County’s Response: We are working with our commissary company to determine the correct amount of funds to turn over to the County. This will be done within the next couple weeks.

Auditor’s Evaluation: The response is appropriate to correct the concern.

2023-002: Sheriff's Collateralization of Bank Deposits

Criteria: Public funds on deposit that exceed FDIC deposit insurance coverage limits must be secured by pledged collateral or other securities. Section 30.270, RSMo lists the types of collateral that are considered legally acceptable.

Condition: The Sheriff's office had a total bank balance at Adrian Bank of \$328,580 as of December 31, 2023. \$250,000 was covered by FDIC deposit insurance, leaving an uninsured balance of \$78,580.

Cause: The bank balances have accumulated in excess of FDIC coverage due to the Sheriff's office not completely turning over funds from commissary sales. See finding 2023-001.

Effect: Inadequate collateralization of public funds on deposit could result in the loss of funds in the event of bank failure.

Recommendation: We recommend the Sheriff implement procedures to ensure that any balances of public funds held on deposit in excess of FDIC coverage be adequately collateralized in accordance with state statute.

County's Response: Once the required monies in the commissary account are turned over to the Treasurer's Office then our accounts will be below the FDIC insured amounts. We now have a procedures in place to prevent the build up of these funds and will be turned over to the County monthly.

Auditor's Evaluation: The response is appropriate to correct the concern.

2023-003: Budgetary Compliance

Criteria: State statutes prohibit expenditures in excess of approved budgets and require the preparation of a formal budget for all County funds.

Condition: The Senate Bill 40 Board's actual expenditures exceeded budgeted expenditures by \$170,464 in 2023.

Cause: Expenditures were approved in excess of budgeted amounts and the budgets were not amended.

Effect: Budgetary controls are significant to the proper management and custodianship of county funds. Compliance with statutory requirements related to budgets will improve controls over county funds and help maintain the integrity of the budget process.

Recommendation: We recommend the Senate Bill 40 Board adhere to the authorized spending limits as documented in the adopted budget or follow the appropriate procedures to amend the budget.

Senate Bill 40 Board's Response: No response was provided by the Senate Bill 40 Board.

SECTION III – FEDERAL AWARD FINDINGS AND QUESTIONED COSTS

2023-004: Internal Control Over Reporting Requirements

Federal Grantor: U.S. Department of the Treasury

Federal Assistance Listing Number: 21.027

Program Title: Coronavirus State and Local Fiscal Recovery Funds (SLFRF)

Award Year: 2023

Questioned Costs: None

Criteria: The SLFRF Compliance and Reporting Guidance requires recipients to submit a one-time Interim Report by August 31, 2021 or 60 days after receiving funding, and annual Project and Expenditure Reports to the Department of the Treasury (Treasury) by April 30 of each year.

Condition: The County has not submitted the one-time interim report and has not submitted annual Project and Expenditure reports to Treasury in accordance with SLFRF reporting requirements. This is a repeat of finding 2022-001 noted in the prior audit report.

Cause: Per the County Commissioner's office, the County neglected to submit the required reports to Treasury.

Effect: The County is not in compliance with the reporting requirements of the SLFRF program.

Recommendation: We recommend the County file the required reports for the SLFRF program and implement procedures to ensure that future reports are filed in a timely manner.

County's Response: I have tried numerous times to get into the Treasury portal to locate the forms to report how much money went to who. I have even had Treasury personnel on the phone talking me through to get the forms and they couldn't get them.

All I can do is keep trying to locate the forms to upload the information. We have all the applications for the funds accounted for and the money accounted for. It's just uploading the information that has been the problem.

We have until 31 December to allocate the funds and the funds have to be used by 2026.

Auditor's Evaluation: The County should review the Treasury's Compliance and Reporting Guidance for State and Local Fiscal Recovery Funds and ensure that reports are filed as required.

MANAGEMENT'S RESPONSE TO AUDITOR'S FINDINGS:

- **Summary Schedule of Prior Audit Findings**
 - **Corrective Action Plan**

CERTIFIED PUBLIC ACCOUNTANTS

November 7, 2024

To the County Commission
Bates County, Missouri

We have audited the regulatory basis financial statements of Bates County, Missouri for the year ended December 31, 2023. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards (and, if applicable, *Government Auditing Standards* and the Uniform Guidance), as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated May 22, 2024. Professional standards also require that we communicate to you the following information related to our audit.

Significant Audit Matters

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by Bates County, Missouri are described in Note 1 to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during 2023. We noted no transactions entered into by the County during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. Since the County is reporting on the cash basis of accounting, there are no particularly sensitive estimates affecting the financial statements.

The financial statement disclosures are neutral, consistent, and clear.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. There were no misstatements detected during the audit.

Disagreements with Management

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated November 7, 2024.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the County's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the County's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

In planning and performing our audit of the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory Basis, the Statement of Fiduciary Receipts, Disbursements and Changes in Cash – Regulatory Basis, and the related Statements of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis – All Governmental Funds as of and for the years ended December 31, 2023, we considered Bates County's internal control in order to determine our auditing procedures for the purpose of expressing an opinion on the financial statements and not to provide assurance on internal control. We issued our report on our consideration of internal control over financial reporting dated November 7, 2024.

Public Administrator's Collateralization of Bank Deposits

We reviewed the summary of cash balances for ward bank accounts held by the Public Administrator as of December 31, 2023. There was one ward bank account with an account balance on deposit of \$272,767. \$250,000 was covered by FDIC deposit insurance, leaving an uninsured balance of \$22,767.

Funds on deposit that exceed FDIC deposit insurance coverage limits should be secured by pledged collateral or other securities to avoid the risk of loss in the event of bank failure.

We recommend the Public Administrator implement procedures to ensure that any balances of funds held on deposit in excess of FDIC coverage be adequately collateralized.

Other Matters

We were engaged to report on the Schedule of Expenditures of Federal Awards, which accompany the financial statements but are not Required Supplementary Information. With respect to this supplementary information, we made certain inquiries of management and evaluated the form, content, and methods of preparing the information to determine that the information complies with accounting principles prescribed or permitted by Missouri law, the method of preparing it has not changed from the prior period, and the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the supplementary information to the underlying accounting records used to prepare the financial statements or to the financial statements themselves.

Restriction on Use

This information is intended solely for the information and use of the County Commission and management of Bates County, Missouri and is not intended to be, and should not be, used by anyone other than these specified parties.

Very truly yours,

(Original Signed by McBride, Lock & Associates, LLC)

SCOTT FITZPATRICK
MISSOURI STATE AUDITOR

To the County Commission
and
Officeholders of Barton County, Missouri

The Office of the State Auditor contracted for an audit of Barton County's financial statements for the 2 years ended December 31, 2023, through the state Office of Administration, Division of Purchasing and Materials Management. The audit includes an audit of each county officer in fulfillment of our duties under Section 29.230.1, RSMo. A copy of this audit, performed by McBride, Lock & Associates, LLC, Certified Public Accountants, is attached.

A handwritten signature in black ink that reads "Scott Fitzpatrick". The signature is written in a cursive, flowing style.

Scott Fitzpatrick
State Auditor

June 2025
Report No. 2025-033

Recommendations in the contracted audit of Barton County

2023-001	The county implement procedures to ensure a financial statement is published on an annual basis in accordance with state statutes and that documentation is maintained.
2023-002	The county adhere to the authorized spending limits as documented in the adopted county budget or follow the appropriate procedures to amend the budget. Additionally, we recommend the county ensure compliance with state statutes by adopting a budget for each county fund.
2023-003	The county implement internal controls to ensure that the schedule of expenditures of federal awards (SEFA) is completed and accurately states the expenditures of federal awards of the county each year.
2023-004	The county implement procedures to ensure that all required reports are properly submitted to the U.S. Department of the Treasury to ensure compliance with reporting requirements of the State and Local Fiscal Recovery Funds (SLFRF) program and that documentation of compliance is maintained.
Reconciliation Between the Budget and Treasurer's Settlement	The county implement procedures to ensure that actual financial activity presented in the county budget documents is accurately stated and agrees to the county's accounting records.

INDEPENDENT AUDITOR'S REPORT

To the County Commission and
Officeholders of Barton County, Missouri

Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying financial statements of Barton County, Missouri, which comprise the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory Basis and the Statement of Fiduciary Receipts, Disbursements and Changes in Cash – Regulatory Basis as of December 31, 2022 and 2023, and the related Comparative Statements of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis for the years then ended, and the related notes to the financial statements.

Unmodified Opinion on Regulatory Basis of Accounting

In our opinion, the financial statements referred to above present fairly, in all material respects, the cash balances of each fund of Barton County, Missouri, as of December 31, 2022 and 2023, and their respective cash receipts and disbursements, and budgetary results for the years then ended, in accordance with the financial reporting provisions prescribed or permitted by Missouri law as described in Note 1.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles section of our report, the financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of Barton County, Missouri, as of December 31, 2022 and 2023, or the changes in financial position thereof for the years then ended.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Barton County, Missouri, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note 1, the financial statements are prepared by Barton County, Missouri on the basis of the financial reporting provisions prescribed or permitted by Missouri law, which is a basis of accounting other than accounting principles generally accepted in the United States of America, to meet the requirements of Missouri law. The effects on the financial statements of the variances between the regulatory basis of accounting described in Note 1 and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material and pervasive.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles prescribed or permitted by Missouri law. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Barton County, Missouri's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Barton County, Missouri's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise Barton County, Missouri's basic financial statements. The accompanying schedule of expenditures of federal awards, as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 19, 2024, on our consideration of Barton County, Missouri's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Barton County, Missouri's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Barton County, Missouri's internal control over financial reporting and compliance.

BARTON COUNTY, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2022 and 2023

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Barton County, Missouri (“County”) is governed by a three-member board of commissioners. In addition to the three board members, there are nine elected Constitutional Officers: Assessor, Circuit Clerk, Collector/Treasurer, Coroner, County Clerk, Prosecuting Attorney, Public Administrator, Recorder and Sheriff.

As discussed further in Note 1, these financial statements are presented using accounting practices prescribed or permitted by Missouri law, which differ from accounting principles generally accepted in the United States of America, which would include all relevant Governmental Accounting Standards Board (GASB) pronouncements. The differences include use of a prescribed definition of the reporting entity and the cash basis of accounting.

A. Reporting Entity

The County’s operations include tax assessments and collections, state/county courts, county recorder, public safety, economic development, social and human services, and cultural and recreation services.

The financial statements referred to above include the primary government of Barton County, Missouri, which consists of all funds, organizations, institutions, agencies, departments, and offices that are considered to comprise the County’s legal entity under the regulatory basis of accounting. Financial data of other entities that may be considered to be component units of the County under generally accepted accounting principles is not included.

In accordance with the regulatory basis of accounting, the financial statements of the County do not include the activity of the Circuit Court, which is part of the Missouri court system and is considered to be a state function, including the operations of the Circuit Clerk (other than the portion that is funded by the General Revenue Fund) and all funds under their control.

B. Basis of Presentation

Governmental Funds – Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. A fund is considered a separate accounting entity with self-balancing accounts that comprise its assets, liabilities, net assets, revenues/receipts and expenditures/disbursements. The County’s funds are governmental funds. Governmental funds are those through which most governmental functions are financed. The County’s expendable financial resources are accounted for through governmental funds.

Fiduciary Funds – Fiduciary funds consist of custodial funds. Custodial funds account for assets held by the County as an agent of individuals, private organizations, taxing units, other governments and/or funds. Budgets are not adopted for the County’s custodial funds.

C. Basis of Accounting

The financial statements are prepared on the cash basis of accounting; accordingly, amounts are recognized when received or disbursed in cash. This basis of accounting differs from accounting principles generally accepted in the United States of America. Those principles require revenues to be recognized when they become available and measurable or when they are earned, and expenditures or expenses to be recognized when the related liabilities are incurred.

D. Budgets and Budgetary Accounting

The County follows these procedures in establishing the budgetary data reflected in the financial statements:

1. In accordance with Chapter 50, RSMo, the County's policy is to adopt a budget for each governmental fund.
2. On or before January 15, each elected officer and department director will transmit to the County Commission and County Clerk, who serves as budget officer, the budget request and revenue estimates for their office or department for the budget year.
3. The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning January 1. The proposed budget includes estimated revenues and proposed expenditures, on the cash basis of accounting, for all budgeted funds. Budgeting of appropriations is based upon an estimated fund balance at the beginning of the year as well as estimated revenues to be received.
4. State law requires that, at the individual fund level, budgeted expenditures not exceed budgeted revenues plus anticipated beginning fund balance.
5. A public hearing is conducted to obtain public comment on the budget. Prior to its approval by the County Commission, the budget document is available for public inspection, which usually takes place the third and fourth weeks of January.
6. Prior to February 1, the budget is legally enacted by a vote of the County Commission.
7. Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by a formal vote of the Commission. Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year.
8. Budgets are prepared and adopted on the cash basis of accounting.
9. Adoption of a formal budget is required by law. However, the County did not adopt a formal budget for the Opioid Settlement Fund in 2022 and the Federal Forfeiture Fund in 2022 and 2023.
10. Section 50.740, RSMo prohibits expenditures in excess of the approved budgets. Actual expenditures exceeded budgeted amounts for the following funds:

	2023	2022
Law Enforcement Sales Tax	✓	N/A
Law Enforcement K-9	N/A	✓

- E. Property taxes are based on the voter-approved tax levy applied to the real and personal assessed property values. Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on October 1 and tax bills are mailed to taxpayers in November, at which time they are payable. All unpaid property taxes become delinquent as of January 1 of the following year.

The assessed valuations of the tangible taxable property included within the County's boundaries for the calendar years 2023 and 2022, for purposes of taxation were:

	2023	2022
Real Estate	\$ 155,121,415	\$ 149,823,805
Personal Property	62,147,550	66,919,061
Railroad and Utilities	34,192,805	30,505,612
Total	<u>\$ 251,461,770</u>	<u>\$ 247,248,478</u>

For calendar years 2023 and 2022, the County Commission approved a tax levy per \$100 of assessed valuation of tangible taxable property as follows:

	2023	2022
General Revenue	\$ 0.1089	\$ 0.1140
Senate Bill 40 Board	0.2000	0.2000

F. Cash Deposits and Cash Equivalents

Deposits and cash equivalents are stated at cost, which approximates market. Cash balances for all the County Treasurer funds are pooled and invested to the extent possible. Interest earned from these balances is allocated to each of the funds based on the funds' average daily cash balance. Cash equivalents may include repurchase agreements and any other instruments with an original maturity of ninety days or less. State law authorizes the deposit of funds in banks and trust companies or the investment of funds in bonds or treasury certificates of the United States, other interest bearing obligations guaranteed as to both principal and interest by the United States, or any instrumentality thereof, certain municipal bonds authorized by Missouri statute, or time certificates of deposit. Funds in the form of cash on deposit or time certificates of deposit are required to be insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized by authorized investments held in the County's name at third-party banking institutions. Details of these cash and cash equivalent balances are presented in Note 2.

G. Interfund Activity

During the course of operations, interfund activity occurs for purposes of providing supplemental funding, reimbursements for goods provided or services rendered, or short and long-term financing. Interfund activities are reported as "transfers in" by the recipient fund and

as "transfers out" by the disbursing fund. However, interfund reimbursements have been eliminated from the financial statements in order that reimbursed expenditures are reported only in the funds incurring the costs.

2. CASH AND CASH EQUIVALENTS

The County maintains a cash and temporary investment pool that is available for use by all funds. Each fund's portion of this pool is displayed on the financial statements within the "Cash and Cash Equivalents" caption. Cash and cash equivalents include deposits and short-term investments with maturities that are less than ninety days.

Custodial Credit Risk - Deposits – Custodial credit risk is the risk that in the event of a bank failure, a government's deposits may not be returned to it. Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits. At December 31, 2023, the County had the following cash and cash equivalent balances:

	Carrying Value	Bank Balance	FDIC Coverage
Cash and Cash Equivalents - Governmental Funds	\$ 5,648,517	\$ 5,693,655	\$ 413,438
Cash and Cash Equivalents - Fiduciary Funds	\$ 8,144,529	\$ 7,888,465	\$ 565,972

At December 31, 2022, the County had the following cash and cash equivalent balances:

	Carrying Value	Bank Balance	FDIC Coverage
Cash and Cash Equivalents - Governmental Funds	\$ 5,369,703	\$ 5,508,582	\$ 332,142
Cash and Cash Equivalents - Fiduciary Funds	\$ 9,019,025	\$ 8,762,438	\$ 468,797

The remainder of the balances not covered by FDIC deposit insurance at December 31, 2023 and 2022 were covered by collateral held at the Federal Reserve Bank and the County's safekeeping bank agent in the County's name or by a line of credit held by the County or by its agent in the County's name.

3. COUNTY EMPLOYEES' RETIREMENT PLANS

A. County Employees' Retirement Fund (CERF)

The County Employees' Retirement Fund was established by the State of Missouri to provide pension benefits for County officials and employees.

1) Plan Description

The Retirement Fund is a cost-sharing multiple employer defined benefit pension plan covering any county elective or appointed officer or employee whose performance requires the actual performance of duties during not less than one thousand (1,000) hours per calendar year in each county of the state, except for any city not within a county and any

county of the first classification having a charter form of government. It does not include county prosecuting attorneys covered under Sections 56.800 to 56.840, RSMo, circuit clerks and deputy circuit clerks covered under the Missouri State Retirement System, county sheriffs covered under Sections 57.949 to 57.997, RSMo and certain personnel not defined as an employee per Section 50.1000(8), RSMo. The Fund was created by an act of the legislature and was effective August 28, 1994.

The general administration and the responsibility for the proper operation of the Fund and the investment of the Fund are vested in a board of directors of eleven persons.

2) Pension Benefits

Beginning January 1, 1997, employees attaining the age of sixty-two years may retire with full benefits with eight or more years of creditable service. The monthly benefit for County Employees is determined by selecting the highest benefit calculated using three different prescribed formulas (flat-dollar formula, targeted replacement ratio formula, and prior plan's formula). A death benefit of \$10,000 will be paid to the designated beneficiary of every active member upon his or her death.

Upon termination of employment, any member who is vested is entitled to a deferred annuity, payable at age sixty-two. Early retirement is at age fifty-five. Any member with less than eight years of creditable service forfeits all rights in the Fund but will be paid his or her accumulated contributions.

The County Employees' Retirement Fund issues audited financial statements. Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, 2121 Schotthill Woods Drive, Jefferson City, MO 65101, by calling 1-877-632-2373, or by the following website, www.mocerf.org.

3) Funding Policy

In accordance with State Statutes, the Plan is partially funded through various fees collected by counties and remitted to the CERF. Further, a contribution to CERF of 2% of annual salary is required for eligible employees hired before February 2002, while a contribution of 6% of annual salary is required of employees hired after February 2002. The County collected and remitted to CERF employees' withholdings and fees collected of \$216,277 and \$188,764, respectively, for years ended December 31, 2023 and 2022.

B. Prosecuting Attorney Retirement Fund

In accordance with Section 56.807, RSMo, the County contributes monthly to the Missouri Office of Prosecution Services for deposit to the credit of the Missouri Prosecuting Attorneys and Circuit Attorney Retirement System Fund. Once remitted, the State of Missouri is responsible for administration of this plan. The County contributed \$11,628 and \$3,366, respectively, for the years ended December 31, 2023 and 2022.

C. Other Retirement Plan

Barton County has a voluntary 457(b) plan which is paid by a deduction from employee's salary. These contributions qualify under the Internal Revenue Code and are tax exempt. Employee contributions collected and remitted by the County for the years ended December 31, 2023 and 2022 were \$11,588 and \$12,956, respectively.

4. POST EMPLOYMENT BENEFITS

The County does not provide post-employment benefits except as mandated by the Consolidated Omnibus Budget Reconciliation Act (COBRA). The requirements established by COBRA are fully funded by employees who elect coverage under the Act, and no direct costs are incurred by the County.

5. CLAIMS, COMMITMENT AND CONTINGENCIES

A. Compensated Absences

After a 60-day probationary period, the County provides employees $\frac{1}{2}$ day of sick leave for each complete calendar month of employment through their anniversary date. After the first anniversary, full-time employees earn one day of sick leave per month. Full-time employees may accumulate sick leave to a maximum of 30 days. Upon termination, full-time employees are not compensated for sick time.

After a 60-day probationary period, full-time employees shall earn $\frac{1}{2}$ day of vacation leave for each complete calendar month of employment through their anniversary date. After a full-time employee reaches their one-year anniversary date, full-time employees earn one day of vacation leave per month up to 1.5 days per month depending on length of employment, with a maximum accumulation of 15 days. Vacation leave must be taken as time off, no pay will be issued in lieu of vacation leave.

B. Federal and State Assisted Programs

The County has received proceeds from several federal and state grants. Periodic audits of these grants, when performed, could result in the disallowance of certain costs. Accordingly, such audits could result in the refund of grant monies to the grantor agencies. Management believes that any required refunds, if determined necessary, will be immaterial and, therefore, no provision has been made in the accompanying financial statements for the potential refund of grant monies.

6. RISK MANAGEMENT

The County is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters, and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

The County is a member participant in a public entity risk pool which is a corporate and political body. The purpose of the risk pool is to provide liability protection to participating public entities,

their officials, and employees. Annual contributions are collected based on actuarial projections which are intended to produce sufficient funds to pay losses and expenses. Should contributions not produce sufficient funds to meet its obligations, the risk pool is empowered with the ability to make special assessments. Members are jointly and severally liable for all claims against the risk pool.

The County is a member of the Missouri Rural Services Workers' Compensation Insurance Trust. The County purchases workers' compensation insurance through this fund, a non-profit corporation established for the purpose of providing insurance coverage for Missouri counties. The Fund is self-insured up to \$2,000,000 per occurrence and is reinsured up to the statutory limit through excess insurance.

7. LONG-TERM DEBT

In 2012, the County, along with the City of Lamar, the City of Lamar Heights, and the Barton County Ambulance District, entered into a direct loan agreement with the Missouri Transportation Finance Corporation for \$1,543,580 for the purpose of funding improvements to Route 71 at 30th Road and 1st Street. Each of the participating entities are responsible for providing their annual share of the loan payment to the County in a timely manner to remit payment on the loan. The loan was originally payable in ten annual installments of \$173,383 with interest payable at 2.170%. Due to additional principal payments made, as of December 31, 2019 the remainder of the loan was payable in three annual installments of \$59,663 with interest payable at 2.170%. The final payment was made on August 1, 2022.

The following schedule shows changes in long-term debt during the year ended December 31, 2022:

Description	Balance 12/31/2021	Additions	Payments	Balance 12/31/2022	Interest Paid
MTFC Road Improvements	\$ 58,401	\$ -	\$ (58,401)	\$ -	\$ 1,262

8. SUBSEQUENT EVENTS

The County has evaluated events subsequent to December 31, 2023 to assess the need for potential recognition or disclosure in the financial statements. Such events were evaluated through November 19, 2024, the date the financial statements were available to be issued.

CERTIFIED PUBLIC ACCOUNTANTS

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the County Commission and
Officeholders of Barton County, Missouri

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Barton County, Missouri which comprise the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory Basis and the Statement of Fiduciary Receipts, Disbursements and Changes in Cash – Regulatory Basis as of December 31, 2022 and 2023, and the related Comparative Statements of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis for the years then ended, and the related notes to the financial statements, which collectively comprise Barton County, Missouri's basic financial statements and have issued our report thereon dated November 19, 2024.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Barton County, Missouri's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Barton County, Missouri's internal control. Accordingly, we do not express an opinion on the effectiveness of Barton County, Missouri's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements, on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the County's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses, or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether Barton County, Missouri's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and which are described in the accompanying schedule of findings and questioned costs as items 2023-001 and 2023-002.

Barton County, Missouri's Responses to Findings

Government Auditing Standards requires the auditor to perform limited procedures on Barton County, Missouri's responses to the findings identified in our audit and described in the accompanying schedule of findings and questioned costs. Barton County, Missouri's responses were not subjected to the other auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the responses.

Purpose of this Report

This report's purpose is to describe the scope of our internal control and compliance testing and not to give an opinion on the effectiveness of the entity's internal control or compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

CERTIFIED PUBLIC ACCOUNTANTS

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

To the County Commission and
Officeholders of Barton County, Missouri

Report on Compliance for Each Major Federal Program

Qualified Opinion

We have audited Barton County, Missouri's compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of Barton County, Missouri's major federal programs for the years ended December 31, 2022 and 2023. Barton County, Missouri's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, except for the noncompliance described in the Basis for Qualified Opinion section of our report, Barton County, Missouri complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the years ended December 31, 2022 and 2023.

Basis for Qualified Opinion

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of Barton County, Missouri and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of Barton County, Missouri's compliance with the compliance requirements referred to above.

Matter Giving Rise to Qualified Opinion on Major Program

As described in the accompanying schedule of findings and questioned costs, Barton County, Missouri did not comply with the requirements regarding the Coronavirus State and Local Fiscal Recovery Funds as described in finding 2023-004 for Reporting. Compliance with such requirements is

necessary, in our opinion, for Barton County, Missouri to comply with the requirements applicable to that program.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to Barton County, Missouri's federal programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on Barton County, Missouri's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about Barton County, Missouri's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding Barton County, Missouri's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of Barton County, Missouri's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of Barton County, Missouri's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Other Matters

Government Auditing Standards requires the auditor to perform limited procedures on Barton County, Missouri's response to the noncompliance findings identified in our compliance audit described in the accompanying schedule of findings and questioned costs. Barton County, Missouri's response was not subjected to the other auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

Report on Internal Control over Compliance

Our consideration of internal control over compliance was for the limited purposes described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance and therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as discussed below, we did identify certain deficiencies in internal control over compliance that we consider to be material weaknesses.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance. We consider the deficiencies in internal control over compliance described in the accompanying schedule of findings and questioned costs as items 2023-003 and 2023-004 to be material weaknesses.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

Government Auditing Standards requires the auditor to perform limited procedures on Barton County, Missouri's responses to the internal control over compliance findings identified in our compliance audit described in the accompanying schedule of findings and questioned costs. Barton County, Missouri's responses were not subjected to the other auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the responses.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

See accompanying Notes to the Schedule of Expenditures of Federal Awards

BARTON COUNTY, MISSOURI
NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
YEARS ENDED DECEMBER 31, 2022 AND 2023

NOTE A – BASIS OF PRESENTATION

The accompanying Schedule of Expenditures of Federal Awards (SEFA) includes the federal award activity of Barton County, Missouri for the years ended December 31, 2023 and 2022. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the financial statements.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures are reported on the cash basis of accounting. Such expenditures are recognized following the cost principles contained in Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance), wherein certain types of expenditures are not allowed or are limited as to reimbursement. The County has elected not to use the 10 percent de minimis indirect cost rate as allowed under the Uniform Guidance.

NOTE C – SUBRECIPIENTS

The County did not pass any federal awards through to subrecipients during the years ended December 31, 2023 and 2022.

BARTON COUNTY, MISSOURI
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
YEARS ENDED DECEMBER 31, 2022 AND 2023

SECTION I – SUMMARY OF AUDITOR’S RESULTS

Type A and Type B Programs: \$750,000

Auditee Qualified as low-risk: Yes X No

SECTION II – FINANCIAL STATEMENTS FINDINGS

MATERIAL WEAKNESSES IN INTERNAL CONTROL

None

SIGNIFICANT INTERNAL CONTROL DEFICIENCIES

None reported

ITEMS OF NONCOMPLIANCE

2023-001: Published Financial Statements

Criteria: In accordance with Section 50.815, RSMo, “On or before June thirtieth of each, year the county commission of each county of the first, second, third or fourth classification shall, with the assistance of the county clerk or other officer responsible for the preparation of the financial statement, prepare and publish in some newspaper of general circulation published in the county, as provided under section 493.050, a financial statement of the county for the year ending the preceding December thirty-first... The county clerk or other officer responsible for the preparation of the financial statement shall preserve the same, shall provide an electronic copy of the data used to create the financial statement without charge to any newspaper requesting a copy of such data, and shall cause the same to be available for inspection...”

Condition: Upon request, the published financial statements for 2022 and 2023 could not be provided for review to determine the County’s compliance with state statutes.

Cause: The County did not maintain adequate documentation to support the publishing of the financial statements for the years 2022 or 2023.

Effect: The County could not demonstrate their compliance with state statutes regarding the annual publishing of a financial statement in a local newspaper.

Recommendation: We recommend the County implement procedures to ensure a financial statement is published on an annual basis in accordance with state statutes and that documentation is maintained.

County’s Response: As a new County Clerk I was not aware of this requirement. I will comply in the future.

Auditor’s Evaluation: The County Clerk should consider implementing written procedures covering the responsibilities of the office so that subsequent holders of the position will be aware of the requirements.

2023-002: Budgetary Compliance

Criteria: State statutes prohibit expenditures in excess of approved budgets and require the preparation of a formal budget for all County funds.

Condition: Actual expenditures exceeded budgeted expenditures for the Law Enforcement K-9 Fund in 2022 by \$624 and the Law Enforcement Sales Tax Fund in 2023 by \$67,123. Formal budgets were

not prepared for the Opioid Settlement Fund in 2022 and the Federal Forfeiture Fund in 2022 and 2023.

Cause: Expenditures were approved in excess of budgeted amounts and the budgets were not amended. Additionally, the County did not prepare formal budgets for all County funds.

Effect: Budgetary controls are significant to the proper management and custodianship of county funds. Compliance with statutory requirements related to budgets will improve controls over county funds and help maintain the integrity of the budget process.

Recommendation: We recommend the County adhere to the authorized spending limits as documented in the adopted County budget or follow the appropriate procedures to amend the budget. Additionally, we recommend the County ensure compliance with state statutes by adopting a budget for each County fund.

County's Response: The County Commission and the County Clerk will work together more closely with the Sheriff to make sure that the department doesn't go over budget again.

Auditor's Evaluation: The response is appropriate to correct the concern.

SECTION III – FEDERAL AWARD FINDINGS AND QUESTIONED COSTS

2023-003: Schedule of Expenditures of Federal Awards

Federal Grantor: U.S. Department of Transportation, U.S. Department of the Treasury, U.S. Department of Health and Human Services, U.S. Department of Homeland Security

Pass-Through Grantor: Missouri Department of Transportation, Missouri Department of Health and Senior Services, Missouri Department of Public Safety

Federal Assistance Listing Number: 20.205, 21.027, 93.569, 97.042

Program Title: Highway Planning and Construction; Coronavirus State and Local Fiscal Recovery Funds; Community Services Block Grant; Emergency Management Performance Grants

Pass-through Entity Identifying Number: BRO-R006(22), EMK-2023-EP-00004-005

Award Year: 2023

Questioned Costs: None

Criteria: 2 CFR 200.510(b) requires auditees to prepare a schedule of expenditures of federal awards (SEFA) which must report total federal awards expended during the audit period. At a minimum, the schedule must include: expenditures by individual federal program, name of the pass-through entity and identifying number for awards not received directly from the federal government, and the total amount provided to subrecipients from each federal program.

Condition: The schedule of expenditures of federal awards reported by the County in the 2024 annual budget document reported \$0 of expenditures of federal funds for 2023. However, audit procedures

documented \$385,552 of federal award expenditures for the year.

Cause: The County Clerk was unaware of the need to prepare the SEFA in the County budget document.

Effect: The SEFA presented for audit did not accurately reflect the County's actual expenditures of federal awards for the year ended December 31, 2023.

Recommendation: We recommend the County implement internal controls to ensure that the SEFA is completed and accurately states the expenditures of federal awards of the County each year.

County's Response: These were grants started with the previous administration that I had no knowledge of and could find no paperwork for.

Auditor's Evaluation: The County Clerk should consider implementing written procedures covering the responsibilities of the office so that subsequent holders of the position will be aware of the requirements.

2023-004: Internal Control Over Reporting Requirements

Federal Grantor: U.S. Department of the Treasury

Pass-Through Grantor: N/A

Federal Assistance Listing Number: 21.027

Program Title: Coronavirus State and Local Fiscal Recovery Funds

Pass-through Entity Identifying Number: N/A

Award Year: 2022 and 2023

Questioned Costs: None

Criteria: The SLFRF Compliance and Reporting Guidance requires recipients to submit a one-time Interim Report by August 31, 2021 or 60 days after receiving funding, and annual Project and Expenditures Reports to Treasury by April 30 of each year.

Condition: The County could not provide documentation to support that the one-time interim report or annual Project and Expenditures Reports have been properly and timely submitted to Treasury in accordance with SLFRF reporting requirements.

Cause: The County did not maintain adequate documentation to support the submission of the required reports.

Effect: The County risks being out of compliance with SLFRF program reporting requirements if the proper reports are not timely and accurately submitted to Treasury.

Recommendation: We recommend the County implement procedures to ensure that all required

reports are properly submitted to the U.S. Department of the Treasury to ensure compliance with reporting requirements of the SLFRF program and that documentation of compliance is maintained.

County's Response: This is another grant started under the previous administration. I was listed on the paperwork but had zero control over any part of it. I am currently working with NACO (National Association of Counties) to get up to date and compliant with all reporting.

Auditor's Evaluation: The response is appropriate to correct the concern.

MANAGEMENT'S RESPONSE TO AUDITOR'S FINDINGS:

BARTON COUNTY, MISSOURI SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS

In accordance with the Uniform Guidance, this section reports the follow-up on action taken by Barton County, Missouri on the applicable findings in the prior audit report issued for the two years ended December 31, 2019 and 2018.

2019-001: During the audit, it was noted the County was not in compliance with Missouri budgetary statute Chapter 50, RSMo. The following fund had actual expenditures which exceeded the budgeted expenditures in 2019 and 2018: Law Enforcement Sales Tax Fund.

Status: Not resolved. See finding 2023-002.

2019-002: Documentation of the County's internal controls has not been prepared.

Status: Resolved.

2019-003: During our audit, we noted there is no formal fraud risk assessment in place.

Status: Resolved.

CERTIFIED PUBLIC ACCOUNTANTS

November 19, 2024

To the County Commission
Barton County, Missouri

We have audited the regulatory basis financial statements of Barton County, Missouri for the years ended December 31, 2022 and 2023. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards (and, if applicable, *Government Auditing Standards* and the Uniform Guidance), as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated May 20, 2024. Professional standards also require that we communicate to you the following information related to our audit.

Significant Audit Matters

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by Barton County, Missouri are described in Note 1 to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during 2022 and 2023. We noted no transactions entered into by the County during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. Since the County is reporting on the cash basis of accounting, there are no particularly sensitive estimates affecting the financial statements.

The financial statement disclosures are neutral, consistent, and clear.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. There were no misstatements detected during the audit.

Disagreements with Management

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated November 19, 2024.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the County's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the County's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

In planning and performing our audit of the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory Basis, the Statement of Fiduciary Receipts, Disbursements and Changes in Cash – Regulatory Basis, and the related Comparative Statements of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis – All Governmental Funds as of and for the years ended December 31, 2022 and 2023, we considered Barton County's internal control in order to determine our auditing procedures for the purpose of expressing an opinion on the financial statements and not to provide assurance on internal control. We issued our report on our consideration of internal control over financial reporting dated November 19, 2024. However, during our audit we became aware of matters that are opportunities for strengthening internal controls.

Reconciliation Between the Budget and Treasurer's Settlement

The 2022 and 2023 actual financial activity reported on the Treasurer's Settlements and the amounts reported in the County's 2023 and 2024 annual budget documents did not reconcile to each other. Discrepancies between the actual ending fund balances per the 2023 budget document and the balances

at December 31, 2022 per the Treasurer's Settlement were as follows:

<u>Fund</u>	<u>Balance per County Budget</u>	<u>Balance per Treasurer</u>
General Revenue	650,937	657,211
Special Road and Bridge	2,952,340	2,962,799
Assessment	3,405	3,444
Recorder's	14,709	14,761
Administrative Handling Cost	35,895	36,022
Law Enforcement Sales Tax	44,580	44,761
Law Enforcement Training	3,833	3,847
Election	62,181	62,400
911 Emergency Service	285,760	286,770
Collector's Tax Maintenance	128,113	128,565
Law Enforcement K-9	2,008	2,029
Sheriff's Revolving	18,105	18,169
Drug Abuse Resistance Education	3,941	3,955
Inmate Security	29,067	29,176
Law Enforcement Restitution	10,006	10,041
American Rescue Plan Act	956,876	960,480
Opioid Settlement	29,772	29,877

Discrepancies between the actual ending fund balances per the 2023 budget document and the balances at December 31, 2022 per the Treasurer's Settlement were as follows:

<u>Fund</u>	<u>Balance per County Budget</u>	<u>Balance per Treasurer</u>
General Revenue	524,116	523,690
Special Road and Bridge	3,599,418	3,599,415
Assessment	3,555	3,855
Law Enforcement Sales Tax	(103)	55
911 Emergency Service	58,719	310,449

The County Clerk did not use the ending fund balances on the 2022 budget as the beginning fund balances on the 2023 budget. Additionally, the County Clerk stated the actual 2023 expenditures of the 911 Emergency Service Fund included amounts that were also reported in the General Revenue Fund.

Improper balances on the budget documents could lead to the County inappropriately budgeting expenditures in excess of actual funds available. We recommend the County implement procedures to ensure that actual financial activity presented in the County budget documents is accurately stated and agrees to the County's accounting records.

Other Matters

We were engaged to report on the schedule of expenditures of federal awards, which accompanies the financial statements but is not Required Supplementary Information. With respect to this supplementary information, we made certain inquiries of management and evaluated the form, content, and methods of preparing the information to determine that the information complies with the financial reporting provisions prescribed or permitted by Missouri law, the method of preparing it has not changed from the prior period, and the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the supplementary information to the underlying accounting records used to prepare the financial statements or to the financial statements themselves.

Restriction on Use

This information is intended solely for the information and use of the County Commission and management of Barton County, Missouri and is not intended to be, and should not be, used by anyone other than these specified parties.

Very truly yours,

(Original Signed by McBride, Lock & Associates, LLC)

Report No. 2025-032

June 2025

auditor.mo.gov

Scott Fitzpatrick
Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of the Department of Health and Senior Services - Child and Adult Care Food Program and Summer Food Service Program

Monitoring Process and Policies Do Not Adequately Identify and Recoup Ineligible Claims

Current Bureau of Community Food and Nutrition Assistance (BCFNA) monitoring and termination procedures do not adequately monitor, or safeguard against, potentially ineligible reimbursement payments. Currently, a sponsor that participates in both the Child and Adult Care Food Program (CACFP) and the Summer Food Service Program (SFSP) could be terminated in one of those programs for violations of program regulations, but not have program claims in the other program reviewed for propriety or potentially recouped. A review of claims for 6 sponsors terminated from the CACFP totaling \$1,711,752 (33 percent of total reimbursements the sponsors received) notes the BCFNA determined there were \$1,702,597 in overpayments (99.5 percent payment error rate) for the claims reviewed. These same 6 sponsors were paid reimbursements of \$18,248,441 from the SFSP over the same timeframe. A review of 4 claims for sponsors terminated from the SFSP totaling \$724,212 (34 percent of total reimbursements the sponsors received) notes the BCFNA determined there were \$515,213 in overpayments (71 percent payment error rate) for the claims reviewed. These same 4 terminated facilities were also paid reimbursements of \$678,169 from the CACFP over that timeframe. In all cases, even though the BCFNA terminated the sponsors in both programs, it only reviewed the prior reimbursement claims for one program and not both to determine if similar eligibility issues existed in those claims. The identification of deficiencies in a sponsor's procedures in one program increases the risk of additional deficiencies in other claims and in other programs. In addition, untimely monitoring and termination procedures can lead to sponsors inappropriately receiving additional reimbursements during the termination process that are not reviewed for propriety or potentially recouped. A review of monitoring visits noted one facility that failed multiple monitoring visits with 100 percent overpayments that was allowed to continue to submit potentially ineligible claims without timely follow up.

Reimbursement Controls in Need of Improvement

Controls over CACFP and SFSP reimbursements are in need of improvement. Edit checks of a sponsor's capacity, to detect sponsors making claims that exceed their capacity, are not always based on verified information. During the COVID-19 pandemic, capacity edit checks, including the number of allowable meals, were based on sponsor-provided information during the application process and were not verified by the BCFNA for reasonableness or accuracy. Without reliable edit checks for capacity, based upon verified information, that trigger review by the BCFNA, a sponsor would have the ability to submit overstated program reimbursements.

Inappropriate Use of Other
USDA Programs Not
Reported

A review of facilities that were monitored multiple times by the BCFNA during the 3 fiscal years ended June 30, 2023, noted 3 facilities were inappropriately using Supplemental Nutrition Assistance Program (SNAP), Temporary Assistance for Needy Families (TANF), or Special Supplemental Nutrition Assistance for Women, Infants, Children (WIC) funds to pay for groceries while also seeking reimbursement from the CACFP and the SFSP, which is a violation of federal regulations. DHSS officials indicated they had reported the WIC payments to personnel in the Bureau of WIC and Nutrition Services within the Division of Community and Public Health, but had no documentation of their notification of the SNAP and TANF payments.

In the areas audited, the overall performance of this entity was **Fair**.*

*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

- Excellent:** The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.
- Good:** The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.
- Fair:** The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.
- Poor:** The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

SCOTT FITZPATRICK
MISSOURI STATE AUDITOR

Honorable Mike Kehoe, Governor
and
Members of the General Assembly
and
Sarah Willson, Director
Department of Health and Senior Services
Jefferson City, Missouri

We have audited certain operations of the Department of Health and Senior Services, Child and Adult Care Food Program (CACFP) and Summer Food Service Program (SFSP), in fulfillment of our duties under Chapter 29, RSMo. The scope of our audit included, but was not necessarily limited to, the 3 years ended June 30, 2023. The objectives of our audit were to:

1. Evaluate the department's internal controls over significant management and financial functions related to the CACFP and SFSP, along with evaluating the internal controls of program providers.
2. Evaluate the economy and efficiency of the department's management practices and operations pertaining to oversight and monitoring of program providers.
3. Evaluate the department's procedures related to program terminations.

We conducted this performance audit in accordance with generally accepted government auditing standards. Those standards require that we plan and perform the audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides a reasonable basis for our findings and conclusions based on our audit objectives.

For the areas audited, we identified (1) deficiencies in internal controls, (2) the need for improvement in management practices and procedures, and (3) the need for improvement in program termination procedures.

The accompanying Management Advisory Report presents our findings arising from our audit of the Department of Health and Senior Service's Child and Adult Care Food Program and Summer Food Service Program.

A handwritten signature in black ink that reads "S. Fitzpatrick".

Scott Fitzpatrick
State Auditor

Department of Health and Senior Services - Child and Adult Care Food Program & Summer Food Service Program

Introduction

Background

The Child and Adult Care Food Program (CACFP) is a federal program administered by the Food and Nutrition Service (FNS) of the United States Department of Agriculture (USDA) to states in order to provide a daily subsidized food service for children in child care facilities and disabled adults in adult daycare. Similarly, the Summer Food Service Program (SFSP) provides funding for meals served by nonprofit organizations, school districts, and public agencies to children during the summer.

The Missouri Department of Health and Senior Services - Bureau of Community Food and Nutrition Assistance (BCFNA) administers the CACFP and SFSP through contracts with child and adult care centers and sponsors of centers that provide meals to eligible children and adults under their care. The facilities/sponsors determine eligibility of each participant for free or reduced price meals, and are reimbursed at fixed rates for the number and type of meals served.

The CACFP and the SFSP are closely related and share the same computer system, many of the same internal control systems, and sponsors participating in both programs. For the federal fiscal year ended September 30, 2023, 15 percent of the CACFP sponsors in Missouri were also enrolled in SFSP and conversely 42 percent of the SFSP sponsors were also involved in CACFP. Program sponsors can be daycares, school districts, non-profit organizations, and public agencies. Program sponsors can have numerous sites under their purview and are responsible for ensuring sites are operated in compliance with program guidelines. For federal fiscal year 2023, the CACFP had a total of 779 sponsors, while the SFSP had a total of 271 sponsors.

During the COVID-19 pandemic, the federal government expanded the CACFP and the SFSP to levels not previously seen. Reimbursements for the SFSP program spiked due to the program's reimbursement window being expanded to cover meals not just in the summer, but also throughout the year with children being out of school due to the pandemic. Also, the National School Lunch program was not used during the pandemic, with those recipients using the SFSP program instead. In addition, COVID waivers by the federal government relaxed program requirements, including allowing states to reduce monitoring, and relaxed meal service and meal pattern requirements. Enrolled sponsors must indicate on their applications the meals they will be serving (breakfast, snack, lunch, dinner) and the individuals to be served. Prior to COVID-19 waivers, this information would then be verified by BCNFA staff with a periodic monitoring visit to the facility. However, during the COVID-19 pandemic, facilities were allowed by federal waivers to serve multiple meals at once in a drive-thru style system, making the monitoring of the number of meals allowed more difficult. In addition, due to the pandemic, the BCNFA relied on remote monitoring rather than on-site monitoring, which further increased the difficulty in monitoring sponsor activity. Ultimately, the above changes to the program increased the number

Department of Health and Human Services - Child and Adult Care Food Program and Summer Food Service Program Introduction

of individuals served, and increased the number of meals served and reimbursed, while decreasing onsite monitoring. See Figure 1 for total claims data for both programs for the 5 federal fiscal years ended September 30, 2023.

Program sponsors indicted for fraudulent claims

In October 2023, the Executive Director of New Heights Community Resource Center, a CACFP and SFSP sponsor, was indicted by a federal grand jury on charges related to submitting false program claims and making false representations to the DHSS. According to the indictment, New Heights requested reimbursement for approximately 6 million meals for children between January 2019 and January 2022, when records showed New Heights had only purchased enough food and milk to serve less than half of those meals over that same timeframe. Based on these alleged fraudulent claims, New Heights and its Executive Director received approximately \$11 million from the program that they were not entitled to receive. From October 2019 through February 2022 New Heights Community Resource Center received approximately \$16.5 million in SFSP reimbursements, and approximately \$3 million in CACFP reimbursements. New Heights was terminated from both programs in June 2022.

In October 2024, the owner of Sisters of Lavender Rose, a CACFP and SFSP sponsor, was indicted by a federal grand jury on charges related to submitting false program claims and making false representations to the DHSS. According to the indictment, Sisters of Lavender Rose requested reimbursement for approximately 860,000 meals; however, only a portion of the food necessary to serve that number of meals was actually purchased. The owner also indicated to the DHSS she was preparing food for children at an address that did not service children, but was actually a nightclub. From October 2019 through April 2022, Sisters of Lavender Rose received

Department of Health and Human Services - Child and Adult Care Food
Program and Summer Food Service Program
Introduction

approximately \$1.2 million in SFSP reimbursements, and approximately \$1.5 million in CACFP reimbursements. Sisters of Lavender Rose was terminated from both programs in June 2022.

Scope and Methodology

The scope of our audit included, but was not necessarily limited to, the 3 fiscal years ended June 30, 2023.

To evaluate the BCNFA's internal controls over significant management and financial functions related to the CACFP and SFSP, we reviewed written policies and procedures and interviewed various BCNFA personnel. We obtained an understanding of internal controls that are significant to the audit objectives and planned and performed audit procedures to assess the internal controls to the extent necessary to address the audit objectives. In addition, to evaluate the internal controls of program providers, we made site visits to 15 providers to observe procedures and confirm those observations were consistent with reimbursement claims.

To evaluate the economy and efficiency of management practices and operations pertaining to oversight and monitoring of CACFP providers, we performed a test of monitoring reviews for 70 sponsors that had more than 2 monitoring visits during our audit period. The sample results cannot be projected to the population. We tested the BCFNA's monitoring documentation and compared procedures to written policies and procedures. There were a total of 779 sponsors in the CACFP and 271 sponsors in the SFSP for fiscal year 2023.

To evaluate the procedures related to program terminations, we reviewed relevant written policies and procedures related to terminations and obtained files from the BCFNA for testing. We reviewed a sample of 10 terminations, 6 in the CACFP and 4 in the SFSP, to determine if they were performed in compliance with the written policies and procedures. This sample was selected judgmentally to ensure inclusion of certain terminations, and cannot be projected to the population. There were a total of 20 terminations for cause across both programs during our audit period (see Appendix A). We also tested the BCFNA's monitoring procedures to determine whether termination decisions were appropriate and in accordance with policy. In addition, we reviewed the total amount of claim reimbursements each terminated facility received from each program.

Department of Health and Human Services - Child and Adult Care Food Program and Summer Food Service Program

Management Advisory Report - State Auditor's Findings

1. Monitoring Process and Policies Do Not Adequately Identify and Recoup Ineligible Claims

Current Bureau of Community Food and Nutrition Assistance (BCFNA) monitoring and termination procedures do not adequately monitor, or safeguard against, potentially ineligible reimbursement payments. Currently, a sponsor that participates in both the Child and Adult Care Food Program (CACFP) and the Summer Food Service Program (SFSP) could be terminated in one of those programs for violations of program regulations, but not have program claims in the other program reviewed for propriety or potentially recouped. In addition, untimely monitoring and termination procedures can lead to sponsors inappropriately receiving additional reimbursements during the termination process that are not reviewed for propriety or potentially recouped.

1.1 Termination and recoupment procedures

Current termination processes and procedures do not ensure program activity from a sponsor terminated in one of the food programs is reviewed for allowability or eligibility in the other program. As a result, the BCFNA is not identifying and pursuing potential recoupment of ineligible reimbursements when issues are identified. Based on DHSS data, approximately 15 percent of sponsors participating in the CACFP are also participating in the SFSP. DHSS officials indicated the USDA does not require them to review a terminated sponsor's claims from another program.

For the 3 state fiscal years ended June 30, 2023,¹ there were 15 terminations for cause from the CACFP and 5 terminations for cause from the SFSP. We reviewed documentation of 6 CACFP terminations and 4 SFSP terminations. 7 of the 10 terminated sponsors reviewed participated in both programs, but reimbursements to those same sponsors from the other program were not reviewed by DHSS despite the terminations in the program tested. Terminations in both programs were completed timely.

The 6 sponsors terminated from the CACFP reviewed were reimbursed a total of \$5,139,291 for the 3 state fiscal years ended June 30, 2023. We reviewed claims for these sponsors totaling \$1,711,752 (33 percent). The BCFNA determined there were \$1,702,597 in overpayments (99.5 percent payment error rate) for the claims reviewed. These same 6 sponsors were paid reimbursements of \$18,248,441 from the SFSP over the same timeframe. Subsequent to the CACFP termination proceedings, the BCFNA also terminated the sponsors in SFSP, but did not review any of the prior SFSP reimbursement claims for these terminated sponsors to determine if similar eligibility issues existed in those claims.

The 4 sponsors terminated from the SFSP reviewed were reimbursed a total of \$2,120,692 for the 3 state fiscal years ended June 30, 2023. We reviewed

¹ Test period includes activity outside of our 3 years ended June 30, 2023, audit scope due to timing differences in federal and state fiscal years.

Department of Health and Human Services - Child and Adult Care Food
Program and Summer Food Service Program
Management Advisory Report - State Auditor's Findings

claims for these sponsors totaling \$724,212 (34 percent). The BCFNA determined there were \$515,213 in overpayments (71 percent payment error rate) for the claims reviewed. These same 4 terminated facilities were also paid reimbursements of \$678,169 from the CACFP over that timeframe. Subsequent to the SFSP termination, the BCFNA also terminated the sponsors in CACFP, but did not review any of the prior CACFP reimbursement claims for these terminated sponsors to determine if similar eligibility issues existed in those claims.

In total, for the 3 state fiscal years ended June 30, 2023, there were 15 sponsors terminated from the CACFP for cause. Those sponsors were paid \$7,285,524 in CACFP reimbursements over that timeframe before being terminated. In total, those sponsors were also paid \$19,209,488 from the SFSP that was not monitored or reviewed before they were terminated. Similarly, there were 5 sponsors terminated from the SFSP for cause. Those sponsors were paid \$2,294,449 in SFSP reimbursements over that timeframe before being terminated. In total, those sponsors were also paid \$1,102,345 from CACFP that was not monitored or reviewed before they were terminated.

DHSS officials stated the issues identified in this finding were exacerbated by the significant COVID waivers and pandemic conditions that no longer exist. DHSS officials further stated the additional monitoring suggested in this finding is not required by federal program guidance, and that the monitoring being performed already exceeds federal requirements. In addition, DHSS officials stated the pursuit of recoupment of identified overpayments would result in sponsors leaving the program or potentially keep potential sponsors from participating, and ultimately reduce the number of meals being provided to the program's target population. They further indicated that attempting to recoup ineligible reimbursements would also potentially result in the closure of needed daycare facilities, which would not be a desirable outcome.

Standards for Internal Control in the Federal Government (also known as the Green Book), published by the federal Government Accountability Office (GAO), provides an overall framework for establishing and maintaining an effective internal control system. According to the Green Book, management should identify, analyze and respond to risks,² consider the potential for fraud when responding to risks,³ establish and operate monitoring activities to monitor the internal control system, and evaluate results⁴ and address

² *Standards for Internal Control in the Federal Government*, GAO, paragraph 7.01.

³ *Standards for Internal Control in the Federal Government*, GAO, paragraph 8.01.

⁴ *Standards for Internal Control in the Federal Government*, GAO, paragraph 16.01.

Program and Summer Food Service Program
Management Advisory Report - State Auditor's Findings

deficiencies on a timely basis.⁵ In addition, 2 CFR Section 200.332(b) states all pass-through entities, such as the DHSS, must evaluate each subrecipient's risk of noncompliance with federal statutes, regulations, and the terms and conditions of the subaward to determine the appropriate subrecipient monitoring.

Identification of deficiencies in a sponsor's procedures in one program increases the risk of additional deficiencies in other claims and in other programs. Fraud risks must be addressed on a timely basis to minimize abuse and misappropriation of program resources. The recoupment of ineligible or inappropriate payments to program participants also serves as a deterrent to other participants. Regulation 7 CFR Section 226.14 provides that state agencies shall disallow and recover any portion of a claim for reimbursement not properly payable, including claims not made in accordance with recordkeeping requirements.

1.2 Timely action not taken on deficient monitoring visits

BCFNA monitoring policies and procedures do not require timely action by the agency and allow sponsors with significant weaknesses identified through monitoring visits to continue submitting claims for extended periods without further follow up. As a result, ineligible claims can be paid up to 12 months before initial subsequent monitoring takes place, and potentially an additional 12 months of additional ineligible claims would be allowed before the sponsor was terminated from the program.

BCFNA policies allow follow up monitoring for sponsors who have failed a monitoring visit to be conducted within 6 to 12 months following the failed monitoring. The below example was conducted in accordance with BCFNA policy; however, allowing up to 12 months to pass before conducting follow up monitoring on a sponsor with known non-compliance is not consistent with federal internal control standards. For example, during our review of monitoring visits, we noted one facility that failed multiple monitoring visits with 100 percent overpayments who was allowed to continue to submit potentially ineligible claims without timely follow up. The 100 percent overpayment was due to the facility not meeting the eligibility requirement that 25 percent of the individuals served be eligible for free or reduced-price lunch meals.⁶ BCFNA personnel indicated that the facility was not terminated because such eligibility issues are not considered significant enough to result in the provider being considered "seriously deficient."

⁵ *Standards for Internal Control in the Federal Government*, GAO, paragraph 17.01.

⁶ 7 Code of Federal Regulations (CFR) Section 226.2, the requirements for a facility to be eligible for CACFP funding include "(1) Twenty-five percent of the children in care (enrolled or licensed capacity, whichever is less) are eligible for free or reduced-price meals; or (2) Twenty-five percent of the children in care (enrolled or licensed capacity, whichever is less) receive benefits from title XX of the Social Security Act and the center receives compensation from amounts granted to the States under title XX."

Department of Health and Human Services - Child and Adult Care Food
Program and Summer Food Service Program
Management Advisory Report - State Auditor's Findings

During the facility's January 2023 monitoring, the facility received a B minus grade partly due to the determination that the entire claim of \$1,436 reviewed was a 100 percent overpayment. The \$1,436 was withheld from the facility's next reimbursement claim in February 2023. However, the facility was not reviewed again until October 2023, and was assessed a C grade and declared seriously deficient. The facility's entire October claim of \$2,277 was declared an overpayment for the same eligibility reason as noted for the January monitoring.

During these monitorings the BCFNA did not go back and look at other months for possible overclaims, and did not have procedures in place to ensure the facility was compliant with USDA rules.

In total, this facility received \$13,706 in reimbursements between the 100 percent overpayment monitorings (February 2023 through September 2023) that were not reviewed. They also received \$13,256 in reimbursements since their last failed monitoring in October 2023 through when the facility was eventually terminated on June 10, 2024. In this instance a total of 18 months passed between the initial monitoring visit in which BCFNA identified a 100 percent overpayment and the sponsor's termination.

DHSS officials again stated the more timely monitoring suggested in this finding is not required by federal program guidance, and that the monitoring and review being performed already exceeds federal requirements.

Standards for Internal Control in the Federal Government (also known as the Green Book), published by the federal Government Accountability Office (GAO), provides an overall framework for establishing and maintaining an effective internal control system. According to the Green Book, agencies should establish and operate monitoring activities to monitor the internal control system, and evaluate results⁷ and address deficiencies on a timely basis.⁸

Identification and correction of ineligible claims on a timely basis is necessary to minimize abuse and misappropriation of program resources.

Similar findings noted in a recent report

In September 2024, the Office of the State Auditor issued Report No. 2024-063, *State of Missouri Single Audit*, for the year ended June 30, 2023. The report concluded (Finding No. 2023-012) the BCFNA did not have sufficient controls and procedures to ensure CACFP reimbursements to subrecipients (sponsors) are allowable and supported with sufficient documentation. The report further concluded (Finding No. 2023-013) BCFNA subrecipient risk

⁷ *Standards for Internal Control in the Federal Government*, GAO, paragraph 16.01.

⁸ *Standards for Internal Control in the Federal Government*, GAO, paragraph 17.01.

Department of Health and Human Services - Child and Adult Care Food
Program and Summer Food Service Program
Management Advisory Report - State Auditor's Findings

assessment and monitoring procedures were not sufficient to ensure CACFP subrecipient compliance with program requirements. The report also concluded (Finding No. 2023-013) that procedures to recoup overpayments were in need of improvement. The issues identified in the *State of Missouri Single Audit*, for the year ended June 30, 2023, occurred during the scope of this audit, so the findings in this audit are not repeat findings.

Recommendations

The DHSS through the BCFNA:

- 1.1 Implement a risk assessment process for SFSP sponsors that considers sponsor activity in the CACFP, and review SFSP and CACFP activity when issues arise in monitoring visits from the other program.
- 1.2 Ensure facilities are being monitored on a timely basis and are following all USDA regulations for the CACFP program.

Auditee's Response

The Department's response is located in Appendix B.

Auditor's Comment

The DHSS response takes exception to there being no preliminary meeting to discuss the audit findings, and with not being provided an exception listing. The issues in the report were discussed multiple times with the agency, including throughout the exit process of the statewide Single Audit, so no separate meeting to discuss these issues was deemed necessary. In addition, the DHSS was provided an exception listing for finding number 1.1. For finding number 1.2, the issues identified in the report are based on an understanding of the agency's processes obtained through interviews with the DHSS and sponsor personnel, therefore there were no exception listings to provide. The lack of an exception listing for finding number 2 was communicated to the agency during the exit process.

The DHSS response to the audit appears to downplay the severity of the alleged fraudulent activity identified in the CACFP and SFSP by stating program overpayments (in Appendix A) represent only 0.39 percent of program expenditures during the audit period. This claim is misleading. The \$2.4 million in "overpayments identified" in Appendix A are merely the amount of overpayments identified by the DHSS and, as described in finding numbers 1.1 and 1.2, ignores months of possible overpayments to deficient sponsors that were not reviewed by the agency. The amount of actual overpayments, while unknown, is substantially more.

The DHSS's response to finding numbers 1.1 and 1.2 does not argue the facts of the findings or the procedures described, but instead generally states current procedures are in compliance with federal requirements. The audit report concluded the DHSS's current risk assessment and monitoring processes do not adequately consider risks across programs and do not ensure

Department of Health and Human Services - Child and Adult Care Food
Program and Summer Food Service Program
Management Advisory Report - State Auditor's Findings

deficient sponsors are addressed in a timely manner. Current DHSS procedures allow deficient sponsors to continue receiving program reimbursements unnecessarily. The agency's response indicates it does this to reduce administrative burden on the state, and to reduce potential burden on program sponsors. The State Auditor's Office continues to believe this is not an acceptable approach.

The DHSS's response further states the agency is not in agreement with finding number 1.1, but then also states the agency will " . . . work to incorporate improvements as evidenced in updated standard operating procedures for reviews." The agency has provided the State Auditor's Office with no specifics about what procedures have been updated, but it is encouraging the agency is making improvements to the process.

2. Reimbursement Controls In Need of Improvement

Controls over CACFP and SFSP reimbursements are in need of improvement. Edit checks of a sponsor's capacity, to detect sponsors making claims that exceed their capacity, are not always based on verified information.

Program sponsors submit monthly claims for the CACFP and SFSP through the CNPWeb (CNP) claim system without providing any supporting documentation to the BCFNA. To identify potentially inappropriate claims the CNP has edit checks to prevent and detect certain claim errors, such as meal claims that exceed facility/sponsor total enrollment and/or license capacity, or claims for types of meals the facility/sponsor are not approved to serve. However, during the COVID-19 pandemic, these capacity edit checks, including the number of allowable meals, were based on sponsor-provided information during the application process and were not verified by the BCFNA for reasonableness or accuracy.

Claims that do not pass the capacity edit checks are returned to the facility/sponsor for revision rather than triggering a review from the BCFNA to determine appropriateness. While facilities/sponsors are required to maintain and retain detailed records, including meal count, attendance, enrollment and eligibility determination records, receipts, menus, and other documentation to support meals claimed, the capacity edit checks described above are the primary short term control for preventing fraudulent claims since monitoring reviews can take place 1 to 3 years from the claim.

2 CFR Section 200.303(a) requires the non-federal entity to "[e]stablish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-federal entity is managing that Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award." Reliable and effective edit checks are necessary to reduce the risk of noncompliance.

Department of Health and Human Services - Child and Adult Care Food
Program and Summer Food Service Program
Management Advisory Report - State Auditor's Findings

Without reliable edit checks for capacity, based upon verified information, that trigger review by the BCFNA, a sponsor would have the ability to submit overstated program reimbursements. This weakness, along with monitoring waivers implemented by the USDA during the pandemic, was a contributing factor in the New Heights and Sisters of Lavender Rose alleged frauds that resulted in federal indictments. For example, the New Heights claims for reimbursement passed the existing edit checks; however, it was later determined approximately \$11 million in claims for reimbursement were unsupported. Had the New Heights estimates of facility capacity during the COVID-19 pandemic been reviewed for reasonableness, the risk of reimbursing fraudulent claims would have been significantly reduced.

Similar findings noted in a recent report

In September 2024, the Office of the State Auditor issued Report No. 2024-063, *State of Missouri Single Audit*, for the year ended June 30, 2023. The report concluded (Finding No. 2023-012) BCFNA does not have sufficient controls and procedures to ensure CACFP reimbursements to sponsors are allowable and supported with sufficient documentation. The report further concluded the BCFNA has not implemented procedures to review supporting documentation, at least on a test basis, except for testing performed during routine monitoring reviews generally conducted once every 1 to 3 years. As a result, significant unallowable and unsupported reimbursements were made without being prevented or detected on a timely basis. In addition, Finding No. 2023-013 in the same report recommended improvements to the BCFNA's risk assessment and subrecipient monitoring procedures. The issues identified in the *State of Missouri Single Audit*, for the year ended June 30, 2023, occurred during the scope of this audit, so the findings in this audit are not repeat findings.

Recommendation

The BCFNA monitor the process of validating initial edit check limits to ensure the edit check control is operating effectively, and adequately investigate any claims that do not pass edit checks.

Auditee's Response

The Department's response is located in Appendix B.

Auditor's Comment

The DHSS response takes issue with the audit conclusion that edit check controls in place are in need of improvement and were a contributing factor to the large alleged fraud cases identified. However, the DHSS response also concedes that the federal waivers implemented by the US Department of Agriculture (USDA) were " . . . the cause of the standard edit checks not being as effective as usual" The DHSS also contends the report demonstrates a lack of understanding of the agency's processes. The State Auditor's Office understands the relevant processes completely, but does not believe they were used effectively to identify improper claims while federal COVID waivers were in place, and are not as effective as they can be to identify potential improper claims currently.

Department of Health and Human Services - Child and Adult Care Food
Program and Summer Food Service Program
Management Advisory Report - State Auditor's Findings

In addition, the DHSS response states the recommendation is not accurate, since "Edit checks continue to be validated as they have always been." However, the SAO disagrees that the recommendation is not accurate, since the agency's procedures for establishing and validating capacity edit checks still rely significantly on sponsor-provided information, and due to this significant control being compromised in the past, a recommendation to ensure the edit check process is properly validated and operating effectively, and that discrepancies are investigated, is valid and accurate. Further, DHSS's statement that no changes have made to the edit check process does not appear to be entirely accurate. Based on communications from the USDA to the DHSS, the DHSS has taken action to improve internal controls in this area. Although no specific control improvements have been communicated to our office, it is encouraging the agency appears to be making an effort to improve this process.

3. Inappropriate Use of Other USDA Programs Not Reported

During our review of facilities that were monitored multiple times by the BCFNA during the 3 fiscal years ended June 30, 2023, BCFNA noted 3 facilities were inappropriately using other USDA programs and a United States Department of Health and Human Services program to pay for products and also seeking reimbursement from the CACFP and the SFSP, which is a violation of federal regulations. These facilities were using Supplemental Nutrition Assistance Program (SNAP), Temporary Assistance for Needy Families (TANF), or Special Supplemental Nutrition Assistance for Women, Infants, Children (WIC) funds to pay for groceries.

When asked if the violations were reported to the agencies responsible for the relevant programs, DHSS officials indicated they had reported the WIC payments to personnel in the Bureau of WIC and Nutrition Services within the Division of Community and Public Health and showed documentation of reporting the payments for WIC. The BCFNA personnel stated reporting fraud identified in other programs is their current practice, however, no documentation was maintained of their notification of the SNAP and TANF payments.

The trafficking of SNAP, TANF⁹ and WIC¹⁰ benefits as described constitutes an intentional program violation, and could potentially be considered a fraudulent criminal act. Notifying other agencies of potentially fraudulent activity identified during BCFNA monitoring activities would help prevent fraud in other programs, and help remove participants that are abusing such benefits. In addition, communications with another agency would be

⁹ Section 7 CFR 273.16(c) (1)&(2)

April 18, 2025

Honorable Scott Fitzpatrick
Missouri State Auditor
Jefferson City, Missouri

Mr. Fitzpatrick:

We have reviewed the findings from your office's audit of the Child and Adult Care Food Program (CACFP) and Summer Food Service Program (SFSP). Missouri Department of Health and Senior Services (DHSS) Bureau of Community Food and Nutrition Assistance (BCFNA) appreciates the opportunity to respond.

DHSS expended an exceptional amount of staff time to address an audit which encompassed more than eighteen (18) months, beginning with the State Auditor's Office (SAO's) decision not to conduct a special investigation. After eight (8) months without an audit request, the SAO requested an Exit Conference with no preliminary meeting and without providing an exception listing report.

DHSS would like to point out that the scope of this audit covered the COVID-19 public health emergency. The CFNA program had stellar audit results prior to this report and has returned to its pre-COVID program operations.

Despite agency requests, the SAO did not provide supporting information. Therefore, DHSS was unable to determine the SAO's source and methodology used to establish the information found in Appendix A and their recommendation that "The BCFNA monitor the process of validating initial edit check limits to ensure the edit check control is operating effectively, and adequately investigate any claims that do not pass edit checks."

The scope of this audit covered the three (3) years ended June 30, 2023. The vast majority of this period encompassed an unprecedented global COVID-19 pandemic during which the BCFNA's federal funding agency, United States Department of Agriculture (USDSA) enacted more than one hundred (100) program waivers, implementing extreme leniency of monitoring requirements and fundamentally changed how the program operated. Also, during COVID, CFNA experienced a tremendous increase in participating sponsors, as well as a higher claim volume due to the Public Health Emergency. For context, SFSP previously received \$14 million in appropriations from the Missouri legislature, and the initial single claim to the SFSP program during the public health emergency was \$12 million. The final USDA waivers expired with the end of the Public Health Emergency on May 11, 2023.

The SAO noted in the report "during the COVID-19 pandemic, facilities were allowed by federal waivers to serve multiple meals at once in a drive-thru style system, making the monitoring of the number of meals allowed more difficult. In addition, due to the pandemic, the BCFNA relied on remote monitoring rather than onsite monitoring, which further increased the difficulty in monitoring sponsor activity." Although USDA recognized program monitoring constraints and issued COVID waivers that allowed for

PROMOTING HEALTH AND SAFETY

The Missouri Department of Health and Senior Services' vision is optimal health and safety for all Missourians, in all communities, for life.

DHSS Response - CACFP and SFSP Audit
April 18, 2025
Page 2

monitoring to be completely suspended during the Public Health Emergency, the BCFNA continued to monitor through the use of desk reviews. BCFNA also returned to onsite monitoring months before it was required by the USDA. While USDA issued multiple waivers, states had discretion about which to apply and for how long. Non-congregate meals were one allowance BCFNA decided not to adhere to (ending drive-thru meals) despite death threats received by BCFNA staff resulting from this discontinuation.

It should be noted that the SFSP program normally runs from May through September, while school is not in session. During the COVID-19 pandemic it operated virtually year-round. This program was designed by the USDA to be set up quickly and serve lower income and at-risk children during school closures and emergencies (such as COVID-19).

The SAO stated, "Had the New Heights estimates of facility capacity during the COVID-19 pandemic been reviewed for reasonableness, the risk of reimbursing fraudulent claims would have been significantly reduced." This is the SAO's subjective opinion and not an accurate statement. The SAO is erroneously attempting to apply capacity requirements to drive through distribution sites approved by the USDA. USDA monitoring waivers were the reason New Heights capacity thresholds were not considered. In addition, during this time capacity restrictions for at-risk after school programs/sponsors did not apply. No children were actually eating on site, so the normal processes for establishing capacity were lifted.

A disproportionate amount of CACFP errors/exceptions the SAO noted were from three sponsors/providers the BCFNA had already turned over to federal agencies as a result of BCFNA's diligent monitoring efforts. Without these inflating the report, the total overpayments for CACFP terminations are reduced from \$2,427,351 to \$853,090, a 65% reduction. Furthermore, total expenditures by these programs during the review period were \$623,199,793. Overpayments of \$2.4 million stated in Appendix A represent .39% of total SFSP and CACFP expenditures during the review period.

The SAO noted that CACFP did not go back to review prior reimbursement claims when errors were discovered, or sponsors were terminated. In accordance with USDA requirements, BCFNA standard practice is to review and pursue recoupment of overclaims of only the test month, although when warranted, additional reviews are conducted beyond the test month. BCFNA strives to maintain an appropriate balance between adequate monitoring and not creating barriers to program participation per repeated USDA guidance and the federal Paperwork Reduction Act. Starting the termination process is more cost effective than performing additional testing. As noted in the SAO report, increased claim testing would create a significant barrier to participation for sponsors/facilities (many of which are small childcare centers, in-home day care centers, emergency shelters and adult day care centers), which is not a desirable outcome, and which is prohibited by USDA.

Recoupment is allowable, but USDA guidelines call for overclaims of \$600 or less to be disregarded per 7 CFR 226.8(f) due to the high likelihood of errors in the program. BCFNA has historically been unsuccessful in attempts to recoup higher overclaims as the sponsor/provider has been terminated from the program and is no longer in business. Further, it is not cost effective given the limited claim dollar amounts and staff constraints. Nonetheless, BCFNA officials, often in conjunction with the Missouri Attorney General's Office, pursue recoupment of overclaims for facilities/sponsors with terminated contracts on a case-by-case basis.

Below you will find our responses to the audit findings.

Appendix B
Department of Health and Human Services - Child and Adult Care Food
Program and Summer Food Service Program
Agency Responses

DHSS Response - CACFP and SFSP Audit
April 18, 2025
Page 3

1.1 Implement a risk assessment process for SFSP sponsors that considers sponsor activity in the CACFP, and review SFSP and CACFP activity when issues arise in monitoring visits from the other program.

BCFNA's risk assessment process which was in place at the time of this audit considers relevant information and conforms with federal regulations. The USDA established an acceptable level of risk with respect to the CACFP and SFSP programs and provided approved risk management processes and requirements. BCFNA will *continue to operate CACFP and SFSP in a manner that ensures program compliance and integrity, as approved by the USDA.*

CACFP and the SFSP programs do conduct cross-checks. However, the programs don't operate at the same time. BCFNA closely monitors CACFP operations of sponsors that will be renewing for SFSP. If concerns are noted, BCFNA will hold the renewal as long as allowable in order to see the outcome of the CACFP review. If a CACFP Sponsor is declared seriously deficient prior to the approval of an SFSP renewal, then that SFSP renewal is denied, and the sponsor does not have the opportunity to operate the SFSP. If the sponsor is not seriously deficient, but there are concerns in CACFP, an SFSP review is requested to ensure those same issues are not occurring in SFSP.

Although BCFNA is not in agreement with this finding, BCFNA continues to work to incorporate process improvements as evidenced in updated standard operating procedures for reviews, thus ensuring assessments cover all required aspects. BCFNA's risk assessment process has always taken into consideration the results of current and previous experience with the same subaward as well as whether the subrecipient has new personnel or new or substantially changed systems. These observations are made when performing onsite monitoring by Nutritionists who are familiar with the program, its requirements and its participants, and are trained in recognizing significant issues. BCFNA also takes into consideration the results of the subrecipient's prior experience with similar subawards in other programs such as SFSP, National School Lunch Program (NSLP) and Child Care Licensing Reviews, audit results, as well as the results of Technical Assistance Reviews offered to new subrecipients which could move up the planned monitoring schedule.

BCFNA monitors using a risk-based approach as required by the USDA in response to known erroneous claims and to proactively address any issues. As noted above, when the BCFNA SFSP receives an application, staff checks the CACFP activity. If the sponsor is having issues in CACFP and is Significantly Deficient (SD) in CACFP, the SFSP application is denied. Similarly, when reviewing CACFP activity during a SFSP new sponsor review, staff checks to ensure similar issues are not occurring in SFSP. Staff will move up a CACFP review if there are concerns. Staff routinely and continually perform these checks, using the Viability Capability and Accountability (VCA) checks in place to help determine risk, if a review needs to be conducted, and if a sponsor renewal will be denied.

BCFNA has and will continue to review, strengthen and enforce policies and procedures in accordance with federal program requirements and management evaluation.

DHSS Response - CACFP and SFSP Audit
April 18, 2025
Page 4

1.2 Ensure facilities are being monitored on a timely basis and are following all USDA regulations for the CACFP program.

BCFNA is compliant with the USDA subrecipient monitoring regulations. *As required by the USDA, BCFNA monitors using a risk-based approach in response to erroneous claims and to proactively address any issues.*

USDA regulations require more frequent follow up only if review findings rise to the level of Serious Deficiency (SD). While USDA allows states discretion in this area, BCFNA surpasses this threshold and provides a score to reviews to ensure that poorer performing sponsors will be reviewed earlier than the three-year interval as required by USDA regulation. *Further, BCFNA has additionally strengthened subrecipient monitoring procedures by enhancing the training and review of Viability Capability and Accountability. BCFNA has updated the training manual regarding the required performance standards and thereby strengthened subrecipient monitoring procedures as well as revising policies and guidance.*

The SAO stated in its Fiscal Year 2023 State Wide Single Audit (SWSA) finding, "our review found the sample monitoring reviews were performed in accordance with the policies and procedures outlined in the Internal Nutritionist Manual" The SAO did not note any specific noncompliance with federal requirements regarding subrecipient monitoring in the SWSA. Throughout the SAO's previous finding they repeatedly acknowledge that the BCFNA monitoring process is in compliance with the Nutritionist Manual which is based on USDA requirements.

In addition, the DHSS has a strong system of internal controls documented in the Nutritionist Manual which is in compliance with federal regulations and is used as an example of best practice by the USDA for other states.

The most recent USDA Management Evaluation Report for Fiscal Year 2023 issued November 2023 stated, "*The FNS¹ determined that the SA² Monitoring of Sponsors and SA Oversight of Sponsor Monitoring's has adequate management controls in place for administering the CACFP in accordance with Federal regulations. The FNS staff reviewed SA practices that included detailed SA review forms, spreadsheets that provided extra oversight, and written procedures detailing the monitoring process. The SA provides online CACFP trainings along with a handbook to institutions that detail policies and procedures governed by the SA. The SA developed an extensive tracking system in addition to a very thorough review tool that contains meal component and pattern calculation. The SA conducts oversight of the review process and tracks each step to confirm completion of any follow up required of institution. The SA CACFP training resources and online modules were reviewed and evaluated to ensure it contained the correct information and up to date policies and procedures. The FNS staff reviewed the SA policies and procedures and interviewed key SA staff regarding procedures for each respective area of this Section. All files reviewed are compliant with Program requirements. The FY 2023 CACFP ME review did not identify any significant reportable issues.*"

2. **The BCFNA monitor the process of validating initial edit check limits to ensure the edit check control is operating effectively, and adequately investigate any claims that do not pass edit checks.**

The SAO demonstrates a lack of understanding of the CACFP and SFSP processes.

The online claim system has several required edit checks in place including, but not limited to, ensuring payments are made only for approved meal types and that the number of meals for which reimbursement is provided does not exceed the product of the total enrollment times operating days times approved meal types. Claims that do not pass edit checks due to meal claims which exceed facility/sponsor total enrollment and/or license capacity or claims for types of meals the facility/sponsor are not approved to serve are not always reviewed onsite. They are sent back to the sponsor for correction. This correction is made in the application system, and that update must be reviewed and approved by BCFNA staff. BCFNA staff will speak with the sponsor or with childcare licensing regarding the requested changes to the capacity or enrollment. Many of the issues regarding meals are due to the sponsor putting the meal counts in the wrong field, but in follow-up calls to the sponsor, they let BCFNA know and provide information verbally regarding the meals served. If there are concerns with any of the answers provided by the sponsor, those concerns are sent to the Nutritionist Supervisors for potential adjustment of the next scheduled review.

In addition, upon agency request, the SAO did not provide testing or review summaries to support this finding. The finding states the weakness in edit checks along with monitoring waivers implemented by the USDA during the pandemic were contributing factors in the New Heights and Sisters of Lavender Rose alleged frauds that resulted in federal indictments. As BCFNA has stated above, the waivers implemented by the USDA during the pandemic were also the cause of the standard edit checks not being as effective as usual due to the drastic changes in program operation implemented by the USDA during the pandemic. Now that the pandemic waivers have ended and the program is operating normally again, this recommendation is not accurate as edit checks continue to be validated as they have always been.

3. **Report all potential fraudulent use of other programs to the appropriate administering agency, and maintain supporting documentation of such reports pursuant to Missouri State and Local Records Law.**

BCFNA takes the inappropriate use of state and federal funds seriously. While extremely rare, BCFNA has, and continues to report all potential fraudulent use of other programs to the appropriate administering agency. BCFNA maintains all such documentation for future reference.

Sincerely,

Sarah Willson, BSN, MBA, FACHE
Director
Department of Health and Senior Services

Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of the City of Kennett

Misappropriated Money	From January 1, 2020, through March 8, 2022, money totaling at least \$79,281 was misappropriated from the city. During this time, the Deputy Clerk used a city credit card to make approximately \$11,800 in personal purchases, paid herself and her husband over \$61,700 they were not entitled to receive, paid herself for unearned or already-used vacation leave valued at over \$3,000, and did not pay for approximately \$2,700 in employee benefits she received. Additional payments to the Deputy Clerk and her husband totaling approximately \$17,300 may also be improper.
Oversight, Related Parties, and Ordinances	The City Council and the City Clerk did not adequately oversee or segregate the duties of the various financial accounting functions performed by the Deputy Clerk, including payroll, purchasing, and disbursements. The Deputy Clerk was responsible for the entire payroll process for city employees, including herself and her husband, with little or no oversight. This included entering hours worked, leave used, pay rates, and withholdings and deductions. The Deputy Clerk was able to process numerous disbursements to herself and her husband, as well as record all of the transactions on her city-issued Walmart credit card in the accounting system without any approval. As a result, city money was not handled and accounted for properly. The City Council did not review lists of bills, bank and credit card statements, payroll, or other financial information, at City Council meetings. The City Council did not adequately monitor city activities for related parties and conflicts of interest and did not have a city policy or ordinance to adequately address such instances. The Deputy Clerk processed payroll and other payments for herself, her husband, and her ex-sister-in-law with little to no oversight. City ordinance and personnel policies are not complete and do not reflect some current city practices. The city does not have an ordinance or personnel policy establishing guidelines for city employees holding multiple positions within the city simultaneously.
Payroll and Related Matters	Inaccurate and missing payroll records allowed improper payroll overpayments to go undetected. The Deputy Clerk's timesheets were not accurate and were not always prepared and retained as required by law. During sworn testimony, the Deputy Clerk indicated she worked approximately 20 hours of overtime per week for the fire department. However, her timesheets showed up to 49 hours of overtime work in a week, and are likely inaccurate. City officials did not reconcile leave records, which allowed excess leave to go undetected. For example, the Deputy Clerk's manual leave record for 2020 did not agree with leave recorded in the accounting system, and the city could not provide the Deputy Clerk's paper leave records for 2021 and 2022. The Deputy Clerk's personnel file did not contain adequate documentation of changes in her rate of pay during her employment. In addition, City Council meeting minutes did not document approval for, and her personnel file did not include documentation of, the Deputy Clerk's work for the fire department.
Disbursements	City officials allowed numerous questionable and/or unnecessary purchases to occur, and the city does not have any guidance or policy regarding the use of city funds to purchase food, gifts, and other items. City officials did not ensure staff submitted supporting documentation for some purchases,

including purchase orders and receipt slips or invoices, prior to processing disbursements for payment as required by city code. City officials did not review credit card statements or related supporting documentation prior to payment and instead set the credit card accounts, including the city Walmart credit card, to be paid automatically, which allowed improper charges to occur and go undetected.

Sunshine Law	The City Council did not always comply with the Sunshine Law or sufficiently document discussions to demonstrate Sunshine Law compliance. The City Council discussed and voted on some items in closed meetings that were not allowable under the Sunshine Law. Some meeting minutes included little or no description of the topics discussed and the information in closed meeting minutes was insufficient to ensure topics discussed were allowable.
Electronic Data Security	The City Clerk did not establish adequate password controls to reduce the risk of unauthorized access to city computers and data. The City Clerk's office did not have security controls in place to lock computers after a specified number of incorrect logon attempts. As a result, city records were not adequately protected and were susceptible to unauthorized access or loss of data.
Electronic Communications	City personnel do not follow city code or Missouri Secretary of State guidance regarding retention of electronic communication sent via text messages. City officials indicated they did not forward text messages related to city business to their office computer or the city custodian of records as required.

In the areas audited, the overall performance of this entity was **Poor**.*

*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

- Excellent:** The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.
- Good:** The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.
- Fair:** The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.
- Poor:** The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

SCOTT FITZPATRICK
MISSOURI STATE AUDITOR

To the Honorable Mayor
and
Members of the City Council
City of Kennett, Missouri

We have audited certain operations of the City of Kennett as they relate to the city's finances in fulfillment of our duties under Chapter 29, RSMo. Due to concerns regarding misappropriated money, the State Auditor initiated the audit with the approval of the City Council. The scope of our audit included, but was not necessarily limited to, the period January 1, 2020, through March 8, 2022. The objectives of our audit were to:

1. Evaluate the City of Kennett's internal controls over significant management and financial functions, as they relate to any missing or misappropriated money.
2. Evaluate the City of Kennett for compliance with certain legal provisions, as they relate to any missing or misappropriated money.
3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions, as they relate to any missing or misappropriated money.
4. Determine the extent of money misappropriated and/or missing, if any.

We conducted this performance audit in accordance with generally accepted government auditing standards. Those standards require that we plan and perform the audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides a reasonable basis for our findings and conclusions based on our audit objectives.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the city's management and was not subjected to the procedures applied in our audit of the city.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, (3) the need for improvement in management practices and procedures, and (4) money misappropriated from the city totaling at least \$79,281. The accompanying Management Advisory Report presents our findings arising from our audit of the City of Kennett.

A handwritten signature in black ink, appearing to read "Scott Fitzpatrick". The signature is stylized with a large initial "S" and a prominent "F".

State Auditor

City of Kennett

Introduction

Background

Leslie (Tefft) Osorio, began employment with the city on July 14, 2016, as a part-time dispatcher. She began working full time as a dispatcher on January 9, 2017, and then as Deputy City Clerk, on June 5, 2018, and held that position until she resigned on March 8, 2022. She also performed part-time work with the fire department, which included emergency management. The Deputy Clerk's husband, Carlos Osorio, also performed part-time work for the fire department. The former Deputy City Clerk is referred to as the Deputy Clerk, and her husband is referred to as the Deputy Clerk's husband, throughout the remainder of this report.

The Deputy Clerk was primarily responsible for the following city financial functions and records:

- Payroll - The Deputy Clerk prepared and processed payroll for all city departments,¹ maintained timesheet records, and prepared and processed disbursements for employee allowances, reimbursements, and travel costs.
- Disbursements - The Deputy Clerk received invoices for payment, prepared and disbursed checks, and maintained supporting documentation. The Deputy Clerk was authorized to sign checks when the City Clerk was unavailable.
- Accounting and reporting - The Deputy Clerk maintained city accounting system records for payroll and all other disbursements, transferred money between bank accounts, reconciled bank statements, and prepared reports detailing payroll. The Deputy Clerk provided these reports to the City Clerk to use for reporting employees earnings for retirement purposes.

Investigation and audit

In March 2022, the State Auditor's Office (SAO) Whistleblower Hotline received concerns that the Deputy Clerk paid herself more than allowed. Shortly thereafter, the city contacted the Missouri State Highway Patrol, the Prosecuting Attorney, and the SAO to help review documents related to various overpayments. The SAO conducted an initial review of these matters, under Section 29.221, RSMo. After review of the documentation and the communications provided, the SAO determined further investigation was warranted.

On September 6, 2022, the City Council passed an ordinance formally requesting and authorizing an audit by the SAO. The SAO subsequently agreed to conduct the audit. The SAO began the audit in December 2023. The

¹ City departments include the General Administration, Animal Services, Emergency Services (Fire, Police, and 911 Communications), Parks and Recreation, and Street Departments. City utilities are operated by City Light, Gas, and Water (CLGW), which is a separate entity.

City of Kennett Introduction

SAO provided information to law enforcement in May 2024 and February 2025. On February 14, 2025, the Deputy Clerk was charged with a Class C Felony of stealing over \$25,000 or more based on the information provided by the SAO. The case is ongoing.

Scope and Methodology

The scope of this audit included, but was not necessarily limited to, the period January 1, 2020, through March 8, 2022, which comprises the approximate time the Deputy Clerk was solely responsible for the city's accounting functions. The city's fiscal year is July 1 through June 30.

Our methodology included reviewing written policies and procedures, financial records, and other pertinent documents; gathering information regarding payroll, disbursements, purchasing, and user access by interviewing various current and past personnel of the city; and analyzing records including timesheets and payroll, bank, and other records.

We obtained an understanding of internal control that is significant to the audit objectives and planned and performed procedures to assess internal control to the extent necessary to address our audit objectives. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and assessed the risk that illegal acts, including fraud, and violations of other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We performed the following procedures to evaluate (1) the city's internal control system, as it relates to any missing and/or misappropriated money; (2) the city's compliance with city and statutory requirements, as they relate to any missing and/or misappropriated money; and (3) the economy and efficiency of certain management practices and procedures, as they relate to any missing and/or misappropriated money:

- We reviewed meeting minutes, applicable city ordinances, and written policies and procedures.
- We reviewed the 2016 and 2020 employee handbooks and select personnel files and records.
- We took sworn testimony during a recorded interview of the Deputy Clerk on May 16, 2024. The SAO issued a subpoena to the Deputy Clerk to compel her to produce records and documents related to her testimony. See Appendix A.

City of Kennett Introduction

- We recorded interviews with the former and current Mayor,² former and current City Council members, the former and current Fire Chiefs, the City Clerk, and numerous city employees. We also requested copies of any city records they possessed that supported their statements.

To determine the extent of money missing and/or misappropriated, if any, we performed the following procedures:

- We compiled and analyzed the payroll data of the Deputy Clerk and her husband using paystubs and timesheets for all pay periods during our audit period. We scheduled the pay date, pay period, number of hours, rate of pay, and total amount paid for each period for the Deputy Clerk and her husband. We used information from her husband's timesheets in conjunction with his pay stubs to calculate how many hours he actually worked and what he should have been paid. If no timesheet was provided we used the hours recorded on the pay stubs. In addition, we calculated his pay based on approved pay rates because city officials indicated the hourly rate shown on the pay stubs was higher than what was approved.
- We compiled and analyzed vacation leave records for the Deputy Clerk for all pay periods during our audit period. We scheduled the vacation leave indicated on the pay stubs (amount recorded in the accounting system) and compared those hours to the cumulative vacation leave balances at the time the leave was taken (80 hours for 2020 and 2021, and 120 hours for 2022, as allowed by city policy).
- We reviewed records from the city detailing the amount that should have been deducted from the Deputy Clerk's paychecks for benefits during the audit period and verified the information against supporting documentation. We then scheduled any payments deducted using documentation provided by the city and compared the amounts deducted to the amounts that should have been deducted.
- We reviewed all City of Kennett payments deposited into the Deputy Clerk and her husband's joint bank account, compared the deposits to payroll records, and reviewed the non-payroll payments for appropriateness.
- We requested all transaction detail from the company for any purchases made using the Deputy Clerk's city-issued Walmart credit card. In addition, we requested any documentation maintained by the city related to the Deputy Clerk's purchases. We analyzed the purchases and

² Officials were current as of the date of the interview in 2024. See Organization and Statistical Information section for a list of officials during the audit period and subsequent officeholders.

City of Kennett Introduction

supporting documentation to determine if the items had a city purpose or appeared to be for personal use. We then interviewed the Deputy Clerk and other city personnel regarding the purchases to further determine if purchases were appropriate.

City of Kennett

Management Advisory Report

State Auditor's Findings

1. Misappropriated Money

From January 1, 2020, through March 8, 2022, money totaling at least \$79,281³ was misappropriated from the city. During this time, the Deputy Clerk used a city credit card to make approximately \$11,800 in personal purchases, paid herself and her husband over \$61,700 they were not entitled to receive, paid herself for unearned or already-used vacation leave valued at over \$3,000, and did not pay for approximately \$2,700 in employee benefits she received. Additional payments to the Deputy Clerk and her husband totaling approximately \$17,300 may also be improper. When asked about repaying any misappropriated amounts, the Deputy Clerk said that she was willing to repay money to the city. During her sworn testimony she said, "I want to pay back anything that I . . . , I'm willing to do that. Like, I, even if it takes me 10 years to pay it back."

The following table provides a summary of the amounts misappropriated and identifies the appendix in which specific details are reported.

	Year Ended December 31,		January 1 Through March 8,	
	2020	2021	2022	Total
Improper and questionable purchases (Appendix B)	\$ 3,955	7,233	611	11,799
Payroll overpayments to Deputy Clerk (Appendix C)	7,221	40,603	3,116	50,940
Payroll overpayments to Deputy Clerk's husband (Appendix C)	69	4,010	35	4,114
Unsupported and unallowed expense payments to Deputy Clerk (Appendix D)	200	4,209	559	4,968
Unsupported and unallowed expense payments to Deputy Clerk's husband (Appendix D)	514	1,188	0	1,702
Vacation leave overpayments	1,568	502	1,003	3,073
Benefit amounts not deducted from Deputy Clerk's paycheck (Appendix E)	(39)	2,111	613	2,685
Total	\$ 13,488	59,856	5,937	79,281

1.1 Improper and questionable purchases

The Deputy Clerk made personal and questionable purchases totaling \$11,799, using her city-issued Walmart credit card. The Deputy Clerk admitted/agreed items totaling \$3,747 were personal in nature and could not provide a plausible city purpose for additional items totaling \$8,052. The improper purchases included large quantities of food items, clothing, home decor items, personal care items, toys, games, and alcohol. Detailed

³ Amounts presented in the report are rounded to the nearest dollar, whereas amounts presented in the appendices are not rounded.

City of Kennett Management Advisory Report - State Auditor's Findings

transaction information for items identified as improper or questionable are listed in Appendix B.

The Deputy Clerk entered and approved all purchases in the accounting system for all city-issued Walmart credit cards, including her own. She purchased items totaling approximately \$16,000 with her Walmart card during our audit period. We considered purchases improper based on the nature of the purchase, information provided by the City Clerk, and testimony provided by the Deputy Clerk. Our assessment was based on the existence of a receipt slip or other supporting documentation, whether these items could be for home or city use, the Deputy Clerk's responses, and auditor judgement. We also interviewed 16 city personnel regarding items their departments used, whether the Deputy Clerk purchased items for their departments, and whether there was any possible city use for specific items that appeared to be for personal use. The results of our assessment by year are totaled and listed in the following table.

	Year Ended December 31,		January 1 Through March 8,	
	2020	2021	2022	Total
Improper Purchases				
Admitted To	\$ 1,129	2,344	274	3,747
Items for Personal				
Use	2,057	3,177	337	5,571
Other Questionable				
Purchases	769	1,712	0	2,481
Total	\$ 3,955	7,233	611	11,799

Items the Deputy Clerk admitted to being personal included clothing, such as, a "Santa Gangsta" men's fleece sweatshirt, socks, and t-shirts, along with a Powerpuff Girls™ shirt and other children's clothing that the Deputy Clerk indicated were purchased for her daughter. In addition, she identified personal items, including conditioner, dry shampoo, feminine wash, a hair brush, cotton swabs, lotion, pregnancy tests, an ovulation kit, body wash, cosmetics, razors, medications such as Benadryl™ and Tylenol™, and household items including 2 bedframes, a spice rack, rugs, light bulbs, cleaning supplies, 2 nightstands, a smart TV, and games. Food items she identified included soda, muffins, pizza, chips, cakes, sour cream, lettuce, refried beans, cookies, candy, and various other items. The following images, obtained from Walmart's website, show the nightstands and television purchased.

City of Kennett Management Advisory Report - State Auditor's Findings

The Deputy Clerk could not provide an explanation for the purpose or provide a city use for various other items that appear personal in nature. These items included: an electric wax warmer, a push lawn mower, rugs, sheets, a bookcase, pillows and pillowcases, a Crock-Pot® slow cooker, bath towels, a Sharper Image® percussion massager, Adirondack chairs, curtains, fragranced wax cubes, dominos, card games, dice, personal lubricant, games including a "Let's Get Deep" intimacy game for couples and Scattergories™, a knife block set, a Kitchenaid® deluxe stand mixer, My Little Pony™ toys, girls tights, and a Better Homes and Gardens® fake fireplace. The following images, obtained from Walmart's website, show the games purchased.

Items considered to be for personal use also included a significant number of grocery items in sizes and quantities consistent with personal or family use, including: Malibu® rum, crackers, cream cheese, Cheerios™ cereal, baby carrots, ribeye steak, Snickers® bars, milk, cans of soup and ravioli, bread, boneless wings, potato wedges, mini donuts, animal crackers, Cheetos®, bean dip, popcorn, mixed nuts, Easy Cheese™, Powerade® drinks, popsicles, chicken broth, evaporated milk, a cake mix and frosting, and various other items.

Additionally, some items that the Deputy Clerk identified as being for city use may have been for personal use. For example, on March 30, 2021, a unicorn cake, mermaid candle, and purple glitter "5" candle were purchased using the Deputy Clerk's city Walmart credit card for \$16.94. The Deputy

City of Kennett Management Advisory Report - State Auditor's Findings

Clerk identified the items as being for city purposes, and indicated that she thought the items had been purchased as a joke for the birthday of one of the dispatchers, but that she did not know if the dispatcher would remember the cake if asked about it. However, the Deputy Clerk's daughter turned 5 that March, the Deputy Clerk identified other mermaid- and unicorn-themed items as being personal purchases, and at least 1 city official indicated she did not remember such a cake being purchased for any of the dispatchers. Therefore the unicorn cake, mermaid candle, and "5" candle may have been for personal purposes. The following image, obtained based on the information provided by Walmart, shows a cake similar to what was purchased.

1.2 Payroll, Reimbursement, and Allowance Payments

The Deputy Clerk overpaid herself and her husband at least \$61,700 from January 1, 2020, through March 8, 2022, by paying for time they did not work and unauthorized stipends, paying at higher pay rates than allowed, and paying improper allowances and reimbursements. Additional amounts may also have been misappropriated based on city employee testimony.

Unallowed overtime based on 20 hours of overtime a week

The Deputy Clerk paid herself \$35,440 for 783 hours of unallowed overtime. For example, during 2021, the Deputy Clerk averaged 33 hours of overtime per week for her additional duties with the fire department when she was only supposed to work 20 overtime hours per week for this work, according to her own testimony. In some weeks she claimed as many as 49 hours of overtime in addition to her 40-hour work week. City officials could not verify that all of these hours were actually worked and it does not appear reasonable she could regularly work this many hours.

We questioned the difference between the hours she was paid and the hours she was authorized to work. We calculated her authorized total weekly pay as 40 hours at her regular hourly rate and 20 hours at the overtime hourly rate (time and a half). We adjusted the amount if her pay stub indicated she worked less than 60 hours in a week and considered the first 40 hours to be at her regular pay rate and any additional hours at the overtime rate. See Appendix C for a complete list of all payroll amounts and overtime the Deputy Clerk paid herself during our audit period, including the unallowed overtime based on the 20 hours maximum allowed per week.

City of Kennett
Management Advisory Report - State Auditor's Findings

Further, a review of her Walmart credit card activity and her time records indicate she was making the personal purchases discussed in section 1.1 or was sick when she claimed she worked. For example, on October 9, 2020, at 2:55 p.m. she made a \$206 purchase using her Walmart credit card in Jonesboro, AR, which is 55 miles from Kennett. She admitted the items purchased, including a bedframe, rug, and other housewares were personal in nature during her recorded testimony. Her timesheet for that day indicates she worked from 8 a.m. until 10 p.m. with an hour lunch from 12 p.m. until 1 p.m., a total of 13 hours. In another instance, in March 2021, she made a \$366 purchase at the Jackson, TN Walmart (89 miles from Kennett) using her city-issued card at 8:11 p.m. The purchased items included cleaning supplies and a percussion massager that appear personal in nature. The Deputy Clerk's timesheet indicates she worked from 8 a.m. to 10 p.m., 14 hours, that same day.

Time records also show in March 2021, the Deputy Clerk recorded hours worked, but her husband's timesheet include notations of "wife sick" and "wife" as the reasons he did not work. Overall, the Deputy Clerk's pay stub indicated she worked 135 hours, including 55 hours of overtime during this pay period. The following images show the Deputy Clerk's and her husband's time for one of the two weeks included in the pay period. The red boxes show days when the Deputy Clerk claimed she worked at least some hours when her husband's records show she was sick.

Deputy Clerk's timesheet:

PAYROLL TIME PERIOD:		3/3/2021	TO	3/9/2021
	TIME IN	TIME OUT	# HRS.	EXPLANATION (IF NEEDED)
WEDNESDAY	8:00 AM	8:00 PM	12	8 SICK AND EMPG PAPERWORK

TUESDAY	8:00 AM	10:00 PM	13	8 SICK/PAYABLES
TOTAL SECOND WEEK			69	

City of Kennett
Management Advisory Report - State Auditor's Findings

Husband's timesheet:

PAYROLL TIME PERIOD:	03-03-21	TO	03-07-21	
	TIME IN	TIME OUT	# HRS.	EXPLANATION (IF NEEDED)
WEDNESDAY	off		0	Wife
THURSDAY	off		0	Wife
FRIDAY	off		0	Wife
SATURDAY				
SUNDAY				
MONDAY	7	10	3	Wife
TUESDAY	off			Wife
TOTAL SECOND WEEK			3	

Unallowed overtime based on 15 hours of overtime a week The Deputy Clerk may have paid herself additional unallowed overtime totaling \$15,186. During a recorded interview, the former Fire Chief indicated the Deputy Clerk should have only worked a maximum of 15 hours per week for the fire department. Because this was not documented, and to be conservative, we calculated a potential additional misappropriated amount based on this, but did not include the amount in the total amount considered misappropriated. If the Deputy Clerk was only allowed 15 hours of overtime, an additional \$15,186 would be considered unallowed. See Appendix C for a complete list of all payroll amounts and overtime the Deputy Clerk paid herself during our audit period, including the potential additional unallowed overtime if only 15 hours was allowed per week.

Stipend payments The Deputy Clerk paid herself \$15,500 in improper stipends during the audit period. The stipend payments ranged from \$150 to \$500 per pay period. According to the former Fire Chief's recorded testimony, the Deputy Clerk was not entitled to a stipend because she earned overtime for her fire department work. Only 2 positions were approved for a stipend for fire department work, neither of which was the Deputy Clerk position.

Payroll overpayments to Deputy Clerk's husband The Deputy Clerk improperly paid her husband a total of \$4,114. The Deputy Clerk was responsible for entering her husband's payroll information into the accounting system. When doing this, she entered more hours than what he was approved to work and/or a higher rate of pay than was approved. The higher rates of pay occurred from January 28, 2021, through January 13, 2022. The following table shows the difference between what the Deputy Clerk's husband was paid and what he earned by year. See Appendix C for all payroll overpayments that the Deputy Clerk paid her husband during our audit period.

City of Kennett
Management Advisory Report - State Auditor's Findings

	Year Ended December 31,		January 1 Through March 8,	
	2020	2021	2022	Total
Amount Paid	\$ 6,302	15,227	162	21,691
Amount Earned	6,233	11,217	127	17,577
Total Difference	\$ 69	4,010	35	4,114

Additional questionable hours paid by the Deputy Clerk to her husband

During our review of the timesheets, and after discussions with the current Fire Chief (formerly the Assistant Fire Chief), we noted inconsistencies between the documented hours worked and time records that could indicate additional overpayments totaling \$2,156. Because we could not verify if her husband worked this time, and to be conservative, we considered these hours to be questionable, rather than including them in the total misappropriated amount.

Using the hours recorded on the timesheets and pay stubs, we calculated the difference in the hours the Deputy Clerk paid her husband and what was recorded on his timesheets, if available. Despite there being handwritten time on the timesheets, the Fire Chief indicated it was not normal practice to hand write hours worked and he would not have approved such time. Therefore, these handwritten hours are also possibly improper.

According to the pay stubs, the Deputy Clerk paid her husband for 1,456 hours during our audit period. However, his timesheets and paystubs indicate he only worked 1,257 hours. In total, the Deputy Clerk paid her husband \$2,156 for 199 hours of undocumented time. This is in addition to the higher pay the Deputy Clerk entered in the payroll system.

Unsupported and unallowed expense payments

The Deputy Clerk also paid herself and her husband \$6,670 for expense reimbursements, allowances, and travel that were unsupported and unallowed. See Appendix D. The Deputy Clerk did not record these payments in the payroll system, did not record some of these payments in the accounting system, and did not record some amounts accurately. We compared disbursements to the Deputy Clerk and her husband with city accounting records and any available supporting documentation to identify any discrepancies between the accounting records and the amounts disbursed.

Deputy Clerk

The Deputy Clerk paid herself over \$4,900 for expense reimbursements, phone allowances, and travel expenses that exceeded amounts allowed or were unsupported, as follows:

City of Kennett
Management Advisory Report - State Auditor's Findings

	Year Ended December 31,		January 1 Through March 8,	
	2020	2021	2022	Total
Travel	\$ 200	859	0	1,059
Reimbursement	0	0	559	559
Allowance	0	3,350	0	3,350
Total	\$ 200	4,209	559	4,968

The Deputy Clerk often paid herself more than her allowed \$50 per month cell phone allowance. For example, the Deputy Clerk paid herself an \$800 allowance on March 5 and April 1, 2021, and recorded only \$50 in the accounting system for each. On September 1, 2021, she paid herself \$850 as an allowance payment and also only recorded \$50 in the accounting system. Of the \$4,968 total unsupported and questionable payments, \$4,539 (91 percent) were not included in the city accounting records or the payments were recorded as lower amounts. City officials indicated they identified some records that were altered or deleted in the city accounting system.

Deputy Clerk's husband

The Deputy Clerk paid her husband \$1,702 for travel and expense allowances he was not authorized to receive. For example, the Deputy Clerk paid him \$200 each on March 5, 2021, and April 1, 2021 (the same days the Deputy Clerk paid herself \$800). There was no documentation to indicate the purpose of these payments and she did not record either payment in the city's accounting system. City officials indicated he was not eligible for any allowances or travel reimbursements.

Conclusion

The lack of segregation of duties and adequate controls, and the absence of proper oversight of payroll functions, as discussed in the remainder of this report, resulted in improper payments to the Deputy Clerk and her husband going undetected for a significant period of time. Additionally, city officials indicated potentially fabricated payroll records may have helped conceal the misappropriation.

1.3 Excessive benefits

The Deputy Clerk received excess vacation leave and benefits totaling over \$5,700.

Vacation leave

The Deputy Clerk used and paid herself for more vacation leave time than allowed. Based on her pay rate at the time the leave was taken or paid, this resulted in her receiving \$3,073 in additional vacation leave benefits.

The employee handbook states full-time personnel receive 80 hours of vacation time per calendar year for less than 5 years of service, and 120 hours of vacation for 5 to 10 years of service. Vacation time does not roll over from year to year. We compared vacation leave recorded on the pay stubs to her cumulative vacation leave balance and noted the following differences:

City of Kennett
Management Advisory Report - State Auditor's Findings

Amount of Vacation Leave Overpayments			
Pay Period	Hours Over Allowed Amount	Hourly Rate (From Pay Stub)	Value
04/22/2020-05/05/2020	8	\$ 17.00	\$ 136
06/03/2020-06/16/2020	8	17.00	136
07/15/2020-07/28/2020	8	27.00	216
08/26/2020-09/08/2020	8	27.00	216
10/07/2020-10/20/2020	24	27.00	648
12/16/2020-12/29/2020	8	27.00	216
2020 Total (1)	64		1,568
12/01/2021-12/14/2021	16	31.35	502
2021 Total (2)	16		502
02/23/2022-03/08/2022	32	31.35	1,003
2022 Total (3)	32		1,003
Grand Total	112		\$ 3,073

(1) The Deputy Clerk used 144 hours of vacation leave, but was only allotted 80 hours.

(2) The Deputy Clerk used 96 hours of vacation leave, but was only allotted 80 hours.

(3) The Deputy Clerk used 32 hours of vacation leave and paid herself for 120 hours of vacation leave upon her resignation, but was only allotted 120 hours.

In 2022, having passed her 5th anniversary working for the city, the Deputy Clerk was allotted 120 hours of vacation for the year. She used 32 hours of vacation leave, and also she paid herself the full 120 hours of vacation leave on her last day of employment instead of the 88 remaining hours she had available. City officials indicated they allowed the Deputy Clerk to process city payroll on her last day of employment with the city.

Benefits not deducted

The Deputy Clerk did not deduct money from her paycheck to pay for benefits, totaling at least \$2,685, during our audit period. She was enrolled in 7 benefit programs in 2021 and 2022⁴ and only deducted amounts from her paycheck in 2 of the 15 months during this time.

City employees use automatic deductions to pay for a portion or all of employee benefits including dental, medical, vision, disability, and life insurance. The Deputy Clerk was responsible for processing the deductions for all employees, including herself. We reviewed all benefit payments deducted from the Deputy Clerk's paychecks and compared the amounts to the amounts the Deputy Clerk should have paid based on her enrollment. The differences by year are listed in the following table:

⁴ The city could not provide benefit enrollment information for 2020.

City of Kennett
Management Advisory Report - State Auditor's Findings

	Year Ended December 31,		January 1 Through March 8,	Total
	2020 (1)	2021	2022	
Dental	\$ 0	379	141	520
Medical	0	680	48	728
Other Medical	0	299	163	462
Vision	0	108	35	143
AFLAC	(39)	502	154	617
Life	0	47	20	67
Additional Life	0	96	52	148
Total	\$ (39)	2,111	613	2,685

(1) The city could not provide documentation showing amounts that should have been deducted during 2020. Since documentation was not provided, and \$39 was deducted from the Deputy Clerk's paychecks, we have included this as a negative number in our calculations, indicating the amount deducted was greater than the amount that we have documentation to support withholding.

See Appendix E for the amounts, by month, of benefit payments owed and paid.

Conclusion

The lack of segregation of duties and adequate controls, and the absence of proper oversight, as discussed in the remainder of this report, resulted in improper vacation and benefits going undetected for a significant period of time. Additionally, city officials indicated potentially fabricated records may have helped conceal the misappropriation.

Recommendation

1.1-1.3 The City Council continue to work with law enforcement officials regarding criminal prosecution of the misappropriated money and questionable purchases and take the necessary actions to obtain restitution.

Auditee's Response

1.1-1.3 The City Council pledges to work with law enforcement officials regarding criminal prosecution of the misappropriated money and questionable purchases and take the necessary actions to obtain restitution.

2. Oversight, Related Parties, and Ordinances

The City Council and the City Clerk did not provide adequate oversight or sufficiently review or approve disbursements. In addition, procedures to address related parties were insufficient, and ordinances were inadequate.

2.1 Oversight and segregation of duties

The City Council and the City Clerk did not adequately oversee or segregate the various financial accounting functions performed by the Deputy Clerk, including payroll, purchasing, and disbursements. Weaknesses identified

City of Kennett Management Advisory Report - State Auditor's Findings

throughout this report are significant and demonstrate a lack of segregation of duties and oversight by the City Council and the City Clerk that led to the misappropriations and the unsupported and questionable payments and purchases noted in Management Advisory Report (MAR) finding number 1.

Payroll

The Deputy Clerk was responsible for the entire payroll process for city employees, including herself and her husband, with little or no oversight. This included entering hours worked, leave used, pay rates, and withholdings and deductions. Also, the accounting and payroll systems allow employees to override employee withholding and deduction selections without additional authorization and/or notification of the change. This allowed changes made by the Deputy Clerk to go undetected.

In addition, the City Clerk and Fire Chief did not regularly review the Deputy Clerk's timesheets, and the City Clerk did not review the Deputy Clerk's leave use and deductions. Of the 44 timesheets provided to us by the city, 24 had no signature to indicate supervisory review or approval (22 were supposed to be approved by the City Clerk and 2 by the Fire Chief). The City Clerk indicated she believed the Deputy Clerk may have switched some timesheets after she reviewed and signed them, for unsigned and potentially altered versions with increased hours. If city officials had performed a review of overall payroll records as discussed in section 2.2, the excess hours could have been detected.

Disbursements

The Deputy Clerk was able to process numerous disbursements to herself and her husband, as well as record the transactions on her Walmart credit card in the accounting system without any approval. As a result, city money was not handled and accounted for properly.

The city had no requirement that transactions related to the Deputy Clerk or her husband be reviewed. Additionally, while the city required 2 signatures on all checks, 1 signature was preprinted, the Deputy Clerk had signing authority, and no one reviewed supporting documentation prior to signing the checks, limiting the effectiveness of the dual-signature control. The Deputy Clerk signed 553 checks during our audit period, when according to the City Clerk, she was only supposed to sign in the absence of the City Clerk.

Conclusion

Proper segregation of duties and adequate supervisory review are necessary to ensure transactions are accounted for properly and assets are safeguarded. Good management practices require extensive and detailed oversight by the City Council and City Clerk. City officials indicated they trusted the Deputy Clerk, relied on her work, and believed the reports provided by her were sufficient and accurate; therefore, they did not segregate her duties or review her work in depth. City officials also indicated they were unaware of the importance of having 2 live signatures on each check.

City of Kennett Management Advisory Report - State Auditor's Findings

2.2 City Council review and approval process

The City Council did not review lists of bills, bank and credit card statements, payroll, or other financial information at City Council meetings. Reviewing such records is necessary to safeguard against the loss and misuse of funds and had the City Council performed a review of the records, it could have questioned the overpayments and improper purchases noted in MAR finding number 1. City officials indicated they were unaware of the importance of reviewing detailed accounting records and supporting documentation.

2.3 Related parties

The City Council did not adequately monitor city activities for related parties and conflicts of interest and did not have a city policy or ordinance to adequately address such instances.

The Deputy Clerk processed payroll and other payments for herself, her husband, and her ex-sister-in-law with little to no oversight. As noted in MAR finding number 1, the Deputy Clerk improperly paid herself and her husband over \$61,000 during our audit period. The city has a policy regarding related parties but it only addresses supervisor-subordinate relationships. The city's conflict of interest ordinance only addresses the disclosures that need reporting.

City Council members serve in a fiduciary capacity and have an obligation to the public to avoid the appearance of impropriety in city operations, and a lack of independence could harm public confidence in the city and reduce its effectiveness. City officials indicated they were unaware of the importance of monitoring for related parties and conflicts of interest.

2.4 Ordinances and personnel policies

City ordinance and personnel policies are not complete and do not reflect some current city practices. The city does not have an ordinance or personnel policy establishing guidelines for city employees holding multiple positions within the city. City officials indicated full-time employees can hold 2 positions simultaneously; however, this is not documented in policy and there are no guidelines on how many hours an employee is allowed to work in total or how they should be compensated. The city also does not have an ordinance or policy establishing guidelines for how overtime is calculated when an employee uses leave and claims overtime in the same week. The Deputy Clerk frequently used leave and then claimed overtime, at time and a half, for all hours over 40 in the week. The Fair Labor Standards Act (FLSA) only requires any time worked over 40 hours in a week (for nonemergency personnel) be paid at time and a half.

Because ordinances passed by the Council to govern the city and its residents have the force and effect of law, it is important they are complete, up-to-date, and followed. In addition, having city ordinances and/or personnel policies helps ensure equitable treatment and prevent misunderstandings. Failure to adequately follow and document guidelines increases the likelihood of

City of Kennett
Management Advisory Report - State Auditor's Findings

misunderstandings and inaccurate pay rates. City officials indicated they were unaware of the need to establish a city code or ordinance for these issues.

Recommendations

The City Council:

- 2.1 Segregate accounting duties and implement appropriate reviews and monitoring procedures. Additionally, the City Council should require dual live signatures on all checks by someone independent from the disbursement process.
- 2.2 Periodically review detailed accounting records including a monthly list of bills, bank and credit card statements, and payroll reports.
- 2.3 Establish policies and procedures concerning related parties and conflicts of interest.
- 2.4 Establish ordinances or policies regarding employees holding multiple positions within the city and how overtime is calculated when using leave time.

Auditee's Response

- 2.1 *The City Council has segregated accounting duties and implemented appropriate reviews and monitoring procedures and now requires dual live signatures on all checks by someone independent from the disbursement process.*
- 2.2 *The City Council, Mayor, and City Clerk are now reviewing detailed accounting records including a monthly list of bills, bank and credit card statements, and payroll reports.*
- 2.3 *The City Council has established policies and procedures concerning related parties and conflicts of interest.*
- 2.4 *The City Council will establish ordinances or policies regarding employees holding multiple positions within the city and how overtime is calculated when using leave time.*

3. Payroll and Related Matters

City officials need to significantly improve controls and procedures over payroll.

3.1 Inaccurate and missing payroll records

Inaccurate and missing payroll records allowed improper payroll overpayments to go undetected.

Timesheets

The Deputy Clerk's timesheets were not accurate and were not always prepared and retained as required by law. During sworn testimony, the Deputy Clerk indicated she worked approximately 20 hours of overtime per

City of Kennett Management Advisory Report - State Auditor's Findings

week for the fire department. However, her timesheets showed up to 49 hours of overtime work in a week, and are likely inaccurate. City officials also could not provide the Deputy Clerk's timesheets for 19 pay periods from January 1, 2020, to March 8, 2022. This included 15 timesheets from 2020 and 2021 in which she recorded both her city and fire department time and 4 time sheets from 2021 and 2022 in which she only recorded her fire department time.⁵

Leave

City officials did not reconcile leave records, which allowed excess leave to go undetected. Each employee's leave balances are tracked on a manual record that is created at the beginning of each year. Employees record their leave taken on timesheets and this information is supposed to be recorded in the accounting system as leave used and on the manual record to calculate remaining leave balances.

No one reconciled the leave recorded on timesheets, accounting records, and leave balance records so the Deputy Clerk was able to use excess leave as discussed in MAR finding number 1. For example, the Deputy Clerk's manual leave record for 2020 did not agree with leave recorded in the accounting system, and the city could not provide the Deputy Clerk's paper leave records for 2021 and 2022. City officials indicated they were unaware that leave records were not accurately kept or reconciled by the appropriate personnel. They also believe the Deputy Clerk's manual leave records may have been destroyed, since the 2021 and 2022 records for the Deputy Clerk were not with other city employee records.

Conclusion

Without adequate time and leave records, the city cannot ensure hours worked are accurate and properly documented. Leave records also aid in determining final compensation for employees leaving city employment. In addition, FLSA regulation Section 29 CFR Section 516.2(a) requires employers to maintain accurate records of actual time worked by employees. Section 109.270, RSMo, provides that all records made or received by an official in the course of his/her public duties are public property and are not to be disposed of except as provided by law. Section 109.255, RSMo, provides that the Local Records Board issues directives for the destruction of records. Record retention schedules can be found on the Secretary of State's website.⁶ The Deputy Clerk's failure to prepare and retain accurate payroll records helped conceal the misappropriation discussed in MAR finding number 1. City officials indicated they were unaware of the importance of reviewing and retaining payroll records.

⁵ For the pay periods November 3, 2021, through January 25, 2022, the Deputy Clerk submitted separate timesheets for her city work and her fire department work.

⁶ Missouri Secretary of State Records Services Division, *Local Records Retention Schedules*, August 2024, is available at <<https://www.sos.mo.gov/CMSImages/LocalRecords/General.pdf>>, accessed April 21, 2025.

City of Kennett
Management Advisory Report - State Auditor's Findings

3.2 Support for Deputy Clerk pay and additional duties

The city did not adequately document the Deputy Clerk's pay and fire department work.

The Deputy Clerk's personnel file did not contain adequate documentation of changes in her rate of pay during her employment. According to her personnel file, the Deputy Clerk's hourly wage last increased on July 1, 2020, to \$26.75 per hour. However, her pay stubs indicated she paid herself \$27 per hour starting at that time. Additionally, city meeting minutes for June 21, 2021, indicated a 5 percent per hour increase was approved, increasing the Deputy Clerk's pay to \$28.35 per hour (based on hourly pay of \$27 per hour). Another increase by \$3 per hour, to \$31.35 per hour, was approved on November 16, 2021.

In addition, City Council meeting minutes did not document approval for, and her personnel file did not include documentation of, the Deputy Clerk's work for the fire department. The city could not provide a contract or any other written documentation supporting the number of allowed hours, work to be performed, or rate of pay for that work. As noted in MAR finding number 1, the Deputy Clerk paid herself an hourly wage and a stipend for this work.

City code, Section 110.180 states, "The compensation of all officers and employees of the City shall be fixed by the Council." City procedures require each employee's rate of pay be documented in personnel files. Documentation of all personnel actions, including the City Council's authorization for hiring the employee, the employee's authorized pay rate, and any subsequent changes in pay rate are necessary to ensure payments to employees are properly authorized. City officials indicated that they were unaware that the information was not documented and records were not being kept and updated by the appropriate personnel.

Recommendations

The City Council:

- 3.1 Ensure timesheets and leave records are properly completed and retained as required. The City Council should also ensure the various leave records are reconciled.
- 3.2 Ensure all overtime, additional duties, and pay rates are approved and documented for all city employees.

Auditee's Response

- 3.1 *The City Council now ensures timesheets and leave records are properly completed and retained as required. The City Council also now ensures the various leave records are reconciled.*
- 3.2 *The City Council now ensures all overtime, additional duties, and pay rates are approved and documented for all city employees.*

4. Disbursements

Controls and procedures over disbursements need significant improvement.

4.1 Questionable and unnecessary purchases

City officials allowed numerous questionable and/or unnecessary purchases to occur, and the city does not have any guidance or policy regarding the use of city funds to purchase food, gifts, and other items. As a result, city funds were used to purchase numerous food and gift items, including candy; ingredients for chili, tacos, jambalaya, and spaghetti; and employee baby shower gifts that included baby clothes, bows, baby bottles, and a nursing pillow. The Deputy Clerk indicated, and city officials agreed, these were for city-related events; however, documentation was not available to support the reason for the events, which employees participated, or the city purpose of these events.

The city has not established any guidance or policies about food and gift purchases. Such guidance or policies regarding purchases using city funds can have various provisions. For example, the State of Missouri's agency provided food policy only allows for food at official business functions, if it will promote the efficient conduct of business, and light refreshments at other agency sponsored events (employee retirement, employee appreciation, etc.). In addition, the policy requires documentation to support food purchases including (1) purpose, (2) list of participants or estimated number of invitees, and (3) cost of food provided. The State of Missouri also has an agency gift and award policy that allows retirement, service, and other recognition award gifts that are reasonable and primarily represent a token of recognition and not a reward with a cash equivalent, such as a gift card, or a reward of substantial monetary value.

Citizens have placed a fiduciary trust in their public officials to spend city money in a prudent and necessary manner. Established policies on city-provided food and gifts would provide employees necessary guidance and better transparency for citizens about the use of public funds. Additionally, Article VI, Sections 23 and 25, of the Missouri Constitution prevent local governments from granting public money to any private individual, except as otherwise provided by law. City officials indicated they were unaware of the importance of having food and gift policies.

4.2 Supporting documentation

City officials did not ensure staff submitted supporting documentation for some purchases, including purchase orders and receipt slips or invoices, prior to processing disbursements for payment as required by city code. According to the Deputy Clerk, she would enter disbursement payments into the accounting system regardless of whether there was a purchase order or other documentation to support the purchase.

To ensure obligations incurred and amounts paid are proper, all disbursements need review, approval, and support from paid receipt slips,

City of Kennett Management Advisory Report - State Auditor's Findings

itemized vendor invoices, or other detailed documentation with payment information clearly indicated. Chapter 150 of City Code, requires a signed purchase order with the date, name of company, items, and an invoice, complete with itemized purchase and purpose, prior to payment of invoices. Failure to follow city code and properly review all invoices and supporting documentation allowed improper disbursements to occur and go undetected. City officials indicated they were unaware employees were not complying with city code.

4.3 Credit card auto pay

City officials did not review credit card statements or related supporting documentation prior to payment and instead set the credit card accounts, including the city Walmart credit card, to be paid automatically. This allowed the improper charges discussed in MAR finding number 1 to occur and go undetected.

Credit card purchases are inherently more risky than other purchases because credit card purchases are, or can be, made prior to proper approval. That risk and the potential for fraud and misuse increases when internal controls and proper procedures are lacking. To ensure charges to city cards are appropriate, charges and supporting documentation need to be reviewed prior to payment. City officials indicated they considered automatic payments to be more efficient, and did not realize the additional risk with allowing automatic payments.

Recommendations

The City Council:

- 4.1 Ensure all disbursements are a reasonable and prudent use of public funds. In addition, the City Council should establish a policy regarding food and gift purchases.
- 4.2 Ensure adequate supporting documentation is submitted prior to payment as required.
- 4.3 Establish procedures to review credit card charges and supporting documentation prior to payment and discontinue automatic payments for credit card bills.

Auditee's Response

- 4.1 *The City Council now ensures all disbursements are a reasonable and prudent use of public funds. In addition, the City Council will establish a policy regarding food and gift purchases.*
- 4.2 *The City Council now ensures adequate supporting documentation is submitted prior to payment as required.*

City of Kennett
Management Advisory Report - State Auditor's Findings

4.3 *The City Council has established procedures to review credit card charges and supporting documentation prior to payment and has discontinued automatic payments for credit card bills.*

5. Sunshine Law

Allowable topics

The City Council did not always comply with the Sunshine Law or sufficiently document discussions to demonstrate Sunshine Law compliance.

The City Council discussed and voted on some items in closed meetings that were not allowable under the Sunshine Law. For example, in a closed meeting, the City Council discussed the need for a full-time secretary. The City Council also discussed approving extra overtime pay for the police department, and paying health insurance premiums for retirees during closed sessions. These discussions were general in nature and did not refer to any personal information that would allow them to be closed.

Insufficient detail

Some meeting minutes included little or no description of the topics discussed and the information in closed meeting minutes was insufficient to ensure topics discussed were allowable. For example, the City Council's discussion allowing the Deputy Clerk to perform work for the fire department does not appear in any of the meeting minutes, although city officials indicated discussion and approval occurred during a City Council meeting. Also, one set of closed meeting minutes pertaining to the investigation of misappropriated money only indicated the meeting was "to discuss recent activities of a particular employee."

Conclusion

Sections 610.020.7, RSMo, requires meeting minutes be maintained as a record of business conducted and to provide an official record of the City Council's actions and decisions, and Section 610.021, RSMo, provides that the discussion topics and actions in closed meeting are limited to only those specifically allowed by law. Section 610.021(3), RSMo, allows certain personnel discussions to take place in closed meetings, but only when they involve the "Hiring, firing, disciplining or promoting of particular employees by a public governmental body when personal information about the employee is discussed or recorded". Section 120.060(B) of City Code states that meeting minutes be taken "including, but not limited to, a record of any vote taken at such meeting." Sufficiently detailed meeting minutes are necessary to demonstrate compliance with statutory provisions and support decisions made. City officials indicated they were unaware of these requirements.

Recommendation

The City Council ensure only topics allowed by state law are discussed in closed meetings and ensure meeting minutes are complete, accurate, and sufficiently detailed.

Auditee's Response

The City Council now ensures that only topics allowed by state law are discussed in closed meetings and that meeting minutes are complete, accurate, and sufficiently detailed.

6. Electronic Data Security

Controls over the computers in the City Clerk's office were not sufficient. As a result, city records were not adequately protected and were susceptible to unauthorized access or loss of data.

6.1 Passwords

The City Clerk did not establish adequate password controls to reduce the risk of unauthorized access to city computers and data. During our audit period, several clerks shared passwords. In addition, the city did not require staff to regularly change passwords or have a minimum number of characters for each password.

Passwords are necessary to authenticate access to computers. However, since passwords were not kept confidential or periodically changed, and were not required to contain a minimum number of characters, there was less assurance of effectively limiting access to computers and data files to only those individuals who need access to perform their job responsibilities. City officials indicated they were not aware of the importance of these requirements.

6.2 Security controls

The City Clerk's office did not have security controls in place to lock computers after a specified number of incorrect logon attempts. Logon attempt controls lock the capability to access a computer after a specified number of consecutive invalid logon attempts and are necessary to prevent unauthorized individuals from continually attempting to logon to a computer by guessing passwords. Without effective security controls, there is an increased risk of unauthorized access to computers and the unauthorized use, modification, or destruction of data. City officials indicated they were not aware of the importance of this requirement.

Recommendations

The City Council:

- 6.1 Require each employee to have a confidential password with a minimum number of characters that is periodically changed.
- 6.2 Require computers to lock after a specified number of incorrect logon attempts.

Auditee's Response

6.1 The City Council now requires each employee to have a confidential password with a minimum number of characters that is periodically changed.

6.2 The City Council now requires computers to lock after a specified number of incorrect logon attempts.

7. Electronic Communications

City personnel do not follow city code or Missouri Secretary of State guidance regarding retention of electronic communication sent via text messages. City officials indicated they did not forward text messages related to city business to their office computer or the city custodian of records as required.

Missouri Secretary of State Records Services Division guidance, as approved by the Missouri Local Records Commission, recommends government entities follow a policy on electronic messaging, including text messages, email, and other third party platforms. City Code, Section 120.030 provides that messages relating to public business that are sent by electronic means, shall also concurrently be transmitted to the official's public office computer or the custodian of records. Section 109.270, RSMo, provides that all records made or received by an official in the course of his/her public duties are public property and are not to be disposed of except as provided by law. Section 109.255, RSMo, provides that the Local Records Board issue directives for the destruction of records. The guidelines for managing electronic communications records can be found on the Secretary of State's website.⁷

Complying with city code regarding the use of electronic communications is necessary to ensure all documentation of official business of the city is retained as required. City officials indicated they were unaware of the electronic communications ordinance, and the importance of preserving all electronic communication related to city business.

Recommendation

The City Council ensure city personnel and officials follow city code regarding electronic communications management and retention to comply with Missouri Secretary of State Records Services Division electronic communications guidelines.

Auditee's Response

The City Council will ensure city personnel and officials follow city code regarding electronic communications management and retention to comply with Missouri Secretary of State Records Services Division electronic communications guidelines.

⁷ Missouri Secretary of State Records Services Division, *Electronic Communications Records Guidelines for Missouri Government*, May 14, 2019, is available at <<https://www.sos.mo.gov/CMSImages/LocalRecords/CommunicationsGuidelines.pdf>>, accessed April 9, 2025.

City of Kennett

Organization and Statistical Information

The City of Kennett is located in Dunklin County. The city was incorporated in 1873 and is currently a third-class city. The city employed 69 full-time and 14 part-time workers as of March 8, 2022. City operations include animal control, emergency services, parks, and street maintenance. The city's population was 10,515 in 2020, according to the U.S. Census Bureau.

The city government consists of a mayor and a 10-member City Council. The mayor is elected for a 4-year term, presides over the City Council, and votes only in the case of a tie. The Mayor is paid \$500 a month, and the City Council members are paid \$150 a month. The Mayor and City Council Members as of March 8, 2022, are identified below.

City of Kennett

Supporting Documentation of Misappropriated Money

The following appendixes provide supporting documentation for the misappropriated money discussed in MAR finding number 1 and are summarized in the following table:

Appendix	Type of Supporting Documentation
A	State Auditor Subpoena - Leslie Osorio
B	Improper and Questionable Purchases
C	Payroll Overpayments
D	Unsupported and Unallowed Expense Payments
E	Benefit Amounts Not Deducted from Deputy Clerk's Paycheck

Appendix A
City of Kennett
State Auditor Subpoena - Leslie Osorio

SCOTT FITZPATRICK
MISSOURI STATE AUDITOR

SUBPOENA

To: Leslie Osorio

YOU ARE COMMANDED AND REQUIRED to appear personally before the State Auditor or his representatives, Leslie Korte, General Counsel, James Kayser, Audit Manager, and Sara Woodman, Auditor In Charge at the Dunklin County Library, 209 N. Main Street, Kennett, MO 63857, at 1 p.m. on June 6th, 2024 for purposes of providing testimony, and producing for examination, copying, and interrogation the records and documents described in Exhibit A attached to this Subpoena.

In lieu of appearance, physical access to the records described in Exhibit A may be granted for State Auditor staff on or before the appearance date listed above. Alternatively, records may be shipped to the Missouri State Auditor to the attention of Sara Woodman at 149 Park Central Square, Suite 814, Springfield, MO 65806 or you may send them electronically to sara.woodman@auditor.mo.gov to be received no later than the appearance date listed above.

ISSUED this 16th day of May, 2024 pursuant to Section 29.235.4(1), of the Revised Statutes of Missouri.

Scott Fitzpatrick
Missouri State Auditor

I served the foregoing subpoena by HAND DELIVERED on this 16 day of MAY, 2024.

Appendix A
City of Kennett
State Auditor Subpoena - Leslie Osorio

SCOTT FITZPATRICK
MISSOURI STATE AUDITOR

EXHIBIT A

You are to preserve for production and inspection, and then appear as instructed on the attached subpoena and produce for inspection and examination, the following items in your possession or under your control:

All documents or other records, in whatever form, whether hard copy or electronic, pertaining or belonging to the City of Kennett for the time period January 1, 2019 through March 2022.

This request includes, but is not limited to, the following:

1. Any and all payroll records, timesheets, and invoices related to the City of Kennett.
2. Any and all board minutes and financial statements given to board members, which pertain to the City of Kennett.
3. Any and all copies of regulations, rules, procedures and policies related to the City of Kennett.
4. Any and all Walmart, Amazon, or other vendor records related to the City of Kennett.
5. Any and all documents referenced during your testimony during the interview held on May 16, 2024.

This request for records includes all materials that exist in paper ("hard copy") or electronic form (including but not limited to records and data maintained on computers, tablets, smart phones, external electronic storage drives, thumbdrive drives, remote servers or back up tapes). All information requested in the items above are subject to inspection, review and copying by the state auditor. Section 29.235.4(1), RSMo.

Payroll Overpayments to Deputy Clerk
January 1, 2020, through March 8, 2022

Pay date	Gross Pay (1)	Overtime Hours Paid	If Maximum of 20 Hours a Week Overtime Was Allowed				If Maximum of 15 Hours a Week Overtime Was Allowed	
			Amount That Should Have Been Paid	Overtime Overpayments	Stipend Amount Paid	Total Overpayments (Stipend Plus Overtime)	Amount That Should Have Been Paid	Questionable Payments
03/09/2022	2,508.00	(3) 0.00	2,508.00	0.00	0.00	0.00	2,508.00	0.00
Total 2022	19,418.75	125.00	16,302.40	2,116.35	1,000.00	3,116.35	15,361.80	940.60
Total	\$ 240,946.02	2,551.00	190,006.00	35,440.02	15,500.00	50,940.02	174,820.00	15,186.00

(1) The Deputy Clerk's pay rates were the following:

Starting Paycheck Date	Straight Time Rate (Per Hour)	Overtime Rate (Per Hour)
01/03/2020	\$ 17.00	25.50
07/02/2020	27.00	40.50
07/15/2021	28.35	42.53
12/02/2021	31.35	47.03

(2) This was a second paycheck the Deputy Clerk issued herself for this pay date.

(3) The Deputy Clerk paid herself for 120 vacation hours (\$3,762) on this paycheck, in addition to the \$2,508 of hourly wages paid. This vacation payout is included in Management Advisory Report finding number 1 as part of the excessive vacation leave, and is not included in the payroll overpayments shown in this table. The total amount of gross pay on this paycheck was \$6,270.

Total 2022	11.00		162.00	11.00			126.50	35.50	
Total	1,455.50		\$ 21,690.00	1,444.00			17,576.00	4,114.00	

- (1) The Deputy Clerk's husband's starting pay rate was \$11 per hour for his part-time Firefighter position. He received a pay rate increase to \$11.50 per hour as of July 1, 2020. His starting pay rate for the Street Department was \$12 per hour. His overtime rate was \$18 per hour for both the Firefighter and Street positions, while he was employed with the Street Department.
- (2) The Deputy Clerk's husband was a part-time Firefighter throughout our audit period, and worked full time for the Street Department from January 20 through March 15, 2021.
- (3) The city could not provide a timesheet for this pay period. To be conservative, we considered the number of hours shown on the pay stub to be an accurate reflection of hours worked.
- (4) According to the city, this is a Hazard Pay Stipend that was approved by City Council and is consistent with what other employees received.
- (5) Hours were handwritten on the timesheet. We were unable to determine whether these hours were approved by a supervisor. To be conservative, we considered the handwritten hours to be an accurate reflection of hours worked.
- (6) The Deputy Clerk's husband was paid for 55 hours at the overtime rate; however, he worked a total of 95 hours during the 2-week period. As a result, 80 hours should have been paid at straight time, and 15 hours should have been paid at overtime rates.
- (7) These two paychecks, dated March 11, 2021, and February 24, 2021, were for the same pay period. The Deputy Clerk's husband worked a total of 94.5 hours during the 2-week period. As a result, 80 hours should have been paid at straight time, and 14.5 hours should have been paid at overtime rates; however, he was paid for 22 hours at the overtime rate.
- (8) These hours were listed on the pay stub as Police Department hours, but there was no documentation to support authorization of these hours; therefore, we considered them unauthorized.

Total			\$ 6,256.45	2,517.18	4,968.36

- (1) Personal banking records for the Deputy Clerk and her husband list the transaction description as "City of Kennett Travel," "City of Kennett Reimburse," and "City of Kennett Allowance." Payments are categorized according to these descriptions.
- (2) City officials indicated there is no supporting documentation for this payment and it is considered to be unsupported.
- (3) The Deputy Clerk was allowed a \$50 monthly phone allowance; amounts over this without documentation were considered to be unsupported.
- (4) The city refunds employees \$750 when they meet their medical insurance deductible; however, the Deputy Clerk's payroll deductions did not show her paying her part of the premium in fiscal year 2021 until September 2021, and the amounts of deductions were incorrect; therefore, we considered this refund amount to be unsupported.
- (5) City banking records show this \$799.56 transaction was made out to the Deputy Clerk's husband. The transaction was partially supported as mileage for a conference attended by the Deputy Clerk. The remaining \$430.37 was unsupported, which we attributed to the Deputy Clerk because the supported amount was a reimbursement for her expenses.
- (6) The City Clerk stated this cost was paid with a city credit card and should not have been reimbursed to the Deputy Clerk.
- (7) The Deputy Clerk paid \$618.90 using her personal funds but was only reimbursed \$588.90. We are offsetting the overpayments with this \$30.00 underpayment.

Appendix D is continued on the next page with Unsupported and Unallowed Expense Payments to Deputy Clerk's husband

CITIZENS SUMMARY

Findings in the Annual Comprehensive Financial Report (ACFR) Report on Internal Control, Compliance, and Other Matters

Department of Revenue Financial Reporting Controls

As has been similarly noted in three previous audits, the Department of Revenue (DOR) does not have adequate controls and procedures over financial reporting of certain governmental and custodial fund activities. As a result, numerous balances submitted to the Office of Administration - Division of Accounting (DOA) for inclusion in the ACFR for the year ended June 30, 2024, were materially misstated.

The DOR did not follow current methodology to determine net sales and use tax accounts receivable balances. Certain lapsed period collections were excluded when calculating accounts receivable balances. If this error had not been identified during the audit, Sales and Use Tax Non-State Fund (a custodial fund) net accounts receivable balances would have been understated by approximately \$60.9 million in the ACFR.

The DOR did not include pass-through entity taxes when determining income tax accounts receivable balances. If this error had not been identified during the audit, Government Wide - Governmental Activities and General Fund net accounts receivable balances would have been understated by approximately \$36.2 million in the ACFR. A revised report submitted to the DOA to address this error contained calculation errors, and resulted in net accounts receivable and related liability balances being understated by approximately \$26.7 million.

The DOR made several data entry and calculation errors in the custodial fund balances and financial activities for the Motor Fuel Tax and Bonds Non-State Fund, the Sales and Use Tax Non-State Fund, and the Family Support Trust Non-State Fund. Some amounts did not match supporting documentation and some balances were not properly updated following revisions to source documentation. If these errors had not been identified during the audit, certain Custodial Funds - Program assets and activity would have been understated in the ACFR by approximately \$166 million and \$1.2 billion, respectively.

The DOR submitted revised reports to the DOA to correct these misstatements prior to completing the ACFR.

Medicaid and CHIP Receipt Controls

As previously noted in the State of Missouri Single Audit report for the year ended June 30, 2023, the Department of Social Services (DSS) - MO HealthNet Division (MHD) does not have adequate controls to ensure proper management of receipts. The MHD does not adequately restrict user access within the Medicaid Management Information System and does not account for all cash control numbers to ensure all checks and money orders are properly deposited or returned to senders if the payment cannot be accepted. During the year ended June 30, 2024, the MHD processed receipts totaling approximately \$1.5 billion.

Because of the nature of this audit, no rating is provided.

State of Missouri - Annual Comprehensive Financial Report

Report on Internal Control, Compliance, and Other Matters

Introduction

Summary of Financial Statement Audit Results

In fulfillment of our duties under Section 29.200.10, RSMo, we issued our audit report (Report No. 2025-016¹) of the State of Missouri's Annual Comprehensive Financial Report (ACFR), as of and for the year ended June 30, 2024, on April 2, 2025.

The State of Missouri's fiscal year 2024 financial statements covered approximately \$66 billion in total assets and approximately \$40 billion in total expenses for the primary government. Our report expressed qualified opinions on the governmental activities and the General Fund because we were not allowed access to tax returns and related source documents for income taxes. Our report expressed unmodified opinions on all remaining opinion units.

In connection with the audit, we tested internal controls and compliance with laws and regulations. The results of our tests are contained herein in our Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*. We reported 2 findings related to internal control deficiencies at 2 state agencies. We consider both findings to be material weaknesses. Both findings were repeated from prior audits with 1 of the findings reported in the 3 prior years.

The state agencies' responses to the findings are included in this report. The agencies prepared a Corrective Action Plan (CAP) for each finding. The CAPs were submitted to the Office of Administration (OA) and will be included in the Corrective Action Plans section of the State of Missouri - Single Audit report, to be issued later.

State agencies and an office prepared and submitted to the OA the status of the prior audit findings. They will be presented in the Summary Schedule of Prior Audit Findings section of the State of Missouri - Single Audit report.

¹ The State of Missouri's Annual Comprehensive Financial Report (ACFR) is available online at: <<https://oa.mo.gov/accounting/reports/annual-reports/annual-comprehensive-financial-reports>>.

SCOTT FITZPATRICK
MISSOURI STATE AUDITOR

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED
IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

Honorable Mike Kehoe, Governor
and
Members of the General Assembly

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States (*Government Auditing Standards*), the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the State of Missouri, as of and for the year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise the State of Missouri's basic financial statements, and have issued our report thereon dated April 2, 2025. Our report expressed qualified opinions on the governmental activities and the General Fund, a major fund, because we were not allowed access to tax returns and related source documents for income taxes. Approximately 24 percent of governmental activities revenues and 27 percent of General Fund revenues are from this source. We were unable to satisfy ourselves by appropriate audit procedures as to the income tax revenue beyond the amounts recorded. Our report expressed unmodified opinions on all remaining opinion units.

Our report on the State of Missouri's financial statements includes a reference to other auditors who audited the financial statements of:

1. The Missouri Road Fund, a major fund; the Missouri Road Bond Fund; the Conservation Employees' Insurance Plan; the Transportation Self-Insurance Plan; the Missouri State Employees' Insurance Plan; the Missouri Consolidated Health Care Plan; and the Missouri Department of Transportation and Missouri State Highway Patrol Medical and Life Insurance Plan, which represent 58 percent of the assets and 10 percent of the revenues of the governmental activities.
2. The State Lottery Fund, a major fund, and the Petroleum Storage Tank Insurance Fund which represent 11 percent of the assets and 81 percent of the revenues of the business-type activities.
3. The aggregate discretely presented component units.

4. The pension (and other employee benefit) trust funds and the Missouri Department of Transportation custodial funds which represent 92 percent of the assets and 26 percent of the additions of the fiduciary funds.

This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors.

The financial statements of the Conservation Employees' Insurance Plan and the Missouri Consolidated Health Care Plan (MCHCP), internal service funds; the Missouri Development Finance Board, the Missouri Agricultural and Small Business Development Authority, and the State Environmental Improvement Energy Resources Authority, discretely presented component units; and the Missouri Department of Transportation and Highway Patrol Employees' Retirement System and the MCHCP State Retiree Welfare Benefit Trust, pension (and other employee benefit) trust funds, were not audited in accordance with *Government Auditing Standards*. Accordingly, this report does not include reporting on internal control over financial reporting or compliance and other matters associated with these entities and funds.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the State of Missouri's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the State of Missouri's internal control. Accordingly, we do not express an opinion on the effectiveness of the State of Missouri's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the State of Missouri's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. We identified certain deficiencies in internal control, described in the accompanying Schedule of Findings and Responses as finding numbers FS2024-001 and FS2024-002, that we consider to be material weaknesses.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the State of Missouri's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests

disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

State of Missouri's Responses to Findings

Government Auditing Standards requires the auditor to perform limited procedures on the State of Missouri's responses to the findings identified in our audit and described in the accompanying Schedule of Findings and Responses. The State of Missouri's responses were not subjected to the audit procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the responses.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose. However, pursuant to Section 29.200, RSMo, this report is a matter of public record and its distribution is not limited.

A handwritten signature in black ink, appearing to read "Scott Fitzpatrick". The signature is stylized with a large, looped "S" and a cursive "Fitzpatrick".

Schedule of Findings and Responses

FS2024-001.

Department of Revenue

Financial Reporting

Controls

As similarly noted in our 3 previous audits,² the Department of Revenue (DOR) does not have adequate controls and procedures over financial reporting of certain governmental and custodial fund financial activities. As a result, several balances submitted to the Office of Administration - Division of Accounting (DOA) for inclusion in the State of Missouri Annual Comprehensive Financial Report (ACFR) for the year ended June 30, 2024, were materially misstated.

To determine and submit financial activities of governmental and custodial funds to the DOA, the DOR - Administration Division first obtains reports generated from the DOR's various computerized systems. Information from these reports is then extracted into schedules, and various calculations are performed to determine the balances to be reported to the DOA. Our review of the governmental and custodial fund balances submitted to the DOA for inclusion in the ACFR identified several misstatements that were not identified by the DOR internal control system, including the following.

- The DOR did not follow current methodology to determine net sales and use tax accounts receivable balances. Certain lapsed period collections were excluded when calculating accounts receivable balances. If this error had not been identified during the audit, Sales and Use Tax Non-State Fund (a custodial fund³) net accounts receivable balances would have been understated by approximately \$60.9 million in the ACFR.
- The DOR did not include pass-through entity taxes when determining income tax accounts receivable balances. If this error had not been identified during the audit, Government Wide - Governmental Activities and General Fund net accounts receivable balances would have been understated by approximately \$36.2 million in the ACFR. Additionally, a revised report submitted to the DOA to address this error contained calculation errors, and resulted in net accounts receivable and related liability balances being understated by approximately \$26.7 million.
- The DOR made several data entry and calculation errors in the custodial fund balances and financial activities for the Motor Fuel Tax and Bonds Non-State Fund, the Sales and Use Tax Non-State Fund, and the Family Support Trust Non-State Fund. Some amounts did not match supporting documentation and some balances were not properly updated following revisions to source documentation. If these errors had not been identified

² See State of Missouri Annual Comprehensive Financial Report - Report on Internal Control, Compliance, and Other Matters at <<https://auditor.mo.gov/AuditReport/Reports?SearchLocalState=3>>, finding numbers FS2023-002, FS2022-001, and FS2021-001.

³ Custodial funds are included in the Aggregate Remaining Fund Information opinion unit.

State of Missouri - Annual Comprehensive Financial Report
Report on Internal Control, Compliance, and Other Matters
Schedule of Findings and Responses

during the audit, certain Custodial Funds - Program balances would have been misstated in the ACFR as noted in the following table.

Account Type	Custodial Funds - Program		
	Overstatement	(Understatement)	Net
Assets	\$ 0	(166,436,000)	(166,436,000)
Additions	12,106,000	(690,596,000)	(678,490,000)
Deductions	0	(536,267,000)	(536,267,000)

After we identified these errors and discussed them with DOR personnel, the Administration Division submitted revised reports to the DOA. Except for the \$26.7 million error noted in the second bullet point, the DOA made the corrections prior to completing the ACFR. Since the \$26.7 million error did not result in a material misstatement to the affected opinion units, no revisions were made by the DOA.

In response to our previous findings, the DOR established a two-step review process for all financial reports submitted to the DOA and the SAO. However, DOR officials indicated the newly implemented review process did not detect the errors noted above due to continued significant turnover in Administration Division personnel.

It is essential the DOR strengthen controls and procedures to prepare and submit accurate and timely financial reports to the DOA. The *Standards for Internal Control in the Federal Government*, issued by the Comptroller General of the United States, states management is responsible for the design, implementation, and operating effectiveness of the internal control system and the control activities should be designed to achieve objectives and respond to risks. Such controls would allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements.

Recommendation

The DOR strengthen controls and procedures to prepare and submit accurate and timely financial reports to the DOA.

Auditee's Response

The Department of Revenue understands the auditor's finding and is strengthening our two-step review process of financial reporting. Our Corrective Action Plan includes our planned actions to address the finding.

State of Missouri - Annual Comprehensive Financial Report
Report on Internal Control, Compliance, and Other Matters
Schedule of Findings and Responses

FS2024-002.
Medicaid and CHIP
Receipt Controls

As previously noted in our State of Missouri Single Audit report for the year ended June 30, 2023,⁴ the Department of Social Services (DSS) - MO HealthNet Division (MHD) does not have adequate controls to ensure proper management of receipts. The MHD does not adequately restrict user access within the Medicaid Management Information System (MMIS)⁵ and does not account for all cash control numbers to ensure all checks and money orders are properly deposited or returned to senders if the payment cannot be accepted.

During the year ended June 30, 2024, the MHD Financial Operations and Reporting Unit (FORU) processed Medicaid and Children's Health Insurance Program (CHIP) receipts totaling approximately \$1.5 billion. These receipts included checks and money orders received from participants, providers, and insurance companies for items such as premiums, reimbursements, and taxes.

FORU staff receive checks and money orders, post the receipts to the receipt module of the MMIS, and prepare deposit transmittals. MHD program staff apply the receipts to the applicable accounts in the accounts receivable module in the MMIS. Of the approximately \$1.5 billion received, about \$300,000 (.02 percent) was received through a contracted bank lockbox, and then posted to the Automated Health System (AHS)⁶ by contractor employees.

MMIS user access

The MHD does not adequately restrict user access within the receipts and accounts receivable modules in the MMIS. The FORU Senior Accountant and Accountant can access checks and money orders, record receipts and change receipt records in the MMIS, update or close the related accounts receivable in the MMIS, apply the restrictive endorsement to checks, and prepare deposit transmittals. MHD officials indicated these two employees need full access to the MMIS in case of employee absences or turnover. In response to our single audit finding, in August 2024, the MHD implemented some documented supervisory reviews of entries and changes made in the MMIS by employees whose duties are not segregated. However, not adequately reviewing all activities of these employees increases the risks of misappropriation and undetected errors.

Segregating the duties of handling and recording receipts from the duties of modifying accounts receivable records is necessary to ensure transactions are handled properly. If proper segregation of duties cannot be achieved, it is

⁴ See single audit report at <<https://auditor.mo.gov/AuditReport/ViewReport?report=2024063>>, finding number 2023-004.

⁵ The MMIS is accessed through a web portal called eMMIS.

⁶ The system is also called HealthTrack.

State of Missouri - Annual Comprehensive Financial Report
Report on Internal Control, Compliance, and Other Matters
Schedule of Findings and Responses

essential to document thorough independent or supervisory reviews of MMIS entries and changes made by employees whose duties are not segregated.

Cash control numbers

The MHD's reconciliations of receipts, deposits, and checks and money orders on hand are not sufficient to account for all cash control numbers to ensure all checks and money orders received are properly deposited or returned to senders.

The MMIS and the AHS assign receipt numbers, also called cash control numbers, when receipts are scanned and posted in the systems. MHD staff reconcile receipts listed on deposit transmittals to system-generated deposit reports daily, and reconcile open transaction reports to checks and money orders in the MHD's safes weekly. However, neither of these reconciliations account for the sequence of all cash control numbers. MHD officials indicated there are instances in which the systems skip a cash control number due to a system error when a receipt is being recorded. In response to our single audit finding, in August 2024, the MHD implemented procedures to account for the sequence of cash control numbers. However, these procedures cover some, but not all, types of receipts.

During a count of undeposited items and a review of related receipt records on November 5, 2024, auditors noted numerous omitted cash control numbers. Failure to properly account for cash control numbers increases the risk of misappropriation.

Conclusions

Strong internal controls are necessary to ensure Medicaid and CHIP receipts are accounted for properly. Regulation 45 CFR Section 75.303(a) requires the non-federal entity to "[e]stablish and maintain effective internal controls over the Federal award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award. These internal controls should be in compliance with guidance in *Standards for Internal Control in the Federal Government*, issued by the Comptroller General of the United States or the *Internal Control Integrated Framework*, issued by the Committee of Sponsoring Organizations of the Treadway Commission." Paragraphs 10.03 and 10.12 of the *Standards for Internal Control in the Federal Government*, also known as the Green Book, provide that management should establish physical controls to periodically compare vulnerable assets to control records; secure and safeguard vulnerable assets; and consider segregation of duties in designing control activity responsibilities so that incompatible duties are segregated and, where such segregation is not practical, design alternative control activities to address the risk.

State of Missouri - Annual Comprehensive Financial Report
Report on Internal Control, Compliance, and Other Matters
Schedule of Findings and Responses

Recommendation

The DSS through the MHD continue to review, strengthen, and enforce internal controls over Medicaid and CHIP receipts. The MHD should restrict user access within the MMIS for FORU accounting personnel and adequately segregate asset custody and receipt recording duties from accounts receivable duties, or perform documented supervisory reviews of MMIS entries and changes made by employees whose duties are not segregated. In addition, the MHD should establish procedures to account for all cash control numbers to ensure all receipts are deposited or returned to senders.

Auditee's Response

MHD has implemented a process to document supervisory reviews of the Finance Manual Checks Quarterly report to ensure segregation of duties in HealthTrack/AHS. This process began in August 2024. As a result of clarification on the finding during the FY24 audit, additional information has been added to the Finance Manual Check Quarterly report to include transactions the FORU Manager performed in the AHS system. This change was requested beginning in March 2025 and will be in use as soon as the report is available for review. MHD will continue to perform the audit of clerk ID ad hoc reports to review any segregation of duties within the MMIS.

MHD implemented a process to ensure all cash control numbers in HealthTrack/AHS are accounted for by establishing a new cash control number (CCN) sequence, exclusive to manual checks logged within the FORU. This resolved the issue of cash control numbers for participant checks occurring out of sequence due to AHS running files in the background at the same time checks are being logged. This portion of the implementation occurred in August 2024. During the FY24 audit, MHD received further clarification and is implementing a review of a monthly report containing missing and unused cash control numbers for provider checks in eMMIS. This will be compared to a file updated by the Accounts Assistant with the daily cash control numbers used. FORU will use the monthly report to document reasons for any unused or skipped CCNs. This process is being completed monthly beginning March 2025.

Scott Fitzpatrick

Missouri State Auditor

Randolph County

Report No. 2025-029

May 2025

auditor.mo.gov

Scott Fitzpatrick
Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of Randolph County

Election Administration

The County Clerk failed to publish sample ballots for elections held in the county in accordance with state law. As a result, one political subdivision could not issue bonds approved by voters. In August and November, 2024, voters approved two bonds for the Higbee Fire Protection District. However, when the district attempted to register the bonds with the State Auditor's Office (SAO), the SAO determined neither the August nor the November 2024 elections complied with state law, which requires publication of the sample ballot in a newspaper of general circulation prior to the election. Due to the County Clerk's errors, the fire protection district is forced to place the bond issue on the ballot for a third time.

County Clerk's Controls and Procedures

The County Clerk failed to accurately calculate estimated election costs and did not reconcile the estimated costs to actual costs and prepare revised bills or issue refunds as appropriate. After multiple elections, the County Clerk did not reconcile the amount billed to the actual costs of the elections and bill (or refund) the taxing entity for the difference. As a result, the County Clerk did not bill taxing entities \$53,046 for the April 2023, August 2024, and November 2024 elections. The County Clerk overbilled taxing entities \$1,656 for the April 2024 election. The County Clerk reported incorrect assessed valuation totals for the 2024 tax year to the SAO and the taxing entities for all 39 property tax levies assessed by 24 taxing entities in the county. As a result, the entities' calculations of the allowable tax rate ceilings may not be accurate. For 1 jurisdiction, the County Clerk entered the assessed valuation of personal property in the jurisdiction as \$15.1 million instead of \$151.1 million. For 2 entities, the County Clerk failed to include the value of state-assessed Railroad and Utility assets when entering the assessed valuations. As a result, the total assessed valuations were understated by \$9.9 million for one entity and \$353,000 for the other. The County Clerk provided revised assessed valuations to some districts on August 26, 2024, after the July 20 deadline established by state law; however, she did not update the certified amount with the SAO. As a result of these errors, 3 districts levying 4 tax rates had assessed valuations overstated between \$953,000 and \$13.9 million, and 21 districts levying 35 tax rates had assessed valuations understated between \$2,500 and \$220 million. The County Clerk did not properly calculate property tax reductions; as a result the county may have collected excessive property taxes. The County Clerk has not established proper receipt controls.

Public Administrator's Annual Settlements

During a review of 12 haphazardly selected active cases with annual settlements due in 2023, the audit found the Public Administrator did not timely file 10 settlements. Settlements for these cases were filed between 21 and 455 days after the due date.

Sunshine Law

The County Commission did not always comply with the Sunshine Law for closed meetings. Closed meeting minutes were not adequate to document compliance with the Sunshine Law, included discussions of topics not allowed in closed meetings, and cited improper statutes for closing the meeting.

Sheriff's Compensation	The County Commission authorized mid-term salary increases to the Sheriff totaling \$42,804 as of December 2024, in violation of constitutional provisions and state law.
Electronic Communication Policy	The county has not developed a records management and retention policy that includes electronic communication in compliance with the Missouri Secretary of State Records Services Division guidance, as approved by the Missouri Local Records Commission.
Additional Comments	Because counties are managed by several separately elected individuals, an audit finding made with respect to one office does not necessarily apply to the operations in another office. The overall rating assigned to the county is intended to reflect the performance of the county as a whole. It does not indicate the performance of any one elected official or county office.

In the areas audited, the overall performance of this entity was **Poor**.*

*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

- Excellent:** The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.
- Good:** The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.
- Fair:** The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.
- Poor:** The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

----------	---------------------------------------

SCOTT FITZPATRICK MISSOURI STATE AUDITOR

County Commission
and
Officeholders of Randolph County

We have audited certain operations of Randolph County in fulfillment of our duties under Section 29.230, RSMo. The scope of our audit included, but was not necessarily limited to, the year ended December 31, 2023. The objectives of our audit were to:

1. Evaluate the county's internal controls over significant management and financial functions.
2. Evaluate the county's compliance with certain legal provisions.
3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.

Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the county; and performing sample testing using haphazard and judgmental selection, as appropriate. The results of our sample testing cannot be projected to the entire populations from which the test items were selected. We obtained an understanding of internal control that is significant to the audit objectives and planned and performed procedures to assess internal control to the extent necessary to address our audit objectives. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted this performance audit in accordance with generally accepted government auditing standards. Those standards require that we plan and perform the audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides a reasonable basis for our findings and conclusions based on our audit objectives.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the county's management and was not subjected to the procedures applied in our audit of the county.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, and (3) the need for improvement in management practices and procedures. The accompanying Management Advisory Report presents our findings arising from our audit of Randolph County.

An additional audit of the Randolph County Sheriff, fulfilling our obligations under Section 29.230, RSMo, is in process, and any additional findings and recommendations will be included in the subsequent report.

A handwritten signature in black ink, appearing to read "Scott Fitzpatrick". The signature is stylized with a large, looped "S" and a cursive "Fitzpatrick".

Scott Fitzpatrick
State Auditor

Randolph County

Management Advisory Report

State Auditor's Findings

1. Election Administration

The County Clerk failed to publish sample ballots for elections held in the county in accordance with state law. As a result, one political subdivision could not issue bonds approved by voters.

The Higbee Fire Protection District requested the county place a question for voters to approve the district issuing \$1 million in bonds for fire stations and emergency rescue equipment on the August 2024 ballot. The district later requested an additional \$620,000 in bonds on the November 2024 ballot. Both ballot measures were approved by voters.

In February 2025, the district attempted to register the bonds with the State Auditor's Office (SAO), as required by law, before issuing the bonds. During registration, the SAO determined neither the August nor the November 2024 elections complied with Section 115.127.2, RSMo, which requires publication of the sample ballot in a newspaper of general circulation prior to the election. For both elections, the County Clerk published a list of polling places, but did not publish sample ballots. Accordingly, the SAO denied registration of the bonds.

The County Clerk indicated she was unaware an elections clerk had not published sample ballots as required. The County Clerk also noted Section 115.391, RSMo, only requires sample ballots to be posted in the clerk's office and does not mention publishing the ballot in a newspaper. However, both statutes apply and the County Clerk is required to follow all election laws.

Due to the County Clerk's errors, the fire protection district is forced to place the bond issue on the ballot for a third time. As taxing entities are required to pay for the costs of elections, this represents an additional cost to the district. Compliance with all statutory election requirements is necessary to ensure voters are properly informed and elections are fair and equitable.

Recommendation

The County Clerk publish sample ballots in accordance with state law.

Auditee's Response

The County Clerk will follow up with the election clerk to ensure all sample ballots are published in the local paper two (2) times as per Section 115.127, RSMo.

2. County Clerk's Controls and Procedures

Controls and procedures in the County Clerk's office need improvement. The County Clerk did not appropriately bill entities for the costs of elections, failed to accurately report assessed valuations to the SAO and taxing entities, failed to accurately calculate reductions in the property tax levy for sales taxes collected, and did not have adequate receipting controls.

2.1 Election Billing

The County Clerk failed to accurately calculate estimated election costs and did not reconcile the estimated costs to actual costs and prepare revised bills or issue refunds as appropriate.

Randolph County Management Advisory Report - State Auditor's Findings

Section 115.077.3, RSMo, requires the county clerk estimate the costs of the election and bill each entity with items on the ballot for its share of the estimated costs at least 5 weeks prior to an election. Section 115.077.4, RSMo, further provides that within 10 weeks after the election, the county clerk must calculate the actual costs of the election and bill (or refund) each entity the difference between the estimated and actual costs. Section 115.065, RSMo, indicates the share of costs billed to each entity is to be calculated as the share of registered voters of that entity to the total number of registered voters for all entities with items on the ballot.

When preparing the election bills prior to the election, the County Clerk does not calculate the estimated total costs and apply a percentage of registered voters to determine each taxing entity's bill. Instead, she multiplies the number of registered voters in each entity on the ballot by a fixed amount of 92.18435 cents. The County Clerk indicated she uses the same calculation used by the prior county clerk and does not know how the fixed amount was determined.

After the election, the County Clerk does not reconcile the amount billed to the actual costs of the election and bill (or refund) the taxing entity for the difference. The following table shows the estimated billings prepared by the County Clerk compared to actual costs for the 4 elections held in 2023 and 2024.

Election	Amount Billed	Actual Costs	Difference
April 2023	\$ 26,753	34,088	(7,335)
April 2024	39,827	38,171	1,656
August 2024	31,972	48,101	(16,129)
November 2024	16,871	46,453	(29,582)
Total			\$ (51,390)

The only jurisdiction the County Clerk billed actual costs to after the election was the State of Missouri for the November 2024 election. The County Clerk did not bill the state for the August 2024 election.¹ However, the actual costs billed to the state for the November 2024 election were not accurate. When preparing the state bill, the County Clerk reported the total costs of the election were \$37,974. The state was correctly charged a percentage of this based on the percentage of registered voters (approximately 47 percent). However, data maintained by the County Clerk indicates the actual final costs of the election were \$46,453. Had the County Clerk correctly reported the

¹ The April 2023 and April 2024 elections were municipal elections with no statewide issues on the ballot. Accordingly, no costs were due from the state, and no bills were sent.

Randolph County Management Advisory Report - State Auditor's Findings

total costs to the state, the county could have obtained an additional \$4,017 of state reimbursements.

The County Clerk indicated that, except for the state, the county has never billed taxing entities for the balance of the actual cost of elections. The County Clerk did not know why this decision was originally made. She indicated the failure to bill the state for the August 2024 actual costs was an oversight. As a result of these issues, the county may have lost the opportunity to recoup election costs from taxing entities.

2.2 Assessed Valuation

The County Clerk reported incorrect assessed valuation totals for the 2024 tax year to the SAO and the taxing entities for all 39 property tax levies assessed by 24 taxing entities in the county.² As a result, the entities' calculations of the allowable tax rate ceilings may not be accurate.

The County Clerk made numerous errors when reporting the assessed valuations of each taxing jurisdiction. For example:

- For 1 jurisdiction, the County Clerk entered the assessed valuation of personal property in the jurisdiction as \$15.1 million instead of \$151.1 million. As a result, the jurisdiction's total assessed valuation was understated by \$136 million.
- For 2 entities, the County Clerk failed to include the value of state-assessed Railroad and Utility assets when entering the assessed valuations. As a result, the total assessed valuations were understated by \$9.9 million for one entity and \$353,000 for the other.
- The County Clerk reported preliminary assessed valuations for taxing entities as of June 26, 2024, and did not update these values for additional addition and abatement activity that occurred before the values were finalized in July 2024.

The County Clerk provided revised assessed valuations to some districts on August 26, 2024, after the July 20 deadline established by Section 137.245.3, RSMo; however, she did not update the certified amount with the SAO. The submission of multiple assessed valuations to the taxing districts may have caused further confusion as to which was accurate.

As a result of these errors, 3 districts levying 4 tax rates had assessed valuations overstated between \$953,000 and \$13.9 million, and 21 districts

² Individual taxing jurisdictions can issue multiple tax levies; for example the county may issue a levy for General Revenue and a separate levy for debt service.

Randolph County Management Advisory Report - State Auditor's Findings

levying 35 tax rates had assessed valuations understated between \$2,500 and \$220 million.

Tax rate ceilings are determined based on the requirements of the Missouri Constitution, Article X, Section 22 (commonly referred to as the Hancock Amendment), and Section 137.073, RSMo. Using incorrect assessed valuations when calculating property tax rates may result in the county calculating a tax rate ceiling higher than allowed by state law. The County Clerk indicated she was unaware of the proper procedures required to report assessed valuations correctly.

2.3 Sales Tax Rollback

The County Clerk did not properly calculate property tax reductions; as a result the county may have collected excessive property taxes.

Section 67.505, RSMo, requires the county to reduce property taxes for a percentage of sales taxes collected. Randolph County voters enacted a one-half cent sales tax with a provision to reduce property taxes by 50 percent of sales taxes collected. The county is required to estimate the annual property tax levy to meet the 50 percent reduction requirement and to provide for an adjustment for actual sales tax collections of the preceding year that are more or less than the estimate for the preceding year.

The property tax reductions were incorrect because the County Clerk did not accurately account for any difference between estimated and actual sales taxes collected for the preceding year and did not use correct current year-to-date collections to estimate current year collections. The County Clerk indicated she did not understand the proper procedures required to calculate the sales tax rollback. The failure to properly account for this difference can either further increase or decrease the property tax reduction required depending on whether more or less sales tax was actually received than what was estimated.

To ensure property tax levies are properly set and property tax rate ceilings are maintained, the County Commission and County Clerk should ensure property tax levy reductions are accurately calculated, reported, and certified.

2.4 Receipting Controls

The County Clerk has not established proper receipt controls. The County Clerk receives payments for the purchase of plat books and maps, as well as for providing notary and copy services. The County Clerk's office collected approximately \$3,100 in these fees during the year ended December 31, 2023.

Our review of receipt slips during our March 27, 2024 cash count found that for 6 of the 8 receipts on hand, the receipt slip did not indicate the individual from whom the funds had been received. In addition, the method of payment was not indicated on 2 of the 8 receipt slips. As a result, the composition of receipts cannot be reconciled to the composition of deposits.

Randolph County Management Advisory Report - State Auditor's Findings

Checks are not restrictively endorsed when received. Neither of the 2 checks on hand during the cash count were restrictively endorsed. The County Treasurer applies the restrictive endorsement following transmittal.

According to the County Clerk, staff were supposed to complete the receipt slips completely and a lack of supervisory review allowed the receipting issues to go undetected. Failure to implement adequate receipting and recording procedures increases the risk of loss, theft, or misuse of money received going undetected.

Recommendations

The County Clerk:

- 2.1 Begin performing reconciliations of estimated to actual election costs and billing entities (or issuing refunds) as appropriate. Additionally, the county should make efforts to resolve any errors from previous inaccurate billings.
- 2.2 Work with the County Commission, taxing entities, and the SAO to determine how to correct the assessed valuations. In addition, establish procedures to ensure assessed valuations are properly reported to the SAO and taxing entities in the future.
- 2.3 Work with the County Commission to properly calculate property tax rate reductions and determine if over collection of property taxes has occurred.
- 2.4 Ensure receipt slips are filled out completely, including payor and method of payment, and checks are restrictively endorsed upon receipt.

Auditee's Response

- 2.1 *The County Clerk put into place, beginning with the April 2025 municipal election, the correctly formatted spreadsheet for the estimated cost of elections. The estimates are then reconciled with the actual cost of elections, and the difference billed (or refunded) to the taxing entities. The County Clerk has decided it would not be fair to jurisdictions to request repayment for the county's errors that occurred in the past and has decided not to pursue collection of past under billings. The County Clerk will review any amounts that need refunded.*
- 2.2 *The spreadsheet for which the valuations had been calculated had incorrect formulas in it. When the errors were found, the valuations were corrected and sent out to the taxing entities.*

Randolph County
Management Advisory Report - State Auditor's Findings

- 2.3 *After learning about the rules surrounding the rollback, the County Clerk revised the spreadsheet and will use the corrected spreadsheet going forward.*
- 2.4 *The County Clerk has changed the policy on the petty cash receipts to include the name of the person paying instead of "plat book" or "notary." All checks are endorsed after receiving, and the correct box is checked for the payment type.*

3. Public Administrator's Annual Settlements

The Public Administrator does not always file annual settlements timely. The Public Administrator is the court-appointed personal representative for wards or decedent estates of the Circuit Court, Probate Division. The Public Administrator's office was responsible for the financial activity of 132 wards and estates as of December 31, 2023.

During our review of 12 haphazardly selected active cases with annual settlements due in 2023, we noted the Public Administrator did not timely file 10 settlements. Settlements for these cases were filed between 21 and 455 days after the due date. The Public Administrator indicated the office's high workload and low staffing caused the delayed settlements.

Sections 473.540 and 475.270, RSMo, require the Public Administrator to file an annual settlement with the court for each ward or estate. Timely filing of annual settlements is necessary for the court to properly oversee the administration of cases and reduce the possibility that errors, loss, theft, or misuse of funds will go undetected.

A similar condition was noted in our prior 2 audit reports.

Recommendation

The Public Administrator file annual settlements timely.

Auditee's Response

I understand that settlements are to be filed annually for every client/estate served by me in my capacity as Randolph County Public Administrator and the office I am elected to hold. In regard to the late and untimely filing of those settlements reflected in the audit, my response is that we will continue to strive to do what we can to keep the paperwork to the court caught up. The caseload in this office is overwhelming. The Office of Public Administrator is a county office, appointed to State of Missouri wards by State Courts. Unfortunately, until the State or the County is able to fund and staff my office appropriately, the paperwork will always come second to the people I serve, who are living and struggling with navigating the mental health system. The ever growing amount of paperwork is compounded by the ever growing number of cases appointed to our office for individuals with extreme mental and behavioral health issues. The National Guardianship Association recommends a ratio of 1 person for every 20 wards served. My office, even at old recommendations of 1 to 40 is still grossly understaffed. My office will

Randolph County Management Advisory Report - State Auditor's Findings

continue to work to file the overdue settlements, as well as current and hope to have more staff to keep the caseload filings current with the results of this audit.

4. Sunshine Law

The County Commission did not always comply with the Sunshine Law for closed meetings. Closed meeting minutes were not adequate to document compliance with the Sunshine Law, included discussions of topics not allowed in closed meetings, and cited improper statutes for closing the meeting. Section 610.021, RSMo, authorizes public entities to conduct closed meetings when discussing certain specific topics. The County Commission entered into closed meetings 53 times from January 1, 2023, through September 25, 2024.

County officials could not provide minutes for two closed meetings of the County Commission, both held on June 7, 2024. The County Clerk could not identify why the minutes were not prepared. Minutes for 44 of the 53 closed sessions did not include sufficient detail to describe what was discussed in the closed session, therefore, the County Commission cannot demonstrate it only discussed allowable topics. Generally, the open meeting minutes indicated only a general reason for the closed meeting such as "legal" or "personnel" without citing a specific statutory provision allowing for the closure, and the closed meeting minutes only identified the individuals present and the votes to close and re-open the meetings. The closed meeting minutes generally did not identify any specific legal matter or personnel issue discussed.

In 2 instances, where the closed minutes did describe the specific topic of the discussion, the topic was not allowable under Section 610.021, RSMo. The Presiding Commissioner indicated he believed the Sunshine Law's exemption for discussions of personnel matters allowed these discussions to be closed.

- During the January 10, 2023, closed meeting, closed under what the meeting minutes refer to as "Statute #3," the commission voted to authorize a Cost of Living Adjustment (COLA) for county employees. Section 610.021(3), RSMo, allows for meetings to be closed to discuss, "Hiring, firing, disciplining or promoting of particular employees by a public governmental body when personal information about the employee is discussed or recorded." Discussion of a COLA for all county employees is not an allowable reason to close the meeting.
- During the June 26, 2024, closed meeting, closed under what the meeting minutes refer to as "#1 Legal," the Commission approved an agreement with a county municipality to authorize a position for a joint employee. Section 610.021(1), RSMo, authorizes discussions regarding "Legal actions, causes of action or litigation involving a public governmental body." No section of the law allows for discussions with other

Randolph County Management Advisory Report - State Auditor's Findings

governmental bodies about the creation of an employment position to be closed.

Additionally, minutes did not always include the correct citation of the statute allowing for a closed meeting. The meetings of March 26, 2024, and May 14, 2024, both of which the open minutes document as being closed for "#1 Legal," were meetings between the county commission and auditors, which should have cited Section 610.021(17), RSMo.³ Neither meeting's minutes document the individuals present other than the commission and staff, nor do the minutes document that the conversations were related to an audit, only that the County Commission entered and exited a closed session.

Section 610.020.7, RSMo, requires minutes of open and closed meetings be taken and retained by the public governmental body. Section 610.022, RSMo, requires public bodies to announce the specific reasons allowed by law for going into a closed session and to enter the reason into the minutes. This section also limits discussion topics and actions in closed meetings to only those specifically announced prior to closure. Additionally, without sufficiently detailed meeting minutes it is unclear if all of the discussions were appropriate for closed meetings.

The County Clerk indicated the Commission believes minutes need to include only enough information to identify the purpose of the closed meeting, and do not need to be overly detailed. However, without detailed minutes, the county cannot effectively demonstrate compliance with the Sunshine Law and are not operating in a transparent manner as intended by the Sunshine Law.

Failure to adequately document and retain the proceedings of meetings, or discussing impermissible topics in closed meetings, limits the usefulness of minutes and limits the public's ability to know and understand decisions.

Recommendation

The County Commission ensure meeting minutes are prepared and retained for all closed meetings; closed meeting minutes are sufficiently detailed and cite the appropriate provision for closing meetings; and discussions in closed meetings are limited to only those specific reasons cited for closing the meeting.

Auditee's Response

The County Commission agrees to follow Chapter 610, RSMo, and the provisions thereof for closed meetings to ensure proper transparency.

³ In August 2024, this subsection changed to Section 610.021(18), RSMo, with the enactment of House Bill 2111.

Randolph County
Management Advisory Report - State Auditor's Findings

5. Sheriff's Compensation

Constitution violation

The County Commission authorized mid-term salary increases to the Sheriff totaling \$42,804 as of December 2024, in violation of constitutional provisions and state law. The Sheriff took office in 2021 at the salary level approved by the Randolph County Salary Commission. The Sheriff's monthly gross pay, the amount approved by the County Commission, and the amount allowed by statute are detailed in Appendix A.

Section 57.317.1(2), RSMo, enacted in 2021, states the sheriff shall receive an annual salary computed based on a percentage of the compensation of an associate circuit judge of the county, with the percentage determined by a statutory schedule using the county's current assessed valuation level. The law indicates if the increase to the Sheriff's salary is less than \$10,000, the increase shall take effect January 1, 2022, but if the salary increase is more than \$10,000, the increase shall be paid in 20 percent increments annually over a 5-year period. However, the Missouri Constitution, Article VII, Section 13, prohibits an increase in compensation for state, county, and municipal officers during the term of office. Court cases have concluded that to receive additional compensation during a term of office there must be: (1) no existing compensation for the office; (2) new or additional duties extrinsic or not germane to the office; or (3) the mid-term increase must result from the application of a statutory formula for calculating compensation that was in place prior to the individual being elected or taking office. None of those circumstances exist; therefore, the increase to the Sheriff's salary should be effective only for any Sheriff elected and sworn into office after the new salary schedule was authorized.

According to the County Clerk, the County Commission believed it was required to increase the Sheriff's salary due to the change in state law. The County Commission did not seek a written legal opinion on this matter; however, the County Clerk did discuss the issue with an attorney and the issue of a mid-term salary increase was mentioned.

Improper calculation

In addition to being unconstitutional, the salary increases given to the Sheriff were not calculated in accordance with state law. As a result, the Sheriff received \$22,343 in excess compensation.⁴

Because the salary increase was greater than \$10,000, the amount should have been paid in 5 annual installments. However, the County Commission increased the rate of pay for the sheriff 6 times between March 2022 and July 2024 as detailed in Appendix A.

The county did not use a consistent method to determine the amount of the raises. For the March 2022 increase, the county provided two sets of

⁴ This amount is included in the \$42,804 of total unconstitutional salary payments.

Randolph County Management Advisory Report - State Auditor's Findings

calculations, both of which contained errors, as well as a page of County Commission meeting minutes (without calculations) setting a third salary less than half of the Sheriff's then-current salary. The raise actually provided was the highest of the three. The county cannot provide documentation to support the August 2022 and January 2023 raise calculations. The July 2023 increase is 20 percent of the difference between the Sheriff's then salary and the statutory wage base (60 percent of an associate circuit judge's salary). The January 2024 and July 2024 increases are each 20 percent of the total statutory wage base instead of 20 percent of the difference between the Sheriff's salary and the wage base. As a cumulative result of these actions, as of December 2024, the Sheriff was paid an annual salary of \$117,031, which exceeds the statutory salary of \$87,257, by almost \$30,000.

A new Sheriff took office in January 2025, following the November 2024 election. According to county payroll staff, the new Sheriff continues to be paid a salary of \$117,031 per year. While the new Sheriff is allowed to be paid at a higher rate than the former sheriff due to the start of the new term of office, this salary exceeds the \$98,040 (60 percent of an associate circuit judge's salary) maximum allowed by statute by \$18,991.

Recommendation

The County Commission ensure the Sheriff's salary complies with statutory and constitutional provisions including reducing the current Sheriff's salary as needed and consider various methods for possible recoupment of any mid-term or erroneous salary increases already paid.

Auditee's Response

The County Commission will ensure it follows state statute and constitutional provisions for the salary of the Sheriff. The County Commission will research possible recoupment needed with the advice of the county's legal counsel.

6. Electronic Communication Policy

The county has not developed a records management and retention policy that includes electronic communication in compliance with the Missouri Secretary of State Records Services Division guidance, as approved by the Missouri Local Records Commission. This guidance recommends government entities have a policy on electronic messaging, including text messages, email, and other third party platforms.

Section 109.270, RSMo, provides that all records made or received by an official in the course of his/her public duties are public property and are not to be disposed of except as provided by law. Section 109.255, RSMo, provides that the Local Records Board issue directives for the destruction of records. The guidelines for managing electronic communications records can be found on the Secretary of State's website.⁵

⁵ Missouri Secretary of State Records Services Division, *Electronic Communications Records Guidelines for Missouri Government*, May 14, 2019, is available at

Randolph County
Management Advisory Report - State Auditor's Findings

Development of a written policy to address the use of electronic communications is necessary to ensure all documentation of official business of the county is retained as required by state law. The County Clerk and the Presiding Commissioner stated they were unaware of the record retention guidelines related to electronic communications.

Recommendation

The County Commission work with the other county officials to develop a written records management and retention policy to address electronic communications management and retention to comply with Missouri Secretary of State Records Services Division electronic communications guidelines.

Auditee's Response

The County Commission agrees with the recommendation of this finding. The County Commission will research and adopt an electronic communication policy to ensure the recommendation is met.

Randolph County

Organization and Statistical Information

Randolph County is a county-organized, third-class county. The county seat is Huntsville. The county's population was 24,716 in 2020, according to the U.S. Census Bureau.

Randolph County's government is composed of a three-member county commission and separate elected officials performing various tasks. All elected officials serve 4-year terms. The county commission has mainly administrative duties in setting tax levies, appropriating county funds, appointing board members and trustees of special services, accounting for county property, maintaining county roads and bridges, and performing miscellaneous duties not handled by other county officials. Principal functions of these other officials relate to law enforcement, property assessment, property tax collections, conduct of elections, and maintenance of financial and other records important to the county's citizens. In addition to elected officials, the county employed 78 full-time employees and 11 part-time employees on December 31, 2023.

County operations also include the Senate Bill 40 Board.

Elected Officials

The elected officials and their compensation paid for the year ended December 31 (except as noted) are indicated below:

Officeholder	2024	2023

Financing Arrangements

The county entered into a lease-purchase agreement with Commerce Bank, N.A. (the trustee) on April 9, 2015 (Series 2015). The terms of the agreement called for the trustee to sell lease certificates of participation totaling \$6,910,000 to provide funding for the construction of a new administrative building to be connected to the justice center. In May 2020, the county issued \$4,280,000 of certificates of participation (Series 2020) for the purpose of refunding Series 2015. The certificates are to be paid off in full with interest

Randolph County Organization and Statistical Information

in 2027. The payments are made with the revenue generated from the county's capital improvement sales tax, approved by voters on April 8, 2014, and in effect until 2027. The remaining principal and interest due on the certificates at December 31, 2023, was \$2,480,000 and \$97,000, respectively.

(A) County Approved Pay includes a 5 percent COLA increase per year as approved by the County Commission.

(B) Statutory Pay is the amount to be paid based on statutory language and includes increases each year by 20 percent of the difference between the Sheriff's salary and 60 percent of the salary of an Associate Circuit Judge.

(C) Calculation Error is the difference between the Sheriff's Actual Pay and the Statutory Pay and represents overpayments caused by inaccurate calculations of pay rates by the county. This amount is included in the Constitutional Error.

(D) Constitutional Error is the difference between the Actual Pay and the County Approved Pay and represents the total unconstitutional mid-term salary increase.

(E) This actual payment includes a pay raise backdated to January 2022.

(F) This actual payment includes a pay raise backdated to July 2022.

(G) This actual payment includes a second check for \$1,305.16 listed as a "Correction payment." The County Clerk cannot identify what was corrected.

Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of the Lewis County Clerk

Improper Payroll

The Lewis County Clerk improperly paid herself and her staff for election services work using her Election Authority Account (EAA). The County Clerk improperly paid additional compensation, totaling \$5,874, to herself and other county employees. The payments were all from election services money deposited into the EAA and most of the payments did not go through the normal county payroll process. The County Clerk paid herself \$950 to provide absentee voting service even though she is not entitled to receive additional compensation for any election related work performed. The County Clerk improperly paid the Deputy Election Authority Clerk an additional \$4,842 during the audit period. The County Clerk overpaid the Voter Registration Clerk by \$82 due to a calculation error of her pay for additional election work. The County Clerk did not process most of the compensation paid with election services money during the audit period through the normal county payroll system. The amount not properly processed totaled \$6,269. Because the County Clerk did not process the additional compensation through the normal county payroll system, the payments were not reported on the employee's W-2 forms, appropriate payroll taxes were not withheld, and the employer's share of payroll taxes was not paid.

Election Services Money Controls and Procedures

The County Clerk maintained election services money in the EAA outside of the county treasury and did not effectively budget these funds. State law requires election services money to be deposited into a special account but this did not preclude the County Clerk from maintaining this account with the County Treasurer or budgeting the funds. The County Commission created the Election Authority Fund in 2021 in an attempt to track and budget the funds in the EAA, but the County Clerk did not provide details to the County Commission to allow it to effectively estimate revenues and disbursements or monitor the budget. The County Clerk approved expense reimbursements without sufficient documentation. The County Clerk did not segregate accounting duties and did not perform an adequate documented supervisory review of election services accounting and bank records.

In the areas audited, the overall performance of this entity was **Fair**.*

*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

- Excellent:** The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.
- Good:** The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.
- Fair:** The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.
- Poor:** The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

SCOTT FITZPATRICK
MISSOURI STATE AUDITOR

To the County Commission
and
County Clerk of Lewis County, Missouri

We have audited certain operations of the Lewis County Clerk in fulfillment of our duties under Chapter 29.230, RSMo. The State Auditor initiated the audit at the request of the Lewis County Commission. The scope of our audit included, but was not necessarily limited to, the period of January 1, 2022, through April 15, 2024. The objectives of our audit were to:

1. Evaluate the County Clerk's internal controls over election funds management and financial functions as they relate to any concerns of misappropriated money and/or waste of public resources.
2. Evaluate the County Clerk's compliance with certain legal provisions over election funds as they relate to concerns of any misappropriated money and/or waste of public resources.
3. Evaluate the economy and efficiency of election fund management practices and procedures, including certain financial transactions, as they relate to any concerns of misappropriated money and/or waste of public resources.
4. Determine the extent of any misappropriated money and/or if improper use of public resources occurred and, if so, quantify the amount to the extent possible.

Our methodology included reviewing relevant minutes of meetings, written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the county; and performing sample testing using haphazard and judgmental selection, as appropriate. The results of our sample testing cannot be projected to the entire populations from which the test items were selected. We obtained an understanding of internal control that is significant to the audit objectives and planned and performed procedures to assess internal control to the extent necessary to address our audit objectives. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted this performance audit in accordance with generally accepted government auditing standards. Those standards require that we plan and perform the audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides a reasonable basis for our findings and conclusions based on our audit objectives.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance issues with legal provisions, (3) the need for improvement in management practices and procedures, and (4) misappropriated money totaling at least \$950, in addition to improper use of public resources totaling at least \$4,924. The accompanying Management Advisory Report presents our findings arising from our audit of the Lewis County Clerk election services money.

Scott Fitzpatrick
State Auditor

Lewis County Clerk

Introduction

Background

The County Clerk is the chief fiscal and administrative officer of the county, whose duties include maintaining records of disbursements approved for payment by the County Commission, overseeing payroll processing for county employees, the issuance of county licenses, and the collection of various fees for remittance to the county treasury. The County Clerk is also the custodian of records for the county and is responsible for maintaining County Commission meeting minutes. In addition, the County Clerk is the Election Authority for the county.

Shannon Sapp was elected as the County Clerk in November 2018 and took office in January 2019, was re-elected in November 2022 and is currently serving her term which expires in December 2026. During the year ended December 31, 2024, she received compensation of \$52,311. The County Clerk's office had one Voter Registration Clerk and one Deputy Elections Authority/Deputy County Clerk as of December 31, 2024.

The Lewis County Election Authority Account

The county billed and received payment from local political subdivisions for election services provided and received other election funding including grants and other fees. The County Clerk deposited all money received from the political subdivisions in an account titled the Election Authority Account (EAA) or Election Services Fee Account¹ that she controlled. Any election money received or disbursed directly through the county treasury was processed through the Election Services Fund. The County Clerk's office held the EAA outside of the county treasury from May 2007 until the account was closed in March 2024. The County Clerk's office used the account for election costs, to pay the salaries of employees helping with elections, and for election related expense reimbursements.

Investigation and audit

In April 2023, the State Auditor's office (SAO) Whistleblower Hotline received complaints about the County Clerk holding the EAA outside of the county treasury. The complaints alleged the County Clerk was using this account to disburse payments for inflated mileage, extra pay to her deputy, food, and other items.

On October 23, 2023, the County Commissioners sent a letter to the Missouri Attorney General regarding the same concerns expressed to the SAO. Under Section 29.221, RSMo, the SAO informed the County that our office was conducting an initial review of the allegations to determine if the complaints were credible and requested records be provided to our office.

The SAO determined, after completion of a review of documentation and communications provided, further investigation was warranted and decided

¹ This account was titled the Lewis County Election Authority Account until August 2023, when the County Commission voted to change the name to the Election Services Fee Account.

Lewis County Clerk Introduction

to conduct an audit under the authority granted in Section 29.230, RSMo. On April 18, 2024, the SAO requested records directly from the bank for the EAA.

Representatives of the SAO took sworn testimony during a recorded interview of the County Clerk on August 29, 2024. In addition, on December 19, 2024, SAO representatives conducted a follow-up recorded interview with the County Clerk. After both interviews we requested any records and documents related to her testimony.

Lewis County Clerk Management Advisory Report State Auditor's Findings

1. Improper Payroll

The Lewis County Clerk improperly paid herself and her staff for election services work using her Election Authority Account (EAA). In addition, she miscalculated the payments to some staff and did not process some additional compensation through county payroll. During the period January 1, 2022, to April 15, 2024, the County Clerk and personnel deposited approximately \$99,700 into the EAA and disbursed over \$120,800 from the account.

1.1 Additional compensation

The County Clerk improperly paid additional compensation, totaling \$5,874, to herself and other county employees. The payments were all from election services money deposited into the EAA and most of the payments did not go through the normal county payroll process. Election services money is restricted to certain purposes. Payroll is an allowable expenditure if the amount paid is included on an approved pay schedule.

County Clerk

The County Clerk paid herself \$950 to provide absentee voting services.² All election related services are part of the County Clerk's responsibilities as the Election Authority of the county, therefore, she is not entitled to receive additional compensation for any election related work performed.

The County Clerk authorized the following 5 payments to herself from the EAA:

Check Date	Check Number	Amount
August 1, 2022	3254	\$ 50
August 4, 2022	3257	100
August 5, 2022	3291	250
November 10, 2022	3350	350
April 7, 2023	3367	200
Total		\$ 950

Section 115.015, RSMo, states the county clerk shall be the election authority, except in a city or county having a board of election commissioners. Section 51.281, RSMo, states the county clerk shall receive an annual salary computed using a set schedule based on the county's current assessed valuation level. In addition, the Missouri Constitution, Article VII, Section 13, prohibits an increase in compensation for state, county, and municipal officers during their term of office. Court cases have concluded that to receive additional compensation during a term of office there must be: (1) no existing compensation for the office; (2) new or additional duties extrinsic or not germane to the office; or (3) the compensation increase must result from the application of a statutory formula for calculating compensation that was in

² Absentee voting services for this office refers to office staff going to a nursing home to aid residents in completing and submitting absentee ballots at the facility.

Lewis County Clerk
Management Advisory Report - State Auditor's Finding

place prior to the individual being elected or taking office. None of these circumstances exist.

Deputy Election Authority
Clerk

The County Clerk improperly paid the Deputy Election Authority Clerk (Election Clerk) an additional \$4,842 during the audit period.

The County Clerk paid the Election Clerk a higher hourly rate for work performed outside of her normal schedule than was listed on the pay schedule, resulting in \$861 in overpayments during the audit period. We compared weekly timesheets and reimbursement documentation and determined the following differences:

Date	Hourly Rate Paid	Number of Hours	Amount Paid	Correct Hourly Rate	Regular Hours	Overtime Hours	Correct Amount	Overpayment
April 2022	\$ 19.68	26	\$ 512	\$ 13.12	17	9	\$ 400	\$ 112
August 2022	19.68	19	374	13.12	16	3	269	105
November 2022	19.68	26	512	13.12	15	11	413	99
April 2023	34.75	30	1,042	14.40	21	9	497	545
Total		101	\$ 2,440		69	32	\$ 1,579	\$ 861

In addition, during this time period, the County Clerk also made 3 payments, totaling \$400, to the Election Clerk for conducting absentee voting. The Election Clerk received an hourly wage for this same time spent on absentee voting. The payments are detailed in the following table:

Date Issued	Check Number	Amount
August 5, 2022	3293	\$ 50
November 8, 2022	3349	250
April 7, 2023	3369	100
		\$ 400

Finally, during the period March 31, 2023, through August 28, 2023, the County Clerk paid the Election Clerk additional pay titled "supplemental pay" totaling \$3,581 that was not included on an approved pay schedule or approved by the County Commission. These payments were in addition to her county salary. The County Clerk stated she was trying to increase the Election Clerk's salary and thought she could.

Lewis County Clerk
Management Advisory Report - State Auditor's Finding

Voter Registration Clerk

The County Clerk overpaid the Voter Registration Clerk by \$82³ due to a calculation error of her pay for additional election work. On April 7, 2023, the Voter Registration Clerk worked 12 hours receiving an hourly rate of \$20.43, instead of receiving an hourly rate of \$13.62.

Conclusion

The County Clerk indicated she believed authorizing the additional pay was allowed and within her duties as the County Clerk and election authority. However, this misunderstanding and reliance on how the funding was handled in the past resulted in her improperly paying herself and staff amounts that were not on approved pay schedules or were incorrect. Section 115.051, RSMo, only allows the county clerk to employ election staff and fix compensation recorded on the election pay rates schedule. A proper understanding of the allowable uses of restricted funds is necessary to ensure the funds are used appropriately and funding is available for allowable purposes.

1.2 Payroll taxes

The County Clerk did not process most of the compensation paid with election services money during the audit period through the normal county payroll system. The amount not properly processed totaled \$6,269.⁴ Because the County Clerk did not process the additional compensation through the normal county payroll system, the payments were not reported on the employee's W-2 forms, appropriate payroll taxes were not withheld, and the employer's share of payroll taxes was not paid. As a result, the county may be subject to interest and penalties. The County Clerk also did not report the compensation on 1099 forms, therefore no record of the pay was submitted for tax purposes.

IRS regulations require individuals treated as employees to have all compensation reported on W-2 forms. To ensure all compensation is properly reported and taxed, all compensation should be paid through the normal county payroll system. The failure to properly report and tax all wages could result in penalty and interest charges assessed against the county. The County Clerk indicated she did not realize the importance of having the additional compensation processed through the county payroll system, since the previous county clerks had also handled it this way and she was following that guidance.

³ Amount calculated as the difference, \$6.81, between hourly rate paid, \$20.43, and correct rate, \$13.62, multiplied by the 12 hours worked.

⁴ This amount includes the \$950 misappropriated by the County Clerk, \$2,804 paid to the Election Clerk, \$1,815 paid to the Voter Registration Clerk during the period April 6, 2022, through April 7, 2023, and \$700 paid to other employees during the period April 7, 2022, through April 7, 2023. Other amounts were paid through the payroll process.

Lewis County Clerk
Management Advisory Report - State Auditor's Finding

Recommendations

The County Clerk:

- 1.1 Establish adequate procedures to ensure all payments for election work are accurate, paid in accordance with statute, and approved by the County Commission. In addition, the County Clerk should work with the County Commission to repay the additional compensation she received.
- 1.2 Establish procedures to ensure all compensation is processed through the county payroll system, properly reported, and payroll taxes are withheld and remitted to the appropriate taxing entity. In addition, the County Clerk should amend the W-2 forms for all employees whose income was not properly reported.

Auditee's Response

- 1.1 *We have changed the procedure in 2024 to ensure all payments for election work are accurate by having the hours processed through the county payroll system and all salaries are within the office budget which is approved by the County Commission. In addition, the additional compensation has already been repaid in full and deposited into the General Revenue Fund.*
- 1.2 *The procedure that was put in place by previous clerks is what I followed when I took over until I was notified differently. We have, since 2024, established adequate procedures to ensure all compensation is processed through the county payroll system and properly reported, and payroll taxes are withheld and remitted to the appropriate taxing entity. In addition, the W-2 forms will be amended for all employees whose income was not properly reported.*

2. Election Services Money Controls and Procedures

The County Clerk's controls and procedures over election services money need significant improvement.

2.1 Election Authority Account

The County Clerk maintained election services money in the EAA outside of the county treasury and did not effectively budget these funds. State law requires election services money to be deposited into a special account but this did not preclude the County Clerk from maintaining this account with the County Treasurer or budgeting the funds. The County Commission created the Election Authority Fund in 2021 in an attempt to track and budget the funds in the EAA, but the County Clerk did not provide details to the County Commission to allow it to effectively estimate revenues and disbursements or monitor the budget. She only provided overall totals. The County did maintain an Election Services Fund that was budgeted in accordance with statute, but this did not include money received from political subdivisions for election services or numerous disbursements.

Lewis County Clerk Management Advisory Report - State Auditor's Finding

Section 115.077(4), RSMo, allows for a special account for election services money. Section 50.370, RSMo, requires every county official who receives any fees or other remuneration for official services to pay such money to the County Treasurer. Section 50.550, RSMo, requires the county budget to present a complete financial plan including proposed expenditures for the administration, operation, and maintenance of all offices. A sufficiently detailed budget is not only necessary for compliance with applicable statutes but can serve as a useful management tool for the county. The County Clerk indicated the EAA was opened many years ago and used by previous county clerks so she was following that guidance.

2.2 Expense reimbursements

The County Clerk approved expense reimbursements without sufficient documentation. Approved reimbursements include payments for mileage where the employee did not provide an exact address or starting/ending odometer readings, meal reimbursements without a receipt slip or with a receipt slip that is not itemized, and election services time payments without any support for the time worked. In one instance, office personnel reimbursed an employee for the full amount shown on a meal receipt slip when it included \$20 cash back.

Approval of expense reimbursements only after adequate review of supporting documentation is necessary to ensure election authority disbursements are appropriate and allowable. Failure to obtain adequate supporting documentation increases the risk that inappropriate disbursements will occur and go undetected. The County Clerk indicated she did not realize the importance of requiring adequate documentation.

2.3 Supervisory review

The County Clerk did not segregate accounting duties and did not perform an adequate documented supervisory review of election services accounting and bank records. The Voter Registration Clerk is responsible for receipting, depositing, and reconciling the bank statements. The County Clerk only reviews the bank statements when the Voter Registration Clerk indicates there are concerns that require her attention.

Proper segregation of duties is necessary to ensure transactions are accounted for properly and assets are adequately safeguarded. If proper segregation of duties cannot be achieved, documented independent or supervisory reviews of detailed accounting and bank records are essential. The County Clerk indicated she was aware of how important overseeing the account was, but since there were little to no issues, this was not a high priority.

Recommendations

The County Clerk:

- 2.1 Ensure any bank accounts held outside the county treasury are closed and ensure all money is disbursed to the County Treasurer timely.

Lewis County Clerk
Management Advisory Report - State Auditor's Finding

Auditee's Response

- 2.2 Ensure adequate documentation is submitted and reviewed prior to expense reimbursement approval and such documentation is retained.
- 2.3 Segregate duties to the extent possible and perform a supervisory review over the receipting, depositing, and reconciling of election services money when segregation of duties is not possible.
- 2.1 *No accounts from this office are held outside the county treasury, the account in question was closed, and all money is being disbursed to the County Treasurer.*
- 2.2 *Starting in 2024, adequate expense documentation is submitted and reviewed by multiple employees and the County Commission prior to approval and is retained with the expenses files.*
- 2.3 *Since this account has been closed, the duties for receipting, depositing, and reconciling of the election services money are now completed by the Treasurer's office. This has eliminated the need to segregate duties. We still perform a supervisory review over the funds.*

Missouri State Auditor

Cedar County

Report No. 2025-027

May 2025

auditor.mo.gov

Scott Fitzpatrick
Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of Cedar County

Sales Tax Rollback	The County Clerk did not accurately calculate property tax levy reduction amounts to offset 50 percent of sales tax money received, and levied approximately \$1.2 million in excess property taxes for 2020 through 2023.
County Collector and Property Tax System	Neither the County Clerk nor the County Commission adequately review the financial activities of the County Collector. The account book maintained by the County Clerk was not complete, did not track all taxes charged to the County Collector, and did not agree to the annual settlement submitted by the County Collector. The County Collector's annual settlement for the year ended February 29, 2024, was not accurate. The County Collector reported total distributions that exceeded total collections by about \$400,000. After this was brought to the County Collector's attention, she determined she had misreported approximately \$357,000 in utility collections as delinquent taxes, resulting in an overstatement of total delinquent taxes, understatement of collections, and a discrepancy between total collections and total distributions. The County Clerk did not prepare the back tax, land and personal tax, or railroad and utility tax aggregate abstracts for 2020 through 2023, as required. County Collector's office personnel do not prepare monthly lists of liabilities for the General and Partial Payment bank accounts, and consequently, they do not agree liabilities to the reconciled bank balances. The County Collector incorrectly withheld 2 percent on railroad and utility property taxes collected rather than the allowed 1 percent. As a result, the various political subdivisions did not receive the full amount owed to them and the county deposited the excess commissions into the General Revenue Fund. In total, the County Collector incorrectly withheld approximately \$2,900 from railroad and utility property taxes that she should have disbursed to the political subdivisions.
Public Administrator's Annual Settlements	The Public Administrator did not always file annual settlements timely. The audit work noted for the 3 wards selected that required an annual settlement in 2023, the Public Administrator filed each untimely.
Sheriff's Outstanding Checks	The Sheriff's office has not established procedures to follow up on outstanding checks in the Inmate Trust bank account. As of December 31, 2023, 56 checks, totaling \$1,288, were outstanding for more than 3 years with issue dates ranging from 2014 to 2021.
Sheriff's Compensation	The County Commission authorized mid-term salary increases totaling \$11,719 to the Sheriff in violation of constitutional provisions.
Electronic Communication Policy	The county has not developed a records management and retention policy that includes electronic communication in compliance with the Missouri Secretary of State Records Services Division guidance, as approved by the Missouri Local Records Commission.

Additional Comments

Because counties are managed by several separately elected individuals, an audit finding made with respect to one office does not necessarily apply to the operations in another office. The overall rating assigned to the county is intended to reflect the performance of the county as a whole. It does not indicate the performance of any one elected official or county office.

In the areas audited, the overall performance of this entity was Fair .*

*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

- Excellent:** The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.
- Good:** The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.
- Fair:** The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.
- Poor:** The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

SCOTT FITZPATRICK
MISSOURI STATE AUDITOR

County Commission
and
Officeholders of Cedar County

We have audited certain operations of Cedar County in fulfillment of our duties under Section 29.230, RSMo. The scope of our audit included, but was not necessarily limited to, the year ended December 31, 2023. The objectives of our audit were to:

1. Evaluate the county's internal controls over significant management and financial functions.
2. Evaluate the county's compliance with certain legal provisions.
3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.

Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the county, as well as certain external parties; and performing sample testing using haphazard and judgmental selection, as appropriate. The results of our sample testing cannot be projected to the entire populations from which the test items were selected. We obtained an understanding of internal control that is significant to the audit objectives and planned and performed procedures to assess internal control to the extent necessary to address our audit objectives. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted this performance audit in accordance with generally accepted government auditing standards. Those standards require that we plan and perform the audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides a reasonable basis for our findings and conclusions based on our audit objectives.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the county's management and was not subjected to the procedures applied in our audit of the county.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, and (3) the need for improvement in management practices and procedures. The accompanying Management Advisory Report presents our findings arising from our audit of Cedar County.

A handwritten signature in black ink, reading "S. Fitzpatrick". The signature is stylized, with a large "S" and a cursive "Fitzpatrick".

Scott Fitzpatrick
State Auditor

Cedar County Management Advisory Report State Auditor's Findings

1. Sales Tax Rollback

The County Clerk did not accurately calculate property tax levy reduction amounts to offset 50 percent of sales tax money received, and levied approximately \$1.2 million in excess property taxes for 2020 through 2023.

Section 67.505, RSMo, requires the county to reduce property taxes for a percentage of sales taxes collected. Cedar County voters enacted a one-half cent sales tax with a provision to reduce property taxes by 50 percent of sales taxes collected. The county is required to estimate the annual property tax levy to meet the reduction requirement, including an adjustment for the difference between actual and estimated sales tax collections for the preceding year.

In 2020, the county did not reduce the property tax rate for sales taxes collected, although a sales tax reduction was required. In each of the years 2021 through 2023, the county's reductions to the property tax rates were significantly less than required. For those years, the County Clerk's worksheets used to calculate the sales tax reduction contained various errors that caused the incorrect rate calculations. After we brought this to the County Clerk's attention, she acknowledged she made errors when calculating the sales tax reduction rates, and she did not detect the errors.

Accurate property tax rate levy reductions that are reviewed are necessary to ensure property tax levies are properly set.

Recommendation

The County Commission and the County Clerk properly calculate and review property tax rate reductions based on sales tax collections and develop a plan to correct the accumulation of prior over collections of property taxes.

Auditee's Response

The County Clerk acknowledges that the calculations for 2020 through 2023 were incorrect and was not aware of the errors until the State Auditor's Office identified the errors. Cedar County plans to implement a rollback beginning in tax year 2025 to correct the accumulation of prior over collections of property taxes. The County anticipates rollbacks for 5 years or less. The County has sought legal advice to ensure the process is correct.

2. County Collector and Property Tax System

Controls and procedures over the county's property tax system and in the County Collector's office need improvement. The County Collector's office collected approximately \$11.5 million in property taxes and other receipts during the year ended February 29, 2024.

2.1 Review of activity

Neither the County Clerk nor the County Commission adequately review the financial activities of the County Collector. The account book maintained by the County Clerk was not complete, did not track all taxes charged to the County Collector, and did not agree to the annual settlement submitted by the County Collector. In addition, the County Clerk and the County Commission

Cedar County Management Advisory Report - State Auditor's Findings

did not adequately review and approve the County Collector's annual settlement for the year ended February 29, 2024, and the County Clerk did not file the settlement with the state until after we brought this to her attention. As noted in section 2.2, the Collector's annual settlement for the year ended February 29, 2024, contained various errors.

Section 51.150.1(2), RSMo, requires the County Clerk to maintain accounts with all persons chargeable with money payable into the county treasury. In addition, Section 139.190, RSMo, requires the County Commission to carefully and fully examine the annual settlement of the County Collector, and the County Clerk to certify the amounts to the state. Maintaining an account book or other records that summarize all taxes charged to the County Collector, monthly collections, delinquent credits, additions and abatements, and protested amounts would help the County Clerk ensure taxes charged and credited to the County Collector are complete and accurate, and the County Clerk and the County Commission could use the account book to verify the County Collector's annual settlements. Such procedures are intended to establish checks and balances related to the collection of property taxes.

The County Clerk indicated she tracks monthly collections reported by the County Collector and ensures the amounts are received and distributed by the County Treasurer, but does not use the amounts to verify collections reported on the annual settlement or verify the charge and delinquent amounts on the annual settlement. The County Clerk indicated she did not understand the importance of maintaining an account book to verify the annual settlement and did not realize the annual settlements were required to be filed with the state.

A similar condition was noted in our prior report.

2.2 Accuracy of annual settlements

The County Collector's annual settlement for the year ended February 29, 2024, was not accurate. The County Collector reported total distributions that exceeded total collections by about \$400,000. After we brought this to the County Collector's attention, she determined she had misreported approximately \$357,000 in utility collections as delinquent taxes, resulting in an overstatement of total delinquent taxes, understatement of collections, and a discrepancy between total collections and total distributions. She also made various other small misstatements in the annual settlement. She subsequently prepared an amended settlement with corrections for the errors. The County Collector indicated she made errors in preparing the initial settlement that she did not detect before finalizing the settlement.

Incomplete and/or inaccurate annual settlement information reduces the effectiveness of the settlement as a mechanism for accounting for all money the County Collector is charged with collecting.

Cedar County Management Advisory Report - State Auditor's Findings

2.3 Aggregate abstracts

The County Clerk did not prepare the back tax, land and personal tax, or railroad and utility tax aggregate abstracts for 2020 through 2023, as required. She indicated she was not aware she was responsible for completing the aggregate abstracts.

Section 137.295, RSMo, requires the County Clerk to prepare these reports and forward them to the Department of Revenue and State Tax Commission upon completion of the current and delinquent tax books.

2.4 Liabilities

County Collector's office personnel do not prepare monthly lists of liabilities for the General and Partial Payment bank accounts, and consequently, they do not agree liabilities to the reconciled bank balances. After we brought this to her attention, the County Collector prepared a list of liabilities as of January 31, 2024, for the accounts. The list of liabilities for the General account totaled \$1,416,266, which consisted of January collections of taxes and fees and undistributed interest, while the reconciled bank balance totaled \$1,418,333, resulting in an unidentified balance of \$2,067. The County Collector indicated she was unaware of the need to prepare monthly lists of liabilities on all accounts.

Monthly lists of liabilities that are agreed to the reconciled bank balances are necessary to ensure records are in balance, errors are detected and corrected timely, and sufficient cash is available for the payment of all liabilities. Prompt follow up on discrepancies is necessary to resolve errors and ensure money is properly disbursed. Various statutory provisions provide for the disposition of unidentified money.

2.5 Commissions

The County Collector incorrectly withheld 2 percent on railroad and utility property taxes collected rather than the allowed 1 percent. As a result, the various political subdivisions did not receive the full amount owed to them and the county deposited the excess commissions into the General Revenue Fund. We reviewed the County Collector's worksheets for December 2023 and January 2024 and noted the County Collector incorrectly withheld approximately \$2,900 from railroad and utility property taxes that she should have disbursed to the political subdivisions. The County Collector indicated she has used the same withholding percentage since she took office in 2019, which she believed was the same rate used by the former County Collector, and did not realize the rate was incorrect.

Section 151.180, RSMo, requires the County Collector to collect all railroad taxes and Section 151.280, RSMo, requires the County Collector to withhold and pay a 1 percent commission on these taxes to the county's General Revenue Fund. Section 153.030, RSMo, requires utility taxes to be levied and collected in the same manner as railroad taxes.

Recommendations

- 2.1 The County Clerk maintain a complete account book with the County Collector. In addition, the County Clerk and the County Commission

Cedar County Management Advisory Report - State Auditor's Findings

should use the account book to review the accuracy and completeness of the County Collector's annual settlements, and the County Clerk should timely file the settlements with the state.

- 2.2 The County Collector prepare accurate annual settlements.
- 2.3 The County Clerk prepare the back tax, land and personal tax, and railroad and utility tax aggregate abstracts and timely file them with the Department of Revenue and State Tax Commission.
- 2.4 The County Collector prepare monthly lists of liabilities and reconcile the lists to the available cash balances. Any differences should be promptly investigated and resolved, and any unidentified money should be disposed of in accordance with state law.
- 2.5 The County Collector recalculate tax commissions withheld from railroad and utility property taxes and correct distributions to the various political subdivisions and the General Revenue Fund. The County Collector should also ensure future commission calculations are accurate.

Auditee's Response

The County Clerk and County Commission provided the following response:

- 2.1 *The County Clerk will maintain a complete account book with the County Collector. In addition, the County Clerk and County Commission will use the account book to review the accuracy and completeness of the County Collector's annual settlements. The County Clerk will timely file the settlements with the state.*

The County Clerk provided the following response:

- 2.3 *The County Clerk will prepare the back tax, land and personal tax, and railroad and utility tax aggregate abstracts and timely file them with the Department of Revenue and State Tax Commission.*

The County Collector provided the following responses:

- 2.2 *I have amended the annual settlement for the year ended February 29, 2024. For future settlements I will review the settlement more closely for errors before finalizing the settlements.*
- 2.4 *After the auditors pointed out the importance of the open items listings, I adopted a new procedure to identify liabilities every month. I have recently consulted with the County Treasurer about the proper disposition of the unidentified balance in the General Account.*

Cedar County
Management Advisory Report - State Auditor's Findings

2.5 *I have recalculated the collector commissions overwithheld from the railroad and utilities taxes from 2019 through 2023 and have consulted with the County Treasurer about the best method for correcting for the past errors. I will ensure future commissions are calculated properly.*

3. Public Administrator's Annual Settlements

The Public Administrator did not always file annual settlements timely. The Public Administrator is the court-appointed personal representative for wards or decedent estates of the Circuit Court, Probate Division. The Public Administrator's office was responsible for the financial activity of 80 wards and estates as of December 31, 2023.

From a listing of the wards assigned to the Public Administrator as of December 31, 2023, we judgmentally selected 8 of the wards for review and noted for the 3 wards that required an annual settlement in 2023, the Public Administrator filed each untimely. Settlements for these 3 cases were filed 43 to 55 days after the due date. The Public Administrator indicated the completion of various legal matters and documentation on the cases slowed the completion of the settlements.

Sections 473.540 and 475.270, RSMo, require the Public Administrator to file an annual settlement with the court for each ward or estate. Timely filing of annual settlements is necessary for the court to properly oversee the administration of cases and reduce the possibility that errors, loss, theft, or misuse of funds will go undetected.

Recommendation

The Public Administrator file annual settlements timely.

Auditee's Response

I have instituted a system to provide reminders to me of the settlement due dates, and I will ensure future settlements are filed timely.

4. Sheriff's Outstanding Checks

The Sheriff's office has not established procedures to follow up on outstanding checks in the Inmate Trust bank account. As of December 31, 2023, 56 checks, totaling \$1,288, were outstanding for more than 3 years with issue dates ranging from 2014 to 2021. The Office Manager indicated that the office was not sure how to properly handle old outstanding checks.

Procedures to routinely follow up on and reissue outstanding checks, as appropriate, are necessary to prevent the accumulation of money in the account and to ensure funds are disbursed to the appropriate payees or as otherwise provided by state law. Section 447.532, RSMo, provides that any funds held by a political subdivision that remain unclaimed for more than 3 years should be turned over to the Missouri State Treasurer's Unclaimed Property Division.

Cedar County Management Advisory Report - State Auditor's Findings

After we brought this to their attention, personnel in the Sheriff's office reviewed the matter and remitted the funds for the old outstanding checks to the State Treasurer's Unclaimed Property Division in June 2024 and November 2024.

Recommendation

The Sheriff establish procedures to routinely investigate outstanding checks. Old outstanding checks should be voided and reissued to payees that can be readily located. If payees cannot be located, the funds should be disposed of in accordance with state law.

Auditee's Response

We have remitted the funds for the old outstanding checks to the State Treasurer's office, and we will establish procedures to routinely investigate outstanding checks.

5. Sheriff's Compensation

The County Commission authorized mid-term salary increases totaling \$11,719 to the Sheriff in violation of constitutional provisions. The Sheriff took office in 2021 at the salary level approved by the Cedar County Salary Commission.

Section 57.317.1(2), RSMo, enacted in 2021, states the sheriff shall receive an annual salary computed based on a percentage of the compensation of an associate circuit judge of the county, with the percentage determined by a statutory schedule using the county's current assessed valuation level. The law indicates if the increase to the Sheriff's salary is less than \$10,000, the increase shall take effect January 1, 2022, but if the salary increase is more than \$10,000, the increase shall be paid equally over a 5-year period. However, Article VII, Section 13 of the Missouri Constitution prohibits an increase in compensation for state, county, and municipal officers during the term of office. Court cases have concluded that to receive additional compensation during a term of office there must be: (1) no existing compensation for the office; (2) new or additional duties extrinsic or not germane for the office; or (3) the mid-term increase must result from the application of a statutory formula for calculating compensation that was in place prior to the individual being elected or taking office. None of those circumstances exist; therefore, the increase to the Sheriff's salary should be effective only for any Sheriff elected and sworn into office after the new salary schedule was authorized.

The County Commission did not seek a written legal opinion on these matters and authorized an increase to the Sheriff's salary in mid-2022, retroactive to January 1, 2022, after litigation over the new law was settled. The total increase was calculated at \$21,406, to be paid over a 5-year period with an annual increase of \$4,281. The Commission authorized additional salary increases for the Sheriff based on salary increases given to associate circuit judges during 2022 and 2023. As of December 2023, the Sheriff received salary increases totaling \$11,719 during his term.

Cedar County
Management Advisory Report - State Auditor's Findings

The County Commission indicated it was aware of constitutional provisions preventing mid-term salary increases, but thought the county was required to increase the Sheriff's salary due to the change in state law.

Recommendation

The County Commission ensure salary increases comply with constitutional provisions and consider various methods for possible recoupment of any midterm salary increases already paid.

Auditee's Response

The County Commission will take these recommendations under advisement, discuss these recommendations with the Sheriff and the County attorney, and determine the best course of action.

6. Electronic Communication Policy

The county has not developed a records management and retention policy that includes electronic communication in compliance with the Missouri Secretary of State Records Services Division guidance, as approved by the Missouri Local Records Commission. This guidance recommends government entities have a policy on electronic messaging, including text messages, email, and other third party platforms.

Section 109.270, RSMo, provides that all records made or received by an official in the course of his/her public duties are public property and are not to be disposed of except as provided by law. Section 109.255, RSMo, provides that the Local Records Board issue directives for the destruction of records. The guidelines for managing electronic communications records can be found on the Secretary of State's website.¹

Development of a written policy to address the use of electronic communications is necessary to ensure all documentation of official business of the county is retained as required by state law. The Commission indicated it was working to develop a policy in compliance with the electronic communications guidelines. The Commission was not previously aware a policy was needed.

Recommendation

The County Commission work with other county officials to develop a written records management and retention policy to address electronic communications management and retention to comply with Missouri Secretary of State Records Services Division electronic communications guidelines.

¹ Missouri Secretary of State Records Services Division, *Electronic Communications Records Guidelines for Missouri Government*, May 14, 2019, is available at <<https://www.sos.mo.gov/CMSImages/LocalRecords/CommunicationsGuidelines.pdf>>, accessed February 21, 2025.

Cedar County
Management Advisory Report - State Auditor's Findings

Auditee's Response

The Cedar County Commission approved a new county policy in December 2024 that includes an Electronic Communication Policy. This new policy took effect January 1, 2025.

Cedar County

Organization and Statistical Information

Cedar County is a county-organized, third-class county. The county seat is Stockton. The county's population was 14,188 in 2020, according to the U.S. Census Bureau.

Cedar County's government is composed of a three-member county commission and separate elected officials performing various tasks. All elected officials serve 4-year terms. The county commission has mainly administrative duties in setting tax levies, appropriating county funds, appointing board members and trustees of special services, accounting for county property, maintaining county roads and bridges, and performing miscellaneous duties not handled by other county officials. Principal functions of these other officials relate to law enforcement, property assessment, property tax collections, conduct of elections, and maintenance of financial and other records important to the county's citizens. In addition to elected officials, the county employed 53 full-time employees and 25 part-time employees on December 31, 2023.

County operations also include a Senior Citizens' Services Board.

Elected Officials

The elected officials and their compensation paid for the year ended December 31 (except as noted) are indicated below:

Officeholder	2024	2023
Kenneth Thornton, Presiding Commissioner	\$	31,711
Donald Boultinghouse, Associate Commissioner		28,759
Ted Anderson, Associate Commissioner		28,759
Melissa Heskett, Recorder of Deeds		44,820
Heather York, County Clerk		44,820
Ty Gaither, Prosecuting Attorney		153,125
James McCray, Sheriff		63,719
Peggy Kenney, County Treasurer		44,820
Andrew Wyant, County Coroner		14,677
Charlotte Haden, Public Administrator		43,544
Lisa Nelson, County Collector (1), year ended February 29,	49,240	
Leah Morton, County Assessor (2), year ended August 31,		3,350
Tammie Papenfuhs, County Assessor (2), year ended August 31,		8,040
Chad Pyle, County Assessor (2), year ended August 31,		33,500
Charles (Mark) Francis, County Surveyor (3)		

- (1) Includes \$4,420 of commissions earned for collecting city property taxes.
- (2) Chad Pyle passed away on May 31, 2023. Tammie Papenfuhs served as interim County Assessor until August 1, 2023, when Leah Morton, was appointed as County Assessor to complete the term.
- (3) Compensation on a fee basis.

Scott Fitzpatrick

Missouri State Auditor

Clark County

Report No. 2025-026

May 2025

auditor.mo.gov

Scott Fitzpatrick
Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of Clark County

Sheriff's Control and Procedures	The controls and procedures in the Sheriff's office need improvement. The Dispatch Administrator does not maintain a cumulative book balance in the accounting records and does not prepare bank reconciliations or monthly lists of liabilities for the general account. The Sheriff did not have written agreements with the other counties for the boarding of prisoners detailing the housing rate to be paid, the services to be provided, and any required notification for emergency or non-routine situations. The Sheriff's office collected approximately \$83,000 for the boarding of prisoners during the year ended December 31, 2023, without written agreements between Clark County and other counties. The Sheriff's office did not charge sales taxes on commissary sales and remit them to the Department of Revenue. During the year ended December 31, 2023, commissary sales totaled about \$56,380.
Elected Officials' Compensation	The County Commission authorized mid-term salary increases to the County Coroner and Public Administrator in violation of constitutional provisions, and to the Sheriff in violation of constitutional provisions and state law. As of December 2023, the County Coroner received salary increases totaling \$12,000 and the Public Administrator received salary increases totaling \$11,500 during their terms in violation of constitutional provisions, and the County Commission did not rescind these increases after the state law authorizing them was found to be invalid by the Missouri Supreme Court. The County Commission authorized mid-term salary increases to the Sheriff totaling \$22,483 in violation of constitutional provisions and state law.
County Assessor's Controls and Procedures	The County Assessor's procedures for receipting and recording payments received need improvement. Office personnel do not always issue receipt slips for payments received immediately upon receipt, nor do they always record the method of payment on receipt slips issued, or maintain the integrity of receipts slips. Office personnel had not transmitted cash receipts to the County Treasurer since the County Assessor took office in September 2021. During a review of receipt slips written between September 2021 and May 2024, the County Assessor did not transmit cash receipts totaling \$223.
Prosecuting Attorney's Controls and Procedures	The Prosecuting Attorney has not established proper procedures for receipting and transmitting payments received. Office personnel do not always issue receipt slips for payments received immediately upon receipt. Office personnel do not transmit administrative fees timely to the County Treasurer. During a review of 11 receipt and transmittal records from the year ended December 31, 2023, we noted administrative fees for 3 receipts totaling \$215 were transmitted to the County Treasurer 58 days after receipt.
County Clerk's Controls and Procedures	The County Clerk does not always issue receipt slips. County Clerk personnel did not issue a receipt slip for 8 of 28 receipts collected during the year ended December 31, 2023.

County Procedures	The county does not have procedures in place to track capital asset purchases and dispositions throughout the year. In addition, county officials have not conducted annual physical inventories or provided inventory lists to the County Clerk as required. The county does not maintain a central list of fuel cards assigned to various departments and employees. Upon request, a list of fuel cards assigned to various departments and county employees was compiled. This list indicated 26 cards were active, but only 24 cards were assigned and accounted for.
Sheriff's Data Backup	The Sheriff does not store backup data at an off-site location. Failure to store computer backup data at a secure off-site location results in the backup data being susceptible to the same damage as the data on the computer.
Electronic Communication Policy	The county has not developed a records management and retention policy that includes electronic communication in compliance with the Missouri Secretary of State Records Services Division guidance, as approved by the Missouri Local Records Commission.
Additional Comments	Because counties are managed by several separately elected individuals, an audit finding made with respect to one office does not necessarily apply to the operations in another office. The overall rating assigned to the county is intended to reflect the performance of the county as a whole. It does not indicate the performance of any one elected official or county office.

In the areas audited, the overall performance of this entity was **Fair**.*

*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

- Excellent:** The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.
- Good:** The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.
- Fair:** The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.
- Poor:** The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

SCOTT FITZPATRICK MISSOURI STATE AUDITOR

County Commission
and
Officeholders of Clark County

We have audited certain operations of Clark County in fulfillment of our duties under Section 29.230, RSMo. The scope of our audit included, but was not necessarily limited to, the year ended December 31, 2023. The objectives of our audit were to:

1. Evaluate the county's internal controls over significant management and financial functions.
2. Evaluate the county's compliance with certain legal provisions.
3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.

Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the county, as well as certain external parties; and performing sample testing using haphazard and judgmental selection, as appropriate. The results of our sample testing cannot be projected to the entire populations from which the test items were selected. We obtained an understanding of internal control that is significant to the audit objectives and planned and performed procedures to assess internal control to the extent necessary to address our audit objectives. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted this performance audit in accordance with generally accepted government auditing standards. Those standards require that we plan and perform the audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides a reasonable basis for our findings and conclusions based on our audit objectives.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the county's management and was not subjected to the procedures applied in our audit of the county.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, and (3) the need for improvement in management practices and procedures. The accompanying Management Advisory Report presents our findings arising from our audit of Clark County.

Scott Fitzpatrick
State Auditor

Clark County

Management Advisory Report

State Auditor's Findings

1. Sheriff's Controls and Procedures

Controls and procedures in the Sheriff's office need improvement. The office collected money for civil paper service, concealed carry weapon permits, bonds, and other miscellaneous receipts totaling approximately \$112,000 during the year ended December 31, 2023.

1.1 Bank reconciliations and liabilities

The Dispatch Administrator does not maintain a cumulative book balance in the accounting records and does not prepare bank reconciliations or monthly lists of liabilities for the general account. According to the Dispatch Administrator, the last bank reconciliation was performed sometime in 2021 when the previous personnel in charge of bank reconciliations for the general account left the office. The December 31, 2023, bank balance was \$10,721. Of this, we identified deposits in transit of \$14,487 and liabilities consisting of undisbursed fees totaling \$24,541, resulting in \$667 in unidentified money in the account.

Because there is no cumulative book balance in the accounting records or a list of liabilities, the Dispatch Administrator cannot ensure money is available to satisfy all liabilities. The Dispatch Administrator indicated she has not performed bank reconciliations or identified liabilities because it would take a long time and she does not know where to start.

Preparing a cumulative book balance, adequate monthly bank reconciliations, and monthly lists of liabilities helps ensure receipts and disbursements are properly handled and recorded, and increases the likelihood errors will be identified and corrected timely. Regular identification of liabilities and a comparison of liabilities to the reconciled bank balance is necessary to ensure accounting records are in balance, all amounts received are disbursed, and money is available to satisfy all liabilities. Prompt follow up on discrepancies is necessary to resolve errors.

A similar condition was noted in our prior audit report.

1.2 Prisoner boarding

The Sheriff did not have written agreements with the other counties for the boarding of prisoners detailing the housing rate to be paid, the services to be provided, and any required notification for emergency or non-routine situations. The Sheriff's office collected approximately \$83,000 for the boarding of prisoners during the year ended December 31, 2023, without written agreements between Clark County and other counties. The Sheriff indicated he had not had time to obtain written contracts for prisoner boarding.

Section 432.070, RSMo, requires contracts for political subdivisions be in writing. Written agreements, signed by the parties involved, typically specify the services to be rendered and the manner and amount of compensation to be paid, and are necessary to ensure all parties are aware of their duties and responsibilities and to prevent misunderstandings.

Clark County Management Advisory Report - State Auditor's Findings

1.3 Sales tax

The Sheriff's office did not charge sales taxes on commissary sales and remit them to the Department of Revenue (DOR). During the year ended December 31, 2023, commissary sales totaled about \$56,380. The Sheriff could not explain why he or his staff were not charging or collecting sales taxes on commissary sales.

Pursuant to 12 CSR 10-110.955(3)(B), sales by the state of Missouri and its political subdivisions are subject to tax. Section 144.080, RSMo, requires sales tax collections be remitted to the DOR on a monthly, quarterly, or annual basis, depending on the amounts collected. Obtaining DOR guidance to establish procedures for charging and collecting sales tax on commissary sales would help ensure sales taxes are properly handled and all future sales tax collections are remitted to the DOR.

Recommendations

The Sheriff:

- 1.1 Ensure a cumulative book balance, adequate monthly bank reconciliations, and lists of liabilities are prepared and reconciled timely. Any differences between accounting records and reconciliations should be promptly investigated and resolved.
- 1.2 Work with the County Commission to obtain written agreements with other counties for the boarding of prisoners.
- 1.3 Contact the DOR for guidance on establishing procedures for charging and collecting sales taxes on commissary sales, identify prior taxes owed, and ensure future sales tax collections are remitted to the DOR.

Auditee's Response

- 1.1 *We have begun reconciling our bank records going back to January 1, 2025, and will continue moving forward. We are also working backwards to reconcile past years. If any differences are identified, we will investigate and resolve promptly.*
- 1.2 *We have signed agreements now with other counties for boarding prisoners.*
- 1.3 *We have been charging sales tax for commissary items since early 2024 after it was brought to our attention during the audit. We will look into identifying past sales taxes owed.*

2. Elected Officials' Compensation

The County Commission authorized mid-term salary increases to the County Coroner and Public Administrator in violation of constitutional provisions, and to the Sheriff in violation of constitutional provisions and state law.

Clark County
Management Advisory Report - State Auditor's Findings

2.1 County Coroner and Public Administrator compensation

The County Commission authorized mid-term salary increases totaling \$12,000 to the County Coroner and \$11,500 to the Public Administrator.

County Coroner

Section 58.095.1, RSMo, enacted in 2022 and found invalid by the Missouri Supreme Court in December 2023, stated the county coroner shall receive an annual salary computed based on a statutory schedule using the county's assessed valuation level.

The County Commission stated it believed it was allowed to increase the County Coroner's salary based on the enacted legislation. The Coroner was re-elected to office starting January 2021 at the salary level approved by the Clark County Salary Commission. The County Commission authorized a salary increase for the County Coroner in April 2023. The County Commission indicated the county's attorney advised the raise was allowable, but did not provide a written legal opinion to support this decision. As of December 2023, the County Coroner received salary increases totaling \$12,000 during his term in violation of constitutional provisions.

Public Administrator

Section 473.742.4, RSMo, enacted in 2022 and found invalid by the Missouri Supreme Court in December 2023, stated upon majority approval by the salary commission, a public administrator may be paid according to the assessed valuation schedule set forth in Section 473.742.2, RSMo.

The County Commission stated it believed it was allowed to increase the Public Administrator's salary based on the enacted legislation. The Public Administrator was re-elected to office starting January 2021 at the salary level approved by the Clark County Salary Commission. The County Commission authorized a salary increase based on the Salary Commission's recommendation for the Public Administrator in May 2023 and retroactively applied the increase to be effective January 2023. The County Commission indicated the county's attorney advised the raise was allowable, but did not provide a written legal opinion to support this decision. As of December 2023, the Public Administrator received salary increases totaling \$11,500 during her term in violation of constitutional provisions.

Conclusion

Article VII, Section 13, of the Missouri Constitution, prohibits an increase in compensation for state, county, and municipal officers during the term of office. Therefore, the increases to the County Coroner's and Public Administrator's salaries were not allowed at time of authorization. In addition, with the statutes found invalid in 2023, these salaries should no longer be in effect.

2.2 Sheriff compensation

The County Commission authorized mid-term salary increases to the Sheriff totaling \$22,483 in violation of constitutional provisions and state law. The

Clark County Management Advisory Report - State Auditor's Findings

Sheriff was re-elected to office starting January 2021 at the salary level approved by the Clark County Salary Commission. The County Commission authorized a salary increase for the Sheriff starting in September 2022, spreading the increase unequally over 5 years. The County Commission indicated the county's attorney advised the county that the raise was allowable, but did not provide a written legal opinion to the county. As of June 2024, the Sheriff received salary increases in September and October 2022 and in January 2023 totaling \$22,483 during his term. The County Commission stated it believed it was allowed to increase the Sheriff's salary based on the enacted legislation.

Section 57.317.1(2), RSMo, enacted in 2021, states the Sheriff shall receive an annual salary computed based on a percentage of the compensation of an associate circuit judge of the county, with the percentage determined by a statutory schedule using the county's current assessed valuation level. The law indicates if the increase to the Sheriff's salary is less than \$10,000, the increase shall take effect January 1, 2022, but if the salary increase is more than \$10,000, the increase shall be paid equally over a 5-year period. However, Article VII, Section 13, of the Missouri Constitution, prohibits an increase in compensation for state, county, and municipal officers during the term of office. Court cases have concluded that to receive additional compensation during a term of office there must be: 1) no existing compensation for the office; 2) new or additional duties extrinsic or not germane to the office; or 3) the mid-term increase must result from the application of a statutory formula for calculating compensation that was in place prior to the individual being elected or taking office. None of those circumstances exist; therefore, the increases to the Sheriff's salary should be effective only for any official elected and sworn into office after the new salary schedule was authorized.

Recommendations

The County Commission:

- 2.1 Reinstatement of the salary schedules and compensation for the County Coroner and Public Administrator as they existed prior to the 2022 changes in each statute, and consider various methods for possible recoupment of salary increases already paid.
- 2.2 Ensure salary increases comply with constitutional provisions and state law and consider various methods for possible recoupment of any mid-term salary increases already paid to the Sheriff.

Auditee's Response

2.1-2.2 In reference to the question of compensation of the Coroner, Public Administrator, and the Sheriff, the Commissioners implemented the raises in accordance with the law at that time. A later lawsuit was filed after the fact that was to deny the implementation of the raises until the start of those listed above serving in their next term in office.

Clark County Management Advisory Report - State Auditor's Findings

The Commissioners in office at that time followed the law correctly as written when it was first adopted as law, and then due to a lawsuit being filed, the law was changed many months after the initial law was put in place. Due to good faith effort to follow the law as initially written, the current Commissioners will not be seeking back pay from the above listed elected officials.

In the future, we will continue to abide by whatever the current law is in place at the time and will have the county attorney review our recommendations prior to implementing salary increases that are put in place due to state-mandated increases based on newly adopted legislation.

Auditor's Comment

The County Commission responded that it followed the law correctly as written. However, the State Constitution holds greater authority than the state statutes. Therefore, mid-term salary increases are not lawful. Any revisions to state statutes regarding salary adjustments should be effective only for an official elected and sworn into office after the new salary schedule is authorized. In addition, because Sections 58.095.1, and 473.742.4, RSMo, as enacted in 2022, are no longer valid, the salary adjustments made pursuant to that statute should be rescinded and not included in the respective salary schedules.

3. County Assessor's Controls and Procedures

Controls and procedures in the County Assessor's office need improvement. The office collected approximately \$4,900 for maps, plat books, online geographic information system data access, and other miscellaneous receipts during the year ended December 31, 2023.

3.1 Receipting and recording

Procedures for receipting and recording payments received need improvement. Our review of receipts for the year ended December 31, 2023, identified the following concerns:

- Office personnel do not always issue receipt slips for payments received immediately upon receipt. The office's procedures are to issue a receipt slip for cash payments, while checks received are transmitted immediately to the County Treasurer without issuing a receipt slip.
- Office personnel do not always record the method of payment on receipt slips issued. We reviewed 18 receipt slips totaling \$140 issued during the year ended December 31, 2023, and noted the method of payment was not recorded on 13 receipt slips totaling \$102.
- Office personnel do not maintain the integrity of receipts slips. During our review of receipt slips issued during the year ended December 31, 2023, we noted several instances of skipped, missing, or illegible receipt

Clark County Management Advisory Report - State Auditor's Findings

slips. Office personnel indicated several receipts slips were skipped due to ink imprinting through to multiple carbon copies because they failed to place cardboard between pages of receipts. Personnel were not able to explain what happened to the missing receipt slips.

The County Assessor indicated he did not change office receipt procedures upon taking office, and he does not monitor the receipting process to identify these issues.

Failure to implement adequate receipting and recording procedures increases the risk that loss, theft, or misuse of money received will occur and go undetected.

3.2 Transmitting

Office personnel had not transmitted cash receipts to the County Treasurer since the County Assessor took office in September 2021. During our review of receipt slips written between September 2021 and May 2024, the County Assessor did not transmit cash receipts totaling \$223. The County Assessor indicated he was not aware cash receipts needed to be transmitted to the County Treasurer and thought receipts could be used for office expenses.

Failure to timely transmit receipts to the County Treasurer increases the risk that loss, theft, or misuse of money received will occur and go undetected. Section 50.370, RSMo, requires all county officials who receive fees or any other remuneration for official services to pay such money monthly to the County Treasurer.

Recommendations

The County Assessor:

3.1 Establish controls for receipting and recording money received, including immediately issuing prenumbered receipt slips for all money received; indicate the method of payment on all receipt slips; and ensure the integrity of the copies of receipt slips is maintained.

3.2 Transmit all receipts to the County Treasurer promptly.

Auditee's Response

3.1 *We plan to implement controls for receipts and receipt handling.*

3.2 *We will start turning over any cash once a month to the County Treasurer.*

4. Prosecuting Attorney's Controls and Procedures

Controls and procedures in the Prosecuting Attorney's office need improvement. The office collected approximately \$13,600 in court-ordered restitution, bad checks, and fees during the year ended December 31, 2023. The Prosecuting Attorney has not established proper procedures for receipting and transmitting payments received.

Clark County Management Advisory Report - State Auditor's Findings

- Office personnel do not always issue receipt slips for payments received immediately upon receipt. The office's procedure is to issue a receipt slip for all in-person payments, while payments received by mail are transmitted directly to the County Treasurer or victims without issuing a receipt slip. The office clerk indicated she was unaware of the importance of issuing receipt slips for payments received in the mail because receipt slips would not be given to these payees.
- Office personnel do not transmit administrative fees timely to the County Treasurer. The office's procedure is to transmit receipts to the County Treasurer and restitution to the victims at the end of the week they were collected. During our review of 11 receipt and transmittal records from the year ended December 31, 2023, we noted administrative fees for 3 receipts totaling \$215 were transmitted to the County Treasurer 58 days after receipt. The Prosecuting Attorney indicated she believed office personnel were transmitting receipts within a week of receiving the money.

Failure to implement adequate receipting and transmitting procedures increases the risk that loss, theft, or misuse of money received will occur and go undetected. Section 50.370, RSMo, requires all county officials who receive fees or any other remuneration for official services to pay such money monthly to the County Treasurer.

Recommendation

The Prosecuting Attorney issue receipt slips for all money received immediately upon receipt and transmit all receipts promptly.

Auditee's Response

The Prosecuting Attorney has implemented controls to address the issues with the receipt slips and transmitting receipts.

5. County Clerk's Controls and Procedures

Controls and procedures in the County Clerk's office need improvement. The office collected approximately \$3,400 for liquor license fees, notary fees, and other miscellaneous receipts during the year ended December 31, 2023.

The County Clerk does not always issue receipt slips. County Clerk personnel did not issue a receipt slip for 8 of 28 receipts collected during the year ended December 31, 2023. The County Clerk indicated she was not sure why receipt slips were not issued for these payments before they were transmitted to the County Treasurer's office.

Failure to implement adequate receipting procedures increases the risk that loss, theft, or misuse of money could occur and go undetected.

Recommendation

The County Clerk issue receipt slips for all money received immediately upon receipt.

Clark County
Management Advisory Report - State Auditor's Findings

Auditee's Response

The County Clerk will ensure receipt slips are given to everyone that pays for anything in the County Clerk's office. All receipts and money were given to the Treasurer and all transactions were accounted for. The County Clerk's office will be more aware of the copies in the future and by doing this we will be able to have a copy of the transaction in the receipt book.

6. County Procedures

The County Commission's procedures over capital assets and fuel cards need improvement.

6.1 Capital assets

The county does not have procedures in place to track capital asset purchases and dispositions throughout the year. In addition, county officials have not conducted annual physical inventories or provided inventory lists to the County Clerk as required. As a result, the county's capital asset records are not complete and up to date. After we inquired about the county's capital asset records in May 2024, only the offices of the County Clerk, County Collector, Recorder of Deeds, and County Assessor provided a capital asset listing. The Road and Bridge department and the offices of the Sheriff, County Treasurer, Prosecuting Attorney, and Public Administrator did not provide or prepare a capital asset listing. The County Clerk indicated she was not aware the county should maintain capital asset records for all offices.

Adequate capital asset records and procedures are necessary to ensure effective internal controls, meet statutory requirements, and provide a basis for determining proper insurance coverage. Procedures to track capital asset purchases and dispositions throughout the year and compare to physical inventory results would enhance the county's ability to account for capital assets and potentially identify unrecorded additions and dispositions, identify obsolete assets, and deter and detect theft of assets. Section 49.093, RSMo, provides that the officer or his/her designee of each county department is responsible for performing annual inspections and inventories of county property used by his/her department and for submitting an inventory report to the County Clerk.

6.2 Fuel cards

The county does not maintain a central list of fuel cards assigned to various departments and employees. Upon request, a list of fuel cards assigned to various departments and county employees was compiled. This list indicated 26 cards were active, but only 24 cards were assigned and accounted for. When this situation was brought to their attention, county officials indicated they were unsure to whom the remaining 2 cards were assigned. Subsequently, the County Clerk was able to identify the assignments for those 2 fuel cards, which were reasonable. The County Clerk indicated it is up to the individual departments and offices to maintain listings of their fuel cards.

Failure to adequately account for fuel cards increases the possibility of loss, theft, or misuse occurring and going undetected.

Clark County
Management Advisory Report - State Auditor's Findings

Recommendations

The County Commission and the County Clerk:

- 6.1 Work with other county officials to establish procedures for tracking capital asset purchases and dispositions. In addition, the County Commission and the County Clerk should work with the county officials to ensure complete and accurate inventory records are maintained and annual physical inventories are conducted.
- 6.2 Work with other county officials to maintain an accurate listing of active fuel cards.

Auditee's Response

- 6.1 *The county will ensure inventory lists are maintained in every office, and we will compile a master list in one location. We will also ensure annual physical inventories are performed and inventory lists are updated.*
- 6.2 *The County Clerk has a list of the fuel cards in her office now and will continue to have a master list of all fuel cards.*

7. Sheriff's Data Backup

The Sheriff does not store backup data at an off-site location. The Dispatch Administrator indicated she backs up data to an external hard drive daily, but she often forgets to take the external hard drive offsite with her.

Failure to store computer backup data at a secure off-site location results in the backup data being susceptible to the same damage as the data on the computer. Storing backup data off site will help ensure it is available for recovery if necessary.

Recommendation

The County Commission work with the Sheriff to ensure backup computer data is stored at a secure off-site location.

Auditee's Response

We are researching options with storing data using a secured cloud server.

8. Electronic Communication Policy

The county has not developed a records management and retention policy that includes electronic communication in compliance with the Missouri Secretary of State Records Services Division guidance, as approved by the Missouri Local Records Commission. This guidance recommends government entities have a policy on electronic messaging, including text messages, email, and other third party platforms.

Section 109.270, RSMo, provides that all records made or received by an official in the course of his/her public duties are public property and are not to be disposed of except as provided by law. Section 109.255, RSMo, provides that the Local Records Board issue directives for the destruction of

Clark County
Management Advisory Report - State Auditor's Findings

records. The guidelines for managing electronic communications records can be found on the Secretary of State's website.¹

Development of a written policy to address the use of electronic communications is necessary to ensure all documentation of official business of the county is retained as required by state law. The County Commission indicated it was unaware of the record retention requirements and the electronic communications guidelines.

Recommendation

The County Commission work with other county officials to develop a written records management and retention policy to address electronic communications management and retention to comply with Missouri Secretary of State Records Services Division electronic communications guidelines.

Auditee's Response

The county will work on putting a policy in place regarding electronic communication of employees.

¹ Missouri Secretary of State Records Services Division, *Electronic Communications Records Guidelines for Missouri Government*, May 14, 2019, is available at <<https://www.sos.mo.gov/CMSImages/LocalRecords/CommunicationsGuidelines.pdf>>, accessed February 27, 2025.

Clark County

Organization and Statistical Information

Clark County is a county-organized, third-class county. The county seat is Kahoka. The county's population was 6,634 in 2020, according to the U.S. Census Bureau.

Clark County's government is composed of a three-member county commission and separate elected officials performing various tasks. All elected officials serve 4-year terms. The county commission has mainly administrative duties in setting tax levies, appropriating county funds, appointing board members and trustees of special services, accounting for county property, maintaining county roads and bridges, and performing miscellaneous duties not handled by other county officials. Principal functions of these other officials relate to law enforcement, property assessment, property tax collections, conduct of elections, and maintenance of financial and other records important to the county's citizens. In addition to elected officials, the county employed 32 full-time employees and 25 part-time employees on December 31, 2023.

County operations also include a Senior Services Board.

Elected Officials

The elected officials and their compensation paid for the year ended December 31 (except as noted) are indicated below:

Officeholder	2024	2023
Steven H. Krueger, Presiding Commissioner	\$	29,812
Henry W. Dienst, Associate Commissioner		27,772
Joseph B. Humes, Associate Commissioner		27,772
Melissa Bevans, Recorder of Deeds		41,229
Kelly Waples, County Clerk		41,229
Lindsay Gravett, Prosecuting Attorney		48,547
Shawn Webster, Sheriff		63,810
Roberta McAfee, County Treasurer		41,229
Edwin Wilson, County Coroner		25,000
Melissa Vigen, Public Administrator		38,000
Michelle Allen, County Collector (1), year ended February 29,	61,385	
John Campbell, County Assessor, year ended August 31,		41,229

- (1) Includes \$19,743 of commissions earned for collecting city property and drainage district taxes.

SCOTT FITZPATRICK
MISSOURI STATE AUDITOR

Honorable Mike Kehoe, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this compilation is to report the filing status for political subdivisions, other than cities, towns, and villages, required to file a financial report under Section 105.145, RSMo, and 15 CSR 40-3.030. Section 105.145, RSMo, provides that the State Auditor's Office shall notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Due to different filing requirements, a separate report is issued for cities, towns, and villages.

The filing status for the 97 political subdivisions required to file a financial report by March 31, 2025, is presented in summary on page 3 and by individual entity in Appendix A. We have not audited the information submitted and, accordingly, do not express an opinion or any other form of assurance on it.

This report also includes the updated filing status for political subdivisions, other than cities, towns, and villages, that filed a financial report in March 2025, after their filing deadline. The filing status for these 12 entities is presented in summary on page 3 and by individual entity in Appendixes B to F.

A handwritten signature in black ink that reads "Scott Fitzpatrick". The signature is written in a cursive, flowing style.

Scott Fitzpatrick
State Auditor

Monthly Report on Political Subdivision Filings

March 2025

Executive Summary

Executive Summary

Section 105.145, RSMo, requires the governing body of each political subdivision in the state, except counties and school districts, to prepare and remit to the state auditor an annual report of financial transactions. Rule 15 CSR 40-3.030 requires the financial report to be remitted to the state auditor within 6 months of the end of the political subdivision's fiscal year. The State Auditor's Office posts individual annual financial reports to its website. A searchable link is available at <http://auditor.mo.gov>.

Section 105.145, RSMo, requires the state auditor to notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Any political subdivision that fails to timely submit the annual financial report shall be subject to a fine of \$500 per day upon notice by the Department of Revenue.

This report includes the filing status for the 97 political subdivisions, other than cities, towns, and villages, with a fiscal year end of September 30, 2024. Cities, towns, and villages have additional filing requirements and their reporting status is included in a separate report. Of the 97 political subdivisions, 84 filed an annual financial report timely.

This report also includes the filing status for 12 political subdivisions, other than cities, towns, and villages, that filed their financial report in March 2025, after their filing deadline.

SCOTT FITZPATRICK
MISSOURI STATE AUDITOR

Honorable Mike Kehoe, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this compilation is to report the filing status for the municipalities required to file a financial report by March 31, 2025, under Section 105.145, RSMo, and 15 CSR 40-3.030 and, when applicable, an addendum under Section 479.359, RSMo, and 15 CSR 40-3.170 and a municipal court certification under Section 479.360, RSMo, and 15 CSR 40-3.180.

Section 105.145, RSMo, provides that the State Auditor's Office (SAO) shall notify the Department of Revenue if any city, town, or village fails to timely submit a copy of its annual financial report. Additionally, Section 479.362, RSMo, provides that the SAO shall notify the Department of Revenue whether counties, cities, towns, and villages have timely filed under Sections 479.359 and 479.360, RSMo. Due to different filing requirements, a separate report is issued for all other political subdivisions required to file a financial report.

The filing status for the 64 cities and 2 villages is presented in summary on page 3 and by individual entity in Appendix A. This compilation is limited to presenting information submitted to our office. We have not audited the information submitted and, accordingly, do not express an opinion or any other form of assurance on it.

This report includes the updated filing status for municipalities that filed at least one of the items (financial report, addendum, or certification) in March 2025, after their filing deadline. The filing status for these 20 cities, 1 town, and 6 villages is presented in summary on page 4 and by individual entity in Appendixes B to E.

A handwritten signature in black ink that reads "Scott Fitzpatrick". The signature is stylized, with the first name "Scott" written in a cursive script and the last name "Fitzpatrick" in a more formal, slightly cursive script.

Scott Fitzpatrick
State Auditor

Monthly Report on Municipal Court and Revenue Filings

March 2025

Executive Summary

Executive Summary

Section 105.145, RSMo, requires the governing body of each political subdivision in the state, except counties and school districts, to prepare and remit to the state auditor an annual report of financial transactions. Rule 15 CSR 40-3.030 requires the financial report to be remitted to the state auditor within 6 months of the end of the political subdivision's fiscal year. The State Auditor's Office (SAO) posts individual annual financial reports to its website. A searchable link is available at <http://auditor.mo.gov>.

Section 105.145, RSMo, requires the state auditor to notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Any political subdivision that fails to timely submit the annual financial report shall be subject to a fine of \$500 per day upon notice by the Department of Revenue.

Section 479.359.1, RSMo, requires every county, city, town, and village to annually calculate the percentage of its annual general operating revenue received from fines, bond forfeitures, and court costs for minor traffic violations.

Section 479.359.3, RSMo, provides that all entities having a municipal court file an addendum to the annual financial report containing items listed in 15 CSR 40-3.170, which also provides the procedure to file an addendum.

Section 479.360, RSMo, requires every county, city, town, and village that has a municipal court to file, with its annual financial report, a certification of substantial compliance with 10 municipal court procedures. This certification must be signed by the municipal court judge. Rule 15 CSR 40-3.180 provides the procedure to file the municipal court certification. Any county, city, town, or village that does not have a municipal court judge is not required to file a certification.

Section 479.362, RSMo, requires the SAO to notify the Department of Revenue whether counties, cities, towns, or villages have timely filed their addendums under Section 479.359, RSMo, and certificates of substantial compliance under Section 479.360, RSMo. Section 479.368, RSMo, provides penalties for counties, cities, towns, and villages that fail to file, including loss of revenue and a mandatory ballot measure to dissolve the political subdivision.

This report includes the filing status for the 64 cities and 2 villages with a fiscal year end of September 30, 2024, whose financial report was due by March 31, 2025. Of the 66 municipalities, 51 filed the financial report timely. Of the 63 municipalities required to file an addendum, 35 filed timely. Of the 35 municipalities required to file a certification, 18 filed timely.

Monthly Report on Municipal Court and Revenue Filings
March 2025
Executive Summary

This report includes the filing status for 20 cities, 1 town, and 6 villages that filed at least one of the items (financial report, addendum, or certification) in March 2025, after their filing deadline. Of these municipalities, 19 filed an annual financial report, 9 filed an addendum, and 5 filed a certification.

Scott Fitzpatrick

Missouri State Auditor

Stone County Developmental Disability Board

Report No. 2025-023

April 2025

auditor.mo.gov

CITIZENS SUMMARY

Findings in the audit of the Stone County Developmental Disability Board

Sunshine Law	The Stone County Developmental Disability Board did not always ensure compliance with the Sunshine Law. The Board's Operations and Finance committees did not prepare meeting minutes; did not always provide notice of the time, date, and place of each meeting; and did not prepare or provide tentative agendas. The Board did not always discuss allowable topics in closed meetings. The Board discussed and voted to increase the Executive Director's salary from \$90,000 to \$125,000 annually in the December 21, 2023, closed meeting, which is a specifically prohibited closed meeting topic under the Sunshine Law.
Building Construction	The Board did not comply with state law when procuring a construction manager for construction of a facility to house all Board operations, including programs supporting the developmentally disabled and administrative functions. The Board solicited proposals from construction managers for the facility using the construction manager-at-risk method outlined in Section 67.5050, RSMo, and in March 2024, awarded a contract to a construction manager for a guaranteed maximum price of \$2.75 million. However, Section 67.5050(2), RSMo, allows this procurement method only for building projects that exceed \$3 million.
Electronic Communication Policy	The Board's records policy does not include all forms of electronic communication in compliance with the Missouri Secretary of State Records Services Division guidance, as approved by the Missouri Local Records Commission. The Board's policy covers email, but does not cover text messages or other electronic communications.

In the areas audited, the overall performance of this entity was **Fair**.*

*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

- Excellent:** The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.
- Good:** The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.
- Fair:** The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.
- Poor:** The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

SCOTT FITZPATRICK
MISSOURI STATE AUDITOR

County Commission
and
Stone County Developmental Disability Board
Stone County, Missouri

We have audited certain operations of the Stone County Developmental Disability Board in fulfillment of our duties under Section 29.230, RSMo. The scope of our audit included, but was not necessarily limited to, the year ended December 31, 2023. The objectives of our audit were to:

1. Evaluate the Board's internal controls over significant management and financial functions.
2. Evaluate the Board's compliance with certain legal provisions.
3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.

Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; interviewing personnel of the Board, as well as certain external parties; and performing sample testing using haphazard and judgmental selection, as appropriate. The results of our sample testing cannot be projected to the entire populations from which the test items were selected. We obtained an understanding of internal control that is significant to the audit objectives and planned and performed procedures to assess internal control to the extent necessary to address our audit objectives. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted this performance audit in accordance with generally accepted government auditing standards. Those standards require that we plan and perform the audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides a reasonable basis for our findings and conclusions based on our audit objectives.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the Board's management and was not subjected to the procedures applied in our audit of the Board.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, and (3) the need for improvement in management practices and procedures. The accompanying Management Advisory Report presents our findings arising from our audit of the Stone County Developmental Disability Board.

A handwritten signature in black ink, reading "S. Fitzpatrick". The signature is written in a cursive, flowing style.

Scott Fitzpatrick
State Auditor

Stone County Developmental Disability Board

Management Advisory Report

State Auditor's Findings

1. Sunshine Law

The Stone County Developmental Disability Board did not always ensure compliance with the Sunshine Law.

1.1 Board committees

The Board's Operations and Finance committees did not prepare meeting minutes; did not always provide notice of the time, date, and place of each meeting; and did not prepare or provide tentative agendas. Each committee consists of at least 2 Board members, meets independently of the Board, and carries out Board-delegated responsibilities, such as developing and monitoring operating policies, financial budgeting, and building construction.¹ The committees report conclusions and recommendations to the Board, and the Board votes on the recommendations and/or provides further direction to the committees. According to the Board's meeting minutes, during the year ended December 31, 2023, the Operations committee met approximately monthly, and the Finance committee met periodically. Without maintaining meeting minutes and providing public notice of Board committee meetings, the Board lacks an official record and there is no transparency regarding the actions taken during committee meetings.

Section 610.010, RSMo, identifies Board committees as subject to the Sunshine Law. Section 610.020.7, RSMo, requires minutes of open and closed meetings be taken and retained by the public governmental body. Section 610.020.1, RSMo, requires public entities to give notice of the time, date, and place of each meeting, and the tentative agenda to advise the public of matters to be considered. The Executive Director indicated under the Board's interpretation of the Sunshine Law, the Board did not believe the requirements applied to Board committees because the committees did not consist of a quorum of the full Board and no final business decisions were made in committee meetings.

1.2 Closed meeting topics

The Board did not always discuss allowable topics in closed meetings. The Board discussed and voted to increase the Executive Director's salary from \$90,000 to \$125,000 annually in the December 21, 2023, closed meeting, which is a specifically prohibited closed meeting topic under the Sunshine Law.

Section 610.022.3, RSMo, requires the discussion topics and actions in closed meetings be limited to only those specifically allowed by law. Section 610.021(13), RSMo, allows public bodies to discuss in closed meetings "individually identifiable personnel records, performance ratings or records pertaining to employees," but further states that "this exemption shall not apply to the names, positions, salaries and lengths of service of officers and

¹ In January 2024, the Board created a Building committee to relieve the Operations committee of responsibilities regarding the new building construction.

Stone County Developmental Disability Board
Management Advisory Report - State Auditor's Findings

employees." The Board indicated it believed it was allowed to discuss the salary increase in a closed meeting.

Ensuring only allowed topics are discussed in closed meetings is necessary to comply with state law and ensure Board decisions are transparent.

Recommendations

The Board of Directors:

- 1.1 Ensure minutes are prepared for all Board committee meetings and notices and agendas are provided to the public as required by state law.
- 1.2 Ensure only topics allowed by state law are discussed in closed meetings.

Auditee's Response

The Board's response is included in Appendix A.

Auditor's Comment

- 1.2 The Board's response indicates it disagrees that the discussion and vote on raising the Executive Director's salary in a closed meeting is a violation of the Sunshine Law. The Board argues it was allowed to discuss the salary increase in closed session under Section 610.021(3), RSMo. However, that provision is not relevant to this situation because that provision relates to the hiring, firing, disciplining, or promoting of particular employees when personal information about the employee is discussed or recorded. As noted in the finding, Section 610.021(13), RSMo, specifically states that salaries are not subject to closure under the Sunshine Law.

2. Building Construction

The Board did not comply with state law when procuring a construction manager for construction of a facility to house all Board operations, including programs supporting the developmentally disabled and administrative functions.

The Board solicited proposals from construction managers for the facility using the construction manager-at-risk (CMAR) method outlined in Section 67.5050, RSMo, and in March 2024, awarded a contract to a construction manager for a guaranteed maximum price (GMP) of \$2.75 million. However, Section 67.5050(2), RSMo, allows this procurement method only for building projects that exceed \$3 million.

The facility construction began in May 2024, with expected completion in March 2025. The CMAR process provides for selecting a construction manager through a request for qualifications process. That construction manager then uses the established scope of work and project designs to request bids for construction and presents a GMP for a project based on the bids received. The district is responsible for paying the GMP if there are no

Stone County Developmental Disability Board Management Advisory Report - State Auditor's Findings

significant project scope changes, and any cost overruns after the GMP is established are assumed by the construction manager.

The Board indicated it believed the CMAR procurement method was allowed for this project because it believes it is not subject to the provisions in Section 67.5050, RSMo. Since project costs did not exceed the \$3 million threshold for the CMAR method, the Board should have used a proper procurement process and building method available under state law, which might have resulted in a different contract price.

Recommendation

The Board of Directors ensure compliance with state law when procuring building construction.

Auditee's Response

The Board's response is included in Appendix A.

Auditor's Comment

The Board's response outlines its position that it is not subject to the CMAR method provisions outlined in Section 67.5050, RSMo, because Senate Bill 40 (SB 40) boards are not considered political subdivisions for purposes of the section. However, SB 40 boards are political subdivisions, as noted by the Board itself in the "About Us - SB40 Board State Statutes" page of its website, and as such, the Board is subject to the provisions of Section 67.5050, RSMo. See Appendix B for a screenshot of the Board's website.² In addition, the Board's response includes the following invalid arguments:

- (1) The Board argues because it is not a public institution of higher education, it does not fall within the definition of a political subdivision for purposes of Section 67.5050, RSMo. The Board references the definition found in Section 67.5065, RSMo, which states "[f]or purposes of section 67.5050 and section 67.5060, the term 'political subdivision' includes any public institution of higher education." While this Section provides clarification regarding public institutions of higher education, it does not exclude SB 40 boards (or other entities) from being considered political subdivisions.
- (2) The Board argues because it is not authorized or empowered to levy taxes, it is not a political subdivision for purposes of Section 67.5050, RSMo. The Board references the definition of a political subdivision found in Section 70.120(3), RSMo; however, that section is not applicable to Section 67.5050, RSMo, and only applies to Section 67.010, RSMo, which requires political subdivisions to prepare an annual budget.
- (3) The Board argues the only statutory reference to a SB 40 board being a political subdivision is for the purposes of participation in the Missouri

² The "About Us - SB40 Board State Statutes" page of the Board's website can be found at <https://stoneddbboard.com/about-2/sb40-board-state-statutes/>, accessed April 15, 2025.

Stone County Developmental Disability Board Management Advisory Report - State Auditor's Findings

Local Government Employees' Retirement System (LAGERS) pursuant to Section 205.968.1, RSMo; therefore, the board is not a political subdivision for any other purpose. However, the purpose of Section 205.968.1, RSMo, is to clarify SB 40 boards are political subdivisions eligible for participation in the LAGERS. The Section does not limit SB 40 boards as *only* being political subdivisions for LAGERS eligibility.

- (4) The Board asserts it is distinct from county government and subject to the authority and limitations contained in statutes pertaining to SB 40 boards, and relies on Attorney General Opinion No. 90-96 to support this point. However, that opinion is not relevant to the Board's argument. The opinion found an ambulance district, as a political subdivision of the state, was subject to the competitive bidding provisions that pertain to ambulance districts, not those provisions that pertain to counties.

3. Electronic Communication Policy

The Board's records policy does not include all forms of electronic communication in compliance with the Missouri Secretary of State Records Services Division guidance, as approved by the Missouri Local Records Commission. This guidance recommends government entities have a policy that includes management and retention of all electronic messaging, including text messages, email, and other third party platforms. The Board's policy covers email, but does not cover text messages or other electronic communications.

Section 109.270, RSMo, provides that all records made or received by an official in the course of his/her public duties are public property and are not to be disposed of except as provided by law. Section 109.255, RSMo, provides that the Local Records Board issue directives for the destruction of records. The guidelines for managing electronic communications records can be found on the Secretary of State's website.³

Development of a written policy to address the use of all forms of electronic communications is necessary to ensure all documentation of official business of the Board is retained as required by state law. The Board indicated it does not believe it is subject to Section 109.270, RSMo, and Missouri Secretary of State Records Services Division guidelines.

Recommendation

The Board of Directors update the records policy to address all forms of electronic communications management and retention to comply with Missouri Secretary of State Records Services Division electronic communications guidelines.

³ Missouri Secretary of State Records Services Division, *Electronic Communications Records Guidelines for Missouri Government*, May 14, 2019, is available at <<https://www.sos.mo.gov/CMSImages/LocalRecords/CommunicationsGuidelines.pdf>>, accessed October 24, 2024

Stone County Developmental Disability Board
Management Advisory Report - State Auditor's Findings

Auditee's Response
Auditor's Comment

The Board's response is included in Appendix A.

The Board's response outlines its belief that it is not subject to Section 109.270, RSMo, and Missouri Secretary of State Records Services Division guidelines, and states it is not convinced it falls within the definition of an agency within the state and local records laws because it is not a political subdivision. However, as noted in the Auditor's Comment for finding number 2 and on the Board's website itself (see Appendix B), SB 40 boards are political subdivisions and are an agency as that term is defined for purposes of the state and local records laws; and as such, the Board is subject to the provisions of Section 109.270, RSMo.

Stone County Developmental Disability Board

Organization and Statistical Information

The Stone County Developmental Disability Board (also known as the Stone County Senate Bill 40 Board) was established by a vote of Stone County residents in 2016, and renewed in 2023, pursuant to Chapter 205, RSMo.

The Board receives county taxpayer funds to support programs serving developmentally disabled individuals living in Stone County. Beginning in 2020, the Board contracted with the Missouri Department of Mental Health to administer day and residential services programs serving developmentally disabled individuals living in Stone, Taney, and Christian counties.

At May 15, 2024, the Board employed 39 full-time and 5 part-time employees. The Executive Director is responsible for the daily operations of the Board.

Board of Directors

The Board of Directors consists of 9 members appointed by the County Commission, of which 2 shall be related by blood or marriage within the third degree to a handicapped person as defined in Section 205.968, RSMo; 4 shall be public members; and at least 7 shall be residents of Stone County. The members are appointed for 3-year terms. The Chairperson is a member of and presides over the Board of Directors. Members of the Board of Directors, at December 31, 2023, are identified below. The Chairperson and Board members do not receive financial compensation.

Brittany Brosseau, Chairperson (1)
Shawn Mayr, Vice Chairperson (2)
Randy Moore, Treasurer
Anne Collins, Secretary
Anne Coleman (1)
Jeremy Rouch
Medessa Bolton
Liz Enochs
Vacant

(1) Anne Coleman served as Chairperson through December 21, 2023, and began serving as Treasurer in February 2024.

(2) Jim Holt served as Vice Chairperson prior to resigning on December 21, 2023.

Financial Activity

A summary of the Board's financial activity for the year ended December 31, 2023, obtained from the county's audited financial statements, follows. The Board's intergovernmental receipts are from the Missouri Department of Mental Health.

Stone County Developmental Disability Board
Board's Responses to Audit Recommendations

February 21, 2025

Honorable Scott Fitzpatrick
Missouri State Auditor
P.O. Box 869
Jefferson City, MO 65102

Dear Sir:

Attached you will find the Stone County Developmental Disability Board's response to the findings cited in the Management Advisory Report submitted to us on January 17, 2025.

This response was approved by a unanimous vote of the Board in its regularly scheduled February 20, 2025, meeting.

Please let me know if you have any questions or comments.

Sincerely,

A handwritten signature in black ink, appearing to read "LaDella Thomas".

LaDella Thomas
Executive Director
Stone County Developmental Disability Board
417-449-5160

Appendix A
Stone County Developmental Disability Board
Board's Responses to Audit Recommendations

Response to Missouri State Auditor's Report

1. **Sunshine Law.**

- 1.1 **Board Committees.** The Auditor's Report indicates that the Operations and Finance Committees should give public notice of their meetings and prepare meeting minutes, in order to comply with the Missouri Sunshine Law.

The Board did not understand that these Committees were a Public Governmental Body under the Sunshine Law definitions because there was not a quorum of Board members on the committees. This confusion was the result of the Missouri Sunshine Law Handbook published by the Attorney General's Office, which states in relevant part:

MEETINGS OF PUBLIC GOVERNMENT BODIES

Meetings of public governmental bodies, where a quorum is present, and public business is discussed, are subject to the Sunshine Law.

[...]

*And in some situations, a public meeting may also include series of meetings, each involving fewer than a quorum of the members, but collectively involving a quorum of the public body, where the body's members deliberately attempt to discuss public business while evading the Sunshine Law.
(page 7).*

Since the committees did not have a quorum of the Board, and the committees report back to the Board in its public meetings, the Board did not believe there was a "Public Meeting" requiring Notice and separate minutes. There was no intention to evade the requirements of the Sunshine Law.

The Board will take steps to ensure that any Board Committee meetings in the future will follow Notice, Agenda, and Minutes requirements under RSMo 610.020.

- 1.2 **Board Closed Meeting Topics.** The Auditor's Report indicates that the Board discussed and voted on the Executive Director's salary in the December 21, 2023 closed meeting.

STONE COUNTY DEVELOPMENTAL DISABILITY BOARD
PO BOX 2383, BRANSON WEST, MO 65737 PHONE: 417-272-0444 FAX: 417-272-0665
stoneDDboard.com info@stoneddboard.com

Appendix A Stone County Developmental Disability Board Board's Responses to Audit Recommendations

The Auditor's Report indicates that RSMo 610.021(13) allows public bodies to discuss "individually identifiable personnel records, performance ratings or records pertaining to employees" but that the "exemption shall not apply to the names, positions, salaries and lengths of service of officers and employees."

The Board did not intend to violate RSMo 610.021. However, the sub-section referenced by the Auditor is not the only provision in 610.021 relating to personnel issues. Sub-section (3) also provides as follows:

(3) Hiring, firing, disciplining or promoting of particular employees by a public governmental body when personal information about the employee is discussed or recorded. However, any vote on a final decision, when taken by a public governmental body, to hire, fire, promote or discipline an employee of a public governmental body shall be made available with a record of how each member voted to the public within seventy-two hours of the close of the meeting where such action occurs; provided, however, that any employee so affected shall be entitled to prompt notice of such decision during the seventy-two-hour period before such decision is made available to the public. As used in this subdivision, the term "personal information" means information relating to the performance or merit of individual employees;

Since the salary issue came up in the Board Meeting in conjunction with discussing the Executive Director's "personal information" -- information relating to the performance or merit of an individual employee, the Board believed that compensation was a proper component of discussing the performance or merit of that employee. Thus, it is difficult to separate those discussions between an Open Meeting and Closed Meeting.

The Board finds no statutory authority or court decision that has ruled that the decision for compensation of an employee cannot be part of the Closed Meeting. An Attorney General Opinion has stated that a city council may go into closed session to discuss personnel matters involving any employee of the city. Op.Atty.Gen. No. 117-2001, Strickrodt, Walker, April 19, 2001. Furthermore, the Eastern District Court of Appeals has noted a difference between meetings and records under 610.021(3) and (13). The Court in *Librach v. Cooper*, 778 S.W.2d 351, 354-5 (Mo.App.E.D. 1989) notes that "... the policy manifested by this exception is twofold: first, to promote candid discussion by members of the governmental body in considering the listed matters; second, to protect the employee's privacy. See, e.g., *Hudson v. School District of Kansas City*, 578 S.W.2d 301, 308 (Mo.App. 1979)." The Court went further to state: "The exception for personnel decisions is designed to protect the process by which the ultimate decision is made, not the decision itself." *Librach v. Cooper*, 778 S.W.2d 351, 355 (Mo. Ct. App. 1989).

STONE COUNTY DEVELOPMENTAL DISABILITY BOARD
PO BOX 2383, BRANSON WEST, MO 65737 PHONE: 417-272-0444 FAX: 417-272-0665
stoneDDboard.com info@stoneddboard.com

Appendix A Stone County Developmental Disability Board Board's Responses to Audit Recommendations

Furthermore, another Attorney General Opinion, No. 129-97, has noted that:

The vote of each school board member must be available to the public on votes to hire, fire, discipline, or promote particular employees in a closed meeting pursuant to § 610.021(3), RSMo. But the information considered during the closed meeting and before the actual vote is taken does not have to be disclosed.

Therefore, the Board disagrees with the Auditor's finding that the discussion and vote on raising the compensation of the Executive Director in a Closed Meeting is a violation of the Sunshine Law. The Board does agree that the salary, name and position of the Executive Director is an Open Record under the law, and does agree to make any vote on a final decision on compensation, hiring or firing of "an employee with be made "available to the public within 72 hours of the close of the meeting where such action occurs."

2. **Building Construction.** The Auditor's Report states that the Board did not comply with state law when procuring a construction manager for construction of a new facility to house all Board operations. The Auditor's Report stated that a Construction Manager At-Risk ("CMAR") method as set forth in RSMo 67.5050 is allowed only for projects that exceed \$3 million, and the project in question had guaranteed maximum price of \$2.75 million.

The Board does not agree that it is subject to the provisions of RSMo 67.5050. RSMo 67.5050 provides requirements relating to "political subdivisions" using a construction manager-at-risk method. This section provides no definition of "political subdivision." The only definition specific to RSMo 67.5050, is found in RSMo 67.5065, which provides: "For purposes of section 67.5050 and section 67.5060, the term "political subdivision" includes any public institution of higher education." Clearly, the Board does not fall within that specific definition.

The next potential guidance as to the meaning of the term "political subdivision" would be to look at the general scope and applicability of Chapter 67 as a whole. RSMo Chapter 67 is the Chapter of RSMo that is entitled "**Political Subdivisions, Miscellaneous Powers.**" This Chapter deals with county governments, certain special districts, and certain "political subdivisions." However, a review of the first section of Chapter 67 finds that there are specific definitions of what a "political subdivision" is within the meaning of this Chapter. RSMo 67.010 provides:

Political subdivisions to prepare annual budget — contents — expenditures not to exceed revenues. — 1. Each political subdivision of this state, as defined in section 70.120, except those required to prepare an annual budget by chapter 50 and section 165.191, shall prepare an annual budget.

STONE COUNTY DEVELOPMENTAL DISABILITY BOARD
PO BOX 2383, BRANSON WEST, MO 65737 PHONE: 417-272-0444 FAX: 417-272-0665
stoneDDboard.com info@stoneddboard.com

Appendix A

Stone County Developmental Disability Board

Board's Responses to Audit Recommendations

A review of RSMo 70.120 finds that the term “political subdivision” is defined in 70.120(3), as follows:

(3) *“Political subdivision” shall mean any agency or unit of this state which now is, or hereafter shall be, authorized to levy taxes or empowered to cause taxes to be levied;*

Based upon the above, the only logical scope of RSMo 67.5050 must be limited in application to (1) and agency or unit of the state of Missouri which is authorized or empowered to levy taxes or to cause taxes to be levied (per 70.120); or, (2) any public institution of higher education (per 67.5060, the term “political subdivision”).

As a **“COUNTY DEVELOPMENTAL DISABILITY RESOURCE BOARDS”**

DEVELOPMENTAL DISABILITY RESOURCE BOARDS (commonly referred to as an “SB40” Board”), the Board was established by the Stone County Commission pursuant to RSMo 205.968, et seq. The Board is clearly not established by Chapter 67, RSMo.

Instead, RSMo Chapter 205 deals with **County Health and Welfare Programs**. The SB40 Boards in Missouri are a special statutory creation, and this type of Board does not levy taxes. Per RSMo 205.971, the county commission levies a tax for developmental disability services as authorized by a vote of the citizens. The Board does not levy those taxes, it merely administers those funds.

The only reference to an SB40 Board being a potential “political subdivision” is found in RSMo 205.968.1, which provides in relevant part:

The board shall be taken and considered as a “political subdivision” as the term is defined in section 70.600 for the purposes of sections 70.600 to 70.755.

Of course, RSMo Sections 70.600 to 70.755 are the statutory provisions creating and governing the “Missouri local government employees' retirement system.” There is no other provision in the SB40 Board statutes that provide these Board will be considered a “political subdivision” for any other purposes.

An SB40 Board, such as Stone County DD Board, is distinct from county government and subject to the authority and limitations contained in Chapter 205, RSMo. The Board is vested with independent authority to 205.968 to “engage in and contract for any and all types of services, actions or endeavors, not contrary to the law, necessary to the successful and efficient prosecution and continuation of the business and purpose for which it is created, and may purchase, receive, lease or otherwise acquire, own, hold, improve, use, sell, convey, exchange, transfer, and otherwise dispose of real and personal property, or any interest therein, or other assets wherever situated and may incur liability and may borrow money at rates of interest up to the market rate published by the Missouri division of finance.” RSMo 205.968.1.

There is an Attorney General opinion that gives advice relating to an ambulance district board, which gives an opinion that the laws applicable to counties do not apply to an ambulance district. Office of the Attorney General, Opinion No. 90-96 (February 2, 1996).

Appendix A Stone County Developmental Disability Board Board's Responses to Audit Recommendations

This Opinion noted that directors of such Boards are subject to certain fiduciary obligations because public funds are trust funds. The Opinion cites several court cases: *City of St. Louis v. Whitley*, 283 S.W.2d 490, 493 (Mo. 1955). See also *Fulton v. City of Lockwood*, 269 S.W.2d 1, 7 (Mo. 1954) ("Public officials act in regard to public funds in a trust capacity as servants of the public"). A public official is bound by the same measure of good faith "required of an ordinary trustee towards his cesti que trust, or an agent towards his principal." *Butler County v. Campbell*, 353 Mo. 413, 419, 182 S.W.2d 589, 592 (Mo. 1944). In exercising their duties, public officials "are required to act with reasonable skill and diligence, and to discharge their duties with that prudence, caution and attention which careful men usually exercise in the management of their own affairs." *Id.* The Opinion thus concludes that although those statutes do not apply to such a Board, each Board must devise their own procedures to achieve this result.

The Board takes its duties relating to tax dollars seriously, and attempted to follow procedures similar to those applicable in the statutes for CMAR, even if they were not specifically applicable. When the Board started the Request for Proposal process, there was limited interest in the project from bidders. However, the proposals that the Board received were in excess of the \$3 million amount mentioned in the Auditor's Report. Thus, at the time the construction manager contracts were being proposed the project cost was over the \$3 million figure referenced by the Auditor. It was not until after the bids were submitted and contract awarded that the Board set a hard maximum cost, and ended up working with the construction manager in removing a few "wants" to get the cost down to the \$2.75 million figure.

Therefore, the Board believes the audit findings relating to the building project are unfounded, and that the Board met its fiduciary obligations to prudently use funds for this construction project. The Board contends it has complied with any applicable state laws relating to this project.

3. **Electronic Communication Policy.** The Auditor's Report indicates that the Board's record policy does not include all forms of electronic communication in compliance with RSMo Section 109.270, and the Secretary of State's Records Services Division guidance. The Auditor recommends an update to the Board's records policy to address all forms of electronic communications management and retention to comply with the Secretary of State's guidelines.

The Board has had its legal counsel review RSMo Sections 109.200 to 109.310, known as "The State and Local Records Law". This law indicates that it applies to an "Agency," which is defined in RSMo 109.210(1), as follows:

STONE COUNTY DEVELOPMENTAL DISABILITY BOARD
PO BOX 2383, BRANSON WEST, MO 65737 PHONE: 417-272-0444 FAX: 417-272-0665
stoneDDboard.com info@stoneddboard.com

Appendix A Stone County Developmental Disability Board Board's Responses to Audit Recommendations

(1) "Agency", any department, office, commission, board or other unit of state government or any political or administrative subdivisions created for any purpose under the authorities of or by the state of Missouri;

For the reasons set forth above, the Board is not convinced that it falls within the above definition, since it is not a political subdivision. The Board has been unable to find any notifications or directives stating that SB40 Boards are subject to this law.

However, the Board believes that it does comply with the general duties set forth in RSMo 109.240, which merely requires the head of each agency to:

(1) Establish and maintain an active, continuing program for the economical and efficient management of the agency;

(2) Make and maintain records containing adequate and proper documentation of the organization, functions, policies, decisions, procedures and essential transactions of the agency designed to furnish information to protect the legal and financial rights of the state and of persons directly affected by the agency's activities;

Two of the provisions of RSMo 109.240 seem completely inapplicable to the Board, which require the following:

(3) Submit to the chairman of the state records commission, in accordance with the standards established by the commission and promulgated by the director of records management and archives service, schedules proposing the length of time each state records series warrants retention for administrative, legal, historical or fiscal purposes after it has been received or created by the agency. The head of each agency also shall submit lists of state records in his custody that are not needed in the transaction of current business and that do not have sufficient administrative, legal, historical or fiscal value to warrant their further keeping;

(4) Cooperate with the director in the conduct of surveys made by him pursuant to the provisions of sections 109.200 to 109.310;

Neither of these two requirements have ever been submitted to the Board by the chair of the State Records Commission.

Appendix A
Stone County Developmental Disability Board
Board's Responses to Audit Recommendations

That leaves the apparent requirement being referenced by the Auditor's Report. It provides:

(5) Comply with the rules, regulations, standards and procedures approved by the state records commission and issued by the director, records management and archives service.

The Board would point out to the Auditor that the State Records Commission Guidelines in the Secretary of State's website do not clearly explain the application to text messages and third-party platforms. A review of the website lists the following relating to what constitutes "Official Records:"

Official Records

1. Any documentation related to the agency's official duties or activities. Examples may include:

- Decision papers
- Correspondence:
 - Memoranda
 - Letters
 - E-mail
- Data files
- Reports
- Official Publications

2. Supporting materials sufficient to document and/or explain the document trail/decision making process for administrative, legal, fiscal, programmatic, and historical purposes.

https://www.sos.mo.gov/records/recmgmt/whatisarecord#nonrecord_materials

This creates the potential for confusion to any office or body that is subject to these laws. The Board has reviewed the Electronic Records Guidelines page that is referenced in the Auditor's Report, found at <https://www.sos.mo.gov/CMSImages/RecordsManagement/CommunicationsGuidelines.pdf>.

Those Guidelines provide that:

Private phones, email accounts and computers, that are used to send, receive, or otherwise handle public, or official, business are also subject to records retention

STONE COUNTY DEVELOPMENTAL DISABILITY BOARD
PO BOX 2383, BRANSON WEST, MO 65737 PHONE: 417-272-0444 FAX: 417-272-0665

Appendix A Stone County Developmental Disability Board Board's Responses to Audit Recommendations

requirements. It is the responsibility of the account owner to preserve and maintain these records.

The Board would point out that it does not provide a messaging platform or cellphone to members of the Board. Official email accounts are provided to Board members and employees for official business purposes so that there is an archive of those communications. It is expected that those accounts will be used for official business purposes rather than any text messages or third-party platforms.

Without admitting that an SB40 Board is subject to the "The State and Local Records Law," the Board does recognize that it is subject to the Missouri Sunshine Law. Therefore, the Board will agree to examine the extent to which its Records Policy needs to be updated to address electronic messaging, including text messages and other third-party platforms, if they are used for official communications as referenced in the Secretary of State's Guidelines. This will include a warning that any use of private email, text messages or third-party communications used to conduct official business is prohibited, and may be subject an obligation for the individual to preserve and maintain those records in accordance with RSMo 109.270.

SB40 Board State Statutes – STONE COUNTY DEVELOPMENTAL DISABILITY BOARD

Highlighting of text was added
by auditors for emphasis.

SB40 Board State Statutes

The Stone County Developmental Disability Board is a political sub-division of the State of Missouri, and bound by the following State statutes when making determinations about funding and services provided to the residents of Stone County. The SCDDDB is a self-governing body within Stone County, and the County's role is to appoint and approve board members.

- **205.968. Facilities authorized — persons to be served, limitations, definitions.**
- **205.969. Sheltered workshop program rules and regulations — board may provide residences or social centers.**
- **205.970. Board of directors, appointment, qualifications, terms, officers, powers and duties — vacancies and removal from office, procedure.**
- **205.971. Tax levy, approval, use.**
- **205.972. Maximum tax — ballot form.**

Missouri State Auditor

Stone County Collector

Report No. 2025-022

April 2025

auditor.mo.gov

CITIZENS SUMMARY

Findings in the audit of the Stone County Collector

Missing Money and Transactions Not Receipted

From May 1, 2023, through March 15, 2024, a former employee receipted money totaling at least \$19,049 that was not deposited. She also collected an additional \$475 that was not recorded or deposited, but taxpayers presented stamped tax statements to show proof of payment. If other similar situations exist, additional money may be missing. The former employee repaid \$4,782 in March 2024, after the County Collector confronted her about missing receipts. Additionally, 2 taxpayers reissued missing checks totaling \$1,060 to the Collector. As a result, \$13,682 remains missing.

County Collector's Controls and Procedures

Significant weaknesses existed in the County Collector's accounting controls and procedures resulting in money collected that was not properly receipted, recorded, and deposited. The County Collector did not adequately segregate accounting duties and does not perform a supervisory review of detailed accounting and bank records. The County Collector does not reconcile property taxes receipted to property tax deposits prepared by the employees. As a result, she did not detect the missing money. The County Collector does not reconcile merchant licenses issued to merchant license fees collected, and as a result, did not detect missing receipts. In addition, the County Collector does not distribute all merchant license fees. The County Collector does not ensure staff issue receipt slips and record all money received, and does not ensure all money received is disbursed appropriately. The County Collector does not perform adequate bank reconciliations and does not prepare a monthly list of liabilities. Neither the County Collector nor her staff account for the numerical sequence of receipt slip or merchant license numbers assigned by the property tax system.

In the areas audited, the overall performance of this entity was **Poor**.*

*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

- Excellent:** The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.
- Good:** The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.
- Fair:** The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.
- Poor:** The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

SCOTT FITZPATRICK MISSOURI STATE AUDITOR

County Commission
and
County Collector
Stone County, Missouri

We have audited certain operations of the County Collector of Stone County in fulfillment of our duties under Section 29.230, RSMo. On May 21, 2024, the County Commission and Collector of Stone County requested the State Auditor to audit the office of the County Collector due to concerns of missing or misappropriated money. The scope of our audit included, but was not necessarily limited to, the 3 years ended February 29, 2024, and the period of March 1, 2024, through April 1, 2024. The objectives of our audit were to:

1. Evaluate the County Collector's internal controls over significant management and financial functions, as they relate to concerns regarding any missing or misappropriated money and/or waste of public resources.
2. Evaluate the County Collector's compliance with certain legal provisions, as they relate to concerns regarding any missing or misappropriated money and/or waste of public resources.
3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions, as they relate to concerns regarding any missing or misappropriated money and/or waste of public resources.
4. Determine the extent of missing or misappropriated money, if any; and any waste of public resources.

Our methodology included reviewing written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the county, as well as certain external parties; requesting confirmation of tax account balances; and performing sample testing using haphazard and judgmental selection, as appropriate. The results of our sample testing cannot be projected to the entire populations from which the test items were selected. We obtained an understanding of internal control that is significant to the audit objectives and planned and performed procedures to assess internal control to the extent necessary to address our audit objectives. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted this performance audit in accordance with generally accepted government auditing standards. Those standards require that we plan and perform the audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides a reasonable basis for our findings and conclusions based on our audit objectives.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, (3) the need for improvement in management practices and procedures, and (4) missing money totaling at least \$13,682 and waste of public resources. The accompanying Management Advisory Report presents our findings arising from our audit of the Stone County Collector.

A handwritten signature in black ink, appearing to read "S. Fitzpatrick". The signature is stylized with a large, looped "S" and a clear, legible last name.

Scott Fitzpatrick
State Auditor

Stone County Collector

Introduction

Background

The County Collector bills and collects property taxes for the county government and most local governments in the county. The County Collector's office also issues merchant licenses and collects related fees; and handles property tax sales, which occur when real estate parcels with delinquent taxes are offered for sale at annual tax sales.¹ Pursuant to Section 52.015, RSMo, collectors are elected to terms that expire on the first Monday in March of the year in which they are required to make their last final settlement for the tax book collected by them. Annual settlements are to be filed with the county commission for the fiscal year ended February 28 (29). Property taxes and other money collected by the Stone County Collector's office totaled approximately \$43 million during the year ended February 29, 2024.

Anna Burk was appointed the Stone County Collector and sworn into office on March 4, 2021, after the former County Collector retired, and was subsequently elected County Collector in 2022. The County Collector supervises the daily operations of the County Collector's office and employed 5 full-time staff as of February 29, 2024.

Whitney Brown, (referred to as the former employee in the remainder of the report), was one of the full-time office employees and resigned March 15, 2024, after a taxpayer presented a paid personal property tax receipt in late February that was not recorded in the property tax system. The County Collector determined the former employee receipted this payment. The former employee submitted her resignation notice the following week with the explanation that her other job would provide higher pay and more hours of work.

The County Collector investigated the former employee's transactions and presented her concerns to the County Commission on May 16, 2024. The County Commission formally requested an audit by the State Auditor's Office (SAO) in a letter dated May 21, 2024. The SAO subsequently agreed to conduct the audit under Chapter 29.230, RSMo, and began the audit in July 2024.

Criminal Investigation

The County Commission contacted the Missouri State Highway Patrol (MSHP) and a criminal investigation is ongoing. The Sheriff, County Collector, and County Commission continue to cooperate with MSHP investigators.

¹ For information on the annual tax sale, see Section 140.150, RSMo.

Stone County Collector Management Advisory Report State Auditor's Findings

1. Missing Money and Transactions Not Received

From May 1, 2023, through March 15, 2024, the former employee receipted money totaling at least \$19,049² that was not deposited (see Appendix). She also collected an additional \$475 that was not recorded or deposited, but taxpayers presented stamped tax statements to show proof of payment. If other similar situations exist, additional money may be missing. The former employee repaid \$4,782 in March 2024, after the County Collector confronted her about missing receipts. Additionally, 2 taxpayers reissued missing checks totaling \$1,060 to the Collector. As a result, \$13,682 remains missing.

When the County Collector's office receives a tax payment, office personnel record the receipt in the property tax system and issue a system-generated paid tax receipt. When the County Collector's office receives a merchant license payment, the former employee recorded the receipt in the computer system, and issued a system-generated receipt slip and merchant license. The former employee handled almost all merchant license transactions for the County Collector's office. At the end of each day the employees count their cash drawers, prepare deposits for their receipts, and submit the deposits to the County Collector, who takes them to the bank. As discussed further in Management Advisory Report (MAR) finding numbers 2.2 and 2.3, the County Collector did not compare the receipted amounts in the deposits to daily transaction reports or merchant licenses issued.

Initial unreceipted money As noted in the Background section, in late February 2024, a taxpayer presented a paid personal property tax receipt issued by the former employee that was not recorded in the property tax system. The County Collector subsequently asked the former employee about this payment and the former employee said she must have accidentally thrown away the entire deposit, totaling \$912, that included the receipt in question. The County Collector initially accepted this explanation and the former employee subsequently resigned her position. While reviewing deposits we later found this payment was deposited into the County Collector's account; however, it was not receipted into the tax system.

On the former employee's last days of work, March 13 and March 15, 2024, she recorded numerous receipt transactions, totaling \$3,870, dated from the prior 6 months, without turning over corresponding receipts. After the former employee resigned, the County Collector brought the missing money, totaling \$4,782,³ to the former employee's attention. On March 25, 2024, the former employee's mother repaid this amount to the County Collector on the former employee's behalf.

² Amounts presented in the report are rounded to the nearest dollar, whereas amounts presented in appendix are not rounded.

³ This amount included the \$912 originally brought to the former employee's attention in February 2024, and the \$3,870 in receipts recorded on March 13 and 15, 2024.

Stone County Collector
Management Advisory Report - State Auditor's Findings

Missing merchant license
fees and taxes

The former employee collected 133 tax payments and merchant license fees totaling \$19,049 that were not deposited.

To determine if any additional money was missing beyond what the County Collector identified, we reviewed all daily transaction reports of property tax and merchant license collections for the audit period and compared the transactions to deposit records for the period May 1, 2023, through March 15, 2024.⁴ Based on these reports, there were 176 separate deposits of receipts collected by the former employee and recorded during that time.

Merchant license fees

Our review of the daily transaction reports and bank records determined the former employee collected fees, totaling \$2,075, from May 1, 2023, through March 15, 2024, that were not deposited. The undeposited merchant license fees included \$300 in cash and \$1,775 in checks.

The table below shows the number of merchant licenses issued and the fees collected for the period March 2023 through March 2024,⁵ along with the total license fees deposited, and the money that is missing.

Missing license fees,
March 2023 through
March 2024

	Number of Licenses	Total License Fees*
Licenses issued	953	\$ 23,825
Total license collections deposited	870	21,750
Total missing license fees	83	\$ 2,075

* The fee for all merchant licenses is \$25.

Tax collections

Our comparison of daily transaction reports to deposit records found money from 50 separate property tax transactions, totaling \$16,974, collected by the former employee and recorded from May 1, 2023, through March 15, 2024, were not deposited. The undeposited property tax collections included \$10,723 in cash and \$6,251 in checks. Taxpayers voluntarily reissued 2 of the missing checks, totaling \$1,060, when the County Collector brought it to their attention, and the County Collector subsequently deposited these reissued checks. The missing amounts include 12 transactions, totaling \$3,870, recorded by the former employee on her last 2 days of work, March 13 and 15, 2024. The transactions were dated from December 2023 through March

⁴ We reviewed all daily collection reports for the 3 years ended February 29, 2024, and the period March 1, 2024, through March 15, 2024. Based on that review, we determined money was missing and focused further review on the transactions processed during the period May 1, 2023, through March 15, 2024.

⁵ The period shown for the merchant licenses is for the period March 2023 through March 2024, because the computer system only allows merchant license reports to be run from the beginning of a collector year (March 1). All missing merchant license fees occurred from May 1, 2023, through March 15, 2024.

Stone County Collector Management Advisory Report - State Auditor's Findings

2024 in the system. The former employee also recorded 31 credit card transactions from the same period on those same days. We reviewed these and noted no issues.

Undeposited and unreceipted transactions

Two taxpayers provided the County Collector's office with tax statements, totaling \$475, that were stamped paid, but the payment was not receipted in the property tax system and showed delinquent. Both of these individuals identified the former employee as the person who handled their payments. Once identified, the County Collector receipted these payments into the tax system. We attempted to confirm if any additional taxes listed as delinquent as of August 19, 2024, were similarly paid, but not receipted or deposited. Out of the 62 confirmations sent, 14 taxpayers confirmed their delinquent tax listing was correct, and no other taxpayers provided proof of previous payment.

Conclusion

The lack of segregation of duties, inadequate controls, and the absence of proper oversight, as discussed in the remainder of the report, resulted in unrecorded and undeposited property tax collections and waste of public resources to go undetected for a significant period of time.

Recommendation

The County Commission and the County Collector work with law enforcement officials regarding criminal prosecution related to the missing money and take the necessary actions to obtain restitution.

Auditee's Response

The County Commission and Collector will continue to work with law enforcement officials regarding criminal prosecution and take the necessary actions to obtain restitution.

2. County Collector's Controls and Procedures

Significant weaknesses existed in the County Collector's accounting controls and procedures resulting in money collected that was not properly receipted, recorded, and deposited. Property taxes and other money collected by the County Collector totaled approximately \$43 million during the year ended February 29, 2024.

2.1 Segregation of duties

The County Collector did not adequately segregate accounting duties and does not perform a supervisory review of detailed accounting and bank records. All employees receive and record payments in the property tax system and prepare daily deposits of the receipts they collect. The County Collector does not perform a documented review of accounting and bank records, including collections and deposits. The County Collector indicated she did not realize she needed to perform a documented review of these records.

Proper segregation of duties is necessary to ensure all transactions are accounted for properly and assets are adequately safeguarded. Internal controls would be improved by segregating the duties of receiving, recording,

Stone County Collector
Management Advisory Report - State Auditor's Findings

and depositing money. In addition, documented independent reviews of detailed accounting and bank records are essential.

2.2 Property tax deposits

The County Collector does not reconcile property taxes receipted to property tax deposits prepared by the employees. As a result, she did not detect the missing money noted in MAR finding number 1. The County Collector relies on staff to prepare deposits for their daily collections, and does not compare these to daily transaction reports or any other support to ensure the deposit slips are accurate and the receipts provided for deposit include all receipts collected. The County Collector indicated she was unaware a reconciliation of receipts to deposits was necessary.

Failure to implement adequate deposit procedures, including reconciling receipts to deposit records, increases the risk that loss, theft, or misuse of receipts will occur and go undetected.

2.3 Merchant license deposits

The County Collector does not reconcile merchant licenses issued to merchant license fees collected, and as a result, she did not detect missing receipts. In addition, the County Collector does not distribute all merchant license fees.

The County Collector records the amount staff tell her they collect in merchant license fees daily in the accounting system (separate from the property tax system) and does not verify or compare this amount to the merchant licenses issued or other support to ensure the amount in the deposit is accurate and reflects all collections. The County Collector then uses the amount recorded in the accounting system to determine how much should be disbursed to the County Treasurer who distributes the money to the County Employees Retirement Fund (CERF) and the county General Revenue Fund.

As noted in MAR finding number 1, merchant license fees totaling \$2,075 are missing. In addition, \$6,350 in merchant license fees were collected and deposited for 254 licenses that the County Collector did not distribute. Unlike the missing money, the employees recorded the collected amount accurately on the deposit slips and submitted the receipts for deposit. However, they did not report to the County Collector an accurate number of merchant licenses issued, so she did not accurately record the receipts in the accounting system. The lack of reconciliation between the number of licenses issued to recorded collections allowed these amounts to go undistributed. The County Collector indicated she was unaware she was not distributing all license fees, or that a reconciliation was needed. In total, the County Collector did not distribute \$6,740⁶ to the CERF (\$1,660 related to the missing license fees and \$5,080

⁶ Undistributed CERF collections were calculated as the number of related licenses at the required \$20 per license distribution.

Stone County Collector Management Advisory Report - State Auditor's Findings

from the undistributed license collections) and \$1,685⁷ to the county General Revenue Fund (\$415 from the missing license fees and \$1,270 in undistributed license collections).

Section 150.150, RSMo, requires the County Collector to collect \$25 for merchant licenses, and states that \$5 of any fees received by the collector should be paid into the county or city treasury as provided by law and \$20 shall be paid into the CERF. Reconciliation of the monthly merchant licenses is needed to ensure all money received is properly accounted for and remitted to the County Treasurer, and to reduce the risk of loss, theft, or misuse of funds.

2.4 Receipting, and disbursing procedures

The County Collector does not ensure staff issue receipt slips and record all money received, and does not ensure all money received is disbursed appropriately.

Deed receipts

During our review of all October 2023 collections, we noted 2 instances in which receipt slips were not issued for deed fees. The Deputy Collector indicated she did not issue receipt slips for these fees (received for issuing deeds for properties bought at the tax sale) because they are uncommon. She also indicated she believed the deeds themselves acted as a receipt slip. The office maintains copies of the deeds, but did not use them to reconcile receipts or otherwise document the collections, as would be done with a receipt slip.

Distributions

In addition to the merchant license fees that were not distributed as discussed in section 2.3, the County Collector did not distribute the full amount of the advertising and mailing fees to the County Treasurer. The County Collector only distributed \$3,600 of the \$9,975 in advertising and mailing fees receipted in fiscal year 2023. This distributed amount was the amount collected on the day of the 2023 tax sale. The County Collector indicated she was unaware she was supposed to distribute all fees received. Section 50.370, RSMo, requires all county officials who receive fees or any other remuneration for official services to pay such money monthly to the County Treasurer.

Conclusion

Failure to implement adequate receipting and distribution procedures increases the risk that loss, theft, or misuse of money received will go undetected.

2.5 Bank reconciliation and liabilities listing

The County Collector does not perform adequate bank reconciliations and does not prepare a monthly list of liabilities. As a result, there is an unidentified balance of \$1,129 in the main account as of February 29, 2024.

⁷ Undistributed county collections calculated as the number of related licenses at the required \$5 per license distribution.

Stone County Collector Management Advisory Report - State Auditor's Findings

The County Collector's initial book balance listed on the February 2024 bank reconciliation for the Main bank account was \$246,338. Included in the reconciliation were 2 outstanding checks that cleared the bank 3 years previously. There was also a \$44 deposit in transit in the reconciled balance that had not cleared the bank for over a year. The County Collector believed this was an accounting error in which she recorded a transfer from the Electronic account to the Main account that she did not actually complete and did not delete the transaction after deciding not to make the transfer. The County Collector did not know the 2 outstanding checks had cleared the bank.

These errors caused the Main bank account book and reconciled balances to be incorrect. After attempting to complete the reconciliation there was an unknown balance of \$9,877 in the account. At our request the County Collector created a list of liabilities that included undistributed payment in lieu of taxes collections (\$2,366), publication costs (\$5,542), and mailing fees (\$840). The remaining unidentified balance was \$1,129. Because the County Collector did not maintain a liabilities listing and did not recognize the errors with the reconciling items, she did not know the reconciliation was incorrect.

Accurate bank reconciliations are necessary to ensure all receipts and disbursements are accounted for properly. Without a regular comparison of liabilities to the reconciled cash balance, there is less likelihood errors will be identified and the ability to resolve errors is diminished. Differences must be adequately investigated and explained to provide assurance that bank and book amounts have been properly reconciled, and that book balances are accurately stated. Maintaining unidentified bank balances increases the risk of loss, theft, or misuse of such funds going undetected. Section 447.532, RSMo, provides that any funds held by a political subdivision that remain unclaimed for more than 3 years should be turned over to the Missouri State Treasurer's Unclaimed Property Division.

2.6 Numerical sequence of receipt slips

Neither the County Collector nor her staff account for the numerical sequence of receipt slip or merchant license numbers assigned by the property tax system. The County Collector indicated she was unaware accounting for receipt slip numbers was necessary. We reviewed for skipped receipt slip numbers, and noted no numbers that were skipped. Accounting for the numerical sequence of receipt slips is necessary to ensure all receipts are deposited, and failing to do so increases the risk that loss, theft, or misuse of money could occur and go undetected.

Recommendations

The County Collector:

- 2.1 Segregate accounting duties to the extent possible or ensure independent or supervisory reviews of detailed accounting and bank records are performed and documented.
- 2.2 Reconcile property tax receipt records to deposit records.

Stone County Collector
Management Advisory Report - State Auditor's Findings

- 2.3 Reconcile merchant licenses issued to fees recorded and deposited, and remit the outstanding fees to the County Treasurer for distribution to the CERF and the county General Revenue Fund.
- 2.4 Issue receipt slips for all money immediately upon receipt and ensure receipts are distributed as required.
- 2.5 Ensure the bank reconciliation is accurate and a liabilities listing is maintained, compare the list of liabilities to the reconciled balance, and work to identify the unidentified balance. In addition, the County Collector should disburse any unidentified funds in accordance with state law.
- 2.6 Account for the numerical sequence of receipt slip and merchant license numbers.

Auditee's Response

The Collector has implemented new procedures based on these recommendations.

SCOTT FITZPATRICK
MISSOURI STATE AUDITOR

Honorable Mike Kehoe, Governor
and
Members of the General Assembly
and
Angela L. Nelson, Director
Department of Commerce and Insurance
Jefferson City, Missouri

To address our responsibilities of Section 374.250.2, RSMo, we have audited the revenues and the expenditures of the Insurance Dedicated Fund and the Insurance Examiners' Fund, as part of our audit of the State of Missouri's Annual Comprehensive Financial Report (ACFR), as of and for the year ended June 30, 2024, and have issued our report (Report No. 2025-016), dated April 2, 2025. The State of Missouri's ACFR is comprised of the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information (including the Insurance Dedicated Fund and the Insurance Examiners' Fund) of the State of Missouri, and the related notes to the financial statements.

Our report expressed qualified opinions on the governmental activities and the General Fund, and unmodified opinions on all remaining opinion units (including the Insurance Dedicated Fund and the Insurance Examiners' Fund).

No findings resulted from our audit procedures related to the Insurance Dedicated Fund and the Insurance Examiners' Fund.

A handwritten signature in black ink that reads "S. Fitzpatrick".

April 2025
Report No. 2025-021

SCOTT FITZPATRICK
MISSOURI STATE AUDITOR

Honorable Mike Kehoe, Governor
and
Members of the General Assembly
and
Trish Vincent, Director
Department of Revenue
and
Jan M. Zimmerman, Chairman
Missouri Gaming Commission
and
Dr. Karla Eslinger, Commissioner
Department of Elementary and Secondary Education
Jefferson City, Missouri

To address our responsibilities of Section 313.822(3), RSMo, we have audited the revenues of the Gaming Proceeds for Education Fund, the transfers from the Gaming Proceeds for Education Fund to the Classroom Trust Fund, and the expenditures from the Classroom Trust Fund, as part of our audit of the State of Missouri's Annual Comprehensive Financial Report (ACFR), as of and for the year ended June 30, 2024, and have issued our report (Report No. 2025-016), dated April, 2, 2025.

Gaming Proceeds for Education Fund revenues consist of taxes collected from Missouri casinos. No expenditures occur from the Gaming Proceeds for Education Fund. Revenue from that fund is transferred to the Classroom Trust Fund and the School District Bond Fund.¹ The State of Missouri's ACFR is comprised of the financial statements of the governmental activities (including the Gaming Proceeds for Education Fund and the Classroom Trust Fund), the business-type activities, the aggregate discretely presented component units, each major fund (including the Public Education Fund, which includes the Gaming Proceeds for Education Fund and the Classroom Trust Fund), and the aggregate remaining fund information of the State of Missouri, and the related notes to the financial statements.

Our report expressed qualified opinions on the governmental activities and the General Fund because we were not allowed access to tax returns and related source documents for income taxes. Our report expressed unmodified opinions on all remaining opinion units.

Our audit determined the appropriation and expenditures from the Classroom Trust Fund increased by 4 percent from fiscal year 2023 to fiscal year 2024, and the appropriation was used for educational purposes. Because Gaming Proceeds for Education Fund revenues increased in recent years and transfer

¹ During fiscal year 2024, 100 percent was transferred to the Classroom Trust Fund and 0 percent was transferred to the School District Bond Fund.

appropriations remained relatively flat, the balance grew to approximately \$90 million as of June 30, 2024. Accordingly, this amount will remain in the fund until appropriations are increased to allow the balance to be transferred in accordance with statute. No findings resulted from our audit procedures related to the Gaming Proceeds for Education Fund and the Classroom Trust Fund.

A handwritten signature in black ink, reading "Scott Fitzpatrick". The signature is written in a cursive, flowing style.

SCOTT FITZPATRICK
MISSOURI STATE AUDITOR

Honorable Mike Kehoe, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this compilation is to report the filing status for political subdivisions, other than cities, towns, and villages, required to file a financial report under Section 105.145, RSMo, and 15 CSR 40-3.030. Section 105.145, RSMo, provides that the State Auditor's Office shall notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Due to different filing requirements, a separate report is issued for cities, towns, and villages.

The filing status for the 20 political subdivisions required to file a financial report by February 28, 2025, is presented in summary on page 3 and by individual entity in Appendix A. We have not audited the information submitted and, accordingly, do not express an opinion or any other form of assurance on it.

This report also includes the updated filing status for political subdivisions, other than cities, towns, and villages, that filed a financial report in February 2025, after their filing deadline. The filing status for these 17 entities is presented in summary on page 3 and by individual entity in Appendixes B and C.

A handwritten signature in black ink that reads "Scott Fitzpatrick". The signature is written in a cursive, flowing style.

February 2025

Executive Summary

Executive Summary

Section 105.145, RSMo, requires the governing body of each political subdivision in the state, except counties and school districts, to prepare and remit to the state auditor an annual report of financial transactions. Rule 15 CSR 40-3.030 requires the financial report to be remitted to the state auditor within 6 months of the end of the political subdivision's fiscal year. The State Auditor's Office posts individual annual financial reports to its website. A searchable link is available at <http://auditor.mo.gov>.

Section 105.145, RSMo, requires the state auditor to notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Any political subdivision that fails to timely submit the annual financial report shall be subject to a fine of \$500 per day upon notice by the Department of Revenue.

This report includes the filing status for the 20 political subdivisions, other than cities, towns, and villages, with a fiscal year end of August 31, 2024. Cities, towns, and villages have additional filing requirements and their reporting status is included in a separate report. Of the 20 political subdivisions, 14 filed an annual financial report timely.

This report also includes the filing status for 17 political subdivisions, other than cities, towns, and villages, that filed their financial report in February 2025, after their filing deadline.

SCOTT FITZPATRICK
MISSOURI STATE AUDITOR

Honorable Mike Kehoe, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this compilation is to report the filing status for the municipalities required to file a financial report by February 28, 2025, under Section 105.145, RSMo, and 15 CSR 40-3.030 and, when applicable, an addendum under Section 479.359, RSMo, and 15 CSR 40-3.170 and a municipal court certification under Section 479.360, RSMo, and 15 CSR 40-3.180.

Section 105.145, RSMo, provides that the State Auditor's Office (SAO) shall notify the Department of Revenue if any city, town, or village fails to timely submit a copy of its annual financial report. Additionally, Section 479.362, RSMo, provides that the SAO shall notify the Department of Revenue whether counties, cities, towns, and villages have timely filed under Sections 479.359 and 479.360, RSMo. Due to different filing requirements, a separate report is issued for all other political subdivisions required to file a financial report.

The filing status for the 6 cities, 1 town, and 3 villages is presented in summary on page 3 and by individual entity in Appendix A. This compilation is limited to presenting information submitted to our office. We have not audited the information submitted and, accordingly, do not express an opinion or any other form of assurance on it.

This report includes the updated filing status for municipalities that filed at least one of the items (financial report, addendum, or certification) in February 2025, after their filing deadline. The filing status for these 14 cities, 1 town, and 7 villages is presented in summary on page 4 and by individual entity in Appendixes B to E.

A handwritten signature in black ink that reads "S. Fitzpatrick". The signature is stylized with a large, flowing "F" and a cursive "S".

February 2025

Executive Summary

Executive Summary

Section 105.145, RSMo, requires the governing body of each political subdivision in the state, except counties and school districts, to prepare and remit to the state auditor an annual report of financial transactions. Rule 15 CSR 40-3.030 requires the financial report to be remitted to the state auditor within 6 months of the end of the political subdivision's fiscal year. The State Auditor's Office (SAO) posts individual annual financial reports to its website. A searchable link is available at <http://auditor.mo.gov>.

Section 105.145, RSMo, requires the state auditor to notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Any political subdivision that fails to timely submit the annual financial report shall be subject to a fine of \$500 per day upon notice by the Department of Revenue.

Section 479.359.1, RSMo, requires every county, city, town, and village to annually calculate the percentage of its annual general operating revenue received from fines, bond forfeitures, and court costs for minor traffic violations.

Section 479.359.3, RSMo, provides that all entities having a municipal court file an addendum to the annual financial report containing items listed in 15 CSR 40-3.170, which also provides the procedure to file an addendum.

Section 479.360, RSMo, requires every county, city, town, and village that has a municipal court to file, with its annual financial report, a certification of substantial compliance with 10 municipal court procedures. This certification must be signed by the municipal court judge. Rule 15 CSR 40-3.180 provides the procedure to file the municipal court certification. Any county, city, town, or village that does not have a municipal court judge is not required to file a certification.

Section 479.362, RSMo, requires the SAO to notify the Department of Revenue whether counties, cities, towns, or villages have timely filed their addendums under Section 479.359, RSMo, and certificates of substantial compliance under Section 479.360, RSMo. Section 479.368, RSMo, provides penalties for counties, cities, towns, and villages that fail to file, including loss of revenue and a mandatory ballot measure to dissolve the political subdivision.

This report includes the filing status for the 6 cities, 1 town, and 3 villages with a fiscal year end of August 31, 2024, whose financial report was due by February 28, 2025. Of the 10 municipalities, 6 filed the financial report timely. Of the 8 municipalities required to file an addendum, 1 filed timely. Of the 2 municipalities required to file a certification, 1 filed timely.

Monthly Report on Municipal Court and Revenue Filings
February 2025
Executive Summary

This report includes the filing status for 14 cities, 1 town, and 7 villages that filed at least one of the items (financial report, addendum, or certification) in February 2025, after their filing deadline. Of these municipalities, 18 filed an annual financial report, 4 filed an addendum, and 1 filed a certification.

Stacy Neal
Director

April 2, 2025

The Honorable Mike Kehoe
The Honorable Members of the Legislature
Citizens of the State of Missouri

In accordance with generally accepted accounting principles, I submit to you the Annual Comprehensive Financial Report (ACFR) of the State of Missouri for the fiscal year ended June 30, 2024. This report was prepared by the Office of Administration, Division of Accounting, whose management is responsible for its contents.

The report is prepared to show the financial position and operating results of the State. The State's internal accounting controls provide reasonable assurance regarding the safeguarding of assets against loss from unauthorized use or disposal and the reliability of financial records for preparing financial statements. The concept of reasonable assurance recognizes that the cost of a control should not exceed the resulting benefit. We believe the data presented is accurate in all material respects and that all disclosures necessary to enable the reader to gain a reasonable understanding of the State's financial activities have been included.

An annual audit of the basic financial statements is completed each year by the State Auditor's Office. The State Auditor conducts the audit in accordance with generally accepted government auditing standards, and their opinion has been included in this report. The State Auditor conducts a "Single Audit" of all federal funds in accordance with the Federal Single Audit Act Amendments of 1996 and Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform guidance).

A narrative introduction, overview, and analysis of the basic financial statements is presented in the *Management's Discussion and Analysis (MD&A)* section of this report. This letter of transmittal is intended to complement MD&A and should be read in conjunction with it. The MD&A can be found immediately following the Independent Auditor's Report.

PROFILE OF THE GOVERNMENT

Missouri was organized as a territory in 1812 and was the second state (after Louisiana) of the Louisiana Purchase to be admitted to the Union. Statehood was granted on August 10, 1821, making Missouri the 24th state. The State encompasses 68,945 square miles.

The State operates under three branches of government: executive, legislative, and judicial. The executive branch consists of the Governor, Lieutenant Governor, Secretary of State, State Auditor, State Treasurer, and Attorney General. The legislative branch consists of 34 members of the Senate and 163 members of the House of Representatives. The judicial branch is a three-tier court system: the Supreme Court, the State's highest court, has statewide jurisdiction; a court of appeals that consists of districts established by the General Assembly; and a system of circuit courts that has original jurisdiction over all cases and matters, civil and criminal.

The State provides a range of services in the areas of agriculture, education, health and social services, transportation systems, public safety, judicial systems, economic development, conservation and natural resources, labor relations, and general administration.

The State operates on a legally adopted budget in order to ensure compliance with legal provisions embodied in the annual appropriated budget passed by the General Assembly and approved by the Governor prior to the beginning of the fiscal year. If appropriations are not sufficient for a fiscal year, supplemental amounts are requested during the next legislative session by the same process that original appropriations are requested. Budgets are established at the program level. Expenditures cannot exceed the individual appropriation amount. The Governor has the authority to reduce the allotments of appropriations in any fund if it appears that the revenue estimate will not be met. Article IV, Section 27 of the Missouri Constitution, amended in 2014, requires the Governor to notify the General Assembly if the Governor reduces allotments when it appears revenues will be less than estimated. This Section then gives the General Assembly the authority to overturn any of the Governor's restrictions with a two-thirds vote, similar to the procedure to overturn a veto. Unexpended appropriations lapse at the end of each fiscal year, unless reappropriated to the following budget fiscal year.

The financial reporting entity of the State includes all of the funds of the primary government as well as component units for which the State is financially accountable. The transmittal letter, MD&A, and the financial statements focus on the primary government and its activities. Although information pertaining to the component units is provided, their separately issued financial statements should be read to obtain a complete overview of their financial position.

ECONOMIC CONDITION AND OUTLOOK

State Economy

Revenue collection information as of June 30, 2024, indicates that net general revenue collections for fiscal year 2024 increased by 1.5% compared to June 2023, from \$13.23 billion in fiscal year 2023 to \$13.43 billion in fiscal year 2024. This increase reflects robust sales tax collections and continuing moderation in individual income tax collections, with this being the fourth year in a row of income tax cuts.

The State's economic outlook for fiscal year 2025 anticipates slowing growth in employment, wages, and consumption. The following chart shows the general revenue fund cash balances over the last 5 years indicating the State's positive financial standing.

	Fiscal Year Ended June 30				
	2024	2023	2022	2021	2020
General Revenue Fund Cash Balance (in thousands of dollars)	\$ 4,802,183	\$ 5,765,663	\$ 4,899,052	\$ 2,354,131	\$ 802,889

During fiscal year 2022, the State received \$2,685,296,000 in grant monies as part of the American Rescue Plan Act (ARPA), \$1,698,819,000 of which is for Revenue Replacement. ARPA was signed to deliver relief to the American economy and work towards beating the COVID-19 virus. As of June 30, 2024, the State expended \$838.2 million and has \$1.8 billion remaining to expend prior to December 31, 2026. Monies received through ARPA are to be used for expenditures such as public health, assistance for negative economic impacts, infrastructure to provide safe drinking water, infrastructure for broadband, and some administrative expenses to assist in these endeavors. The Revenue Replacement portion specifically is to be spent on items such as provision of government services and non-federal match for other Federal programs. At the end of fiscal year 2024, the state had 1,371 projects which were either completed or in progress. The projects consisted of 72 Public Health projects, 204 Negative Economic Impacts projects, 872 Infrastructure projects, 18 Administrative projects, and 209 Revenue Replacement projects across the state.

Missouri's GDP was \$344.12 billion in 2023 in 2017 inflation-adjusted dollars; this is a 2.2% increase over 2022 and more than the 10-year average. Missouri grew at an annualized rate of 1.3% to equal \$42.09 billion in growth over the past 10 years, or a 13.9% GDP increase overall.

Missouri Real GDP Annual Growth Rate

Source: MERIC 2024 Missouri Economic Report

In July 2024, Missouri's unemployment rate was 3.5%, while the nation's unemployment rate was 4.0%, a slight change from July 2023, reflecting a stable trend in unemployment rates. Missouri and the nation are experiencing low unemployment numbers, however, there has been a slight rise over the last year.

Unemployment Rate Month of May, Year-Over-Year 2014 - 2024

Source: MERIC 2024 Missouri Economic Report

Long-Term Financial Planning

Senate Bill 3 (SB 3) was passed in 2022 and reduced the top individual income tax rate to 4.95% for tax year 2023. Four additional tax rate reductions based on net general revenue growth were created with SB 3, one of which was for tax year 2024. The legislation allows for three additional 0.1% reductions to the top rate, dependent on inflation adjusted net general revenue growth. SB 3 is expected to reduce general revenue by \$335.4 million in Fiscal Year 2024. Once fully implemented, SB 3 may reduce general revenue by \$371.2 million annually.

The federal Tax Cuts and Jobs Act of 2017 (TCJA) eliminated the individual personal exemption and became effective January 1, 2018. The tax package made multiple changes to the federal individual and corporate tax codes. Due to Missouri's rolling conformity with the majority of the federal tax code, many of the changes will also directly impact Missouri's tax collections. The most notable individual income tax change was an increase, of nearly double, to the standard deduction and elimination of the personal and dependent deductions. Missouri estimates that the individual income tax changes made at the federal level will continue to reduce Missouri tax collections by \$58 million annually. The TCJA is slated to expire in 2025, and it is unknown yet whether, Congress will allow the expiration to occur, renew the TCJA, or offer a completely new tax package.

During 2024, Legislature passed Senate Bill 872, which expanded the broadband grant income tax exemption to state and local grants and made the exemption retroactive to grants received during 2022. This is expected to reduce general revenue by \$4.2 million during fiscal year 2025. It is expected to continue to reduce future general revenue collections at lower rate. The State continues to be a conservative issuer of debt, all general obligation bonds have been paid. The State has limited issuances, outside of bonds for transportation, and aggressive repayment plans are implemented. The State has also made accelerated payments to the MOSERS pension plan due to a cash influx in 2024.

Relevant Financial Policies

Article X, Sections 16-24 of the Constitution of Missouri (the "Tax Limitation Amendment"), imposes a limit on the amount of taxes that may be imposed by the General Assembly in any fiscal year. This limit is tied to total state revenues for fiscal year 1981, as defined in the Tax Limitation Amendment and adjusted annually, in accordance with the formula set forth in the amendment which is tied to increases in the personal income of Missouri for certain designated periods. If the revenue limit is exceeded by one percent or more in any fiscal year the excess revenue will be refunded pro-rata, based on the liability reported on state income tax returns. If the excess revenue collected is less than one percent of the revenue limit, the excess revenue shall be transferred to the General Revenue Fund.

The revenue limit can be exceeded by a constitutional amendment duly adopted by the people or if the General Assembly approves by a two-thirds vote an emergency declaration by the Governor. Strong economic growth resulted in revenues above the total state revenue limit in fiscal years 1995-1999. The State has refunded to taxpayers \$979 million in excess revenue for these fiscal years. The revenue limit was not exceeded in fiscal years 2000 through 2024, inclusive. The State is currently \$4.25 billion below the limit and does not expect the limit to be exceeded in fiscal year 2025.

Major Initiatives

Highlights of the 2024 Regular Session include the passage of the following:

- **Infrastructure**

The General Assembly and the Governor approved, as part of the fiscal year 2025 budget, a total of \$577.5 million for the expansion of I-44 to six lanes from Rolla to Joplin. The budget includes funds for the costs to plan, design, construct, reconstruct, rehabilitate and repair three lanes in each direction.

- **Business Development and Investment**

The General Assembly approved Senate Bill 894 to promote business development. This bill established the Right to Start Act, Small Business Regulatory Fairness Act, Office of Entrepreneurship, and the Regulatory Sandbox Act.

Senate Bill 1388 authorized a state and local sales tax exemption for all sales and purchases of tangible personal property, building materials, equipment, fixtures, manufactured goods, machinery, and parts for the expansion of the National Nuclear Security Administration campus in Kansas City.

- **Education**

The General Assembly is once again fully funding the K-12 foundation formula and \$361.4 million for K-12 student transportation. The budget includes increased funding to expand pre-kindergarten education programs.

Senate Bill 727 created and modified provisions relating to elementary and secondary education. A total of \$33.4 million will be used to permanently increase starting teacher pay to at least \$40,000 per year and teachers with a master's degree and 10 plus years of experience to a minimum of \$48,000 per year by 2027. In addition, the small school grant funding program was increased from \$15 million to \$30 million per year.

- **Military and Business Affairs**

The General Assembly also passed Senate Bill 912 which modifies provisions relating to military affairs. This bill requires the Missouri Veterans' Commission to provide recommendations and make efforts to adopt procedures, programs, treatment options, and, and other assistance necessary to assist in the efforts to prevent veteran suicide. This bill also provides additional financial assistance/waivers for higher education for Missouri National Guard members. Additionally, it establishes the Missouri Veterans and Job Opportunity Grant Program to disburse grants to eligible employers.

ACKNOWLEDGEMENTS

While the Office of Administration, Division of Accounting, is responsible for the contents of this report, no one division could do it alone. Many people were involved in the compilation of materials necessary to complete the report.

We want to issue a special thanks to all the personnel at the State agencies who provided us with information quickly and accurately so that we could issue the ACFR in a timely manner. We also owe thanks to the professionalism and dedication demonstrated by technical and management personnel within the State Auditor's Office, the State Treasurer's Office, Office of Administration, Information Technology Services Division, and the State Printing Center. We appreciate all their efforts.

Sincerely,

Stacy Neal, CPA
Director

SCOTT FITZPATRICK
MISSOURI STATE AUDITOR

INDEPENDENT AUDITOR'S REPORT

Honorable Mike Kehoe, Governor
and
Members of the General Assembly

Report on the Audit of the Financial Statements

Qualified and Unmodified Opinions

We have audited the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the State of Missouri, as of and for the year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise the State of Missouri's basic financial statements as listed in the table of contents.

Summary of Opinions

Opinion Unit	Type of Opinion
Governmental Activities	Qualified
Business-Type Activities	Unmodified
Aggregate Discretely Presented Component Units	Unmodified
General Fund	Qualified
Public Education Fund	Unmodified
Conservation and Environmental Protection Fund	Unmodified
Missouri Road Fund	Unmodified
State Lottery Fund	Unmodified
Unemployment Compensation Fund	Unmodified
Aggregate Remaining Fund Information	Unmodified

Qualified Opinions on the Governmental Activities and the General Fund

In our opinion, based on our audit and the reports of other auditors, except for the possible effects of the matter described in the Basis for Qualified and Unmodified Opinions section of our report, the accompanying financial statements referred to above present fairly, in all material respects, the financial position of the governmental activities and the General Fund of the State of Missouri, as of June 30, 2024, and the changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

We did not audit the financial statements of the Missouri Road Fund, a major fund; the Missouri Road Bond Fund; the Conservation Employees' Insurance Plan; the Transportation Self-Insurance Plan; the

Missouri State Employees' Insurance Plan; the Missouri Consolidated Health Care Plan; and the Missouri Department of Transportation and Missouri State Highway Patrol Medical and Life Insurance Plan, which represent 58 percent of the assets and 10 percent of the revenues of the governmental activities. Those statements were audited by other auditors whose reports have been furnished to us, and our opinions, insofar as they relate to the amounts included for those entities and funds, are based solely on the reports of the other auditors.

Unmodified Opinions

In our opinion, based on our audit and the reports of other auditors, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities, the aggregate discretely presented component units, each major fund excluding the General Fund, and the aggregate remaining fund information of the State of Missouri, as of June 30, 2024, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

We did not audit the financial statements of certain entities and funds. Those statements were audited by other auditors whose reports have been furnished to us, and our opinions, insofar as they relate to the amounts included for those entities and funds, are based solely on the reports of the other auditors. Those entities and funds were:

1. The State Lottery Fund, a major fund, and the Petroleum Storage Tank Insurance Fund which represent 11 percent of the assets and 81 percent of the revenues of the business-type activities.
2. The aggregate discretely presented component units.
3. The pension (and other employee benefit) trust funds and the Missouri Department of Transportation custodial funds which represent 92 percent of the assets and 26 percent of the additions of the fiduciary funds.

Basis for Qualified and Unmodified Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States (*Government Auditing Standards*). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the State of Missouri and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified and unmodified audit opinions. The financial statements of the Conservation Employees' Insurance Plan and the Missouri Consolidated Health Care Plan (MCHCP), internal service funds; the Missouri Development Finance Board, the Missouri Agricultural and Small Business Development Authority, and the State Environmental Improvement Energy Resources Authority, discretely presented component units; and the Missouri Department of Transportation and Highway Patrol Employees' Retirement System and the MCHCP State Retiree Welfare Benefit Trust, pension (and other employee benefit) trust funds, were not audited in accordance with *Government Auditing Standards*.

Matter Giving Rise to Qualified Opinions on the Governmental Activities and the General Fund

We were not allowed access to tax returns and related source documents for income taxes. Approximately 24 percent of governmental activities revenues and 27 percent of General Fund revenues are from this source. We were unable to satisfy ourselves by appropriate audit procedures as to the income tax revenue beyond the amounts recorded.

Emphasis of Matters

As discussed in Note 17 to the financial statements, the financial statements as of and for the year ended June 30, 2023, have been restated to correct misstatements. In addition, as discussed in Note 2 to the financial statements, the State of Missouri implemented Governmental Accounting Standards Board (GASB) Statement No. 100, *Accounting Changes and Error Corrections*, for the year ended June 30, 2024. Our opinions are not modified with respect to these matters.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the State of Missouri's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the State of Missouri's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the State of Missouri's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis and the information listed under Required Supplementary Information in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We and other auditors have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the State of Missouri's basic financial statements. The supplementary information, as listed in the table of contents, is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the audit procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America by us and other auditors. In our opinion, except for the effect of the matter described in the Basis for Qualified and Unmodified Opinions section of our report, the supplementary information, as listed in the table of contents, is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the Annual Comprehensive Financial Report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, our report dated April 2, 2025, on our consideration of the State of Missouri's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters will be issued under separate cover in the Report on Internal Control, Compliance, and Other Matters. The purpose of our report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the State of Missouri's internal control over financial reporting or on compliance. Our report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the State of Missouri's internal control over financial reporting and compliance.

The Management's Discussion and Analysis provides a narrative overview and analysis of the financial activities of the State.

Management's Discussion and Analysis

The following is a discussion and analysis of the State of Missouri's financial activities for the fiscal year ended June 30, 2024. Readers are encouraged to consider the information presented here in conjunction with additional information that is furnished in the letter of transmittal.

FINANCIAL HIGHLIGHTS – PRIMARY GOVERNMENT

Government-Wide:

- *Net Position.* Assets and deferred outflows of the State of Missouri exceeded liabilities and deferred inflows at the close of fiscal year 2024 by \$44.3 billion. Of the \$44.3 billion, "unrestricted net position" is reported as a negative \$136.5 million, offset by \$8.9 billion in "restricted net position", and \$35.6 billion net investment in capital assets.
- *Changes in Net Position.* The State's total net position increased by \$2.3 billion in fiscal year 2024. Net position for governmental-type activities increased by \$2.2 billion.
- *Excess of Revenues over (under) Expenses.* During fiscal year 2024, the State's total revenues of \$42.1 billion were \$2.3 billion greater than total expenses of \$39.8 billion (excluding capital contributions, transfers, and extraordinary items). Of these expenses, \$24.6 billion were covered by program revenues. General revenues, generated primarily from various taxes, totaled \$17.5 billion.

Fund-Level:

- *Governmental Funds – Fund Balance.* At the close of fiscal year 2024, the State's governmental fund assets exceeded liabilities by \$17.5 billion, an increase of \$847.4 million or 5.1% from the prior year. The increase was due mainly to the following: revenues increased \$503.1 million, primarily from an increase in the fair value of investments of \$475.4 million due to an increase in interest rates.
- *General Fund – Fund Balance.* At the end of the current fiscal year, the State's General Fund reported a balance of \$11.0 billion.

Additional information regarding individual funds begins on Page 8.

Debt Issued and Outstanding:

- The primary government's total long-term obligations related to bonds payable decreased \$44.9 million, or 2.2%, over the prior year. The outstanding bonds payable represents 7.1% of financial assets (cash, receivables, and investments) and 3.1% of total assets. Additionally, bond payments, totaling \$426.5 million, reduced the obligation during the fiscal year. On December 14, 2023, the Missouri Highways and Transportation Commission issued its Mega Projects State Road Bonds, in the amount of \$381.6 million. The State has financed purchases through direct borrowing with banks in the amount of \$33.2 million. Additional detail is available in *Note 11* and *Note 12*.

Revenue Limit:

- The State Constitution limits the State's ability to retain revenue collected over an amount set by a constitutional amendment known as Article X. Excess revenue of 1.0% or more must be refunded to the taxpayers each year. During fiscal year 2024, the State did not exceed the revenue limit.

OVERVIEW OF THE FINANCIAL STATEMENTS

The State's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements.

Government-Wide Financial Statements:

The government-wide financial statements are designed to provide readers with a broad overview of the State's finances in a manner similar to a private-sector business.

The *Statement of Net Position* presents information on all of the State's assets, deferred outflows, liabilities, and deferred inflows, with the difference between them reported as *net position*. Increases or decreases in net position may serve as a useful indicator of the State's financial position.

The *Statement of Activities* presents information showing how the State's net position changed during the most recent fiscal year. All changes in net position are reported when the underlying event giving rise to the change occurs, regardless of when the cash is received. Thus, revenues and expenses are reported in the statement for some items that will result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements report three activities:

Governmental Activities are primarily supported by taxes and intergovernmental revenues. They include general government, education, natural and economic resources, transportation and law enforcement, and human services.

Business-Type Activities are intended to recover all or a significant portion of their costs through user fees and charges. They include constructing or operating state park facilities, fairgrounds, historical properties and office buildings, hospital services, warehousing, merchandising, publishing maps and documents, insurance coverage, and inmate canteen. Also included are the operations of the State Lottery and Unemployment Compensation funds.

Discretely Presented Component Units are operations for which the State has financial accountability but are legally separate. They include the college and universities, Missouri Development Finance Board, Missouri Agricultural and Small Business Development Authority, Missouri Transportation Finance Corporation, Missouri Wine and Grape Board, and the State Environmental Improvement Energy Resources Authority.

Fund Financial Statements:

The fund financial statements present more detailed information about the government's operations than the government-wide statements. The State uses fund accounting to ensure and demonstrate compliance with statutory requirements. The funds of the State can be divided into three categories: governmental, proprietary, and fiduciary.

Governmental funds. Governmental funds are used to account for most of the basic services provided by the State. Unlike the government-wide financial statements, governmental fund financial statements focus on short-term inflows and outflows of current financial resources and utilize the modified accrual basis of accounting. This presentation focuses on when cash will be received and disbursed making the statements useful in evaluating a government's financing requirements in the near future.

Governmental funds include the general, special revenue, capital projects, debt service, and permanent funds. Major funds include general, public education, conservation and environmental protection, and the Missouri Road Fund which are presented in separate columns. Data from other governmental funds are combined into a single column for aggregated presentation. Individual fund data for each of the non-major governmental funds is provided in the form of combining statements in supplementary information.

A user can compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. A reconciliation to facilitate this comparison is provided on the page immediately following each governmental fund financial statement.

Proprietary funds. Proprietary funds are used to account for activities similar to private businesses in which goods and services are sold for specified fees. Generally, the State uses enterprise funds to account for activities that provide goods and services to the general public. These include constructing or operating state park facilities, fairgrounds, historical properties and office buildings, hospital services, warehousing, merchandising, and publishing maps and documents. Also included are the operations of the State Lottery and Unemployment Compensation funds. Internal service funds report activities that provide supplies and services for the State's other programs and activities. The State uses internal service funds to account for insurance and health care plans, as well as administrative services for other state agencies, such as fleet management, data processing, and telecommunication services. Because these services predominately benefit governmental rather than business-type functions, they have been included within governmental activities in the government-wide financial statements.

Proprietary funds focus on economic resources and utilize the full accrual basis of accounting. The proprietary fund financial statements provide separate information for the State Lottery and Unemployment Compensation, which are considered major enterprise funds. Non-major enterprise funds are also combined into a single column for aggregated presentation. All internal service funds are combined into a single column in the proprietary fund financial statements. Individual fund data for the non-major enterprise and internal service funds is provided in the form of combining statements in supplementary information.

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefit of parties outside State government. Fiduciary funds are *not* reflected in the government-wide financial statements because the resources of those funds are not available to support the State's own programs. The fiduciary funds are presented using the full accrual basis of accounting.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other information. In addition to the basic financial statements and accompanying notes, this report also presents required supplementary information (RSI) including a budgetary comparison schedule for the General Fund and major special revenue funds and schedules for pension and other post-employment benefits. Other supplementary information includes the combining statements for the general, non-major governmental, non-major enterprise, internal service, fiduciary, and non-major component unit funds. It also includes the statistical section as well as budgetary comparison schedules and statements for the Missouri Road Fund, non-major special revenue, debt service, capital projects, and permanent funds.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Net Position:

The State's total net position increased \$2.3 billion during fiscal year 2024. Cash and cash equivalents and investments increased \$1.7 billion. This was mainly due to an increase in grants and contributions. Accounts receivable increased \$108.9 million, mainly due to a rate increase for interest receivable. Capital assets increased \$1.3 billion primarily related to an increase in investment in the State's infrastructure. The State Issued the Third Lien State Road Bonds, Series A 2023 in the amount of \$381.6 million. This issuance plus bond payments of \$426.5 million resulted in a decrease in bonds payable of \$44.9 million.

Net investment in capital assets, which includes capital assets, bonds payable, and obligations under right-to-use assets/financed purchase obligations, is the largest component of the State's net position at \$35.6 billion or 80.2%. These assets include construction in progress, software in progress, infrastructure in progress, land, easements, land improvements, buildings, equipment, software, trademarks and intangible right-to-use assets related to leases and subscription based information technology agreements (SBITA) which are not easily converted to cash or readily available to pay state debts as they come due. Net investment in capital assets and restricted net position, which do not represent resources available to pay day-to-day operating expenses, increased by \$3.7 billion or 9.1%. The increase was primarily due to the increase in capital assets of \$1.3 billion and a decrease in related outstanding bond, lease, and financed purchase obligation of \$361.8 million and an increase of \$1.4 billion in restricted net position related to I-70 Project fund.

Restricted net position of the primary government totaled \$8.9 billion or 20.1% of total net position vs. 16.4% from the prior year. Net position is restricted for several reasons including constitutional, legal, enabling legislation, or external requirements. Examples of restricted net position include lottery proceeds restricted for public education, funds restricted for debt service, and certain sales taxes restricted for the maintenance of highways or state parks and conservation areas. Also, many federal funds are restricted to funding certain programs.

The following table displays the current and prior year government-wide condensed Statement of Net Position.

Changes in Net Position:

The schedule below reflects how the State's net position changed during the year. The State collected program revenues of \$24.6 billion and general revenues of \$17.5 billion for total revenues of \$42.1 billion during fiscal year 2024. Expenses for the State during fiscal year 2024 were \$39.8 billion. Total net position, net of contributions and transfers, increased by \$2.3 billion.

The following table displays the current and prior year government-wide condensed Statement of Activities.

Governmental Activities

The net position of governmental activities increased \$2.2 billion in fiscal year 2024. General and program revenues of governmental activities were \$169.9 million more in fiscal year 2024 than in fiscal year 2023, most notably due to an increase in grants and contributions.

As shown in the Revenues by Source chart below, approximately 40.9% of revenues from all sources earned came from taxes. Grants and contributions, which represents amounts received from other governments/entities, primarily the federal government, provided 51.2% of total revenue. Charges for services contributed 5.0% and various other revenues provided 2.9% of the remaining governmental activity revenue sources.

The State’s governmental activities program expenses for fiscal year 2024 were \$1.8 billion more than fiscal year 2023. The most notable increase is \$863.2 million in Human Services. This is mainly due to an increase in specific programs associated with medical assistance services.

As shown in the Expenses by Function chart below, expenses for Human Services comprised the largest portion of total governmental activities expenses at 57.9%, followed by Education at 26.9%.

Business-Type Activities

Net position of the State's business-type activities increased \$127.4 million in fiscal year 2024, primarily caused by an increase in cash and cash equivalents. The increase was primarily caused by an increase in cash of \$142.6 million for unemployment as a result of a healthy economy and low unemployment rate, which allows excess cash to remain in the fund.

Revenues of business-type activities totaled \$2.2 billion. As shown in the Revenues by Source chart below, 83.2% of the revenues came from charges for services. Operating grants and contributions provided 15.7% of the total revenues and all other revenues provided 1.1%.

Expenses of business-type activities totaled \$1.7 billion. As shown in the Expenses by Fund chart below, State Lottery makes up the largest portion with 82.0% of total business-type expenses. Unemployment Compensation comes in second at 13.6%, followed by Inmate Canteen at 1.7%, State Parks and DNR at 1.3%, Petroleum Storage Tank Insurance at 1.0%, State Fair Fees at 0.3%, and Surplus Property at 0.1%.

FINANCIAL ANALYSIS OF THE STATE'S INDIVIDUAL FUNDS

Governmental Funds:

At the end of fiscal year 2024, the State's governmental funds reported combined ending fund balances of \$17.5 billion. Approximately 67.6% is unrestricted and available for spending at the government's discretion. The remainder of fund balance is nonspendable and restricted to indicate that it is not available for new spending because it has already been allocated for: 1) inventories, 2) to pay debt service, 3) for loans receivable, and 4) for a variety of other purposes.

Fund balances (in thousands) for governmental funds are as follows:

	General Fund	Public Education	Conservation and Environmental Protection	Missouri Road Fund	Non-Major Funds	Total
Nonspendable	\$ 104,149	\$ 93	\$ 321	\$ 55,335	\$ 82,478	\$ 242,376
Restricted	2,242,705	567,339	261,178	1,750,192	590,240	5,411,654
Committed	921,278	4,749	2,315,833	—	294,290	3,536,150
Assigned	931,548	42,729	117,678	—	383,544	1,475,499
Unassigned	6,784,725	—	—	—	—	6,784,725
Total	\$ 10,984,405	\$ 614,910	\$ 2,695,010	\$ 1,805,527	\$ 1,350,552	\$ 17,450,404

The General Fund is the chief operating fund of the State. At the end of fiscal year 2024, the State's General Fund reported a total fund balance of \$11.0 billion, an increase of \$318.4 million from fiscal year 2023. This was mainly due to a decrease of \$624.0 million in Unearned Revenue due to American Rescue Plan Act money received during fiscal year 2022 being spent and therefore earned during fiscal year 2024. This was offset by an increase in accounts payable of \$253.6 million.

The Public Education Fund provides general and special education services to the children of the State and other related functions, such as library services and student loans. The fund balance ended the year with a balance of \$614.9 million, a decrease of \$45.7 million or a 6.92% decrease from fiscal year 2023. This was mainly due to an increase of \$327.0 million in education expenses.

The Conservation and Environmental Protection Fund provides the preservation of the State's wildlife and environment. At the end of fiscal year 2024, the fund balance was \$2.7 billion, an increase of \$273.3 million from fiscal year 2023. This was mainly due to an increase of \$287.3 million in receivables related to new projects under the Clean Water Direct Loan program.

The Missouri Road Fund accounts for revenues from highway users' fees, federal reimbursements for highway projects, and bond proceeds to be used for costs of constructing and maintaining an adequate state highway system. Total fund balance increased \$338.9 million from fiscal year 2023. This increase was mainly due to the \$381.6 million proceeds from Series A2023 Third Lien bond issuance.

Proprietary Funds:

The State has two major proprietary funds: State Lottery and Unemployment Compensation. The State Lottery Fund was established in 1986 to account for the sale of lottery tickets and lottery operations. Since 1992, public education has been the sole beneficiary of lottery proceeds. Unemployment Compensation accounts for contributions and payments collected from Missouri employers under the provision of the "Unemployment Compensation Law." This tax finances benefits for workers who become unemployed through no fault of their own.

The State Lottery Fund's net position increased by \$2.0 thousand in fiscal year 2024, mainly due to a fluctuation in market yields, which increase or decrease the unrealized gain on investments. Total operating revenues decreased by 2.9% and operating expenses decreased by 2.4% in fiscal year 2024. Ticket sales decreased by \$49.4 million which led to a decrease in prize expenses of \$35.1 million. The decrease was mainly due to a decline in Scratcher ticket sales of \$33.6 million.

The Unemployment Compensation Fund's net position increased by \$124.4 million during fiscal year 2024. This is mainly due to an increase in cash as a result of a healthy economy and low unemployment rate, which allows excess cash to remain in the fund. The increase in cash of \$142.6 million results from contributions received that can remain in the fund as well as an increase in the amount of FUTA tax received. In addition, receivables decreased by \$12.1 million related to a decline in outstanding claimant overpayments. In fiscal year 2024, the Unemployment Compensation cash balance reached a statutory trigger which reduced contributory rates and resulted in a decrease in contribution taxes received and a decrease in operating revenues by \$44.4 million. Operating expenses increased by \$38.1 million as the amounts paid for benefits increased in fiscal year 2024 over amounts in fiscal year 2023.

GENERAL FUND BUDGETARY HIGHLIGHTS

The original budget is the appropriated budget that is truly agreed to and finally passed by the legislature and signed by the Governor at the beginning of the fiscal year. The final budget includes emergency and supplemental appropriations, reverted amounts, and increases to estimated appropriations, which occur during the fiscal year.

Budgeted charges to appropriations for fiscal year 2024 from the General Fund were \$53.6 billion original budget and \$53.4 billion final budget. Actual spending was \$39.1 billion. Reasons for the final budget variances include:

- Appropriation authority exceeded cash available for expenditures.
- Lapse of various appropriations.
- Multiple year grants are appropriated in one year, but the expenditures may occur over several years.
- Capital improvement appropriations were restricted during the budget process.

Budgeted revenues/transfers in for fiscal year 2024 for the General Fund were \$43.9 billion original budget and \$44.2 billion final budget. Actual revenue/transfers in was \$39.0 billion.

Refer to the *Notes to RSI*, Budgetary Reporting, on page 142 for more information on budgetary variances.

GOVERNMENT-WIDE CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets:

The State's investment in capital assets for its governmental and business-type activities as of June 30, 2024, was \$37.2 billion (net of accumulated depreciation/amortization). This investment in capital assets includes construction in progress, software in progress, infrastructure in progress, land, permanent easements, land improvements, temporary easements, buildings and improvements, equipment, software, trademarks, infrastructure, and intangible right-to-use assets related to obligations under right-to-use assets.

Capital Assets of the State include (in thousands):

	Governmental Activities	Business-Type Activities	Total
Construction in Progress	\$ 379,451	\$ 21,723	\$ 401,174
Software in Progress	271,491	—	271,491

<i>Subtotal</i>	<u>69,306,835</u>	<u>214,319</u>	<u>69,521,154</u>
Less Accumulated Depreciation/ Amortization	(32,262,738)	(90,111)	(32,352,849)
Total Capital Assets, Net	<u><u>\$ 37,044,097</u></u>	<u><u>\$ 124,208</u></u>	<u><u>\$ 37,168,305</u></u>

Additional information on capital assets can be found in *Note 5* of this report.

Debt Administration:

At the end of fiscal year 2024, the primary government had total general obligation and other bonded debt outstanding of \$2.0 billion. The State had an additional \$33.2 million of financed purchases from direct borrowings obligation outstanding.

Principal amounts retired or refunded in fiscal year 2024, were \$426.5 million for other bonds, and \$10.9 million for direct borrowings.

The State of Missouri is proud to have maintained a Triple-A credit rating since 1989 from all three major credit rating agencies (Moody's Investor Services, Inc., Standard and Poor's, and Fitch Ratings, Inc.) on the State's General Obligation Bonds. There were no outstanding General Obligation Bonds at the end of fiscal year 2024.

Outstanding Bonds Payable Financed Purchase Obligation of the State include (in thousands):

	Governmental Activities	Business-type Activities	Component Units	Total
Other Bonds	\$ 1,966,300	\$ 52,350	\$ 1,856,560	\$ 3,875,210
Direct Placements	—	—	138,136	138,136
Financed Purchases from Direct Borrowings	33,190	—	57,504	90,694
Total	<u><u>\$ 1,999,490</u></u>	<u><u>\$ 52,350</u></u>	<u><u>\$ 2,052,200</u></u>	<u><u>\$ 4,104,040</u></u>

Additional information on long-term debt can be found in *Notes 10, 11, and 12* of this report.

ECONOMIC OUTLOOK AND NEXT YEAR'S BUDGET

As a major manufacturing, financial, and agricultural state, Missouri's economic health is tied closely to that of the nation. Missouri's economy continues to expand; however, there are growing headwinds from continued high interest rates, national policy uncertainty, and geo-political conflicts.

Missouri's personal income, which directly impacts individual income tax and sales tax, increased 6.3% in 2023. Growth was strong across all types of personal income, including 7.0% growth in salary and wages, 6.8% growth in business income, and 6.8% growth in investment income. Missouri's employment stood at 3.1 million in June 2024, about 3.2% higher than in June 2023. The state's seasonally adjusted unemployment rate registered 3.7% in June 2024, compared to 3.0% in June 2023. The increase in the unemployment rate through June 2024 primarily reflects strong and sustained growth in the labor force. The national rate was 4.1% in June 2024.

Since 2017, personal incomes have increased, on average, 4.8% annually for the state and 4.7% for the nation. The average income of a Missouri citizen was \$61,302 in 2023, which was lower than the national average of \$68,531. Missouri's per capita personal income grew 6.0%, compared to national growth in per capita income of 4.7%, from 2022 to 2023. While the State's per capita income is lower than the national average, so is the cost of living. Missouri is among the most affordable states as it had the sixth lowest cost of living in the United States in 2024. The below graph depicts the components of personal income, with transfer payments (such as social security, Medicare, etc.) comprising 20.6% of the State's total personal income, due in part to the State's aging population.

Source: U.S. Bureau of Economic Analysis 2024

The State of Missouri's net general revenue collections in fiscal year 2024 were \$13.4 billion, a 1.5% increase from fiscal year 2023 collections. This increase reflects continuing moderation in individual income tax collections yet robust sales tax collections.

The State's economic outlook for fiscal year 2025 anticipates slowing growth in employment, wages, and consumption. Since fiscal year 2024 finished significantly above forecast, the Governor has begun fiscal year 2025 with no restrictions in place on general revenue spending. However, the Governor may restrict spending during the fiscal year if necessary.

REQUESTS FOR INFORMATION

This financial report is designed to provide a general overview of the State's finances for all those with an interest in the State's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Office of Administration, Division of Accounting, P.O. Box 809, Jefferson City, MO 65102.

*The **Governmental Funds** focus on current financial resources.*

Governmental Fund Financial Statements

Major Funds

General Fund - Accounts for all current financial resources not required by law or administrative action to be accounted for in another fund.

Major Special Revenue Funds:

Public Education - Provides general and special education needs of the State and other related areas such as library services and student loans.

Conservation and Environmental Protection - Provides for the preservation of the State's wildlife and environment.

Major Capital Projects Fund:

Missouri Road Fund - Accounts for revenues from highway users' fees, federal reimbursements for highway projects, and bond proceeds to be used for costs of constructing and maintaining an adequate state highway system.

Non-Major Funds

Non-Major Governmental Funds are presented in the Combining and Individual Fund Statements for non-major funds as part of Supplementary Information.

STATE OF MISSOURI
RECONCILIATION OF THE BALANCE SHEET OF
GOVERNMENTAL FUNDS TO THE STATEMENT OF NET POSITION
June 30, 2024
(In Thousands of Dollars)

Total Fund Balances - Governmental Funds		\$ 17,450,404
Amounts reported for governmental activities in the Statement of Net Position are different because:		
Capital assets used in governmental funds are not financial resources and are not reported in the funds. These assets consist of (Note 5):		
Non Depreciable Capital Assets	7,546,173	
Capital Assets being depreciated/amortized	61,042,710	
Accumulated Depreciation/Amortization	<u>(31,810,645)</u>	
		36,778,238
Deferred inflows of resources related to the State's revenues that will be collected after year-end, but are not available soon enough to pay for the current period's expenditures are deferred in the funds.		2,726,394
Deferred outflows of resources related to pensions and OPEB (Other Postemployment Benefits) are applicable to future reporting periods and therefore, not reported in the funds.		2,229,434
Deferred outflows of resources related to asset retirement obligations are applicable to future reporting periods and therefore, not reported in the funds.		689
Deferred inflows of resources related to pensions and OPEB are applicable to future reporting periods and therefore, not reported in the funds.		(1,427,026)
Deferred outflows of resources related to deferred charges or credits on debt refundings are applicable to future reporting periods and therefore, not reported in the funds.		3,900
Deferred inflows of resources related to deferred charges or credits on debt refundings are applicable to future reporting periods and therefore, not reported in the funds.		(892)
Some liabilities are not due and payable in the current period and therefore, not reported in the funds. Those liabilities consist of (Note 10):		
Due to Other Entities	(41,418)	
Other Bonds Payable	(1,966,300)	
Unamortized Bond Premium	(84,348)	
Accrued Interest on Bonds	(17,298)	
Obligation under Financed Purchases	(5,783)	
Obligation under Right-to-Use Assets - Leases	(123,322)	
Obligation under Right-to-Use Assets - Subscriptions	(41,403)	
Pollution Remediation	(58,661)	
Asset Retirement Obligations	(1,791)	
Compensated Absences	(217,180)	
Claims Liability	(30,876)	
Contingent Liabilities	(2,449,078)	
Net Other Postemployment Benefit Obligation	(2,097,433)	
Net Pension Liability	<u>(8,108,274)</u>	
		(15,243,165)
Internal service funds are used by management to charge the costs of certain activities, such as insurance and telecommunications, to individual funds. The assets and liabilities are included in governmental activities in the Statement of Net Position.		542,994
Net Position of Governmental Activities		<u><u>\$ 43,060,970</u></u>

The notes to the financial statements are an integral part of this statement.

The notes to the financial statements are an integral part of this statement.

STATE OF MISSOURI
RECONCILIATION OF THE STATEMENT OF REVENUES,
EXPENDITURES, AND CHANGES IN FUND BALANCES IN
GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES
For the Fiscal Year Ended June 30, 2024
(In Thousands of Dollars)

Net Change in Fund Balances - Total Governmental Funds	\$ 871,230
--	------------

Amounts reported for governmental activities in the Statement of Activities are different because:

Inventories, which are recorded under the purchases method for governmental fund reporting, are reported under the consumption approach on the Statement of Activities. As a result of this change, the Increase in Reserve for Inventories on the fund statement has been reclassified as a functional expense on the government-wide statement.	(23,863)
---	----------

Governmental funds report capital outlays as expenditures. In the Statement of Activities, however, the cost of these assets is allocated over their estimated useful lives and reported as depreciation/amortization expense. This is the amount that capital outlays of \$2,212,776, exceeds depreciation/amortization of \$889,177 in the current period.	1,323,599
--	-----------

In the Statement of Activities only the gain/loss on the sale of assets is reported, whereas in the governmental funds, the proceeds from the sales increase financial resources. Thus the change in net position differs from the change in governmental fund balance by the net book value of the assets sold.	(34,657)
--	----------

The net effect of the donation and transfers of capital assets increased net position.	23,631
--	--------

Deferred inflows do not provide current financial resources and are not recognized as revenues until available in governmental funds.	(132,293)
---	-----------

Pension and OPEB (Other Postemployment Benefits) contributions are reported as expenditures in the governmental funds when made. However, they are reported as deferred outflows of resources in the Statement of Net Position because the reported net pension liability and OPEB liability are measured a year before the report date. Pension expense and OPEB expense, which are the change in the net pension liability and the net change in OPEB liability, adjusted for changes in deferred outflows and inflows of resources related to pensions and OPEB, is reported in the Statement of Activities.

Pension Contributions	844,284
Pension Expense	(817,033)
OPEB Contributions	95,803
OPEB Expense	(4,789)

Deferred outflows of resources related to deferred charges on asset retirement obligations are applicable to future reporting periods and therefore, not reported in the funds.	(37)
---	------

Proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net position. In governmental funds, repayment of principal is an expenditure, but the repayment reduces long-term liabilities in the Combined Statement of Net Position (Note 10):

Bonds Issued	(381,610)	
Bond Premiums and Refunding Costs	(9,289)	
Bonds Retired	423,855	
Financed Purchases Issued and Transfer In of Financed Purchases	(6,719)	
Financed Purchase Payments and Transfer Out of Financed Purchases	5,025	
Leases Issued and Transfer In of Lease Liability	(32,503)	
Lease Payments and Transfer Out of Lease Liability	25,144	
Subscription-Based Information Technology Agreements Issued	(25,479)	
Subscription-Based Information Technology Agreements Payments	46,064	
		44,488

Some expenses reported in the Statement of Activities do not require the use of current financial resources and therefore, not reported as expenditures in governmental funds (Note 10):

Amortization of Bond Premium and Refunding Costs	33,259	
Decrease in Accrued Interest	3,402	
Increase in Pollution Remediation	(9,588)	
Decrease in Asset Retirement Obligations	10	
Increase in Due to Other Entities	(13,857)	
Increase in Compensated Absences	(7,337)	
Increase in Contingent Liabilities	(33,342)	
Increase in Claims Liability	(11,459)	
		(38,912)

Internal service funds are used by management to charge the costs of certain activities, such as insurance and telecommunications, to individual funds. The net revenue and expense of internal service funds are reported with governmental activities.	41,708
--	--------

Change in Net Position of Governmental Activities	\$ 2,193,159
---	--------------

The notes to the financial statements are an integral part of this statement.

*The **Proprietary Funds** focus on economic resources and are operated in a manner similar to private business enterprises.*

Proprietary Fund Financial Statements

Major Funds

State Lottery - Accounts for proceeds from the sale of lottery tickets and all other moneys credited or transferred to this fund. A minimum of 45% of the moneys are used for prizes.

Unemployment Compensation - Accounts for contributions and payments collected under the provisions of the "Unemployment Compensation Law" to pay benefits.

Non-Major Funds

Non-major enterprise funds and all internal service funds are presented in our combining non-major fund financial statements as part of Supplementary Information.

Note 1 - Significant Accounting Policies

A. Financial Statements and Reporting Entity

The accompanying financial statements of the State of Missouri (primary government) and its component units have been prepared in conformity with generally accepted accounting principles as prescribed by the Governmental Accounting Standards Board (GASB).

The financial statements include the departments, agencies, boards, commissions, and other organizational units over which the State has financial accountability. GASB set forth the following criteria in Statement No. 14, *The Financial Reporting Entity*, for determining financial accountability: appointment of a voting majority of an organization's governing body and either: 1) the ability to impose the State's will on the organization; or 2) the organization's ability to provide specific benefits to, or impose specific burdens on, the primary government. Where the State does not appoint a voting majority of the governing body, the entity would still be included if it is fiscally dependent on the State. Statement No. 39, *Determining Whether Certain Entities are Component Units*, added a requirement to include all entities whose relationship with the State would make it misleading to exclude it. Statement No. 61, *The Financial Reporting Entity: Omnibus an amendment of GASB Statements No. 14 and No. 34*, improves financial reporting by amending GASB Statement No. 14, *The Financial Reporting Entity*, and Statement No. 34, *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments*, in blending component units: 1) if there is a financial benefit or burden relationship with the primary government; 2) management of the primary government has operational responsibility for the component unit's activities; and 3) if the total outstanding debt is expected to be repaid entirely or almost entirely with the resources of the primary government. GASB Statement No. 80, *Blending Requirements for Certain Component Units - an amendment of GASB Statement No. 14*, requires component units to be blended if they are incorporated as not-for-profit corporations and the primary government is the sole corporate member.

In addition to the legislative, executive, and judicial branches, the following organizations are included in these financial statements:

Component Units (Blended):

Blended component units are legally separate entities from the State, but are so intertwined with the State that they are, for all practical purposes, the same as the State. They are reported as part of the primary government and blended into the appropriate funds. The following component units are blended because they provide services entirely or almost entirely to the primary government:

Governmental Funds:

Board of Fund Commissioners – The Board was created by state law and is comprised of the Governor, Lieutenant Governor, Attorney General, State Treasurer, and the Commissioner of Administration. The Board's purpose is to issue, redeem, and cancel state general obligation bonds and perform other administrative activities related to state general obligation debt as assigned by law. Separate financial statements are not required or issued for the Board.

Board of Private Investigator and Private Fire Investigator Examiners – The Board was created by state law and is charged with the licensure and regulation of the practice of private investigators and private fire investigators in Missouri. The seven member board shall consist of three private investigators, two private fire investigators, and two public members, appointed by the Governor. The Board is appointed by the primary government. It is therefore considered a blended special revenue fund and shown in the financial statements as part of the primary government.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS

Note 1 - Significant Accounting Policies (cont.)

Coordinating Board for Early Childhood – The Board was created by state law within the Missouri Children's Services Commission. The Board's purpose is to develop a comprehensive statewide long-range strategic plan for a cohesive early childhood system, and to work with public and private entities for the purpose of promoting and improving the development of Missouri's children from birth through age five. The 17 member Board is composed of representatives from the Governor's Office; the following departments: Health and Senior Services, Mental Health, Social Services, and Elementary and Secondary Education; the judiciary; the Family and Community Trust Board; the Head Start Program; and nine members appointed by the Governor. The majority of the board members are appointed by the primary government and, therefore, separate financial statements are not required for the Board.

Internal Service Funds:

Board of Public Buildings – This is reported with the State Facility Maintenance and Operation Fund. The Board was created by state law and its governing body is made up of the Governor, the Lieutenant Governor, and the Attorney General. Its purpose is to provide state buildings by issuing revenue bonds and to supervise the operations of these facilities. All construction contracts must be approved by the Division of Facilities Management, Design and Construction, and its projects must be approved by the General Assembly. The Board can require state agencies to occupy its projects. The General Assembly appropriates to the Board, on behalf of the state agencies, amounts sufficient to pay the principal and interest on the bonds and pay the costs of operations.

Missouri State Employee's Insurance Plan – The Plan was created to provide basic life insurance to eligible members and is administered through the Missouri State Employees' Retirement System (MOSERS). Death benefits, optional life insurance, and long-term disability benefits are also provided by the Plan for certain members. Copies of the System's financial statements may be requested from:

Missouri State Employees' Retirement System
P.O. Box 209
Jefferson City, Missouri 65102-0209

Missouri Consolidated Health Care Plan (MCHCP) – The Plan was created by state law to provide medical benefits to its members and is administered by a board of trustees. The Board consists of two members of the Senate; two members of the House; three members appointed by the Governor; the Director of the Department of Health and Senior Services; the Director of the Department of Commerce and Insurance; the Commissioner of Administration; two members of the system who are current employees; and one member of the system who is a retiree. The management of MCHCP is the responsibility of the Executive Director who is appointed by the Board. Copies of the Plan's financial statements may be requested from:

Missouri Consolidated Health Care Plan
P.O. Box 104355
832 Weathered Rock Court
Jefferson City, Missouri 65110-4355

STATE OF MISSOURI

Note 1 - Significant Accounting Policies (cont.)

MoDOT/MSHP Medical and Life Insurance Plan – The Plan provides health and life insurance coverage to eligible employees, retirees, and their dependents of the Missouri Department of Transportation (MoDOT) and the Missouri State Highway Patrol (MSHP). The Plan is administered by a board of trustees consisting of four active MoDOT employees, one retired MoDOT employee appointed by the Director of MoDOT, two active MSHP employees, and one retired MSHP employee appointed by the Superintendent of MSHP. Additional information may be requested from:

Missouri Department of Transportation
Financial Services Division
P.O. Box 270
Jefferson City, Missouri 65102

Pension (and other employee benefit) trust funds:

Missouri State Employees' Retirement System (MOSERS) – The System was created by state law and provides retirement, survivor, and disability benefits to its members and is administered by a board of trustees. The Board consists of two members of the Senate, two members of the House, two members appointed by the Governor, three members elected by the System's members, the State Treasurer, and the Commissioner of Administration. The management of MOSERS is the responsibility of the Executive Director who is appointed by the Board. The MOSERS Board of Trustees also oversees the State's Deferred Compensation Plan which is administered by a third party. Copies of the System's financial statements may be requested from:

Missouri State Employees' Retirement System
P.O. Box 209
Jefferson City, Missouri 65102-0209

Missouri Department of Transportation and Highway Patrol Employees' Retirement System (MPERS) – The System provides retirement, survivor, and disability benefits to qualified employees of the Missouri Department of Transportation, uniformed and non-uniformed members of the Missouri State Highway Patrol, and MPERS staff. The System is administered by a board of trustees consisting of three members of the Missouri Highways and Transportation Commission, the Director of the Missouri Department of Transportation, the Superintendent of the Missouri State Highway Patrol, one member of the Senate, one member of the House, one member elected by MoDOT employees, one member elected by the Missouri State Highway Patrol employees, one retired member elected by retired MoDOT employees, and one retired member elected by retired Missouri State Highway Patrol employees. Copies of the System's financial statements may be requested from:

Missouri Department of Transportation and
Highway Patrol Employees' Retirement System
P.O. Box 1930
Jefferson City, Missouri 65102-1930

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS

Note 1 - Significant Accounting Policies (cont.)

Missouri Consolidated Health Care Plan (MCHCP) State Retiree Welfare Benefit Trust – The Trust was established on June 27, 2008, to provide health and welfare benefits for the exclusive benefit of current and future retired employees of the State and their dependents who meet eligibility requirements, except those covered by other State sponsored post-employment benefit plans. The Trust is administered by the MCHCP board of trustees, which also administers the benefits for the active participants of the Plan. The net position and activity related to active participants are reported in an internal service fund. Copies of the Plan's financial statements may be requested from:

Missouri Consolidated Health Care Plan
P.O. Box 104355
832 Weathered Rock Court
Jefferson City, Missouri 65110-4355

Missouri State Public Employees' Deferred Compensation Plan – The Missouri State Public Employees' Deferred Compensation Plan is administered by ICMA-RC and oversight of the Plan is provided by the MOSERS board of trustees. Under this Plan, employees are permitted to defer a portion of their current salary until future years. In addition, eligible employees have the opportunity to participate in the Missouri State Employees' Deferred Compensation Incentive Plan. Under this Plan, the State contributes \$25, \$30, or \$35 per month on behalf of any employee who contributes at least that amount to the Missouri State Public Employees' Deferred Compensation Plan and who has been an employee of the State for at least one year. However, due to budget constraints, the State's contribution amount was suspended in March 2010. Copies of financial statements for both Plans may be requested from:

Plan Administrator
c/o MOSERS
P.O. Box 209
Jefferson City, Missouri 65102-0209

Component Units (Discretely Presented):

Discretely presented component units are legally separate entities for which the State is financially accountable. The financial data for these entities is reported separately from the financial data of the primary government.

Missouri Agricultural and Small Business Development Authority — The Authority was created by state law and is authorized to issue bonds to finance agricultural and small business development loans for property acquisitions/renovations and pollution control facilities throughout the State. If for any reason, the Authority ceases to exist, all rights and properties of the Authority will pass to the State. Its governing body consists of seven members appointed by the Governor with the advice and consent of the Senate. Copies of the Authority's financial statements may be requested from:

Missouri Agricultural and Small
Business Development Authority
P.O. Box 630
1616 Missouri Boulevard
Jefferson City, Missouri 65102

Missouri Transportation Finance Corporation — The Corporation is a not-for-profit corporation organized under the Missouri Nonprofit Corporation Law. The Corporation is financed by federal highway and transit dollars, plus state and local matching funds. It is authorized to issue revenue bonds. The Corporation provides loans to assist public and private entities to fund highway and transportation projects throughout the State. Missouri Transportation Finance Corporation's board determines which applicants are extended loans. Copies of the Corporation's financial statements may be requested from:

Missouri Transportation Finance
Corporation
P.O. Box 270
105 West Capitol Avenue
Jefferson City, Missouri 65102

Missouri Wine and Grape Board — The Board was created by state law to further growth and development of the grape growing industry in Missouri and foster the expansion of the grape market for Missouri grapes. The eleven member board consists of seven members representing the grape and wine industry, food service industry, or media marketing industry. The four other members include the director of the Department of Agriculture and the presidents of the Missouri Grape Growers Association, the Missouri Vintners Association, and the Missouri Wine Marketing and Research Council. Copies of the Board's annual report may be requested from:

Missouri Wine and Grape Board
P.O. Box 630
1616 Missouri Boulevard
Jefferson City, Missouri 65102

State Environmental Improvement and Energy Resources Authority — The Authority was created by state law and is authorized to finance, acquire, construct, and equip projects to reduce, prevent, and control pollution and develop the energy resources of the State. The Authority is governed by a five-member board appointed by the Governor with the advice and consent of the Senate. Copies of the Authority's annual report may be requested from:

Related Organizations

Related organizations are excluded from the financial reporting entity because the State's accountability does not extend beyond appointing a voting majority of the organization's board members. Related organizations of the State of Missouri include:

Missouri Health and Educational Facilities Authority — finances health and educational facilities.

Missouri Higher Education Loan Authority — provides a secondary market for loans made under the Federal Family Education Loan Program.

Missouri Housing Development Commission — finances the purchase, development or rehabilitation of affordable housing and funds housing assistance.

Missouri Technology Corporation — promotes the modernization of businesses through the development of science and technology applications.

Missouri Public Entity Risk Management Fund — provides liability protection to participating public entities, their officials, and employees.

Jackson County Sports Complex Authority — responsible for construction, operation, and financing of the Jackson County Sports Complex.

Kansas City Regional Sports Complex Authority — responsible for the study and review of all current major sports leagues, clubs, or franchises in Kansas City.

St. Charles County Convention and Sports Facility Authority — responsible for planning, constructing, and managing convention and sports facilities in the St. Charles area.

Missouri Cotton Growers' Organization — organized for boll weevil eradication.

Universal Service Board — organized to ensure just, reasonable, and affordable rates for comparable essential local telecommunication services throughout the State.

Interstate Commission for Adult Offender Supervision — responsible for promoting public safety and protecting the rights of victims through the control and regulation of the interstate movement of adults placed under community supervision.

Board of Trustees of the Missouri Mesothelioma Risk Management Fund — provides coverage of liabilities for participating employers relating to mesothelioma awards.

P-20 Council — organized to create a more efficient and effective education system that more adequately prepares students for the challenges of entering the workforce.

Missouri Propane Safety Commission — responsible for developing comprehensive plans and programs for the prevention, control, and abatement of propane-related accidents in Missouri.

Missouri Family Trust Board of Trustees — provides trust services for persons with disabilities.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2024

Note 1 - Significant Accounting Policies (cont.)

B. Government-Wide and Fund Financial Statements

Government-Wide Financial Statements:

The government-wide financial statements focus on the government as a whole. The Statement of Net Position and Statement of Activities report information on all non-fiduciary activities of the primary government and its component units. Primary government activities are distinguished between governmental and business-type activities. Governmental activities generally are financed through taxes, intergovernmental revenues, and other non-exchange revenues. Governmental activities include governmental type funds and internal service funds. Business-type activities are financed in whole or in part by fees charged to external parties for goods or services and consist of enterprise funds.

The Statement of Net Position presents the reporting entity's non-fiduciary assets, deferred outflows, liabilities, and deferred inflows with the difference reported as net position.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable within a specific function. Indirect costs, such as depreciation/amortization expense, are included in the direct expenses reported for individual functions. Program revenues include: 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function; and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not meeting the definition of program revenues are instead reported as general revenues.

The government-wide financial statements are presented using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recognized when incurred. Fiduciary funds have been excluded from the government-wide financial statements because, by definition, the resources of these funds cannot be used to support government operations. Generally, interfund transactions have also been eliminated. Some interfund transactions, such as the exchange of services, were not eliminated because doing so would mistakenly understate both expenses of the buyer and revenues of the seller.

Fund Financial Statements:

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though fiduciary funds are excluded from the government-wide statements. For governmental and proprietary fund financial statements, the emphasis is on major individual governmental and enterprise funds, with each displayed in a separate column. All remaining governmental and enterprise funds are aggregated and reported as non-major funds. Internal service funds are also aggregated and reported in a separate column on the proprietary fund financial statements.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2024

Note 1 - Significant Accounting Policies (cont.)

The governmental fund financial statements are presented using the current financial resources measurement focus and modified accrual basis of accounting. With the current financial resources measurement focus, only current assets and current liabilities are included on the balance sheet. Under the modified accrual basis of accounting, revenues are recognized in the accounting period in which they become both measurable and available to pay current period liabilities. Operating statements of governmental funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in fund balance. Material revenues susceptible to accrual include federal grants and sales and income taxes. Expenditures are recognized when the related fund liability is incurred except for the following:

- Principal and interest on general long-term debt is recorded as an expenditure when due.
- Compensated absences (accumulated vacation and compensatory time) and sick pay are recorded as expenditures when paid.
- Inventories are reported as expenditures when purchased, except for the Missouri Road Fund, which updates inventory perpetually under the consumption method.

The proprietary, pension (and other employee benefit) trust, private-purpose trust, and custodial fund financial statements are presented using the economic resources measurement focus and accrual basis of accounting. With the economic resources measurement focus, assets, deferred outflows, liabilities, and deferred inflows associated with the operation of these funds are included on the Statement of Net Position. Under the accrual basis of accounting, revenues are recognized in the period earned and expenses are recognized in the period incurred. Proprietary fund-type operating statements present revenues and expenses in total net position. Operating revenues and expenses in proprietary funds are classified as those activities that make up the primary ongoing operations associated with those funds. Non-operating revenues and expenses in proprietary funds are classified as those activities that are deemed incidental or unusual for those funds.

The discretely presented component unit financial statements are presented using the economic resources measurement focus and accrual basis of accounting with the following exception in regard to the college and universities. Revenues and related expenditures in connection with the summer sessions in progress at June 30 are deferred at that date.

The State reports the following major funds categories:

General Fund – accounts for all current financial resources not required by law or administrative action to be accounted for in another fund. Major revenues include contributions and taxes.

Public Education – provides general and special education needs of the State and other related areas such as library services and student loans. Major revenues include contributions and taxes.

Conservation and Environmental Protection – provides for the preservation of the State's wildlife and environment. Major revenues include contributions, taxes and licenses, fees, and permits.

Missouri Road Fund – accounts for revenues from highway users' fees, federal reimbursements for highway projects, and bond proceeds to be used for costs of constructing and maintaining an adequate state highway system. Major revenues are from contributions.

State Lottery – accounts for proceeds from the sale of lottery tickets and all other moneys credited to this fund. A minimum of 45% of the moneys are used for prizes. Major revenues are from sales of lottery tickets.

Unemployment Compensation – accounts for contributions, payments, and federal loans collected under the provisions of the Unemployment Compensation Law to pay benefits. Major revenues include federal and employer contributions.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2024

Note 1 - Significant Accounting Policies (cont.)

C. Basis of Presentation

The State's financial practices are based upon fund accounting concepts. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts recording cash and other financial resources, together with all related liabilities and fund balances, and changes therein, that are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations.

The accompanying financial statements are structured into three categories of funds and discretely presented component units:

Primary Government:

Governmental Funds include the General Fund, special revenue funds, debt service funds, capital projects funds, and permanent funds. These funds account for the revenues and expenditures, capital outlay, and certain debt service of the State.

Proprietary Funds include enterprise funds and internal service funds. These funds account for the cost of certain services provided by the State.

Fiduciary Funds include pension (and other employee benefit) trust funds, private-purpose trust funds, and custodial funds. These funds account for assets held by the State in a trustee or custodial capacity for individuals, other governments, and other entities.

Discretely Presented Component Units:

Major

College and Universities account for moneys from student tuition and fees, federal and state grants, debt proceeds, gifts and contributions, state appropriations, investments, and endowments. Assets, deferred outflows of resources, liabilities, deferred inflows of resources, and net position are accounted for on the Statement of Net Position. Revenues, expenses, gains, and losses are reported on the Statement of Revenues, Expenses, and Changes in Net Position/Statement of Activities.

Non-Major

Non-Major Component Units account for moneys from bond proceeds, loans, contributions, gifts, grants, and other revenue sources. Assets, deferred outflows of resources, liabilities, deferred inflows of resources, and net position are accounted for on the Statement of Net Position. Revenues, expenses, gains, and losses are reported on the Statement of Revenues, Expenses, and Changes in Net Position/Statement of Activities.

D. Cash and Cash Equivalents

For reporting purposes, cash and cash equivalents include bank accounts, petty cash, and all investments with an original maturity of 92 days or less, such as certificates of deposit, money market certificates, and repurchase agreements. Cash and cash equivalents on the Proprietary Funds Statement of Cash Flows are also reported under this definition. This definition excludes Fiduciary funds. Cash balances of most state funds are pooled and invested by the State Treasurer (see *Note 3*).

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2024

Note 1 - Significant Accounting Policies (cont.)

E. Investments

These are long-term investments with an original maturity greater than 92 days, which are expected to be held to maturity and redeemed at face value. The majority of investments are reported in pension (and other employee benefit) trust funds, however, investments are held in all fund types. Repurchase agreements, certificates of deposit, and overnight commercial paper held by the State Treasurer's Office are reported at amortized cost. The Missouri State Public Employees' Deferred Compensation Plan and the Missouri State Public Employees' Deferred Compensation Incentive Plan report their Stable Value Funds at contract value. The Missouri State Employees' Retirement System reports their cash held in investment accounts and repurchase agreements at cost plus accrued interest. All other investments of the State are reported at fair value.

There are multiple funds that have income from investments which are directed to the General Fund. These funds consist of special revenue, enterprise, internal service, private-purpose, and custodial funds.

F. Interfund Receivables/Payables

The State makes various transactions between funds or between the primary government and component units to distribute interest earnings, finance operations, provide services, and acquire capital assets. These receivables at June 30 are classified as "due from other funds" or "due from primary government/component units" on the Balance Sheet and Statement of Net Position. Payables are classified as "due to other funds" or "due to primary government/component units" on the Balance Sheet and Statement of Net Position (see *Note 15*). These receivables/payables are due within one year. Any receivables/payables that are due to and due from an enterprise fund are eliminated on the face of the Proprietary Funds Statement of Net Position. If any receivables/payables that remain after this elimination are both in the same activity (Governmental), they are eliminated at the Government-Wide Statement of Net Position. Interfund receivables/payables between the primary government and the component units or the fiduciary funds are reclassified as accounts receivable/payable at the government-wide level. Any remaining interfund receivables/payables are reported as internal balances on the Government-Wide Statement of Net Position.

G. Advances to/from Other Funds

Long-term interfund receivables are classified as "advances to other funds" or "advances to primary government/component units" on the Balance Sheet and Statement of Net Position. Long-term interfund payables are classified as "advances from other funds" or "advances from primary government/component units" on the Balance Sheet and Statement of Net Position (see *Note 15*). These receivables/payables are eliminated if both the receivable and payable are in the same activity (Governmental). Advances to/from that are between the primary government and the component units are reclassified as accounts receivable/payable at the government-wide level. Any remaining long-term interfund receivables/payables are reported as internal balances on the Government-Wide Statement of Net Position.

H. Inventories

Inventories in the governmental funds consist of expendable supplies held for consumption, the cost of which is recorded as an expenditure at the time of purchase, except for the Missouri Road Fund, which updates inventory perpetually under the consumption method. Inventory balances for governmental funds are shown in the nonspendable fund balance classification. Inventories in the proprietary funds consist of both expendable supplies held for consumption and the cost of goods held for resale, the cost of which is recorded as an expense as they are used. Inventories are valued at cost using various methods such as moving average; weighted average; and first-in, first-out.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2024

Note 1 - Significant Accounting Policies (cont.)

I. Capital Assets

Capital assets, which include construction in progress, software in progress, infrastructure in progress, land, land improvements, permanent and temporary easements, buildings and improvements, equipment, software, trademarks, and infrastructure assets, are valued at historical cost or estimated historical cost if actual historical cost is not available. The estimate of historical cost was based on current appraised value indexed to the date of acquisition. Donated capital assets are reported at estimated acquisition value at the time received. Assets the State has the right to use per lease or subscription agreements are capitalized at the inception of the lease term and capital assets acquired through financed purchases are capitalized at the date the obligation is established (see *Notes 5, 6, and 11*).

Infrastructure assets (including highways, bridges, streets and sidewalks, drainage systems, lighting systems, communication towers, and similar items) are capitalized. Interest costs incurred during construction of capital assets are not capitalized.

The capitalization threshold for all capital assets is as follows: land improvements – \$15,000, buildings and improvements – \$15,000, software and trademarks – \$5,000, equipment – \$5,000, right-to-use land – \$20,000, right-to-use buildings – \$50,000, right-to-use equipment – \$5,000, right-to-use temporary easements – \$5,000, right-to-use software – \$50,000 and right-to-use infrastructure – \$100,000. No dollar threshold is set for land, easements, or infrastructure.

Capital assets are depreciated/amortized using the straight-line method of depreciation/amortization over the following useful lives: buildings – 40 to 50 years, land improvements and building improvements – 15 to 20 years, temporary easements – term of easement, equipment – 2 to 5 years, software – 3 to 5 years, trademarks – 10 years, infrastructure – 12 to 50 years, right-to-use land – lease term, right-to-use software – shorter of lease term or useful life, right-to-use buildings – shorter of lease term or useful life, right-to-use equipment – shorter of lease term or useful life, right-to-use temporary easement – shorter of lease term or useful life, and right-to-use infrastructure – shorter of the lease term or useful life. Construction in progress, software in progress, infrastructure in progress, land, and permanent easements are not depreciated/amortized.

Most works of art and historical treasures are not capitalized or depreciated/amortized. The State's non-capitalized collections include the historical artifacts at the various state museums and historical sites, monuments, and other art throughout the capitol grounds. Assets that were previously capitalized continue to be reported in the government-wide financial statements.

Component unit capital assets are stated at cost and are depreciated/amortized using the straight-line method of depreciation/amortization over the following useful lives: buildings – 40 years, land improvements and building improvements – 20 years, equipment – 5 to 15 years, software – 3 to 5 years, right-to-use land – lease term, right-to-use buildings – shorter of lease term or useful life, right-to-use equipment – shorter of lease term or useful life, and right-to-use infrastructure – shorter of the lease term or useful life.

J. Obligations Under Right-To-Use Assets

Leases and subscriptions, where the State of Missouri is the lessee, are recognized based on the present value of future lease/subscription payments over the contract term. A lease/subscription liability and an intangible right-to-use lease/subscription asset are recognized including right-to-use land, buildings, equipment, communication infrastructure, temporary easements, and subscriptions. Lease/subscription right-to-use assets are reported with capital assets, and lease/subscription liabilities are reported as long-term debt in the statement of Net Position (see *Notes 5, 6, and 10*). The right-to-use lease/subscription assets are amortized over the term of the lease/subscription or the underlying asset's useful life, whichever is shorter.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2024

Note 1 - Significant Accounting Policies (cont.)

Leases, where the State of Missouri is the lessor, a lease receivable and a deferred inflow of resources are recognized based on the present value of lease payments over the contract term (see *Notes 13 and 14*). Types of assets the State leases as a lessor include land and buildings. The deferred inflow of resources is amortized evenly over the life of the lease.

K. Deferred Outflow of Resources and Deferred Inflow of Resources

In addition to assets, the Statement of Net Position/Balance Sheet may report a separate line item for deferred outflows of resources. Deferred outflows of resources consist of the decrease of net position by the State that is applicable to a future reporting period and will not be recognized as outflow of resources (expense/expenditure) until then.

In addition to liabilities, the Statement of Net Position/Balance Sheet may report a separate line item for deferred inflows of resources. Deferred inflows of resources consist of the increase of net position by the State that is applicable to a future reporting period and will not be recognized as inflow of resources (revenue) until then.

L. Unearned Revenues

Unearned revenues are amounts collected in advance of the year in which earned.

M. Long-Term Debt

Long-term liabilities that will be financed from governmental funds are not reported on the fund financial statements. However, the long-term liabilities are reported on the government-wide financial statements. The reconciliation between fund financial statements and government-wide financial statements includes a line item for the long-term liabilities of governmental funds. These long-term liabilities include the following:

1. Due to Other Entities includes outstanding principal on advances from other governments and contractual obligations to other governments. The expenditures are recorded in the appropriate governmental funds when the liability is paid (see *Note 10*).
2. Outstanding principal for general obligation debt. The expenditure for payment of principal and interest for general obligation debt is recorded in the debt service funds when paid (see *Note 11*).
3. Outstanding principal for bonds issued by the Board of Public Buildings, bonds issued by the Missouri Development Finance Board, and the State Road Bonds issued by the Missouri Highways and Transportation Commission. The expenditure for payment of principal and interest for these bonds is recorded in the appropriate governmental and enterprise funds when paid (see *Note 11*).
4. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest rate method in the government-wide financial statements. Bonds payable are reported net of the applicable bond premium and discount.

In the fund financial statements, governmental fund and enterprise fund types recognize bond premiums and discounts during the current period. Premiums and discounts on debt issuances are reported as other financing sources (see *Note 10*).

5. Obligations under right-to-use assets - leases, right-to-use assets - subscription-based information technology arrangements, and financed purchases reported include the present value of net minimum future lease payments, which will be paid from the General Fund, various special revenue funds, proprietary funds, and the Missouri Road Fund (see *Notes 6 and 11*).

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2024

Note 1 - Significant Accounting Policies (cont.)

6. Pollution remediation liabilities are measured based on the pollution remediation outlays expected to be incurred to settle those liabilities. These liabilities include all remediation work that the State expects to perform, including work expected to be performed for other responsible parties or potentially responsible parties, whether or not the State is required to do that work. For goods or services used for pollution remediation activities, amounts that are normally expected to be liquidated with expendable available financial resources are recognized as liabilities upon receipt of those goods and services (see *Note 22*).
7. Asset Retirement Obligations are measured based on the best estimate of the current value of outlays expected to be incurred. These liabilities include all legally enforceable amounts associated with the future retirement of a tangible capital asset. Liabilities and expenditures are recognized for goods and services used for asset retirement activities upon receipt of those goods and services (see *Note 23*).
8. Compensated absences include accumulated unpaid vacation and compensatory time accruals and related employer payroll taxes. These amounts are not accrued in the governmental funds, but are recorded as expenditures when paid (see *Note 10*).

Vacation leave is accumulated at a rate of 10 to 14 hours per month depending on the number of years of employment. Accumulated vacation leave cannot exceed twice the number of vacation hours earned annually. Compensatory time is accumulated as earned by an individual employee.

Sick leave is accumulated at a rate of 10 hours per month with no limit to the amount which can be accumulated. Accumulated sick leave is not paid upon employee termination and does not represent a liability of the State. However, unused sick leave may be converted to additional credited service upon retirement (usable only for benefit computation, not eligibility).

9. Claims and contingent liabilities include estimates of the risk of loss related to tort liability, general liability, motor vehicle liability, contractor liability, and injuries to employees. These liabilities are reported when it is probable that a loss has occurred and the amount of loss can be reasonably estimated. These losses include an estimate of claims that have been incurred, but not reported. Expenditures are recorded in the fund from which the liability is paid (see *Notes 21 and 24*).
10. The State provides postemployment health care (OPEB) and life insurance benefits to the majority of employees who either retire from the State or receive long-term disability benefits. These benefits are administered by the Missouri Consolidated Health Care Plan (MCHCP), the Missouri State Employees' Retirement System (MOSERS), the MoDOT/MSHP Medical and Life Insurance Plan (MHPML), and the Conservation Employees' Insurance Plan (CEIP). MCHCP is a cost-sharing multiple-employer defined benefit plan, while MHPML and CEIP are single-employer defined benefit plans. Health care benefits and MOSERS life insurance benefits are funded through both employer and employee contributions. The University of Missouri's OPEB plan is a single-employer defined benefit plan for all qualified employees.

For the purposes of measuring the total/net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position and additions to/deductions from have been recognized on the same basis as they are reported by the plans. Employer contributions are recognized as revenue and reported when due and payable. Benefits are recognized when due and payable in accordance with the terms of the plan. Investments are reported at fair value (see *Note 8*).

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2024

Note 1 - Significant Accounting Policies (cont.)

11. The State has two major retirement systems which cover substantially all State employees and a retirement plan for University of Missouri employees. These systems are the Missouri State Employees' Retirement System (MOSERS) and the Missouri Department of Transportation and Highway Patrol Employees' Retirement System (MPERS). The Missouri State Employees' Plan (MSEP) is a cost-sharing multiple employer defined benefit public employee retirement plan administered by MOSERS. MOSERS also administers the Judicial Plan, a single-employer defined benefit public employee retirement plan. MPERS is a single-employer defined benefit public employee retirement plan. The University of Missouri Retirement, Disability, and Death Benefit Plan is a single-employer defined benefit plan for all qualified employees.

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position and additions to/deductions from the fiduciary net position have been determined on the same basis as they are reported. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value (see Note 7).

Long-term liabilities of all proprietary, pension (and other employee benefit) trust, and private-purpose trust funds are accounted for in the respective funds.

N. Net Position and Fund Balance

The difference between fund assets, deferred outflows, liabilities, and deferred inflows is reported as "Net Position" on the government-wide, proprietary, fiduciary, and component unit fund statements and "Fund Balance" on the governmental fund financial statements.

Net Position is reported in three categories:

Net Investment in Capital Assets – An account used to segregate the portion of net position attributable to capital assets and related debt. It consists of capital assets, net of accumulated depreciation/amortization and reduced by outstanding balances of bonds, notes, and other debt that are attributed to acquisition, construction, or improvement of those assets.

Restricted Net Position – An account used to segregate the portion of net position that have constraints on their use, which are either externally imposed by creditors, grantors, contributors, and the like, or imposed by law through enabling legislation.

Enabling legislation authorizes the State to assess, levy, charge, or otherwise mandate payment of resources (from external resource providers) and includes a legally enforceable requirement that those resources be used only for the specific purposes stipulated in the legislation. At June 30, 2024, net position restricted by enabling legislation equaled \$1,137,103,000 for governmental activities.

Unrestricted Net Position – An account used to segregate the portion of net position that does not meet the definition of the two preceding categories.

When both restricted and unrestricted resources are available for use, generally the State uses restricted resources first, then unrestricted resources as they are needed. However, there may be instances in which restricted funds may only be spent in proportion to unrestricted funds spent.

Governmental Fund Balance Classifications

The State's fund balances are classified as:

Nonspendable – Amounts that are not expected to be converted to cash or amounts that are legally or contractually required to be maintained intact.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2024

Note 1 - Significant Accounting Policies (cont.)

Restricted – Amounts that are restricted for specific purpose due to constraints that are externally imposed by creditors, grantors, contributors, laws and regulations of other governments, or imposed by law through constitutional provisions or enabling legislation.

Committed – Amounts that can only be used for specific purposes pursuant to constraints imposed by a formal action of the legislature. Committed amounts cannot be used for other purposes unless the General Assembly passes legislation to remove the restraints.

Assigned – Amounts that are constrained by the legislature's intent to be used for a specific purpose, but do not meet the criteria for restricted or committed. The constraint for assigned fund balance is established by the Revised Statutes of the State of Missouri.

Unassigned – Amounts that do not meet the criteria of any of the classifications listed above.

Negative Fund Balance

A negative fund balance is prohibited in all fund balance classifications except Unassigned. When a negative fund balance exists, the shortfall would be covered by the next fund balance classification for that specific purpose.

O. Interfund Transactions

During the fiscal year, the State incurs various transactions between funds, including expenditures and transfers of resources to distribute interest earnings, finance operations, provide services, service debt, and acquire capital assets. Interfund transactions consist of these three types:

1. Transactions that would be treated as revenues or expenditures/expenses, if they involved organizations external to the State, are similarly treated when involving other funds of the State. Major transactions that fall into this category include payments to internal service funds from other funds for services rendered.
2. Transactions that reimburse another fund for an expense reduce the expenses of the fund that is being reimbursed and increase the expenses for the fund doing the reimbursement. Therefore, they are not shown on the face of the statements.
3. Operating subsidies and transfers from funds receiving revenues to funds through which the resources are to be expended are classified as transfers (see *Note 16*). These transactions are eliminated on the face of the financial statements if the transfer in and transfer out are either both in governmental funds or both in enterprise funds. Of the remaining transfers, any transfers in and transfers out that are within the governmental activities are eliminated at the Government-Wide Statement of Activities.

P. Property Taxes

Presently there is a state property tax of three cents on each hundred dollars assessed valuation on all real estate and personal property. The tax collected is deposited into the Blind Pension Fund, which is a component of social assistance.

Property taxes in Missouri are levied by October 31 of each year on assessed valuation as of January 1 of that year. Property taxes are due and payable by December 31 and penalties on unpaid taxes are imposed after that date. Assessed values are established by each county assessor's office and are calculated as a percent of market value except for agricultural land which is calculated on productive capability. The percentage for real property varies according to use: residential at 19%, commercial at 32%, and agricultural at 12%. Personal property is assessed according to type with the majority at 33 1/3% of market value.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2024

Note 2 - Reporting Changes and Classifications

The State of Missouri implemented the following new accounting standards issued by the Governmental Accounting Standards Board (GASB) for the fiscal year ending June 30, 2024:

- GASB Statement No. 100, *Accounting Changes and Error Corrections*, amends GASB Statement No. 62 to enhance reporting requirements. This Statement establishes accounting and financial reporting requirements for accounting changes and error corrections to provide more understandable, reliable, relevant, consistent, and comparable information for making decisions or assessing accountability. This is reflected in Note 17 - *Restatements* and on the face of the financial statements.

During fiscal year 2024, the State increased the threshold for equipment and right-to-use equipment from \$1,000 to \$5,000.

Note 3 - Deposits and Investments

The State Treasurer's Office maintains a cash and short-term investment pool that is used by substantially all state funds of the primary government. These funds do not include accrued interest. Certain organizational units are authorized to administer assets designated to their organization in a manner similar to the deposit and investment activities of the State as a whole. Summarized on the following page is the portfolio that represents the "Cash and Cash Equivalents," "Investments," "Restricted Assets – Cash and Cash Equivalents," and "Restricted Assets – Investments" as reported at June 30, 2024.

A. Deposits

The State minimizes custodial credit risk by restrictions set forth in state law and stipulations in the State Treasurer's Office Investment Policy. Custodial credit risk is risk that, in the event of the failure of a depository financial institution, the State will not be able to recover deposits or will not be able to recover collateralized securities that are in the possession of an outside party. Statutes restrict the State Treasurer's Office to deposit funds in financial institutions that are physically located in Missouri, which are selected based on financial stability and community involvement. The financial institution's loan to deposit ratio must exceed 50% at the time of deposit and deposits must be collateralized at least 100% in excess of FDIC coverage with approved securities. Deposits must have a maturity of five years or less and earn interest at varying rates based on State law.

Primary Government

At June 30, 2024, the bank balance of the primary government's deposits was \$2,242,388,000. Of the bank amount, \$9,049,000 was exposed to custodial credit risk by being uninsured and collateralized with securities held by the pledging financial institutions, \$1,111,199,000 was held by the U.S. Treasury, and the remainder was not exposed to custodial risk.

Fiduciary

At June 30, 2024, the bank balance of the deposits of the fiduciary funds was \$90,213,000.

Component Units

Information on the component units' deposits is available within their individual financial statements.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2024

Note 3 - Deposits and Investments (cont.)

B. Investments

Statutes authorize the State Treasurer's Office to invest in U.S. Treasury or Agency securities maturing within five years, commercial paper and banker's acceptances maturing within 180 days, or in repurchase agreements maturing within 90 days secured by U.S. Treasury, or Agency securities of any maturity. There have been no violations of these investment restrictions during fiscal year 2024.

The State Treasurer's Office minimizes credit risk, the risk of loss due to the failure of the security issuer or backer, by establishing a pre-approved list of financial institutions and companies that will be used to purchase commercial paper. The State Treasurer's Office also conducts regular credit monitoring, pre-qualifies the financial institutions and brokers/dealers with which the State Treasurer's Office will do business for broker services and repurchase agreements, and diversifies the portfolio to reduce potential losses on individual securities.

Custodial credit risk is the risk that, in the event of failure of the counterparty to a transaction, the State will not be able to recover the value of their investment or collateral securities that are in the possession of an outside party. The State Treasurer's Office minimizes custodial credit risk by requiring that all securities be held in the State's name at the State's custodial bank, US Bank Trust Services or at one of the State Treasurer's Office approved collateral custodians.

Primary Government

At June 30, 2024, the reported amount of the primary government's investments was \$17,103,117,000. Of the bank amount, \$3,055,000 was exposed to custodial credit risk by being uninsured and unregistered, with securities held by a counterparty in the State's name.

Fiduciary

At June 30, 2024, the reported amount of the fiduciary funds' investments was \$20,063,575,000.

Component Units

Information on the component units' investments is available within their individual financial statements.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2024

Note 3 - Deposits and Investments (cont.)

The following table (in thousands of dollars) provides information about the interest rate risks associated with the State's investments. Statutes also authorize investment of funds not held by the State Treasurer's Office. The externally-held internal service funds, the custodial and pension (and other employee benefit) trust funds, and the component units, in accordance with statutory authority, invest primarily in U.S. government securities, repurchase agreements, preferred and common stocks, bonds, real estate, fixed income securities, mutual funds, and investments in limited partnerships. The investments include certain short-term cash equivalents, various long-term items, and restricted assets by maturity, or in certain instances, a weighted average maturity in years. The State Treasurer's Office minimizes the risk of the market value of securities falling due to changes in interest rates by maintaining an effective duration of less than 3.5 years, and holding at least 30% of the portfolio's total market value in securities with a maturity of 12 months or less.

*The State Treasurer's Office reports their repurchase agreements and certificates of deposit in the amount of \$2,387,000 at amortized costs. The Missouri State Public Employees Deferred Compensation Plan and the Missouri State Public Employees Deferred Compensation Incentive Plan reports their Stable Value Funds in the amounts of \$549,000 and \$289,000 respectively, at contract value. The Missouri State Employees' Retirement System reports their cash held in investment accounts and repurchase agreements in the amount of \$1,366,000 at cost plus accrued interest.

The State minimizes concentration of credit risk, the risk attributed to the magnitude of an investment in a single issuer. State statute prohibits the State Treasurer's Office from investing more than 15% of the total time deposits with any single financial institution. State investment policy limits investment in commercial paper to 10% of the total portfolio per issuer and no more than 15% of the total portfolio may be invested in repurchase agreements with a single counterparty. Addendum A to the investment policy limits the total amount of linked deposits a financial institution may receive to 20% of the statutory cap set forth in Section 30.753.1, RSMo. There are no restrictions in the amount that can be invested in U.S. securities. During fiscal year 2024, the State did not have any instances of noncompliance with these requirements and policies.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2024

Note 3 - Deposits and Investments (cont.)

Fair Value Measurement

The State of Missouri categorizes its fair value measurements within the fair value hierarchy established by GASB Statement No. 72, *Fair Value Measurements and Application*. The hierarchy is based on the valuation inputs used to measure the fair value of the asset and give the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

- Level 1 – Unadjusted quoted prices for identical instruments in active markets.
- Level 2 – Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations in which all significant inputs are unobservable.
- Level 3 – Valuations derived from valuation techniques in which significant inputs are unobservable.

Investments that are measured at fair value using the net asset value per share (or its equivalent) as a practical expedient are not classified in the fair value hierarchy.

The categorization of investments within the hierarchy is based upon the pricing transparency of the instrument and should not be perceived as the particular investment's risk.

In instances where inputs used to measure fair value fall into different levels in the fair value hierarchy, fair value measurements in their entirety are categorized based on the lower level input that is significant to the valuation. The State's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset or liability.

The State Treasurer's Office uses the market approach for the determination of the fair value of investments, except for repurchase agreements, overnight commercial paper and certificates of deposit, which are measured at amortized costs.

Debt, equities, and investment derivatives classified in level 1 of the fair value hierarchy are valued using prices quoted in active markets for those securities.

Debt securities and liabilities classified in level 2 have non-proprietary information that was readily available to market participants from multiple independent sources, which are known to be actively involved in the market. Pricing inputs may include market quotations, yields, maturities, call features, and ratings. A portion of the derivative securities classified in level 2 are securities whose values are derived daily from associated traded securities. Other investments listed as level 2 include debt securities where an independent pricing evaluator had direct observable information, including: trading volume, multiple sources of market data and benchmark spreads. FX forwards are included due to the valuation coming from observable forward rates on the underlying currencies. The equity index swap is included because valuation inputs include an observable interest rate and the underlying index.

Investments listed as level 3 include debt securities where an independent pricing evaluator did not have direct observable information for comparable securities. Significant inputs used in the valuation are not available aside from the evaluator providing the price. Direct investments in private equity, real estate, credit, and real assets are included because the valuation techniques utilize discounted cash flows or other non-observable market information.

Total investments measured at NAV	<u>\$7,355,850</u>	<u>\$ 972,228</u>		

The following is a description of valuation methodologies used for assets recorded at fair value.

¹Equity market neutral hedge fund – This value is 100% from MOSERS. This consists of one fund whereby the strategy invests in both long and short in U.S. and global equity securities, with the goal of having little to no net market exposure. This investment is valued at NAV, is redeemable quarterly, and is not subject to lock-up restrictions.

²Fund-of-funds – This value is 100% from MOSERS. Consisting of four funds, these funds seek to provide diversification by holding a number of funds within a single fund structure. These investments are valued at the NAV, are redeemable monthly or quarterly, and are subject to liquidation of the underlying funds.

³Pending liquidated hedge funds – This value is 87.6% from MOSERS and 12.4% from MPERS. MOSERS has seven funds that have been fully redeemed as of June 30, 2024, which are awaiting final distribution of the proceeds, and will be received upon sale of the underlying investments or upon completion of the audit of the MOSERS's annual financial statements. MPERS has a small investment in three hedge funds that are in liquidation and have been closed. MPERS is awaiting the sale of the final assets.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2024

Note 3 - Deposits and Investments (cont.)

- ⁴Merger arbitrage hedge fund – This value is 100% from MOSERS. Consisting of one fund, this strategy invests in the common stock of companies that are involved in publicly announced mergers and seeks to generate attractive returns while dampening volatility. This investment is valued at NAV, is redeemable monthly, and is not subject to lock-up restrictions.
- ⁵Multi-strategy hedge fund – This value is 81.7% from MOSERS and 18.3% from MPERS. Consisting of six funds for MOSERS and one fund for MPERS, these funds aim to pursue varying strategies in order to diversify risks and reduce volatility. These investments are valued at NAV, are redeemable monthly or quarterly, but are subject to lock-up restrictions for MOSERS. Due to contractual lock-up restrictions, the value of the fund is eligible for redemption in the next six months for MPERS.
- ⁶Opportunistic Debt – This value is 100% from MPERS. Consisting of one fund, this investment uses public, but illiquid, fixed income structuring to achieve higher returns by separating and securitizing the unique credit risk tranches.
- ⁷Quantitative hedge funds – This value is 100% from MOSERS. Consisting of two funds, this strategy attempts to achieve uncorrelated returns using advanced statistical methods to select securities across liquid public markets and systematic volatility trading. These investments are valued at NAV, are redeemable monthly or quarterly, and are not subject to lock-up restrictions.
- ⁸Securitized credit hedge fund – This value is 100% from MOSERS. Consisting of one fund, this strategy invests in investment grade synthetic securitizations primarily in the U.S. and Europe. This investment is valued at NAV and is not redeemable.
- ⁹Structured credit – relative value – This value is 99.9% from MOSERS and 0.1% from MPERS. Consisting of one fund for MOSERS, this strategy invests liquid volatility-related instruments in listed futures and options primarily in U.S. markets, with the goal of having little to no net market exposure. This investment is valued at the NAV, is redeemable monthly, and is not subject to lock-up restrictions. As of June 30, 2024, MPERS had one fund that was in liquidation in this strategy.
- ¹⁰Commingled equity funds – This value is 100% from MOSERS. This consist of four equity funds which are considered commingled in nature. Each are valued at the NAV held at the end of the period based upon the fair value of the underlying investments.
- ¹¹Commingled fixed income funds – This value is 100% from MOSERS. Three fixed income funds are considered commingled in nature. These investments are valued at the NAV held at the end of the period based upon the fair value of the underlying investments.
- ¹²Commingled short-term investment fund – This value is 100% from MOSERS. One short-term investment fund is considered commingled in nature. This investment is valued at the NAV held at the end of the period based upon the fair value of the underlying investments.
- ¹³MOSERS Investment Portfolio (MIP) fund – This value is 85.0% from the Deferred Compensation Plan and 15.0% from the Deferred Compensation Incentive Plan. Participant transactions (purchases and sales) may occur monthly. The significant investment strategies are designed to achieve long-term total returns, comprised of capital appreciation and income. There are no unfunded commitments. There are generally no restrictions as to the redemption of these investments.
- ¹⁴Missouri target date funds – This value is 81.4% from Deferred Compensation Plan and 18.6% from the Deferred Compensation Incentive Plan. Participant transactions (purchases and sales) may occur daily. The significant investment strategies of the funds are to seek the highest total return over time, consistent with the fund's asset mix. The asset allocations within these target date funds adjust automatically over time. Each fund invests more aggressively in its early years and becomes more conservative as it reaches its time horizon. There are no unfunded commitments. There are generally no restrictions as to the redemption of these investments.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2024

Note 3 - Deposits and Investments (cont.)

¹⁵Private real estate funds – This value is 100% from MPERS. MPERS invests in two core private real estate funds that are commingled in nature. Both are eligible for redemption on a quarterly basis.

¹⁶Private market funds – This value is 100% from MOSERS. MOSERS' private markets portfolio consists of 59 funds with exposure to buyout funds, direct lending, distressed funds, infrastructure, energy, secondary, royalty funds, special situations, and U.S. commercial real estate. The timber portfolio consists of one fund in liquidation which invests in global timberland. The fair values of the majority of these funds has been determined using net assets valued one quarter in arrears plus current quarter cash flows. Most of these funds are not eligible for redemption. Distributions are received as underlying investments when the funds are liquidated, which, on average, can occur over the span of 5 to 10 years.

The State Treasurer's Office requires investments in commercial paper and bankers' acceptances to have the highest letter and numerical ranking (such as A1/P1) as rated by at least two Nationally Recognized Statistical Rating Organizations (NRSROs). The Treasurer does not have any additional policies regarding credit ratings of investments.

The following table (in thousands of dollars) provides information on the credit ratings associated with the State's investments in debt securities.

Note 3 - Deposits and Investments (cont.)

Foreign currency risk is the risk that changes in exchange rates will adversely affect the fair value of an investment or a deposit. The State Treasurer's Office does not have any deposits or investments in foreign currency and therefore does not have a policy regarding foreign currency risk. The Missouri State Employees' Retirement System and the Missouri Department of Transportation and Highway Patrol Employees' Retirement System do have foreign currency deposits and investments which may be used for hedging purposes. The following table (in thousands of dollars) provides information on deposits and investments held in various foreign currencies, which are stated in U.S. dollars.

Currency	Investment Type				Total

C. Securities Lending Program

State Treasurer's Office:

The Missouri State Treasurer's Office participates in a securities lending program to augment investment income. Authority to participate rests in Section 30.260.7, RSMo. U.S. Bank acts as the securities lending agent and as the State Treasurer's custodial bank.

Collateral may be in the form of cash, securities issued or guaranteed by the U.S. government or its agencies, or bank letters of credit or equivalent obligation if pre-approved by the State Treasurer's Office. Collateral must be provided in the amount of 102% of the then market value of the loaned securities and accrued interest, if any. The maximum duration gap between loans and investments shall be 15 days. The maximum life of term loans shall be 90 days. U.S. Bank provides for full indemnification to the State Treasurer's Office for any losses that might occur in the program due to borrower default, insolvency, or failure to return loaned securities.

At June 30, 2024, the State Treasurer's Office had an aggregate fair value of securities lent of \$1,295,259,000 and an aggregate fair value of collateral received of \$1,295,259,000.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2024

Note 3 - Deposits and Investments (cont.)

Missouri State Employees' Retirement System:

The Missouri State Employees' Retirement System's (MOSERS) board of trustees' investment policies permit the pension trust funds to participate in a securities lending program. Fixed income, international equity and domestic equity securities of the pension trust funds are loaned to participating brokers who provide collateral in the form of cash, U.S. Treasury or government agency securities, or letters of credit issued by approved banks. Collateral must be provided in the amount of 102% of fair value for domestic loans and 105% of fair value for international loans. MOSERS does not have the authority to pledge or sell collateral securities without borrower default.

MOSERS had no securities lending activity in fiscal year 2024.

Missouri Department of Transportation and Highway Patrol Employees' Retirement System:

In accordance with the investment policies set by the board of trustees, the Missouri Department of Transportation and Highway Patrol Employees' Retirement System (MPERS), lends its securities to broker-dealers and banks pursuant to a form of loan agreement. MPERS custodial bank, Northern Trust, is authorized to lend available securities to approved broker-dealers and banks subject to the receipt of acceptable collateral.

MPERS may lend securities and receive cash, securities insured or guaranteed by the U.S. government or its agencies, and irrevocable bank letters of credit as collateral. MPERS cannot pledge or sell non-cash collateral unless a borrower defaults. Borrowers are required to deliver collateral for each loan equal to: 1) 102% of the fair value of the loaned securities plus any accrued interest in the case of loaned securities denominated in United States dollars or whose primary trading market is located in the United States, and 2) 105% of the fair value of the loaned securities plus any accrued interest in the case of loaned securities not denominated in United States dollars or whose primary trading market was not located in the United States.

MPERS did not impose any restrictions during the fiscal year on the amount of the loans that the custodial bank made on its behalf. There were no known failures by any borrowers to return loaned securities or pay distributions thereon during the year.

MPERS and borrowers maintained the right to terminate all securities lending transactions on demand. At June 30, 2024, the cash collateral fund had a fair value of \$21,142,000.

At June 30, 2024 and June 30, 2023, MPERS had earned \$156,000 and \$196,000 respectively, on the securities lending program.

Component Units:

Information on the component units securities lending program is available within their individual financial statements.

Note 3 - Deposits and Investments (cont.)

D. Derivatives

Missouri State Employees' Retirement System:

While the Board has no formal policy specific to derivatives, Missouri State Employees' Retirement System (MOSERS), through its external investment managers, holds investments in futures contracts and swap contracts. MOSERS enters into these certain derivative instruments as investments primarily to enhance the performance and reduce the volatility of its portfolio. It enters swaps and futures contracts to gain or hedge exposure to certain markets and to manage interest rate risk. For the year ended June 30, 2024, the change in fair value of the swap contracts resulted in a gain of \$267.0 million of investment income. The change in fair value in the futures contracts resulted in a loss of \$10.6 million of investment income. MOSERS does not anticipate additional significant market risk from the derivative arrangements. MOSERS could be exposed to risk if the counterparties to the contracts are unable to meet the terms of the contracts. MOSERS anticipates that the counterparties will be able to satisfy their obligations as credit evaluations and credit limits are monitored by the investment managers.

The following table (in thousands of dollars) summarizes the various contracts in MOSERS portfolio as of June 30, 2024. The investments are reported at fair value and are included on the Statement of Fiduciary Net Position of the pension (and other employee benefit) trust funds.

Futures Contracts:

Notional Amount	Exposure
\$(184,946)	\$4,907

Swap Contracts:

Notional Amount	Counterparty Exposure
\$3,298,495	\$81,715

Missouri Department of Transportation and Highway Patrol Employees' Retirement System:

MPERS has an investment policy which holds investments in future contracts, swap contracts, options contracts, and forward foreign currency exchange contracts. Derivative financial instruments involve credit risk and market risk. The notional value related to these derivative instruments are generally not recorded on the financial statements; however, the change in fair value of these instruments is incorporated in performance.

The following table (in thousands of dollars) summarizes the various contracts in MPERS portfolio as of June 30, 2024. The investments are reported at fair value and are included on the Statement of Fiduciary Net Position of the pension (and other employee benefit) trust funds.

Type	Notional/Fair Value	Unrealized Gain (Loss)
Futures Contracts	\$ 699,351	\$ 73,429
Swap Contracts	481,326	13,843
Total	\$ 1,180,677	\$ 87,272

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2024

Note 3 - Deposits and Investments (cont.)

Through the use of derivatives, MPERS is exposed to risk that the counterparties involved in the contracts are unable to meet the term of their obligation. MPERS investment managers seek to control this risk through counterparty credit evaluations and approvals, counterparty credit limits, and exposure monitoring procedures. MPERS anticipates the counterparties will be able to satisfy their obligations under the contracts. The counterparties' credit ratings for swaps are subject to credit risk as shown in the table below (in thousands of dollars).

<u>Quality Rating</u>	<u>Swaps</u>
A+	\$ 481,327
Total Subject to Credit Risk	\$ 481,327

Component Units:

Information on the component units derivatives is available within their individual financial statements.

E. Assets Held in Escheat

The Unclaimed Property Division of the Missouri State Treasurer's Office holds unclaimed stocks, bonds, mutual fund positions, and other securities that have been turned over by their holders on behalf of the securities' owners. The State takes custody of these securities until the owner claims them or if unclaimed, liquidates them after 18 to 24 months. The State holds the securities in order to return them to their owners. The State does not report these securities as investments because they do not meet the Governmental Accounting Standards Board's definition of "investments". This is because the State does not hold the securities for income or profit, nor do the securities have a present service capacity for the State. A total of \$20,997,000 of these unclaimed securities is shown as "Assets Held in Escheat" on the private-purpose trust funds combining statement of fiduciary net position in Unclaimed Property.

A. Budget Reserve Fund

The Budget Reserve Fund is established in Article IV, Section 27(a) of the Missouri Constitution. The Commissioner of Administration may transfer amounts from the Budget Reserve Fund to any other fund when necessary to meet the cash requirements of the State. However, the Budget Reserve Fund must be paid back with interest prior to May 16th of the fiscal year in which the transfer was made.

Budget stabilization expenditures may occur in a fiscal year in which the Governor reduces the expenditures of the State or any of its agencies below their appropriation or in which there is a budget need due to a natural disaster as proclaimed by the Governor to be an emergency. An appropriation from the Budget Reserve Fund may be granted by a two-thirds vote of the members elected to each House. The maximum amount which may be appropriated at any one time for budget stabilization purposes is one-half the sum of the balance of the Budget Reserve Fund and any amounts appropriated or otherwise owed to the fund, less all amounts owed to the fund for budget stabilization purposes but not yet appropriated for repayment to the fund. One-third of the amount expended or transferred from the Budget Reserve Fund for budget stabilization purposes plus interest shall stand appropriated to the Budget Reserve Fund during each of the next three fiscal years from the fund which received the budget stabilization appropriation. The balance of the Budget Reserve Fund at June 30, 2024, was \$908,158,000.

Note 6 - Obligations Under Right-to-Use Assets

Lease Agreements for Right-to-Use Assets excluding Software:

The State has entered into various agreements to lease land, buildings, equipment, infrastructure and temporary easements. GASB Statement No. 87, *Leases*, requires that the State, as a lessee, recognize a lease liability and an intangible right-to-use lease asset (lease asset). The lease liability and lease asset are recognized at the commencement date of the lease based on the estimated present value of lease payments over the lease term.

Lease liability for the internal service and enterprise funds are reported as a long-term obligation in those funds along with the related assets. Leases and the related assets are not reported on the fund financial statements of governmental type funds. However, the leases and related assets of governmental funds are included on the government-wide financial statements and they are shown on the reconciliation between fund financial statements and government-wide statements.

Following is a summary of future minimum payments due for leases (in thousands of dollars):

Fiscal Year Ended June 30	Governmental Activities		Business-Type Activities	
	Principal	Interest	Principal	Interest
2025	\$ 21,856	\$ 3,931	\$ 594	\$ 52
2026	20,394	3,214	469	35
2027	17,728	2,557	459	19
2028	11,660	2,045	229	7
2029	7,300	1,719	93	2
2030-2034	19,841	5,976	—	—
2035-2039	10,414	3,760	—	—
2040-2044	3,598	2,388	—	—
2045-2049	730	2,174	—	—
2050-2054	527	2,060	—	—
2055-2059	525	1,977	—	—
2060-2064	622	1,880	—	—
2065-2069	737	1,765	—	—
2070-2074	873	1,628	—	—
2075-2079	1,034	1,467	—	—
2080-2084	1,226	1,275	—	—
2085-2089	1,453	1,049	—	—
2090-2094	1,722	780	—	—
2095-2099	2,040	461	—	—
2100-2104	1,647	102	—	—
Total	<u>\$ 125,927</u>	<u>\$ 42,208</u>	<u>\$ 1,844</u>	<u>\$ 115</u>

Certain lease contracts include variable payments, residual value guarantees or termination penalties that are not known or certain to be exercised at the time of the calculation of the lease liability. These are recognized as expenses in the period they are incurred. For the fiscal year ended, June 30, 2024, there were no such variable payments excluded from the measurement of the lease liability. There were also no termination penalties or residual value guarantee payments expensed for the fiscal year ended, June 30, 2024.

Subscription Based Information Technology (SBITA) Agreements:

The State has entered into various agreements to subscription software. GASB Statement No. 96, *Subscription Based Internet Technology Agreements (SBITAs)*, requires that the State, as a subscriber, recognize a subscription liability and an intangible right-to-use subscription asset (right-to-use software). The subscription liability and subscription asset are recognized at the commencement date of the subscription based on the estimated present value of lease payments over the lease term.

Subscription liability for the internal service and enterprise funds are reported as a long-term obligation in those funds along with the related assets. Subscriptions and the related assets are not reported on the fund financial statements of governmental type funds. However, the subscriptions and related assets of governmental funds are included on the government-wide financial statements and they are shown on the reconciliation between fund financial statements and government-wide statements.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2024

Note 7 - Retirement Systems

The State has two major retirement systems which cover substantially all State employees. These systems are the Missouri State Employees' Retirement System (MOSERS) and the Missouri Department of Transportation and Highway Patrol Employees' Retirement System (MPERS). MOSERS is comprised of the Missouri State Employees' Plan (MSEP), a cost-sharing multiple-employer, defined benefit public employee retirement plan and the Judicial Plan, a single-employer defined benefit public employee retirement plan. MPERS is a single-employer defined benefit public employees' retirement plan.

Plan Descriptions

The Missouri State Employees' Plan (MSEP) is a cost-sharing multiple-employer, defined benefit public employee retirement plan administered by MOSERS. The Plan is administered in accordance with Sections 104.010 and 104.312-104.1215, RSMo.

The MSEP has three benefit structures known as MSEP (closed plan), MSEP 2000, and MSEP 2011. The MSEP covers all full-time employees hired before July 1, 2000, who are not covered under another state-sponsored retirement plan. MSEP 2000 covers all full-time employees hired on or after July 1, 2000 and before January 1, 2011. MSEP 2011 covers all full-time employees first hired on or after January 1, 2011. Members of the closed plan have the option at retirement to choose between the benefit structure of the MSEP or MSEP 2000.

The Judicial Plan is a single-employer, defined benefit public employee retirement plan administered by MOSERS. The Plan is administered in accordance with Sections 476.445 - 476.690, RSMo. The Judicial Plan covers eligible members appointed/elected before January 1, 2011. The Judicial Plan 2011 covers eligible members appointed/elected for the first time on or after January 1, 2011.

MOSERS provides retirement, survivor, and disability benefits to its members. General employees are fully vested after 5 years of creditable service if covered by the MSEP, MSEP 2000, and MSEP 2011 plans. Elected officials are fully vested after 4 years of creditable service and Members of the General Assembly are fully vested after 6 years of creditable service. The base retirement benefits are calculated by multiplying the employee's final average pay by a specific factor multiplied by the years of credited service. The retirement eligibility requirements are as follows for general employees:

MSEP

Age 65 with 5 years of service
Age 60 with 15 years of service
Age 48 with age and service equaling 80 or more (Rule of 80)
Employees may retire early at age 55 with at least 10 years of service with reduced benefits.
The base benefit in the general employee plan is equal to 1.6% multiplied by the final average pay multiplied by years of credited service.

MSEP 2000

Age 62 with 5 years of service
Age 48 with age and service equaling 80 or more (Rule of 80)
Employees may retire early at age 57 with at least 5 years of service with reduced benefits.
The base benefit in the general employee plan is equal to 1.7% multiplied by the final average pay multiplied by years of credited service.

Judicial Plan

Age 62 with 12 years of service
Age 60 with 15 years of service
Age 55 with 20 years of service
Employees may retire early at age 62 with less than 12 years of service or age 60 with less than 15 years of service with a reduced benefit that is based upon years of service relative to 12 or 15 years.
The base benefit for members with 12 or more years of service is equivalent to 50% of compensation on the highest court served.

Judicial Plan 2011

Age 67 with 12 years of service
Age 62 with 20 years of service
Employees may retire early at age 67 with less than 12 years of service with reduced benefits or age 62 with less than 20 years of service with a reduced benefit based on years of service.
The base benefit for members with 12 or more years of service is equivalent to 50% of compensation on the highest court served.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2024

Note 7 - Retirement Systems (cont.)

MSEP 2011

Age 67 with 5 years of service

Age 55 with age and service equaling 90
or more (Rule of 90)

Employees may retire early at age 62 with
at least 5 years of service with
reduced benefits.

The base benefit in the general employee
plan is equal to 1.7% multiplied by the
final average pay multiplied by years
of credited service.

For members hired prior to August 28, 1997, cost of living adjustments (COLAs) are provided annually based on 80% of the percentage increase in the average Consumer Price Index (CPI) from one year to the next, with a minimum rate of 4% and a maximum rate of 5%, until the cumulative amount of COLAs equals 65% of the original benefit, thereafter the 4% minimum rate is eliminated. For members hired on or after August 28, 1997, and members who have met their COLA cap receive COLAs annually based on 80% of the percentage increase in the average CPI from one year to the next, up to a maximum rate of 5%. Qualified, inactive-vested members of MSEP and the Judicial Plan may make a one-time election to receive the present value of their future benefit in a lump sum payment. To qualify, a member must have left state employment on or after October 1, 1984 and prior to September 1, 2002, have less than 10 years of service, not be within 5 years of retirement eligibility, meet age requirements, and have a benefit present value of less than \$10,000.

The Missouri Department of Transportation and Highway Patrol Employees' Retirement System (MPERS) is a single-employer, defined benefit public employee retirement plan administered in accordance with Sections 104.010-104.1093, RSMo.

MPERS is considered a single-employer plan because its membership is composed of qualified employees of the Missouri Department of Transportation, uniformed and non-uniformed members of the Missouri State Highway Patrol, and MPERS staff.

MPERS provides retirement, survivor, and disability benefits to its members. The MPERS has three benefit structures known as the Closed Plan, the Year 2000 Plan, and the Year 2000 Plan-2011 Tier. Generally, the Closed Plan covers employees hired before July 1, 2000. The Year 2000 Plan generally covers employees hired on or after July 1, 2000 and before January 1, 2011. The Year 2000 Plan-2011 Tier covers employees hired on or after January 1, 2011. Employees covered by the Closed Plan and the Year 2000 Plan are fully vested after 5 years of creditable service. Employees covered by the 2011 Tier are fully vested after 5 years of creditable service if they were active on or after January 1, 2018.

The retirement eligibility requirements are as follows:

Closed Plan

MoDOT and non-uniformed patrol members:

Age 65 and active with 4 or more years
of service

Age 65 with 5 or more years of service

Age 60 with 15 or more years of service

Age 48 with sum of age and service
equaling 80 or more (Rule of 80)

Uniformed patrol members:

Age 55 and active with 4 or more years
of service

Age 55 with 5 or more years of service

Age 48 with sum of age and service
equaling 80 or more (Rule of 80)

Mandatory retirement at age 60

All non-uniformed members may retire early, with reduced benefits, at age 55 with at least 10 years of service.

The base benefit in the Closed Plan is equal to 1.6% multiplied by the final average pay multiplied by years of creditable service for non-uniformed members. For members of the uniformed patrol, the base benefit is equal to 1.3333% multiplied by the final average pay multiplied by years of creditable service.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2024

Note 7 - Retirement Systems (cont.)

For members employed prior to August 28, 1997, cost of living adjustments (COLAs) are provided annually based on 80% of the increase in the Consumer Price Index for all urban consumers for the United States (CPI-U). The minimum rate is 4% and the maximum rate is 5%, until the cumulative amount of COLAs equals 65% of the original benefit. Thereafter, the 4% minimum rate is eliminated and the annual COLA rate will be equal to 80% of the increase in the CPI-U (annual maximum of 5%). For members employed on or after August 28, 1997, COLAs are provided annually based on 80% of the increase in the CPI-U, up to a maximum rate of 5%.

Year 2000 Plan

MoDOT and non-uniformed patrol members:

Age 62 with 5 or more years of service

Age 48 with sum of age and service

equaling 80 or more (Rule of 80)

Uniformed patrol members:

Age 48 with sum of age and service

equaling 80 or more (Rule of 80)

Mandatory retirement at age 60

All members may retire early with reduced benefits at age 57 with at least 5 years of service.

The base benefit in the Year 2000 Plan is equal to 1.7% multiplied by the final average pay multiplied by years of creditable service. Members retiring under the Rule of 80, and uniform patrol members retiring at the mandatory retirement age (currently 60), receive an additional temporary benefit until age 62. The temporary benefit is equivalent to 0.8% multiplied by final average pay multiplied by years of creditable service. COLAs are provided annually based on 80% of the change in the CPI-U, up to a maximum rate of 5%.

Year 2000 Plan-2011 Tier

MoDOT and non-uniformed patrol members:

Age 67 with 5 or more years of service

Age 55 and active with sum of age and service

equaling 90 or more (Rule of 90)

Uniformed patrol members:

Age 55 and active with 5 or more years of service

Mandatory retirement at age 60 with no minimum service amount, active only.

Active MoDOT and non-uniformed patrol members may retire early with reduced benefits at age 62 with at least 5 years of service. Terminated and vested uniformed patrol members may retire at age 67 with 5 or more years of service.

The base benefit in the 2011 Tier is equal to 1.7% multiplied by the final average pay multiplied by years of creditable service. Members retiring under the Rule of 90, and uniform patrol members retiring at the mandatory retirement age (currently 60) or at age 55 with 5 years of creditable service, receive an additional temporary benefit until age 62. The temporary benefit is equivalent to 0.8% multiplied by final average pay multiplied by years of creditable service. COLAs are provided annually based on 80% of the change in the CPI-U, up to a maximum rate of 5%.

Single-Employer Plans:

Employees Covered by Benefit Terms – Single-Employers Only

As of June 30, 2023 valuation, membership consisted of the following:

	<u>Judicial Plan</u>	<u>MPERS</u>
Retirees, beneficiaries, and the disabled currently receiving benefits	619	9,604
Terminated employees entitled to, but not yet receiving benefits	32	2,239
Active		
Vested	415	4,704

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2024

Note 7 - Retirement Systems (cont.)

Contributions

Per Chapter 104.436, RSMo, contribution requirements of the active employees and the participating employers are established and may be amended by the MOSERS Board. Employees in the MSEP 2011 Plan are required to contribute 4.00% of their annual pay. The State's required contribution rates for the MSEP and the Judicial Plan for the year ended June 30, 2023, were 26.33% and 60.17% of annual payroll, respectively. The contribution rates as a percentage of covered payroll for the MSEP and the Judicial Plan for the year ended June 30, 2023, were 26.33% and 60.17%, respectively. Contributions to the pension plan through the MSEP and the Judicial Plan were \$490,306,000 and \$39,065,000 respectively, for the year ended June 30, 2023.

Per Chapter 104.070, RSMo, contribution requirements of the active employees and the participating employers are established and may be amended by the MPERS Board of Trustees. Beginning January 1, 2011, employee contributions of 4.00% of gross pay are required for those covered by the Year 2000 Plan-2011 Tier. Employer contributions are determined through annual actuarial valuations. Administrative expenses are financed through contributions from participating employers and investment earnings. The State's required contribution rate, as adopted by the MPERS Board of Trustees, for the year ended June 30, 2023, was to be at least 58.00%. The contribution rate as a percentage of covered payroll for the MPERS plan year ended June 30, 2023, was 58.00%. Contributions to the pension plan from the MPERS plan were \$232,814,000.

For the portion of the MSEP Plan relating to the State's component units, the required contribution rate for the year ended June 30, 2023, was 26.33%. The contribution rates as a percentage of covered payroll for the year ended June 30, 2023, was 26.33%. Contributions to the pension plan were \$87,108,000 for the year ended June 30, 2023.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources

Cost-Sharing Multiple Employer Plan:

At June 30, 2024, a liability was reported for the State's proportionate share of the net pension liability for the MSEP and the MSEP-CU plans based on an actuarial valuation as of June 30, 2023. The State's proportionate share of the net pension liability was based on the State's actual share of contributions to the pension plan relative to the actual contributions of all participating employers for plan year ended June 30, 2023.

The State reported the following proportionate share of the net pension liability and the pension expense for the fiscal year ended June 30, 2024 (in thousands of dollars):

	<u>MSEP</u>	<u>MSEP-CU</u>
Pension Expense	\$ 623,296	\$ 77,437
Proportionate share:		
2024	84.53 %	15.02 %
Net Pension Liability	\$6,452,562	\$1,146,363

For the year ended June 30, 2024, the Judicial Plan and MPERS recognized pension expense of \$40,384,000 and \$176,901,000, respectively.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2024

Note 7 - Retirement Systems (cont.)

At June 30, 2024, deferred outflows of resources and deferred inflows of resources related to pensions were reported from the following sources (in thousands of dollars):

	Deferred Outflows of Resources				Deferred Inflows of Resources			
	MSEP	Judicial	MPERS	MSEP-CU	MSEP	Judicial	MPERS	MSEP-CU
Difference between expected and actual experience	\$ 302,328	\$10,735	\$165,912	\$ 53,712	\$ —	\$ 7,359	\$ 7,308	\$ —
Changes of assumptions	—	255	95,516	—	—	1,357	—	—
Net difference between projected and actual earnings on pension plan investments	530,916	14,831	—	94,323	—	—	190,122	—
Changes in proportion and differences between plan contributions and proportionate share of contributions	35,321	—	—	7,935	7,927	—	—	38,296
Contributions subsequent to the measurement date	569,754	40,751	254,358	96,679	—	—	—	—
Total	\$1,438,319	\$66,572	\$515,786	\$252,649	\$7,927	\$ 8,716	\$197,430	\$38,296

Amount reported as deferred outflows of resources related to pensions resulting from contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability for the measurement period of the year ended June 30, 2023. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows (in thousands of dollars):

Fiscal Year Ended June 30	Net Deferred Outflows/Inflows of Resources			
	MSEP	Judicial	MPERS	MSEP-CU
2025	\$ 314,076	\$ 575	\$ 46,860	\$ 34,351
2026	163,986	2,755	(30,271)	15,354
2027	314,920	11,120	60,814	55,949
2028	67,656	2,655	(13,405)	12,020
Totals	\$ 860,638	\$ 17,105	\$ 63,998	\$ 117,674

Actuarial Assumptions

The total pension liability at June 30, 2024, is based upon the June 30, 2023, actuarial valuation for MOSERS and MPERS using the entry age normal actuarial cost method. Significant actuarial assumptions used in the June 30, 2023, actuarial valuations are the following:

	MSEP and MSEP-CU	Judicial	MPERS
Price Inflation	2.25 %	2.25 %	2.25 %
Salary Increases	2.75 - 10.00%	3.00 %	3.00%-10.50%
Investment Rate of Return	6.95 %	6.95 %	6.50 %

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2024

Note 7 - Retirement Systems (cont.)

The actuarial assumptions used in the June 30, 2023, valuation were based on the results of an actuarial experience study covering the five-year period ended June 30, 2022, performed in 2023, for MOSERS. Changes in assumptions since the prior year were: subsequent changes in the unfunded actuarial accrued liability due to actuarial gains/losses or assumption changes are now amortized over a closed 25 year period, instead of 30 years; the mortality assumptions are now based on generational tables; the merit component of the salary increase assumption was adjusted to partially reflect observed experience. For the MSEP and Judicial Plan, the pre-retirement mortality rates were based on the Pub-2010 General Members Below Median Employee mortality table; the post-retirement mortality rates for retirees were based on the Pub-2010 General Members Below Median Healthy Retiree mortality table, scaled by 104% for MSEP; the post-retirement mortality rates for beneficiaries were based on the Pub-2010 General Members Median Contingent Survivor mortality table; mortality was projected generationally from 2010 to 2020 using Scale MP-2020 and 75% of Scale MP-2020 for years after 2020, all tables were set back 2 years for males and set forward 1 year for females for MSEP.

Amounts reported in the June 30, 2023, actuarial report are assumptions reflecting adjustments to expected rates of withdrawal, disability, normal and early retirement, mortality, and merit and seniority pay for MPERS. The actuarial assumptions were based on the results of an actuarial experience study for the period July 1, 2012, through June 30, 2017. Mortality rates, for post-retirement mortality, used in evaluating allowances to be paid to non-disabled pensioners were the RP-2014 Healthy Mortality Tables projected to 2022 using projection scale MP-2017. The pre-retirement mortality used were the RP-2014 Employee Mortality Table projected to 2022 using projection scale MP-2017 and multiplied by a factor of 65%. Disabled pension mortality was based on RP-2014 Disabled Retiree Annuitant Mortality Tables projected to 2022 using projection scale MP-2017.

The long-term (30 year) expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of the real rates of return for the MSEP and Judicial Plan and arithmetic real rates of return for MPERS for each major asset class included in the target allocation are summarized in the table below:

Target Asset Allocation

Asset Class	MSEP and MSEP-CU		Judicial		MPERS	
	Target Allocation	Long-Term Expected Real Rate of Return	Target Allocation	Long-Term Expected Real Rate of Return	Target Allocation	Long-Term Expected Real Rate of Return
Global Equity	30.0%	5.8%	30.0%	5.8%	40.0%	3.0%
Private Equity	15.0%	7.4%	15.0%	7.4%	10.0%	6.4%
Fixed Income					22.5%	2.0%
Real Assets					10.0%	3.6%
Real Estate					10.0%	2.6%
Hedge Funds	5.0%	2.9%	5.0%	2.9%		
Opportunistic Debt					7.5%	5.9%

	<u>100.0%</u>		<u>100.0%</u>		<u>100.0%</u>	

**Cash and cash equivalents policy allocation amounts are negative due to use of leverage.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2024

Note 7 - Retirement Systems (cont.)

Discount Rate

A single discount rate based on the expected rate of return on pension investments of 6.95%, 6.95%, and 6.50% was used to measure the total pension liability for MSEP, Judicial Plan, and MPERS, respectively. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate for MPERS. The projection of cash flows used to determine the discount rate assumed that contributions will be made using actuarial determined rates from participating employers for MOSERS. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of the current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Net Pension Liability to Changes in the Discount Rate

Regarding the sensitivity of the net pension liability to changes in the single discount rate, the following presents the plan's net pension liability, calculated using a single discount rate, as well as, what the plan's net pension liability would be if it were calculated using a single discount rate that is 1-percentage-point lower or 1-percentage-point higher (in thousands of dollars):

	1% Decrease	Current Single Discount Rate Assumption	1% Increase
	5.95%	6.95%	7.95%
MSEP Net Pension Liability	\$8,043,437	\$6,452,562	\$5,123,622
	5.95%	6.95%	7.95%
Judicial Plan Net Pension Liability	\$527,861	\$464,016	\$409,271
	5.50%	6.50%	7.50%
MPERS Net Pension Liability	\$2,009,048	\$1,427,764	\$947,694
	5.95%	6.95%	7.95%
MSEP-CU Net Pension Liability	\$1,428,998	\$1,146,363	\$910,263

Payables to the Pension Plan

As of June 30, 2024, the State had payables of \$26,244,000 to MOSERS for the outstanding amount of contributions to the pension plan, relating to a two week lag in payroll.

Pension Plan Fiduciary Net Position

Detailed information about the pension plan's fiduciary net position is available in the separate financial reports issued by MOSERS and MPERS:

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2024

Note 7 - Retirement Systems (cont.)

University of Missouri Retirement System

Plan Description

The University of Missouri Retirement, Disability, and Death Benefit Plan is a single-employer defined benefit plan for all qualified employees. As authorized by Section 172.300, RSMo, the University's Board of Curators administers the Retirement Plan and establishes its terms.

Full-time employees vest in the Retirement Plan after five years of credited service and become eligible for benefits based on age and years of service. A vested employee who retires at age 65 or older is eligible for a lifetime annuity calculated at a certain rate times the credited service years times the compensation base (average consumption for the five highest consecutive salary years). The rate is 2.2% if the employee was hired before October 1, 2012, or 1.0% if the employee was hired after September 30, 2012. Academic members who provide summer teaching and research service receive additional summer service credit. The Board of Curators may periodically approve increases to the benefits paid to existing pensioners. However, vested members who leave the University prior to eligibility for retirement are not eligible for these pension increases. Vested employees who are at least age 55 and have ten years or more of credited service, or age 60 with at least five years of credited service may choose early retirement with a reduced benefit. However, if the employee retires at age 62 and has at least 25 years of credited service, the benefit is not reduced. Up to 30% of the retirement annuity can be taken in a lump sum payment. In addition, the standard annuity can be exchanged for an actuarially-equivalent annuity selected from an array of options with joint and survivor, period certain, and guaranteed annual increase features.

As of June 30, 2024, membership consisted of the following:

Active members	10,442
Inactive vested members	6,671
Pensioners and beneficiaries	12,027
Total Membership	<u>29,140</u>

The University closed the defined benefit plan to new entrants as of October 1, 2019. Employees starting on or after that date, are enrolled in a defined contribution plan. Vested defined benefit employees that are rehired on or after October 1, 2019, no longer receive creditable service credit within the defined benefit plan.

Contributions

The University's contributions to the Retirement Plan are equal to the actuarially determined contribution requirement (ADC). The ADC for those employees hired before October 1, 2012, averaged 17.3% of covered payroll for the year ending June 30, 2024. The ADC for those employees hired after September 30, 2012, averaged 13.8% of covered payroll for the year ended June 30, 2024. Employees are required to contribute 1% of their salary up to \$50,000 in a calendar year and 2% of their salary in excess of \$50,000. An actuarial valuation of the Plan is performed annually and the University's contribution rate is updated on July 1, to reflect the actuarially determined funding requirement from the most recent valuation, as of the preceding October 1. This actuarial valuation reflects the adoption of any Retirement Plan amendments during the previous fiscal year. The University contributed \$162,134,000 during the fiscal year ended June 30, 2024.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2024

Note 7 - Retirement Systems (cont.)

Employees hired after September 30, 2012, participate in a single employer, defined contribution plan. Each year the University contributes 2% of each employee's eligible salary to a 401(a) plan. Employees are able to contribute to a 457(b) and 403(b) plan. The University will match up to 3% of the employee's contribution to the 457(b) plan with the University's match funds going into the 401(a) plan. Employees in the defined contribution plans are immediately 100% vested in their contributions. Employees hired or rehired beginning October 1, 2019, will participate in a single employer, defined contribution plan. Employees will be automatically enrolled in the plan to contribute 8% of eligible salary into a 457(b) plan. Each year the University will match up to 8% of each employer's eligible salary to a 401(a) plan. The University's matching contributions vest following three years of consecutive or nonconsecutive service. The defined contribution plan recognized \$62,649,000 of pension expense net of \$7,205,000 of forfeitures for the year ended June 30, 2024.

Net Pension Liability

The Retirement Plan's net pension liability was measured as of June 30, 2024. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of October 1, 2023. Roll-forward procedures were used to measure the Retirement Plan's total pension liability as of June 30, 2024. For the year ended June 30, 2024, fiduciary net position as a percentage of the total pension liability amounted to 80.26%.

Changes in net pension liability (in thousands of dollars):

	Total Pension Liability (TPL) (a)	Fiduciary Net Pension (FNP) (b)	Net Pension Liability (NPL) (a) - (b)
Balances at June 30, 2023	\$ 5,532,078	\$ 4,277,264	\$ 1,254,814
Changes for the year:			
Service Cost	54,490	—	54,490
Interest	377,760	—	377,760
Differences between expected and actual experience	75,497	—	75,497
Contributions – Employer	—	162,134	(162,134)
Contributions – Employee	—	13,993	(13,993)

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2024

Note 7 - Retirement Systems (cont.)

Pension Expense

Annual pension expense consists of service cost and interest on the pension liability less employee contributions and projected earnings on pension plan investments. The difference between actual and expected earnings is recorded as a deferred outflow/inflow of resources and recognized in pension expense over a five year period.

For the year ended June 30, 2024, the Retirement Plan recognized pension expense of \$232,281,000. At June 30, 2024, deferred outflows of resources and deferred inflows of resources related to pensions were reported from the following sources (in thousands of dollars):

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual experience	\$ 117,409	\$ 2,282
Changes in assumptions	56,146	—
Net difference between projected and actual earnings on pension plan investments	—	40,996
Total	<u>\$ 173,555</u>	<u>\$ 43,278</u>

The University recognizes differences between actual and expected investment performance included in deferred outflows/inflows of resources on a straight-line basis over five years. Differences between expected and actual experience on actuarial assumptions are amortized over the average expected remaining service life of the University's employees. The following table summarizes the future recognition of these items:

Fiscal Year Ended June	Net Deferred Outflows/Inflows of Resources
	Recognition
2025	\$ 49,262
2026	114,398
2027	413
2028	(33,796)
Totals	<u>\$ 130,277</u>

Actuarial Assumptions

The October 1, 2023, actuarial valuation utilized the entry age actuarial cost method. The discount rate used to measure the total pension liability was 7.00%. Actuarial assumptions included:

Inflation	2.20 %
Salary Increases	3.4 - 4.0%
Investment Rate of Return	7.00 %

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2024

Note 7 - Retirement Systems (cont.)

For purposes of determining actuarially required contributions, the actuarial value of assets was determined using techniques that spread effects of short-term volatility in the market value of investments over a five-year period. Starting with the October 1, 2021, valuation the underfunded actuarial accrued liability is being amortized using a method that separately amortizes the initial unfunded liability as of October 1, 2021 over 20 years, the impact of the assumption changes over 20 years, and future experience gains and losses over 25 years and 15 years, respectively. The mortality rates were based on Pub-2010 Teacher Healthy Annuitant Mortality Table with generational projection using scale MP-2020 for academic and administrative members and Pub-2010 General Healthy Annuitant Mortality Table with generational projection using scale MP-2020 for clerical and service members.

The actuarial assumptions used in the October 1, 2023, valuation were based on the results of the most recent quinquennial study of the University's own experience covering 2016 to 2020.

The annual money-weighted rate of return is calculated as the internal rate of return on pension investments, net of pension plan investment expense. The money-weighted rate of return expresses investment performance, net of pension plan investment expense, adjusted for the changing amounts actually invested. The annual money-weighted rate of return on pension plan investments for the year ended June 30, 2024, was 11.2%. The following table provides long-term expected rates of real return:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Public equity	34.0 %	4.4 %
Private equity	13.0 %	6.5 %
Sovereign bonds	8.0 %	2.3 %
Inflation linked bonds	9.0 %	2.2 %
Private debt	6.0 %	6.9 %
Risk balanced	12.0 %	4.7 %
Commodities	5.0 %	4.1 %
Real estate	13.0 %	6.3 %
	<u>100.0 %</u>	

Discount Rate

The discount rate used to measure the total pension liability was 7.00%. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current contribution rate and that the University contributions will be made at rates equal to the difference between actuarially determined contribution rates and the employee rate. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2024

Note 7 - Retirement Systems (cont.)

Sensitivity of the Net Pension Liability to Changes in the Discount Rate

Regarding the sensitivity of the net pension liability to changes in the single discount rate, the following presents the plan's net pension liability, calculated using a single discount rate, as well as, what the plan's net pension liability would be if it were calculated using a single discount rate that is 1-percentage-point lower or 1-percentage-point higher (in thousands of dollars):

	1% Decrease	Current Single Discount Rate Assumption	1% Increase
	6.00%	7.00%	8.00%
MU Net Pension Liability	\$1,838,358	\$1,115,200	\$516,776

Separate financial statements are not prepared for the Plan.

Detailed information concerning the Plan is presented in the University's 2024 financial report, which is publicly available. Copies of this report may be requested from:

Note 8 - Other Postemployment Benefits

In addition to the retirement benefits described in Note 7, the State provides postemployment health care and life insurance benefits, in accordance with State statutes, to the majority of employees who either retire from the State or receive long-term disability benefits. These benefits are administered by the Missouri Consolidated Health Care Plan (MCHCP), the Missouri State Employees' Retirement System (MOSERS), the Missouri Department of Transportation and Highway Patrol Employees' Medical and Life Insurance Plan (MHPML), and the Conservation Employees' Insurance Plan (CEIP). MCHCP is a cost-sharing multiple-employer, defined benefit other postemployment benefits plan, MOSERS is an insured, defined benefit insurance plan, and MHPML and CEIP are single-employer defined benefit public employees' other postemployment benefits plans.

Plan Descriptions

Missouri Consolidated Health Care Plan (MCHCP) operates a cost-sharing multiple-employer, defined benefit Other Postemployment Benefits Plan (OPEB), of the State Retiree Welfare Benefit Trust (SRWBT). Employees may participate at retirement, if eligible, to receive a monthly retirement benefit from either the Missouri Employees' Retirement System (MOSERS) or another retirement system whose members are grandfathered for coverage under the MCHCP by law. The terms and conditions governing postemployment benefits, are vested with the MCHCP Board of Trustees within the authority granted under sections 103.003 - 103.178, RSMo. MCHCP provides medical, dental, and vision benefits, and the Strive Employee Life & Family program for the exclusive benefit of current and future retired employees of the state and their dependents who meet eligibility requirements, except those retired members covered by other OPEB plans of the state. Covered categories include active employees, participants and spouses in payment status, participants with a deferred benefit, and disabled participants.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2024

Note 8 - Other Postemployment Benefits (cont.)

The Missouri Department of Transportation and Highway Patrol Employees' Medical and Life Insurance Plan (MHPML) is a single-employer, defined benefit OPEB plan administered in accordance with Section 104.270, RSMo. MHPML is not a separate legal entity and is self insured. The plan does not maintain assets in a trust and pays expenses on a pay-as-you-go basis. The plan assets are neither legally protected from creditors nor are they dedicated to providing OPEB benefits. The State has no legal obligation to pay the benefits. MHPML provides healthcare insurance benefits to employees who retired from the Department who participated in the Medical and Life Insurance Plan when they were an active employee and had a minimum of five years creditable service. Coverage categories include retirees, certain disabled employees, spouses, certain dependents and survivors of deceased employees and retirees. At July 1, 2023, the number of participants covered by the plan included 6,245 retirees or beneficiaries currently receiving benefits, 37 retirees entitled to but not yet receiving benefits, and 6,669 active employees.

The Conservation Employees' Benefits Plan (CEIP) is a single-employer defined benefit OPEB plan administered by the Conservation Employees' Benefits Plan Board of Trustees in accordance with Article IV, Section 42 of the Missouri Constitution. No assets are accumulated in a trust that meets the criteria in paragraph 4 of GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*. The benefit plan for the Department of Conservation is not irrevocable.

CEIP provides for the continuation of medical insurance benefits for retirees and their dependents. Coverage categories include active employees, retirees and surviving spouses, and spouses of current retirees. At June 30, 2023, 1,395 active employees, 924 retirees and surviving spouses, and 375 spouses of current employees were participating in the plan.

Contributions

Contributions are established and may be amended by the MCHCP Board of Trustees with the authority granted under sections 103.003 - 103.178, RSMo. Contributions to MCHCP by the State are not legally or contractually required. For the fiscal year end June 30, 2023, employers contributed on average 4.05% of active employee covered payroll. Retiree contribution rates are established based on projected claims experience and funding provided by employer contributions. Contributions to the OPEB plan for MCHCP and MCHCP-CU was \$74,428,000 and \$30,000, respectively for the year ended June 30, 2024.

The contribution requirements for MHPML are recommended by the Medical and Life Insurance Plan's Board of Trustees and are approved by the Missouri Highways and Transportation Commission. The Commission contributes a percentage of medical premiums for retirees. For those who retired on or prior to January 1, 2015, an amount ranging from 40.0% to 57.0% of the premium is contributed, dependent on the level of coverage. Medical premiums, for employees who retire on or after January 1, 2015, are based on total years of service, with the Commission contributing 2.0% per year of service, not to exceed 50.0% of the total premium, with the retiree responsible for the remaining balance of the premiums. Benefit projections for financial reporting purposes are based on the benefits provided under the terms of the substantive plan in effect at the time of each valuation and the historical pattern of cost sharing between employer and the plan members to that point. Contributions to the Plan for the year ended June 30, 2024, was \$23,742,000.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2024

Note 8 - Other Postemployment Benefits (cont.)

The contribution requirements for CEIP are established by a trust agreement between the Conservation Commission and the Conservation Employees' Benefits Plan Board of Trustees, which grants the authority to establish and amend benefit terms and financing requirements to the Board of Trustees. The Commission contribution toward retiree medical premium is based on tenure or years of service with the State. At the time of retirement, employees who have 25+ years of service receive a 65% contribution, 20-24 years of service receive a 60% contribution, 15-19 years of service receive a 55% contribution, vested status up to 14 years of service receive a 50% contribution, and employees who retired prior to January 1, 2013, continue to receive a 65% contribution towards their premium. Benefit projections for financial reporting purposes are based on an established policy of the retiree's paying the premium amount less any direct subsidy paid by the Commission based on years of service and date of retirement. Contributions to the Plan for the fiscal year ended June 30, 2024, was \$4,442,000.

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources

Cost-Sharing Multiple Employer Plan:

At June 30, 2024, a liability was reported for the State's proportionate share of the collective net OPEB liability for the MCHCP and the MCHCP-CU plans based on an actuarial valuation as of June 30, 2023. The State's proportionate share of the collective net OPEB liability was calculated by dividing the State's contribution to the SRWBT by the total contributions from all applicable employers during the measurement period. From the previous valuation, the discount rate remained the same at 5.50%.

The State reported the following proportionate share of the collective net OPEB liability and the OPEB expense for the fiscal year ended June 30, 2024, was as follows (in thousands of dollars):

	<u>MCHCP</u>	<u>MCHCP-CU</u>
OPEB Expense	\$ 44,023	\$ (3)
Proportionate share:	99.46 %	0.04 %
Net OPEB Liability	\$1,433,346	\$ 585

Single-Employer Plans:

The State's total OPEB liability and related information for the MHPML and CEIP plans for the fiscal year ended June 30, 2024, were as follows (in thousands of dollars):

	<u>MHPML</u>	<u>CEIP</u>
	<u>Total OPEB Liability</u>	<u>Total OPEB Liability</u>
Balances at June 30, 2023	\$ 1,106,397	\$ 128,472
Changes for the year:		
Service Cost	29,100	1,678
Interest	39,780	4,670
Differences between expected and actual experience	(18,242)	—
Effect of economic/demographic gains or losses	—	(31,542)
Changes of assumptions or other inputs	(556,629)	(6,637)
Effect of Plan Changes	—	52,929
Benefit payments	(23,742)	(4,442)
Net Changes	(529,733)	16,656
Balances at June 30, 2024	<u>\$ 576,664</u>	<u>\$ 145,128</u>

For the year ended June 30, 2024, the MHPML and CEIP recognized OPEB expense of (\$80,124,000) and \$47,112,000, respectively.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2024

Note 8 - Other Postemployment Benefits (cont.)

At June 30, 2024, deferred outflows of resources and deferred inflows of resources related to OPEBs were reported from the following sources (in thousands of dollars):

	Deferred Outflows of Resources				Deferred Inflows of Resources			
	MCHCP	MHPML	CEIP	MCHCP -CU	MCHCP	MHPML	CEIP	MCHCP -CU
Difference between expected and actual experience	\$ 67,297	\$ 130	\$ —	\$ 27	\$ (10,582)	\$ (44,002)	\$ (33,615)	\$ (4)
Changes of assumptions	—	86,486	6,144	—	(439,706)	(682,843)	(19,811)	(180)
Net difference between projected and actual earnings on plan investments	9,127	—	—	4	—	—	—	—
Changes in proportion and differences between employer contributions and proportionate share of contributions	965	—	—	148	(2,679)	—	—	(242)
Contributions subsequent to the measurement date	73,553	25,121	—	26	—	—	—	—
Total	\$150,942	\$111,737	\$ 6,144	\$ 205	\$(452,967)	\$(726,845)	\$(53,426)	\$ (426)

Amount reported as deferred outflows of resources related to OPEB resulting from contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability for the measurement period of the year ended June 30, 2024. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows (in thousands of dollars):

Fiscal Year Ended June 30	Net Deferred Outflows/Inflows of Resources			
	MCHCP	MHPML	CEIP	MCHCP-CU
2025	\$ (68,720)	\$ (137,812)	\$ (13,169)	\$ (49)
2026	(69,499)	(120,218)	(12,597)	(50)
2027	(67,060)	(152,944)	(9,733)	(47)
2028	(66,297)	(144,053)	(6,325)	(43)
2029	(60,641)	(85,202)	(5,458)	(32)
Thereafter	(43,361)	—	—	(26)
Totals	\$ (375,578)	\$ (640,229)	\$ (47,282)	\$ (247)

STATE OF MISSOURI

Note 8 - Other Postemployment Benefits (cont.)

Actuarial Assumptions

The total OPEB liability at June 30, 2024, is based upon the the July 1, 2023, actuarial valuation date for MCHCP and MHPML, and the June 30, 2023 actuarial valuation date for CEIP, using the entry age normal actuarial cost method. Significant actuarial assumptions used in the actuarial valuations are the following:

	MCHCP and MCHCP-CU
Price Inflation	3.00%
Salary Increases	4.00%
Investment Rate of Return	5.50%
Healthcare Cost Trend Rate	Non-Medicare, Medical and Prescription Drug is 6.68% for fiscal year 2024, 6.59% for fiscal year 2025, 6.29% for fiscal year 2026, 5.99% for fiscal year 2027, 5.69% for fiscal year 2028, 5.38% for fiscal year 2029, 5.16% for fiscal year 2030, 5.02% for fiscal year 2031, 4.88% for fiscal year 2032, 4.73% for fiscal year 2033, 4.58% for for fiscal year 2034, and 4.50% for fiscal year 2035 and after. Medicare, Medical and Prescription Drug is 11.79% for fiscal year 2024, 12.54% for fiscal year 2025, 11.38% for fiscal year 2026, 9.06% for fiscal year 2027, 7.19% for fiscal year 2028, 6.75% for fiscal year 2029, 6.33% for fiscal year 2030, 5.93% for fiscal year 2031, 5.52% for fiscal year 2032, 5.11% for fiscal year 2033, 4.70% for fiscal year 2034, and 4.50% for fiscal year 2035 and after. Administrative Expenses: 5.50%, 3.00% (ultimate)
	MHPML
Price Inflation	2.00%
Salary Increases	3.00%
Investment Rate of Return	3.65%
Healthcare Cost Trend Rate	7.50% for 2023 decreasing to 4.50% for 2033 and later years
	CEIP
Price Inflation	2.30%
Salary Increases	4.00%
Investment Rate of Return	3.93%
Healthcare Cost Trend Rate	Pre-65 rate of 6.90% for 2023, gradually decreasing to an ultimate rate of 3.70% for 2073 and beyond. Post-65 trend rate of 7.30% for 2023, gradually decreasing to an ultimate rate of 3.70% for 2073 and beyond.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2024

Note 8 - Other Postemployment Benefits (cont.)

MCHCP's actuarial assumptions used in the June 30, 2023, valuation for SRWBT involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. The valuation to determine MCHCP's total OPEB liability is required to be performed at least every two years, but is performed annually. Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of the valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short term volatility in actuarial liabilities and the actuarial value of assets, consistent with the long term perspective of the calculations. The collective total OPEB liability for June 30, 2023 measurement date was determined by an actuarial valuation as of July 1, 2023. The cost method utilized for the valuation year June 30, 2023, was the entry age normal, level percentage of payroll. Mortality rates for Pre-Retirement were based on Pri-2012 Employee Amount-weighted Mortality Table projected generationally using MP-2021. Mortality rates for Annuitant were based on Pri-2012 Retiree Amount-weighted Mortality Table projected generationally using MP-2021. The last experience study was conducted in 2020.

MHPML's actuarial assumptions used in the June 30, 2023, valuation were determined using a measurement date of July 1, 2023. The inflation rate was based on the actuary's estimate of inflation as of July 1, 2023. The salary increases were based on projected salaries, which include COLA's. The discount rate was based on Bond Buyer General Obligation 20-Bond Municipal Bond Index. Mortality rates were based on Pub-2010 Public Retirement Plans Safety Employees Mortality Table weighted by Headcount project by MP-2021 for July 1 2023. The actuarial assumptions used in the July 1, 2023, valuation were based on the results of an actuarial experience study for the period July 1, 2017, through June 30, 2022. From the previous valuation, the discount rate changed from 3.54% to 3.65%.

CEIP's actuarial assumptions used in the June 30, 2023 valuation were determined using a measurement date of June 30, 2024. The discount rate was based on the 20-year Bond General Obligation Index. Mortality rates were based on Pub-2010 Mortality for General Employees, Healthy Annuitants and Contingent Survivors, with generational projection per Scale MP-2021. The plan has not had a formal actuarial experience study performed. From the previous valuation, the discount rate changed from 3.65% to 3.93%.

For MCHCP, the long-term expected rate of return on OPEB plan investments was determined using a building block method in which best estimate ranges of expected future rates of return (expected returns, net of investment expense and inflation) are developed for each major asset class. These returns are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation and subtracting expected investment expenses and a risk margin. The target allocation and projected arithmetic nominal rates of return for each major asset class, after deducting inflation, but before investment expenses, used in the derivation of the long-term expected investment rate of return assumption are summarized in the following table:

Asset Class	MCHCP and MCHCP-CU	
	Target Allocation	Expected Real Return
Domestic Large Cap Equity	17.0%	5.9%
Domestic Mid Cap Equity	4.0%	5.9%
Domestic Small Cap Equity	6.0%	5.6%
Global Equity	5.0%	9.4%
Domestic Fixed Income	67.0%	4.2%
Cash Equivalents	1.0%	3.5%
	<u>100.0%</u>	

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2024

Note 8 - Other Postemployment Benefits (cont.)

Discount Rate

A single discount rate based on the expected rate of return on OPEB investments of 5.50%, 3.65%, and 3.93% was used to measure the total OPEB liability for MCHCP, MHPML, and CEIP, respectively. For MCHCP, the OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on OPEB plan investment was applied to all periods of projected benefit payments to determine the total OPEB liability.

Sensitivity of the Net OPEB Liability to Changes in the Discount Rate

Regarding the sensitivity of the net OPEB liability for MCHCP and total OPEB liability for MHPML and CEIP, to changes in the single discount rate, the following presents the State's liability, calculated using a single discount rate, as well as, what the plan's liability would be if it were calculated using a single discount rate that is 1-percentage-point lower or 1-percentage-point higher (in thousands of dollars):

	1% Decrease	Current Single Discount Rate Assumption	1% Increase
MCHCP Net OPEB Liability	4.50% \$1,681,302	5.50% \$1,433,346	6.50% \$1,233,164
MHPML Total OPEB Liability	2.65% \$655,342	3.65% \$576,664	4.65% \$512,404
CEIP Total OPEB Liability	2.93% \$171,032	3.93% \$145,128	4.93% \$124,661
MCHCP-CU Net OPEB Liability	4.50% \$686	5.50% \$585	6.50% \$503

Sensitivity of the Net OPEB Liability to Changes in the Healthcare Cost Trend Rates

Regarding the sensitivity of the net OPEB liability for MCHCP and the total OPEB liability for MHPML and CEIP, to changes in healthcare cost trend rates, the following presents the plan's liability, calculated using healthcare cost trend rates, as well as, what the plan's net OPEB liability would be if it were calculated using healthcare cost trend rates that are 1-percentage-point lower or 1-percentage-point higher (in thousands of dollars):

	1% Decrease	Current Health Care Cost Trend Rates	1% Increase
MCHCP Net OPEB Liability	\$1,223,122	\$1,433,346	\$1,696,582
MHPML Total OPEB Liability	\$503,236	\$576,664	\$668,058
CEIP Total OPEB Liability	\$123,007	\$145,128	\$173,528
MCHCP-CU Net OPEB Liability	\$499	\$585	\$692

Note 8 - Other Postemployment Benefits (cont.)

OPEB Plan Fiduciary Net Position

Detailed information about the OPEB plan's fiduciary net position is available in the financial reports issued by MCHCP:

Missouri Consolidated Health Care Plan
P.O. Box 104355
Jefferson City, Missouri 65110-4355
www.mchcp.org

Missouri State Insured Defined Benefit Insurance Plan

The Missouri State Insured Defined Benefit Insurance Plan is administered through The Standard, which is a third party administrator with oversight by Missouri State Employees Retirement System (MOSERS). In the event that the Standard becomes insolvent, the Missouri Guarantee Association will work with the Standard to see what assets are available to handle their liabilities and the MO Guarantee Association would handle the open and unpaid claims up to the maximum outlined in Section 376.717, RSMo.

Retiree Life Insurance

Members who retire on or after October 1, 1985, or retirees of the Department of Labor and Industrial Relations (DOLIR) who retire on or after January 1, 1996, are eligible for \$5,000 of state-sponsored basic life insurance coverage if they retire directly from active employment. This group plan is financed on a percentage of payroll and is purchased as a group policy through competitive bids. Premiums are contributed as provided by Section 104.515, RSMo. Retirees of the DOLIR who retire prior to January 1, 1996, are eligible for state-sponsored insured defined benefit coverage in the same amount of coverage they were receiving through the DOLIR. The coverage for this closed group is purchased as a group policy at a current cost of \$2.07 per thousand dollars of coverage, per month as provided by Section 288.225, RSMo. The cost for fiscal year 2024 was \$2,446,000.

Long-Term Disability Insurance (LTD)

MOSERS provides LTD coverage for eligible members and generally includes those active members of MOSERS' retirement plans who do not have other disability coverage and are not yet eligible to receive normal (unreduced) retirement benefits. There were 32,435 members covered under the program as of June 30, 2024. This insured defined-benefit coverage is billed on percentage of covered payroll (0.04%). Purchased as group policy through competitive bids, LTD is administered by The Standard Insurance Company. The cost for the year ended June 30, 2024, was \$8,649,000. Premiums are contributed by the State and its component employers as provided for by Section 104.515, RSMo.

Note 8 - Other Postemployment Benefits (cont.)

University of Missouri System

Plan Description

In addition to the retirement benefits described in *Note 7*, the University of Missouri operates a single-employer, defined benefit Other Postemployment Benefits (OPEB) Plan. The assets of the OPEB Trust Fund are irrevocable and legally protected from creditors and dedicated to providing postemployment benefits in accordance with the plan. The OPEB plan provides postemployment medical, dental, and life insurance benefits to employees who retire from the University after attaining age 55 and before reaching age 60 with ten or more years of service, or after attaining age 60 with five or more years of service. As of January 1, 2018, employees must be 60 years old and have 20 years of service at the date of retirement to access the same percentage subsidy as retirees prior to January 1, 2018. Employees with age plus years of service less than 80, but with more than 5 years of service as of January 1, 2018, will receive a subsidy of \$100 per year of service up to a maximum of \$2,500 annually. Employees with less than 5 years of service as of January 1, 2018, will not receive an insurance subsidy or be eligible to participate in the University's plans.

As of June 30, 2024, 8,179 retirees were receiving benefits, and an estimated 6,103 active University employees may become eligible to receive benefits under the plan. Postemployment medical, dental and life insurance benefits are also provided to long-term disability claimants who were vested in the University's Retirement Plan at the date the disability began, provided the onset date of the disability was on or after September 1, 1990. As of June 30, 2024, 94 long-term disability claimants met those eligibility requirements. The terms and conditions governing the postemployment benefits to which employees are entitled are at the sole authority and discretion of the University's Board of Curators. The OPEB plan does not issue a separate financial report.

Contributions

Postemployment benefits are funded through both employer and employee contributions. Contribution requirements of employees and the University are established and may be amended by the University's Board of Curators. For employees retiring prior to September 1, 1990, the University contributes 2/3 of the medical benefits premium and 1/2 of the dental plan premium. For employees who retire on or after September 1, 1990, the University contributes towards premiums based on the employee's length of service and age at retirement.

The University makes available two group term life insurance options. Option A coverage is equal to the retiree's salary at the date of retirement, while Option B is equal to two times the amount. For each option, graded decreases in coverage are made when the retiree attains specific age levels. The University pays the full cost of Option A and approximately 91% of Option B coverage. Coverage for group term life insurance ends on January 1 following the retiree's 70th birthday.

For the year ended June 30, 2024, participant contributions were \$17,463,000, or approximately 56.1%, of the total premiums through their required contributions, which vary depending on the plan and coverage selection. In fiscal year 2024, the contribution rate as a percentage of covered payroll was 2.54% and the University contributed \$13,672,000.

The University also makes available two long-term disability options to its employees. Option A coverage is equal to 60% of the employee's salary on the date the disability began, when integrated with benefits from all other sources. Option B coverage is equal to 66-2/3% of the employee's salary, integrated so that benefits from all sources will not exceed 85% of the employee's salary. Both options have a 149-day waiting period and provide benefits until age 65. The University pays the full cost of the Option A premium, while employees enrolled in Option B pay the additional cost over the Optional A premium.

Note 8 - Other Postemployment Benefits (cont.)

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources

At June 30, 2024, the net OPEB liability for the University was based on an actuarial valuation as of June 30, 2024, and measured as of that date. For the year ended June 30, 2024, fiduciary net position as a percentage of the net OPEB liability amounted to 25.55%.

Changes in net OPEB liability (in thousands of dollars):

	Total OPEB Liability (TOL)	Fiduciary Net Position (FNP)	Net OPEB Liability (NOL)
Balances at July 1, 2023	\$ 191,156	\$ 42,410	\$ 148,746
Changes for the year:			
Service Cost	1,969	—	1,969
Interest	6,804	—	6,804
Changes of Benefit Terms	(18,070)	—	(18,070)
Differences between expected and actual experience	(374)	—	(374)
Changes in assumptions	13,199	—	13,199
Contributions – Employer	—	13,672	(13,672)
Contributions – Employee	—	17,463	(17,463)
Net Investment Income	—	3,766	(3,766)
Benefit payments, including refunds of employee contributions	(13,576)	(31,040)	17,464
Net Changes	(10,048)	3,861	(13,909)
Balances at June 30, 2024	<u>\$ 181,108</u>	<u>\$ 46,271</u>	<u>\$ 134,837</u>

For the year ended June 30, 2024, the University recognized OPEB expense of (\$57,524,000). At June 30, 2024, deferred outflows of resources and deferred inflows of resources related to OPEBs were reported from the following sources (in thousands of dollars):

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual experience	\$ —	\$ 4,861
Changes in assumptions	20,033	60,861
Net difference between projected and actual earnings on OPEB plan investments	6,423	4,560
Total	<u>\$ 26,456</u>	<u>\$ 70,282</u>

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2024

Note 8 - Other Postemployment Benefits (cont.)

The University recognizes differences between actual and expected investment performance included in deferred outflows/inflows of resources on a straight-line basis over five years. Differences between expected and actual experience on actuarial assumptions are amortized over the average expected remaining service life of the University's employees. The following table summarizes the future recognition of those items (in thousands of dollars):

Fiscal Year Ended June 30	Net Deferred Outflows/Inflows of Resources
	Recognition
2025	\$ (39,968)
2026	(5,068)
2027	1,963
2028	(753)
Totals	<u>\$ (43,826)</u>

Actuarial Assumptions

The total OPEB liability at June 30, 2024, is based upon the June 30, 2024, actuarial valuation, using the entry age normal, as a level percentage of pay, actuarial cost method. Significant actuarial assumptions used in the actuarial valuations are the following:

Price Inflation	2.20 %
Salary Increases	Varies based on age: 0.3% to 6.0% (including inflation) for academic and administrative; 0.2% to 3.1% (including inflation) for clerical and service.
Investment Rate of Return	3.93 %
Pre-65 Medical and HSP Plans Trend Rate	7.15%, 7.00% decreasing by 0.25% per year until an ultimate trend rate of 4.5% is reached for Medical and 6.44%, 6.19% then 6.00% decreasing by 0.25% per year until an ultimate trend rate of 4.5% is reached for HSP Plan.
Pre-65 Rx trend rate	8.25% decreasing by 0.25% per year until an ultimate trend of 4.5% is reached.
Post-65 Medicare Base and Rx Trend Rate	0.00%, 3.00%, then 5.75% decreasing by 0.25% per year until an ultimate trend of 4.50% is reached.
Post-65 Medicare Buyup and Rx trend rate	36.30%, 24.20%, then 5.75% decreasing by 0.25% per year until an ultimate trend of 4.50% is reached.
Dental trend rates	2.00 %

The University's actuarial assumptions used in the June 30, 2024, valuation involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Benefit projections for financial reporting purposes are based on the benefits provided under the terms of the substantive plan in effect at the time of each valuation and the historical pattern of cost sharing between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations. For healthy retiree mortality rates, the Pub-2010 Teacher Employee and Healthy Annuitant Headcount-Weighted Mortality Tables, weighted 95% for males and 103% for females, with generational projection using Scale MP-2020 was used for academic and administrative members. The Pub-2010 General Employee and Healthy Annuitant Headcount-Weighted Mortality Tables, weighted 124% for males and 112% for females, with generational projection using Scale MP-2020 was used for clerical and service members. For disabled retiree mortality rates, the Pub-2010 Non-Safety Disabled Annuitant Headcount-Weighted Mortality Table, weighted 95% for males and females, with generational projection using Scale MP-2020 was used.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS

Note 8 - Other Postemployment Benefits (cont.)

Discount Rate

The discount rate used to measure the total OPEB liability was 3.93% for the year ended June 30, 2024. The projection of cash flows used to determine the discount rate assumed that the University would not make additional contributions to the OPEB Trust and would continue to fund the plan on a pay-as-you-go basis. Based on those assumptions, the OPEB Plan's fiduciary net position was not projected to cover a full year of projected future benefit payments. Therefore, all future benefit payments are discounted at the current index rate for 20 year, tax exempt general obligation municipal bonds with an average rating of AA/Aa or higher.

Sensitivity of the Net OPEB Liability to Changes in the Discount Rate

Regarding the sensitivity of the net OPEB liability for the University, to changes in the single discount rate, the following presents the University's liability, calculated using a single discount rate, as well as, what the plan's liability would be if it were calculated using a single discount rate that is 1-percentage-point lower or 1-percentage-point higher (in thousands of dollars):

	1% Decrease	Current Single Discount Rate Assumption	1% Increase
	2.93%	3.93%	4.93%
Net OPEB Liability	\$158,090	\$134,837	\$115,469

Sensitivity of the Net OPEB Liability to Changes in the Healthcare Cost Trend Rates

Regarding the sensitivity of the net OPEB liability for the University, to changes in healthcare cost trend rates, the following presents the University's liability, calculated using healthcare cost trend rates, as well as, what the plan's net OPEB liability would be if it were calculated using healthcare cost trend rates that are 1-percentage-point lower or 1-percentage-point higher (in thousands of dollars):

	1% Decrease	Current Health Care Cost Trend Rates	1% Increase
Net OPEB Liability	\$126,493	\$134,837	\$144,459

Detailed information concerning the Plan is presented in the University's 2024 financial report, which is publicly available. Copies of this report may be requested from:

Note 9 - Deferred Compensation

Missouri State Public Employees' Deferred Compensation Plan:

In accordance with Internal Revenue Code Section 457, the State offers all employees the opportunity to participate in the Missouri State Public Employees' Deferred Compensation Plan. Under the Plan, employees are permitted to defer a portion of their current salary until future years.

All amounts of compensation deferred under the Plan must be held in a trust, custodial account, or annuity contract for the exclusive benefit of Plan participants and their beneficiaries. Investments are managed by the Plan's trustee under one of several investment options, or a combination thereof. The choice between the investment option(s) available by the Plan is made by the participants.

Copies of the Plan's financial statements may be requested from:

Plan Administrator
c/o MOSERS
P.O. Box 209
907 Wildwood Drive
Jefferson City, Missouri 65102-0209

Missouri State Public Employees' Deferred Compensation Plan:

The Plan was established by the Missouri State Public Employees' Deferred Compensation Commission in July 1995 pursuant to Section 401(a) of the Internal Revenue Code.

Under the Plan provisions, employees of the State are eligible to contribute into the Plan through reduction of salary. Effective July 1, 2012, newly eligible employees are automatically enrolled at 1% of gross wages unless they elect not to participate. Participants can elect to enroll in an automatic contribution increase feature. The State, subject to appropriation, contributes \$25 or up to a maximum of \$75 per month for each employee that meets these requirements based on employee contribution.

The first employer contributions to the Plan were made in January 1996. The Plan receives contributions from employers as well as rollovers from other qualified plans. During fiscal year 2024, net rollovers and contributions to ICMA-RC were \$29,941,000.

Copies of the Plan's financial statements may be requested from:

Plan Administrator

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2024

Note 11 - Debt

Bonds:

All of the State's Bonds are long-term liabilities and are reconciling items from governmental fund financial statements to government-wide financial statements, with the exception of Board of Public Buildings, Series A 2021. On the Government-Wide Statement of Net Position, the long-term liabilities are shown as the amounts due within one year from the date of the statement and the amounts due in more than one year from the date of the statement. Board of Public Buildings, Series A 2021, is paid with enterprise funds and is reported as a long-term obligation in the Proprietary Funds *Statement of Net Position*.

General Obligation Bonds:

The Board of Fund Commissioners of the State of Missouri, upon voter approval and subsequent authorization of the General Assembly, issues general obligation bonds that are secured by a pledge of the full faith, credit, and resources of the State. There are no general obligation bonds that are currently outstanding.

As of June 30, 2024, \$594,494,240 of the Water Pollution Control Bonds and \$45,000,000 of the Stormwater Control Bonds have been issued. The remaining authorization for the Water Pollution Control Bonds is \$130,505,760 and for the Stormwater Control Bonds is \$155,000,000.

Other Bonds:

The Board of Public Buildings of the State of Missouri, upon the approval of the General Assembly, issues revenue bonds for building projects and commits state agencies to lease space in these buildings. The General Assembly appropriates to the Board, on behalf of the state agencies, amounts sufficient to pay the principal and interest on the bonds, maintain certain required reserves, and to pay the costs of operations. The total amount authorized for the Board equals \$1,545,000,000.

To take advantage of lower interest rates, the Board of Public Buildings has issued bonds to refund various outstanding bond issues. The following indicates the outstanding refunding bonds issued by the Board (in thousands of dollars):

	Date Issued	Amount Issued	Series Refunded	Amount Refunded
Board of Public Buildings:				
Series A 2011-Refunding	09/27/11	\$ 143,020	A 2001	\$ 126,850
			A 2003	12,620
			A 2006	3,175
Series A 2014-Refunding	08/19/14	88,680	A 2006	87,225
Series A 2015-Refunding	04/01/15	20,250	A 2011-Refunding	21,380
Series A 2020-Refunding	03/26/20	38,920	A 2011-Refunding	40,350
Series B 2020-Refunding	08/25/20	172,850	A 2012-Refunding	185,850
			A 2013-Refunding	19,635

The additional principal amount of the refunding bonds does not decrease the amount of the authorization.

As of June 30, 2024, the Board of Public Buildings Bonds had issued \$1,253,800,000 of the bond authorization. The remaining authorization is \$291,200,000.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2024

Note 11 - Debt (cont.)

The Missouri Development Finance Board (MDFB) issued \$92,660,000 of Series 2014 Bonds dated December 10, 2014, and \$97,225,000 of Series 2016 Bonds dated December 15, 2016, to fund the replacement of the Fulton State Hospital. These bonds are special, limited obligations of the Board and do not constitute a pledge of the full faith and credit of the State. However, under a financing agreement, the Office of Administration will request that the Governor's annual budget request to the General Assembly include the State's financing amount for principal and interest each year.

The MDFB – Fulton State Hospital Project Bonds issued and outstanding as of June 30, 2024, were as follows (in thousands of dollars):

	Interest Rates	Payment Dates	Issue Date	Final Maturity Date	Issued	Outstanding
Fulton State Hospital Project Bonds:						
Series 2014	2.125 - 5.0%	4/1; 10/1	12/14	10/1/32	\$ 92,660	\$ 33,695
Series 2016	4.0 - 5.0%	4/1; 10/1	12/16	10/1/31	97,225	23,855
Total Fulton State Hospital Bonds					<u>\$ 189,885</u>	<u>\$ 57,550</u>

As of June 30, 2024, the debt service requirements for principal and interest in future years for the Fulton State Hospital Project Bonds (based on the financing agreement between the State and the Board) were as follows (in thousands of dollars):

Fiscal Year Ended June 30	Principal	Interest	Totals
2025	\$ 6,710	\$ 2,000	\$ 8,710
2026	6,965	1,737	8,702
2027	7,245	1,451	8,696
2028	7,540	1,153	8,693
2029	3,725	945	4,670
2030-2033	25,365	1,810	27,175
Totals	<u>\$ 57,550</u>	<u>\$ 9,096</u>	<u>\$ 66,646</u>

The MDFB issued \$33,800,000 of Series A 2016 Bonds dated March 11, 2016, to fund the State Historical Society project. These bonds are special, limited obligations of the Board and do not constitute a pledge of the full faith and credit of the State. However, under a financing agreement, the Office of Administration will request that the Governor's annual budget request to the General Assembly include the State's financing amount for principal and interest each year.

The MDFB – State Historical Society Project Bonds issued and outstanding as of June 30, 2024, were as follows (in thousands of dollars):

	Interest Rates	Payment Dates	Issue Date	Final Maturity Date	Issued	Outstanding
State Historical Society Project Bonds:						
Series A 2016	2.0 - 5.0%	4/1; 10/1	3/16	10/1/35	<u>\$ 33,800</u>	<u>\$ 22,785</u>

Totals	<u>\$ 22,785</u>	<u>\$ 4,459</u>	<u>\$ 27,244</u>

State Road Bonds:

The Missouri Highways and Transportation Commission authorized by Article IV, Section 29-34 of the Missouri Constitution and Section 226.133 of the State Highway Act, issues bonds for highway construction and repairs. Under the Missouri Constitution, the principal and interest of the State Road Bonds are payable solely from the revenues of the Missouri Road Fund. State Road Bonds have the following levels of priority: Senior Bonds, First Lien Bonds, Second Lien Bonds, and Third Lien Bonds. Proceeds from State Road Bonds are used for the purpose of constructing and maintaining the State's highways. As of June 30, 2024, the Missouri Highways and Transportation Commission had issued \$4,914,135,000. In addition, Senate Concurrent Resolution 14 authorized \$301,000,000 in Missouri Highways and Transportation Commission bonds to renovate bridges and other important transportation infrastructure. The Third Lien State Road Bonds, Series B 2019 and the Third Lien State Road Bonds, Series A 2021 are payable from the General Revenue Fund.

To take advantage of lower interest rates, the Missouri Highways and Transportation Commission has issued Bonds to refund various outstanding bond issues. The following indicates the outstanding refunding bonds issued by the Commission (in thousands of dollars):

	<u>Date Issued</u>	<u>Amount Issued</u>	<u>Series Refunded</u>	<u>Amount Refunded</u>
Senior Lien State Road Bonds:				
Series A 2014-Refunding	6/3/14	589,015	A 2006	\$ 149,150

Note 11 - Debt (cont.)

Component Units' Bonds and Direct Placements - The following bonds are included in the balance sheet of the college and universities and the non-major component units.

Major

College and Universities:

The college and universities of the State issue revenue bonds for various projects on each respective campus. Bonds are payable, both principal and interest, only out of net income and revenues arising from operations of facilities funded by the bonds. As of June 30, 2024, debt service requirements for principal and interest for the college and universities were as follows (in thousands of dollars):

Fiscal Year Ended June 30	Bonds from Direct Placements		Other Bonds		Totals
	Principal	Interest	Principal	Interest	
2025	\$ 11,877	\$ 3,414	\$ 56,903	\$ 82,228	\$ 154,422

Totals ⁽¹⁾	<u>\$ 138,136</u>	<u>\$ 23,736</u>	<u>\$ 1,848,480</u>	<u>\$ 1,009,882</u>	<u>\$ 3,020,234</u>

⁽¹⁾The bond schedule does not include notes payable, therefore, it differs from the bonds and notes payable amount reported in the statements.

Non-Major

Missouri Development Finance Board:

In December 2000, the Board issued \$6,500,000 in St. Louis Convention Center Hotel Series 2000B, taxable infrastructure facilities revenue bonds and \$14,600,000 in St. Louis Convention Center Hotel Series 2000C, tax-exempt infrastructure facilities revenue bonds, respectively for the purpose of paying the costs of acquiring land and constructing a parking garage. These bonds were remarketed in June 2020 as \$4,590,000 2020B and \$4,730,000 2020C bonds, replacing 2000B and 2000C, respectively. Bonds are payable, both principal and interest, out of revenues derived from the operation of the parking garage.

In April 2010, the Board issued \$9,000,000 in Seventh Street Garage Series 2010, tax exempt infrastructure facilities revenue bonds. During fiscal year 2024, the Board paid \$3,804,000 in principal on the bonds issued to assist with the financing on the St. Louis Convention Center Hotel Garage and the Seventh Street Garage. The Seventh Street Garage bonds were paid in full during fiscal year 2024.

⁽¹⁾ Detailed information for college and universities are not shown.

Financed Purchases from Direct Borrowings:

The State has entered into various agreements for financed purchases from direct borrowings for personal property, for example, equipment and software. Through contracts with Central Bank, the State has a \$17.6 million obligation outstanding as of June 30, 2024, for governmental activities. These financed purchases are secured with collateral of capital assets in the amount of \$30.1 million. In the event of default, the lease shall be terminated and the resulting property returned to the lessor. If the termination is the result of non-appropriation, the State shall deliver the property to the lessor within 10 business days after the termination of the lease schedule. If the property is not delivered within 10 business days, then the State shall also be responsible for the payment of damages in an amount equal to the amount of the lease payments that would have thereafter come due on the lease schedule had it not been terminated. The State had an unused line of credit in the amount of \$46.9 million at the end of fiscal year 2024.

Through a contract with IBM, the State has \$419.7 thousand of financed purchases from direct borrowings outstanding as of June 30, 2024, for governmental activities. These financed purchases are secured with capital assets in the amount of \$11.5 million. The State of Missouri can terminate the agreement with written notice prior to 90 days of each starting anniversary. Upon termination, the State will pay to IBM all amounts due and payable including cross-band allotment offerings, termination and/or financing prepayments and applicable taxes on or before the termination. The State of Missouri may elect to cancel the fixed term license program under the agreement by giving IBM 30 day's written notice and may receive a prorated credit for a prepaid term. The prorated credit may be used to purchase IBM programs prior to the end date or termination of the remaining agreement. The credits are not transferable, cannot be converted to cash, and upon expiration eligible credit will be forfeited. The State had no available line of credit at the end of fiscal year 2024.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2024

Note 11 - Debt (cont.)

The State has entered into an agreement for financed purchases from direct borrowings for Leasehold Revenue Bonds through a contract with Missouri Development Finance Board. The State's obligation under the purchase does not constitute a general obligation or other indebtedness of the State. Ownership transfers to the State at the end of the term. The State has a \$15.2 million obligation outstanding as of June 30, 2024. The payments under the agreement have been structured in the amounts sufficient to pay principal and interest on the Leasehold Revenue Bonds issued by the Board. In November 2005, the Board issued \$28,995,000 of the Leasehold Revenue Bonds Series 2005 for the purpose of purchasing buildings in Florissant, St. Louis, and Jennings. In May 2006, the Board issued \$9,865,000 of Leasehold Revenue Bonds Series for the purpose of purchasing one building in St. Louis. In June 2013, the Board issued \$21,820,000 of Leasehold Refunding Bond Series A 2013 and \$7,450,000 of Leasehold Revenue Refunding Bonds Series B 2013 for the purpose of refunding \$20,805,000 of Leasehold Revenue Bonds Series 2005 and \$7,100,000 of Leasehold Revenue Bonds Series 2006, respectively. The payments are subject to annual appropriation by the State legislature. The State had no available line of credit at the end of fiscal year 2024.

As of June 30, 2024, debt service requirements for principal and interest in future years for direct borrowings were as follows (in thousands of dollars):

Fiscal Year Ended June 30	Financed Purchases from Direct Borrowings					
	Governmental Funds		Internal Service Funds		College and Universities	
	Principal	Interest	Principal	Interest	Principal	Interest
2025	\$ 1,771	\$ 239	\$ 5,281	\$ 1,020	\$ 11,881	\$ 1,160

Total	\$ 5,784	\$ 597	\$ 27,406	\$ 3,172	\$ 57,504	\$ 5,481

Note 12 - Defeased Debt

A. Current Year Debt Defeasance

During fiscal year 2024, the University of Missouri called and defeased the Health Facilities Revenue Bonds, Series 2020. At June 30, 2024, the aggregated balance of outstanding in-substance defeased bonds totaled \$5,395,000. The refunding resulted in an immaterial amount of economic gain or loss.

B. Cumulative Debt Defeasances

Various bond issues have been defeased by the advance refunding of bonds. Irrevocable escrow accounts, containing proceeds of the refunding bond issues in the form of cash and U.S. government securities, are used to pay principal, interest, or redemption prices of the defeased bonds as and when due.

For financial reporting purposes, the following debt has been defeased via an advance refunding and, therefore, removed as a liability from the college and universities Statement of Net Position.

College and Universities - As of June 30, 2024, bonds outstanding of \$5,395,000 are defeased.

Note 14 - Deferred Inflows and Outflows

Deferred outflows of resources are defined as consumption of net assets by the government that is applicable to a future reporting period. Deferred inflows of resources are defined as acquisition of net assets by the government that is applicable to a future reporting period. Deferred outflows increase net position, similar to assets and deferred inflows decrease net position, similar to liabilities.

The components of deferred outflows of resources and deferred inflows of resources reported in the government-wide financial statements as of June 30, 2024, are as follows (in thousands):

	Primary Government			
	Governmental Activities	Business-Type Activities	Total	Component Units

Note 16 - Interfund Transfers

All transfers must be legally authorized by the legislature through transfer appropriations. Interfund transfers for the fiscal year ended June 30, 2024, were as follows (in thousands of dollars):

		Transfers In:				
		General Fund	Public Education	Conservation and Environmental Protection	Missouri Road Fund	Non-Major Governmental Funds
Transfers Out:						
General Fund	\$	—	\$ 1,065,596	\$ 3,494	\$ 205,381	\$ 310,381
Public Education		3,139	—	—	—	—
Conservation and Environmental Protection		883	—	—	—	—
Non-Major Governmental Funds		15,807	5,005	—	611,565	5,500
State Lottery		—	377,729	—	—	—
Unemployment Compensation		63	—	—	—	9,114
Non-Major Enterprise Funds		606	—	—	—	—
Internal Service Funds		8,823	—	—	—	59
Totals	\$	29,321	\$ 1,448,330	\$ 3,494	\$ 816,946	\$ 325,054

		Unemployment Compensation	Non-Major Enterprise Funds	Internal Service Funds	Totals
Transfers Out:					
General Fund	\$	7,518	\$ 1,815	\$ 2,601	\$ 1,596,786
Public Education		—	—	—	3,139
Conservation and Environmental Protection		—	—	—	883
Non-Major Governmental Funds		—	—	—	637,877
State Lottery		—	—	—	377,729
Unemployment Compensation		—	—	—	9,177
Non-Major Enterprise Funds		—	—	—	606
Internal Service Funds		—	28	53	8,963
Totals	\$	7,518	\$ 1,843	\$ 2,654	\$ 2,635,160

Principal reasons for interfund transfers include:

- moving general revenue funds to support elementary and secondary education
- moving state lottery funds to support elementary and secondary education
- moving general revenue funds to support social assistance programs reported in non-major governmental funds
- moving funds related to the construction of capital assets

During fiscal year 2024, there were transfers of \$370,000 from internal service funds to the general fund and special revenue funds, \$39,000 from the general fund to internal service funds, and \$22,000 from general fund and special revenue funds to enterprise funds due to funding source changes relating to leased assets. These are lease/subscription liability and capital assets in the internal service and enterprise funds and excluded from the governmental funds; therefore these transfers are not included in the reconciliation. This is because governmental funds use the modified accrual basis of accounting and therefore do not report lease liability or capital assets on their financial statements. Internal service fund transfers were eliminated at government wide. Enterprise fund transfers are reflected in business-type activities at government wide.

Breakdown of restatements by type:

- General Fund, the restatement is due to a decrease in accounts receivable of \$1,444,000.
- Public Education, the restatement is due to a decrease in accounts receivable of \$19,000.
- Conservation and Environmental Protection, the restatement is due to a decrease in accounts receivable of \$391,000.
- Non-major special revenue funds, the restatement is due to a decrease in accounts receivable of \$592,000.
- Unemployment Compensation, the restatement is due to a decrease in accounts receivable of \$380,000 and an increase of accounts payable of \$167,000.
- Non-major enterprise funds, the restatement is due to a decrease in accounts receivable of \$4,347,000, a decrease in capital assets (net of accumulated depreciation/amortization) of \$130,000, and an increase of deferred inflows of \$47,000.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2024

Note 17 - Restatements (cont.)

- Non-major internal service funds, the restatement is due to an increase of cash and cash equivalents of \$1,000, a decrease in accounts receivable of \$113,000, an increase of capital assets (net of accumulated depreciation/amortization) of \$2,758,000, a decrease in accounts payable of \$199,000, an increase of lease liability of \$369,000, and an increase of subscription liability of \$841,000.
- Custodial Funds, the restatement is due to an increase of cash and cash equivalents of \$4,000 and a decrease of accounts receivable of \$18,000.
- Discretely presented component units - colleges and universities, the restatement for error corrections is due to a decrease in restricted long-term investments of \$376,000. The restatement for changes to the financial reporting entity is due to a fund reclassification resulting in a decrease of \$11,558,000 to restricted long-term investments.

Purpose for restatements:

The items on the schedule were restated as a result of additional information received this year related to prior year corrections.

On the Government-Wide Statement of Activities, net position for the governmental activities were restated by the amounts shown on the restatement schedule for governmental funds and internal service funds. In addition, internal balance decreased \$10,000, capital assets (net of accumulated depreciation/amortization) increased by \$26,686,000, deferred outflows relating to asset retirement obligation increased by \$3,000, lease liability decreased by \$302,000, subscription liability increased by \$13,121,000, financed purchases decreased by \$286,000, asset retirement obligation increased by \$3,000 and compensated absences decreased by \$1,000.

On the Government-Wide Statement of Activities, net position for the business-type activities were restated by the amounts shown on the restatement schedule for enterprise funds and by an increase in internal balance of \$10,000.

Note 18 - Fund Deficit

The following funds had a deficit balance:

Enterprise Funds – State Lottery and State Agency for Surplus Property, Internal Service Funds – Natural Resources Cost Allocation, Working Capital Revolving, Economic Development Administrative, and Professional Registration Fees, and Component Unit Funds – Missouri Wine and Grape – At June 30, 2024, these funds had a net position deficit of \$17,464,000, \$824,000, \$24,784,000, \$991,000, \$3,679,000, \$12,921,000, and \$1,057,000 respectively. These funds have deficit balances due to the fiscal year 2015 implementation of GASB 68 and the reporting of net pension liabilities and the fiscal year 2018 implementation of GASB 75 and the reporting of OPEB liabilities. It is expected that these liabilities will be funded over time.

Enterprise Fund – Petroleum Storage Tank Insurance – At June 30, 2024, this fund had a net position deficit of \$44,860,000. The deficit occurred when transport load fees collected were not sufficient to cover the estimated claims liability for clean up of petroleum storage tank leaks. This liability amount is the cumulative result of numerous years of petroleum storage tank leaks. Per Section 319.129, RSMo, this fund will not accept new claim liabilities after December 31, 2030, or upon revocation of federal regulation 40 CFR, whichever occurs first, unless extended by action of the General Assembly. Under Section 319.132, RSMo, the Board of Trustees has authority to increase the transport load fee to a maximum of \$60 per 8,000 gallons. In addition, under Section 319.133, RSMo, the Board can increase annual participation fees to a maximum of \$500 per tank per year. These facts, along with the knowledge that PSTIF's claim reserves are set using very conservative assumptions, assure that adequate revenues will be available to meet its liabilities. Per Section 319.131, RSMo, the liability of the Petroleum Storage Tank Insurance Fund is not the liability of the State. Upon dissolution of this fund, the liability would be liquidate

** No abatement reported for fiscal year 2024

Housing

The Missouri Low Income Housing Tax Credit (MOLIHTC) is authorized by Sections 135.350-135.363, RSMo, and is a ten year tax credit which is available to qualified owners of affordable rental housing. To qualify upon application, a development must 1) rent at least 20% of its units to families earning 50% of the area median family income, 2) rent at least 40% of its units to families earning 60% of the area median family income, each adjusted for family size or 3) rents at least 40% of its units to families whose income does not exceed the income limitation designated for the respective unit, where the average of the income-designated units may not exceed 60% AMGI. The MOLIHTC generates equity investments that are purchased by the private sector for the development of new or rehabilitated rental housing which enables owners to lower rents to affordable levels for low-income families. The investor of the MOLIHTC can redeem the credit by applying it dollar for dollar to the following types of tax liabilities: income tax, corporate franchise tax, insurance premium tax, other financial institutions tax, or express company tax. MOLIHTC properties must comply with tenant eligibility, property maintenance, and fair housing law throughout a 15-year period. The Missouri Housing Development Commission monitors the properties for compliance and reports non-compliance

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2024

Note 19 - Tax Abatements (cont.)

to the Internal Revenue Service and Missouri Department of Revenue. Property owners found to be out of compliance are subject to recapture through the provisions of Section 135.355, RSMo and IRS §42. Redemptions were made on MOLIHTC's authorized/issued in prior years. The MOLIHTC reduced state taxes by \$98,930,000 during fiscal year 2024.

The Neighborhood Preservation Tax Credit is authorized by Sections 135.475-135.487, RSMo, and provides incentives for homeowners in lower income areas who rehabilitate or construct owner-occupied homes in qualifying or eligible areas of the State. Upon application, the eligible property must be in a qualifying area with a median household income of less than 70% of the median household income for the metropolitan statistical area (MSA) or non-MSA; or be located in an eligible area with a median household income of 70-89% of the median household income for the applicable MSA or non-MSA. Recipients are eligible to receive a credit for 15% of eligible costs up to \$25,000 per residence for new residences in eligible areas; 15% of eligible costs up to \$40,000 per residence for new residences in qualifying areas; 25% of eligible costs with a minimum of \$10,000 and not to exceed \$25,000 per residence for substantial rehabilitation in eligible areas; 35% of eligible costs with a minimum of \$5,000 or 50% of purchase price and not to exceed \$70,000 per residence for substantial rehabilitation in qualifying areas; and 25% of eligible costs with a minimum of \$5,000 and not to exceed \$25,000 per residence for non-substantial rehabilitation in qualifying areas. The abatement's can be applied against income tax, corporate franchise tax, bank tax, insurance premium tax, or other financial institutions tax. A taxpayer, other than the owner-occupant who receives a certificate of tax credit, shall have 30 days within the date of the sale to furnish satisfactory proof that the residence was sold at market to the Director of the Department of Economic Development (DED). If the Director determines that the residence was not in good faith intended for long-term owner occupancy, then the Director may revoke any tax credits issued and seek recovery of those credits pursuant to Section 620.017, RSMo. There are no other commitments made as part of the agreement. The Neighborhood Preservation Tax Credit reduced state taxes by \$4,334,000 during fiscal year 2024.

Business Recruitment

Missouri Quality Jobs is authorized by Sections 620.1875-620.1890, RSMo and provides tax incentives to qualified companies for facilitating the creation of new jobs or the retention of existing jobs in the State. This program has been replaced by Missouri Works, except for current projects. To qualify, the company must create a minimum number of jobs within the project facility within 2 to 3 years after the approval of the Notice of Intent and must maintain those jobs for the duration of the benefit. The average wage of the new jobs must equal or exceed the average county wage and the company must offer health insurance and pay at least 50% of the premium. The company must also submit an annual report. Companies may retain 100% of withholding tax that would otherwise be paid into the State or receive tax credits based on the percentage of new payroll or a combination of both for the new or retained jobs approved. The credits can be applied against income tax, bank tax, insurance premium tax, or other financial institutions tax. There are no provisions for recapture and no other commitments are made as part of the agreement. Missouri Quality Jobs reduced state taxes by \$411,000 during fiscal year 2024.

The Missouri Works - Business Incentives is authorized by Sections 620.2000-620.2020, RSMo and provides tax incentives for qualified companies to create or retain jobs in the State. There are several sub-programs under this program with different qualifications for each. To qualify for the credits, a company must create or retain a minimum number of new jobs at the project facility with average wages of 80%, 90%, 100%, 120%, or 140% of the county average wage, depending upon the sub-program. The company must offer health insurance and pay at least 50% of the premium. The company must meet the requirement for new private capital investments, ranging from \$0 to \$500 million. The company must meet the required number of jobs at the applicable % of the county average wage within 2 years of the Approval of the Notice of Intent and must maintain those minimums for the duration of the benefit. The company must also submit an annual report documenting the jobs created, total payroll, and health insurance requirements. Companies may retain 100% of withholding tax that would otherwise be paid into the State or receive tax credits based on the percentage of new payroll or a combination of both for the new or retained jobs approved. The credits can be applied against income tax, bank tax, insurance premium tax, or other financial institutions tax. Taxes may be recaptured due to misrepresentation, out-of-state relocation, or failure to file an annual report. The agreement requires 100% of the benefits received to be repaid within 60 days for misrepresentation or

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2024

Note 19 - Tax Abatements (cont.)

out-of state location or one year for failure to file an annual report. There are no other commitments made as part of the agreement. Missouri Works - Business Incentives reduced state taxes by \$114,459,000 during fiscal year 2024.

Missouri One Start Community College New Jobs Training and Job Retention Training are authorized by Sections 620.800-620.809, RSMo. New Jobs Training provides assistance to eligible companies to train workers in newly created jobs. This program has an annual appropriation. For funding consideration, the company must create new jobs in the state; the project must include eligible training costs, as well as other eligibility criteria such as types of occupations, wage rates, and turnover rates. Job Retention Training provides training assistance to eligible companies for job retention efforts. To qualify, a project must be for an existing Missouri company making a capital investment of at least 5 times the total project costs, retaining at least 100 eligible jobs at the facility for at least one year, be located in a border community, or be determined to represent substantial risk of relocation. Eligible companies for both programs include manufacturing, research and development, or those engaged in interstate commerce. The company must retain the eligible jobs in the project for at least 5 years and use the funding only toward eligible project costs. These programs are administered locally through community colleges. While the recipient's taxes are not actually reduced, a portion of normal withholding payments (paid to the Department of Revenue) are deferred to pay for eligible project costs. The amount that can be deferred is 2.5% of the payroll for the first 100 jobs in the project and 1.5% of the payroll for the remaining jobs in the project. The company may file withholding claims for the project until the budgeted project funds are disbursed; typically for a period of 3-5 years, with maximum limit of 8 years. There are no other commitments under these programs. Recapture provisions apply in accordance with Section 620.017, RSMo in which the recipient shall repay training funds under these programs if the jobs included in the project are moved out of Missouri or are eliminated within five years of the date the project is approved by DED. The Director of the Division of Workforce Development within DED shall have the authority and discretion to exempt the recipient in whole or in part of such repayment. Missouri One Start Community College New Jobs Training and Job Retention Training reduced state taxes by \$419,000 and \$11,367,000, respectively, during fiscal year 2024.

The Missouri Manufacturing Jobs Act is authorized by Section 620.1910, RSMo and provides incentives in the form of retaining withholding taxes to expand manufacturing facilities for an existing product or the creation of a new product. This program sunset in 2016 and no new applications are being accepted. To qualify, manufacturing companies must have a North American Industry Classification System (NAICS) of 33611, which is an establishment primarily engaged in (1) manufacturing complete automobile and light duty motor vehicles or (2) manufacturing automobile and light duty motor vehicle chassis. The company must manufacture goods at a facility in the state throughout the period benefits are received, and make a capital investment at a facility of at least \$75,000 per retained job for the manufacture of a new product within 2 years of beginning to retain withholding taxes or commit to make a capital investment of at least \$50,000 per retained job at the facility for the modification or expansion of the manufacture of an existing product within 2 years of beginning to retain withholding taxes. Qualified suppliers of an eligible manufacturer must attest to DED that they derive more than 10% of its total annual sales revenue from sales to a qualified manufacturing company, add 5 or more new jobs for a period of 3 years, pay wages for the new jobs equal to or exceeding the county average wage using the NAICS industry classification, but are not less than 60% of the statewide average wage, and the company must offer health insurance and pay at least 50% of the premium. If qualified, the company is allowed to retain 100% of the withholding tax that would otherwise have been paid in to the state for those jobs for 10 years for qualified manufacturers or 3 to 5 years for qualified suppliers. There are no provisions for recapture and no other commitments are made as part of the agreement. The Missouri Manufacturing Jobs Act did not reduce state taxes during fiscal year 2024.

Business Use Incentives for Large-Scale Development (BUILD) is authorized by Sections 100.700-100.850, RSMo. The incentives offered by the BUILD Missouri Program are designed to offset infrastructure and other capital costs of certain large projects by making the cost of investing in Missouri more competitive. The costs are financed through the issuance of Board of Certificates (bonds or notes), where the principal and interest will be repaid by the business. Businesses are then reimbursed for these repayments through the issuance by the Board of Missouri state income tax credits. The businesses may use these credits against taxes, which would otherwise be due, or to obtain a refund if the business has insufficient Missouri income tax liability to offset the credit. A business can apply

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2024

Note 19 - Tax Abatements (cont.)

these credits against income tax, bank tax, insurance premium tax, or other financial institutions tax. To qualify, an eligible industry in manufacturing, processing, assembly, research and development, agricultural processing or services in interstate commerce must invest a minimum of \$15 million; or \$10 million for an office industry in an economic development project; and create a minimum of 100 new jobs at the project facility within 3 years, or a minimum of 500 jobs if the project is an office industry, or a minimum of 200 new jobs if the project is an office industry located within a distressed community as defined in Section 135.530, RSMo. The tax credits become subject to recapture if the company does not expend the minimum investment on or before the first test date established in the program agreement, or create and maintain the minimum number of new jobs on or before the first test date. The first test date is the last day of the closest calendar quarter ending 3 years following bond closing. The tax credits are also subject to recapture if the company eliminates or announces its intention to eliminate all the new jobs at the project within 2 years of the first test date. If subject to recapture, the company shall, within 30 days following written demand from the Board, reimburse the Board in full for the face amount of the tax credits received from the date of execution of the program agreement to the date of such demand. There are no other commitments made as part of the agreement. The BUILD program reduced state taxes by \$16,548,000 during fiscal year 2024.

The Advanced Industrial Manufacturing (AIM) Zone Act is authorized by section 68.075, RSMo for the purpose of continuing to expand, develop, and redevelop AIM Zones identified by the port authority. The money in the fund must be used for expenses to continue expanding, developing, and redeveloping zones identified by the port authority board of commissioners. To qualify there must be an increase in the number of full-time employees located at the project facility that exceeds the project facility base employment less any decrease in the number of full-time employees at related facilities below the related facility base employment. Fifty percent of all state tax withholding on new jobs located in the zone are deposited into the port authority AIM Zone Fund. There are no provisions for recapture and no other commitments are made as part of the agreement. The Advanced Industrial Manufacturing (AIM) zone reduced state taxes by \$478,000 during fiscal year 2024.

The Enhanced Enterprise Zone is authorized by Sections 135.950-135.973, RSMo and provides tax credits to new or expanding businesses in enhanced enterprise zones. To qualify, a company must create or maintain at least 2 new jobs and make at least \$100,000 in eligible investments. In addition, a Notice of Intent must be approved by Department of Economic Development (DED), and the business must submit an annual report. Eligibility for the credit is determined by the zone based on creation of sustainable jobs in a targeted industry or demonstrated impact on local industry cluster development. Taxes are reduced by claiming a tax credit against the Missouri income tax liability owed to the state. The tax credits are calculated at 2% of new payroll and 0.5% of new investment. There are no provisions for recapture and no other commitments are made as part of the agreement. The Enhanced Enterprise Zone reduced state taxes by \$18,000 during fiscal year 2024.

The Entertainment Industry Jobs Act is authorized by section 135.753, RSMo and provides a 30% tax credit of rehearsal and tour expenses that meet the minimum requirements. The minimum requirements include the purchase or rental of concert tour equipment, related services, or both, in an amount of at least a million dollars from a Missouri vendor for use in the rehearsal, on the tour, or both; a rehearsal at a qualified rehearsal facility for a minimum of ten days; and the holding of at least two concerts in the state of Missouri. There are no provisions for recapture and no other commitments are made as part of the agreement. The Entertainment Jobs Act did not reduce state taxes during fiscal year 2024.

The Intern and Apprenticeship Recruitment Act is authorized by section 135.457, RSMo and provides an income tax credit to eligible taxpayers who hire an intern or apprentice at a pay rate equal to or greater than the minimum wage, with additional requirements. The tax credit shall be equal to \$1,500 for each intern or apprentice hired at a pay rate equal to or greater than the minimum wage, provided that the number of interns and apprentices employed during the tax year exceeds the average number of interns and apprentices employed by the applicant for the previous three years, and further provided that the interns and apprentices work a certain number of hours. An income tax credit equal to \$1,500 for each intern or apprentice hired at a pay rate equal to or greater than the minimum wage, provided that the number of interns and apprentices employed during the applicable tax year exceeds the average number of interns and apprentices employed by the applicant for the previous three years. The total amount of tax credits for a taxpayer under this program shall not exceed \$9,000 in any given

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2024

Note 19 - Tax Abatements (cont.)

tax year. There are no provisions for recapture and no other commitments are made as part of the agreement. The Intern and Apprenticeship Recruitment Act did not reduce state taxes during fiscal year 2024.

The Show MO/Motion Tax Credit Program is authorized by 135.750, RSMo and is designed to recruit motion media productions to the state of Missouri, including film, episodic, commercial, stand-alone post production and other qualified motion media production projects. The program provides a tax credit for in-state expenditures on qualified motion media productions equal to 20% to 42% of qualifying expenses. Productions that are under 30 minutes must have a minimum spend of \$50,000; productions more than 31 minutes must have a minimum spend of \$100,000. Productions must employ a number of Missouri registered apprentices or veterans residing in Missouri with transferable skills based on budget size, between 2 and 8. The abatement's can be applied against income tax, or financial institution tax. The ShowMO/Motion Tax did not reduce state taxes during fiscal year 2024.

The Targeted Industrial Manufacturing (Time) Zones Program is authorized by section 620.2250, RSMo. The program helps communities support economic development by diverting state withholding taxes to fund infrastructure projects within a designated zone. The Program can divert 25% of state withholding taxes generated by new jobs created within a designated TIME Zone. The total amount of withholding taxes diverted through the Program shall not exceed \$5 million dollars per state fiscal year. To qualify, an area must be identified through a resolution or ordinance passed by at least two contiguous or overlapping towns, villages, cities, or counties that is being developed or redeveloped may be designated as a TIME zone by the local political subdivisions through local ordinance and public hearing. The TIME Zones Program did not reduce state taxes during fiscal year 2024.

The Business Facility Tax Credit is authorized by Sections 135.100-135.150 and Section 135.258, RSMo and facilitates the expansion of new or existing facilities in Missouri. To qualify, a Notice of Intent must be approved by DED; the facility must create at least 2 new jobs and make \$100,000 in eligible investments or pursuant to House Bill 191 (2009), for "headquarters" that commence operations and "headquarters" of certain "employee-owned" businesses that commence or expand operations must create 25 new jobs and make \$1,000,000 in new investment. The company must submit an annual report to DED. Taxes are reduced by claiming a tax credit against the Missouri tax liability owed to the state. The tax credits are calculated as \$75 to \$150 per new job and \$75 to \$150 for each \$100,000 in new investment for up to 10 years. The tax credits for headquarters are calculated as the greater of \$400 per new job plus 4% of new investment or \$500 per new job plus \$500 per each \$100,000 in new investment for up to 10 years. The credit may be applied against income tax, insurance premium tax, or insurance company retaliatory tax. This program has sunset as of January 1, 2005, except headquarters that commence or expand operations on or before January 1, 2031 may be eligible for the program. There are no provisions for recapture and no other commitments are made as part of the agreement. The Business Facility Tax Credit reduced state taxes by \$16,475,000 during fiscal year 2024.

The Amateur Sports Ticket Sales Tax Credit is authorized by Section 67.3000, RSMo and provides an incentive to encourage the location of competitively bid amateur sporting events in Missouri. Upon application, applicants must submit predictions on the anticipated economic benefit to the state. Applicants will be evaluated based upon anticipated and verified economic performance. The program is available to one or more certified sponsors active in the National Association of Sports Commissions, endorsing counties, endorsing municipalities, or a local organizing committee, acting individually or collectively. The program provides tax credits equal to the lesser of: \$5 per admission ticket sold to the event; or 100% of eligible costs incurred by the applicant. The recipient is able to reduce their outstanding tax liability in an amount equal to the value of the tax credit and may be taken against income tax, bank tax, insurance premium tax, and other financial institutions tax. There are no provisions for recapture and no other commitments are made as part of the agreement. The Amateur Sports Ticket Sales Tax Credit reduced state taxes by \$1,420,000 during fiscal year 2024.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2024

Note 19 - Tax Abatements (cont.)

Chapter 100 Personal Property Tax Exemption is authorized by Section 144.054 (2), RSMo and provides a state and local sales tax exemption on tangible personal property leased by a company from the City or County. To qualify, cities and counties may apply to DED on behalf of eligible companies for which Chapter 100 bond proceeds are used to purchase tangible personal property, which is leased back to the company. DED may apply discretionary benefit exemption if the benefit contained in a formal DED proposal is accepted by the company. Since DED cannot enact the sales tax exemption on the lease without the underlying Municipality Chapter 100 in place, any inclusion in a formal DED proposal will be coordinated with the Municipality and their economic developer. The proposal must have been accepted by the company prior to any project announcements, no approval or issuance of the bonds may have taken place, and the tangible personal property may not have been purchased prior to the acceptance of the proposal. The project must also be competitive, have comprehensive local incentive participation, have above average wages with benefits, be located in an economically distressed or blighted area, have a positive state fiscal impact, and have an indication that the municipality has offered the local Chapter 100 exemptions. The company receives the exemption on sales tax as the facility, construction materials, and certain tangible personal property may be purchased as exempt by the City or County and then leased back to the company. The company will be responsible for the payment of sales tax on purchases exceeding the maximum accepted in the proposal, ineligible purchases, or the revenue stream generated by lease of ineligible personal property. There are no provisions for recapture and no other commitments are made as part of the agreement. The sales tax is applicable to the lease payments made over a period not to exceed 20 years by statute and restricted further by local ordinance. The sales tax exemptions are only applicable if tangible personal property purchases are made within established project time periods, as listed on the certificate. For fiscal year 2024, certificates were provided for the exemption of state sales tax related to lease payments of tangible personal property under a Chapter 100 structure for one project. The fiscal year 2024 project certificates total a cumulative amount of state sales tax not to exceed \$1,758,000 over the term of the lease.

Data Center Sales Tax exemption is authorized by Section 144.810, RSMo and incentivizes the location and expansion of data centers in the state by providing an exemption of the sales and use taxes associated with a variety of activities necessary to build a new facility or expand an existing facility. To qualify, companies must create 5 new jobs and \$5 million in investment for expanding facilities or create 10 new jobs and \$25 million in investment for new facilities within certain time frames. A company is refunded their sales and use taxes for new purchases related to the data center project for the period prior to meeting the threshold for participation and then are exempt for a period of no more than 10 years for expanding facilities or 15 years for a new facility. Taxes may be subject to recapture if the full investment projected is not met or if the jobs created are not maintained, causing the cost/benefit to the State to be negative, or if the company does not meet the minimum thresholds. Taxes will be recaptured up to the amount that creates a positive cost/benefit to the state, or if the company does not meet the minimum thresholds, the full exemptions to date must be repaid. No other commitments are made as part of the agreement. The amount that state taxes were reduced is confidential under Section 32.057, RSMo.

Redevelopment

The Historic Preservation Tax Credit is authorized by Sections 253.545-253.561, RSMo and provides an incentive for the redevelopment of commercial and residential historic structures in the state. Upon application, the eligible property must be listed on the National Register of Historic Places, be certified by the Department of Natural Resources (DNR) as contributing to the historical significance of a certified historic district listed on the National Register, or located within a local historic district that has been certified by the U.S. Department of Interior. The costs and expenses associated with the rehabilitation must exceed 50% of the total basis of the property. All approved applicants must commence rehabilitation within 2 years of the date of issuance of the letter of approval from DED. The program provides state tax credits equal to 25% of eligible costs and expenses of the rehabilitation of approved historic structures, which the recipient is able to use to reduce their outstanding tax liability in an amount equal to the value of their tax credit. The credit may be applied against income tax, bank tax, insurance premium tax, or other financial institutions tax. There are no provisions for recapture and no other commitments are made as part of the agreement. The Historic Preservation Tax Credit reduced state taxes by \$69,208,000 during fiscal year 2024.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2024

Note 19 - Tax Abatements (cont.)

Brownfield Remediation is authorized by Sections 447.700-447.718, RSMo and provides incentives to businesses or developers to redevelop property contaminated with hazardous waste. To qualify, the property must be abandoned or underutilized for at least 3 years, and contaminated with hazardous substance, the applicant cannot be a responsible party, the project must be accepted into Department of Natural Resources (DNR) Voluntary Cleanup Program, the project must be endorsed by city or county government, must create at least 10 new jobs or retain 25 jobs, the project must create a positive net state economic benefit, and must demonstrate need for the credits. The recipient is able to reduce their outstanding tax liability in an amount equal to the value of the tax credit. The tax credits may be issued for up to 100% of eligible costs and expenses for remediating the project property. The tax credit may also include up to 100% of the costs of demolition that are not directly part of the remediation activities. The amount of the credit available for demolition not associated with remediation cannot exceed the total amount of credits approved for remediation including demolition required for remediation. DED will issue 75% of the credits upon adequate proof of payment of the costs; the remaining 25% will not be issued until a clean letter has been issued by DNR. The tax credits may be applied against income tax, corporate franchise tax, bank tax, insurance premium tax, or other financial institutions tax. The tax credits may be subject to recapture in the event the owner sells the abandoned or underutilized property within a 5 year period after the receipt of remediation tax credits, grants, loans or loan guarantee. Subject to Sections 447.700-447.718, RSMo, the owner shall repay a portion of the tax credits and grant funds provided based on the percentage of the owner's investment for the project to DED's total financial assistance, upon achieving an annual internal rate of return of 25%. The internal rate of return calculation shall be documented by the owner's capital gains tax calculation. Owner investment is equity and debt for the eligible project. At the end of the project, a purchaser who has performed voluntary remediation action certifies to DNR that the goals of the purchaser's voluntary remediation plan have been attained. DNR verifies the remediation plan goals are achieved and issues a certificate that states that the site has been cleaned up to DNR standards pertaining to the property itself and therefore protects both current and future owners of the property. Brownfield Remediation reduced state taxes by \$4,394,000 during fiscal year 2024.

Note 20 - Commitments

Contracts

The Department of Conservation had contracts outstanding of \$56,000 for construction at June 30, 2024. These contracts are funded through special revenue funds from specific sales tax, fees, and permits.

The Department of Natural Resources had contracts outstanding of \$68,000 for construction at June 30, 2024. These contracts are funded through special revenue and enterprise funds.

The Department of Transportation had long-term contracts of \$2,363,197,000 outstanding at June 30, 2024. These contracts are paid from capital projects funds with approximately 34.6% federal reimbursement expected.

The Office of Administration, Division of Facilities Management, Design and Construction, had construction contracts outstanding of \$130,526,000 at June 30, 2024. Approximately 82.7% will be paid from the General Fund, 10.5% from special revenue funds, 0.8% will be paid from the capital projects funds, and 5.9% will be paid from enterprise funds.

On March 10, 1988, the State of Missouri entered into a contract with the United States Army Corps of Engineers confirming an assurance agreement of April 8, 1965. The State obtained rights to a portion of the water supply storage from the Clarence Cannon Dam and Mark Twain Lake Project. The State agreed to pay up to \$11.2 million plus interest for the investment costs allocated to the water supply storage, the amount of such payments to be determined by the portion of the water storage space put in use by the State for that purpose. The contract provided a ten year interest free period running from 1984 to 1994. In fiscal year 1995, the State began making interest payments. The interest payment amount for fiscal year 2024 was \$364,000. Payment of principal and interest must be completed by March 2038.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2024

Note 20 - Commitments (cont.)

As of June 30, 2024, the University of Missouri had outstanding commitments for the usage and ongoing support of the University Health System's information technology environment totaling \$151,132,000. The payments are as follows:

2025	\$	22,990,000
2026		23,403,000
2027		24,482,000
2028		25,595,000
2029		26,741,000
2030		27,921,000

Truman State University had approximately \$7,167,000 in outstanding commitments for various construction contracts at June 30, 2024.

Missouri State University had approximately \$108,500,000 in outstanding commitments for various construction contracts at June 30, 2024.

University of Central Missouri had approximately \$26,042,000 in outstanding commitments related to construction contracts at June 30, 2024.

Northwest Missouri State University had approximately \$5,813,000 in outstanding commitments related to construction contracts at June 30, 2024.

Southeast Missouri State University had approximately \$15,400,000 in outstanding commitments related to construction contracts at June 30, 2024.

Note 21 - Risk Management, Claims, and Judgements

The State is exposed to various risks of loss related to tort, general, motor vehicle, and contractor liability and injuries to employees. The State assumes its own liability for risks except for the purchase of surety bond, aircraft, and boiler coverage. The State's Office of Administration (OA), Risk Management Unit, self-insures its workers' compensation program for all state employees, with the exception of the Missouri Department of Transportation (MoDOT) and the State Highway Patrol. Liability insurance is also provided by OA-Risk Management, pursuant to state statute, through the State's Legal Expense Fund, which is a component of the General Fund in this report. This insurance covers all state employees.

The Workers' Compensation and Legal Expense Fund claims liability is based upon actual claims that have been submitted to OA-Risk Management. Incurred but not reported (IBNR) liability is not included since workers' compensation and liability insurance claims are reported timely, and therefore any potential IBNR liability amount would be considered immaterial. The State has not had any insurance settlements exceed the coverage. OA-Risk Management also procures property insurance for approximately 3% of all state buildings, with the remainder uninsured. The buildings are insured through purchased property insurance and through the Property Preservation Fund. Buildings insured through the Property Preservation Fund are backed with bonded debt through the Board of Public Buildings.

The Transportation Self-Insurance Plan covers workers' compensation for employees of MoDOT and the State Highway Patrol and covers vehicle liability and general liability insurance for the employees of MoDOT. The Transportation Self-Insurance Plan is presented as an internal service fund. Liabilities are reported when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. Estimated pending self insurance claims represent the expected losses to be realized on known claims pending and include minor non-incremental claims adjustment expenses. Estimated unreported claims represent expected losses or claims incurred but not reported. Amounts are reported based on actuarial calculations. Liabilities for incurred losses related to workers' compensation and general and vehicle liability claims are reported at their discounted value, assuming an investment yield of 2.0%.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2024

Note 21 - Risk Management, Claims, and Judgements (cont.)

The Missouri Consolidated Health Care Plan (MCHCP) provides health care insurance to all state employees, except for MoDOT, the State Highway Patrol, and the Department of Conservation. The Plan for active employees is presented as an internal service fund. Estimated claims payable is based on known medical claims pending as well as an estimate of IBNR claims from data provided by an actuary.

The MoDOT and MSHP Medical and Life Insurance Plan (MHPML) accounts for the medical coverage provided on a self-insured basis and life insurance benefits, for employees of MoDOT and the State Highway Patrol. The Plan is presented as an internal service fund. Estimated claims payable is established from an actuarial report, which is based on data by MoDOT and claims administrators.

The Conservation Employees' Insurance Plan (CEIP) provides health care and life insurance to employees of the Department of Conservation. The Plan is presented as an internal service fund. Estimated claims payable is based on known claims pending as well as an estimate of IBNR claims.

On August 14, 2012, a lawsuit was filed against the Department of Corrections, *Hootselle v. Department of Corrections*, No. 12AC-CC00518. Several corrections officers alleged that the Missouri Department of Corrections failed to compensate them for pre- and post-shift activities, including passing through security checkpoints and retrieving equipment such as keys and radios. They entered a settlement agreement on June 1, 2022. Final judgement was entered on October 11, 2022.

The Petroleum Storage Tank Insurance Fund (PSTIF) has claims liability for the cost of contamination cleanup for participants and other eligible site owners who have submitted notice of a contamination. The PSTIF is presented as a non-major enterprise fund.

The University of Missouri System provides workers' compensation, liability, and medical insurance for its employees. The University funds this through a combination of self-insurance and commercially purchased insurance. The amount of coverage is based upon analysis of historical information and actuarial estimates. Settled claims have not exceeded commercial coverage in any of the past three fiscal years. The claims liability is the present value of the claims, using discount rates ranging between 0.50% and 4.00% based on expected future investment yield assumptions. The University of Missouri System is included with college and universities as a major component unit of the State.

Missouri State University is exposed to various risks of loss. These include loss related to torts; theft of, damage to, and destruction of assets; business interruption; errors and omissions; employee injuries and illnesses; natural disasters; and employee health, dental, and accidental benefits. Commercial insurance coverage is purchased for claims arising from such matters other than those related to general liability, workers' compensation, natural disasters, and employee health benefits. Settled claims have not exceeded the commercial coverage in any of the three preceding years. Additional coverage is provided through the State Self-Insurance Program, through the Risk Management Unit of the Office of Administration. The State of Missouri self-insures the workers' compensation benefits for all state employees, including University employees.

Southeast Missouri State University is exposed to various risks of loss related to torts, theft of, damage to and destruction of assets, business interruption, errors and omissions, employee injuries and illnesses; natural disasters and employee health and accident benefits. The University purchases commercial insurance and receives coverage through the State of Missouri for these risks of loss. Settled claims have not exceeded this commercial coverage in any of the three preceding years.

Risk Management Pool:

The Midwestern Higher Education Compact (MHEC) property program, participated in by the State of Missouri, concluded on July 1, 2023. The program will no longer be accepting new submissions but will continue to handle claims that occurred prior to the program conclusion. This program, as defined in Section 173.700, RSMo, was formed to expand coverage, reduce costs, and stabilize property insurance rates over extended time periods at higher education institutions in all member states. The program offers loss limit coverage tailored to individual institutions as well as self-insured retention by the institution. The MHEC Risk Management Oversight Committee directs the major operations of the program, overseeing the development of program policies, premium allocations, new program memberships, and selection of program administrators and insurance underwriters.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2024

Note 22 - Pollution Remediation and Landfill Closure and Postclosure

The State has an obligation to address current or potential detrimental effects of existing pollution by participating in pollution remediation activities.

The Missouri Department of Natural Resources (DNR) was compelled to assess and oversee the cleanup of contaminated sites subject to federal law under the Resource Conservation and Recovery Act (RCRA), also known as the Superfund Law, administered by the U.S. Environmental Protection Agency (EPA). Under this law, the State is required to pay or ensure payment of 10% of the costs of remediation action and 100% of the costs of operations and maintenance at sites where the party responsible for the contamination is unknown, uncooperative, or insolvent. Similarly, Section 260.391.7, RSMo, states that the public should bear a portion of the cost to pay for the State's share of Superfund cleanup to be appropriated from general revenue. At the end of fiscal year 2024, the State was participating in the cleanup of twenty Superfund sites. Total pollution remediation obligation for these sites totaled approximately \$58.7 million. The basis for these costs are State Superfund contracts that list the estimated cost of cleanup, or actual costs if cleanup is complete, less any payments that have been made to the EPA. Estimated costs will change as actual costs become available. The Hazardous Waste Fund is a component of Conservation and Environmental Protection.

The Missouri Department of Transportation (MoDOT) is in remediation activities related to buildings and grounds caused by contamination and a fuel leak. The current pollution remediation obligation for these sites total approximately \$8.0 thousand. The potential for additional pollution remediation exists, however, any future remediation obligations are not yet estimable.

The Missouri National Guard has been named as a potentially responsible party in the Pools Prairie Superfund site in Newton County, Missouri. The site is listed on the National Priorities List (NPL) and is governed by the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). At this time, the Missouri National Guard's portion of the costs for the cleanup cannot be determined.

Changes in the balances of pollution remediation liability (in thousands of dollars) during the current fiscal year are as follows:

Governmental Activities	Type of Pollution Remediation	Fiscal Year Remediation Liability 6/30/2023	Current Year Assessments and Estimated Changes	Payments	Fiscal Year Remediation Liability 6/30/2024	Due Within One Year
DNR	Superfund Sites	\$ 49,068	\$ 12,948	\$ (3,363)	\$ 58,653	\$ 2,663
MoDOT	Buildings and Grounds Remediation	5	3	—	8	—
Total Governmental Activities		<u>\$ 49,073</u>	<u>\$ 12,951</u>	<u>\$ (3,363)</u>	<u>\$ 58,661</u>	<u>\$ 2,663</u>

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2024

Note 22 - Pollution Remediation and Landfill Closure and Postclosure (cont.)

Each landfill owner/operator is required to obtain a financial assurance instrument, which is held by the State as security in the case of a default or forfeiture. Financial assurance instruments can include financial guarantee or performance bonds, letters of credit, insurance policies, corporate guarantees, contracts of obligations, trust funds, and escrow accounts. At June 30, 2024, the DNR, Solid Waste Program tracked the value of the secured financial assurance instruments held by the State to be \$393.0 million. This amount is disclosed, but not reported in the financial statements, because the State does not perform the investment function and does not have significant administrative involvement. While the State maintains possession of the financial assurance instruments, it does not meet criteria to be reported in a fiduciary fund.

As of June 30, 2024, Missouri Department of Natural Resources (DNR) had ten active Municipal Solid Waste Landfills (MSWLFs), no disposal transfer stations, and there was none in bankruptcy and no defaults. The owners/operators failed to properly close or maintain post-closure care for these facilities; therefore, the State took possession of the forfeited financial assurance instruments to initiate the closure or post-closure activities as required by Section 260.228, RSMo. The State will monitor and pay post-closure care costs of these facilities for the next 30 years in accordance with the DNR Solid Waste Management Law and Regulations. At June 30, 2024, it is expected that \$1.7 million will be paid over the remaining monitoring periods. This is the amount of the assigned fund balance that has been designated on the General Fund balance sheet for forfeited assets. The percentage of landfill capacity used to date is 40.88 percent. The estimated remaining landfill life is 20.66 years.

In fiscal year 2023, as previously disclosed, the University of Missouri System submitted a formal plan with the Nuclear Regulatory Commission (NRC) for the decommissioning of a University owned building. The estimated costs of the remediation and deconstruction of the building is recorded as a liability of \$11.7 million. The NRC has two years to review and approve the plan. Once approved, the University of Missouri System plans to begin the remediation and deconstruction in fiscal year 2025.

Note 23 - Asset Retirement Obligations

The State has a legally enforceable obligation to perform future asset retirement obligations (ARO) related to its tangible capital assets.

The Missouri Department of Natural Resources (DNR) has a total ARO of \$1,717,000 for gas chromatographs, radiation detectors, chemical detectors, petroleum above ground storage tanks, and permitted sewage treatment plants. Gas chromatographs and radiation detectors are considered radioactive sources and will not be accepted by the State's Surplus Property Program, thus requiring a cost for disposition. These ARO's are measured at the current cost of returning the items to the vendor. Gas chromatographs have remaining useful lives of 0 to 5 years and radiation detectors have remaining useful lives of 0 to 4 years. Chemical detectors have a remaining useful life of 0 to 5 years. The ARO for petroleum above ground storage tanks is measured using the best estimate for taking the tanks out of service, which consists of emptying the tanks, removing the secondary containment, and proper disposal. Remaining useful lives of the tanks are 0 to 11 years. Aboveground storage tanks are regulated under the Missouri Code of State Regulations 2 CSR 90-30.050.16. The ARO for permitted sewage treatment plants is measured using the best estimate for closure of the facilities, which includes submitting a closure plan to DNR addressing wastewater and sludge removal, dewatering activities, removal of treatment structures, and removal of solid waste or leaving in place as a clean fill. Remaining useful lives of the plants are 0 to 43 years. Permitted sewage treatment plants are regulated by the Missouri Code of State Regulations 10 CSR 20-6-011.12 and the Federal Clean Water Act. The ARO for these items would be funded by state appropriations.

The Missouri Department of Transportation (MoDOT) has an ARO of \$44,000 to properly dispose of all nuclear gauges used to measure physical properties of materials during its construction projects. The ARO is measured using the current cost of returning the items to the vendor. The assets have an anticipated useful life of 15 years. Disposal of the nuclear gauges is required by the Nuclear Regulatory Commission - NUREG 1556 Volume 1 Rev 2. The ARO will be funded by state appropriations.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2024

Note 23 - Asset Retirement Obligations (cont.)

The National Guard (NG), Office of the Adjutant General, has an ARO of \$30,000 to take two underground storage tanks out of service. The ARO is measured using the current cost for closure and the assets have estimated remaining useful lives of 20 years. Underground storage tanks are regulated under the Missouri Code of State Regulations 10 CSR 26. The ARO will be funded by state appropriations.

The University of Missouri (MU) has an ARO based on its ownership of two nuclear research reactors, which are regulated by the U.S Nuclear Regulatory Commission (NRC). The NRC requires the University to submit decommissioning funding plans every three years to retain the right to operate the reactors. The decommissioning funding plans update and adjust changes in costs to remediate and the extent of the estimated future contamination. The cost to decommission the reactors is based on a formula as set forth by the NRC as part of the licensing of the facilities. The ARO as of the end of fiscal year 2024 was \$62,433,000. The remaining useful lives of the reactors was 18 years.

The balances of the asset retirement obligations (in the thousands of dollars) during the current fiscal year are as follows:

<u>Governmental Activities</u>	<u>ARO Liability at June 30, 2024</u>
DNR	\$ 1,717
MoDOT	44
NG	30
Total Governmental Activities	<u>\$ 1,791</u>
 <u>Business-Type Activities</u>	
DNR	<u>\$ 2</u>
 <u>Component Units</u>	
MU	<u>\$ 62,433</u>

Note 24 - Contingencies

Contingent Claims Liabilities

Contingent claims liabilities are reported when it is probable a loss has occurred and the amount can be reasonably estimated. These losses include estimates of claims which have been incurred but not reported, including the effects of specific, incremental claim adjustment expenditures/expenses, salvage, subrogation, and other allocated or unallocated claim adjustment expenditures/expenses. Liabilities of governmental funds are reported as a reconciling item to the Government-Wide Statement of Net Position. Expenditures are recognized as payments are made.

As of June 30, 2024, the amount of contingent liabilities was \$64.1 million. Changes in reported liability since June 30, 2023, resulted from the following (in thousands of dollars):

	<u>Beginning of Fiscal Year Liability</u>	<u>Current Year Claims and Changes in Estimates</u>	<u>Claim Payments</u>	<u>Balance Fiscal Year End</u>
2023-2024	\$ 65,250	\$ 25,054	\$ (26,225)	\$ 64,079
2022-2023	70,023	18,727	(23,500)	65,250

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2024

Note 24 - Contingencies (cont.)

Section 287.220.8, RSMo, requires an actuarial study of the Second Injury Fund be made every year to determine solvency of the fund. Figures presented below for current year claims and changes in estimates are based on the 2023 actuarial study. As at June 30, 2024, the amount of liabilities for Second Injury Fund was \$2.4 billion. Changes in reported liability since June 30, 2023, resulted from the following (in thousands of dollars):

	Beginning of Fiscal Year Liability	Current Year Claims and Changes in Estimates	Claim Payments	Balance Fiscal Year End
2023-2024	\$ 2,350,486	\$ 81,563	\$ (47,050)	\$ 2,384,999
2022-2023	2,315,842	92,166	(57,522)	2,350,486
2021-2022	2,243,668	140,945	(68,771)	2,315,842

The State receives federal grants which are subject to review and audit by federal grantor agencies. This could result in requests for reimbursements by the grantor agency for expenditures disallowed under grant agreements. The State believes such dis-allowances, if any, would be immaterial in the next fiscal year.

Tort Claim Lawsuits:

The Attorney General, on behalf of other state agencies, is involved in litigation for tort claims including wrongful death, motor vehicle accidents, medical malpractice, assault and battery, and deliberate indifference, as well as employment discrimination claims not included in the 2024 liability amount. It is reasonably possible an adverse court decision may incur an estimated loss of \$18.8 million.

Department of Labor and Industrial Relations:

Louise Jones, et al. v. Missouri Labor and Industrial Relations Commission, No. 23AC-CC04623 (Cole County Circuit Court). Plaintiffs filed a putative class action July 28, 2023, seeking a declaratory judgment that the Missouri Labor and Industrial Relations Commission payments on 2022 tort victims' compensation fund awards are unlawful in that they are based on incorrect numbers in violation of the express statutory framework for calculating payments. Plaintiffs seek payment of the entire tort victim's compensation fund, which exceeds \$274.0 million. An evaluation of the likelihood of a favorable or unfavorable outcome and an estimate of the amount or range of potential loss cannot be made at this time. The ultimate resolution of the case cannot be predicted with any degree of certainty.

HHS Technology Group Holdings (EngagePoint), LLC v. State of Missouri, No. 16AC-CC00335 (Cole County Circuit Court). Plaintiff EngagePoint filed this lawsuit on August 11, 2016, alleging breach of its contract to serve as the prime contractor for the State's Medicaid Eligibility Determination and Enrollment System (MEDES). The State terminated EngagePoint in May 2015 after EngagePoint failed to complete contractually required work. EngagePoint claims over \$37.0 million in damages stemming from unpaid change order requests. The State has asserted a counterclaim for over \$80.0 million based on the difference between the price bid by EngagePoint and the actual cost of completing MEDES using a replacement contractor. Trial was completed in July 2022, and a jury awarded EngagePoint \$23.0 million, along with prejudgment and post-judgment interest of 9% per annum. The immediate appellate court affirmed the judgment entered against the State. An evaluation of the likelihood of a favorable or unfavorable outcome and an estimate of the amount or range of potential loss cannot be made at this time. The ultimate resolution of the case cannot be predicted with any degree of certainty. The office of Attorney General is vigorously defending this matter.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2024

Note 24 - Contingencies (cont.)

Department of Social Services:

The United States Department of Justice (DOJ) opened an investigation against Missouri regarding compliance with ADA and Olmstead on November 16, 2022. Documents were produced by DSS to the DOJ throughout the course of the investigation. In June of 2024, the DOJ issued a report finding Missouri violated the Americans with Disabilities Act (ADA) by unnecessarily institutionalizing adults with serious mental illness in skilled nursing facilities. The liability associated with the findings is uncertain and not reasonably ascertainable at this time.

Department of Corrections:

Othel Moore v. DOC et al. (anticipated litigation). No lawsuit has been filed to date in this matter. However, the office of the Attorney General has been notified of this potential liability. Based on the circumstances of this case, litigation is anticipated but not guaranteed. Inmate Othel Moore died in a DOC facility in December 2023, while in a restraint system designed to prevent injury to himself and others. Several former DOC staff members were charged with felony murder and or manslaughter in connection with Othel Moore's death. An evaluation of the likelihood of a favorable or unfavorable outcome cannot be made at this time. The ultimate resolution of this matter, including whether it will be filed, cannot be predicted with any degree of certainty.

Department of Health and Senior Services:

The Nurse Student Loan Program provides forgivable student loans to eligible Missouri undergraduate, graduate, post-graduate, and doctoral nursing students in exchange for service in underserved communities and facilities in the state. Current annual award levels, based on statute, are a one-time amount of \$2,500 for LPN students and \$5,000 for professional nursing students. Loans are repaid either through service in an underserved area, or via cash repayment at 9.5% simple interest.

For repayment via service, participants provide one year of professional service for each school year a loan is received, up to a maximum of 5 years. The number of loans awarded per year varies based upon available funding, number of previous students anticipating continued funding, and number of eligible new applicants.

The Health Professional Student Loan Program is a competitive state program that awards forgivable loans to students pursuing health care training leading to Missouri licensure. Eligible disciplines are primary care physicians, primary care dentists, and dental hygienists. The amount of funding provided depends upon the student's chosen discipline and educational status. Repayment of loans can be completed either through obtaining employment to earn forgiveness or through cash repayment at 9.5% simple interest. Forgiveness is based upon the number of loans received and is earned at a rate of one year of professional service for each loan received, up to a maximum of 5 years. Qualifying employment is considered as full-time, direct patient care at a facility located in an area of need also referred to as a Health Professional Shortage Area.

The purpose of the Missouri Health Professional State Loan Repayment Program (SLRP) is to improve access to primary care by assisting rural and underserved communities with recruitment and retention of primary care providers. SLRP offers eligible healthcare providers an opportunity to receive up to \$50,000 in financial assistance towards the repayment of their qualifying educational loans in exchange for a minimum two-year commitment to provide healthcare services at an ambulatory public, nonprofit or private nonprofit primary care practice site located in a federally designated Health Professional Shortage Area.

The Missouri Nurse Loan Repayment Program offers Registered Nurses and Advanced Practice Registered Nurses an opportunity to receive financial assistance towards the repayment of their qualifying educational loans in exchange for a minimum two-year commitment to provide healthcare services in an area of defined need in the State of Missouri.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2024

Note 24 - Contingencies (cont.)

For all types of loan programs, in the event of a default, i.e. the loanee does not complete the service agreement, the loan status changes to repayment. In the event the loanee does not repay according to the terms of their agreement, the Department of Health and Senior Services will work with the Attorney General's Office to try to collect the outstanding receivables. The current total amount of loans outstanding is \$5.9 million; the total amount in repayment is \$2.1 million. There is no correlation between who will or will not repay their debt once a default has occurred since it is subject to each individual case and the legal remedies pursued. Therefore, the amount of loss cannot be reasonably estimated.

Other Contingencies:

Charles Lane et al. v. Police Retirement System of the City of St. Louis, et al., No. 2122-CC00751. The plaintiff seeks a declaration and judgement that certain Missouri Statutes impacting the obligations of the St. Louis Police Retirement System are unconstitutional under the Hancock Amendments to the Missouri constitution. A favorable judgement for the Plaintiffs and or non-state Defendants would likely mean the that certain components of the St. Louis Police Retirement System would be the responsibility of the state. An evaluation of the likelihood of a favorable or unfavorable outcome and an estimate of the amount or range of potential loss cannot be made at this time. The ultimate resolution of the case cannot be predicted with any degree of certainty.

Donald Nash v. Henry Folsom, et al., No. 4:21-vv-00495-SEP (US Eastern District Ct. - Missouri). The plaintiff, after being granted habeas relief and his conviction overturned, filed a suit in federal court against several Missouri public officials for unlawful arrest and detention, fabrication of evidence, and failure to investigate. As a result of the 8th Circuit Court upholding the denial of qualify immunity for certain public official, the risk of a unfavorable outcome to the state at trial is moderate to high. Estimated exposure ranges between \$0 - \$15 million. The ultimate resolution of the case cannot be predicted with any degree of certainty.

Tobacco Master Settlement Agreement:

Under the 1998 Tobacco Master Settlement Agreement ("MSA"), Missouri receives annual settlement payments in perpetuity from Participating Manufacturers ("PMs") of tobacco products. Each year on or about April 15th, Missouri receives an annual payment typically between \$100 and \$140 million. Annual MSA payments are subject to a downward adjustment if the PMs lose more than 2% of their pre-MSA market share to Non-Participating Manufacturers ("NPMs"). Individual states may avoid their share of this "NPM Adjustment" by enacting and diligently enforcing model legislation, which imposes certain escrow obligations on NPMs

The tobacco manufacturers contest Missouri's enforcement of the model legislation for 2004 and subsequent years, each of which is subject to binding arbitration. The circuit court denied both parties' motions to vacate. However, the matter has been appealed and the Attorney General office is vigorously defending this matter in the appellate courts.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2024

Note 24 - Contingencies (cont.)

Contingent Gains

Contingencies that might result in gains are not reported on the statements since they are not realizable.

Attorney General Litigation:

State of Mo ex rel Attorney General Andrew Bailey v. Dolgencorp, LLC d/b/a Dollar General, No. 2322-CC06910 (St. Louis City Court). The State of Missouri brought a civil lawsuit against Dollar General for deceptive practices that violate the Missouri Merchandising Practices Act, for every day staples and necessities and then deceive customers as to the prices they are actually paying for these items by routinely charging higher prices at the point of sales than the prices listed on the shelf. The state asks the Court to enjoin Dollar General from these practices, for civil penalties, and for restitution. This matter is ongoing and the Office is vigorously litigating the matter. At this time, we cannot predict with any degree of certainty the potential gain and/or restitution to the state and Missouri consumers.

State of Mo v. Jackson County and Tyler Technologies, Inc., et al., No. 2316-CV33643 (Jackson County Circuit Court). The State of Missouri brought a civil lawsuit against Jackson County, Missouri, and Tyler Technologies over failures to follow the law with respect to 2023 property assessments and Merchandising Practices Act violations. Missouri asks the Court to void the 2023 tax assessments, require Jackson County to issue refunds to the state and its taxpayers, and for penalties and damages. This matter is ongoing and at this time, the Office cannot predict with any degree of certainty the potential gain and/or refunds to the state and its taxpayers.

In re Generic Pharmaceuticals Pricing Antitrust Litigation, No. 2:16-md-02724 (US District Courts - Eastern District of Pennsylvania). This is a multi-state anti-trust litigation. Plaintiffs, including Missouri and other states, allege generic drug manufacturers concocted a broad scheme to fix generic drug prices as well as engaged in illegal market and customer allocations concerning many generic drugs. Plaintiffs allege the generic drug manufacturers' conduct violates certain federal and state anti-trust laws. At present, Plaintiffs claims encompass at least 18 generic drugs. This matter is a large, multi-district litigation. The Office is assisting with and vigorously litigating the matter and protecting the interests of Missouri and its citizens in this litigation. The Office cannot predict with any degree of certainty the potential gain to the state, given the the status and nature of the case.

Natural Resource Settlements:

The Department of Natural Resources works jointly with the United States Fish and Wildlife Service and United States Forest Service to recover damages from parties responsible for causing injuries to natural resources. Funds from these settlements are typically held in the federal treasury in a joint account administered by the United States Department of Interior. Expenditures of these funds may only be by mutual agreement of the Missouri Trustee Council (the Department of Natural Resources, the United States Fish and Wildlife Service and, at times, United States Forest Service) and such funds may only be used to restore, replace, or acquire natural resources similar to those that were injured. As of June 30, 2024, the balance of Missouri-related joint settlement funds in the Department of Interior restoration fund is approximately \$46.9 million.

Opioid Settlements:

The State of Missouri is receiving and will continue to receive money from companies who manufactured, sold, distributed, or marketed opioids. Receivables, revenues, and/or deferred revenues have been recognized accordingly within the statements. Many settlements, some known and others likely unknown, will be finalized in the future. Therefore, the full contingent gain cannot be predicted with any degree of certainty but will be within the hundreds of millions of dollars.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2024

Note 25 - Nonexchange Financial Guarantees

The following nonexchange financial guarantees are extended by the Missouri Agricultural and Small Business Development Authority (MASBDA) and the Missouri Department of Agriculture (MDA). The exchange financial guarantees are not recognized as a liability, which indicates that the State will most likely not be required to make a payment related to the nonexchange financial guarantees. As of June 30, 2024, the State extends the following financial guarantees:

Programs	Maximum Guarantee Period	Total Number of Loans Outstanding	Total Dollar Amount of Loans Outstanding (in thousands)	Total Dollar Amount Guaranteed by the State (in thousands)
Crop and Livestock Loan Guarantee Program	2 Years	16	46	23

Missouri Value-Added Loan Guarantee Program

The Missouri Value-Added Loan Guarantee Program, authorized in Sections 348.400-348.415, RSMo, provides up to a 50% first-loss guarantee on loans, of \$250,000 or less, made by lenders for the purpose of agricultural business development. The loan guarantee is for a duration of up to 10 years. The program is intended to create new economic activity by creating or retaining jobs. Loans guaranteed by the value-added loan guarantee program can be used to finance agricultural property, which includes land, buildings, structures, improvements, and equipment used for the purpose of processing, manufacturing, marketing, exporting, or adding value to an agricultural product. Loans may also be guaranteed to buy stock in a new generation processing entity that processes an agricultural product. In the event of a default, the MASBDA will work with the Attorney General's Office or the loan recipient's bank to try to collect. As of June 30, 2024, there are four loan defaults under this program. The outstanding balance on judgments for amounts owed to the State totals \$52,000 and there are no outstanding Missouri Value-Added Loan guarantees.

Single-Purpose Animal Facilities Loan Guarantee Program

The Single-Purpose Animal Facilities Loan Guarantee Program, authorized in Sections 348.185-348.225, RSMo, is designed to provide banks and other lenders with a 50% first-loss guarantee on loans of up to \$250,000 for up to 10 years. Independent livestock producers may use the loans to finance, refinance or restructure breeding or feeder livestock, earthworms, land, buildings, facilities, equipment, machinery and animal waste systems for producing poultry, swine, beef and dairy cattle, or other livestock. In the event of a default, the MASBDA will work with the Attorney General's Office or the loan recipient's bank to try to collect. There were no loan defaults under this program in fiscal year 2024, and there were no outstanding Single-Purpose Animal Facilities Loan Guarantees.

Crop and Livestock Loan Guarantee Program

The Crop and Livestock Loan Guarantee Program, authorized in Section 261.027(3), RSMo, is a 50% guarantee on a loan made to a 4-H and Future Farmers of America (FFA) member who borrows money to purchase livestock, input, etc., for their Supervised Agriculture Education (SAE) project. Loans eligible for the program are limited to the purchase of livestock, feed, seed, fertilizer, and other miscellaneous out-of-pocket expenses directly related to the project. In the event of a default, the MDA will work with the Attorney General's Office or the loan recipient's bank to try to collect. As of June 30, 2024, there are four loan defaults under this program. The outstanding balance on judgments for amounts owed to the State totals \$1,500.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2024

Note 26 - Joint Ventures

The Regional Convention and Sports Complex Authority was created by state law for the purpose of financing, constructing, operating, and maintaining a multipurpose convention and sports facility to be located in the City of St. Louis. The Authority operates under a board of commissioners of whom five are appointed by the Governor of the State, three by the County Executive of St. Louis County, and three by the Mayor of the City of St. Louis. The Authority is granted all rights and powers necessary to plan, finance, construct, equip, and maintain the facility.

The Authority is considered a joint venture of the State, County, and City because it constituted a contractual agreement for public benefit in which the State, County, and City retained an ongoing financial responsibility for the Convention and Sports Facility Project Bonds.

Pursuant to a financing agreement entered into in August 1991, which terminated in August 2021, the Authority leased the facility to the sponsors who subleased the facility back to the Authority. The payments made by the State, County, and City under the financing agreement were sufficient to pay the principal and interest on the bonds. There is no outstanding obligation remaining on the bonds and the annual preservation payments ended during fiscal year 2024.

Summary financial information for the Authority as of and for the fiscal year ended December 31, 2023, is presented below (in thousands of dollars):

Total Assets	<u>\$ 198,829</u>
Total Liabilities	\$ 1,647
Total Net Position	<u>197,182</u>
Total Liabilities and Net Position	<u>\$ 198,829</u>
 Total Revenues	 \$ 6,807
Total Expenses	<u>11,595</u>
Net Increase (Decrease) in Net Position	<u>\$ (4,788)</u>

Copies of the Authority's financial statements may be requested from:

St. Louis Regional Convention
and Sports Complex Authority
901 North Broadway
St. Louis, Missouri 63101

Note 27 - Endowments

Donor-restricted endowments for Missouri reside primarily within the higher education institutions, which are reported as a major component unit of the State. For the college and universities, except the University of Missouri, the net appreciation/depreciation of the endowments is 6,115,000. Of this amount, \$950,000 is reported as restricted non-expendable, 5,091,000 is reported as restricted expendable, and \$74,000 is reported as unrestricted net position. The University of Missouri reported a net appreciation/depreciation of restricted non-expendable net position in the amount of \$241,291,000 which consisted of both realized and unrealized gains and losses on investment. For detailed information on the college and universities, please see the individual financial statements. The Revised Statutes of Missouri authorize the acceptance of donations at State agencies or public institutions. The governing boards of these institutions and the donor agreements determine whether net appreciation can be spent and the acceptable spending rate as detailed in Section 402.134, RSMo. These policies are entity specific and vary with each institution.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2024

Note 28 - Conduit Debt

As of June 30, 2024, the Missouri Development Finance Board issued \$1,687,968,000 in Private Activity Bonds and \$3,065,459,000 in Public Purpose and Refunding Revenue Bonds. The outstanding balances on these bonds and notes as of June 30, 2024, were approximately \$330,619,000 and \$748,213,000, respectively. The Missouri Development Finance Board and the State have no liability for repayment of these revenue bonds and funding notes aside from reserve fund deposits and, accordingly, these bonds and notes have not been recorded as a liability on the financial statements for the Missouri Development Finance Board. The debtor pays all debt service requirements. Security for the bondholders consists of insurance, letters of credit, annual appropriation pledges, and certain funds held through trustees under the various indentures. The Missouri Development Finance Board has agreed to fund a secondary reserve account in the amount of \$326,000 for a portion of the debt issued, however, it is not expected to need to be accessed for debt payment on the bonds.

As of June 30, 2024, the State Environmental Improvement and Energy Resources Authority (EIERA), a component unit of the State of Missouri, had an outstanding balance of approximately \$492,266,000 in Tax Exempt Revenue Bonds. Of this outstanding amount, \$185,396,000 is for Water Pollution Control and Drinking Water Revenue Bonds issued on behalf of the Department of Natural Resources. The State of Missouri has no liability for repayment of these revenue bonds beyond the resources provided by related loan programs. The bonds are limited obligations of EIERA.

Note 29 - Subsequent Events

Bonds

On August 12, 2024, the Missouri Development Finance Board (MDFB) issued \$6.5 million of Recreational Facilities Revenue Bonds Series 2024. These bonds were issued to finance the Gateway Region YMCA Project, located in Chesterfield.

On December 1, 2024, the Missouri Development Finance Board (MDFB) issued \$16.4 million of State Annual Appropriation Revenue Bonds, Series 2024. These bonds were issued to finance the Timberlake Center Project and purchase of one office building located in St. Louis.

I-44 Project

The General Assembly and the Governor approved, as part of the fiscal year 2025 budget, a total of \$577.5 million for the expansion of I-44 to six lanes from Rolla to Joplin. The budget includes funds for the costs to plan, design, construct, reconstruct, rehabilitate and repair three lanes in each direction.

Attorney General lawsuits

Donald Nash v. Henry Folsom, et al., No. 4:21-vv-00495-SEP (US Eastern District Ct. - Missouri). The plaintiff, after being granted habeas relief and his conviction overturned, filed a suit in federal court against several Missouri public officials for unlawful arrest and detention, fabrication of evidence, and failure to investigate.

HHS Technology Group Holdings, LLC (EngagePoint) v. State of Missouri. The immediate appellate court affirmed the judgment entered against the State. The Attorney General's office is still vigorously defending this matter in the appellate courts and recently filed an application for transfer to the Supreme Court.

Doris Ann Scott and Oriel Moore v. Ann Precythe et al., No. 2:24.cv.014107.MDH. Inmate Othel Moore died in a DOC facility in December 2023. The plaintiffs filed an amended complaint in this litigation in October 2024.

An ongoing suit for the 2004 Tobacco Master Settlement Agreement, see note 24 for more information, was appealed after fiscal year-end.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2023

Note 29 - Subsequent Events (cont.)

Pensions

On September 19, 2024, MOSERS board of trustees voted to approve a contribution rate of 30.25% for fiscal year 2026, 3.06% higher than the actuarially determined contribution rate of 27.19%.

Universities

On September 18, 2024, the University of Missouri issued \$362,640,000 in Series 2024 System Facilities Revenue Bonds. The bonds were issued for the purpose of refunding Series 2007B and 2014A System Facilities Revenue Bonds, in addition to reimbursing \$200 million of the costs of the construction of the new Children's Hospital.

***Required Supplementary Information (RSI)** includes the Budgetary Comparison Schedule for the General Fund and Major Special Revenue Funds, as well as the Budget to Generally Accepted Accounting Principles (GAAP) reconciliation, Schedule of Changes in Net Pension Liability and Related Ratios, Schedule of Proportionate Share of the Net Pension Liability, Schedule of State Contributions, Schedule of Changes in Total OPEB Liability and Related Ratios, Schedule of Changes in Net OPEB Liability and Related Ratios, Schedule of Proportionate Share of the Collective Net OPEB Liability, and the Notes to RSI on Budgetary Reporting.*

STATE OF MISSOURI
NOTES TO REQUIRED SUPPLEMENTARY INFORMATION
BUDGETARY REPORTING
June 30, 2024

Budgetary Presentation:

A Budgetary Comparison Schedule is presented as Required Supplementary Information for the State's General Fund and Major Special Revenue Funds. Revenues and expenditures are reported on a budgetary basis where actual revenues are recognized when cash is received, and actual expenditures are recognized for cash disbursements. The accounting principles applied for reporting on a budgetary basis differ from those used to present the financial statements in accordance with GAAP. A reconciliation of the two for the fiscal year ended June 30, 2024, has been presented at the bottom of the Budgetary Comparison Schedule.

The budgetary expenditures are included in the current year's Appropriation Activity Report, which demonstrates legal compliance with the current year's budget. This report can be viewed at <https://acct.ao.mo.gov/reports/annual-reports/appropriation-activity-reports>. The original budget expenditures and transfers are for what was originally appropriated for each fund. The final budget expenditures and transfers takes into account any increases and decreases to appropriations during the fiscal year less the Governor's amounts reverted (withheld) for each fund less any reappropriations to the next fiscal year.

Once a year, the Office of Administration-Division of Budget and Planning receives budgeted revenues from state agencies for each of their funds as well as a revised revenue estimate in the spring for the State's General Revenue Fund. The revised revenue estimate is used in the final budget column for the General Fund and is very comparable to actual revenue resulting in a small negative variance on this Schedule.

In accordance with State statute, all state funds must have an appropriation before amounts can be expended or transferred to another state fund; therefore, variances between budgeted and actual expenditures and transfers out on the budgetary schedule will always be positive.

For budget purposes, interfund activity is not eliminated. A summary of interfund eliminations at June 30, 2024, is shown below (in thousands):

	Final Budget Transfer		Actual Transfer	
	In	Out	In	Out
GENERAL FUND	\$ 6,844,634	\$ (6,844,634)	\$ 4,384,817	\$ (4,384,817)
SPECIAL REVENUE FUNDS				
Public Education	386,409	(386,409)	380,195	(380,195)
TOTAL	<u>\$ 7,231,043</u>	<u>\$ (7,231,043)</u>	<u>\$ 4,765,012</u>	<u>\$ (4,765,012)</u>

Budgetary Control:

Budgetary control is maintained at the departmental level; each Department of the Missouri government formulates a budget to be submitted for approval by the General Assembly prior to the beginning of the fiscal year. These budgets are prepared essentially on the cash basis. The legislature reviews, revises, and legally adopts these budgets. The Governor then has the authority to approve or veto each budget, subject to legislative override.

Budgeted expenditures may, at times, exceed estimated revenues and other sources of funding, including beginning fund balances, to anticipate interest earnings. In the event that actual revenues are insufficient to cover budgeted expenditures, the Governor must order budget reductions or call a special session of the legislature to address the issue.

Unexpended appropriations lapse at the end of each appropriation year, unless reappropriated to the following appropriation year.

*After post-valuation adjustments.

Notes to the Schedule:

Changes of benefit terms. There were no changes in benefit terms during the fiscal year ended June 30, 2023.

Changes of assumptions.

For MOSERS: There were no changes in assumptions during the fiscal year ended June 30, 2023.

For MPERS: There were no changes in economic assumptions during the fiscal year ended June 30, 2023. However, the Pub-2010 was used in place of the RP-2014 from 2022 and the MP-2021 was used in place of the MP-2017 from 2022. Also the present assets were used with a market value adjustment for fiscal year 2023.

For MSEP - CU: There were no changes in assumptions during the fiscal year ended June 30, 2023.

For MU: The projected salary used in the actuarial assumptions decreased from 3.5%-4.1% in 2022 to 3.4-4.0% 2023.

*Based on a measurement date of the preceding fiscal year and actuarial valuation as of the July 1, 2023.

Note: This schedule is ultimately required to show information for ten years. However, until a full ten-year trend is compiled, only the years that information is available will be reported.

Notes to the Schedules:

Neither MHPML or CEIP have assets that are accumulated in a trust that meets the criteria in paragraph 4 of GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*.

Changes of benefit terms. For MU: The following plan changes were made effective January 1, 2023: Retiree health plan: in-network deductibles were increased and out-of-network out-of-pocket maximums were increased. Healthy savings plan: in-network deductibles and out-of-pocket maximums were increased and network coinsurance was decreased.

Changes of assumptions.

For CEIP: The discount rate changed from 3.65% to 3.93% in the June 30, 2023 valuation.

MHPML: The discount rate changed from 3.54% to 3.65% in the July 1, 2023 valuation.

For MU: Claims and trends for all plans were revised to reflect future expectations. Also, the discount rate used for the valuations was changed from 3.65% to 3.93% in the June 30, 2024 valuation.

The Combining and Individual Fund Statements

Major Funds

General Fund - Accounts for all current financial resources not required by law or administrative action to be accounted for in another fund.

Non-Major Funds

This includes all non-major governmental and enterprise funds, as well as the non-major component units. It also includes all internal service and fiduciary funds because the "major fund" classification, created under GASB Statement 34, does not apply to these funds.

A budgetary comparison statement is provided for all non-major governmental funds.

*The **Special Revenue Funds** account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes. The State has numerous individual Special Revenue Funds. Therefore, the funds have been combined into specific functional areas.*

Non-Major Special Revenue Funds:

Professional Registration - Provides for the control and regulation of various professions. Each profession has its own fund to account for its operation.

Judicial Protection and Assistance - Provides for protection of public employees by the Attorney General's Office, conviction of criminal offenders by prosecuting attorneys and assistance to victims of criminal offenses.

Agriculture and State Fair - Provides for inspections of products, market development, and awards for competition at the State Fair.

Social Assistance - Provides financial, health, and other services to qualifying individuals.

Transportation and Law Enforcement - Provides transportation services, road construction and maintenance, and the enforcement of vehicle laws and traffic safety.

Unemployment and Workers' Compensation - Provides for the administration of these laws and benefits to workers who qualify for workers' compensation.

Reimbursements and Other - Provides various reimbursements of costs to other governments and various regulatory commissions not included in other functional areas.

*The **Permanent Funds** account for resources that are legally restricted to the extent that only earnings, and not principal, may be used for purposes that support the government's programs.*

Permanent Funds:

Arrow Rock State Historic Site Endowment - Accounts for moneys transferred from the State Parks Earnings Fund, as well as other moneys or property received by grant, gift, donation, or bequest specified for the enhancement of the Arrow Rock State Historic Site.

Confederate Memorial Park - Accounts for the income from investments acquired by gifts, donations, and bequests to be used for the maintenance of the Confederate Memorial Park.

State Public School - Accounts for all moneys, bonds, lands, and other properties belonging to or donated to the State for public school use in establishing and maintaining free public schools.

Smith Memorial Endowment Trust - Accounts for moneys bequeathed for the use and benefit of the Crippled Children's Service.

*The **Enterprise Funds** account for operations that are financed and operated in a manner similar to private business enterprises.*

Non-Major Enterprise Funds:

State Fair Fees - Accounts for the fairground admission fees used to improve the grounds and to pay the operating costs of the State Fair.

State Parks - Accounts for park concessions and contributions which are used to acquire and operate state parks.

Natural Resources Revolving Services - Accounts for moneys received from the delivery of services and the sale or resale of maps, plats, reports, studies, records, and other publications and documents.

Historic Preservation Revolving - Accounts for gifts, grants, and contributions used to acquire, preserve, restore, maintain, or operate any historical properties.

Petroleum Storage Tank Insurance - Accounts for moneys collected from transport load fees and participating owners of petroleum storage tanks for cleanup of contamination caused by releases from petroleum storage tanks.

State Agency for Surplus Property - Accounts for the surplus property operation.

Department of Revenue Information - Accounts for fees received by the Department of Revenue for publications and used to pay the costs of providing this information.

Inmate Canteen - Accounts for sales of the canteen or commissary which is used to improve offender recreational, religious, or education services.

*The **Internal Service Funds** account for the financing of goods or services provided by one department or agency to other departments or agencies of the State on a cost-reimbursement basis.*

Internal Service Funds:

Natural Resources Cost Allocation - Accounts for the administrative costs of the Department of Natural Resources.

Mental Health Interagency Payments - Accounts for moneys received through interagency agreements for services provided by other agencies.

State Facility Maintenance and Operation - Accounts for moneys collected from tenants for rent to cover the costs of operations in state-owned office buildings and institutions, charges to tenants in leased space to cover costs of real estate administrative services, and charges to capital improvement projects to cover the costs of project management services.

Office of Administration Revolving - Accounts for the following operations: printing services, flight operations, vehicle management, garage services, data processing and telecommunication services, building and grounds, insurance services, postage, and personnel administration.

Working Capital Revolving - Accounts for the operation of correctional industry programs and correctional farm programs.

General Government Revolving - Accounts for various service operations of the House of Representatives, Supreme Court, Adjutant General, Senate, Treasurer, and Department of Corrections.

Social Services Administrative Trust - Accounts for moneys transferred or paid to the Department of Social Services from any governmental entity or the public for goods and services provided.

Economic Development Administrative - Accounts for moneys collected for goods and services provided to other divisions and used to pay the cost of providing such services.

Professional Registration Fees - Accounts for moneys received from the professional boards for administrative services.

Conservation Employees' Insurance Plan - Accounts for health insurance coverage on a self-insured basis and life insurance coverage by a third party provider for Department of Conservation employees.

Transportation Self-Insurance Plan - Accounts for highway and highway patrol moneys used to pay workers' compensation claims. Moneys are also used to pay auto claims against the Department of Transportation.

Missouri State Employees' Insurance Plan - Accounts for long-term disability and death benefits provided on a self-insured basis for state employees.

Missouri Consolidated Health Care Plan - Accounts for medical care benefits provided on a self-insured basis for active state employees.

MoDOT and MSHP Medical and Life Insurance Plan - Accounts for the medical coverage provided on a self-insured basis and death benefits provided on an insured basis to Department of Transportation employees and members of the Missouri State Highway Patrol.

*The **Fiduciary Funds** account for assets held by the State in a trustee or custodial capacity.*

Pension (and Other Employee Benefit) Trust Funds:

Missouri State Employees' Retirement System:

Missouri State Employees' Plan - Accounts for retirement, survivor, and disability benefits paid to employees of the State who are not covered under another state-sponsored retirement plan.

Judicial Plan - Accounts for retirement, survivor, and disability benefits to judges in the State of Missouri.

Missouri Department of Transportation and Highway Patrol Employees' Retirement System - Accounts for retirement, survivor, and disability benefits paid to Department of Transportation employees and members of the Missouri State Highway Patrol.

Missouri Consolidated Health Care Plan State Retiree Welfare Benefit Trust - Accounts for health and welfare benefits paid for the exclusive benefit of current and future retired employees of the State who are not covered under another state-sponsored other post-employment benefit plan.

Missouri State Public Employees' Deferred Compensation Incentive (IRC 401a) Plan - Accounts for retirement benefits paid to employees of the State.

Missouri State Public Employees' Deferred Compensation (IRC 457) Plan - Accounts for deposits from State employees, which are invested for the benefit of the employees until properly authorized to distribute.

Private-Purpose Trust Funds:

Alternative Care Trust - Accounts for all moneys received and spent by the Division of Family Services on behalf of children in their custody.

Unclaimed Property - Accounts for moneys unpaid or unclaimed within one year after final settlement of any executor or administrator, assignee, sheriff or receiver and all unclaimed deposits, dividends, and interest of banks unable to locate the owners.

Custodial Funds:

Program - Accounts for the receipt of various taxes, refundable deposits, and other moneys to be held until the State has the right or obligation to distribute them to various entities or individuals.

Institution - Accounts for deposits to various institutional accounts and other receipts held by the State until there is proper authorization to disburse them directly to others.

*The **Component Units** account for all transactions relating to legally separate entities which, for reporting purposes, are a part of the State.*

Non-Major Component Units:

Missouri Development Finance Board - Accounts for moneys from bond proceeds, gifts, and grants to make loans for industrial development.

Missouri Agricultural and Small Business Development Authority - Accounts for moneys from bond proceeds, gifts, and grants to make loans for property acquisitions/renovations and pollution control facilities.

Missouri Transportation Finance Corporation - Accounts for moneys from federal, state or local sources, and from bond proceeds to be used for projects approved by the Missouri Highways and Transportation Commission.

Missouri Wine and Grape Board - Accounts for moneys derived from the privilege of selling wine to be used for marketing development in developing programs for growing, selling, and marketing of grape products grown in Missouri.

State Environmental Improvement Energy Resources Authority - Accounts for moneys derived from the issuance of revenue bonds and notes to finance, acquire, construct and equip projects for the purpose of reducing, preventing or controlling pollution and to provide for the development of energy resources of the State of Missouri.

*The **Statistical Section** presentations include Financial Trends, Revenue Capacity, Debt Capacity, Demographic and Economic Information, and Operating Information trends. The statistical data presented is intended to provide report users with a broader understanding of the environment in which the State operates.*

**STATE OF MISSOURI
STATISTICAL SECTION
June 30, 2024**

Index and Overview

This part of the State's Annual Comprehensive Financial Report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the State's overall financial health.

Financial Trends

These schedules contain trend information to help the reader understand how the State's financial performance and fiscal health have changed over time.

Net Position by Component	227
Changes in Net Position	228
Fund Balances - Governmental Funds	230
Changes in Fund Balances - Governmental Funds	231

Revenue Capacity

These schedules contain information to help the reader understand the State's capacity to raise revenues and the sources of those revenues.

Revenue Base - Taxable Sales by Industry	233
Revenue Base - Personal Income by Industry	234
Personal Income Tax Revenue	235
Personal Income Tax Rates	236
Revenue Payers by Industry	237
Personal Income Tax Filers/Liability	238

Debt Capacity

These schedules present information to help the reader understand and assess the State's levels of outstanding debt and the State's ability to issue additional debt in the future.

Ratios of Outstanding Debt	239
Pledged Revenue Coverage	241

Demographic and Economic Information

These schedules contain demographic and economic indicators to help the reader understand the environment within which the State's financial activities take place.

Demographic Indicators	242
Economic Indicators	243
Principal Employers	244

Operating Information

These schedules contain operating data to help the reader understand how the information in the State's financial report relates to the services it provides and the activities it performs.

State Employees by Function	245
Operating Indicators by Function	246
Capital Asset Statistics by Function	248

Sources: *Unless otherwise noted, the information in these schedules is derived from the State of Missouri Annual Comprehensive Financial Report for the years shown.*

N/A = not available

¹ Revenues for Missouri Road Fund consist of a portion of the taxes and fees received by the State from the motor fuel tax, sales tax on motor vehicles, use tax on motor vehicles, revenue derived from motorists for their usage of the highways of the State, federal grants, and bond proceeds.

² Operating Expenses do not include depreciation/amortization.

³ Coverage equals net available revenue divided by debt service.

Missouri State Auditor

Linn County

Report No. 2025-015

April 2025

auditor.mo.gov

CITIZENS SUMMARY

Findings in the audit of Linn County

Sheriff's Controls and Procedures	Sheriff's office personnel do not deposit timely. A review of 2023 deposits found the office made 1 to 3 bank deposits each month regardless of the total receipts collected. The Sheriff does not ensure personnel prepare accurate monthly bank reconciliations, maintain accurate book balances, or properly monitor the bank account. A review of monthly bank reconciliations for 2023 found the reconciliations were understated by amounts ranging from \$117 to \$6,220 for 7 months and overstated by amounts ranging from \$50 to \$4,543 for 4 months. Only 1 month was accurate. The Administrative Assistant does not properly record or monitor all account activity in the check register, such as service charges and direct deposits, and as a result, the book balances were not accurate. This allowed the bank account to be overdrawn 3 times in 2023: June 22 by \$102, December 22 by \$490, and December 26 by \$358 and resulted in a \$36 overdraft fee in December. The Sheriff's office has not entered into written agreements with other counties or cities that provide prisoner board for the county, detailing the housing rate to be paid.
Prosecuting Attorney's Controls and Procedures	The Prosecuting Attorney did not reconcile the bank accounts during the year ended December 31, 2023. Instead, on January 22, 2024, the Prosecuting Attorney performed bank reconciliations for all 12 months for the restitution account after the initial site visit from the State Auditor's Office. The Prosecuting Attorney does not maintain a list of outstanding restitution balances. The auditors compiled a list of unpaid restitution from individual restitution spreadsheets as of December 31, 2023, and determined outstanding restitution balances totaled \$67,742.
Sheriff's Compensation	The County Commission authorized mid-term salary increases totaling \$11,685 to the Sheriff in violation of constitutional provisions.
Additional Comments	Because counties are managed by several separately-elected individuals, an audit finding made with respect to one office does not necessarily apply to the operations in another office. The overall rating assigned to the county is intended to reflect the performance of the county as a whole. It does not indicate the performance of any one elected official or county office.

In the areas audited, the overall performance of this entity was **Good**.*

*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

- Excellent:** The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.
- Good:** The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.
- Fair:** The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.
- Poor:** The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

Information	

SCOTT FITZPATRICK MISSOURI STATE AUDITOR

County Commission
and
Officeholders of Linn County

We have audited certain operations of Linn County in fulfillment of our duties under Section 29.230, RSMo. The scope of our audit included, but was not necessarily limited to, the year ended December 31, 2023. The objectives of our audit were to:

1. Evaluate the county's internal controls over significant management and financial functions.
2. Evaluate the county's compliance with certain legal provisions.
3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.

Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the county; and performing sample testing using haphazard and judgmental selection, as appropriate. The results of our sample testing cannot be projected to the entire populations from which the test items were selected. We obtained an understanding of internal control that is significant to the audit objectives and planned and performed procedures to assess internal control to the extent necessary to address our audit objectives. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted this performance audit in accordance with generally accepted government auditing standards. Those standards require that we plan and perform the audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides a reasonable basis for our findings and conclusions based on our audit objectives.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the county's management and was not subjected to the procedures applied in our audit of the county.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, and (3) the need for improvement in management practices and procedures. The accompanying Management Advisory Report presents our findings arising from our audit of Linn County.

Scott Fitzpatrick
State Auditor

Linn County

Management Advisory Report

State Auditor's Findings

1. Sheriff's Controls and Procedures

The Sheriff's accounting controls and procedures need improvement. The Sheriff's office processed approximately \$68,000 in receipts during the year ended December 31, 2023.

1.1 Depositing timely

Sheriff's office personnel do not deposit timely. Our review of 2023 deposits found office personnel made 1 to 3 bank deposits each month regardless of the total receipts collected. As a result, cash and checks were sometimes held for extended periods of time. For example, the November 9, 2023, deposit of \$1,704 consisted of October receipts collected 7 to 27 days prior to deposit. No other deposits were made in November 2023. Receipts collected for November 2023, totaling \$4,787, were deposited on December 8, 2023. These receipts were held 6 to 27 days prior to deposit. The Sheriff indicated she did not know why the Administrative Assistant did not deposit timely.

Failure to implement adequate depositing procedures increases the risk that loss, theft, or misuse of money received will occur and go undetected.

1.2 Account balances and bank reconciliations

The Sheriff does not ensure personnel prepare accurate monthly bank reconciliations, maintain accurate book balances, or properly monitor the bank account.

We reviewed the monthly bank reconciliations for 2023 and determined the ending reconciled balances the Administrative Assistant included on her bank reconciliations were understated by amounts ranging from \$117 to \$6,220 for 7 months and overstated by amounts ranging from \$50 to \$4,543 for 4 months. Only 1 month was accurate.

We noted the following issues during our review of the bank reconciliations:

- The December bank reconciliation showed a reconciled balance of \$844; however, it should have been \$1,564. This understatement is a result of overstating cleared deposits by \$1,291, overstating outstanding checks by \$2,047, and a failure to deduct an overdraft fee of \$36.
- Multiple bank reconciliations included checks written and deposits in transit that occurred after the end of the month being reconciled.
- The June bank reconciliation did not include all checks issued in June that remained outstanding at the end of the month, but did include 2 voided checks.
- The November and December bank reconciliations erroneously included deposits in transit that were actually direct deposits that cleared the bank during those months.

Linn County Management Advisory Report - State Auditor's Findings

- The Administrative Assistant does not properly record or monitor all account activity in the check register, such as service charges and direct deposits, and as a result, the book balances were not accurate. This allowed the bank account to be overdrawn 3 times in 2023: June 22 by \$102, December 22 by \$490, and December 26 by \$358. The bank charged an overdraft fee of \$36 in December.
- None of the 12 bank reconciliations contained the date the reconciliation was performed so it is unknown how timely the reconciliations were completed.

Maintaining and monitoring up-to-date accounting records and preparing accurate monthly bank reconciliations provides the necessary oversight of funds to ensure receipts and disbursements have been properly handled and recorded and the correct checkbook balance is maintained. It also increases the likelihood errors will be identified and corrected timely.

1.3 Prisoner boarding contracts

The Sheriff's office has not entered into written agreements with other counties or cities that provide prisoner board for the county, detailing the housing rate to be paid. The Administrative Assistant indicated the Sheriff's office had "handshake" agreements with various counties for the 2023 rates charged. The only contract the county had was with the regional jail and the Administrative Assistant indicated they did not send prisoners there because there was generally no space available. The county paid approximately \$167,000 in board bills for approximately 300 prisoners during the year ended December 31, 2023.

Section 432.070, RSMo, requires contracts for political subdivisions to be in writing. Written agreements, signed by the parties involved and specifying the services to be rendered and the manner and amount of compensation to be paid, are necessary to ensure all parties are aware of their duties and responsibilities, and prevent misunderstandings.

Recommendations

The Sheriff:

- 1.1 Ensure deposits are made timely.
- 1.2 Ensure accounting records are accurate, account balances are monitored, and accurate bank reconciliations are prepared monthly.
- 1.3 Work with the County Commission to obtain written agreements with counties and cities for the boarding of prisoners.

Linn County
Management Advisory Report - State Auditor's Findings

Auditee's Response

1.1 *The Administrative Assistant will write policies and procedures for bank deposits. These will be reviewed and approved by the Sheriff and include:*

- a. Funds collected before 2:00 p.m. will be deposited on the same day.*
- b. Funds collected after 2:00 p.m. may be locked in the safe and deposited the following business day.*
- c. The Sheriff or other authorized staff will check the safe weekly to ensure money is not accumulating over multiple days.*
- d. Receipt slips will be written for all cash received.*
- e. Money will be received by the Administrative Assistant, deposited by the Sheriff or a deputy, and the deposit receipt balanced to cash receipts and recorded by the Administrative Assistant to maintain separation of duties over cash.*

The Administrative Assistant will cross-train the part-time Administrative Assistant on all deposit functions to eliminate a single point of failure.

The Sheriff or a deputy will be available to make deposits as needed, preferably during banking hours. Deposit slips will be returned to the Administrative Assistant on the following business day.

1.2 *The Administrative Assistant will create written procedures for bank reconciliations, to be reviewed and approved by the Sheriff that include:*

- a. The bank reconciliation will be the primary duty of the part-time Administrative Assistant.*
- b. Reconciling the bank account monthly, upon receipt of the bank statement.*
- c. Discussing out-of-balance situations with the Sheriff for assistance and resolution.*
- d. Including the bank reconciliation date in the check register.*

The Administrative Assistant will cross train the part-time Administrative Assistant on reconciliation procedures.

Linn County
Management Advisory Report - State Auditor's Findings

The sheriff will review the bank statement, check register, and reconciliation form each month and create office policy to create a detailed report and turn over collected money to the County Clerk or Treasurer by the 20th of each month to comply with Section 50.370, RSMo.

1.3 *The Sheriff's office and the County Commission now have a contract with Macon County and are working on other contracts.*

2. Prosecuting Attorney's Controls and Procedures

Controls and procedures in the Prosecuting Attorney's office need improvement. The office collected approximately \$7,000 in bad check and court-ordered restitution and fees during the year ended December 31, 2023.

2.1 Bank reconciliations

The Prosecuting Attorney did not reconcile the bank accounts during the year ended December 31, 2023. Instead, on January 22, 2024, the Prosecuting Attorney performed bank reconciliations for all 12 months for the restitution account after our initial site visit.

Preparing timely monthly bank reconciliations helps ensure receipts and disbursements have been properly handled and recorded, and increases the likelihood errors will be identified and corrected.

2.2 Restitution account

The Prosecuting Attorney does not maintain a list of outstanding restitution balances. The Prosecuting Attorney indicated he tracks outstanding restitution in individual spreadsheets. We compiled a list of unpaid restitution from the individual spreadsheets as of December 31, 2023, and determined outstanding restitution balances totaled \$67,742. In addition, the Prosecuting Attorney classified \$1,922 in restitution as uncollectable because 2 individuals completed parole, 1 offender passed away, and 1 victim passed away; however, he has not requested the courts to allow the amounts to be written off.

A complete and accurate list of unpaid restitution would allow the Prosecuting Attorney's office to more easily review the amounts due, take appropriate steps to ensure amounts due are collected, and determine disposition of any amounts considered uncollectible.

Recommendations

The Prosecuting Attorney:

2.1 Prepare timely bank reconciliations and promptly investigate and resolve any differences identified.

2.2 Establish procedures to monitor and collect accounts receivables.

Linn County
Management Advisory Report - State Auditor's Findings

Auditee's Response

2.1-2.2 The office agrees to promptly implement the recommendations.

3. Sheriff's Compensation

The County Commission authorized mid-term salary increases totaling \$11,685 to the former Sheriff in violation of constitutional provisions. The Sheriff took office in 2021 at the salary level approved by the Linn County Salary Commission. The Sheriff resigned in March 2024.

Section 57.317.1(2), RSMo, enacted in 2021, states the sheriff shall receive an annual salary computed based on a percentage of the compensation of an associate circuit judge of the county, with the percentage determined by a statutory schedule using the county's current assessed valuation level. The law indicates if the increase to the Sheriff's salary is less than \$10,000, the increase shall take effect January 1, 2022, but if the salary increase is more than \$10,000, the increase shall be paid equally over a 5-year period. However, Article VII, Section 13, of the Missouri Constitution prohibits an increase in compensation for state, county, and municipal officers during the term of office. Court cases have concluded that to receive additional compensation during a term of office there must be: (1) no existing compensation for the office; (2) new or additional duties extrinsic or not germane to the office; or (3) the mid-term increase must result from the application of a statutory formula for calculating compensation that was in place prior to the individual being elected or taking office. None of those circumstances exist; therefore the increase to the Sheriff's salary should be effective only for any Sheriff elected and sworn into office after the new salary schedule was authorized.

The County Commission did not seek a written legal opinion on these matters and calculated the increase at \$28,405 to be paid over a 5 year period with an annual increase of \$5,681. As of December 2023, the County Commission authorized an additional salary increase based on increases given to associate circuit judges for a total authorized of \$11,685. The County Commission indicated it was aware of constitutional provisions preventing mid-term salary increases, but thought the county was required to increase the Sheriff's salary due to the change in state statute.

Recommendation

The County Commission ensure salary increases comply with constitutional provisions and consider various methods for possible recoupment of any mid-term salary increases already paid.

Auditee's Response

The County Commission will take the State Auditor's Office's recommendation under advisement and will seek legal counsel on how to proceed.

Linn County

Organization and Statistical Information

Linn County is a township-organized, third-class county. The county seat is Linneus. The county's population was 11,874 in 2020, according to the U.S. Census Bureau.

Linn County's government is composed of a three-member county commission and separate elected officials performing various tasks. All elected officials serve 4-year terms. The county commission has mainly administrative duties in setting tax levies, appropriating county funds, appointing board members and trustees of special services, accounting for county property, maintaining county bridges, and performing miscellaneous duties not handled by other county officials. Principal functions of these other officials relate to law enforcement, property assessment, property tax collections, conduct of elections, and maintenance of financial and other records important to the county's citizens. In addition to elected officials, the county employed 36 full-time employees and 4 part-time employees on December 31, 2023. The townships maintain county roads.

County operations also include a Senior Citizens' Services Board and a Senate Bill 40 Board.

Elected Officials

The elected officials and their compensation paid for the year ended December 31, 2023 (except as noted) are indicated below:

Officeholder	2024	2023
Dick King, Presiding Commissioner	\$	29,390
Josh Muck, Associate Commissioner		27,390
Glen Murrain, Associate Commissioner		27,390
Jennifer Shoop-Baker, Recorder of Deeds		41,500
Suzan Stephenson, County Clerk		41,500
Tracy L. Carlson, Prosecuting Attorney		51,000
Jeff Henke, Sheriff (1)		56,685
Kjersten Parn, County Coroner		14,000
Colby Baker, Public Administrator (2)		2,084
John Bagley, Public Administrator (3)		521
Lawrence McManus, Public Administrator (3)		4,340
Lana Kilmer Public Administrator (3)		29,972
Renee McKenzie, County Collector-Treasurer, year ended February 29,	41,500	
Brittanie Palmer, County Assessor, year ended August 31,		41,500

- (1) Jeff Henke resigned as Sheriff on March 1, 2024. Carrie Melte began serving as Sheriff on March 1, 2024.
- (2) Colby Baker served as the Public Administrator from October 1, 2019, until January 31, 2023.
- (3) John Bagley served as the Public Administrator from February 1, 2023, until February 7, 2023. Lawrence McManus served as the Public Administrator from February 8, 2023, until April 10, 2023. Lana Kilmer began serving as the Public Administrator on April 10, 2023.

C Law Enforcement Agencies Not Filing a 2024 Equitable Sharing Agreement and Certification.....	13

SCOTT FITZPATRICK
MISSOURI STATE AUDITOR

Honorable Mike Kehoe, Governor
and
Members of the General Assembly
Jefferson City, Missouri

Section 513.653.1, RSMo, requires law enforcement agencies involved in using the federal forfeiture system under federal law to file a copy of the federal form entitled "Equitable Sharing Agreement and Certification" regarding federal seizures and the proceeds thereof with the State Auditor's Office. Although Section 513.653.1, RSMo, only requires my office to receive these reports, we compiled the information the law enforcement agencies filed with us. We have not audited the forms submitted and, accordingly, do not express an opinion or any other form of assurance on them, including whether or not an agency is in compliance with the statute. The primary objectives of this compilation were to:

1. Identify the reporting status of law enforcement agencies.
2. Summarize the information reported.

Conclusions regarding compliance cannot be made for law enforcement agencies that did not submit a form.

A handwritten signature in black ink that reads "S. Fitzpatrick". The signature is stylized, with the first letters of the first and last names being capitalized and prominent.

Scott Fitzpatrick
State Auditor

Compilation of 2024 Federal Forfeiture Reports

Executive Summary

Executive Summary

Section 513.653, RSMo, requires law enforcement agencies involved in using the federal forfeiture system under federal law to annually file a copy of the federal form entitled "Equitable Sharing Agreement and Certification" regarding federal seizures and the proceeds received therefrom with the State Auditor's Office (SAO) by February 15th for the previous calendar year. The law provides that any law enforcement agency that intentionally or knowingly fails to comply with the reporting requirement shall be ineligible to receive state or federal funds that would otherwise be paid to such agency for law enforcement, safety, or criminal justice purposes.

The U.S. Departments of Justice and Treasury publication, *Guide to Equitable Sharing for State, Local, and Tribal Law Enforcement Agencies*, states, "the Department of Justice and Department of Treasury Asset Forfeiture Programs are, first and foremost, law enforcement programs. They remove the tools of crime from criminal organizations, deprive wrongdoers of the proceeds of their crimes, recover property that may be used to compensate victims, and deter crime." Any state or local law enforcement agency that directly participates in an investigation or prosecution resulting in a federal forfeiture may request an equitable share of the net proceeds of the forfeiture. Equitably shared funds must be used for law enforcement purposes, except as noted in the publication, and must increase or supplement the resources of the receiving law enforcement agency. In addition to reporting requirements under state law, there are also various program mandated accounting, reporting, and audit requirements.

To determine the law enforcement agencies to notify of the required filing with the SAO, we requested information from the Missouri Department of Public Safety (DPS). The DPS compiled a list of law enforcement agencies using information from the Peace Officer Standards and Training program and the Justice Assistance Grants distribution lists. The SAO notified the listed agencies of the requirement to submit a copy of the required form if the agencies participated in the federal forfeiture system. According to DPS personnel, the list does not represent a complete list of all agencies, but includes all agencies with commissioned officers or drug task forces receiving funding from the DPS.

The list we received from the DPS included 606 agencies. An additional agency, not included on the list provided by the DPS, did not file a report with the SAO but had an ending balance in the prior year. This report includes agencies required to submit a report to the federal government during 2024,¹ that filed copies of the form to the SAO by February 28, 2025.

¹ Federal law requires agencies to submit the Equitable Sharing Agreement and Certification form within 2 months after the end of the law enforcement agency's fiscal year. Therefore, agencies with fiscal years ending November 30, 2023, through October 31, 2024, were required to submit reports in calendar year 2024.

Compilation of 2024 Criminal Activity Forfeiture Act Seizures Executive Summary

The following table summarizes these reports.

Reporting Status	Number	Percentage
Number of agencies reporting (Appendix A and B)	110	18.12
Number of agencies not reporting (Appendix C)	497	81.88
Total Possible Reports	607	100.00

A total of 110 agencies filed a copy of the federal form with the SAO. These agencies are identified on Appendixes A and B.

Of the 606 agencies included in the list provided by the DPS, 496 did not provide a copy of the form. Agencies were not required to provide a copy of the form if they did not participate in the federal forfeiture system. These agencies, plus the agency that that was not on the DPS list but had a prior year balance, are identified on Appendix C.

Conclusions regarding compliance cannot be made for non-reporting agencies. This compilation work is not an audit and, as such, no verification was performed as to whether these agencies did or did not participate in the federal forfeiture system.

CITIZENS SUMMARY

Findings in the audit of the Department of Revenue Sales, Use, and Marijuana Taxes

Collection of Local Sales Taxes	The Department of Revenue (DOR) did not follow existing policy and procedures to ensure taxpayers are assessed the correct local sales tax rate for motor vehicle sales tax transactions. As a result, the DOR cannot ensure it is collecting the correct amount of local sales taxes and fully meeting the statutory requirement for the administration, collection, enforcement, and operation of local sales taxes imposed by state law. The audit reviewed 90 motor vehicle sales tax transactions for the year ended June 30, 2023, and identified 22 transactions (24 percent) with an incorrect site code resulting in the incorrect amount of local sales tax being assessed.
Timely Sales and Use Tax Discounts	As noted in multiple previous audit reports, state law allows retailers to retain a portion of sales and use taxes collected if they remit the taxes to the DOR timely, resulting in the state and local governments forgoing significant revenues. Missouri's timely sales and use tax discount remains the most generous such discount in the nation, and significantly benefits the state's largest retailers. In addition, the DOR does not routinely report to the General Assembly the amount of timely sales and use tax discounts retained by businesses for its review and consideration.
Marijuana Taxes	Even though the first sales of medical marijuana began in October 2020, and the first sales of adult use marijuana began in February 2023, the DOR has not conducted any audits of marijuana tax returns as of January 2025. Audits of tax returns are necessary to help ensure compliance with tax laws, prevent and detect fraud and tax evasion, and identify and correct errors and omissions. The DOR did not document any calculations or justification to support how the 1 percent collection fee withheld from medical and adult use marijuana tax collections was determined.

In the areas audited, the overall performance of this entity was **Good**.*

*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

- Excellent:** The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.
- Good:** The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.
- Fair:** The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.
- Poor:** The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

SCOTT FITZPATRICK
MISSOURI STATE AUDITOR

Honorable Mike Kehoe, Governor
and
Members of the General Assembly
and
Trish Vincent, Director
Department of Revenue
Jefferson City, Missouri

We have audited certain operations of the Department of Revenue, sales and use tax collections, as required by Section 32.087, RSMo. In addition, we have audited certain operations of the Department of Revenue, marijuana tax collections in fulfillment of our duties under Chapter 29, RSMo. The scope of our audit included, but was not necessarily limited to, the year ended June 30, 2023. The objectives of our audit were to:

1. Evaluate the department's internal controls over significant management and financial functions related to the collection and distribution of sales, use, and marijuana taxes.
2. Evaluate the department's compliance with certain legal provisions related to the collection and distribution of sales, use, and marijuana taxes.
3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions related to the collection and distribution of sales, use, and marijuana taxes.

Our methodology included reviewing written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the department, as well as certain external parties; analyzing comparative data obtained from internal sources; and testing selected transactions. We reviewed sales, use, and marijuana tax collections and distributions, and performed sample testing of sales, use, and marijuana tax transactions using haphazard and judgmental selection, as appropriate. The results of our sample testing cannot be projected to the entire populations from which the test items were selected. We obtained an understanding of internal control that is significant to the audit objectives and planned and performed procedures to assess internal control to the extent necessary to address our audit objectives. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

Except as discussed in the following paragraph, we conducted this performance audit in accordance with generally accepted government auditing standards. Those standards require that we plan and perform the audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides a reasonable basis for our findings and conclusions based on our audit objectives.

Government Auditing Standards require us to obtain and report the views of responsible officials of the audited entity concerning the findings, conclusions, and recommendations included in the audit report. We obtained the views of responsible Department of Revenue officials and included them in the report. Due to Management Advisory Report finding number 2 being legislative in nature, we were unable to obtain views of responsible officials for that finding.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the department's management and was not subjected to the procedures applied in our audit of the department.

For the areas audited, we identified (1) a significant deficiency in internal controls, (2) no significant noncompliance with legal provisions, and (3) the need for improvement in management practices and procedures. The accompanying Management Advisory Report presents our findings arising from our audit of the Department of Revenue, sales, use, and marijuana tax collections and distributions.

A handwritten signature in black ink, appearing to read "S. Fitzpatrick". The signature is stylized with a large, looped "S" and a cursive "Fitzpatrick".

State Auditor

Department of Revenue

Sales, Use, and Marijuana Taxes

Introduction

Background

Sales and use tax

The state's sales tax is imposed on the purchase price of tangible personal property or taxable services sold at retail. Use tax is imposed on the storage, use, or consumption of tangible personal property in this state. Cities and counties may impose a local sales and use tax. Special taxing districts such as transportation development districts may also impose additional sales taxes. State and local sales and use taxes are collected by the Department of Revenue (DOR). The DOR then distributes the local sales and use taxes to the applicable political subdivisions.

Sales and use tax receipts collected from businesses and motor vehicle sales tax receipts collected from businesses and individuals are deposited into various state and local funds listed below. Marine and ATV sales and use tax collections are deposited into the same funds as state sales and use tax. Motor vehicle leasing sales tax collections are deposited into the same funds as motor vehicle sales tax.

For operating purposes, the DOR has been charged with the responsibility of administering transactions related to sales and use taxes in the following funds and accounts.

State Funds

The State Treasurer, as fund custodian, and the Office of Administration provide administrative control over fund resources within the authority prescribed by the General Assembly for all state funds.

General Revenue Fund: This fund, authorized by Section 144.700, RSMo, receives collections from a general 3 percent state sales and use tax. State sales tax is collected pursuant to Sections 144.010 to 144.527, RSMo, and state use tax is collected pursuant to Sections 144.600 to 144.752, RSMo. Retail sales of food are not subject to the 3 percent tax as provided by Section 144.014, RSMo. This fund also receives payments from common carriers in interstate air transportation, as authorized by Section 144.807, RSMo. In addition, the General Revenue Fund pays all motor vehicle sales tax refunds and receives motor vehicle sales tax collections as reimbursement from other state funds for their applicable share of the refunds.

Aviation Trust Fund: This fund, authorized by Section 144.805, RSMo, receives collections from a sales and use tax on aviation jet fuel from common carriers. These taxes are paid as a result of exemptions to General Revenue sales tax. The exemptions are a result of direct-pay agreements between common carriers and the DOR.

Department of Revenue
Sales, Use, and Marijuana Taxes
Introduction

Conservation Commission Fund: This fund, authorized by Section 254.020, RSMo, receives collections of the 0.125 percent state sales and use tax and motor vehicle sales tax provided for in Article IV, Section 43(a), Missouri Constitution.

State Highways and Transportation Department Fund: This fund received 75 percent of the collections from the 4 percent highway use tax during fiscal years 2013 and 2012. Under Section 144.020, RSMo, all motor vehicle transactions are now assessed a sales tax, which is deposited into the State Road Fund and the State Road Bond Fund. This fund continues to receive some residual highway use tax collections.

Parks Sales Tax Fund: This fund, authorized by Article IV, Section 47(a) and 47(b), Missouri Constitution, receives 50 percent of the collections from a 0.1 percent state sales and use tax and motor vehicle sales tax.

School District Trust Fund: This fund, authorized by Section 144.701, RSMo, receives collections from a 1 percent state sales and use tax pursuant to Section 144.701, RSMo. Retail sales of food are subject to a 1 percent tax to be deposited into this fund as provided by Section 144.014, RSMo. In addition, this fund receives 12.5 percent of collections from the 4 percent motor vehicles sales tax pursuant to Article IV, Section 30(b)(2), Missouri Constitution.

Soil and Water Sales Tax Fund: This fund, authorized by Article IV, Section 47(a) and 47(b), Missouri Constitution, receives 50 percent of the collections from a 0.1 percent state sales and use tax and motor vehicle sales tax.

State Road Bond Fund: This fund, authorized by Article IV, Section 30(b), Missouri Constitution, receives 37.5 percent of the collections from the 4 percent motor vehicle sales tax.

State Road Fund and State Transportation Fund: These funds, authorized by Article IV, Section 30(b), Missouri Constitution, receive 37.5 percent of the collections from the 4 percent motor vehicle sales tax, which is deposited 36.5 percent to the State Road Fund and 1 percent to the State Transportation Fund.

Local Funds

Sales and use tax collections for local funds are deposited into interest-bearing bank accounts under the administrative control of the DOR and allocated to an investment pool until distributed. Subsequently, 99 percent of the collections and earned interest are distributed to the various political subdivisions with the remaining 1 percent deposited into the General Revenue Fund for a collection fee, except for the Local Fuel Tax and Bond Trust Fund, which has no collection fee withheld from distributions to the fund. The DOR

Department of Revenue
Sales, Use, and Marijuana Taxes
Introduction

has sole responsibility for maintaining and disbursing fund resources for all local funds.

Local Fuel Tax and Bond Trust Fund: This fund, authorized by Article IV, Section 30(b), Missouri Constitution, receives 12.5 percent of the collections from the 4 percent motor vehicle sales tax. In addition, this fund receives collections from the motor fuel tax authorized by Section 142.803, RSMo.

Local Sales and Use Tax Trust Fund: This fund receives collections generated from local sales taxes imposed by local political subdivisions, as authorized by Chapters 66, 67, 70, 92, 94, 162, 190, 238, 321, and 644, RSMo. In addition, this fund receives collections generated by a use tax, authorized by Section 144.757, RSMo, based on the local sales tax in effect, upon all transactions subject to taxes imposed under Sections 144.600 to 144.752, RSMo, except as otherwise provided. Net taxes and interest are subsequently distributed to the cities and counties.

Custodial Accounts

The DOR has shared responsibility with the State Treasurer for maintaining and disbursing account resources of the custodial accounts. The DOR has custody of the Motor Vehicle Clearing Account and the State Treasurer has custody of the Sales Tax Bond Account. Collections for the account held by the DOR are deposited into an interest-bearing bank account and allocated to an investment pool.

Motor Vehicle Clearing Account: The DOR has been charged with the responsibility of administering transactions in the Motor Vehicle Clearing Account and actual custody of account resources ultimately rests with the department. This account receives collections from motor vehicle contracted agent offices and the central office for various taxes and fees. These receipts are held in trust by the DOR until subsequently transferred to various state and local funds.

Sales Tax Bond Account: The DOR has been charged with the responsibility of administering transactions in the Sales Tax Bond Account. The DOR receives cash bonds posted by taxpayers as authorized by Section 144.087, RSMo. All bond collections are deposited in the General Revenue Fund, which is in the custody of the State Treasurer, and reported by the DOR in this account. Cash bonds and related interest are to be refunded to the taxpayer after 1 year if the taxpayer is determined to have satisfactory tax compliance and if the bond was posted before January 1, 1984. If the bond was posted on or after January 1, 1984, the Attorney General has determined that no interest should be refunded. In the event of uncollectible sales tax liabilities, the bonds and related interest, if any, are forfeited to the DOR. The department subsequently distributes the money to the state and the appropriate political

Department of Revenue Sales, Use, and Marijuana Taxes Introduction

subdivisions. Effective August 28, 2018, a bond is no longer required to obtain a retail sales license, but may be required of licensees in default of filing a return and paying taxes when due.

Historical sales and use tax trends and information

As shown in Figure 1, when adjusted for inflation, state and local sales and use tax collections have increased for most years between fiscal year 2014 and fiscal year 2023. Adjusted state sales and use tax collections increased from \$4.25 billion to \$4.88 billion (15 percent), while adjusted local sales and use tax collections increased from \$3.77 billion to \$5.07 billion (35 percent) during this time period.

Figure 1: State and local sales and use tax collections, 2014-2023, by fiscal year, adjusted for inflation

Source: DOR annual reports, SAO analysis of inflation calculations using Federal Reserve Bank of St. Louis, *Consumer Price Index for All Urban Consumers*, <<https://fred.stlouisfed.org/series/CPIAUCSL>>, accessed February 21, 2024. See additional detail at Appendix G.

Local sales taxes collected exceeded state sales taxes for the first time in fiscal year 2022, with this trend continuing in fiscal year 2023. The state sales and use tax rate has remained at 4.225 percent during the 10 years depicted in Figure 1. In comparison, local sales and use tax rates imposed by political subdivisions are continuously changing as local taxing jurisdictions impose new tax rates and others expire. According to the Tax Foundation,¹ Missouri's average local sales tax rate was 4.14 percent as of July 1, 2023. In addition, the increasing number of districts has contributed to the total increase in local sales tax collections. The total number of districts has increased from approximately 470 in fiscal year 2014 to approximately 790 in fiscal year 2023 (68 percent increase).

Local sales and use tax collections are distributed by the DOR to cities, counties, and districts. As shown in Figure 1, and as further illustrated in

¹ Tax Foundation, *State and Local Sales Tax Rates, Midyear 2023*, July 2023, <<https://taxfoundation.org/2023-sales-tax-rates-midyear/>>, accessed April 16, 2024.

Department of Revenue Sales, Use, and Marijuana Taxes Introduction

Figure 2, local sales and use tax collections and subsequent distributions have increased for most years between fiscal year 2014 and fiscal year 2023.²

Figure 2: Local sales and use tax distributions by political subdivision type, 2014-2023, by fiscal year

Source: DOR records. See additional detail at Appendix H.

Marijuana tax

Article XIV, Section 1, Missouri Constitution, adopted in November 2018, made the sale of medical marijuana legal and imposed state taxes on the sale. The first licensed sales of medical marijuana began in October 2020.

Article XIV, Section 2, Missouri Constitution, adopted in November 2022, made the sale of adult use (also known as non-medical or recreational) marijuana legal and imposed state taxes on the sale. The first licensed sales of adult use marijuana began in February 2023.

Article XIV, Section 2.6(5), Missouri Constitution, authorizes the governing body of any local government to impose, by ordinance or order once approved by the voters of the political subdivision, an additional local sales tax on the sale of adult use marijuana sold in such political subdivision. The first additional local sales tax collections on adult use marijuana sales began in October 2023.

The marijuana taxes levied pursuant to Article XIV, Sections 1 and 2, Missouri Constitution, are separate from, and in addition to, any general state and local sales and use taxes that apply to retail sales, which shall continue to be collected and distributed as provided by law (see Sales and Use Tax discussion above).

The DOR administers transactions related to state marijuana taxes and local marijuana sales taxes in the following funds.

² For more detail on local sales and use tax distribution amounts, see Appendix H.

Department of Revenue
Sales, Use, and Marijuana Taxes
Introduction

State Funds

The State Treasurer, as fund custodian, and the Office of Administration provide administrative control over fund resources within the authority prescribed by the General Assembly for all state funds.

Missouri Veterans' Health and Care Fund: This fund, authorized by Article XIV, Section 1.4, Missouri Constitution, receives the 4 percent tax levied on the retail sale of marijuana for medical use sold at medical marijuana dispensary facilities within the state. These tax collections are expended by the Missouri Department of Health and Senior Services (DHSS) for operating expenses to carry out its responsibilities under Article XIV, Section 1, Missouri Constitution, and by the Missouri Veterans Commission for costs related to its various programs and services. For the fiscal year ended June 30, 2023, medical marijuana taxes totaling approximately \$16.3 million were deposited into this fund.

Veterans, Health, and Community Reinvestment Fund: This fund, authorized by Article XIV, Section 2.6, Missouri Constitution, receives the 6 percent tax levied on the retail sale of adult use marijuana sold to consumers at marijuana facilities licensed within the state. These tax collections are expended by the DHSS for operating expenses to carry out its responsibilities under Article XIV, Section 2, Missouri Constitution, and by government entities to carry out responsibilities for the expungement of criminal history records. The remaining balance is distributed in thirds to the DHSS, the Missouri Veterans Commission, and the Missouri State Public Defender System to be used in accordance with provisions of Article XIV, Section 2.6, Missouri Constitution. For the fiscal year ended June 30, 2023, adult use marijuana taxes totaling approximately \$19.4 million were deposited into this fund.

Local Fund

Sales and use tax collections for the local fund are deposited into an interest-bearing bank account under the administrative control of the DOR and allocated to an investment pool until distributed.

Local Sales and Use Tax Trust Fund: This fund receives collections generated from the additional sales tax, not to exceed 3 percent, that may be imposed by local political subdivisions on the sale of adult use marijuana, as authorized by Article XIV, Section 2.6(5), Missouri Constitution. Tax collections are subsequently distributed to the applicable cities and counties.

Department of Revenue

Sales, Use, and Marijuana Taxes

Management Advisory Report - State Auditor's Findings

1. Collection of Local Sales Taxes

The Department of Revenue (DOR) did not follow existing policy and procedures to ensure taxpayers are assessed the correct local sales tax rate for motor vehicle sales tax transactions. As a result, the DOR cannot ensure it is collecting the correct amount of local sales taxes and fully meeting the statutory requirement for the administration, collection, enforcement, and operation of local sales taxes imposed by state law. During the year ended June 30, 2023, the DOR collected approximately \$493 million in local sales taxes from motor vehicle sales tax transactions. Our initial transaction testing resulted in an 8 percent error rate.

Background information

When a taxpayer purchases a vehicle, the taxpayer is required to title the vehicle and pay motor vehicle state and local sales taxes at a contract license office or the central license office. These transactions are processed by license office personnel in the Titling and Registration Intranet Processing System (TRIPS). This system is linked with DOR's computerized rate system. Based on the address of the taxpayer, the DOR's computerized rate system assigns the address of the taxpayer a local site code in the TRIPS. This local site code identifies the applicable local sales tax rate to be charged to the taxpayer. If the rate system is unable to provide a local site code or if the taxpayer disagrees with the recommended local site code, license office personnel are required to ask the taxpayer to identify the local tax jurisdiction in which the taxpayer lives. The license office personnel can then change the local site code for the motor vehicle sales tax transaction in the TRIPS and must provide one of the following reasons in the TRIPS to support the change:

- Tax receipt - License office personnel review the property tax receipt for county, city, and/or district taxes paid by the taxpayer.
- Letter from tax jurisdiction - License office personnel review the letter from the tax jurisdiction indicating the location of the taxpayer's address.
- None - The DOR will research if the change is appropriate.
- Other - License office personnel will enter the justification for the change, for example, contacted the county collector or verified with the county assessor.

Incorrect local site codes

We reviewed 90 motor vehicle sales tax transactions for the year ended June 30, 2023, and identified 22 transactions (24 percent) with an incorrect site code resulting in the incorrect amount of local sales tax being assessed.

We performed an initial review of 25 motor vehicle sales tax transactions with each transaction selected from a different contract license office. The testing population included the 174 contract license offices and any of the business days the contract license offices were open during fiscal year 2023. This review identified 2 transactions (8 percent error rate) with an incorrect site code resulting in an incorrect amount of local sales tax being assessed. As a result of identifying these errors, we performed an additional review of 65 motor vehicle sales tax transactions that included 30 transactions selected

Department of Revenue
Sales, Use, and Marijuana Taxes
Management Advisory Report - State Auditor's Findings

from each of the 2 contract license offices with initial errors, and 1 transaction selected from 5 different contract license offices not included in the initial review. We noted an additional 20 errors due to incorrect site codes from this review with all errors occurring at the 2 contract license offices with the initial errors.

For 20 of the 22 transactions with an incorrect site code, a site code change was required as the rate system was unable to provide a local site code. A reason of "None" was provided for each of these changes, and the DOR did not research the change for appropriateness, as required by existing DOR procedures. Based on our review of the errors noted, some taxpayers were charged certain local taxes where they should not have been, while others were not charged certain local taxes that they should have been assessed.

According to DOR procedures, for all local site code changes that occur and for which a reason of "None" is provided, research will be done to ensure the change is appropriate. However, this procedure is not being followed by the DOR. DOR personnel stated they do not have sufficient staffing to review every transaction that has a reason of "None." DOR personnel further stated they review transactions that are brought to their attention by customers and through periodic reviews conducted by field coordinators and auditors to determine if the correct site code was used. Based on our review of DOR data, there were at least 144,000 local site code change transactions with "None" provided as the reason for the year ended June 30, 2023.

Section 32.087.6, RSMo, requires the DOR to perform all functions incident to the administration, collection, enforcement, and operation of local sales taxes imposed by state law. By not following established procedures and not ensuring taxpayers are assessed the correct local sales tax rate for motor vehicle sales tax transactions, this statutory requirement cannot be fully met and the DOR cannot ensure the correct amount of local sales taxes are collected.

Recommendation

The DOR ensure established procedures are being followed, and evaluate the necessity of implementing new controls and procedures to ensure the correct local site code is used for all motor vehicle sales tax transactions and taxpayers are being assessed the correct local sales tax rate.

Auditee's Response

The Department's response is included at Appendix A.

2. Timely Sales and Use Tax Discounts

Missouri's discount is the most generous in the nation

As noted in multiple previous audit reports,³ state law allows retailers to retain a portion of sales and use taxes collected if they remit the taxes to the DOR timely, resulting in the state and local governments forgoing significant revenues. Missouri's timely sales and use tax discount remains the most generous such discount in the nation, and significantly benefits the state's largest retailers. In addition, the DOR does not routinely report to the General Assembly the amount of timely sales and use tax discounts retained by businesses for its review and consideration.

Missouri's timely sales and use tax discount is the most generous discount in the nation. Section 144.140,⁴ RSMo, allows businesses remitting sales and use taxes to retain 2 percent of sales taxes payable to the DOR if the business remits payments timely,⁵ which is defined by the due date established by the DOR. Additionally, the total discount is not capped. This resulted in \$174 million of sales and use tax collections being retained by businesses in fiscal year 2023 as their timely payment discount.

As shown in Figure 3, the amount of sales and use tax revenues Missouri has foregone as a result of the timely discount retained by businesses has totaled at least \$100 million annually since fiscal year 2014 and has increased for most years between fiscal year 2014 and fiscal year 2023. State and local sales tax revenues of approximately \$158 million and \$174 million were collected from purchasers, but retained as discounts by businesses remitting sales and use taxes in fiscal years 2022 and 2023, respectively.

³ Report No. 2023-040, *Sales and Use Tax*, issued in August 2023; Report No. 2022-037, *Sales and Use Tax*, issued in June 2022; Report No. 2021-074, *Sales and Use Tax*, issued in September 2021; Report No. 2020-041, *Sales and Use Tax*, issued in August 2020; Report No. 2019-067, *Sales and Use Tax*, issued in August 2019; Report No. 2017-113, *Cost of Tax Incentives and Exemptions*, issued in October 2017; Report No. 2015-080, *Sales and Use Tax*, issued in September 2015; and Report No. 2013-015, *Sales and Use Tax*, issued in February 2013.

⁴ Effective January 1, 2023, Section 144.710, RSMo, was repealed and the discount authorized in that section was added to Section 144.140, RSMo.

⁵ Pursuant to 12 Code of State Regulation (CSR) 10-104.030(3)(C), if filing annually, applicable taxes are due by January 31 of the following year; if filing quarterly, applicable taxes are due the last day of the month following the completed quarter; and if filing monthly, applicable taxes are due the last day of the following month. Pursuant to 12 CSR 10-104.030(3)(H), if filing quarter-monthly, applicable taxes are due within 3 business days following the completed quarter-monthly period.

Sales, Use, and Marijuana Taxes
Management Advisory Report - State Auditor's Findings

Figure 3: Timely discount totals, 2014-2023, by fiscal year⁶

Source: DOR records

In fiscal year 2023, sales and use taxes comprised approximately 20 percent of Missouri's general revenue. With sales and use tax revenues being used to fund significant portions of state and local government budgets, such large discounts can have a significant impact on programs and services offered by government entities.

As shown in Appendix I, other states may allow a higher percentage discount than Missouri's 2 percent, but these other states cap their discount, unlike Missouri. According to the Federation of Tax Administrators,⁷ 27 other states offer similar vendor discounts; however, 19⁸ of those states have established ceilings to limit the amount of discount and/or compensation retained by businesses. In addition, the other 8 states either have a lower discount rate than Missouri or only apply the highest discount rate to a limited dollar amount of sales tax collected (e.g., the first \$3,000, then a lower rate applies).

Of the eight states contiguous to Missouri, three (Iowa, Oklahoma, and Kansas) do not allow businesses to retain any sales tax receipts for timely payments, and four (Kentucky, Tennessee, Arkansas, and Nebraska) allow discounts based on a percentage of taxes, but have established ceilings. These ceilings range from a low of \$25 per filed report to a high of \$1,000 per month per business.

⁶ Timely discount totals included in Figure 3 are as of June 30 for each fiscal year; however, adjustments can be made to these amounts in subsequent years for various reasons, such as amended tax returns or audited tax returns.

⁷ Federation of Tax Administrators, *State Sales Tax Rates and Vendor Discounts*, January 1, 2023, <https://taxadmin.org/wp-content/uploads/resources/tax_rates/vendors.pdf>, accessed December 6, 2024. This report did not list that Missouri has a 2 percent discount.

⁸ The Federation of Tax Administrators report did not list that Colorado established a cap, effective January 2020. We updated the number of states with established ceilings for this total.

Department of Revenue
Sales, Use, and Marijuana Taxes
Management Advisory Report - State Auditor's Findings

Figure 4: Sales tax discounts
in surrounding states

Cap on discount would result
in increased revenue

Changing state law to include a monthly cap on the amount of timely discounts eligible to be retained would significantly increase state and local revenues. For example, Arkansas's timely discount rate is also 2 percent, but Arkansas has a cap of \$1,000 for each month included in the tax report filed. Applying Arkansas's cap of \$1,000 per month (the largest cap of contiguous states) to Missouri would have resulted in approximately \$104.3 million in additional state and local sales tax revenue during fiscal year 2023.

In fiscal year 2023, 2,850 sales tax filers received timely discounts in excess of \$1,000 in at least 1 month during the year. This is an increase of 227 filers from fiscal year 2022 and 609 filers from fiscal year 2021. Limiting these 2,850 filers to Arkansas's \$1,000 monthly cap would result in an additional \$52.7 million in state sales tax revenue and \$51.6 million in local sales tax revenue in fiscal year 2023.

Cap on discount would only
impact the state's largest
retailers

In fiscal year 2023, the 50 largest sales tax collecting businesses retained approximately 57 percent of timely discounts exceeding \$1,000, with the top 5 largest sales tax collecting businesses receiving a total of \$26 million in discounts. A monthly timely discount cap of \$1,000 would not affect the majority of sales tax filers. Based on the state's average sales tax rate of 8.36 percent,⁹ only businesses with monthly taxable sales of approximately \$598,000 would have their timely discount capped. Retailers with less than

⁹ Tax Foundation, *State and Local Sales Tax Rates, Midyear 2023*, July 2023, <<https://taxfoundation.org/2023-sales-tax-rates-midyear/>>, accessed April 16, 2024. Calculation regarding the estimated monthly taxable sales was based on this estimated average sales tax rate.

Department of Revenue
Sales, Use, and Marijuana Taxes
Management Advisory Report - State Auditor's Findings

\$598,000 in monthly taxable sales would continue to receive the full 2 percent timely discount.

The state established the timely sales tax discount so businesses could recover a portion of their costs for compliance with state sales tax laws and to encourage timely remittance of sales and use taxes. The current state law for the timely sales tax discount has been in effect since 1963, with minor revisions in 2023. With increased use of electronic systems to calculate and remit sales tax collections, it is not clear if the continued use of such a discount, as currently constructed, is necessary to achieve these objectives.¹⁰ The current law allowing uncapped timely discounts results in the state and local governments providing a significant subsidy to the largest retailers in the state.

Other states have taken action to change timely discount laws

Other states are reviewing their timely discount structure and making changes to reduce the amount of sales and use tax revenues retained by businesses. For example, Oklahoma previously had a discount of 1 percent with a cap of \$2,500 per month. However, as of July 2019, Oklahoma no longer offers a timely discount to sales tax filers. In addition, Colorado did not have a cap on the timely discount amount until January 2020, when a cap of \$1,000 per filing period was established, and as of January 2022, Colorado's timely discount is no longer available to businesses whose taxable sales exceeded \$1 million during the filing period.

Amounts of timely discounts are not routinely reported

The DOR is not required to report, and does not routinely report, the amount of timely discounts retained by businesses to the General Assembly, local governments impacted, or the general public. DOR officials have stated this data is provided upon request. This information could be useful to the General Assembly when making various budget decisions and ensuring the state and local policymakers and the general public are informed of the ongoing cost of these discounts.

Recommendation

The General Assembly evaluate the continued necessity of a timely sales tax discount. If such a discount is deemed necessary, consider possible reductions to the timely payment discount, the implementation of a monthly cap on the amount of discount retained, and changes to current state laws to require the DOR annually report the reduction of state revenue related to the timely discount to the General Assembly, applicable political subdivisions, and to the general public.

¹⁰ Missouri Budget Project, *Timely Filing Discount Costs Missourians Millions*, October 18, 2016, <<http://www.mobudget.org/timely-filing-discount/>>, accessed April 16, 2024.

Department of Revenue
Sales, Use, and Marijuana Taxes
Management Advisory Report - State Auditor's Findings

Auditee's Response

Due to this recommendation being legislative in nature, no management response can be obtained. While the recommendation is not addressed to the DOR, department officials provided a written response. That response is included at Appendix A.

3. Marijuana Taxes

The DOR has not conducted any audits of marijuana tax returns. In addition, the DOR did not document any calculations or justification to support how the collection fee withheld from medical and adult use marijuana tax collections was determined.

3.1 Marijuana tax returns have not been audited

As of January 2025, the DOR has not conducted any audits of marijuana tax returns. The first sales of medical marijuana began in October 2020, and the first sales of adult use marijuana began in February 2023. During fiscal year 2023, approximately 1,500 marijuana tax returns were processed by the DOR with taxable sales totaling approximately \$806.9 million. The DOR collected marijuana taxes totaling approximately \$16.4 million and \$19.6 million for medical marijuana and adult use marijuana, respectively, during fiscal year 2023. DOR officials stated they are still in the process of adjusting their audit model and developing audit procedures for marijuana tax returns.

Missouri's marijuana industry is growing rapidly, with sales and associated tax revenues expected to grow significantly. Marijuana tax returns developed by the DOR are newly created forms, and are separate from the standard sales tax return, creating a higher risk of noncompliance. Audits of tax returns are necessary to help ensure compliance with tax laws, prevent and detect fraud and tax evasion, and identify and correct errors and omissions. Developing a program to audit marijuana tax returns also helps to promote public trust and confidence in the tax system by establishing an environment of compliance.

3.2 Collection costs

The DOR did not document any calculations or justification to support how the collection fee withheld from medical and adult use marijuana tax collections was determined. According to Article XIV, Sections 1 and 2, Missouri Constitution, the DOR is authorized to retain no more than 2 percent for its actual collection costs for medical marijuana tax, and no more than 2 percent of the total tax collected or its actual collection costs, whichever is less, for adult use marijuana tax. Calculations were not performed by DOR personnel to determine actual collection costs. Rather, DOR personnel stated the collection fee for marijuana taxes was set at the same 1 percent used for retail sales and use taxes. No documentation was maintained by the DOR to support this decision. DOR personnel further indicated they could calculate the costs of collection later if they start to see the 1 percent was not sufficient; however, they have not reached this point yet.

An analysis of the actual cost of collecting marijuana taxes to the fees withheld is necessary to ensure the fees collected are set at an appropriate level, and are sufficient to cover actual collection costs, but also to ensure fees do not exceed actual costs.

Department of Revenue
Sales, Use, and Marijuana Taxes
Management Advisory Report - State Auditor's Findings

Recommendations

The DOR:

- 3.1 Establish procedures for performing audits of marijuana tax returns.
- 3.2 Calculate actual costs for collecting marijuana taxes and compare the total costs to total collection fees withheld. Evaluate if any adjustment to the collection fee is necessary and continue to perform this comparison on a periodic basis.

Auditee's Response

The Department's response is included at Appendix A.

Department of Revenue

Sales, Use, and Marijuana Taxes

Organization and Statistical Information

The Department of Revenue (DOR) was created by Article IV, Section 12, of the Missouri Constitution as the central collection agency for state revenues. Article IV, Section 15, of the Missouri Constitution establishes the DOR as the custodian of nonstate funds, which are defined as taxes and fees imposed by political subdivisions and collected by the DOR; all taxes that are imposed by the state, collected by the DOR and distributed by the DOR to political subdivisions; and other money designated as "nonstate funds." The Director of Revenue is appointed by the Governor, with the advice and consent of the Senate, and is responsible for all operations and policies. DOR responsibilities include:

1. Administering and collecting state taxes and fees, including sales and use tax, motor vehicle sales tax, and medical and adult use marijuana tax.
2. Collecting certain taxes and fees for local governments, including local sales and use tax.
3. Titling and licensing motor vehicles, trailers, and boats.
4. Licensing motor vehicle operators.

The DOR consists of 3 divisions, the General Counsel's office, and the Director's office.

Motor Vehicle and Driver Licensing Division: This division collects motor vehicle sales and use taxes and consists of 3 bureaus. (1) The Motor Vehicle Bureau issues titles and registers motor vehicles, trailers, all-terrain vehicles, manufactured homes, and marine craft. The bureau also issues registration certificates to motor vehicle and salvage dealers and leasing companies. (2) The Driver License Bureau issues, renews, suspends, revokes, and reinstates driver and nondriver licenses and driving permits. The bureau processes and maintains records relating to license issuance, traffic violation point assessments, failure to appear in court for traffic violations, and administers administrative alcohol and abuse and lose laws for alcohol/drug offenders. (3) The License Offices Bureau manages the operations of the contract license offices throughout the state. These local offices provide driver licensing and motor vehicle services and are operated by individuals or businesses approved through the state of Missouri bid process.

Taxation Division: This division consists of 5 bureaus that collect taxes and administer state tax law. (1) The Processing Bureau processes returns and payments for individual income, corporate income, property tax credit, sales, use, medical marijuana, adult use marijuana, employer withholding, insurance, financial institution tax, and tire and lead-acid battery fees. This bureau also processes business tax registration applications, business tax account updates, MyTax portal communications, and handles tax-related cashiering functions. (2) The Income Tax Bureau administers individual, corporate, property tax credit, fiduciary, and partnership taxes. This bureau's functions include manually reviewing exceptions, processing incoming

Department of Revenue
Sales, Use, and Marijuana Taxes
Organization and Statistical Information

correspondence, returned refunds and returned mail, answering correspondence, responding to protests, and identification of non-filers and under-reporters for income tax. The bureau is also responsible for the administration of several tax credit programs and the redemption of tax credits claimed by individual and corporate taxpayers. This bureau also identifies and works to prevent individual income tax fraud. (3) The Business Tax Bureau administers motor fuel, cigarette and other tobacco products, financial institutions, sales and use, medical marijuana, adult use marijuana, and employer withholding taxes, along with multiple county fees, and tire and battery fees. Administrative functions include answering correspondence, processing sales and use tax exemptions, responding to tax protests, and distribution of funds to both state and local jurisdictions. (4) The Collections and Taxpayer Assistance Bureau provides tax assistance to individuals and businesses and follows procedures for unpaid tax liabilities. This bureau is comprised of 3 main areas of focus: call center, taxpayer assistance, and collections enforcement. The overall focus is account resolution and customer assistance. (5) The Field Compliance Bureau conducts audits to help educate Missouri businesses on their sales, consumer use, vendor use, employer withholding, and corporate income taxes, in addition to tire and battery fee obligations. The bureau also conducts audits of certain large sales and use tax refund claims. The Nexus section identifies taxpayers who have not complied with the business tax laws of Missouri and works with those taxpayers to become compliant. The Electronic Services section maintains the electronic interfaces between Missouri taxpayers, taxpayer representatives, and software developers. This section also handles the system administration functions for several internal and contracted applications.

Administration Division: This division provides administrative support to all other areas of the DOR and consists of 2 bureaus. (1) The Human Resources and Total Rewards Bureau is responsible for the DOR's personnel matters, process improvements, and training. (2) The Financial and General Services Bureau is responsible for all accounting, procurement, banking, and general service matters. This bureau also coordinates space and location needs, telecommunications, safety issues, maintenance, and improvement of the work environment within the DOR. In addition, included in the division is the Technical Communications Office that develops and maintains department forms, policies, and procedures. The office also maintains the public and internal website.

General Counsel's Office: This office ensures the DOR's compliance with law and internal policies, advises the director and divisions on legal matters relative to the DOR, and represents the DOR in courts and administrative tribunals. This office also consists of 2 investigation bureaus. (1) The Criminal Tax Investigation Bureau investigates and develops information leading to local prosecution of individuals and businesses suspected of violating state statutes related to sales, withholding, and income tax. (2) The

Department of Revenue
Sales, Use, and Marijuana Taxes
Organization and Statistical Information

Compliance and Investigation Bureau conducts investigations involving allegations of fraud relating to motor vehicle sales tax, titling and registration, odometer, and motor fuel sales tax as well as cigarette tax fraud, driver's license fraud and license plate fraud. The bureau also ensures the compliance of motor vehicle dealers, salvage businesses, and marine dealers with statutes and licensure regulations. In addition to external investigations, the bureau conducts internal audits and investigations of the DOR and contract license offices.

Director's Office: This office includes the Director, Chief Operating Officer, and key administrative staff responsible for the overall guidance and direction of the DOR. This office includes the Strategy and Communications Office and the Legislative Office. The Strategy and Communications Office develops and maintains positive media and public relations for the DOR. Additionally, the office handles graphic design, video and social media for the DOR. The Legislative Office serves as the DOR's liaison to the General Assembly. The office provides technical assistance, develops fiscal and revenue estimates on proposed legislation, and monitors the progress of bills through the Legislature.

Wayne Wallingford served as Director of Revenue from January 1, 2022, through January 13, 2025. Trish Vincent was appointed Director of Revenue on January 13, 2025.

Scott Fitzpatrick
Missouri State Auditor
Missouri State Auditor's Office
PO Box 869
Jefferson City, MO 65102

Dear Mr. Fitzpatrick:

The Department of Revenue acknowledges the recommendation in the Missouri State Auditor's report on Sales, Use, and Marijuana Tax.

Recommendation 1 — The DOR ensure established procedures are being followed, and evaluate the necessity of implementing new controls and procedures to ensure the correct local site code is used for all motor vehicle sales tax transactions and taxpayers are being assessed the correct local sales tax rate.

DOR Response 1 — The Department updated its procedures and system on May 19, 2024, to remove the option of "None" from the site code options. In addition, the Department implemented an enhanced address mapping system on October 20, 2024.

Recommendation 2 — The General Assembly evaluate the continued necessity of a timely sales tax discount. If such a discount is deemed necessary, consider possible reductions to the timely payment discount, the implementation of a monthly cap on the amount of discount retained, and changes to current state laws to require the DOR annually report the reduction of state revenue related to the timely discount to the General Assembly, applicable political subdivisions, and to the general public.

Appendix A
Department of Revenue - Sales, Use, and Marijuana Taxes
Department of Revenue Response to Audit Recommendations

DOR Response 2 — If the General Assembly passes legislation that requires action, the Department will incorporate those provisions into our processes and comply with any state laws regarding this recommendation.

Recommendation 3.1 — Establish procedures for performing audits of marijuana tax returns.

DOR Response 3.1 — The Department is finalizing the procedures for performing audits of marijuana tax returns and will begin to conduct audits within the next couple of months.

Recommendation 3.2 — Calculate actual costs for collecting marijuana taxes and compare the total costs to total collection fees withheld. Evaluate if any adjustment to the collection fee is necessary and continue to perform this comparison on a periodic basis.

DOR Response 3.2 — The Department is evaluating the method for determining and adjusting for the actual cost of collecting marijuana taxes.

If you have any questions, please contact me at 526-1207 or Joshua.Shope@dor.mo.gov.

Sincerely,

Trish Vincent

¹ Local sales and use tax distributions by political subdivision are available in the Department of Revenue's annual Financial and Statistical Report. However, the Department of Revenue does not report distributions for political subdivisions with less than 6 taxpayers. For this schedule, all local sales and use tax distributions have been included in the amounts reported. The Department of Revenue's annual Financial and Statistical Report is accessible through the Department of Revenue's website at <http://www.dor.mo.gov>.

Appendix I

Department of Revenue
Sales, Use, and Marijuana Taxes
Comparison of Sales and Use Tax Timely Discounts by State

Scenario: For purposes of this comparison, a vendor filed electronically, had monthly taxable sales of \$1,500,000, and sales tax liability of \$100,000.

State	Timely Discount - Rate ¹	Timely Discount - Cap	Additional Information	Timely Discount - Monthly	Timely Discount - Adjusted for Cap
Missouri	2.00%			\$2,000	\$2,000
Illinois	1.75%		Vendors are allowed a discount of 1.75% or \$5 per calendar year, whichever amount is greater; required to file electronically.	\$1,750	\$1,750
Utah	1.31%		The discount is only allowed for monthly returns filed electronically.	\$1,310	\$1,310
Arizona	1.20%	\$12,000/year	Vendors filing paper returns can claim a rate of 1.00% (\$10,000/year max); electronic filers can claim a rate of 1.20% (\$12,000/year max).	\$1,200	\$1,000
Arkansas	2.00%	\$1,000/month		\$2,000	\$1,000
Louisiana	0.94%	\$1,500/month		\$940	\$940
Ohio	0.75%			\$750	\$750
Georgia	3.00% - 0.50%		The 3.00% discount applies to the first \$3,000 of sales tax due; must file and pay electronically.	\$575	\$575
Virginia	1.12% - 0.56%		The discount rate is: 1.12% for monthly taxable sales up to \$62,500, 0.84% for taxable sales of \$62,501 to \$208,000, and 0.56% for taxable sales of \$208,001 or more. No discount allowed if the average monthly sales tax liability exceeds \$20,000.	\$560	\$560
Indiana	0.73% - 0.26%		The discount rate is 0.73% if total sales tax collected is less than \$60,000; 0.53% if sales tax collected is between \$60,000 and \$600,000; 0.26% if total sales tax collected is more than \$600,000.	\$530	\$530
Maryland	1.20% - 0.90%	\$500/return	The 1.20% discount applies to the first \$6,000 of sales tax due, 0.90% on the remaining amount due.	\$918	\$500
Michigan	0.75%	\$20,000/month	The discount applies to 2/3 of the taxes due. For monthly filers, if tax is more than \$1,200 and paid before the 12th of the month, the discount is 0.75% with a maximum of \$20,000. If tax is more than \$1,800 and paid between the 13th and 20th of the month, the discount is 0.50% with a maximum of \$15,000.	\$500	\$500
Texas	0.50%		An additional discount of 1.25% applies for early payment.	\$500	\$500
Wisconsin ²	0.50%	\$1,000/reporting period	The discount is equal to the total sales tax if the tax due is \$0 to \$10. The discount is \$10 if the tax due is \$10 to \$2,000. The discount is 0.50% if the tax due is \$2,000 or greater, with a \$1,000/reporting period maximum.	\$500	\$500
Wyoming ³	1.95% - 1.00%	\$500/month	The 1.95% discount applies to the first \$6,250 of sales tax due; 1.00% on the remainder.	\$1,059	\$500
Alabama	5.00% - 2.00%	\$400/month	The 5.00% discount applies to the first \$100 of sales tax due, 2.00% on all amounts over \$100.	\$2,003	\$400
South Carolina ⁴	3.00% - 2.00%	\$3,000-\$3,100/year	For total tax due less than \$100, the discount is 3.00%. The discount is reduced to 2.00% for total tax due of \$100 or more. The maximum discount is \$3,000/year for paper filers and \$3,100/year for electronic filers.	\$2,000	\$258
Nevada	0.25%			\$250	\$250
Nebraska	3.00%	\$150/month/location	The discount is allowed on the first \$5,000 of sales tax collected each month.	\$150	\$150
North Dakota	1.50%	\$110/month	Sales tax permit holders are allowed a maximum of \$110 per month while wholesalers are allowed a maximum of \$100 per month.	\$1,500	\$110
South Dakota	1.50%	\$70/month	The discount applies to electronic filers only.	\$1,500	\$70
Kentucky	1.75% - 1.50%	\$50/month	The 1.75% discount applies to the first \$1,000 of sales tax due, 1.50% on the remainder.	\$1,503	\$50
Mississippi	2.00%	\$50/month		\$2,000	\$50
Florida	2.50%	\$30/report	The discount is only available to vendors that file and pay electronically.	\$2,500	\$30
Pennsylvania	1.00%	\$25/month	The discount is the lesser of \$25 or 1% of the tax collected for monthly filers; the lesser of \$75 or 1% for quarterly filers; and the lesser of \$150 or 1% for semi-annual filers.	\$1,000	\$25
Tennessee ⁵	2.00% - 1.15%	\$25/report	The 2.00% discount applies to the first \$2,500 of state sales tax due, 1.15% on the remainder. Vendors registered in the state were allowed a discount on state tax due, not to exceed \$25/report.	\$1,171	\$25
Colorado ⁶	4.00%	\$1,000/filing period	Vendors whose taxable sales during the filing period exceed \$1 million are not allowed a discount.	\$0	\$0
New York	5.00%	\$200/quarter or year	The discount is not available to monthly filers.	\$0	\$0

Appendix I

Sales, Use, and Marijuana Taxes
Comparison of Sales and Use Tax Timely Discounts by State

Scenario: For purposes of this comparison, a vendor filed electronically, had monthly taxable sales of \$1,500,000, and sales tax liability of \$100,000.

State	Timely Discount - Rate ¹	Timely Discount - Cap	Additional Information	Timely Discount - Monthly	Timely Discount - Adjusted for Cap
California	None				
Connecticut	None				
Hawaii	None				
Idaho	None				
Iowa	None				
Kansas	None				
Maine	None				
Massachusetts	None				
Minnesota	None				
New Jersey	None				
New Mexico	None				
North Carolina	None				
Oklahoma	None				
Rhode Island	None				
Vermont	None				
Washington	None				
West Virginia	None				
Alaska	Not Applicable				
Delaware	Not Applicable				
Montana	Not Applicable				
New Hampshire	Not Applicable				
Oregon	Not Applicable				

¹ States indicated as "None" have a state sales tax, but do not allow for a timely discount. States indicated as "Not Applicable" do not have a state sales tax.

² Effective October 1, 2023, the discount is equal to the total sales tax if the tax due is \$0 to \$10. The discount is \$10 if the tax due is \$10 to \$1,333. The discount is 0.75% if the tax due is \$1,333 or greater, with a \$8,000/reporting period maximum.

³ Effective July 1, 2024, the discount is equal to 1.95% of the total tax due if the return and payment is postmarked by the 15th of the month the tax is due. The discount is capped at \$500 per reporting period.

⁴ Out-of-state sellers not required by law to collect state sales and use tax, but do so voluntarily, are allowed a maximum discount of \$10,000 per fiscal year.

⁵ The discount applies to out-of-state sellers not required by law to register in the state, who voluntarily register to collect and remit tax. The 2.00% discount applies to the first \$2,500 of state tax due, 1.15% applies on the remainder, and there is no maximum on the discount amount.

⁶ Monthly discount amounts were not included in our analysis as the taxable sales in the scenario exceeded \$1,000,000.

SCOTT FITZPATRICK
MISSOURI STATE AUDITOR

Honorable Mike Kehoe, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this compilation is to report the filing status for political subdivisions, other than cities, towns, and villages, required to file a financial report under Section 105.145, RSMo, and 15 CSR 40-3.030. Section 105.145, RSMo, provides that the State Auditor's Office shall notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Due to different filing requirements, a separate report is issued for cities, towns, and villages.

The filing status for the 30 political subdivisions required to file a financial report by January 31, 2025, is presented in summary on page 3 and by individual entity in Appendix A. We have not audited the information submitted and, accordingly, do not express an opinion or any other form of assurance on it.

This report also includes the updated filing status for political subdivisions, other than cities, towns, and villages, that filed a financial report in January 2025, after their filing deadline. The filing status for these 41 entities is presented in summary on page 3 and by individual entity in Appendixes B to D.

A handwritten signature in black ink that reads "Scott Fitzpatrick". The signature is written in a cursive, flowing style.

Monthly Report on Political Subdivision Filings

January 2025

Executive Summary

Executive Summary

Section 105.145, RSMo, requires the governing body of each political subdivision in the state, except counties and school districts, to prepare and remit to the state auditor an annual report of financial transactions. Rule 15 CSR 40-3.030 requires the financial report to be remitted to the state auditor within 6 months of the end of the political subdivision's fiscal year. The State Auditor's Office posts individual annual financial reports to its website. A searchable link is available at <http://auditor.mo.gov>.

Section 105.145, RSMo, requires the state auditor to notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Any political subdivision that fails to timely submit the annual financial report shall be subject to a fine of \$500 per day upon notice by the Department of Revenue.

This report includes the filing status for the 30 political subdivisions, other than cities, towns, and villages, with a fiscal year end of July 31, 2024. Cities, towns, and villages have additional filing requirements and their reporting status is included in a separate report. Of the 30 political subdivisions, 26 filed an annual financial report timely.

This report also includes the filing status for 41 political subdivisions, other than cities, towns, and villages, that filed their financial report in January 2025, after their filing deadline.

SCOTT FITZPATRICK
MISSOURI STATE AUDITOR

Honorable Mike Kehoe, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this compilation is to report the filing status for the municipalities required to file a financial report by January 31, 2025, under Section 105.145, RSMo, and 15 CSR 40-3.030 and, when applicable, an addendum under Section 479.359, RSMo, and 15 CSR 40-3.170 and a municipal court certification under Section 479.360, RSMo, and 15 CSR 40-3.180. No cities, towns, or villages had a fiscal year end of July 31, 2024; therefore, no financial reports, addendums, or certifications were due by January 31, 2025.

Section 105.145, RSMo, provides that the State Auditor's Office (SAO) shall notify the Department of Revenue if any city, town, or village fails to timely submit a copy of its annual financial report. Additionally, Section 479.362, RSMo, provides that the SAO shall notify the Department of Revenue whether counties, cities, towns, and villages have timely filed under Sections 479.359 and 479.360, RSMo. Due to different filing requirements, a separate report is issued for all other political subdivisions required to file a financial report.

This report includes the updated filing status for municipalities that filed at least one of the items (financial report, addendum, or certification) in January 2025, after their filing deadline. The filing status for these 45 cities, 2 towns, and 9 villages is presented in summary on page 4 and by individual entity in Appendixes A to F.

A handwritten signature in black ink that reads "Scott Fitzpatrick". The signature is stylized, with the first letters of the first and last names being capitalized and prominent.

Scott Fitzpatrick
State Auditor

Monthly Report on Municipal Court and Revenue Filings

January 2025

Executive Summary

Executive Summary

Section 105.145, RSMo, requires the governing body of each political subdivision in the state, except counties and school districts, to prepare and remit to the state auditor an annual report of financial transactions. Rule 15 CSR 40-3.030 requires the financial report to be remitted to the state auditor within 6 months of the end of the political subdivision's fiscal year. The State Auditor's Office (SAO) posts individual annual financial reports to its website. A searchable link is available at <http://auditor.mo.gov>.

Section 105.145, RSMo, requires the state auditor to notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Any political subdivision that fails to timely submit the annual financial report shall be subject to a fine of \$500 per day upon notice by the Department of Revenue.

Section 479.359.1, RSMo, requires every county, city, town, and village to annually calculate the percentage of its annual general operating revenue received from fines, bond forfeitures, and court costs for minor traffic violations.

Section 479.359.3, RSMo, provides that all entities having a municipal court file an addendum to the annual financial report containing items listed in 15 CSR 40-3.170, which also provides the procedure to file an addendum.

Section 479.360, RSMo, requires every county, city, town, and village that has a municipal court to file, with its annual financial report, a certification of substantial compliance with 10 municipal court procedures. This certification must be signed by the municipal court judge. Rule 15 CSR 40-3.180 provides the procedure to file the municipal court certification. Any county, city, town, or village that does not have a municipal court judge is not required to file a certification.

Section 479.362, RSMo, requires the SAO to notify the Department of Revenue whether counties, cities, towns, or villages have timely filed their addendums under Section 479.359, RSMo, and certificates of substantial compliance under Section 479.360, RSMo. Section 479.368, RSMo, provides penalties for counties, cities, towns, and villages that fail to file, including loss of revenue and a mandatory ballot measure to dissolve the political subdivision.

No cities, towns, or villages had a fiscal year end of July 31, 2024; therefore, no financial reports, addendums, or certifications were due by January 31, 2025.

Monthly Report on Municipal Court and Revenue Filings
January 2025
Executive Summary

This report includes the filing status for 45 cities, 2 towns, and 9 villages that filed at least one of the items (financial report, addendum, or certification) in January 2025, after their filing deadline. Of these municipalities, 47 filed an annual financial report, 16 filed an addendum, and 5 filed a certification.

I. 2024 CAFA Seizures Disposition Reported.....	4
II. 2024 CAFA Seizures Information Reported	7

SCOTT FITZPATRICK
MISSOURI STATE AUDITOR

Honorable Michael L. Kehoe, Governor
and
Members of the General Assembly
Jefferson City, Missouri

As required by Section 513.607, RSMo, we have compiled the 2024 Criminal Activity Forfeiture Act (CAFA) seizure reports submitted to the State Auditor by prosecuting attorneys and the Attorney General. The compilation is limited to information submitted to the State Auditor's Office. We have not audited the reports submitted and, accordingly, do not express an opinion or any other form of assurance on them. The primary objectives of this compilation were to:

1. Compile the 2024 CAFA seizure information reported.
2. Identify officials who submitted 2024 CAFA seizure reports to the State Auditor.

Section 513.607, RSMo, requires prosecuting attorneys and the Attorney General to report CAFA seizures for the previous calendar year by January 31, to both the Director of the Department of Public Safety and the State Auditor. Of the 116 potential reporting officials, we received reports from each official.

Compliance with Section 513.653, RSMo, which requires law enforcement agencies involved in using the federal forfeiture system to submit reports regarding federal seizures and the proceeds therefrom to the State Auditor's Office, will be separately reported.

Scott Fitzpatrick
State Auditor

Compilation of 2024 Criminal Activity Forfeiture Act Seizures

Executive Summary

CAFA Seizure Reports Submitted

The State Auditor received 116 of the total possible 116 Criminal Activity Forfeiture Act (CAFA) seizure reports from prosecuting attorneys and the Attorney General for property seized during calendar year 2024.

Section 513.607.10, RSMo, states intentional or knowing failure to comply with any reporting requirement shall be a class A misdemeanor punishable by a fine of up to \$1,000.

Disposition of the Seizures Reported

We compiled the disposition of seizures as reported by prosecuting attorneys and the Attorney General for property seized during calendar year 2024. The following table lists the overall dollar value of the dispositions by category as reported to the State Auditor for 2024, 2023, and 2022.

Reported Disposition	2024		2023		2022	
Pending	\$ 1,473,873	55.3 %	\$ 1,271,765	52.3 %	\$ 2,815,936	58.2 %
Returned	316,063	11.9	76,245	3.1	280,183	5.8
Transferred to Federal Agency	838,596	31.5	979,560	40.3	1,524,486	31.5
Transferred to State	6,734	0.2	30,411	1.2	67,501	1.4
Other	28,548	1.1	16,139	0.7	18,564	0.4
Disposition Not Reported	0	0.0	57,614	2.4	128,499	2.7
Total	\$ 2,663,814	100.0 %	\$ 2,431,734	100.0 %	\$ 4,835,169	100.0 %

See Appendix I for the 2024 CAFA seizures disposition as reported by each prosecuting attorney and the Attorney General.

Reporting of Seizures Information

Section 513.607.8, RSMo, states prosecuting attorneys and the Attorney General shall report the date, time, and place of the seizure; property seized; estimated value of the property seized; person(s) from whom the property was seized; criminal charges filed; and disposition of the seizure, forfeiture, and criminal actions. See Appendix II for the number of 2024 CAFA seizures reported with this information.

This appendix compiles only the data and dispositions pertaining to 2024 CAFA seizures, the total estimated value of seizures reported, and the number of seizures categorized by the type of information reported for each prosecuting attorney and the Attorney General. Criminal charges filed and criminal actions were only counted if a criminal case was in existence for the seizure. We did not verify this data. Information regarding seizures in previous years is not reflected in this appendix.

D	Status of Political Subdivisions Required to File Annual Financial Reports - Reports Due November 30, 2024 Filed in December 2024	16

SCOTT FITZPATRICK
MISSOURI STATE AUDITOR

Honorable Mike Kehoe, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this compilation is to report the filing status for political subdivisions, other than cities, towns, and villages, required to file a financial report under Section 105.145, RSMo, and 15 CSR 40-3.030. Section 105.145, RSMo, provides that the State Auditor's Office shall notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Due to different filing requirements, a separate report is issued for cities, towns, and villages.

The filing status for the 416 political subdivisions required to file a financial report by December 31, 2024, is presented in summary on page 3 and by individual entity in Appendix A. We have not audited the information submitted and, accordingly, do not express an opinion or any other form of assurance on it.

This report also includes the updated filing status for political subdivisions, other than cities, towns, and villages, that filed a financial report in December 2024, after their filing deadline. The filing status for these 9 entities is presented in summary on page 3 and by individual entity in Appendixes B to D.

A handwritten signature in black ink that reads "S. Fitzpatrick". The signature is stylized, with the first name "S." and the last name "Fitzpatrick" written in a cursive-like script.

Scott Fitzpatrick
State Auditor

Monthly Report on Political Subdivision Filings

December 2024

Executive Summary

Executive Summary

Section 105.145, RSMo, requires the governing body of each political subdivision in the state, except counties and school districts, to prepare and remit to the state auditor an annual report of financial transactions. Rule 15 CSR 40-3.030 requires the financial report to be remitted to the state auditor within 6 months of the end of the political subdivision's fiscal year. The State Auditor's Office posts individual annual financial reports to its website. A searchable link is available at <http://auditor.mo.gov>.

Section 105.145, RSMo, requires the state auditor to notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Any political subdivision that fails to timely submit the annual financial report shall be subject to a fine of \$500 per day upon notice by the Department of Revenue.

This report includes the filing status for the 416 political subdivisions, other than cities, towns, and villages, with a fiscal year end of June 30, 2024. Cities, towns, and villages have additional filing requirements and their reporting status is included in a separate report. Of the 416 political subdivisions, 321 filed an annual financial report timely.

This report also includes the filing status for 9 political subdivisions, other than cities, towns, and villages, that filed their financial report in December 2024, after their filing deadline.

SCOTT FITZPATRICK
MISSOURI STATE AUDITOR

Honorable Mike Kehoe, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this compilation is to report the filing status for the municipalities required to file a financial report by December 31, 2024, under Section 105.145, RSMo, and 15 CSR 40-3.030 and, when applicable, an addendum under Section 479.359, RSMo, and 15 CSR 40-3.170 and a municipal court certification under Section 479.360, RSMo, and 15 CSR 40-3.180.

Section 105.145, RSMo, provides that the State Auditor's Office (SAO) shall notify the Department of Revenue if any city, town, or village fails to timely submit a copy of its annual financial report. Additionally, Section 479.362, RSMo, provides that the SAO shall notify the Department of Revenue whether counties, cities, towns, and villages have timely filed under Sections 479.359 and 479.360, RSMo. Due to different filing requirements, a separate report is issued for all other political subdivisions required to file a financial report.

The filing status for the 257 cities, 5 towns, and 64 villages is presented in summary on page 3 and by individual entity in Appendix A. This compilation is limited to presenting information submitted to our office. We have not audited the information submitted and, accordingly, do not express an opinion or any other form of assurance on it.

This report includes the updated filing status for municipalities that filed at least one of the items (financial report, addendum, or certification) in December 2024, after their filing deadline. The filing status for these 7 cities, 1 town, and 1 village is presented in summary on page 4 and by individual entity in Appendixes B to E.

A handwritten signature in black ink that reads "Scott Fitzpatrick". The signature is stylized with a large, flowing "S" and "F".

Scott Fitzpatrick
State Auditor

Monthly Report on Municipal Court and Revenue Filings

December 2024

Executive Summary

Executive Summary

Section 105.145, RSMo, requires the governing body of each political subdivision in the state, except counties and school districts, to prepare and remit to the state auditor an annual report of financial transactions. Rule 15 CSR 40-3.030 requires the financial report to be remitted to the state auditor within 6 months of the end of the political subdivision's fiscal year. The State Auditor's Office (SAO) posts individual annual financial reports to its website. A searchable link is available at <http://auditor.mo.gov>.

Section 105.145, RSMo, requires the state auditor to notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Any political subdivision that fails to timely submit the annual financial report shall be subject to a fine of \$500 per day upon notice by the Department of Revenue.

Section 479.359.1, RSMo, requires every county, city, town, and village to annually calculate the percentage of its annual general operating revenue received from fines, bond forfeitures, and court costs for minor traffic violations.

Section 479.359.3, RSMo, provides that all entities having a municipal court file an addendum to the annual financial report containing items listed in 15 CSR 40-3.170, which also provides the procedure to file an addendum.

Section 479.360, RSMo, requires every county, city, town, and village that has a municipal court to file, with its annual financial report, a certification of substantial compliance with 10 municipal court procedures. This certification must be signed by the municipal court judge. Rule 15 CSR 40-3.180 provides the procedure to file the municipal court certification. Any county, city, town, or village that does not have a municipal court judge is not required to file a certification.

Section 479.362, RSMo, requires the SAO to notify the Department of Revenue whether counties, cities, towns, or villages have timely filed their addendums under Section 479.359, RSMo, and certificates of substantial compliance under Section 479.360, RSMo. Section 479.368, RSMo, provides penalties for counties, cities, towns, and villages that fail to file, including loss of revenue and a mandatory ballot measure to dissolve the political subdivision.

This report includes the filing status for the 257 cities, 5 towns, and 64 villages with a fiscal year end of June 30, 2024, whose financial report was due by December 31, 2024. Of the 326 municipalities, 228 filed the financial report timely. Of the 232 municipalities required to file an addendum, 91 filed timely. Of the 94 municipalities required to file a certification, 51 filed timely.

Monthly Report on Municipal Court and Revenue Filings
December 2024
Executive Summary

This report includes the filing status for 7 cities, 1 town, and 1 village that filed at least one of the items (financial report, addendum, or certification) in December 2024, after their filing deadline. Of these municipalities, 7 filed an annual financial report, 3 filed an addendum, and 1 filed a certification.

Scott Fitzpatrick

Missouri State Auditor

Iron County Sheriff

Report No. 2025-007

February 2025

auditor.mo.gov

CITIZENS SUMMARY

Findings in the audit of the Iron County Sheriff

Missing Money

From December 31, 2020, through March 31, 2023, Sheriff's office personnel collected at least \$5,680 for cash bonds that was not deposited and is missing. Of the 263 bond forms written from December 31, 2020, to March 31, 2023, 136 forms indicated money was collected. During a review of these bonds, the audit identified 6 bond forms that indicated the Sheriff's office collected cash totaling \$5,680 that was not deposited into any Sheriff bank account and could not be traced to a disbursement to a court.

Accounting Controls and Procedures

A review of 263 bond forms issued from December 31, 2020, through March 31, 2023, found concerns with 94, including: bond money collected but never deposited; court case not identified for collected bond money; illegible, incomplete, and missing bond forms; a bond disbursed before the bond money was collected; and a bond disbursement rejected by the bank because the Sheriff's office bank account did not have sufficient funds. During the audit period, 24 bonds, totaling \$19,501, were not disbursed to the circuit court for more than 30 days, with some money held for almost a year. The former Sheriff did not segregate accounting duties and did not perform adequate supervisory reviews of detailed accounting and bank records. The Sheriff's office did not establish adequate controls for monitoring bank account use causing both the Bond account and the Revolving Fund account to be overdrawn multiple times. During the audit period, the Bond and Revolving Fund accounts had balances as low as negative \$701 and negative \$14,448, respectively. The overdrawn accounts resulted in the county paying overdraft fees totaling \$238. The Sheriff's office procedures for receipting, recording, and depositing money need improvement.

The former Sheriff did not establish appropriate disbursement controls and written procedures, which allowed inappropriate purchases to go undetected. The audit noted 9 improper purchases, totaling \$4,954, with office credit cards and 2 improper cash withdrawals from the Donations account, totaling \$308. The Sheriff's office did not establish appropriate controls and written procedures for the use of office credit cards. A review of credit card purchases from the period January 1, 2021, through March 31, 2023, found 80 purchases totaling \$18,634 that did not have receipt slips submitted to the county. Because of this, the County Clerk's office refused to pay credit card bills for the Sheriff's office until they received the required supporting documentation. This led to accumulating balances and late fees and eventually the cancellation of some cards by the issuing bank. From January 2021 through March 2023, the county paid \$145 in late fees and \$680 in finance charges as a result of late or incomplete payments on the Sheriff's credit card bills. Because the Sheriff's office did not have proper controls in place for purchases, the Sheriff's office exceeded initial 2022 General Revenue Fund budgeted amounts for the Sheriff's office and jail by \$10,843 and \$41,364, respectively.

The Sheriff's office did not solicit bids when required. The county paid approximately \$50,000 for inmate meals in 2021 and approximately \$49,000 for inmate meals in 2022 without soliciting bids. This was an increase of approximately \$29,000 per year from 2020 under the prior Sheriff.

The Sheriff's office does not maintain documentation for civil paper service requests. Sheriff's office personnel did not have controls and procedures in place to ensure all costs for boarding prisoners were billed to the prisoner or applicable government entities upon release and lack adequate controls and procedures to track and account for fuel purchases. Fuel purchases for the Sheriff's fleet increased from 10,987 gallons in 2020 to 17,274 gallons in 2021 and 18,061 gallons in 2022 (a yearly increase of approximately 57 percent and 5 percent, respectively) and there was no significant change in the departmental fleet size and composition.

The Sheriff's office maintains a bank account outside the county treasury. The Sheriff's office did not establish controls and procedures to ensure the money donated was adequately tracked or used for its intended purposes. The Donations account was opened in June 2021 to fund a K-9 unit. There was no support for any of the deposits into the account to show who donated or for what purpose. Also, all funds withdrawn from the account were in cash or by debit card with no indication of what was purchased or why.

Seized Property	Sheriff's office personnel do not maintain a complete and accurate seized property inventory listing and did not ensure items in the seized property room were properly secured. The State Auditor's Office haphazardly selected 10 items from the seized property evidence listing to trace to the physical seized property items and 5 items from seized property to trace to the seized property evidence listing. Auditors could not physically locate 3 items from the evidence listing (a 9 mm handgun with holster and live rounds, two pipes with one gram of marijuana, and a 22 Magnum revolver) in the seized property room. They also found 3 items (a large rock, a samurai sword, and a rifle) in the seized property room that were not included on the seized property evidence listing. Auditors also noted items in the property room were not properly secured, with many loose items in the room not labeled, improperly placed with existing cases, or in unsealed envelopes. These items included firearms, plants resembling marijuana, ammunition, and electronics.
Payroll Controls and Procedures	The Sheriff does not ensure timesheet calculations or vacation and sick leave balances are accurate and does not ensure all timesheets are reviewed and signed by the employee, the employee's supervisor, and the Sheriff. Timesheets also did not always follow established written personnel policies. Time was noted on several occasions where the approval date preceded the date worked. Sheriff's office personnel also did not adequately maintain time records or compare them to the totals from the County Clerk's office.
Grant Requests	The former Sheriff did not timely submit the grant application for the Deputy Sheriff Salary Supplementation Fund grant for state fiscal year 2022 resulting in lost revenue to the county. The County Clerk indicated the County Commission used the General Revenue Fund to supplement the lost grant money and maintain deputy salaries at the previous amount. This was an unexpected expense for the county. The county reapplied for the grant and it was awarded for the state fiscal year 2023 (July 2022 through June 2023).
Equipment	The Sheriff's office does not maintain an inventory of equipment. As a result, the Sheriff cannot conduct a periodic physical inventory of equipment.

Sales Tax	The Sheriff's office did not charge the correct sales tax on e-cigarettes sold to inmates, and did not remit any sales taxes collected to the Missouri Department of Revenue as required by state law. Jail personnel collected sales tax on all sales, however, they did not include the 2 percent Iron ton city sales tax in their tax calculations. Using the correct sales tax rate of 9.225 percent, the Sheriff's office should have collected and remitted \$381 during January, February, and March 2023. Instead, the Sheriff's office collected only \$320 in sales tax for those months.
-----------	---

In the areas audited, the overall performance of this entity was **Poor**.*

*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

- Excellent:** The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.
- Good:** The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.
- Fair:** The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.
- Poor:** The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

SCOTT FITZPATRICK

MISSOURI STATE AUDITOR

County Commission
Iron County, Missouri

We have audited certain operations of the Iron County Sheriff in fulfillment of our duties under Chapter 29, RSMo. The scope of our audit included, but was not necessarily limited to, January 1, 2021, through March 31, 2023. The objectives of our audit were to:

1. Evaluate the Sheriff's internal controls over significant management and financial functions.
2. Evaluate the Sheriff's compliance with certain legal provisions.
3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.
4. Determine the extent of money and assets misappropriated and/or missing from the Sheriff's office.

Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the county, as well as certain external parties; and performing sample testing using haphazard and judgmental selection, as appropriate. The results of our sample testing cannot be projected to the entire populations from which the test items were selected. We obtained an understanding of internal control that is significant to the audit objectives and planned and performed procedures to assess internal control to the extent necessary to address our audit objectives. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted this performance audit in accordance with generally accepted government auditing standards. Those standards require that we plan and perform the audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides a reasonable basis for our findings and conclusions based on our audit objectives.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, (3) the need for improvement in management practices and procedures, and (4) missing money totaling at least \$5,680. The accompanying Management Advisory Report presents our findings arising from our audit of the Iron County Sheriff.

We previously issued a report for the county: *Iron County*; report number 2024-028, in April 2024.

A handwritten signature in black ink, appearing to read "S. Fitzpatrick". The signature is stylized with a large, looped "S" and a cursive "Fitzpatrick".

Scott Fitzpatrick
State Auditor

Iron County Sheriff

Introduction

Background

The Sheriff is the chief law enforcement officer of the county. The Sheriff's duties are defined in state law, and include patrol of county highways, housing prisoners, transporting prisoners to state penitentiaries, and serving various legal papers and processes. The Sheriff's office collects money for various fees, bonds, and other miscellaneous receipts.

Jeffery Burkett was elected Iron County Sheriff in November 2020, and served in this capacity until his arrest in March 2023.¹ While removed from active duty after his arrest, former Sheriff Burkett did not resign from office until January 31, 2024, and continued to be paid during that time period. In accordance with Section 58.200, RSMo, which states the County Coroner is to perform the duties of sheriff when the office is vacant, Iron County Coroner Tim Harbison temporarily performed the duties of the Sheriff from March 2023 through February 2024 when a new sheriff was officially appointed by the County Commission. The County hired Greg Hitchings as Deputy Consultant on March 21, 2023, to oversee the day-to-day operations of the Sheriff's office. Prior to Hitchings stepping down from this position on August 25, 2023, the County hired Chuck Helton as Deputy Consultant on August 14, 2023. On February 8, 2024, the County Commission passed a resolution to appoint Helton as the acting Sheriff until the special election on April 2, 2024.

Former Sheriff Burkett received a salary of \$54,984 during the year ended December 31, 2022, and a salary of \$62,997 during the year ended December 31, 2023. In addition to the Sheriff, the office employed approximately 30 full-time employees on December 31, 2022.

As part of our work, we issued a subpoena (see Appendix A) to compel the Sheriff's former Administrative Assistant to provide testimony and produce records and documents related to operations of the Sheriff's office during her employment. Despite the assistance of law enforcement, we could not locate her to serve the subpoena or interview. We were instead able to obtain the necessary records and documents concerning the operations of the office from current officials. We also issued a subpoena (see Appendix B) to the county's bank for records related to the Sheriff's bank accounts.²

¹ Former Sheriff Burkett's criminal charges included participating knowingly in criminal street gang activities, tampering or attempting to tamper with a victim in a felony prosecution, attempted kidnapping - 3rd degree, stalking - 1st and 2nd degree, obtaining criminal history record information under false pretense, disclosure of confidential criminal records, misusing "911," and making a false report. Former Sheriff Burkett pleaded guilty to felony of tampering with a victim on July 22, 2024; as a result he received a suspended imposition of sentence of 5 years supervised probation and was ordered to surrender his Peace Officer Standards and Training license.

² The subpoena was issued for all possible account numbers that the county could provide; however, the bank provided records for the 3 accounts with activity that were open during the period requested.

Iron County Sheriff

Management Advisory Report

State Auditor's Findings

1. Missing Money

From December 31, 2020, through March 31, 2023, Sheriff's office personnel collected at least \$5,680 for cash bonds that was not deposited and is missing. During this period, the Sheriff's office collected approximately \$223,000 total in cash bonds.

When Sheriff's office personnel accept a cash bond, they complete and sign an unnumbered bond form that includes the defendant's name, case number, case information, amount paid, the name of the person posting the bond, and other information important to the case. There are 3 copies of the bond form: 1 is given to the defendant, 1 is given to the court, and the last is maintained by the Sheriff's office. The administrative assistant then deposits the cash bond into the Bond bank account. The administrative assistant later writes a check to the appropriate court and transmits the check to the court.

Of the 263 bond forms written from December 31, 2020, to March 31, 2023, 136 forms indicated money was collected. During our review of these bonds, we identified 6 bond forms that indicated the Sheriff's office collected cash totaling \$5,680 that was not deposited into any Sheriff bank account and could not be traced to a disbursement to a court. The following table includes the details for the missing money.

Court Case Number	Bond Date	Bond Amount	Disbursement Date
18-0137	04/29/2022	\$ 250.00	Unknown
22IR-CR00312	10/07/2022	1,000.00	Unknown
191001895	12/07/2022	109.50	Unknown
22IR-CR00305	02/20/2023	1,000.00	Unknown
22IR-CR00102	11/03/2023	2,000.00	Unknown
23IR-CR00031	03/06/2023	1,320.00	Unknown
Total		\$5,679.50	

Due to office turnover, it is unclear which employees had access to the money after it was collected. The lack of oversight in the Sheriff's office, as discussed in MAR finding number 2, resulted in the missing receipts going undetected.

Recommendation

The County Commission work with law enforcement regarding the missing money and take the necessary actions to seek restitution for the amounts missing.

Auditee's Response

The Iron County Commission has been working with law enforcement and will take the necessary steps to recover the missing funds totaling \$5,679.50.

2. Accounting Controls and Procedures

Accounting controls and procedures in the Sheriff's office need significant improvement.

2.1 Bonds

The Sheriff did not establish appropriate controls or oversight over bond money. We reviewed 263 bond forms issued from December 31, 2020, through March 31, 2023, and noted the following concerns on 94 bonds:

- Bond money collected but never deposited
- The court case was not identified for collected bond money
- Illegible, incomplete, and missing bond forms
- A bond disbursed before the bond money was collected
- A bond disbursement rejected by the bank because the Sheriff's office bank account did not have sufficient funds

As a result of these issues, money collected for cash bonds cannot be properly identified and accounted for. Adequate controls for bonds help prevent the collected cash from loss, theft, and misuse and may have detected the missing money noted in MAR finding number 1.

Bond disbursement

The Sheriff's office did not disburse all bond money collected timely. During the audit period, we noted 24 bonds, totaling \$19,501, that were not disbursed to the circuit court for more than 30 days, with some money held for almost a year. Missouri Supreme Court Rule 33.11 requires all bonds taken by the sheriff be disbursed to the clerk of the court in which the person is required to appear. Additionally, timely and proper disbursement of bond money is necessary to ensure receipts are adequately safeguarded and to reduce the risk of loss, theft, or misuse of funds going undetected.

Prenumbered bond forms

The Sheriff's office did not use prenumbered bond forms and the majority of the bond forms could not be traced to a prenumbered receipt slip, making it impossible to account for all bond money collected by the office. Failure to use prenumbered bond forms and receipt slips, account for the numerical sequence of the documents, and reconcile the amounts on the documents to the amounts deposited increased the risk that loss, theft, or misuse of money received could occur and go undetected, and resulted in the county having no way to track cash bonds collected and disbursed.

2.2 Segregation of duties

The former Sheriff did not segregate accounting duties and did not perform adequate supervisory reviews of detailed accounting and bank records. The former Administrative Assistant was responsible for receipting, recording, and depositing money; making disbursements; reconciling bank accounts; billing; and receiving and transmitting payments collected. There is no documentation indicating the former Sheriff reviewed accounting records to

Iron County
Sheriff
Management Advisory Report - State Auditor's Findings

ensure amounts received were properly recorded, deposited, and disbursed to the appropriate parties.

Proper segregation of duties is necessary to ensure transactions are accounted for properly and assets are adequately safeguarded. Internal controls would be improved by segregating duties of receiving, recording, and depositing receipts; making disbursements; reconciling bank accounts; billing; and receiving and transmitting payments collected. If proper segregation of duties cannot be achieved, documented independent or supervisory reviews of detailed accounting and bank records are essential, including comparing daily receipts to deposits.

2.3 Bank accounts

Sheriff's office personnel did not sufficiently monitor bank account balances or reconcile the bank accounts. The Sheriff's office has 3 bank accounts: the Revolving Fund account (used for all receipts except cash bonds and donations); the Bond account (used for cash bonds); and the Donations account (used to start and fund a K-9 unit).

The Sheriff's office did not establish adequate controls for monitoring bank account use causing both the Bond account and the Revolving Fund account to be overdrawn multiple times. During our audit period, the Bond and Revolving Fund accounts had balances as low as negative \$701 and negative \$14,448, respectively. The overdrawn accounts resulted in the county paying overdraft fees totaling \$238. Sheriff's office personnel also do not prepare bank reconciliations for any of the accounts. In addition, they do not prepare a monthly list of liabilities to reconcile to account balances. Failure to regularly reconcile accounts and liabilities to the cash balances resulted in unidentified errors and overdrawn accounts.

Controls and procedures, such as performing adequate monthly bank reconciliations, help ensure accurate records are kept and increases the likelihood errors will be identified and overdrawn accounts and overdraft fees avoided. Monthly lists of liabilities that are reconciled to the available cash balance are necessary to ensure there is sufficient cash to pay amounts due and to identify all money in the bank. Prompt follow up on discrepancies is necessary to resolve errors.

2.4 Receipting, recording, and depositing

Sheriff's office procedures for receipting, recording, and depositing money need improvement.

- Receipts are not recorded in chronological order, entire pages of a receipt slip book are missing, receipt slip numbers are skipped, receipt slips are illegible, multiple receipt books are used concurrently, and blank receipt slips are not properly secured. During our April 20, 2023, cash count, we noted 41 unreceipted checks, with the oldest dated January 10, 2023. Sheriff's office staff later found 3 additional unrecorded receipts in the

Iron County
Sheriff
Management Advisory Report - State Auditor's Findings

former Administrative Assistant's desk drawer totaling \$85 that dated back to October 2022.

- The Sheriff's office did not retain records for all transactions and could not provide certain records upon request. For example, office personnel could not locate a receipt book for drug test money collected.
- The Sheriff's office did not receipt inmate money collected. No comprehensive list of inmate balances was maintained and the amount collected and returned is unknown. As a result, the Sheriff's office cannot ensure that all money was properly returned to inmates upon release.
- Checks and money orders were not restrictively endorsed upon receipt. During our April 20, 2023, cash count, there were 41 unendorsed checks.

Failure to implement adequate receipting, recording, and depositing procedures increases the risk that loss, theft, or misuse of money will occur and increases the likelihood that errors will go undetected. Retention of records is necessary to ensure the validity of transactions and provide an audit trail. Section 109.270, RSMo, provides that all records made or received by an official in the course of his/her public duties are public property and are not to be disposed of except as provided by law. Section 109.255, RSMo, provides that the Local Records Board issue directives for the destruction of records. Record retention schedules can be found on the Secretary of State's website.

2.5 Improper and
questionable purchases

Sheriff's office employees made improper and questionable purchases and cash withdrawals. The former Sheriff did not establish appropriate disbursement controls and written procedures allowing the inappropriate purchases to go undetected. We noted 9 improper purchases, totaling \$4,954, with office credit cards and 2 improper cash withdrawals from the Donations account, totaling \$308. The disbursements are considered improper because they are either unsupported, were non-fuel purchases made with a fuel card, or the timing indicates more than one vehicle was fueled with the same fuel card.

Iron County
Sheriff
Management Advisory Report - State Auditor's Findings

Date	Amount	Vendor	Store Type	Purchase Summary	Comments
03/06/2021	\$ 45.01	Steve & Garretts Gas & Liquor Pilot Knob Mo	Fuel	Fuel	Fuel bought on the same card 25 minutes prior
03/06/2021	41.50	Casey's #3086 Ironton	Fuel	Fuel	Fuel bought on the same card 25 minutes after
04/05/2021	30.00	PayPal	Unknown	Unknown	No documentation to support purchase
04/23/2021	2,026.96	Assembled Products	Auto	Vehicle Parts	No receipt or other documentation
05/14/2021	687.50	Custom Auto	Other	Tow bill	Bill to recover a towed vehicle in another county that was not related to any Sheriff's office case
07/12/2021	1,945.02	Assembled Products	Auto	Vehicle Parts	No receipt or other documentation
10/22/2021	205.00	Cash Withdrawal	Unknown	Unknown	Sheriff's office could not identify person or reason for withdrawal
02/18/2022	103.00	Cash Withdrawal	Unknown	Unknown	Sheriff's office could not identify person or reason for withdrawal
09/27/2022	109.96	Unknown	Unknown	Dog food	K-9 purchases not from Donations account
10/04/2022	\$14.82	Dollar General	Grocery	Cleaning supplies, food	Purchased with a fuel card
10/24/2022	52.97	Cherokee Pass Mobile	Fuel	Fuel	Fuel purchased outside of county with no explanation
Total	\$ 5,261.74				

We also noted questionable purchases made with the Sheriff's office's credit card related to the K-9 unit, including dog food and veterinary bills. The County Commission did not approve a K-9 unit and was not notified that the Sheriff's office was starting a K-9 unit. This unapproved action resulted in expenses related to maintaining the unit, including liability insurance, that were not included in the county budget.

The former Sheriff had a fiduciary duty to ensure county funds were spent in a prudent and necessary manner. Adequate oversight of purchases, including credit card purchases, is necessary to ensure purchases are appropriate.

Iron County
Sheriff
Management Advisory Report - State Auditor's Findings

2.6 Credit card controls

The Sheriff's office did not establish appropriate controls and written procedures for the use of office credit cards. Credit card holders in the Sheriff's office did not submit credit card receipt slips, so they could not be submitted to the County Clerk with the monthly statement as required by county policy. During our review of credit card purchases from the period January 1, 2021, through March 31, 2023, we noted 80 purchases totaling \$18,634 that did not have receipt slips submitted to the county. Because of this, the County Clerk's office refused to pay credit card bills for the Sheriff's office until they received the required supporting documentation. This led to accumulating balances and late fees and eventually the cancellation of some cards by the issuing bank on the following dates.

- Former Sheriff Burkett's card was closed in August 2022
- Former Deputy Cozad's card was closed in July 2021
- Former Deputy Myer's card was closed in May 2021

From January 2021 through March 2023, the county paid \$145 in late fees and \$680 in finance charges as a result of late or incomplete payments on the Sheriff's credit card bills.

Credit card purchases are inherently more risky than other purchases because these purchases are or can be made prior to receiving proper approval. That risk and the potential for fraud or misuse increases even more when internal controls and proper procedures are lacking. Credit card policies and procedures are necessary to ensure all credit card purchases are appropriate and in compliance with county purchasing policies, and to reduce the risk of unauthorized purchases.

2.7 Disbursement procedures

Sheriff's office disbursement procedures need improvement. We noted the following issues:

- The office did not maintain records of disbursements out of the Donations account so there is nothing to support that these disbursements are appropriate.
- The Sheriff's former Administrative Assistant did not ensure all bills were paid timely. During the audit, the Jail Administrator found multiple unpaid invoices, totaling \$1,104, in the desk of the former Administrative Assistant. We also noted invoices were not marked paid to prevent duplicate payments.
- The Sheriff's office does not issue checks in numerical sequence and does not maintain a record of all checks issued. Our review of deposit support for the period from January 2021 through March 2023 noted 117 checks from the Bond account and 31 checks from the Revolving Fund account that were not recorded in the check registers and did not clear the bank or

Iron County
Sheriff
Management Advisory Report - State Auditor's Findings

appear on bank statements. The Sheriff's office kept no record of what these checks were written for and did not retain mutilated copies of voided checks.

- The Sheriff's office did not always disburse money timely as required by state law. During the year ended December 31, 2022, the Sheriff's office collected \$29,661 in civil and criminal process fees. We reviewed the transmittals from June and July 2022 and noted the office collected civil and criminal process fees totaling \$621. These fees were not disbursed to the County Treasurer until August 23, 2022, up to 83 days after receipt. The office failed to maintain accurate documentation of money received, leading to issues with disbursements to the County Treasurer.

Because the Sheriff's office did not have proper controls in place for purchases, the Sheriff's office exceeded initial 2022 General Revenue Fund budgeted amounts for the Sheriff's office and jail. The County Commission initially budgeted \$457,698 for the Sheriff's office in the 2022 General Revenue Fund budget and the office spent \$468,541, \$10,843 more than budgeted. The County Commission initially budgeted \$241,034 for the jail in the 2022 General Revenue Fund budget and the Sheriff's office spent \$282,398, \$41,364 more than budgeted. The County Commission amended the General Revenue Fund budget on December 30, 2022, to cover the excess spending, but did not approve the overages prior to the spending.

Failure to implement adequate disbursing procedures increases the risk that loss, theft, or misuse of funds will occur and go undetected. Establishing procedures to ensure bills are paid timely would help prevent unnecessary fees and other charges. Issuing checks in numerical sequence and accounting for the numerical sequence of checks issued would help account for all disbursements and reduce the risk of unauthorized transactions. Retaining and mutilating voided checks ensures that these checks cannot be altered and misappropriated.

Section 50.370, RSMo, requires all county officials who receive fees or any other remuneration for official services to pay such money monthly to the County Treasurer. Additionally, pursuant to Section 50.380, RSMo, the Sheriff may be subject to penalties for failure to timely disburse receipts. Section 50.740, RSMo, prohibits counties from spending more than budgeted. Section 50.622, RSMo, provides guidance on when budget amendments are allowable. Properly monitoring and amending budgets prior to disbursing funds is necessary for the budget to be an effective management tool and to comply with state law.

2.8 Procurement issues

The Sheriff's office did not solicit bids when required. The county paid approximately \$50,000 for inmate meals in 2021 and approximately \$49,000 for inmate meals in 2022 without soliciting bids. Prior to the former Sheriff

Iron County
Sheriff
Management Advisory Report - State Auditor's Findings

taking office, the Sheriff's office paid approximately \$21,000 in 2020, meaning food costs increased by approximately \$29,000 over the 3-year period of the former Sheriff's administration. Current employees cannot explain why the jail food costs increased during this time period. In addition, the Sheriff's office entered into at least 3 additional contracts for various equipment and services, totaling over \$94,000, that were not bid or approved by the County Commission.

Section 50.660, RSMo, provides bidding requirements. Routine use of a competitive procurement process for major purchases ensures the county has made every effort to obtain the best and lowest price and all interested parties were given an equal opportunity to participate in county business. Retaining documentation of the various proposals received, the selection process, and criteria demonstrates compliance with applicable laws or regulations and supports decisions made.

2.9 Civil paper service

The Sheriff's office does not maintain documentation for civil paper service requests. The Sheriff's office was not able to provide documentation for civil paper service requests from January 1, 2021, through March 16, 2023, meaning the Sheriff's office could not ensure papers were served; or fees were refunded to the payer, disbursed to the county treasurer, or disposed of as otherwise provided by state law. The only documentation related to civil paper service requests available were unrecorded or unprocessed requests from the former Administrative Assistant's desk and money that was turned over to the County Treasurer during monthly disbursements. Procedures to routinely follow up on civil paper service requests and fees are necessary to ensure papers are served and fees distributed.

2.10 Board bills

Sheriff's office personnel did not have controls and procedures in place to ensure all costs for boarding prisoners were billed to the prisoner or applicable government entities upon release and collection for unpaid amounts pursued. No bills were sent out or collected from January 2021 through March 2023. The Sheriff's office had a record of board bills that should have been billed during this time; however, the Jail Administrator indicated these records were created in January 2023, well after the inmates' release. There were also board bills sent to the Missouri Department of Corrections (DOC) in 2022, but DOC personnel indicated they had not received any billings since. The board bills included in the 2022 payment were from 2020 or earlier, indicating the county has not billed the DOC for inmates housed after 2020.

Billing for boarding prisoners is necessary to ensure the costs of housing prisoners does not rest solely on the county. Monitoring unpaid board bills and taking appropriate follow-up action helps ensure payments are received.

2.11 Fuel use

The Sheriff's office lacks adequate controls and procedures to track and account for fuel purchases and fuel purchases increased significantly after the

Iron County
Sheriff
Management Advisory Report - State Auditor's Findings

former Sheriff took office. Fuel mileage calculations were included on the vendor statement for some vehicles, but others did not have average mile per gallon calculations and no additional documentation, mileage logs, or reconciliations were maintained by the Sheriff's office to verify fuel purchases were appropriate.

Fuel purchases for the Sheriff's fleet increased from 10,987 gallons in 2020 to 17,274 gallons in 2021 and 18,061 gallons in 2022 (yearly increases of approximately 57 percent and 5 percent, respectively) and there was no significant change in the departmental fleet size or composition. The Sheriff's office was able to provide a record of the mileage from each fuel card; however, since fuel cards were shared across employees and vehicles, there was no accurate record of how many miles were driven by each vehicle. Due to the turnover in the Sheriff's office, the remaining employees cannot provide any explanation as to why the fuel use increased in 2021 and 2022.

Procedures for reviewing fuel purchases and reconciling the vendor statements of fuel purchased are necessary to ensure vehicles and equipment are properly used, prevent paying vendors for improper amounts and decrease the risk of loss, theft, or misuse of fuel occurring and going undetected. Mileage and use logs are necessary to document the appropriate use of vehicles and to support fuel purchases.

2.12 Donations account

The Sheriff's office maintains a bank account outside the county treasury. The Sheriff's office did not establish controls and procedures to ensure the money donated was adequately tracked or used for its intended purposes. The Donations account was opened in June 2021 to fund a K-9 unit. There was no support for any of the deposits into the account to show who donated or for what purpose. Also, all funds withdrawn from the account were in cash or by debit card with no indication of what was purchased or why.

There is no statutory authority allowing the Sheriff to maintain this account outside the county treasury. Section 50.370, RSMo, requires every county official who receives any fees or other remuneration for official services to pay such money to the County Treasurer. In addition, Attorney General's Opinion 45-1992 (April 23, 1992) states sheriffs are not authorized to maintain a bank account for law enforcement purposes separate from the county treasury.

Similar conditions previously reported

A condition similar to section 2.2 was noted in our 3 prior audit reports, conditions similar to sections 2.3 and 2.10 were noted in our 2 prior audit reports, and conditions similar to sections 2.1 and 2.7 were noted in our prior audit report.

Recommendations

The Sheriff:

Iron County
Sheriff
Management Advisory Report - State Auditor's Findings

- 2.1 Establish adequate controls for the collection, processing, documentation, and disbursements of all bonds. Use prenumbered bond forms and/or issue prenumbered receipt slips immediately upon receipt. In addition, ensure all bond money is disbursed timely to the appropriate circuit court.
- 2.2 Segregate accounting duties or ensure adequate independent or supervisory reviews of detailed accounting and bank records are performed and documented.
- 2.3 Ensure bank accounts are monitored, including preparing adequate monthly bank reconciliations using outstanding checks, deposits in transit, and other reconciling items. In addition, prepare a monthly list of liabilities and reconcile the listing to the available cash balance. Any differences between accounting records and reconciliations should be promptly investigated and resolved.
- 2.4 Establish controls for receipting, recording, and depositing money received, including immediately issuing prenumbered receipt slips for all money received, restrictively endorsing all checks and money orders at the time of receipt, and ensuring timely deposits.
- 2.5 Establish controls and procedures to ensure purchases are appropriate and approved as required.
- 2.6 Maintain and submit to the County Clerk supporting documentation for all credit card purchases to allow for timely review and payment.
- 2.7 Ensure all invoices are paid and receipts are disbursed to the Treasurer timely. Retain documentation of disbursements. Ensure checks are issued in numerical sequence and properly accounted for and voided checks are mutilated and retained. The Sheriff and County Commission should also ensure budgets are amended prior to spending in excess of the budget.
- 2.8 Ensure bids and proposals are solicited for all applicable purchases of goods and services in accordance with state law, and maintain adequate documentation of decisions made.
- 2.9 Develop procedures to document service of civil paper service requests to ensure they are carried out in a timely manner and the related fees are appropriately refunded to the payer, disbursed to the county, or disposed of as otherwise provided by state law.
- 2.10 Develop procedures to bill, monitor, and pursue collection of costs for boarding prisoners.

Iron County
Sheriff
Management Advisory Report - State Auditor's Findings

- 2.11 Require fuel logs be maintained for all vehicles. Document reconciliations of fuel logs to fuel purchases. Promptly investigate any significant discrepancies.
- 2.12 Turn all donations over to the County Treasurer and close the Donations account, ensure records of donations received are maintained, ensure all purchases are made through the county procurement and budget process, and maintain documentation of all purchases.

Auditee's Response

- 2.1 *The appropriate and acceptable accounting procedures have been re-established, including prenumbered bond forms and prenumbered receipt slips. All bond money is now being disbursed timely to the Circuit Court.*
- 2.2 *The Commission and Sheriff will be conducting and documenting periodic reviews of accounting practices to ensure the accuracy of the accounting records.*
- 2.3 *The Sheriff's Administrator will conduct monthly bank reconciliations and create a list of liabilities for the balances. The Sheriff shall review the bank accounts to ensure that all bank accounts have been reconciled. The Commission may request, at random, any account for review to ensure compliance.*
- 2.4 *The new Sheriff has implemented controls to ensure all received money is recorded, prenumbered receipts are issued, and checks and money orders are endorsed and deposited promptly.*
- 2.5 *The former Sheriff would not follow appropriate disbursement controls. The internal control policy established by the Commission is now being followed by the new Sheriff. The fuel credit cards are now being monitored by administration to ensure compliance with established Internal Control Policy. This policy was in place during the former Sheriff's time in office but he did not comply with the policy.*
- 2.6 *The former Sheriff would not submit credit card receipts for purchases. This resulted in late fees and cancellations of the credit cards. The new Sheriff is following the county policy now and purchases with credit cards are being processed in a timely manner.*
- 2.7 *The new Sheriff follows county policy for submitting invoices and ensures checks are issued in numerical order, checks are accounted for, and voided checks are managed properly. Also, receipts are now*

Iron County
Sheriff
Management Advisory Report - State Auditor's Findings

disbursed in a timely matter as required by law. The Commission and the Sheriff meet frequently to review compliance with the budget.

- 2.8 *The County Commission has an established procurement policy, but the former Sheriff would not comply with this policy. The policy has been reviewed with the new Sheriff and is being followed.*
- 2.9 *The new Sheriff has re-established the procedures for civil paper service as required by State Law. All paper services are being conducted promptly and collections have been forwarded to the County Treasurer.*
- 2.10 *Board bill procedures had been established but not followed by former Sheriff. These procedures have been re-established and are being followed by the new Sheriff.*
- 2.11 *The Sheriff will implement a fuel log policy for each vehicle assigned to the Sheriff's office and will review fuel logs monthly and investigate any significant discrepancies.*
- 2.12 *The Sheriff closed the Donation account and will establish procedures for all donations to the Sheriff's office, which will include turning them over to the County Treasurer. He will also follow the county policy for purchases, procurement, and budget process.*

3. Seized Property

Sheriff's office personnel do not maintain a complete and accurate seized property inventory listing and did not ensure items in the seized property room were properly secured.

The Evidence Officer did not know how to produce an inventory list from the seized property system until contacting the software company at our request. Because of this, the Sheriff could not conduct a physical inventory. As of our seized property test, performed on September 28, 2023, Sheriff's office personnel had not entered any new items into the evidence system since the former Sheriff's arrest in March 2023.

We haphazardly selected 10 items from the seized property evidence listing to trace to the physical seized property items and 5 items from seized property to trace to the seized property evidence listing. We could not physically locate 3 items from the evidence listing (a 9 mm handgun with holster and live rounds, two pipes with one gram of marijuana, and a 22 Magnum revolver) in the seized property room. We also found 3 items (a large rock, a samurai sword, and a rifle) in the seized property room that were not included on the seized property evidence listing.

Iron County
Sheriff
Management Advisory Report - State Auditor's Findings

We also reviewed the contents of the property room in general and noted items in the room were not properly secured, with many loose items in the room not labeled, improperly placed with existing cases, or in unsealed envelopes. These items included firearms, drugs, plants resembling marijuana, ammunition, and electronics. We also noted many items in the room were not labeled with case numbers, therefore there was no way to tell what cases the items corresponded with. There were also a number of items on the seized property list that had case numbers listed as "Unknown" and one property item was labeled "Unknown Contents" on a sealed brown bag. We also found an unsealed evidence bag that contained drugs and weapons collected as evidence. Due to inaccurate locations for the items on the evidence listing, it was unclear which items were supposed to be in this bag.

The issues in the seized property room occurred after the former Evidence Officer passed away in 2021. The former Sheriff did not implement any oversight procedures of seized property following the promotion of the current Evidence Officer to ensure that he was able to stay current on logging and maintaining evidence.

Considering the often sensitive nature of seized property, adequate internal controls, including the proper identification and storage of items, are essential and would significantly reduce the risk of loss, theft, or misuse of the property. Complete and accurate inventory records and procedures include information such as description, current location, case number, date of seizure, and disposition of such property; and periodic physical inventories performed with the results compared to inventory records to ensure seized property is accounted for properly.

Recommendation

The Sheriff properly label and store seized property, maintain a complete and accurate seized property evidence listing, and ensure periodic physical inventories are conducted and reconciled to the seized property evidence listing. Any differences should be investigated and resolved.

Auditee's Response

When the Sheriff was arrested the Commission ordered that the evidence room be placed under the control of the acting Sheriff. All the seized property has been properly labelled and stored in the evidence room. An accurate inventory of seized property has been completed. The Sheriff will conduct periodic physical inventories of seized property.

4. Payroll Controls and Procedures

The Sheriff does not ensure timesheet calculations or vacation and sick leave balances are accurate and does not ensure all timesheets are reviewed and signed by the employee, the employee's supervisor, and the Sheriff. Timesheets also did not always follow established written personnel policies. Time was noted on several occasions where the approval date preceded the date worked. Sheriff's office personnel also did not adequately maintain time records or compare them to the totals from the County Clerk's office.

Iron County
Sheriff
Management Advisory Report - State Auditor's Findings

Per county policy, all Sheriff's office employees are responsible for completing and submitting a timesheet every month. The timesheet is to be reviewed by the Sheriff before sending to the County Clerk's office. The County Clerk's office uses the timesheets to enter employees' hours worked, vacation and sick leave, and compensatory time into the computerized payroll system.

We reviewed all 29 timesheets for Sheriff's office employees from May 2021 and noted one instance where the employee's signature on the timesheet did not match the signatures of other months. The county's current Personnel Policy Manual does not address individuals signing other's timesheets or timesheets submitted without approval.

We also haphazardly selected an employee's timesheet from October 2022 and noted they accrued 63 hours of compensatory time, which is more than the 60 hours per month allowed by county policy. Others worked unpaid hours at the direction of the Sheriff. Weaknesses in these procedures resulted in findings from a federal Department of Labor review and back pay totaling approximately \$43,000 owed by the county. Timesheets, although signed, often were also inaccurate and required correction by County Clerk's office employees.

Accurate time and leave records are necessary to ensure employees receive proper compensation and leave benefits, provide support for payroll transactions, and ensure all employees are treated equitably. Section 29 CFR 516.2(a) of the Fair Labor Standards Act (FLSA) requires employers to maintain accurate records of actual time worked by employees. In addition, reconciliations of leave and compensatory time records between the Sheriff's office and the County Clerk's office help verify that records are accurate and consistent with time sheets.

Unmonitored and unreviewed compensatory time balances that exceed policy limits create unaccounted for and potentially unfunded future liabilities for the county. Unpaid hours worked is a violation of the FLSA and may subject the county to penalty. Written personnel policies and strict compliance with those policies is necessary to ensure equitable treatment of employees, prevent misunderstandings, and ensure employees are properly compensated in accordance with FLSA requirements.

Recommendation

The Sheriff should ensure timesheets are accurate and controls are in place to ensure timesheets are properly signed and approved. The Sheriff should also ensure compensatory time balances are reconciled to County Clerk records and comply with county policy. The County Commission and County Clerk should ensure compliance with personnel policies, Fair Labor Standards Act requirements, and review and update the personnel policies as necessary.

Iron County
Sheriff
Management Advisory Report - State Auditor's Findings

Auditee's Response

While there were several violations by the former Sheriff regarding payroll and county policy, these issues have been addressed with the election of a new Sheriff. All county policies are now being followed, and no payroll discrepancies have been observed.

5. Grant Requests

The former Sheriff did not timely submit the grant application for the Deputy Sheriff Salary Supplementation Fund (DSSSF) grant for state fiscal year 2022 resulting in lost revenue to the county. The DSSSF grant provides funding for supplemental deputy salary payments. The County Commission indicated the Sheriff never submitted the state fiscal year 2022 paperwork to apply for the grant. Iron County received \$72,193 for the period from July 2020 through June 2021. The County Clerk indicated the County Commission used the General Revenue Fund to supplement the lost grant money and maintain deputy salaries at the previous amount. This was an unexpected expense for the county. The county reapplied for the grant and it was awarded for the state fiscal year 2023 (July 2022 through June 2023).

Recommendation

The Sheriff ensure grant applications are submitted timely.

Auditee's Response

The County Commission re-applied for the Deputy Sheriff Salary Supplementation Fund (DSSSF) grant and was re-instated. The new Sheriff has maintained compliance with the grant requirements and no further action is required.

6. Equipment

The Sheriff's office does not maintain an inventory of equipment. When asked to produce a list showing what equipment was on hand and what was assigned to deputies, the Chief Jailer stated no such list existed and one would need to be created. As a result, the Sheriff cannot conduct a periodic physical inventory of equipment.

Adequate equipment records and procedures are necessary to ensure effective internal controls and provide a basis for determining proper insurance coverage. Procedures to track equipment purchases and dispositions throughout the year and compare to physical inventory results would enhance the county's ability to account for equipment and potentially identify unrecorded additions and dispositions, identify obsolete assets, and deter and detect theft of assets. Section 49.093, RSMo, provides that the officer or his/her designee of each county department is responsible for performing annual inspections and inventories of county property used by his/her department.

Recommendation

The Sheriff maintain a list of all equipment owned by the Sheriff's office, including to whom the equipment is assigned as required by state law and conduct periodic physical inventories.

Iron County
Sheriff
Management Advisory Report - State Auditor's Findings

Auditee's Response

With the election of a new Sheriff a complete equipment inventory issued to Deputies has been created and periodic physical inventory of equipment conducted. No further action is required.

7. Sales Tax

The Sheriff's office did not charge the correct sales tax on e-cigarettes sold to inmates, and did not remit any sales taxes collected to the Missouri Department of Revenue (DOR) as required by state law. The office began selling e-cigarettes to inmates in January 2023. Jail personnel collected sales tax on all sales; however, they did not include the 2 percent Iron County sales tax in their tax calculations. Using the correct sales tax rate of 9.225 percent, the Sheriff's office should have collected and remitted \$381 during January, February, and March 2023. Instead, the Sheriff's office collected only \$320 in sales tax for those months. According to the Chief Jailer, personnel did not remit sales tax due because the deputy in charge of tracking and remitting sales tax was laid off after the former Sheriff was arrested.

Pursuant to 12 CSR 10-110.955(3)(B), sales by the state of Missouri and its political subdivisions are subject to tax. Obtaining DOR guidance to establish procedures for charging and collecting sales tax on commissary sales would help ensure sales taxes are properly handled and all future sales tax collections are remitted to the DOR.

Recommendation

The Sheriff ensure all sales tax collections are accurate, use the correct tax rate, and are remitted to the DOR.

Auditee's Response

With the election of a new Sheriff all sales tax collected on inmate commissary are being collected at the actual sales tax rate and disbursed to the Department of Revenue as required by state law. No further action is required.

INDEPENDENT AUDITOR'S REPORT

To the County Commission and
Officeholders of Sullivan County, Missouri

Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying financial statements of Sullivan County, Missouri, which comprise the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory Basis and the Statement of Fiduciary Receipts, Disbursements and Changes in Cash – Regulatory Basis as of December 31, 2023, and the related Statements of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis for the year then ended, and the related notes to the financial statements.

Unmodified Opinion on Regulatory Basis of Accounting

In our opinion, the financial statements referred to above present fairly, in all material respects, the cash balances of each fund of Sullivan County, Missouri, as of December 31, 2023, and their respective cash receipts and disbursements, and budgetary results for the year then ended, in accordance with the financial reporting provisions prescribed or permitted by Missouri law as described in Note 1.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles section of our report, the financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of Sullivan County, Missouri, as of December 31, 2023, or the changes in financial position thereof for the year then ended.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Sullivan County, Missouri, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note 1, the financial statements are prepared by Sullivan County, Missouri on the basis of the financial reporting provisions prescribed or permitted by Missouri law, which is a basis of accounting other than accounting principles generally accepted in the United States of America, to meet the requirements of Missouri law. The effects on the financial statements of the variances between the regulatory basis of accounting described in Note 1 and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material and pervasive.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles prescribed or permitted by Missouri law. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Sullivan County, Missouri's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the

financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Sullivan County, Missouri's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise Sullivan County, Missouri's basic financial statements. The accompanying schedule of expenditures of federal awards, as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 11, 2024, on our consideration of Sullivan County, Missouri's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Sullivan County, Missouri's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Sullivan County, Missouri's internal control over financial reporting and compliance.

SULLIVAN COUNTY, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2023

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Sullivan County, Missouri (“County”) is governed by a three-member board of commissioners. In addition to the three board members, there are nine elected Constitutional Officers: Assessor, Circuit Clerk, Collector/Treasurer, Coroner, County Clerk, Prosecuting Attorney, Public Administrator, Recorder and Sheriff.

As discussed further in Note 1, these financial statements are presented using accounting practices prescribed or permitted by Missouri law, which differ from accounting principles generally accepted in the United States of America, which would include all relevant Governmental Accounting Standards Board (GASB) pronouncements. The differences include use of a prescribed definition of the reporting entity and the cash basis of accounting.

A. Reporting Entity

The County’s operations include tax assessments and collections, state/county courts, county recorder, public safety, economic development, social and human services, and cultural and recreation services.

The financial statements referred to above include the primary government of Sullivan County, Missouri, which consists of all funds, organizations, institutions, agencies, departments, and offices that are considered to comprise the County’s legal entity under the regulatory basis of accounting. Financial data of other entities that may be considered to be component units of the County under generally accepted accounting principles is not included.

In accordance with the regulatory basis of accounting, the financial statements of the County do not include the activity of the Circuit Court, which is part of the Missouri court system and is considered to be a state function, including the operations of the Circuit Clerk (other than the portion that is funded by the General Revenue fund) and all funds under their control.

B. Basis of Presentation

Governmental Funds – Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. A fund is considered a separate accounting entity with self-balancing accounts that comprise its assets, liabilities, net assets, revenues/receipts and expenditures/disbursements. The County’s funds are governmental funds. Governmental funds are those through which most governmental functions are financed. The County’s expendable financial resources are accounted for through governmental funds.

Fiduciary Funds – Fiduciary funds consist of custodial funds. Custodial funds account for assets held by the County as an agent of individuals, private organizations, taxing units, other governments and/or funds. Budgets are not adopted for the County’s custodial funds.

C. Basis of Accounting

The financial statements are prepared on the cash basis of accounting; accordingly, amounts are recognized when received or disbursed in cash. This basis of accounting differs from accounting principles generally accepted in the United States of America. Those principles require revenues to be recognized when they become available and measurable or when they are earned, and expenditures or expenses to be recognized when the related liabilities are incurred.

D. Budgets and Budgetary Accounting

The County follows these procedures in establishing the budgetary data reflected in the financial statements:

1. In accordance with Chapter 50, RSMo, the County's policy is to adopt a budget for each governmental fund.
2. On or before January 15, each elected officer and department director will transmit to the County Commission and County Clerk, who serves as budget officer, the budget request and revenue estimates for their office or department for the budget year.
3. The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning January 1. The proposed budget includes estimated revenues and proposed expenditures, on the cash basis of accounting, for all budgeted funds. Budgeting of appropriations is based upon an estimated fund balance at the beginning of the year as well as estimated revenues to be received.
4. State law requires that, at the individual fund level, budgeted expenditures not exceed budgeted revenues plus anticipated beginning fund balance.
5. A public hearing is conducted to obtain public comment on the budget. Prior to its approval by the County Commission, the budget document is available for public inspection, which usually takes place the third and fourth weeks of January.
6. Prior to February 1, the budget is legally enacted by a vote of the County Commission.
7. Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by a formal vote of the Commission. Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year.
8. Budgets are prepared and adopted on the cash basis of accounting.
9. Adoption of a formal budget is required by law.
10. Section 50.740, RSMo prohibits expenditures in excess of the approved budgets. Actual expenditures exceeded budgeted amounts for the Sullivan County Memorial Hospital and Tax Maintenance Funds.

- E. Property taxes are based on the voter-approved tax levy applied to the real and personal assessed property values. Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on October 1 and tax bills are mailed to taxpayers in November, at which time they are payable. All unpaid property taxes become delinquent as of January 1 of the following year.

The assessed valuations of the tangible taxable property, included within the County's boundaries for the calendar year 2023, for purposes of taxation were:

Real Estate	\$ 53,890,892
Personal Property	47,414,274
Railroad and Utilities	9,811,949
Total	<u>\$ 111,117,115</u>

For calendar year 2023, the County Commission approved a tax levy per \$100 of assessed valuation of tangible taxable property as follows:

General Revenue	\$ 0.3800
Senior Services	0.0500

F. Cash Deposits and Cash Equivalents

Deposits and cash equivalents are stated at cost, which approximates market. Cash balances for all the County Treasurer funds are pooled and invested to the extent possible. Interest earned from these balances is allocated to each of the funds based on the funds' average daily cash balance. Cash equivalents may include repurchase agreements and any other instruments with an original maturity of ninety days or less. State law authorizes the deposit of funds in banks and trust companies or the investment of funds in bonds or treasury certificates of the United States, other interest-bearing obligations guaranteed as to both principal and interest by the United States, or any instrumentality thereof, certain municipal bonds authorized by Missouri statute, or time certificates of deposit. Funds in the form of cash on deposit or time certificates of deposit are required to be insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized by authorized investments held in the County's name at third-party banking institutions. Details of these cash and cash equivalent balances are presented in Note 2.

G. Interfund Activity

During the course of operations, interfund activity occurs for purposes of providing supplemental funding, reimbursements for goods provided or services rendered, or short and long-term financing. Interfund activities are reported as "transfers in" by the recipient fund and as "transfers out" by the disbursing fund. However, interfund reimbursements have been eliminated from the financial statements in order that reimbursed expenditures are reported only in the funds incurring the costs.

2. CASH AND CASH EQUIVALENTS

The County maintains a cash and temporary investment pool that is available for use by all funds. Each fund's portion of this pool is displayed on the financial statements within the "Cash and Cash Equivalents" caption. Cash and cash equivalents include deposits and short-term investments with maturities that are less than ninety days.

Custodial Credit Risk - Deposits – Custodial credit risk is the risk that in the event of a bank failure, a government's deposits may not be returned to it. Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits. At December 31, 2023, the County had the following cash and investment balances:

	<u>Carrying Value</u>	<u>Bank Balance</u>	<u>FDIC Coverage</u>
Cash and Cash Equivalents - Governmental Funds	\$ 1,769,897	\$ 1,874,291	\$ 250,000
Cash and Cash Equivalents	\$ 6,746,897	\$ 5,939,660	\$ 471,626
Investments	233,318	233,318	233,318
Total Fiduciary Funds	<u>\$ 6,980,215</u>	<u>\$ 6,172,978</u>	<u>\$ 704,944</u>

The remainder of the balances not covered by FDIC deposit insurance at December 31, 2023 were covered by collateral held at the Federal Reserve Bank and the County's safekeeping bank agent in the County's name or by a line of credit held by the County or by its agent in the County's name, except for \$163,909 held by the Public Administrator for one ward in one bank in excess of \$250,000.

3. COUNTY EMPLOYEES' RETIREMENT PLANS

A. County Employees' Retirement Fund (CERF)

The County Employees' Retirement Fund was established by the State of Missouri to provide pension benefits for County officials and employees.

1) Plan Description

The Retirement Fund is a cost-sharing multiple employer defined benefit pension plan covering any county elective or appointed officer or employee whose performance requires the actual performance of duties during not less than one thousand (1,000) hours per calendar year in each county of the state, except for any city not within a county and any county of the first classification having a charter form of government. It does not include county prosecuting attorneys covered under Sections 56.800 to 56.840, RSMo, circuit clerks and deputy circuit clerks covered under the Missouri State Retirement System, county sheriffs covered under Sections 57.949 to 57.997, RSMo and certain personnel not defined as an employee per Section 50.1000(8), RSMo. The Fund was created by an act of the legislature and was effective August 28, 1994.

The general administration and the responsibility for the proper operation of the Fund and the investment of the Fund are vested in a board of directors of eleven persons.

2) Pension Benefits

Beginning January 1, 1997, employees attaining the age of sixty-two years may retire with full benefits with eight or more years of creditable service. The monthly benefit for County Employees is determined by selecting the highest benefit calculated using three different prescribed formulas (flat-dollar formula, targeted replacement ratio formula, and prior plan's formula). A death benefit of \$10,000 will be paid to the designated beneficiary of every active member upon his or her death.

Upon termination of employment, any member who is vested is entitled to a deferred annuity, payable at age sixty-two. Early retirement is at age fifty-five. Any member with less than eight years of creditable service forfeits all rights in the Fund but will be paid his or her accumulated contributions.

The County Employees' Retirement Fund issues audited financial statements. Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, 2121 Schotthill Woods Drive, Jefferson City, MO 65101, by calling 1-877-632-2373, or by the following website, www.mocerf.org.

3) Funding Policy

In accordance with State Statutes, the Plan is partially funded through various fees collected by counties and remitted to the CERF. Further, a contribution to CERF of 2% of annual salary is required for eligible employees hired before February 2002, while a contribution of 6% of annual salary is required of employees hired after February 2002. During 2023, the County collected and remitted to CERF employee withholdings and fees collected of \$126,654.

B. Prosecuting Attorney Retirement Fund

In accordance with Section 56.507, RSMo, the County contributes monthly to the Missouri Office of Prosecution Services for deposit to the credit of the Missouri Prosecuting Attorneys and Circuit Attorney Retirement System Fund. Once remitted, the State of Missouri is responsible for administration of this plan. The County contributed \$3,366 for the year ended December 31, 2023.

C. Other Retirement Plan

Sullivan County has voluntary 457 and 401(a) plans administered by Empower Retirement which are paid by deductions from employees' salaries. These contributions qualify under the Internal Revenue Code and are tax exempt. The County collected and remitted employee contributions to the 457 plan and 401(a) plan of \$7,250 and \$6,940, respectively.

4. POST EMPLOYMENT BENEFITS

The County does not provide post-employment benefits except as mandated by the Consolidated Omnibus Budget Reconciliation Act (COBRA). The requirements established by COBRA are fully funded by employees who elect coverage under the Act, and no direct costs are incurred by the County.

5. CLAIMS, COMMITMENT AND CONTINGENCIES

A. Compensated Absences

The County provides sick leave after full-time and part-time employees with benefits have completed the introductory period. The sick leave policy states that full and part-time employees with benefits shall earn ½ day of sick leave each month. From year to year, full-time and part-time employees with benefits may not carry forward accumulated sick leave. Upon termination, employees are not compensated for unused sick time.

The County provides vacation leave after full-time and part-time employees with benefits have completed the introductory period. After completion of the introductory period, full-time and part-time employees with benefits may accrue vacation leave beginning from their employment date. Full-time employees may accrue up to three weeks of vacation leave per year depending on their length of employment. Part-time employees with benefits are subject to the provisions of accrued vacation leave, except that leave shall be credited at one half the rate of full-time employees. From year to year, full-time and part-time employees with benefits may not carry forward accumulated vacation leave. Upon termination, full-time and part-time with benefits may be compensated for ½ of their unused and accumulated vacation upon Commission approval.

Compensatory time is based on work hours in excess of 40 hours in a 168-hour work period (1 month) during seven consecutive 24-hour periods, except for law enforcement employees. For law enforcement personnel the period shall be 28 consecutive days, and compensatory time shall accrue for work hours in excess of 171 hours in a 28-day period. No employee is permitted to accumulate and retain more than 240 hours of compensatory time, except County employees engaged in law enforcement activities may accrue up to 480 hours. Upon termination, employees are compensated for any compensatory time credits.

B. Federal and State Assisted Programs

The County has received proceeds from several federal and state grants. Periodic audits of these grants, when performed, could result in the disallowance of certain costs. Accordingly, such audits could result in the refund of grant monies to the grantor agencies. Management believes that any required refunds, if determined necessary, will be immaterial and, therefore, no provision has been made in the accompanying financial statements for the potential refund of grant monies.

6. RISK MANAGEMENT

The County is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters, and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

The County is a member participant in a public entity risk pool which is a corporate and political body. The purpose of the risk pool is to provide liability protection to participating public entities, their officials, and employees. Annual contributions are collected based on actuarial projections which are intended to produce sufficient funds to pay losses and expenses. Should contributions

not produce sufficient funds to meet its obligations, the risk pool is empowered with the ability to make special assessments. Members are jointly and severally liable for all claims against the risk pool.

The County is a member of the Missouri Association of Counties Self-Insured Workers' Compensation Trust. The County purchases workers' compensation insurance through this fund, a non-profit corporation established for the purpose of providing insurance coverage for Missouri counties. The Fund is self-insured up to \$2,000,000 per occurrence and is reinsured up to the statutory limit through excess insurance.

7. LONG-TERM DEBT

In August 2020, the County entered into a lease purchase agreement to finance the purchase of a 2015 John Deere 770G Motor Grader at a cost of \$121,500. The agreement requires six annual payments of \$22,421, which includes interest payable at 2.95% until 2026. The final payment is due August 10, 2026.

Fiscal Year Ending December 31	Principal	Interest	Total
2024	\$ 20,525	\$ 1,896	\$ 22,421
2025	21,138	1,283	22,421
2026	21,771	650	22,421
Total	<u>\$ 63,434</u>	<u>\$ 3,829</u>	<u>\$ 67,263</u>

The following schedule shows changes in long-term debt during the year ended December 31, 2023:

Description	Balance 12/31/2022	Additions	Payments	Balance 12/31/2023	Interest Paid
2015 John Deere Motor Grader	\$ 83,362	\$ -	\$ (19,928)	\$ 63,434	\$ 2,493

8. SUBSEQUENT EVENTS

The County has evaluated events subsequent to December 31, 2023 to assess the need for potential recognition or disclosure in the financial statements. Such events were evaluated through November 11, 2024, the date the financial statements were available to be issued.

COMPLIANCE SECTION

McBRIDE, LOCK & ASSOCIATES, LLC

CERTIFIED PUBLIC ACCOUNTANTS

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the County Commission and
Officeholders of Sullivan County, Missouri

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Sullivan County, Missouri which comprise the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory Basis and the Statement of Fiduciary Receipts, Disbursements and Changes in Cash – Regulatory Basis as of December 31, 2023, and the related Statements of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis for the year then ended, and the related notes to the financial statements, which collectively comprise Sullivan County, Missouri's basic financial statements and have issued our report thereon dated November 11, 2024.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Sullivan County, Missouri's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Sullivan County, Missouri's internal control. Accordingly, we do not express an opinion on the effectiveness of Sullivan County, Missouri's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements, on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the County's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses, or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that have not been identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether Sullivan County, Missouri's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed one instance of noncompliance or other matters that is required to be reported under *Government Auditing Standards* and which is described in the accompanying schedule of findings and questioned costs as item 2023-001.

Sullivan County, Missouri's Response to Finding

Government Auditing Standards requires the auditor to perform limited procedures on Sullivan County, Missouri's response to the finding identified in our audit and described in the accompanying schedule of findings and questioned costs. Sullivan County, Missouri's response was not subjected to the other auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the response.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

CERTIFIED PUBLIC ACCOUNTANTS

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

To the County Commission and
Officeholders of Sullivan County, Missouri

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited Sullivan County, Missouri's compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of Sullivan County, Missouri's major federal programs for the year ended December 31, 2023. Sullivan County, Missouri's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, Sullivan County, Missouri complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended December 31, 2023.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We must be independent of Sullivan County, Missouri and meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe the audit evidence we obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of Sullivan County, Missouri's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to Sullivan County, Missouri's federal programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on Sullivan County, Missouri's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about Sullivan County, Missouri's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding Sullivan County, Missouri's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of Sullivan County, Missouri's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of Sullivan County, Missouri's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control over Compliance

Our consideration of internal control over compliance was for the limited purposes described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance and therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as discussed below, we did identify a certain deficiency in internal control over compliance that we consider to be a material weakness.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance. We consider the deficiency in internal control over compliance described in the accompanying schedule of findings and questioned costs as item 2023-002 to be a material weakness.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

Government Auditing Standards requires the auditor to perform limited procedures on Sullivan County, Missouri's response to the internal control over compliance finding identified in our compliance audit described in the accompanying schedule of findings and questioned costs. Sullivan County, Missouri's response was not subjected to the other auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

SULLIVAN COUNTY, MISSOURI
NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
YEAR ENDED DECEMBER 31, 2023

NOTE A – BASIS OF PRESENTATION

The accompanying Schedule of Expenditures of Federal Awards (SEFA) includes the federal award activity of Sullivan County, Missouri for the year ended December 31, 2023. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the financial statements.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures are reported on the cash basis of accounting. Such expenditures are recognized following the cost principles contained in Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance), wherein certain types of expenditures are not allowed or are limited as to reimbursement. The County has elected not to use the 10 percent de minimis indirect cost rate as allowed under the Uniform Guidance.

NOTE C – SUBRECIPIENTS

The County did not pass any federal awards through to subrecipients during the year ended December 31, 2023.

SULLIVAN COUNTY, MISSOURI
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
YEAR ENDED DECEMBER 31, 2023

SECTION I – SUMMARY OF AUDITOR’S RESULTS

Financial Statements:

Type of auditor’s report issued on whether the financial statements
audited were prepared in accordance with GAAP: Adverse

Type of auditor’s report issued on whether the financial statements
were prepared in accordance with the regulatory basis: Unmodified

The special purpose framework used as a basis of accounting was not required by state law.

Internal Control Over Financial Reporting:

- Material weakness(es) identified? Yes X No
- Significant deficiencies identified that are
not considered to be material weaknesses? Yes X None Reported
- Noncompliance material to financial
statements noted? X Yes No

Federal Awards:

Internal Control Over Major Programs:

- Material weakness(es) identified? X Yes No
- Significant deficiencies identified that are
not considered to be material weaknesses? Yes X None Reported

Auditee Qualified as low-risk: Yes X No

SECTION II – FINANCIAL STATEMENTS FINDINGS

MATERIAL WEAKNESSES IN INTERNAL CONTROL

None

SIGNIFICANT INTERNAL CONTROL DEFICIENCIES

None reported

ITEMS OF NONCOMPLIANCE

2023-001: Budgetary Controls

Criteria: Section 50.740, RSMo, prohibits expenditures in excess of the approved budgets.

Condition: Actual expenditures exceeded budgeted expenditures for the Sullivan County Memorial Hospital and Tax Maintenance Funds.

Cause: The County did not adequately review and amend budgeted expenditures of each Fund to ensure actual expenditures did not exceed the budgeted amounts.

Effect: Budgetary controls are significant to the proper management and custodianship of county funds. Compliance with statutory requirements related to budgets will improve controls over county funds and help maintain the integrity of the budget process.

Recommendation: We recommend the County implement procedures to ensure compliance with state statutes by refraining from approving expenditures in excess of budgeted amounts or by following the appropriate procedures to amend the budget.

County's Response: The County Clerk will perform a detailed review of budgetary schedules and actual expenditures in order to ensure budgetary compliance, and amendments to the budget will be prepared and approved by the County Commission.

Auditor's Evaluation: The response is appropriate to correct the concern.

SECTION III – FEDERAL AWARD FINDINGS AND QUESTIONED COSTS

2023-002: Schedule of Expenditures of Federal Awards

Federal Grantor: U.S. Department of the Treasury

Pass-Through Grantor: N/A

Federal Assistance Listing Number: 21.027

Program Title: Coronavirus State and Local Fiscal Recovery Funds

Pass-through Entity Identifying Number: N/A

Award Year: 2023

Questioned Costs: None

Criteria: 2 CFR 200.510(b) requires auditees to prepare a schedule of expenditures of federal awards (SEFA) which must report total federal awards expended during the audit period. At a minimum, the schedule must include: expenditures by individual federal program, name of the pass-through entity and identifying number for awards not received directly from the federal government, and the total amount provided to subrecipients from each federal program.

Condition: The SEFA reported by the County in the 2024 annual budget documents contained an error in the amount of federal expenditures reported. Expenditures of Coronavirus State and Local Fiscal Recovery Funds of \$858,705 were not reported on the 2023 SEFA.

Cause: The County has not implemented a proper system of internal control over SEFA preparation, such as a reconciliation to underlying accounting records or having a separate individual review the SEFA for clerical accuracy after it has been prepared.

Effect: The SEFA presented for audit did not accurately reflect the County's actual expenditures of federal awards for the year ended December 31, 2023.

Recommendation: We recommend that the County implement internal controls to ensure that the SEFA completely and accurately states the expenditures of federal awards of the County each year.

County's Response: The County Clerk will implement a procedure to keep more detailed records that accurately states the expenditures of federal awards of the County.

Auditor's Evaluation: The County should also implement procedures to ensure the completeness of the SEFA.

MANAGEMENT'S RESPONSE TO AUDITOR'S FINDINGS:

- **Summary Schedule of Prior Audit Findings**
 - **Corrective Action Plan**

CERTIFIED PUBLIC ACCOUNTANTS

November 11, 2024

To the County Commission
Sullivan County, Missouri

We have audited the regulatory basis financial statements of Sullivan County, Missouri for the year ended December 31, 2023. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards (and, if applicable, *Government Auditing Standards* and the Uniform Guidance), as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated June 18, 2024. Professional standards also require that we communicate to you the following information related to our audit.

Significant Audit Matters

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by Sullivan County, Missouri are described in Note 1 to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during 2023. We noted no transactions entered into by the County during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. Since the County is reporting on the cash basis of accounting, there are no particularly sensitive estimates affecting the financial statements.

The financial statement disclosures are neutral, consistent, and clear.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. There were no misstatements detected during the audit.

Disagreements with Management

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated November 11, 2024.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the County's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the County's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

Other Matters

We were engaged to report on the schedule of expenditures of federal awards, which accompanies the financial statements but is not Required Supplementary Information. With respect to this supplementary information, we made certain inquiries of management and evaluated the form, content, and methods of preparing the information to determine that the information complies with the financial reporting provisions prescribed or permitted by Missouri law, the method of preparing it has not changed from the prior period, and the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the supplementary information to the underlying accounting records used to prepare the financial statements or to the financial statements themselves.

Restriction on Use

This information is intended solely for the information and use of the County Commission and management of Sullivan County, Missouri and is not intended to be, and should not be, used by anyone other than these specified parties.

Very truly yours,

(Original Signed by McBride, Lock & Associates, LLC)

McBride, Lock & Associates, LLC

SCOTT FITZPATRICK
MISSOURI STATE AUDITOR

To the County Commission
and
Officeholders of Monroe County, Missouri

The Office of the State Auditor contracted for an audit of Monroe County's financial statements for the 2 years ended December 31, 2022, through the state Office of Administration, Division of Purchasing and Materials Management. The audit includes an audit of each county officer in fulfillment of our duties under Section 29.230.1, RSMo. A copy of this audit, performed by McBride, Lock & Associates, LLC, Certified Public Accountants, is attached.

A handwritten signature in black ink that reads "Scott Fitzpatrick". The signature is written in a cursive style with a large, stylized "S" and "F".

Scott Fitzpatrick
State Auditor

February 2025
Report No. 2025-005

Recommendations in the contracted audit of Monroe County

2022-001	The Prosecuting Attorney's office implement procedures to prepare proper monthly bank reconciliations.
2022-002	The Sheriff's office implement procedures to ensure monthly bank reconciliations are performed and reviewed by the Sheriff to ensure adequate segregation of duties. We also recommend that the Sheriff's office implement procedures to properly safeguard incoming receipts and timely deposit the funds into the bank.
2022-003	The Collector and Treasurer periodically review bank balances and work with the bank to ensure that public funds are adequately secured, especially at December 31 since this is the due date for property taxes.
2022-004	The county implement internal controls to ensure that the Schedule of Expenditures of Federal Awards (SEFA) completely and accurately states the expenditures of federal awards of the county each year.
2022-005	The county implement procedures to ensure that all required reports are properly submitted to the U.S. Department of the Treasury to ensure compliance with reporting requirements of the Coronavirus State and Local Fiscal Recovery Funds (SLFRF) program and that documentation of compliance is maintained.
Collector's Bank Reconciliation Inaccuracies	The Collector's office implement procedures to ensure that all outstanding items are included on the monthly bank reconciliations.
Absence of Investment Policy	The county adopt an investment policy and review compliance with this policy at least annually as required by state statute.
Budgetary Compliance	The county ensure compliance with state statutes by adopting a formal budget for all county funds. Additionally, we recommend the county implement procedures to perform an additional review of the county's prior year actual activity in the budgeting process to ensure all financial activity is correctly presented.

INDEPENDENT AUDITOR'S REPORT

To the County Commission and
Officeholders of Monroe County, Missouri

Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying financial statements of Monroe County, Missouri, which comprise the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory Basis and the Statement of Fiduciary Receipts, Disbursements and Changes in Cash – Regulatory Basis as of December 31, 2021 and 2022, and the related Comparative Statements of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis for the years then ended, and the related notes to the financial statements.

Unmodified Opinion on Regulatory Basis of Accounting

In our opinion, the financial statements referred to above present fairly, in all material respects, the cash balances of each fund of Monroe County, Missouri, as of December 31, 2021 and 2022, and their respective cash receipts and disbursements, and budgetary results for the years then ended, in accordance with the financial reporting provisions prescribed or permitted by Missouri law as described in Note 1.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles section of our report, the financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of Monroe County, Missouri, as of December 31, 2021 and 2022, or the changes in financial position thereof for the years then ended.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Monroe County, Missouri, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note 1, the financial statements are prepared by Monroe County, Missouri on the basis of the financial reporting provisions prescribed or permitted by Missouri law, which is a basis of accounting other than accounting principles generally accepted in the United States of America, to meet the requirements of Missouri law. The effects on the financial statements of the variances between the regulatory basis of accounting described in Note 1 and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material and pervasive.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles prescribed or permitted by Missouri law. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Monroe County, Missouri's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibility for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Monroe County, Missouri's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise Monroe County, Missouri's basic financial statements. The accompanying schedule of expenditures of federal awards, as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, is presented for purpose of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we also have issued our report dated December 3, 2024, on our consideration of Monroe County, Missouri's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Monroe County, Missouri's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Monroe County, Missouri's internal control over financial reporting and compliance.

The accompanying Notes to the Financial Statements are an integral part of this statement.

MONROE COUNTY, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2021 and 2022

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Monroe County, Missouri (“County”) is governed by a three-member board of commissioners. In addition to the three board members, there are ten elected Constitutional Officers: Assessor, Circuit Clerk, Collector, Coroner, County Clerk, Prosecuting Attorney, Public Administrator, Recorder, Sheriff, and Treasurer.

As discussed further in Note 1, these financial statements are presented using accounting practices prescribed or permitted by Missouri law, which differ from accounting principles generally accepted in the United States of America, which would include all relevant Governmental Accounting Standards Board (GASB) pronouncements. The differences include use of a prescribed definition of the reporting entity and the cash basis of accounting.

A. Reporting Entity

The County’s operations include tax assessments and collections, state/county courts, county recorder, public safety, economic development, social and human services, and cultural and recreation services.

The financial statements referred to above include the primary government of Monroe County, Missouri, which consists of all funds, organizations, institutions, agencies, departments, and offices that are considered to comprise the County’s legal entity under the regulatory basis of accounting. Financial data of other entities that may be considered to be component units of the County under generally accepted accounting principles is not included.

In accordance with the regulatory basis of accounting, the financial statements of the County do not include the activity of the Circuit Court, which is part of the Missouri court system and is considered to be a state function, including the operations of the Circuit Clerk (other than the portion that is funded by the General Revenue Fund) and all funds under their control.

B. Basis of Presentation

Governmental Funds – Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. A fund is considered a separate accounting entity with self-balancing accounts that comprise its assets, liabilities, net assets, revenues/receipts and expenditures/disbursements. The County’s funds are governmental funds. Governmental funds are those through which most governmental functions are financed. The County’s expendable financial resources are accounted for through governmental funds.

Fiduciary Funds – Fiduciary funds consist of custodial funds. Custodial funds account for assets held by the County as an agent of individuals, private organizations, taxing units, other governments and/or funds. Budgets are not adopted for the County’s custodial funds.

C. Basis of Accounting

The financial statements are prepared on the cash basis of accounting; accordingly, amounts are recognized when received or disbursed in cash. This basis of accounting differs from accounting principles generally accepted in the United States of America. Those principles require revenues to be recognized when they become available and measurable or when they are earned, and expenditures or expenses to be recognized when the related liabilities are incurred.

D. Budgets and Budgetary Accounting

The County follows these procedures in establishing the budgetary data reflected in the financial statements:

1. In accordance with Chapter 50, RSMo, the County's policy is to adopt a budget for each governmental fund.
2. On or before January 15, each elected officer and department director will transmit to the County Commission and County Clerk, who serves as budget officer, the budget request and revenue estimates for their office or department for the budget year.
3. The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning January 1. The proposed budget includes estimated revenues and proposed expenditures, on the cash basis of accounting, for all budgeted funds. Budgeting of appropriations is based upon an estimated fund balance at the beginning of the year as well as estimated revenues to be received.
4. State law requires that, at the individual fund level, budgeted expenditures not exceed budgeted revenues plus anticipated beginning fund balance.
5. A public hearing is conducted to obtain public comment on the budget. Prior to its approval by the County Commission, the budget document is available for public inspection, which usually takes place the third and fourth weeks of January.
6. Prior to February 1, the budget is legally enacted by a vote of the County Commission.
7. Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by a formal vote of the Commission. Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year.
8. Budgets are prepared and adopted on the cash basis of accounting.
9. Adoption of a formal budget is required by law. However, the County did not adopt a budget for the ARPA Rescue Fund in 2021.
10. Section 50.740, RSMo prohibits expenditures in excess of the approved budgets.

- E. Property taxes are based on the voter-approved tax levy applied to the real and personal assessed property values. Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on October 1 and tax bills are mailed to taxpayers in November, at which time they are payable. All unpaid property taxes become delinquent as of January 1 of the following year.

The assessed valuations of the tangible taxable property included within the County's boundaries for the calendar years 2022 and 2021 for purposes of taxation were:

	2022	2021
Real Estate	\$ 94,641,090	\$ 92,944,870
Personal Property	45,748,047	35,686,017
Railroad and Utilities	19,868,888	18,432,839
Total	<u>\$ 160,258,025</u>	<u>\$ 147,063,726</u>

For calendar years 2022 and 2021, the County Commission approved a tax levy per \$100 of assessed valuation of tangible taxable property as follows:

	2022	2021
General Revenue	\$ 0.2800	\$ 0.2600
Special Road and Bridge	0.2810	0.2810
Senate Bill 40 Board	0.0942	0.0942

F. Cash Deposits and Investments

Deposits and investments are stated at cost, which approximates market. Cash balances for all the County Treasurer funds are pooled and invested to the extent possible. Interest earned from these balances is allocated to each of the funds based on the funds' average daily cash balance. Cash equivalents may include repurchase agreements and any other instruments with an original maturity of ninety days or less. State law authorizes the deposit of funds in banks and trust companies or the investment of funds in bonds or treasury certificates of the United States, other interest bearing obligations guaranteed as to both principal and interest by the United States, or any instrumentality thereof, certain municipal bonds authorized by Missouri statute, or time certificates of deposit. Funds in the form of cash on deposit or time certificates of deposit are required to be insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized by authorized investments held in the County's name at third-party banking institutions. Details of these cash and investment balances are presented in Note 2.

G. Interfund Activity

During the course of operations, interfund activity occurs for purposes of providing supplemental funding, reimbursements for goods provided or services rendered, or short and long-term financing. Interfund activities are reported as "transfers in" by the recipient fund and as "transfers out" by the disbursing fund. However, interfund reimbursements have been eliminated from the financial statements in order that reimbursed expenditures are reported only in the funds incurring the costs.

2. CASH AND INVESTMENTS

The County maintains a cash and temporary investment pool that is available for use by all funds. Each fund's portion of this pool is displayed on the financial statements within the "Cash and Investments" caption. Investments consist of certificates of deposit with original maturities that are greater than ninety days.

Custodial Credit Risk - Deposits – Custodial credit risk is the risk that in the event of a bank failure, a government's deposits may not be returned to it. Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits. At December 31, 2022, the County had the following cash and investment balances:

	<u>Carrying Value</u>	<u>Bank Balance</u>	<u>FDIC Coverage</u>
Cash and Cash Equivalents	\$ 2,891,588	\$ 3,330,467	\$ 306,507
Investments	256,026	256,026	100,000
Total Governmental Funds	<u>\$ 3,147,614</u>	<u>\$ 3,586,493</u>	<u>\$ 406,507</u>
Cash and Cash Equivalents	\$ 7,896,019	\$ 7,263,584	\$ 662,668
Investments	1,099,660	1,099,660	393,834
Total Fiduciary Funds	<u>\$ 8,995,679</u>	<u>\$ 8,363,244</u>	<u>\$ 1,056,502</u>

At December 31, 2021, the County had the following cash and investment balances:

	<u>Carrying Value</u>	<u>Bank Balance</u>	<u>FDIC Coverage</u>
Cash and Cash Equivalents	\$ 2,115,893	\$ 2,567,532	\$ 292,908
Investments	353,172	353,172	200,000
Total Governmental Funds	<u>\$ 2,469,065</u>	<u>\$ 2,920,704</u>	<u>\$ 492,908</u>
Cash and Cash Equivalents	\$ 7,251,620	\$ 6,843,012	\$ 572,747
Investments	1,116,712	1,116,712	391,472
Total Fiduciary Funds	<u>\$ 8,368,332</u>	<u>\$ 7,959,724</u>	<u>\$ 964,219</u>

The remainder of the balances not covered by FDIC deposit insurance at December 31, 2022 and 2021 were covered by collateral held at the Federal Reserve Bank and the County's safekeeping bank agent in the County's name or by a line of credit held by the County or by its agent in the County's name, except for \$500,434 at December 31, 2021 held by the Collector and Treasurer in one bank that was not collateralized.

3. COUNTY EMPLOYEES' RETIREMENT PLANS

A. Missouri Local Government Employees Retirement System (LAGERS)

1) Plan Description

Monroe County participates in the Missouri Local Government Employees Retirement

System (LAGERS), an agent multiple-employer public employee retirement system that acts as a common investment and administrative agent for local government entities in Missouri. LAGERS is a defined benefit pension plan which provides retirement, disability, and death benefits to plan members and beneficiaries. LAGERS was created and is governed by statute, Section 70.600-70.755, RSMo. As such, it is the system's responsibility to administer the law in accordance with the expressed intent of the General Assembly. The plan is qualified under the Internal Revenue Code Section 401 (a) and is tax exempt.

The Missouri Local Government Employees Retirement System issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to LAGERS, P.O. Box 1665, Jefferson City, Missouri 65102 or by calling 1-800-447-4334, or by the following website, www.molagers.org.

2) Pension Benefits

Benefits are available to all full-time employees working in a LAGERS covered department. Benefits vest when an employee earns five years (60 months) of service credit in the system. Normal retirement age is 60 (General) or 55 (Police), and early retirement is 55 (General) and 50 (Police). Benefits are paid out using a formula that is based on the employee's final average salary and amount of credited service time.

3) Funding Policy

Full-time employees of Monroe County do not contribute to the pension plan. The January 1st statutorily required contribution rates were 8.7% and 9.2% (General), and 12% and 11% (Police) of annual covered payroll for 2022 and 2021 respectively. The contribution requirements of plan members are determined by the governing body of the political subdivision. The contribution provisions of the political subdivision are established by state statute. For the years ended December 31, 2022 and 2021, the County contributed \$125,430 and \$135,632, respectively, to LAGERS.

B. County Employees' Retirement Fund (CERF)

The County Employees' Retirement Fund was established by the State of Missouri to provide pension benefits for County officials and employees.

1) Plan Description

The Retirement Fund is a cost-sharing multiple employer defined benefit pension plan covering any county elective or appointed officer or employee whose performance requires the actual performance of duties during not less than one thousand (1,000) hours per calendar year in each county of the state, except for any city not within a county and any county of the first classification having a charter form of government. It does not include county prosecuting attorneys covered under Sections 56.800 to 56.840, RSMo, circuit clerks and deputy circuit clerks covered under the Missouri State Retirement System, county sheriffs covered under Sections 57.949 to 57.997, RSMo and certain personnel not defined as an employee per Section 50.1000(8), RSMo. The Fund was created by an act of

the legislature and was effective August 28, 1994.

The general administration and the responsibility for the proper operation of the Fund and the investment of the Fund are vested in a board of directors of eleven persons.

2) Pension Benefits

Beginning January 1, 1997, employees attaining the age of sixty-two years may retire with full benefits with eight or more years of creditable service. The monthly benefit for County Employees is determined by selecting the highest benefit calculated using three different prescribed formulas (flat-dollar formula, targeted replacement ratio formula, and prior plan's formula). A death benefit of \$10,000 will be paid to the designated beneficiary of every active member upon his or her death.

Upon termination of employment, any member who is vested is entitled to a deferred annuity, payable at age sixty-two. Early retirement is at age fifty-five. Any member with less than eight years of creditable service forfeits all rights in the Fund but will be paid his or her accumulated contributions.

The County Employees' Retirement Fund issues audited financial statements. Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, 2121 Schotthill Woods Drive, Jefferson City, MO 65101, by calling 1-877-632-2373, or by the following website, www.mocerf.org.

3) Funding Policy

In accordance with State Statutes, the Plan is partially funded through various fees collected by counties and remitted to the CERF. Further, all participants hired on or after February 24, 2002 are required to contribute an additional 4% of their gross compensation to CERF, starting January 1, 2003. An active LAGERS participant who was employed with the County prior to February 24, 2002, is not required to make contributions. The County has elected not to make contributions on behalf of employees. During 2022 and 2021, the County collected and remitted to CERF employee withholdings and fees collected of \$96,881 and \$89,207, respectively, for the years then ended.

C. Prosecuting Attorney Retirement Fund

In accordance with Section 56.807, RSMo, the County contributes monthly to the Missouri Office of Prosecution Services for deposit to the credit of the Missouri Prosecuting Attorneys and Circuit Attorney Retirement System Fund. Once remitted, the State of Missouri is responsible for administration of this plan. The County contributed \$3,927 and \$3,161, respectively, for the years ended December 31, 2022 and 2021.

4. POST EMPLOYMENT BENEFITS

The County does not provide post-employment benefits except as mandated by the Consolidated Omnibus Budget Reconciliation Act (COBRA). The requirements established by COBRA are fully funded by employees who elect coverage under the Act, and no direct costs are incurred by the County.

5. CLAIMS, COMMITMENT AND CONTINGENCIES

A. Compensated Absences

The County provides full-time employees with one day of sick leave for each completed calendar month of employment, up to a maximum of 60 days. Upon termination, employees with less than 15 years of continuous employment will not be compensated for any unused sick time. Employees with at least 15 years of continuous service will be compensated for a portion of their unused sick time depending on their length of service. Employees with at least 15 years of continuous service will receive \$25 for each day of unused sick time with a maximum of 15 days. Employees with more than 15 years of continuous service will receive an additional day for each year of continuous employment, with a maximum of 60 days.

Vacation time is accrued for full-time regular employees after a 12-month probationary period based on years of employment with the County. Vacation time is 10 days for employees with one to ten years of service; 15 days for employees with eleven to twenty-five years of service; 20 days for employees with twenty-six or more years of service. Employees are not allowed to carry over vacation into a new employment year. Upon termination, employees are compensated for any unused vacation time.

B. Federal and State Assisted Programs

The County has received proceeds from several federal and state grants. Periodic audits of these grants, when performed, could result in the disallowance of certain costs. Accordingly, such audits could result in the refund of grant monies to the grantor agencies. Management believes that any required refunds, if determined necessary, will be immaterial and, therefore, no provision has been made in the accompanying financial statements for the potential refund of grant monies.

C. Litigation

The County was involved in pending litigation as of the audit report date. The County's management and legal counsel anticipate that potential claims, if any, against the County resulting from such litigation would not have a material effect on the financial position of the County.

6. RISK MANAGEMENT

The County is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters, and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

The County is a member participant in a public entity risk pool which is a corporate and political body. The purpose of the risk pool is to provide liability protection to participating public entities, their officials, and employees. Annual contributions are collected based on actuarial projections which are intended to produce sufficient funds to pay losses and expenses. Should contributions not produce sufficient funds to meet its obligations, the risk pool is empowered with the ability to make special assessments. Members are jointly and severally liable for all claims against the risk pool.

The County is a member of the Missouri Association of Counties Self-Insured Workers' Compensation Trust. The County purchases workers' compensation insurance through this fund, a non-profit corporation established for the purpose of providing insurance coverage for Missouri counties. The Fund is self-insured up to \$2,000,000 per occurrence and is reinsured up to the statutory limit through excess insurance.

7. SUBSEQUENT EVENTS

The County has evaluated events subsequent to December 31, 2022 to assess the need for potential recognition or disclosure in the financial statements. Such events were evaluated through December 3, 2024, the date the financial statements were available to be issued.

COMPLIANCE SECTION

McBRIDE, LOCK & ASSOCIATES, LLC

CERTIFIED PUBLIC ACCOUNTANTS

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the County Commission and
Officeholders of Monroe County, Missouri

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Monroe County, Missouri which comprise the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory Basis and the Statement of Fiduciary Receipts, Disbursements and Changes in Cash – Regulatory Basis as of December 31, 2021 and 2022, and the related Comparative Statements of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis for the years then ended, and the related notes to the financial statements, which collectively comprise Monroe County, Missouri's basic financial statements and have issued our report thereon dated December 3, 2024.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Monroe County, Missouri's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Monroe County, Missouri's internal control. Accordingly, we do not express an opinion on the effectiveness of Monroe County, Missouri's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the County's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. We identified certain deficiencies in internal control, described in the accompanying schedule of findings and questioned

costs as items 2022-001 and 2022-002 that we consider to be significant deficiencies.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether Monroe County, Missouri's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed an instance of noncompliance or other matters that is required to be reported under *Government Auditing Standards* and which is described in the accompanying schedule of findings and questioned costs as item 2022-003.

Monroe County, Missouri's Responses to Finding

Government Auditing Standards requires the auditor to perform limited procedures on Monroe County, Missouri's response to the finding identified in our audit and described in the accompanying schedule of findings and questioned costs. Monroe County, Missouri's response was not subjected to the other auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the response.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

CERTIFIED PUBLIC ACCOUNTANTS

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

To the County Commission and
Officeholders of Monroe County, Missouri

Report on Compliance for Each Major Federal Program

Qualified Opinion

We have audited Monroe County, Missouri's compliance with the types of compliance requirements identified as subject to audit in the *OMB Compliance Supplement* that could have a direct and material effect on each of Monroe County, Missouri's major federal programs for the years ended December 31, 2021 and 2022. Monroe County, Missouri's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, except for the noncompliance described in the Basis for Qualified Opinion section of our report, Monroe County, Missouri complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the years ended December 31, 2021 and 2022.

Basis for Qualified Opinion

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of Monroe County, Missouri and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of Monroe County, Missouri's compliance with the compliance requirements referred to above.

Matter Giving Rise to Qualified Opinion on Major Program

As described in the accompanying schedule of findings and questioned costs, Monroe County, Missouri did not comply with the requirements regarding the Coronavirus State and Local Fiscal Recovery Funds as described in finding 2022-005 for Reporting. Compliance with such requirements

is necessary, in our opinion, for Monroe County, Missouri to comply with the requirements applicable to that program.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to Monroe County, Missouri's federal programs.

Auditor's Responsibilities for Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on Monroe County, Missouri's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about Monroe County, Missouri's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding Monroe County, Missouri's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of Monroe County, Missouri's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of Monroe County, Missouri's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Other Matters

Government Auditing Standards requires the auditor to perform limited procedures on Monroe County, Missouri's response to the noncompliance findings identified in our compliance audit described in the accompanying schedule of findings and questioned costs. Monroe County, Missouri's response was not subjected to the other auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

Report on Internal Control over Compliance

Our consideration of internal control over compliance was for the limited purposes described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance and therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as discussed below, we did identify certain deficiencies in internal control over compliance that we consider to be material weaknesses.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance. We consider the deficiency in internal control over compliance described in the accompanying schedule of findings and questioned costs as items 2022-004 and 2022-005 to be material weaknesses.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

Government Auditing Standards requires the auditor to perform limited procedures on Monroe County, Missouri's response to the internal control over compliance findings identified in our compliance audit described in the accompanying schedule of findings and questioned costs. Monroe County, Missouri's response was not subjected to the other auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

See accompanying Notes to the Schedule of Expenditures of Federal Awards

MONROE COUNTY, MISSOURI
NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
YEARS ENDED DECEMBER 31, 2021 AND 2022

NOTE A – BASIS OF PRESENTATION

The accompanying Schedule of Expenditures of Federal Awards (SEFA) includes the federal award activity of Monroe County, Missouri for the years ended December 31, 2022 and 2021. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the financial statements.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures are reported on the cash basis of accounting. Such expenditures are recognized following the cost principles contained in Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance), wherein certain types of expenditures are not allowed or are limited as to reimbursement. The County has elected not to use the 10 percent de minimus indirect cost rate as allowed under the Uniform Guidance.

MONROE COUNTY, MISSOURI
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
YEARS ENDED DECEMBER 31, 2021 AND 2022

SECTION I – SUMMARY OF AUDITOR’S RESULTS

Financial Statements:

Type of auditor’s report issued on whether the financial statements
audited were prepared in accordance with GAAP: Adverse

Type of auditor’s report issued on whether the financial statements
were prepared in accordance with the regulatory basis: Unmodified

The special purpose framework used as a basis of accounting was not required by state law.

Internal Control Over Financial Reporting:

- Material weakness(es) identified? Yes X No
- Significant deficiencies identified that are
not considered to be material weaknesses? X Yes None Reported
- Noncompliance material to financial
statements noted? X Yes No

Federal Awards:

Internal Control Over Major Programs:

- Material weakness(es) identified? X Yes No
- Significant deficiencies identified that are
not considered to be material weaknesses? Yes X None Reported

Type of Auditor’s Report Issued on Compliance
For Major Programs: Qualified

Any audit findings disclosed that are required to be
reported in accordance with Uniform Guidance
section 200.516? X Yes No

Identification of Major Programs:

<u>Assistance Listing Number(s)</u>	<u>Name of Federal Program or Cluster</u>
21.027	Coronavirus State and Local Fiscal Recovery Funds

Dollar Threshold Used to Distinguish Between
Type A and Type B Programs: \$750,000

Auditee Qualified as low-risk: Yes X No

SECTION II – FINANCIAL STATEMENTS FINDINGS

MATERIAL WEAKNESSES IN INTERNAL CONTROL

None

SIGNIFICANT INTERNAL CONTROL DEFICIENCIES

2022-001: Prosecuting Attorney's Bank Reconciliations

Criteria: A proper system of internal controls requires the reconciliation between the accounting and bank records to be accurately completed in a timely manner.

Condition: A review of the Prosecuting Attorney's bank reconciliations during the audit period noted instances in which the monthly bank reconciliations were not properly performed or were not performed at all during the months between January 2021 and August 2022. Further, there were instances in which the bank reconciliation did not include all outstanding items during the months of September, November, and December 2022.

Cause: Management does not place adequate emphasis upon reviewing cash transactions and preparing accurate bank reconciliations.

Effect: Proper reconciliation of the book balance to the bank balance ensures that all cash transactions have been recorded and increases the likelihood of preventing and detecting errors or fraud.

Recommendation: We recommend that the Prosecuting Attorney's office implement procedures to prepare proper monthly bank reconciliations.

County's Response: The Monroe County Prosecuting Attorney's Office will implement procedures to reconcile bank accounts monthly, and will make timely deposits, effective immediately.

Auditor's Evaluation: The response is appropriate to correct the concern.

2022-002: Sheriff's Internal Controls Over Cash

Criteria: A proper system of internal controls requires timely and proper completion of reconciliations between the accounting system and bank records and that cash receipts are properly safeguarded until they are deposited to reduce the opportunity of misappropriation.

Condition: A review of the Sheriff's bank reconciliations during the audit period noted that bank reconciliations were not performed after July 2022. Additionally, a walkthrough of the Sheriff's receipting process noted that Sheriff's secretary receives incoming receipts, and the receipts are held in an unsecured drawer until they are prepared to be deposited. The Sheriff's secretary was preparing the bank reconciliations prior to July 2022 without evidence of the Sheriff's review. Also, a sample of 25 receipts were selected for testing, and we noted six instances in which the receipts were deposited ten days or more after the date of receipt.

Cause: The Sheriff's office had a change in personnel in July 2022, and the employee was not properly trained to perform bank reconciliations. Additionally, the Sheriff's office was not aware that holding

receipts within the unlocked drawer was an issue.

Effect: Proper reconciliation of the book balance to the bank balance ensures that all cash transactions have been recorded and increases the likelihood of preventing and detecting errors or fraud. Safeguarding cash and checks received increases the safety of the assets and reduces the risk of misappropriation.

Recommendation: We recommend that the Sheriff's office implement procedures to ensure monthly bank reconciliations are performed and reviewed by the Sheriff to ensure adequate segregation of duties. We also recommend that the Sheriff's office implement procedures to properly safeguard incoming receipts and timely deposit the funds into the bank.

County's Response: The Monroe County Sheriff has purchased a lock box to properly secure all incoming receipts. Monthly bank reconciliations are reviewed and signed off by the Sheriff.

Auditor's Evaluation: The response is appropriate to correct the concern.

ITEMS OF NONCOMPLIANCE

2022-003: Collateralization of Bank Deposits

Criteria: Public funds on deposit that exceed FDIC deposit insurance coverage limits must be secured by pledged collateral securities. Section 30.270, RSMo, lists the types of collateral that are considered legally acceptable.

Condition: The County had a total bank balance at TPNB Bank of \$10,184,610 as of December 31, 2021, \$761,310 of which was covered by FDIC deposit insurance, leaving an uninsured balance of \$9,423,300. The bank provided a report showing that the market value of pledged collateral securities was \$8,922,866, leaving \$500,434 of unsecured deposits at December 31, 2021.

Cause: The bank did not provide adequate collateral securities to cover the County's deposits in excess of FDIC insurance.

Effect: Inadequate collateralization of public funds on deposit could lead to the loss of funds in the event of a bank failure.

Recommendation: We recommend that the Collector and Treasurer periodically review bank balances and work with the bank to ensure that public funds are adequately secured, especially at December 31 since this is the due date for property taxes.

County's Response: Monroe County Treasurer reviews bank balances monthly and provides monthly reports to the County Commission and works with the bank to ensure that public funds are adequately secured. The Monroe County Treasurer also oversees multiple Cemetery accounts of which these accounts are NOT Monroe County monies. Beginning January 2025, the Monroe County Treasurer is working towards enforcing the Cemetery boards to oversee their own accounts. It is not the Monroe County Treasurer responsibility to monitor cemetery accounts when they have their own board and board members. At the time of this audit, the Monroe County accounts were adequately FDIC insured, without including the cemetery accounts.

Auditor's Evaluation: The response is appropriate to correct the concern. The bank balances at December 31, 2021 and 2022, excluding amounts held by the Treasurer on behalf of cemeteries, were adequately secured by a combination of FDIC insurance and pledged collateral securities.

SECTION III – FEDERAL AWARD FINDINGS AND QUESTIONED COSTS

2022-004: Internal Control Over Schedule of Expenditures of Federal Awards

Federal Grantor: U.S. Department of Defense (DOD), U.S. Department of Justice (DOJ), U.S. Department of Transportation (DOT), U.S. Department of the Treasury (Treasury)

Pass-Through Grantor: Missouri Office of Administration, Missouri Department of Public Safety, Missouri Department of Transportation, Missouri State Treasurer

Federal Assistance Listing Number: 12.112, 16.738, 20.205, 21.019, 21.027

Program Title: Payments to States in Lieu of Real Estate Taxes; Edward Byrne Memorial Justice Assistance Grant Program; Highway Planning and Construction; Coronavirus Relief Fund; Coronavirus State and Local Fiscal Recovery Funds

Pass-through Entity Identifying Number: 2020-MU-BX-059-44, 15PBJA-21-GG-00249-MUMU-008, BRO-B069(46), BRO-B069(47)

Award Year: 2022 and 2021

Questioned Costs: None

Criteria: 2 CFR 200.510(b) requires auditees to prepare a schedule of expenditures of federal awards (SEFA) which must report total federal awards expended during the audit period. At a minimum, the schedule must include: expenditures by individual federal program, name of the pass-through entity and identifying number for awards not received directly from the federal government, and the total amount provided to subrecipients from each federal program. The County has not implemented proper internal controls to ensure the completeness and accuracy of the SEFA.

Condition: The SEFA reported by the County in the 2022 annual budget document contained errors in amounts of federal expenditures reported. There were no amounts reported on the SEFA schedule for 2022 in the 2023 annual budget document.

Discrepancies in amounts reported on the 2021 SEFA and the amounts supported by underlying accounting records are summarized as follows:

Federal			Original		
Agency	ALN	Program	SEFA	Supported	Difference
DOD	12.112	Payments to States in Lieu of Real Estate Taxes	-	15,465	(15,465)
DOJ	16.738	Edward Byrne Memorial Justice Assistance Grant Program	-	8,991	(8,991)
Treasury	21.019	Coronavirus Relief Fund	-	161,666	(161,666)
Treasury	21.027	Coronavirus State and Local Fiscal Recovery Funds	839,589	-	839,589

Cause: The County has not implemented a proper system of internal control over SEFA preparation, such as a reconciliation to underlying accounting records or having a separate individual review the SEFA for clerical accuracy after it has been prepared. Reasons for discrepancies in individual programs varied.

Effect: The SEFA presented for audit did not accurately reflect the County's actual expenditures of federal awards for both the years ended December 31, 2021 and 2022.

Recommendation: We recommend that the County implement internal controls to ensure that the SEFA completely and accurately states the expenditures of federal awards of the County each year.

County's Response: Monroe County has implemented procedures in our accounting software to track these expenses and report them correctly in the annual financial statements and budget.

Auditor's Evaluation: The response is appropriate to correct the concern.

2022-005: Internal Control Over Reporting

Federal Grantor: U.S. Department of the Treasury

Pass-Through Grantor: N/A

Federal Assistance Listing Number: 21.027

Program Title: Coronavirus State and Local Fiscal Recovery Funds

Pass-through Entity Identifying Number: N/A

Award Year: 2022 and 2021

Questioned Costs: None

Criteria: The Coronavirus State and Local Fiscal Recovery Funds (SLFRF) program requires the recipient to submit a one-time interim report by August 31, 2021 or sixty days after first receiving funding if the recipient's date of award was between July 15, 2021 and October 15, 2021. Additionally, the SLFRF program requires the recipient to submit an annual Project and Expenditure Report by April 30 each year until federal funds are fully spent or until the period of performance of the program has lapsed.

Condition: The County could not provide documentation to support that the one-time interim report or the annual Project and Expenditure Reports required during the audit period were properly and timely submitted to the Treasury in accordance with SLFRF reporting requirements.

Cause: The County has not implemented a proper system of internal control over reporting compliance with the SLFRF program. The County Clerk was not aware of the compliance requirements for reporting SLFRF expenditures.

Effect: Non-reporting of federal programs could result in non-compliance with federal guidelines and increases the risk of ineligibility for future federal programs. We were not able to determine whether

the reports were filed timely and accurately.

Recommendation: We recommend the County implement procedures to ensure that all required reports are properly submitted to the U.S. Department of the Treasury to ensure compliance with reporting requirements of the SLFRF program and that documentation of compliance is maintained.

County's Response: Monroe County Commission and the present Monroe County Clerk have implemented an application process and files annually with the U.S. Department of the Treasury when reporting is due.

Auditor's Evaluation: The County should also ensure that copies of required reports are maintained to document compliance with reporting requirements.

MANAGEMENT'S RESPONSE TO AUDITOR'S FINDINGS:

CERTIFIED PUBLIC ACCOUNTANTS

December 3, 2024

To the County Commission
Monroe County, Missouri

We have audited the regulatory basis financial statements of Monroe County, Missouri for the years ended December 31, 2022 and 2021. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards (and, if applicable, *Government Auditing Standards* and the Uniform Guidance), as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated August 7, 2023. Professional standards also require that we communicate to you the following information related to our audit.

Significant Audit Matters

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by Monroe County, Missouri are described in Note 1 to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during 2021 and 2022. We noted no transactions entered into by the County during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. Since the County is reporting on the cash basis of accounting, there are no particularly sensitive estimates affecting the financial statements.

The financial statement disclosures are neutral, consistent, and clear.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. Management has corrected all such misstatements. In addition, none of the misstatements detected as a result of audit procedures and corrected by management were material, either individually or in the aggregate, to each of the opinion unit's financial statements taken as a whole.

Disagreements with Management

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated December 3, 2024.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the County's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the County's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

In planning and performing our audit of the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory Basis, the Statement of Fiduciary Receipts, Disbursements and Changes in Cash – Regulatory Basis, and the related Comparative Statements of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis – All Governmental Funds as of and for the years ended December 31, 2021 and 2022, we considered Monroe County's internal control in order to determine our auditing procedures for the purpose of expressing an opinion on the financial statements and not to provide assurance on internal control. We issued our report on our consideration of internal control over financial reporting dated December 3, 2024. However, during our audit we became aware of matters that are opportunities for strengthening internal controls.

Collector's Bank Reconciliation Inaccuracies

A review of the Collector's bank reconciliations during the audit period noted an instance in which the bank reconciliation for December 31, 2022 did not include all outstanding receipts resulting in an inaccurate reconciled balance. The outstanding receipts totaled \$45,636 and caused the Collector's ending balance at December 31, 2022 to be understated. A proper system of internal controls requires timely and proper completion of reconciliations between the accounting system and bank records. Proper reconciliation of the book balance to the bank balance ensures that all cash transactions have been recorded and increases the likelihood of preventing and detecting errors or fraud. We recommend that the Collector's office implement procedures to ensure that all outstanding items are included on the monthly bank reconciliations.

Absence of Investment Policy

The County has not adopted an investment policy as required by Section 30.950, RSMo, which states, "Every political subdivision of this state which is responsible for the management and investment of public funds and which has existing authority to invest such funds in a manner other than in depository accounts at financial institutions in this state shall promulgate, formally adopt and comply with a written investment policy...." Adoption of a written investment policy commits a political subdivision to the principles of safety, liquidity, and yield (in that order) when managing public funds and prohibits purchase of derivatives (either directly or through repurchase agreements), use of leveraging (through either reverse repurchase agreements or other methods), and use of public funds for speculation. We recommend that the County adopt an investment policy and review compliance with this policy at least annually as required by state statute.

Budgetary Compliance

Chapter 50, RSMo, requires the County to present a complete financial plan for the ensuing budget year by adopting formal budgets for all County funds, ensuring that expenditures are subject to public scrutiny as provided by their inclusion in a budget adopted or amended at a public meeting. The County did not adopt a budget for the ARPA Rescue Fund, which was created during 2021 to account for the funds received from the U.S. Department of the Treasury. Additionally, the County's 2023 annual budget and the published financial statement for 2022 improperly reported the actual 2022 activity of the ARPA Rescue Fund in the CARES Act Fund. We recommend that the County ensure compliance with state statutes by adopting a formal budget for all County funds. Additionally, we recommend the County implement procedures to perform an additional review of the County's prior year actual activity in the budgeting process to ensure all financial activity is correctly presented.

Other Matters

We were engaged to report on the Schedule of Expenditures of Federal Awards, which accompanies the financial statements but is not Required Supplementary Information. With respect to this supplementary information, we made certain inquiries of management and evaluated the form, content, and methods of preparing the information to determine that the information complies with accounting principles prescribed or permitted by Missouri law, the method of preparing it has not changed from the prior period, and the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the supplementary information to the underlying accounting records used to prepare the financial statements or to the financial statements themselves.

Restriction on Use

This information is intended solely for the information and use of the County Commission and management of Monroe County, Missouri and is not intended to be, and should not be, used by anyone other than these specified parties.

Very truly yours,

(Original Signed by McBride, Lock & Associates, LLC)

SCOTT FITZPATRICK
MISSOURI STATE AUDITOR

To the County Commission
and
Officeholders of Polk County, Missouri

The Office of the State Auditor contracted for an audit of Polk County's financial statements for the year ended December 31, 2023, through the state Office of Administration, Division of Purchasing and Materials Management. The audit includes an audit of each county officer in fulfillment of our duties under Section 29.230.1, RSMo. A copy of this audit, performed by McBride, Lock & Associates, LLC, Certified Public Accountants, is attached.

A handwritten signature in black ink that reads "Scott Fitzpatrick". The signature is written in a cursive style with a large, stylized "S" and "F".

Scott Fitzpatrick
State Auditor

February 2025
Report No. 2025-004

Scott Fitzpatrick
Missouri State Auditor

RECOMMENDATION SUMMARY

Recommendations in the contracted audit of Polk County

Investment Policy

The county adopt an investment policy and review compliance with this policy at least annually as required by state statute.

INDEPENDENT AUDITOR'S REPORT

To the County Commission and
Officeholders of Polk County, Missouri

Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying financial statements of Polk County, Missouri, which comprise the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory Basis and the Statement of Fiduciary Receipts, Disbursements and Changes in Cash – Regulatory Basis as of December 31, 2023, and the related Statements of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis for the year then ended, and the related notes to the financial statements.

Unmodified Opinion on Regulatory Basis of Accounting

In our opinion, the financial statements referred to above present fairly, in all material respects, the cash balances of each fund of Polk County, Missouri, as of December 31, 2023, and their respective cash receipts and disbursements, and budgetary results for the year then ended, in accordance with the financial reporting provisions prescribed or permitted by Missouri law as described in Note 1.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles section of our report, the financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of Polk County, Missouri, as of December 31, 2023, or the changes in financial position thereof for the year then ended.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Polk County, Missouri, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note 1, the financial statements are prepared by Polk County, Missouri on the basis of the financial reporting provisions prescribed or permitted by Missouri law, which is a basis of accounting other than accounting principles generally accepted in the United States of America, to meet the requirements of Missouri law. The effects on the financial statements of the variances between the regulatory basis of accounting described in Note 1 and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material and pervasive.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles prescribed or permitted by Missouri law. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Polk County, Missouri's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the

financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Polk County, Missouri's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated January 13, 2025, on our consideration of Polk County, Missouri's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Polk County, Missouri's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Polk County, Missouri's internal control over financial reporting and compliance.

The accompanying Notes to the Financial Statements are an integral part of this statement.

POLK COUNTY, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2023

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Polk County, Missouri (“County”) is governed by a three-member board of commissioners. In addition to the three board members, there are eleven elected Constitutional Officers: Assessor, Circuit Clerk, Collector, Coroner, County Clerk, Prosecuting Attorney, Public Administrator, Recorder, Sheriff, Surveyor, and Treasurer.

As discussed further in Note 1, these financial statements are presented using accounting practices prescribed or permitted by Missouri law, which differ from accounting principles generally accepted in the United States of America, which would include all relevant Governmental Accounting Standards Board (GASB) pronouncements. The differences include use of a prescribed definition of the reporting entity and the cash basis of accounting.

A. Reporting Entity

The County’s operations include tax assessments and collections, state/county courts, county recorder, public safety, economic development, social and human services, and cultural and recreation services.

The financial statements referred to above include the primary government of Polk County, Missouri, which consists of all funds, organizations, institutions, agencies, departments, and offices that are considered to comprise the County’s legal entity under the regulatory basis of accounting. Financial data of other entities that may be considered to be component units of the County under generally accepted accounting principles is not included.

In accordance with the regulatory basis of accounting, the financial statements of the County do not include the activity of the Circuit Court, which is part of the Missouri court system and is considered to be a state function, including the operations of the Circuit Clerk (other than the portion that is funded by the General Revenue Fund) and all funds under their control.

B. Basis of Presentation

Governmental Funds – Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. A fund is considered a separate accounting entity with self-balancing accounts that comprise its assets, liabilities, net assets, revenues/receipts and expenditures/disbursements. The County’s funds are governmental funds. Governmental funds are those through which most governmental functions are financed. The County’s expendable financial resources are accounted for through governmental funds.

Fiduciary Funds – Fiduciary funds consist of custodial funds. Custodial funds account for assets held by the County as an agent of individuals, private organizations, taxing units, other governments and/or funds. Budgets are not adopted for the County’s custodial funds.

C. Basis of Accounting

The financial statements are prepared on the cash basis of accounting; accordingly, amounts are recognized when received or disbursed in cash. This basis of accounting differs from accounting principles generally accepted in the United States of America. Those principles require revenues to be recognized when they become available and measurable or when they are earned, and expenditures or expenses to be recognized when the related liabilities are incurred.

D. Budgets and Budgetary Accounting

The County follows these procedures in establishing the budgetary data reflected in the financial statements:

1. In accordance with Chapter 50, RSMo, the County's policy is to adopt a budget for each governmental fund.
2. On or before the second Monday in January, each elected officer and department director will transmit to the County Commission and County Clerk, who serves as budget officer, the budget request and revenue estimates for their office or department for the budget year.
3. The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning January 1. The proposed budget includes estimated revenues and proposed expenditures, on the cash basis of accounting, for all budgeted funds. Budgeting of appropriations is based upon an estimated fund balance at the beginning of the year as well as estimated revenues to be received.
4. State law requires that, at the individual fund level, budgeted expenditures not exceed budgeted revenues plus anticipated beginning fund balance.
5. A public hearing is conducted to obtain public comment on the budget. Prior to its approval by the County Commission, the budget document is available for public inspection, which usually takes place the third and fourth weeks of January.
6. Prior to February 1, the budget is legally enacted by a vote of the County Commission.
7. Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by a formal vote of the Commission. Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year.
8. Budgets are prepared and adopted on the cash basis of accounting.
9. Adoption of a formal budget is required by law.
10. Section 50.740, RSMo prohibits expenditures in excess of the approved budgets.

- E. Property taxes are based on the voter-approved tax levy applied to the real and personal assessed property values. Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on October 1 and tax bills are mailed to taxpayers in November, at which time they are payable. All unpaid property taxes become delinquent as of January 1 of the following year.

The assessed valuations of the tangible taxable property, included within the County's boundaries for the calendar year 2023, for purposes of taxation were:

Real Estate	\$ 310,997,186
Personal Property	114,169,250
Railroad and Utilities	26,574,581
Total	<u>\$ 451,741,017</u>

For calendar year 2023, the County Commission approved a tax levy per \$100 of assessed valuation of tangible taxable property as follows:

General Revenue	0.2994
Special Road and Bridge	0.2581
Senior Services Board	0.0461
Senate Bill 40 Board	0.0194

F. Cash Deposits and Investments

Deposits and investments are stated at cost, which approximates market. Cash balances for all the County Treasurer funds are pooled and invested to the extent possible. Interest earned from these balances is allocated to each of the funds based on the funds' average daily cash balance. Cash equivalents may include repurchase agreements and any other instruments with an original maturity of ninety days or less. State law authorizes the deposit of funds in banks and trust companies or the investment of funds in bonds or treasury certificates of the United States, other interest bearing obligations guaranteed as to both principal and interest by the United States, or any instrumentality thereof, certain municipal bonds authorized by Missouri statute, or time certificates of deposit. Funds in the form of cash on deposit or time certificates of deposit are required to be insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized by authorized investments held in the County's name at third-party banking institutions. Details of these cash and investment balances are presented in Note 2.

G. Interfund Activity

During the course of operations, interfund activity occurs for purposes of providing supplemental funding, reimbursements for goods provided or services rendered, or short and long-term financing. Interfund activities are reported as "transfers in" by the recipient fund and as "transfers out" by the disbursing fund. However, interfund reimbursements have been eliminated from the financial statements in order that reimbursed expenditures are reported only in the funds incurring the costs.

2. CASH AND INVESTMENTS

The County maintains a cash and temporary investment pool that is available for use by all funds. Each fund's portion of this pool is displayed on the financial statements within the "Cash and Investments" caption. Investments consist of certificates of deposit with original maturities that are greater than ninety days.

Custodial Credit Risk - Deposits – Custodial credit risk is the risk that in the event of a bank failure, a government's deposits may not be returned to it. Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits. At December 31, 2023, the County had the following cash and investment balances:

	Carrying Value	Bank Balance	FDIC Coverage
Cash and Cash Equivalents	\$ 9,180,293	\$ 9,536,646	\$ 8,962,025
Investments	5,070,000	5,070,000	250,000
Total Governmental Funds	<u>\$ 14,250,293</u>	<u>\$ 14,606,646</u>	<u>\$ 9,212,025</u>
Cash and Cash Equivalents - Fiduciary Funds	<u>\$ 21,157,367</u>	<u>\$ 15,792,148</u>	<u>\$ 15,684,819</u>

The remainder of the balances not covered by FDIC deposit insurance at December 31, 2023 were covered by collateral held at the Federal Reserve Bank and the County's safekeeping bank agent in the County's name or by a line of credit held by the County or by its agent in the County's name, except for \$107,329 held by the Public Administrator for one ward in one bank in excess of FDIC coverage.

3. COUNTY EMPLOYEES' RETIREMENT PLANS

A. County Employees' Retirement Fund (CERF)

The County Employees' Retirement Fund was established by the State of Missouri to provide pension benefits for County officials and employees.

1) Plan Description

The Retirement Fund is a cost-sharing multiple employer defined benefit pension plan covering any county elective or appointed officer or employee whose performance requires the actual performance of duties during not less than one thousand (1,000) hours per calendar year in each county of the state, except for any city not within a county and any county of the first classification having a charter form of government. It does not include county prosecuting attorneys covered under Sections 56.800 to 56.840, RSMo, circuit clerks and deputy circuit clerks covered under the Missouri State Retirement System, county sheriffs covered under Sections 57.949 to 57.997, RSMo and certain personnel not defined as an employee per Section 50.1000(8), RSMo. The Fund was created by an act of the legislature and was effective August 28, 1994.

The general administration and the responsibility for the proper operation of the Fund and the investment of the Fund are vested in a board of directors of eleven persons.

2) Pension Benefits

Beginning January 1, 1997, employees attaining the age of sixty-two years may retire with full benefits with eight or more years of creditable service. The monthly benefit for County Employees is determined by selecting the highest benefit calculated using three different prescribed formulas (flat-dollar formula, targeted replacement ratio formula, and prior plan's formula). A death benefit of \$10,000 will be paid to the designated beneficiary of every active member upon his or her death.

Upon termination of employment, any member who is vested is entitled to a deferred annuity, payable at age sixty-two. Early retirement is at age fifty-five. Any member with less than eight years of creditable service forfeits all rights in the Fund but will be paid his or her accumulated contributions.

The County Employees' Retirement Fund issues audited financial statements. Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, 2121 Schotthill Woods Drive, Jefferson City, MO 65101, by calling 1-877-632-2373, or by the following website, www.mocerf.org.

3) Funding Policy

In accordance with State Statutes, the Plan is partially funded through various fees collected by counties and remitted to the CERF. Further, a contribution to CERF of 2% of annual salary is required for eligible employees hired before February 2002, while a contribution of 6% of annual salary is required of employees hired after February 2002. During 2023, the County collected and remitted to CERF employee withholdings and fees collected of \$304,465.

B. Other Retirement Plans

Polk County has voluntary 457 and 401(a) plans administered by Empower Retirement which are paid by deductions from employees' salaries. These contributions qualify under the Internal Revenue Code and are tax exempt. Employee contributions collected and remitted by the County for the year ended December 31, 2023 were \$34,723. Employee contributions collected and remitted by the County for the year ended December 31, 2023 for the 401(a) plan was \$23,165.

C. Prosecuting Attorney Retirement Fund

In accordance with state statute Section 56.807, RSMo, the County contributes monthly to the Missouri Office of Prosecution Services for deposit to the credit of the Missouri Prosecuting Attorneys and Circuit Attorney Retirement System Fund. Once remitted, the State of Missouri is responsible for administration of this plan. The County contributed \$11,628 for the year ended December 31, 2023.

4. POST EMPLOYMENT BENEFITS

The County does not provide post-employment benefits except as mandated by the Consolidated Omnibus Budget Reconciliation Act (COBRA). The requirements established by COBRA are fully funded by employees who elect coverage under the Act, and no direct costs are incurred by the County.

5. CLAIMS, COMMITMENT AND CONTINGENCIES

A. Compensated Absences

The County provides employees with up to four weeks of paid vacation based upon the number of years of continuous service. This ranges from one week after the first year of service, two weeks after two years of service, three weeks after ten years, and four weeks after 20 years. The vacation days accrued in any year must be taken prior to December 31 of the year they were earned. Vacation time not used prior to December 31 will be lost unless prior arrangements were made with the approval of the Elected Official and County Commission. Upon termination of employment from the County, employees will be compensated for any unused, earned vacation provided the employee provides two weeks' written notice and works all scheduled shifts during those two weeks. Upon involuntary termination, employees may not be eligible to receive compensation for any unused, earned vacation time.

Full-time employees begin earning sick time at a rate of four hours per month from the date of hire. While earning sick time from date of hire, employees are only able to use sick time after the successful completion of a 90 day introductory period. Employees may bank a maximum of 240 hours. Sick time carries over from one calendar year to the next. Upon termination of employment from the County, employees will be compensated for half of their unused, earned sick time at their current rate of pay provided the employee provides two weeks' written notice and works all scheduled shifts during those two weeks. Upon involuntary termination, employees may not be eligible to receive compensation for any unused, earned sick time.

B. Federal and State Assisted Programs

The County has received proceeds from several federal and state grants. Periodic audits of these grants, when performed, could result in the disallowance of certain costs. Accordingly, such audits could result in the refund of grant monies to the grantor agencies. Management believes that any required refunds, if determined necessary, will be immaterial and, therefore, no provision has been made in the accompanying financial statements for the potential refund of grant monies.

6. RISK MANAGEMENT

The County is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters, and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

The County is a member of the Missouri Association of Counties Self-Insured Workers' Compensation and Insurance Fund. The County purchases workers' compensation insurance through this Fund, a non-profit corporation established for the purpose of providing insurance coverage for Missouri counties. The Fund is self-insured up to \$2,500,000 per occurrence and is reinsured up to the statutory limit through excess insurance.

7. LONG-TERM DEBT

On June 16, 2014, the County entered into a \$1,400,000 lease purchase agreement with U.S. Bancorp Government Leasing and Finance, Inc. for courthouse improvements, payable in ten annual payments of \$159,446 with a final payment due June 16, 2024. The lease agreement carries an interest rate of 2.411%.

Fiscal Year Ending			
December 31	Principal	Interest	Total
2024	\$ 155,652	\$ 3,794	\$ 159,446

The following schedule shows changes in long-term debt during the year ended December 31, 2023:

Description	Balance 12/31/2022	Additions	Payments	Balance 12/31/2023	Interest Paid
Courthouse Improvements	\$ 307,600	\$ -	\$ (151,948)	\$ 155,652	\$ 7,498

8. SUBSEQUENT EVENTS

The County has evaluated events subsequent to December 31, 2023 to assess the need for potential recognition or disclosure in the financial statements. Such events were evaluated through January 13, 2025, the date the financial statements were available to be issued.

COMPLIANCE SECTION

McBRIDE, LOCK & ASSOCIATES, LLC

CERTIFIED PUBLIC ACCOUNTANTS

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the County Commission and
Officeholders of Polk County, Missouri

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Polk County, Missouri which comprise the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory Basis and the Statement of Fiduciary Receipts, Disbursements and Changes in Cash – Regulatory Basis as of December 31, 2023, and the related Statements of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis for the year then ended, and the related notes to the financial statements, which collectively comprise Polk County, Missouri's basic financial statements and have issued our report thereon dated January 13, 2025.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Polk County, Missouri's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Polk County, Missouri's internal control. Accordingly, we do not express an opinion on the effectiveness of Polk County, Missouri's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements, on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the County's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses, or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether Polk County, Missouri's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

CERTIFIED PUBLIC ACCOUNTANTS

January 13, 2025

To the County Commission
Polk County, Missouri

We have audited the regulatory basis financial statements of Polk County, Missouri for the year ended December 31, 2023. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards (and, if applicable, *Government Auditing Standards* and the Uniform Guidance), as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated May 22, 2024. Professional standards also require that we communicate to you the following information related to our audit.

Significant Audit Matters

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by Polk County, Missouri are described in Note 1 to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during 2023. We noted no transactions entered into by the County during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. Since the County is reporting on the cash basis of accounting, there are no particularly sensitive estimates affecting the financial statements.

The financial statement disclosures are neutral, consistent, and clear.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. There were no misstatements detected during the audit.

Disagreements with Management

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated January 13, 2025.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the County's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the County's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

In planning and performing our audit of the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory Basis, the Statement of Fiduciary Receipts, Disbursements and Changes in Cash – Regulatory Basis, and the related Statements of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis – All Governmental Funds as of and for the year ended December 31, 2023, we considered Polk County's internal control in order to determine our auditing procedures for the purpose of expressing an opinion on the financial statements and not to provide assurance on internal control. We issued our report on our consideration of internal control over financial reporting dated January 13, 2025. However, during our audit we became aware of matters that are opportunities for strengthening internal controls.

Investment Policy

The County has not adopted a formal investment policy as required by state statute. Section 30.950, RSMo, requires political subdivisions with authority to invest in instruments other than depository accounts at financial institutions to adopt a written investment policy that prioritizes safety, liquidity and yield;

prohibits derivatives, leveraging, and speculation with public funds; and requires collateralization of deposits. Adoption of a written investment policy commits a political subdivision to the principles of safety, liquidity, and yield (in that order) when managing public funds and prohibits purchase of derivatives (either directly or through repurchase agreements), use of leveraging (through either reverse repurchase agreements or other methods), and use of public funds of speculation. We recommend the County adopt an investment policy and review compliance with this policy at least annually as required by state statute.

Restriction on Use

This information is intended solely for the information and use of the County Commission and management of Polk County, Missouri and is not intended to be, and should not be, used by anyone other than these specified parties.

Very truly yours,

(Original Signed by McBride, Lock & Associates, LLC)

CITIZENS SUMMARY

Findings in the audit of Benton County

County Financial Controls and Procedures	The County Treasurer does not ensure bank reconciliations are accurately prepared and agree to book balances. The bank reconciliation performed for January 2023 was reviewed, and a significant difference of \$7.4 million was identified between the reconciled bank balance and the book balance. In addition, a review of the bank reconciliations performed for December 2022, November 2023, and December 2023, noted significant differences ranging from \$127,672 to \$586,068 between the reconciled bank balances and the book balances. Neither the County Clerk nor the County Commission adequately review the financial activities of the County Treasurer. The County Treasurer prepares monthly bank reconciliations and monthly settlements and provides them to the County Clerk and County Commission. However, the County Clerk and the County Commission do not review the bank reconciliations and compare them to the monthly settlements. Furthermore, the monthly settlements do not have a documented review. The county has not implemented the recommendation made by the independent auditors who have performed the county's financial statement audits to adequately track cash and fund balances.
Sales Tax Rollback	The county did not sufficiently reduce the property tax levy in its sales tax rollback calculations to offset 50 percent of sales tax money received in 2020 through 2022 by approximately \$200,000. In addition, the county did not properly report the property tax levy reduction to the State Auditor's Office in 2022, did not reduce the tax levy for sales tax collections for 2023, and did not accurately calculate the property tax reduction required for 2024.
Public Administrator's Controls and Procedures	The Public Administrator paid her family's accounting and tax business a total of \$4,075 from the accounts of 38 wards during 2022 and 2023 for tax preparation services. The Public Administrator believes her family's accounting and tax business has the lowest rates in the area for tax preparation services; however, she has no documentation to support her claim. During a review of 25 active cases, chosen judgmentally, with annual settlements due in 2023, the audit found the Public Administrator did not file the annual settlements by the required date for 9 cases tested (36 percent). For 3 of these cases, annual settlements were filed more than 30 days late. One was filed 219 days late, another was filed 211 days late, and the third was filed 85 days late.
Sheriff's Compensation	The County Commission authorized mid-term salary increases totaling \$15,945 to the Sheriff in violation of constitutional provisions.
Sunshine Law	The County Commission did not always comply with the Sunshine Law for open and closed meetings. The County Commission did not document in the open meeting minutes the specific sections of the law allowing the meetings to be closed when voting to go into closed session for 8 of 10 closed meetings. The County Commission discussed some items in closed meetings that were not cited in the open meeting minutes as the reason for closing the meeting. The County Commission discussed some items in closed meetings that were not allowable under the Sunshine Law.

Sales Tax	The county's Road and Bridge department does not charge sales tax on dust control products sold to county residents for gravel roads, and the Sheriff's office does not charge sales tax on electronic cigarettes and nicotine pouches sold to inmates. Pursuant to 12 Code of State Regulations 10-110.955(3)(B), sales by the state of Missouri and its political subdivisions are subject to tax.
County Collector's Controls and Procedures	The county does not report personal commissions received by the County Collector for the collection of city taxes as employee compensation to the Internal Revenue Service. The County Collector paid himself commissions totaling \$7,596 for the collection of city taxes during the fiscal year ended February 29, 2024, outside of the county payroll process. Since the payments for commissions are not processed through the county payroll system, they have not been reported on the employee's W-2 forms, appropriate payroll taxes were not withheld, and the employer's share of payroll taxes was not paid. The County Collector does not prepare a monthly list of liabilities for the tax sale holding account, and consequently, liabilities are not agreed to the reconciled bank balance.
Sheriff's Liabilities	The Sheriff's Deputy Clerk does not prepare a monthly list of liabilities for the general account, and consequently, liabilities are not agreed to the reconciled bank balance. The reconciled bank balance at December 31, 2023, was \$5,886. We identified liabilities consisting of undisbursed fees totaling \$4,214, resulting in \$1,672 in unidentified money in the account.
Senior Citizens' Services Board	The Senior Citizens' Services Board did not enter into written contracts with the not-for-profit (NFP) entities to whom funding was provided.
Electronic Data Security	The County Assessor, County Collector, and Recorder of Deeds have not established adequate password controls to reduce the risk of unauthorized access to computers and data. They also do not have security controls in place to lock computers after a specified number of incorrect logon attempts.
Additional Comments	Because counties are managed by several separately-elected individuals, an audit finding made with respect to one office does not necessarily apply to the operations in another office. The overall rating assigned to the county is intended to reflect the performance of the county as a whole. It does not indicate the performance of any one elected official or county office.

In the areas audited, the overall performance of this entity was **Poor**.*

*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

- Excellent:** The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.
- Good:** The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.
- Fair:** The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.
- Poor:** The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

---	----

SCOTT FITZPATRICK MISSOURI STATE AUDITOR

County Commission
and
Officeholders of Benton County

We have audited certain operations of Benton County in fulfillment of our duties under Section 29.230, RSMo. The scope of our audit included, but was not necessarily limited to, the year ended December 31, 2023. The objectives of our audit were to:

1. Evaluate the county's internal controls over significant management and financial functions.
2. Evaluate the county's compliance with certain legal provisions.
3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.

Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the county; and performing sample testing using haphazard and judgmental selection, as appropriate. The results of our sample testing cannot be projected to the entire populations from which the test items were selected. We obtained an understanding of internal control that is significant to the audit objectives and planned and performed procedures to assess internal control to the extent necessary to address our audit objectives. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted this performance audit in accordance with generally accepted government auditing standards. Those standards require that we plan and perform the audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides a reasonable basis for our findings and conclusions based on our audit objectives.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the county's management and was not subjected to the procedures applied in our audit of the county.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, and (3) the need for improvement in management practices and procedures. The accompanying Management Advisory Report presents our findings arising from our audit of Benton County.

A handwritten signature in black ink, reading "Scott Fitzpatrick". The signature is written in a cursive, flowing style.

Scott Fitzpatrick
State Auditor

Benton County

Management Advisory Report

State Auditor's Findings

1. County Financial Controls and Procedures

The county has not established adequate financial controls and procedures. According to the All Funds Summary section of the 2024 budget, receipts for the county totaled approximately \$16.2 million and disbursements totaled approximately \$14.1 million during the year ended December 31, 2023.

1.1 Bank reconciliations

The County Treasurer does not ensure bank reconciliations are accurately prepared and agree to book balances. This condition is similar to the written findings the county has received from its independent auditors in each of its financial statement audit reports issued since the 2 years ended December 31, 2017, audit performed in 2018 (see section 1.3).

The bank reconciliation performed for January 2023 was reviewed, and a significant difference of \$7.4 million was identified between the reconciled bank balance and the book balance. This difference is 55 percent of the book balance. In addition, we reviewed the bank reconciliations performed for December 2022, November 2023, and December 2023, and noted significant differences ranging from \$127,672 to \$586,068 between the reconciled bank balances and the book balances as follows:

	December 2022	January 2023	November 2023	December 2023
Reconciled bank balance	\$ 12,847,576	20,900,672	13,991,437	13,828,399
Book balance	12,261,508	13,452,538	13,863,765	13,470,294
Overage	\$ 586,068	7,448,134	127,672	358,105

At our request, the County Treasurer was able to identify transfers out he had not included as reconciling items in his bank reconciliations. For example, a transfer out on January 31, 2023, for \$7,397,691 did not clear the bank until February 1, 2023. We adjusted the reconciled bank balances for these transfers; however, differences between the reconciled bank balances and the book balances still remain.

After Adjustments:	December 2022	January 2023	November 2023	December 2023
Reconciled bank balance	\$ 12,374,851	13,502,981	13,991,437	13,550,325
Book balance	12,261,508	13,452,538	13,863,765	13,470,294
Overage	\$ 113,343	50,443	127,672	80,031

The County Treasurer indicated the differences are due to the accounting system not correctly recording receipts, which was noted during the county's financial statement audit for the 2 years ended December 31, 2017. The County Treasurer spoke with the accounting system vendor regarding the differences between reconciled bank and book balances in 2016; however, the vendor did not give the county directions to correct the system errors. The County Treasurer also indicated he has not made correcting journal entries due to complications in determining the correct fund balances. The County

Benton County Management Advisory Report - State Auditor's Findings

Treasurer could not explain why the differences between the reconciled bank balance and the book balance change each month.

Preparing adequate monthly bank reconciliations and maintaining accurate book balances helps ensure receipts and disbursements have been properly handled and recorded, and increases the likelihood errors will be identified and corrected timely.

1.2 Review of activity

Neither the County Clerk nor the County Commission adequately review the financial activities of the County Treasurer. The County Treasurer prepares monthly bank reconciliations and monthly settlements and provides them to the County Clerk and County Commission. However, the County Clerk and the County Commission do not review the bank reconciliations and compare them to the monthly settlements. Furthermore, the monthly settlements do not have a documented review. As a result, there is less assurance the monthly settlements are complete and accurate, and an increased risk of loss, theft, and misuse of money going undetected. The County Clerk and the Presiding Commissioner indicated they did not review the bank reconciliations because they reviewed the monthly settlements and did not understand the need to review and compare both documents.

Section 51.150.1(1), RSMo, requires the County Clerk to keep regular accounts between the County Treasurer and the county. Section 51.150.1(4), RSMo, requires the County Clerk to balance and display the accounts kept by him as often as required by the County Commission. Section 49.260, RSMo, requires the County Commission, or some commissioner thereof, to examine and verify the money on hand up to the day on which the settlement is made. Such procedures are intended to establish checks and balances related to the collection and disbursement of county money.

1.3 Corrective action

The county has not implemented the recommendation made by the independent auditors, who have performed the county's financial statement audits, to adequately track cash and fund balances. This recommendation has been reported by the independent auditors in every audit since the audit of the 2 years ended December 31, 2017, that was performed in 2018. In addition, the county received qualified opinions¹ on its audited financial statements for the years ended December 31, 2020, 2021, and 2022. The county's independent auditors have indicated in each of their *Independent Auditor's Reports* issued for these 3 years, that the county has not adequately tracked cash and fund balances for all county funds and auditors were unable to verify that the beginning and ending bank balances reconciled to cash and fund

¹ A qualified opinion is an audit opinion that indicates an auditor has identified misstatements or omissions in an entity's financial statements that are material but not pervasive to the financial statements.

Benton County Management Advisory Report - State Auditor's Findings

balances at the fund level. In addition, the county's prior independent auditor included a similar finding in its *Independent Auditor's Reports* issued for the 2 years ended December 31, 2017, and for the year ended December 31, 2018. In each of these reports, the county's response indicated the county would correct the issue; however, the finding remained uncorrected as of July 2024.

The independent auditors' findings are similar to section 1.1 of this report. The County Commission, County Clerk, and County Treasurer could not explain why the recommendation to adequately track cash and fund balances has not been implemented.

The failure to timely implement audit recommendations increases the risk of loss, theft, and misuse of money going undetected.

Recommendations

- 1.1 The County Treasurer ensure adequate monthly bank reconciliations are prepared and agreed to book balances that are accurately maintained. The differences identified in the finding should be promptly investigated and resolved.
- 1.2 The County Clerk and County Commission perform documented reviews of bank reconciliations and monthly settlements prepared by the County Treasurer.
- 1.3 The County Commission implement audit recommendations timely.

Auditee's Response

- 1.1 *The County Treasurer indicated at no time was the transaction of \$7.4 million not in a bank account, nor did it miss a day of interest. The County Treasurer's office has made corrections to ensure future bank reconciliations are adequately performed and include all reconciling items.*

In addition, the County Treasurer's office plans to finalize the tracking of the discrepancy that occurred previously due to a software issue and will implement that correction before the end of 2024.

- 1.2 *The County Commission indicated the County Clerk and the County Treasurer complete and balance monthly settlement reports for each fund, reconciling receipts and disbursements. Each fund's month-end total agrees with the County Clerk's Balance Sheet report. Commissioners review this information upon completion, every month at month's end. In addition, bank reconciliation reports will be reviewed by the County Clerk and the County Commission upon receipt from the County Treasurer. The County Commission will ensure all reviews are documented and copies will be kept in the County Clerk's office.*

Benton County Management Advisory Report - State Auditor's Findings

- 1.3 *The County Commission agrees to implement audit recommendations timely and has begun the process to contract with a CPA firm to review the bank reconciliation issue in an effort to resolve these issues.*

2. Sales Tax Rollback

The county did not sufficiently reduce the property tax levy in its sales tax rollback calculations to offset 50 percent of sales tax money received in 2020 through 2022 by approximately \$200,000. In addition, the county did not properly report the property tax levy reduction to the State Auditor's Office (SAO) in 2022, did not reduce the tax levy for sales tax collections for 2023, and did not accurately calculate the property tax reduction required for 2024.

Section 67.505, RSMo, requires the county to reduce property taxes based on the percentage of sales taxes collected. Benton County voters enacted a 1/2 of 1 percent general sales tax with a provision to reduce property taxes by 50 percent of sales taxes collected. The county is required to estimate the annual property tax levy to meet the 50 percent reduction requirement based on estimated sales tax collections of the current year, and in the following year calculate any excess property taxes collected based upon actual sales taxes collected. Any excess should be included as an adjustment in the next year's property tax levy calculation to ensure property taxes are reduced in the subsequent year by the amount of the excess calculation.

For 2022, the county incorrectly reported the sales tax reduction as a voluntary reduction instead of as a sales tax reduction. The county is required to certify to the SAO the annual property tax levy including the amount the levy is reduced for sales tax collections, as well as any voluntary reductions. Section 137.073.5(4), RSMo, provides that a voluntary reduction taken in a non-reassessment year (even year) results in a reduced tax rate ceiling during the subsequent reassessment year (odd year). As a result, the tax rate ceiling for the county's General Revenue Fund was reduced by this amount for 2023. For 2023, due to the decreased tax ceiling, the county did not include a sales tax reduction when setting the tax rate, although including sales tax reductions is required each year. The Presiding Commissioner, County Clerk, and County Treasurer indicated the property tax rate assessed in 2020 through 2022 was higher than allowed because the county is conservative and wanted to ensure enough property tax money was available to fund county programs and services. However, this was not allowed by law.

Section 137.073.6(3), RSMo, allows the county to submit amended tax rate forms to the SAO if clerical errors occurred; however, the county did not identify the error in reporting the voluntary reduction in 2022 or contact the SAO. The county, upon realization of the error, held a public hearing in August 2024 and adopted a resolution to increase its previously reduced tax rate ceiling as allowed by Section 137.073.5(4), RSMo.

Benton County
Management Advisory Report - State Auditor's Findings

Despite this attempt to correct the tax rate ceiling, the county did not accurately calculate the property tax reduction required for 2024. The county used the reinstated ceiling in performing its 2024 sales tax reduction calculation and when setting the county's property tax levy for 2024; however, the county did not calculate and include the adjustment required for sales tax reductions not taken in 2020 through 2023.

To ensure property tax levies are properly set and property tax rate ceilings are maintained, property tax levy reductions must be accurately calculated, reported, and certified.

Recommendation

The County Commission and County Clerk properly calculate property tax rate reductions including the adjustment required for sales tax reductions not taken in prior years, accurately report property tax rate reductions (sales tax or voluntary), and develop a plan to correct for the accumulation of prior years' over collections of property taxes. During the tax rate setting process, the County Commission and County Clerk should ensure tax information reported back to the county in the State Auditor's Office certification letter is consistent with expectations and, if not, promptly follow up on any discrepancies.

Auditee's Response

The county did not rollback the property tax rate sufficiently due to the extreme uncertainty related to the COVID-19 pandemic. We were concerned that we might have to lay off employees due to the revenue loss from local business entities struggling to survive. The County Commissioners, County Clerk, and County Treasurer met continuously during this period to ensure normal services for county taxpayers were maintained and made the decisions we felt were necessary to permit the county to survive the effects of the pandemic and to provide needed services.

The county recognizes the need for adjustment of property tax rates required for sales tax revenues, and adjustments were made in 2024 which resulted in a decrease in the tax levy for that purpose. Adjustments will continue in future years in order to comply with the rollback requirements.

Auditor's Comment

The County Commission does not have the legal authority to assess and collect more property taxes than allowed by state law. Benton County voters enacted a 1/2 of 1 percent general sales tax with a provision to reduce property taxes by 50 percent of sales taxes collected. Consequently, the County Commission must follow the requirements of Section 67.505, RSMo, to ensure the taxpayers are taxed properly, even during periods of economic uncertainty.

Benton County
Management Advisory Report - State Auditor's Findings

3. Public Administrator's Controls and Procedures

3.1 Related party transactions

Controls and procedures in the Public Administrator's office need improvement. The Public Administrator is the court-appointed personal representative for wards and decedent estates of the Circuit Court, Probate Division (court). The Public Administrator's office was responsible for the financial activity of 65 wards and estates with assets totaling approximately \$1.1 million as of December 31, 2023.

The Public Administrator paid her family's accounting and tax business a total of \$4,075 from the accounts of 38 wards during 2022 and 2023 for tax preparation services. The Public Administrator paid her family's accounting and tax business \$2,300 during 2023 from 33 wards' accounts and \$1,775 during 2022 from 32 wards' accounts for these services. The Public Administrator believes her family's accounting and tax business has the lowest rates in the area for tax preparation services; however, she has no documentation to support her claim. In addition, the Public Administrator has not submitted Requests for Compensation for Services Provided forms for tax preparation services to the court for the judge's approval since 2017, as agreed to in an approval letter signed by a former Associate Circuit Judge.

The Public Administrator has a fiduciary responsibility to protect wards' personal assets and bank accounts, and make decisions for the benefit of her wards. The appearance of conflicts of interest creates a situation that could prevent the Public Administrator from objectively performing her duties. To avoid conflicts of interest or the appearance of conflicts of interest, the Public Administrator needs to consult the Circuit Judge, Probate Division when she is planning to have her family's business provide services to wards for compensation. In addition, it is essential that documentation, including proposed fee amounts, be maintained of the consideration of vendors other than her family's business for these services.

3.2 Annual settlements

The Public Administrator does not always file annual settlements timely. In addition, the court did not have procedures to notify the Public Administrator of annual settlements due.

During our review of 25 active cases, chosen judgmentally, with annual settlements due in 2023, we found the Public Administrator did not file the annual settlements by the required date for 9 cases tested (36 percent). For 3 of these cases, annual settlements were filed more than 30 days late. One was filed 219 days late, another was filed 211 days late, and the third was filed 85 days late. The Public Administrator indicated she believed she had been filing annual settlements by the due date. The Public Administrator also indicated she prioritizes which job duties to perform first and filing annual settlements is not her first priority.

The court does not timely notify the Public Administrator prior to the filing deadline for the annual settlements or follow up on settlements not filed by

Benton County Management Advisory Report - State Auditor's Findings

the required date. For 8 of the 9 cases for which annual settlements had been filed late, the court did not send a notice of the late filing. The Probate Clerk indicated the court's notification system had incorrect due dates for the cases tested.

Sections 473.540 and 475.270, RSMo, require the Public Administrator to file an annual settlement with the court for each ward or estate. Timely filing of annual settlements is necessary for the court to properly oversee the administration of cases and reduce the possibility that errors, loss, theft, or misuse of funds will go undetected. In addition, Sections 473.557 and 475.280, RSMo, require the clerk of the court to notify the conservator or guardian (Public Administrator) of the deadline for the annual settlement. Failure to receive the notice does not excuse the conservator or guardian from filing the settlements as required by law.

Similar conditions
previously reported

Similar conditions to sections 3.1 and 3.2 were noted in our prior audit report of the Public Administrator's office, *Benton County Public Administrator*, Report No. 2017-022, issued in April 2017, and a condition similar to section 3.2 was noted in a prior audit report of the county, *Benton County*, Report No. 2012-118, issued in October 2012. Report No. 2017-139, *Follow-up Report on Audit Findings, Benton County Public Administrator*, issued in November 2017, reported the statuses, at that time, as implemented.

Recommendations

The Public Administrator:

- 3.1 Avoid the appearance of conflicts of interest that could prevent her from objectively performing her duties. The Public Administrator should also ensure documentation is maintained of the consideration of vendors other than family members for services provided to wards.
- 3.2 File annual settlements timely.

Auditee's Response

- 3.1 *The Public Administrator will meet with Circuit Judge to get an updated letter of approval prior to the 2024 tax year returns.*
- 3.2 *The Public Administrator will check the annual filing dates and ensure annual settlements are filed timely.*

4. Sheriff's Compensation

The County Commission authorized mid-term salary increases totaling \$15,945 to the Sheriff in violation of constitutional provisions. The Sheriff was re-elected in 2020 at the salary level approved by the Benton County Salary Commission.

Section 57.317.1(2), RSMo, enacted in 2021, states the Sheriff shall receive an annual salary computed based on a percentage of the compensation of an associate circuit judge of the county, with the percentage determined by a

Benton County Management Advisory Report - State Auditor's Findings

statutory schedule using the county's current assessed valuation level. The law indicates if the increase to the Sheriff's salary is less than \$10,000, the increase shall take effect January 1, 2022, but if the salary increase is more than \$10,000, the increase shall be paid equally over a 5-year period. However, Article VII, Section 13, of the Missouri Constitution prohibits an increase in compensation for state, county, and municipal officers during the term of office. Court cases have concluded that to receive additional compensation during a term of office there must be: (1) no existing compensation for the office; (2) new or additional duties extrinsic or not germane to the office; or (3) the mid-term increase must result from the application of a statutory formula for calculating compensation that was in place prior to the individual being elected or taking office. None of those circumstances exist; therefore, the increase to the Sheriff's salary should be effective only for any Sheriff elected and sworn into office after the new salary schedule was authorized.

The County Commission implemented the raise on July 1, 2022. The County Clerk indicated the county did not implement the raise until that time because that is the date the new fiscal year began for associate circuit judges, upon which the Sheriff's salary is based. The total increase was calculated at \$20,610, to be paid over a 5-year period with an annual increase of \$4,122. The County Commission authorized additional salary increases in July 2023, and July 2024 based on increases given to associate circuit judges. As of July 2024, the Sheriff received salary increases totaling \$15,945 during his term. The County Clerk and County Commission indicated they believed what they did complied with state law and had not considered constitutional implications.

Recommendation

The County Commission discontinue the mid-term salary increases and consider various methods for possible recoupment of money already paid.

Auditee's Response

The County Commission respectfully disagrees with the State Auditor's finding and notes that no court decision has addressed the constitutional issue raised in the finding regarding the application and interpretation of Section 57.317.1(2). However, the County Commission will take this recommendation under advisement and determine the best course of action.

Auditor's Comment

"The compensation of state, county and municipal officers shall not be increased during the term of office" per Article VII, Section 13, Missouri Constitution. The County Commission has not offered any authority to conclude the constitutional barrier to mid-term compensation increases contained in Article VII, Section 13 of the Missouri Constitution is not applicable to county sheriffs. In multiple cases, the Supreme Court of Missouri has addressed the constitutional prohibition on mid-term increases. See e.g., *State ex rel. George v. Verkamp*, 365 S.W.3d 598 (Mo. banc. 2012);

Benton County
Management Advisory Report - State Auditor's Findings

Laclede County v. Douglass, 43 S.W.3d 826 (Mo. 2001); and *Mooney v. County of St. Louis*, 286 S.W.2d 763 (Mo. 1956).

5. Sunshine Law

The County Commission did not always comply with the Sunshine Law for open and closed meetings. We identified the following concerns for the meetings held from January 1, 2023, through July 18, 2024.

- The County Commission did not document in the open meeting minutes the specific sections of the law allowing the meetings to be closed when voting to go into closed session for 8 of 10 closed meetings. For 3 of these 8 closed meetings no reason was given for the closure of the meeting. The County Clerk indicated she was not aware the specific subsection of law had to be cited in the open minutes and it is hard for her to determine the reason for going into closed session.
- The County Commission discussed some items in closed meetings that were not cited in the open meeting minutes as the reason for closing the meeting. For example, the February 13, 2023, open meeting minutes indicated a closed meeting would be held to discuss "specifications for competitive bidding. . . and sealed bids and related documents." However, the closed meeting minutes documented discussion regarding courthouse security, but did not document discussion of specifications for competitive bidding or sealed bids and related documents. The County Clerk indicated it is sometimes difficult for her to determine the reason for going into a closed meeting.
- The County Commission discussed some items in closed meetings that were not allowable under the Sunshine Law. For example, the County Commission discussed increasing the Assistant Prosecutor's salary, information received about the Local Government Employees Retirement System, and road repairs. The Presiding Commissioner indicated he did not want these discussions to be public knowledge and believed these topics were allowed to be closed under the Sunshine Law. The Sunshine Law limits discussions to specific topics and those topics do not include employee compensation and retirement systems or planned road work.

Section 610.022, RSMo, requires public bodies to announce the specific reasons allowed by law for going into a closed meeting and to enter the vote and reasons into the minutes, and also limits discussion topics and actions in closed meetings to only those specifically announced prior to closure. Section 610.021, RSMo, provides that the discussion topics and actions in closed meetings should be limited to only those specifically allowed by law.

Recommendation

The County Commission ensure the specific reasons for closing meetings are documented in the open minutes, only topics allowed by state law are

Benton County
Management Advisory Report - State Auditor's Findings

discussed in closed meetings, and discussions are limited to the specific reasons cited for closing the meetings.

Auditee's Response

The County Commission will ensure the specific reasons for closing meetings are documented in the open meeting minutes, only topics allowed by state law are discussed in closed meetings, and discussions are limited to the specific reasons for closing the meetings.

6. Sales Tax

The county's Road and Bridge department does not charge sales tax on dust control products sold to county residents for gravel roads, and the Sheriff's office does not charge sales tax on electronic cigarettes and nicotine pouches sold to inmates. No sales tax is remitted by the county to the Department of Revenue (DOR). The County Clerk indicated she was not aware sales tax needed to be charged and collected on sales of dust control products. The Sheriff indicated discussions with other sheriffs and also the Assistant Prosecuting Attorney indicated collection of sales tax was not necessary. However, a written legal opinion was not obtained.

Pursuant to 12 Code of State Regulations (CSR) 10-110.955(3)(B), sales by the state of Missouri and its political subdivisions are subject to tax. Section 144.080, RSMo, requires sales tax collections be remitted to the DOR on a monthly, quarterly, or annual basis, depending on the amounts collected. Therefore, the Road and Bridge department and the Sheriff's office should be charging and collecting sales tax and remitting tax collections to the DOR.

Recommendation

The Road and Bridge department and the Sheriff contact the DOR for guidance on establishing procedures for charging and collecting sales tax, and ensure sales tax collections are remitted to DOR.

Auditee's Response

The County Commission provided the following response:

The Road and Bridge department will no longer offer dust control products to home owners so no tax liability will be incurred.

The Sheriff provided the following response:

I agree that the county should be collecting sales tax on products they are selling to the public such as dust control products and plat maps. The key is selling to the public. The products we offer are to incarcerated people who are not free. The public has no ability to walk in and purchase products. We are a tax exempt, not-for-profit organization and the monies collected are used to benefit those same incarcerated people saving our public their tax dollars. I revisited the email I sent with the case the assistant prosecutor sent out for an example. The legal opinion is still attached to the previous email sent on July 8, 2024.

Benton County
Management Advisory Report - State Auditor's Findings

I intend to follow up with a tax attorney for another legal opinion. The Benton County Sheriff's Office has no intention of conducting business in an unlawful capacity and always intends to be an exemplary example of professionalism. At the same time, we do not want to add more cost to our detainees who often receive products at no cost due to being indigent.

Auditor's Comment

The Sheriff's response refers to a legal opinion his office obtained from the Benton County Assistant Prosecuting Attorney in July 2024 to support his disagreement with our finding. The legal opinion refers to a Supreme Court of Missouri case, *St. John's Medical Center, Inc. v. Missouri Director of Revenue*, 510 S.W.2d 417 (Mo. 1974). In that case, 4 hospitals organized as not-for-profit (NFP) were found to be exempt from collecting and remitting sales tax to the DOR in part because of their NFP status. The Sheriff indicates in his response that his office is a NFP, and therefore, his office is similarly exempt; however, it is not. The Sheriff's office is part of a Missouri political subdivision and the sales tax exemption for NFPs does not apply to the Sheriff's office. As noted in the finding, pursuant to 12 CSR 10-110.955(3)(B), sales by the state of Missouri and its political subdivisions are subject to tax.

7. County Collector's Controls and Procedures

Controls and procedures in the County Collector's office need improvement. The County Collector's office collected approximately \$21 million in property taxes and other receipts during the year ended February 29, 2024.

7.1 City commissions

The county does not report personal commissions received by the County Collector for the collection of city taxes as employee compensation to the Internal Revenue Service (IRS). The County Collector has written agreements with 4 cities for property tax collection services that provide for him to withhold and personally retain a commission on all city tax collections. The commission varies depending on the city and if the taxes collected are current or delinquent. The County Collector paid himself commissions totaling \$7,596 for the collection of city taxes during the fiscal year ended February 29, 2024, outside of the county payroll process. The County Clerk indicated she will not include the city commissions in county payroll because the compensation comes from the cities and not the county.

Since the payments for commissions are not processed through the county payroll system, they have not been reported on the employee's W-2 forms, appropriate payroll taxes were not withheld, and the employer's share of payroll taxes was not paid. IRS regulations require individuals treated as employees to have all compensation reported on W-2 forms. To ensure all compensation is properly reported and taxed, all compensation needs to be paid through the normal county payroll process. The failure to properly report

Benton County Management Advisory Report - State Auditor's Findings

and tax all wages could result in penalty and interest charges assessed against the county.

7.2 Liabilities

The County Collector does not prepare a monthly list of liabilities for the tax sale holding account, and consequently, liabilities are not agreed to the reconciled bank balance. The reconciled bank balance as of February 29, 2024, was \$3,537. The County Collector provided us a list of liabilities for Collector's deed recording fees as of July 2, 2024, totaling \$3,105, and a report of recording fees refunded from March 1 through July 1, 2024, totaling \$432. Therefore, we were able to determine liabilities at February 29, 2024, totaled \$3,537, which agrees to the reconciled balance. The County Collector indicated he did not understand the importance of preparing and agreeing a monthly list of liabilities to the reconcile bank balance.

Monthly lists of liabilities that are agreed to the reconciled bank balance are necessary to ensure records are in balance, errors are detected and corrected timely, and sufficient cash is available for the payment of all liabilities. Prompt follow up on discrepancies is necessary to resolve errors and ensure money is properly disbursed.

Recommendations

The County Collector:

- 7.1 Work with the County Commission and County Clerk to ensure all compensation is paid through the county's normal payroll process, properly taxed, and reported to the IRS as employee compensation.
- 7.2 Prepare monthly lists of liabilities and reconcile the lists to the available cash balances. Any differences should be promptly investigated and resolved.

Auditee's Response

- 7.1 *The County Collector will talk to some other counties who run their commissions through payroll to see how they process the commissions. The County Collector will then work with the County Clerk to develop a plan to implement the recommendation.*
- 7.2 *The County Collector will develop a way to identify all of the recording fees that we are holding so we have an accurate list of all liabilities. We will print and retain the listing and will investigate and resolve any differences between the listing and the reconciled bank balance.*

8. Sheriff's Liabilities

The Sheriff's Deputy Clerk does not prepare a monthly list of liabilities for the general account, and consequently, liabilities are not agreed to the reconciled bank balance. The reconciled bank balance at December 31, 2023, was \$5,886. We identified liabilities consisting of undisbursed fees totaling \$4,214, resulting in \$1,672 in unidentified money in the account. The Deputy

Benton County Management Advisory Report - State Auditor's Findings

Clerk indicated she did not understand the importance of preparing and agreeing a monthly list of liabilities to the reconciled bank balance.

Monthly lists of liabilities that are agreed to the reconciled bank balance are necessary to ensure records are in balance, errors are detected and corrected timely, and sufficient cash is available for the payment of all liabilities. Prompt follow up on discrepancies is necessary to resolve errors and ensure money is properly disbursed.

A similar condition regarding the Sheriff's liabilities was noted in our 3 prior audit reports.

Recommendation

The Sheriff prepare monthly lists of liabilities and reconcile the lists to the available cash balances. Any differences should be promptly investigated and resolved.

Auditee's Response

The Sheriff provided the following response:

We stand by our previous explanation. We maintain a monthly spreadsheet listing all incoming receipts and any third-party payments paid out. We are a 24/7/365 agency. Our liabilities consist of bond payments that are collected and then paid to various courts; and refunds to attorneys, or private citizens, if the civil paper service mileage is less than their original \$20.00 mileage deposit. With this being said, we cannot predict when a refund or bond may come in. For example, we close our month by making a deposit on the last working day of that month. After the deposit is made, there may still be civil papers served in the late afternoon or evening, which results in a refund to the attorney or private citizen. These would technically be a liability; however, we would not receive the return paperwork until the new month, and had no way of knowing that a refund would need to be issued until we received the papers. The same can happen with a detainee being brought in and then bonding out after the end of month deposit was made. All other money received is forwarded to the County Treasurer each month. So basically, to sum it up, every dollar brought in is receipted and logged; every payment going out is accounted for as well. It all boils down to the timing.

Auditor's Comment

The Sheriff's response indicates his disagreement with the finding because he believes all receipt and disbursement activity is documented and accounted for. However, the monthly spreadsheet the Sheriff references does not include a list of liabilities that can be agreed to the available cash balance. As a result, errors cannot be detected and corrected timely, and sufficient cash may not be available for the payment of all liabilities.

9. Senior Citizens' Services Board

The Senior Citizens' Services Board (SCSB) did not enter into written contracts with the not-for-profit (NFP) entities to whom funding was provided. The SCSB disbursed approximately \$122,000 to 4 NFP entities

Benton County
Management Advisory Report - State Auditor's Findings

during the year ended December 31, 2023. The SCSB Board President indicated the SCSB has not entered into written contracts because the SCSB obtains budgets and year-end settlement reports from the NFP entities. Funding amounts and budgets are approved at SCSB meetings for each NFP entity prior to making any payments.

Section 432.070, RSMo, requires government contracts to be in writing. Written agreements are necessary to ensure all parties are aware of their duties and responsibilities.

Recommendation

The Senior Citizens' Services Board enter into written agreements as required by state law.

Auditee's Response

Moving forward, the Board will comply with the auditor's recommendation to enter into written agreements as required by state law.

10. Electronic Data Security

Controls over county computers are not sufficient. As a result, county records are not adequately protected and are susceptible to unauthorized access or loss of data.

10.1 Passwords

The County Assessor, County Collector, and Recorder of Deeds have not established adequate password controls to reduce the risk of unauthorized access to computers and data. Employees in these offices are not required to change passwords regularly and are not required to have a minimum number of characters for each password. The County Assessor indicated his office does not have password controls because the county's information technology (IT) vendor does not require them. The County Collector indicated he does not have password controls because he did not think they were necessary. The Recorder of Deeds indicated that she does not have password controls because her recording system vendor does not require them.

Passwords are necessary to authenticate access to computers. However, since passwords are not periodically changed or required to contain a minimum number of characters, there is less assurance they are effectively limiting access to computers and data files to only those individuals who need access to perform their job responsibilities.

10.2 Security controls

The County Assessor, County Collector, and Recorder of Deeds do not have security controls in place to lock computers after a specified number of incorrect logon attempts. The County Assessor indicated the computers in his office do not have this control in place because the county's IT vendor does not require it. The County Collector indicated the computers in his office do not have this control in place because he did not think it was necessary. The Recorder of Deeds indicated she did not implement this control because her recording system vendor does not require it.

Benton County
Management Advisory Report - State Auditor's Findings

Logon attempt controls lock the capability to access a computer after a specified number of consecutive invalid logon attempts and are necessary to prevent unauthorized individuals from continually attempting to logon to a computer by guessing passwords. Without effective security controls, there is an increased risk of unauthorized access to computers and the unauthorized use, modification, or destruction of data.

Recommendations

The County Commission work with other county officials to:

- 10.1 Require each employee to use a password with a minimum number of characters that is periodically changed.
- 10.2 Require county computers to have security controls in place to lock each computer after a specified number of incorrect logon attempts.

Auditee's Response

The County Commission will work with the officeholders to implement the recommendations.

Benton County

Organization and Statistical Information

Benton County is a county-organized, third-class county. The county seat is Warsaw. The county's population was 19,394 in 2020, according to the U.S. Census Bureau.

Benton County's government is composed of a three-member county commission and separate elected officials performing various tasks. All elected officials serve 4-year terms. The county commission has mainly administrative duties in setting tax levies, appropriating county funds, appointing board members and trustees of special services, accounting for county property, maintaining county roads and bridges, and performing miscellaneous duties not handled by other county officials. Principal functions of these other officials relate to law enforcement, property assessment, property tax collections, conduct of elections, and maintenance of financial and other records important to the county's citizens. In addition to elected officials, the county employed 92 full-time employees and 11 part-time employees on December 31, 2023.

County operations also include the Senior Citizens' Services Board.

Elected Officials

The elected officials and their compensation paid for the year ended December 31 (except as noted) are indicated below:

Officeholder	2024	2023
Steve Daleske, Presiding Commissioner	\$	45,479
D. Scott Harms, Associate Commissioner		42,941
Larry G. Berry, Associate Commissioner		42,941
Carla J. Brown, Recorder of Deeds		64,391
Susan Porterfield, County Clerk		64,391
Rod Richardson, Prosecuting Attorney		154,245
Eric Knox, Sheriff		71,578
Rick Renno, County Treasurer		64,391
J. Weston Miller, County Coroner		23,620
Lori Schroder, Public Administrator		64,391
David Brodersen, County Collector (1), year ended February 29,	72,731	
James H. Hansen II, County Assessor, year ended August 31,		64,391
Jesse Wininger, County Surveyor (2)		

(1) Includes \$7,596 of commissions earned for collecting city property taxes.

(2) Compensation on a fee basis.

Scott Fitzpatrick

Missouri State Auditor

Missouri State Highway Patrol's
Use of Highway Funds

Year Ended June 30, 2024

Report No. 2025-002

January 2025

auditor.mo.gov

CITIZENS SUMMARY

Findings in the audit of Missouri State Highway Patrol's Use of Highway Funds

Background	Missouri state law requires the Missouri State Auditor to examine whether State Highways and Transportation Fund appropriations to the Missouri State Highway Patrol (MSHP) are used in accordance with the Missouri Constitution, which limits the use of these funds to activities related to administering and enforcing state motor vehicle laws or traffic regulations.
Methodology	Audit staff reviewed and evaluated the methodology used by the MSHP to calculate the amounts expended from the State Highway Fund for non-highway activities and the amounts expended by the MSHP for highway-related activities from other funding sources. We also compared the various fund and appropriation subtotals used in the MSHP calculations to expenditures recorded in the state accounting system (SAM II), and we reviewed MSHP documentation on academy classes and crime laboratory cases supporting the MSHP calculations related to the appropriations for the training academy and crime laboratories. In addition, we obtained and analyzed other expenditure-related data from the MSHP and tested a judgmentally selected sample of expenditures to determine if the expenditures were properly recorded.
Conclusions	The audit determined the Missouri State Highway Patrol complied with legal provisions related to the use of highway funding for the 2024 fiscal year.

Because of the limited objective of this review, no overall rating is provided.

Background, Methodology, and Conclusions	3
---	---

SCOTT FITZPATRICK
MISSOURI STATE AUDITOR

Honorable Mike Kehoe, Governor
and
Members of the General Assembly
and
Mark S. James, Acting Director
Department of Public Safety
and
Colonel Eric T. Olson, Superintendent
Missouri State Highway Patrol
Jefferson City, Missouri

We have audited the Department of Public Safety, Missouri State Highway Patrol's Use of Highway Funds, as required by Section 226.200.3, RSMo. The scope of our audit included, but was not necessarily limited to, the year ended June 30, 2024. The objective of our audit was to determine whether the agency is in compliance with Section 226.200.3, RSMo, related to the use of highway funds.

We conducted this performance audit in accordance with generally accepted government auditing standards. Those standards require that we plan and perform the audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objective. We believe that the evidence obtained provides a reasonable basis for our findings and conclusions based on our audit objective.

The Background, Methodology, and Conclusions present our comments concerning the overall compliance related to the Department of Public Safety, Missouri State Highway Patrol's Use of Highway Funds.

A handwritten signature in black ink that reads "Scott Fitzpatrick". The signature is stylized, with the first letters of the first and last names being capitalized and prominent.

Scott Fitzpatrick
State Auditor

Missouri State Highway Patrol's Use of Highway Funds

Background, Methodology, and Conclusions

Background

The State Auditor is required to determine whether appropriations from the State Highways and Transportation Fund (State Highway Fund) to the Missouri State Highway Patrol (MSHP) are used for administering and enforcing state motor vehicle laws and traffic regulations pursuant to the constitution.

Limitations and requirements Article IV, Section 30(b), Missouri Constitution, limits the MSHP's use of highway funds to activities related to administering and enforcing state motor vehicle laws or traffic regulations. In addition, Section 226.200.3, RSMo, provides, in part:

" . . . Appropriations allocated from the state highways and transportation department fund to the highway patrol shall only be used by the highway patrol to administer and enforce state motor vehicle laws or traffic regulations. Beginning July 1, 2007, any activities or functions conducted by the highway patrol not related to enforcing or administering state motor vehicle laws or traffic regulations shall not be funded by the state highways and transportation department fund, but shall be funded from general revenue or any other applicable source. Any current funding from the highways and transportation department fund used for activities not related to enforcing state motor vehicle laws or traffic regulations shall expire on June 30, 2007. The state auditor shall annually audit and examine the appropriations made to the highway patrol to determine whether such appropriations are actually being used for administering and enforcing state motor vehicle laws and traffic regulations pursuant to the constitution. The state auditor shall submit its annual findings to the general assembly by January fifteenth of each year."

Missouri State Highway Patrol's Use of Highway Funds Background, Methodology, and Conclusions

During the year ended June 30, 2024, the MSHP used appropriations from the State Highway Fund as follows:

	Appropriation Authority	Expenditures	Lapsed Balances ¹
Enforcement personal service	\$ 95,463,383	82,346,255	13,117,128
Enforcement expense and equipment	7,102,938	6,868,473	234,465
Technical services personal service	20,045,197	17,739,360	2,305,837
Technical services expense and equipment	27,922,596	26,819,653	1,102,943
Vehicle and driver safety personal service	14,224,146	12,425,587	1,798,559
Vehicle and driver safety expense and equipment	1,092,828	921,518	171,310
Refund unused motor vehicle inspection stickers	100,000	41,750	58,250
Administration personal service	9,328,202	8,274,139	1,054,063
Administration expense and equipment	623,055	597,920	25,135
Crime laboratories personal service	4,974,864	4,825,468	149,396
Crime laboratories expense and equipment	1,297,802	1,256,845	40,957
Law Enforcement Academy personal service	2,048,458	1,889,052	159,406
Law Enforcement Academy expense and equipment	503,864	481,965	21,899
Fringe benefits personal service	103,873,902	90,196,465	13,677,437
Fringe benefits expense and equipment	8,533,184	7,864,073	669,111
Vehicle replacement expense and equipment	6,717,615	6,509,670	207,945
Gasoline expenses	7,027,500	4,189,112	2,838,388
Interoperable system highway	5,612,926	5,441,262	171,664
Interoperable ongoing highway	4,300,000	4,052,107	247,893
Total	\$ 320,792,460	282,740,674	38,051,786

¹ The lapsed balances include withholdings made at the Governor's request totaling \$6,248,561.

Methodology

To determine whether the MSHP complied with the limitations on the use of highway funds in Section 226.200.3, RSMo, we obtained an understanding of internal control that is significant to the audit objective and planned and performed procedures to assess internal control to the extent necessary to address our audit objective. We also obtained an understanding of legal provisions that are significant within the context of the audit objective, and we assessed the risk that illegal acts, including fraud, and violations of other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions. We reviewed and evaluated the methodology used by the MSHP to calculate the amounts expended from the State Highway Fund for non-highway activities and the amounts expended by the MSHP for highway-related activities from other funding sources. We also compared the various fund and appropriation subtotals used in the MSHP calculations to expenditures recorded in the state accounting

Missouri State Highway Patrol's Use of Highway Funds Background, Methodology, and Conclusions

system (SAM II), and we reviewed MSHP documentation on academy classes and crime laboratory cases supporting the MSHP calculations related to the appropriations for the training academy and crime laboratories. In addition, we obtained and analyzed other expenditure-related data from the MSHP and tested a judgmentally selected sample of expenditures to determine if the expenditures were properly recorded. The results of our sample testing cannot be projected to the entire population from which the test items were selected.

Conclusions

We conclude the MSHP was in compliance with Section 226.200.3, RSMo, related to the use of highway funds for the year ended June 30, 2024. During fiscal year 2024, the MSHP spent approximately \$3,404,000 appropriated from the State Highway Fund for expenditures not related to highway activities. This amount included non-highway personal service expenditures made from the State Highway Fund from appropriations for administration, crime laboratories, and fringe benefits; and expense and equipment expenditures from appropriations for administration, gasoline, and fringe benefits. However, these expenditures were more than offset by personal service and/or expense and equipment expenditures totaling approximately \$4,244,000 from appropriations for crime laboratories, training academy, and technical services that were related to highway activities, but not paid from the State Highway Fund. As a result, approximately \$840,000 more was spent on highway-related activities than was paid from highway funds during fiscal year 2024.

City of St. Louis

Office of the Circuit Attorney

Report No. 2025-001

January 2025

auditor.mo.gov

CITIZENS SUMMARY

Findings in the audit of the City of St. Louis - Office of the Circuit Attorney

Background

In January 2018, the City of St. Louis Board of Aldermen requested the State Auditor's Office (SAO) conduct a comprehensive audit of the city. Pursuant to that request, the audit of the Circuit Attorney's office (CAO) began on June 23, 2021. The Office of the Circuit Attorney is an elective office for the City of St. Louis.

From the beginning of the audit, the SAO met resistance from former Circuit Attorney Kim Gardner (FCA), who acted to prevent the SAO from conducting the audit. The FCA required all SAO requests for records be made to the First Assistant Circuit Attorney (FACA) who, along with other office representatives, repeatedly ignored or delayed responding to SAO requests for the next 2 years and only responded after being subpoenaed. The CAO also provided limited information, denied onsite access needed to conduct interviews and perform audit work, and unnecessarily redacted documentation. Full access to documents, personnel, and the office itself was only given after the new administration took over in May 2023. As a result, the audit was significantly delayed.

Efficiency and Effectiveness of Operations

During the FCA's tenure, the number of cases referred, filed, and closed significantly declined while the time to prosecute the reduced caseload significantly increased. Additionally, the CAO refused prosecution for significantly more cases than the prior administration. CAO personnel, on average, refused approximately 59 percent of referred cases, which is an increase of approximately 40 percent from the average percentage of cases refused by the prior administration. Under the FCA, it took office personnel significantly longer to file charges and significantly fewer cases were filed. The number of cases filed decreased from an average of 4,666 cases per year during the prior administration to only 2,529 cases per year during the FCA's tenure. CAO personnel took, on average, approximately 463 days to dispose of a case, which was significantly higher than the prior administration's average of approximately 293 days and the current administration's average of 142 days. In addition, the CAO did not dispose of 95 percent of felony cases within 14 months of case filing, as recommended by the Missouri Supreme Court.

The FCA did not devote her full time to the CAO as required. Instead, she took classes and completed clinical coursework to obtain a Family Nurse Practitioner, Post-Master's Certificate from Saint Louis University (SLU). This contributed to the lack of leadership at the CAO, caused the FCA to miss important case appearances, and prevented the FCA from fulfilling her statutory mandate. Based on the information provided by SLU, there were 40 separate instances (29 full days and 11 half days) in which the FCA spent time during normal CAO business hours completing clinical coursework. This equates to 34.5 working days, or approximately 7 weeks, away from her circuit attorney duties.

During the FCA's administration, a significant number of CAO personnel left employment, which contributed to the decline in the efficiency and effectiveness of the office. At the beginning of her tenure, the FCA had 141 employees. By May 2023, the office had only 89 employees, a 37 percent decline.

Disbursements	The FCA authorized reimbursements to herself totaling \$6,688 for personal legal fees. These payments were approved by the FCA and the Chief Clerk. When asked, CAO officials indicated the reimbursements were approved at the direction of the FCA. In August 2022, the Supreme Court of Missouri found the FCA violated the Rules of Professional Conduct during her prosecution of former Governor Eric Greitens. The Court assessed the FCA fines of \$5,004 and the FCA made 4 payments to the Court totaling this amount. On July 23, 2024, the FCA signed a diversion agreement with the United States Attorney's office, accepting responsibility for the misuse of more than \$5,000 in public funds and agreed to pay back the \$5,004 to the CAO. The FCA also directed the CAO to reimburse her for two payments totaling \$1,684 to the Missouri Supreme Court for <i>pro hac vice</i> fees associated with the petition for quo warranto filed by the Missouri Attorney General's office. CAO officials issued 64 checks, totaling \$58,482, for disbursements from the Contingency account that were not allowed by state law. These purchases included food, flowers, disc jockey services, wall art, party and community meeting location rentals, a Sam's Club membership, chili cook-out supplies, Sunshine Law violation fines, car detailing, employee plaques, personal legal expenses, a new CAO website, and credit card late fees and interest charges. In addition, the CAO has not established any guidance or policies about food or entertainment purchases. CAO personnel could not locate some or all of the supporting documentation for 47 of the 173 Contingency bank account disbursements reviewed, totaling \$10,639, and personnel did not retain/maintain adequate documentation to support 57 of the 160 credit card purchases reviewed, totaling \$8,652. In addition, CAO officials and personnel have not disbursed approximately \$15,600 in asset and bond forfeiture payments to the city's School Building Revolving Fund, and delayed an additional \$8,904 in similar payments to the fund.
Accounting Controls and Procedures	As a result of accounting control weaknesses, CAO officials and personnel do not know how much money should be in the bank accounts or who is owed the unidentified money in the Restitution and Bad Check bank accounts. CAO personnel do not reconcile the Restitution and Bad Check bank accounts, and do not maintain book balances or lists of liabilities for the accounts. CAO personnel do not follow up on old outstanding checks in the Restitution bank account. As of May 16, 2023, 63 checks, totaling \$10,417, issued from June 29, 2021, through April 28, 2022, had been outstanding for more than a year. CAO personnel incorrectly recorded in the accounting system the check number for 97 percent of the restitution checks the audit reviewed. This complicated the limited bank reconciliation process for CAO staff and made it more difficult to detect errors. CAO personnel do not account for the numerical sequence of receipt slips and some deleted transactions were not reviewed. The clerk that receipts and records payments also has the ability to delete transactions in the accounting system.

Procurement Procedures	CAO officials did not solicit bids or proposals for goods and services as required, and did not maintain documentation to support procurement decisions. The audit identified 11 CAO vendors that provided services during the audit period and were paid a total of \$1,926,924 that should have been competitively procured. However, CAO personnel were unable to provide any documentation of a competitive selection process for any of the vendors. In addition, the FCA did not establish policies and procedures for the selection of vendors providing goods and services.
Seized Property	CAO personnel do not maintain a complete and accurate seized property inventory listing and do not conduct periodic physical inventories of seized property. Of 30 haphazardly selected seized property items from the 4,426 items on the seized property list, CAO personnel could not locate 1 of the items (3 percent). Of 30 haphazardly selected seized property items from property rooms, 3 of the items could not be located on the seized property listing (10 percent). Additionally, the CAO has not disposed of old seized property timely, nor have personnel responded timely to requests from other agencies for disposal of seized property.
Capital Assets	The CAO does not have procedures to ensure employees return office equipment upon termination as required by policy, and some employees did not return items. The former FACA did not return her office laptop computer until December 2023, after the SAO issued a subpoena in November 2023 ordering her to appear and produce all CAO-related information and property in her possession. She resigned in May 2023, 7 months before returning her property to the CAO. The CAO was unaware the laptop computer was missing. CAO personnel do not maintain complete capital asset records or conduct annual physical inventories of assets such as computers and cell phones.
User Access, Identifications, and Passwords	CAO attorneys share CaseNet user identifications and passwords with trial support staff and other office employees, who often enter information into the CaseNet system on behalf of the attorneys in the office. There are no controls or policies in place to limit case access to only those employees assigned to a particular case. Instead, personnel maintain a list with the login credentials of all attorneys. During recorded interviews, several attorneys stated case dismissals and nolle pros judgements were entered on their cases in the CaseNet system without their knowledge.

In the areas audited, the overall performance of this entity was **Poor**.*

*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

- Excellent:** The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.
- Good:** The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.
- Fair:** The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.
- Poor:** The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

SCOTT FITZPATRICK
MISSOURI STATE AUDITOR

Honorable Gabe Gore, Circuit Attorney
City of St. Louis, Missouri

We have audited certain operations of the City of St. Louis Circuit Attorney in fulfillment of our duties under Section 29.200.3, RSMo. The State Auditor initiated audits of the City of St. Louis in response to a formal request from the Board of Aldermen. The city engaged KPMG LLP, Certified Public Accountants (CPAs), to audit the city's financial statements for the years ended June 30, 2022, and June 30, 2023. To minimize duplication of effort, we reviewed the CPA firm's reports. The scope of our audit included, but was not necessarily limited to, the period of July 1, 2021, through May 16, 2023. The objectives of our audit were to:

1. Evaluate the office's internal controls over significant management and financial functions.
2. Evaluate the office's compliance with certain legal provisions.
3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.

We conducted this performance audit in accordance with generally accepted government auditing standards. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides a reasonable basis for our findings and conclusions based on our audit objectives.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, (3) the need for improvement in management practices and procedures. The accompanying Management Advisory Report presents our findings arising from our audit of the City of St. Louis Office of the Circuit Attorney.

A handwritten signature in black ink, reading "Scott Fitzpatrick". The signature is written in a cursive, flowing style.

Scott Fitzpatrick
State Auditor

City of St. Louis

Office of the Circuit Attorney

Introduction

Background

In January 2018, the City of St. Louis Board of Aldermen requested the State Auditor's Office (SAO) conduct a comprehensive audit of the city. Pursuant to that request, we began the audit of the Circuit Attorney's office (CAO) on June 23, 2021. The Office of the Circuit Attorney is an elective office for the City of St. Louis. The city's population was 301,578 in 2020, according to the U.S. Census Bureau.

Missouri statute and city ordinance define the office's duties. Section 56.060, RSMo, requires the Circuit Attorney to commence and prosecute all civil and criminal actions in the Circuit Attorney's county in which the county or state is concerned as well as defend all suits against the state or the county. Section 56.450, RSMo, requires the Circuit Attorney to manage and conduct all criminal cases, business, and proceedings of which the circuit court of the City of St. Louis shall have jurisdiction; and appear for the state in all misdemeanor cases appealed to the court of appeals. In addition, Section 56.453, RSMo, states the Circuit Attorney will perform additional duties including (1) act as defense counsel or co-counsel for any city elected official if that official is sued in connection with the performance of his or her office, (2) represent the Sheriff or the metropolitan police department in writs of replevin filed for the return of property that is or had been used as evidence in any state criminal or traffic case, (3) represent petitioners in civil contempt proceedings when it is alleged that a respondent violated a court order under Chapter 455, RSMo, and (4) initiate proceedings under Section 600.100, RSMo, to determine the present ability of any defendant to pay all or a portion of the costs of his representation.

The former Circuit Attorney, Kim Gardner, was responsible for overseeing the office from January 1, 2017, through May 16, 2023, when she resigned, and is referred to as the former Circuit Attorney (FCA) throughout the remainder of this report. Gabe Gore currently serves as the Circuit Attorney, and is referred to as the current Circuit Attorney (CCA), throughout the remainder of this report. He was appointed to this position in May 2023 and was sworn in on May 30, 2023. He was elected in November 2024, and his first full term expires January 1, 2029. As of May 12, 2023,¹ the CAO employed 87 employees.

Circuit Attorney impeded audit

From the beginning of the audit, we were met with resistance from the FCA, who acted to prevent us from conducting the audit. The FCA required all SAO requests for records be made to the First Assistant Circuit Attorney (FACA) who, along with other office representatives, repeatedly ignored or delayed responding to our requests for the next 2 years and only responded after being subpoenaed. The CAO also provided limited information, denied onsite

¹ The number of employees is based on city payroll data, and May 12, 2023, was the last payroll date prior to the FCA's resignation.

City of St. Louis
Office of the Circuit Attorney
Introduction

access needed to conduct interviews and perform audit work, and unnecessarily redacted documentation. Full access to documents, personnel, and the office itself was only given after the new administration took over in May 2023. As a result, the audit was significantly delayed.

A summary of significant events in our efforts to obtain information for the audit follows.

- On June 23, 2021, at the beginning of the audit, we submitted a request to the FACA for bank statements from all 7 CAO-controlled bank accounts and policies and procedures for receipting, depositing, and seized property. CAO personnel only responded with redacted bank statements for 4 of the 7 bank accounts. We sent follow-up requests in October, November, and December 2021; and March and April 2022. We ultimately had to subpoena the banks directly to obtain unredacted copies of statements for all bank accounts.
- On August 25, 2021, 2 months after we originally requested the documentation, CAO personnel provided seized property policies and procedures. However, they did not provide the receipting and depositing policies requested. We sent follow-up emails in August, November, and December 2021; and March and April 2022. CAO personnel provided the information in September 2022, over a year after the original request.
- On August 25, 2021, CAO officials notified us they would not allow onsite audit work, which is a standard and necessary part of the audit process.
- On September 16 and October 5, 2021, we were able to meet with CAO personnel via Webex (a video conferencing service).
- In October 2021, we requested onsite visits at the CAO, but personnel denied this request due to COVID-19 pandemic restrictions. We responded, acknowledging the restrictions, but reiterated the need to make office visits in the future as part of the audit. In November 2021, we received an email from the FCA's outside counsel (referred to throughout the report as the CAO counsel), who was engaged to represent the CAO during the audit, stating they were unable to accommodate office visits.
- On December 2, 2021, we held a Webex meeting with the CAO counsel to discuss what was needed to continue the audit and we subsequently provided a list of outstanding requests. The CAO counsel responded that he was working on the requested documents.

City of St. Louis
Office of the Circuit Attorney
Introduction

- In January 2022, the audit was suspended pending the reduction/end of the CAO's onsite COVID-19 pandemic restrictions. The audit was restarted on March 1, 2022.
- In March and April 2022, on 5 separate occasions, we contacted CAO officials to schedule meetings with no response.
- In June 2022, the SAO General Counsel sent a letter to the CAO counsel noting the significant delays with the audit and that 7 months had passed with no cooperation from the CAO.
- In August 2022, in response to the SAO General Counsel letter, the CAO counsel emailed asking when we would be able to start scheduling meetings. In September 2022, the CAO counsel became the audit liaison designated to receive and respond to audit requests and began responding on behalf of the FACA.
- In October and December 2022, we were able to meet via Webex with some CAO personnel, but received no response to follow-up questions and document requests sent after those meetings.
- On March 1, 2023, after multiple emails going back and forth with CAO officials about documentation requested, the CAO counsel provided some requested information on a flash drive. On the same day, we issued a subpoena to the FCA to obtain the documentation not provided on the flash drive. On March 2, 2023, we served the subpoena (see Appendix B).
- On March 23, 2023, the CAO counsel responded to the subpoena with some information requested and indicated other information was previously discussed or provided. On March 29, 2023, we provided information as to why previously provided information was not responsive to the subpoena and a list of the documentation still needed by the subpoena deadline. On April 25, 2023, the CAO counsel responded that the CAO would provide a formal response to the SAO letter.
- On May 4, 2023, the FCA announced she would resign, effective June 1, 2023.
- On May 11, 2023, the CAO counsel contacted us to ask about next steps with the audit given the announced resignation. We indicated the requirement to provide the subpoenaed documentation stood and that if it was not received by May 15, 2023, the SAO would file a petition to enforce the subpoena in court the following day. CAO counsel indicated CAO personnel would be unable to turn over any documentation because the FACA was on leave.

City of St. Louis
Office of the Circuit Attorney
Introduction

- On May 15, 2023, we served subpoenas on 3 separate banks for the production of all bank records for the CAO bank accounts (see Appendixes C, D, and E).
- On May 16, 2023, the FCA resigned from the CAO effective immediately. On May 19, 2023, Governor Parson appointed Gabe Gore as the CCA. The newly appointed CCA fully cooperated with the audit, and audit work was able to proceed.
- Beginning in September 2023, we made substantial efforts to obtain testimony about the prior operations of the CAO from the FACA. These attempts to obtain testimony and records necessitated issuing 4 separate subpoenas to secure her cooperation (see Appendix F). On January 4, 2024, the FACA appeared for an interview pursuant to the subpoena.
- On January 31, 2024, we issued a subpoena for the FCA to personally appear, submit to questioning, and to produce records on March 27, 2024, (see Appendix G). The process server attempted to serve the subpoena 9 times from February 6, 2024, to March 15, 2024, without success.
- On May 6, 2024, we re-issued a subpoena for the FCA to personally appear, submit to questioning, and to produce records on June 12, 2024. On the same day, we held a press conference to ask the public for help locating the FCA because we were unable to locate her in order to have her formally served. The process server attempted to serve the subpoena 5 different times in May at possible addresses without success (see Appendix G).
- On May 6, 2024, we also issued a subpoena to Saint Louis University (SLU) requesting production of certain records pertaining to the FCA (see Appendix H). On May 17, 2024, an attorney personally representing the FCA emailed us and SLU objecting to the SLU subpoena. We worked with the attorney and SLU to determine the specific information needed from requested SLU records, and on May 23, 2024, SLU complied with the subpoena and provided the requested documentation. On May 17, 2024, we also provided a copy of the May 6, FCA subpoena to her personal attorney and noted the multiple attempts made to previously reach the FCA. The attorney agreed to provide the subpoena to the FCA and, on June 12, 2024, the FCA appeared and provided testimony and records.

While SAO personnel worked as effectively and efficiently as possible, given the difficulties encountered, the delays increased audit costs. The reasons for the additional costs included delays due to the withholding of certain records by the FCA and the overall number of issues discovered during the audit. See the Management Advisory Report (MAR) section of this report for more

City of St. Louis
Office of the Circuit Attorney
Introduction

information on these issues. Additionally, the delays resulted in a change to the audit period and thereby increased the audit work to include a review of significant events and transactions during the expanded audit period.

Sunshine Law Violation

The Freedom Center of Missouri, on behalf of its client, filed a motion for civil contempt against the CAO in the Circuit Court of the City of St. Louis on September 1, 2020, for violations of the Sunshine Law (Case Number 2022-CC00080), including failing to provide responsive records. The court ruled that CAO officials failed to comply with Section 610.027, RSMo, and ruled in favor of the Plaintiff.

In August 2022, the CAO disbursed a check to the Freedom Center of Missouri in the amount of \$27,272, and in July 2024, the Plaintiff and CAO officials entered into a settlement agreement. CAO officials agreed to pay \$47,088 to resolve the case, which included the previous payment of \$27,272. Because this issue was resolved by the courts, we made no additional recommendations.

Court operations during the COVID-19 pandemic

On March 16, 2020, the Presiding Judge ordered the 22nd Judicial Circuit Court to remain open, but made modifications to its operation to take reasonable and necessary steps to protect health and safety during the COVID-19 pandemic. This included canceling all jury trials, suspending all in-person proceedings with certain identified exceptions, and requiring the use of video or telephone conferencing for all hearings. On March 25, 2020, defendants were ordered to appear by interactive video, and the CAO and defense counsel were ordered to appear remotely by an approved audio or video platform.

On May 4, 2020, the Missouri Supreme Court modified operational directives for reducing of COVID-19 pandemic restrictions on in-person proceedings. Effective July 6, 2020, the Missouri Supreme Court set forth operational directives for the courts to work towards full restoration of court operations including convening the grand jury and resuming jury trials. Effective February 25, 2022, the Supreme Court of Missouri rescinded all of the previous orders relating to limitations on and alterations to court procedures necessitated by the pandemic. On March 8, 2022, the 22nd Judicial Circuit Presiding Judge encouraged judges, court staff, attorneys, and litigants to use all available technology, including teleconferencing and video conferencing whenever practical and not prohibited by Constitutional or statutory provisions; however, as of March 14, 2022, all court procedures were to be conducted in person unless instructed otherwise by the court.

While not reasonably estimable, these restrictions are presumed to have had an impact on the efficiency and effectiveness of the operations of the CAO discussed in MAR finding number 1.

Scope and Methodology

The scope of this audit included but was not necessarily limited to, the period July 1, 2021, through May 16, 2023.

Our methodology included reviewing written policies and procedures, financial records, and other pertinent documents; gathering information regarding court cases, staffing, disbursements, procurement, and user access through interviewing various current and past personnel of the office, as well as certain external parties; and performing sample testing using haphazard, judgmental, and random selection, as appropriate. The results of our sample testing cannot be projected to the entire populations from which the test items were selected.

We obtained an understanding of internal control that is significant to the audit objectives and planned and performed procedures to assess internal control to the extent necessary to address our audit objectives. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

To evaluate the office's internal control system, procedures for compliance with county and statutory requirements, and the economy and efficiency of certain management practices and procedures; we performed the following tests and procedures:

- We reviewed applicable state laws, city ordinances, and written policies and procedures; and interviewed various individuals.
- We used information provided by the Missouri Supreme Court, and reports from Prosecutor By Karpel (PBK) software system used by the CAO to organize case information to identify performance measures related to the number of cases filed, disposed, and refused; the amount of time needed to process cases; and the percentage of cases closed within established timeframes.
- We reviewed the evidence handbook; the employee handbook; and the operations and training manuals for bad checks, bond forfeitures, deposits, the felony post plea diversion program, and the warrant office.
- We interviewed various personnel including the FCA, FACA, Chief Clerk, numerous CAO staff attorneys, a former Administrative Assistant, and Missouri court personnel.

City of St. Louis
Office of the Circuit Attorney
Introduction

- We compiled data from the 22nd Judicial Circuit Court from the Annual Judicial and Statistical Reports released by the Missouri Supreme Court, for the period July 1, 2014, through June 30, 2023.
- We interviewed various CAO personnel about the PBK system and reviewed the PBK system user guide to obtain an understanding of how the data was entered and used in the PBK system. The CCA granted us read-only access to the PBK system in November 2023. This enabled us to generate reports and produce graphs from the PBK system for the period July 1, 2014, through June 30, 2024.
- We analyzed the FCA's St. Louis University clinical coursework attendance records for the period July 1, 2021, through May 16, 2023. We reviewed all 50 class days she attended to determine if the day and time of the clinical hours occurred during normal CAO operating hours or whether the hours were during holidays, weekends, or a time the FCA was on leave.
- We compiled payroll data provided by the City of St. Louis Comptroller's office for every CAO employee who received a paycheck during the audit period. We analyzed the information and classified the employees as legal staff, support staff, or other employees. Based on when the employee started receiving a paycheck and when the employee received his/her last paycheck, we were able to establish how many employees were working throughout the period within each classification.
- We analyzed all 630 disbursements totaling \$260,571 from the 7 CAO bank accounts for the period July 1, 2021, through May 16, 2023. We performed various tests on these disbursements. We reviewed all 431 disbursements, totaling \$121,700, made from the Restitution bank account, along with an additional 108 outstanding checks totaling \$21,861. We also reviewed all 173 disbursements, totaling \$104,948, from the Contingency bank account for the period July 1, 2021, through May 16, 2023. This work did not including reviewing approximately \$18,524,000 in disbursements made by the Comptroller's office on behalf of the CAO during the same period.
- We analyzed all 160 office credit card purchases, totaling \$22,944, and judgmentally selected and further reviewed 28 purchases, totaling \$4,241, for the period July 1, 2021, through May 16, 2023.
- We reviewed the CAO bank account procedures, including the reconciliation process and receipting and depositing procedures, for the 7 CAO bank accounts.

City of St. Louis
Office of the Circuit Attorney
Introduction

- We identified 86 vendors the CAO used during the audit period, and judgmentally reviewed the 11 vendors paid over \$12,000 in a rolling 90-day period, for compliance with procurement provisions. The 11 vendors were paid \$1,926,924 during the audit period.
- We judgmentally selected and reviewed 30 seized property items from the PBK system and 30 items from seized property rooms.
- We randomly selected and reviewed personnel files for 8 of the 75 employees who left CAO employment from July 1, 2021, to May 16, 2023.
- We used a word search protocol with search terms, selected names, and key words relating to audit objectives to review email and documents provided by the FACA in response to the subpoena.

Subpoenas Required

As discussed, we issued subpoenas to the FCA, the FACA, SLU, and the various banks used by the CAO to compel them to provide testimony² and/or produce records and documents related to their testimony (see Appendixes B through H). Appendixes B through H include redactions of information of a personal, privileged, or sensitive nature, and/or information that is not directly related to the information requested in the subpoena. Representatives of the SAO took the testimony of the FACA on January 4, 2024, and the FCA on June 12, 2024. Representatives of the SAO also recorded interviews with the Chief Clerk, and 23 attorneys who were working for the CAO during our audit period.

² The individuals' testimonies were recorded by SAO auditors.

City of St. Louis
Office of the Circuit Attorney
Management Advisory Report - State Auditor's Findings

1. Efficiency and Effectiveness of Operations

The efficiency and effectiveness of the Circuit Attorney's office (CAO) operations significantly declined during the former Circuit Attorney (FCA)'s tenure and the office did not meet established court standards for case handling. The FCA did not have performance measures in place to evaluate the operations of the office, nor did the office use established standards to evaluate office operations. Additionally, the FCA did not devote her full attention to her official duties and was unable to adequately staff the office. The failure to operate the office efficiently and effectively, with the necessary oversight and staffing, caused extended case times, fewer cases prosecuted, and prolonged the time victims and defendants had to wait for resolution of their cases.

1.1 CAO performance declined significantly during the FCA's tenure and the FCA did not use performance measures to monitor the office

During the FCA's term, the number of cases referred, filed, and closed significantly declined while the time to prosecute the reduced caseload significantly increased. Additionally, the CAO refused prosecution for significantly more cases than the prior administration. The FCA did not establish performance measures or use established standards to measure case performance.

Cases not entered into system

The CAO, under the FCA, did not process into the Prosecutor By Karpel (PBK) system a significant number of potential cases referred by law enforcement. A case is considered referred³ when it is provided to the CAO by law enforcement; however, if the case is not entered into the PBK system, a decision on whether to file charges cannot be made and the case does not proceed in the CAO. There were approximately 6,700 cases provided by law enforcement that were in CAO email inboxes waiting to be processed by the warrant office at the end of May 2023.

³ A case referral means CAO personnel received a case from law enforcement. When a case is referred to a prosecuting attorney, the prosecuting attorney makes the decision to file charges or decline to prosecute the case.

City of St. Louis
Office of the Circuit Attorney
Management Advisory Report - State Auditor's Findings

As shown in Figure 1, the number of cases referred and initially entered into the PBK system declined from a high of 11,672 in fiscal year 2018 to only 4,876 in fiscal year 2023. The amount increased again during the first year of the current Circuit Attorney (CCA)'s administration.

Figure 1: Total number of cases referred and entered into the PBK system by fiscal year from fiscal years 2014 through 2024⁴

Source: Prepared by the State Auditor's Office (SAO) using the legal inquiry report found in PBK. Fiscal year 2014 through fiscal year 2022 data was generated in November 2023, and fiscal years 2023 and 2024 data was generated in June 2024.

⁴ The totals shown in this section establish how many cases were entered into the PBK system, and are used in Figures 2 and 3. As noted, over 6,700 cases were awaiting entry into the PBK system as of May 2023 so they are not included in the totals presented.

City of St. Louis
Office of the Circuit Attorney
Management Advisory Report - State Auditor's Findings

More cases refused

CAO personnel refused prosecution⁵ for a significantly higher percentage of referred cases, including a higher percentage of felony cases, during the FCA's administration. We compared the percentage of cases refused by fiscal year in Figure 2.⁶

Figure 2: Percentage of total cases refused for prosecution by fiscal year for fiscal years 2014 through 2024

Source: Prepared by the SAO using the legal inquiry report found in PBK. Fiscal year 2014 through fiscal year 2022 data was generated in November 2023, and fiscal years 2023 and 2024 data was generated in June 2024.

⁵ The PBK user guide, defines "refused cases" as those in which every charge associated with the case is declined or turned down for filing.

⁶ The percentage is the number of cases with a refused case status for each fiscal year divided by the total number of cases referred and entered into the PBK system for that fiscal year.

City of St. Louis
Office of the Circuit Attorney
Management Advisory Report - State Auditor's Findings

CAO personnel, on average, refused approximately 59 percent of referred cases during the FCA's administration. This is an increase of approximately 40 percent from the average percentage of cases refused by the prior administration. Also in the first year of the current administration, personnel only refused an average of approximately 40 percent of cases.

In Figure 3, we identified the percentage⁷ of felony cases CAO personnel refused to prosecute.

Figure 3: Percentage of felony cases refused by fiscal year for fiscal years 2014 through 2024

Source: Prepared by the SAO using the legal inquiry report found in PBK. Fiscal year 2014 through fiscal year 2022 data was generated in November 2023, and fiscal years 2023 and 2024 data was generated in June 2024.

The CAO refused an average of approximately 56 percent of the felony cases referred during the FCA's tenure, compared to the previous administration's average of only approximately 42 percent. The current administration only refused an average of approximately 38 percent of referred felony cases in its first year.

⁷ The percentage is the number of felony cases with a refused case status for each fiscal year divided by the total number of felony cases referred and entered into the PBK system for that fiscal year.

City of St. Louis
Office of the Circuit Attorney
Management Advisory Report - State Auditor's Findings

Delays in filing charges

CAO personnel took significantly longer to file charges during the FCA's last 4 years in office. Figure 4 shows the average number of days between CAO receipt of the case and date the CAO filed charges with the court.

Figure 4: Average number of days between when the case was referred and when charges were filed by fiscal year for fiscal years 2014 through 2024

Source: Prepared by the SAO using the time standards by status report found in PBK. Fiscal year 2014 through fiscal year 2022 data was generated in November 2023, and fiscal years 2023 and 2024 data was generated in June 2024.

CAO personnel needed approximately 7.2 days to file charges from fiscal year 2014 to fiscal year 2019. However, during fiscal years 2021 and 2022, CAO personnel needed, on average, approximately 75 days and 58 days, respectively, to file charges on a case. As a result, cases were significantly delayed. While this was during the COVID-19 pandemic, court restrictions should not have significantly limited CAO personnel's ability to file charges. During the first full year of the current administration, the average number of days to file charges decreased to 10 days, consistent with pre-fiscal year 2020 levels.

City of St. Louis
Office of the Circuit Attorney
Management Advisory Report - State Auditor's Findings

Fewer cases filed

During the FCA's administration, CAO personnel filed⁸ significantly fewer cases than the prior administration, especially during the last 4 years of the FCA's administration. We compared the total number of cases filed by fiscal year, in Figure 5. As shown, the number of cases filed decreased from an average of 4,666 cases per year during the prior administration to only 2,529 cases per year during the FCA's tenure.

Figure 5: Total number of cases filed with the courts by fiscal year for fiscal years 2014 through 2023

Source: Prepared by the SAO using the Annual Judicial and Statistical Reports Circuit Profile for the 22nd Circuit Court found on the Missouri Courts website - <https://www.courts.mo.gov/page.jsp?id=296>, accessed on January 18, 2024.

⁸ Filed cases are cases for which the CAO has initiated proceedings in the court system.

City of St. Louis
Office of the Circuit Attorney
Management Advisory Report - State Auditor's Findings

Delays in disposing cases

During the FCA's tenure, CAO personnel took significantly longer to dispose⁹ of cases. We reviewed the average number of days from when charges were filed to the date a case was disposed by fiscal year in Figure 6.

Figure 6: Number of days between filing charges and disposing of the case by fiscal year for fiscal years 2014 through 2024

Source: Prepared by the SAO using the time standards by status report found in PBK. Fiscal year 2014 through fiscal year 2022 data was generated in November 2023, and fiscal years 2023 and 2024 data was generated in June 2024.

Personnel under the FCA took, on average, approximately 463 days to dispose of a case, which was significantly higher than the prior administration's average of approximately 293 days. Many cases took well over a year to dispose of under the FCA, while the current administration averaged 142 days for case disposition in its first year. While the Circuit Attorney is not solely responsible for the time it may take to dispose of a case, any delays in the handling of the cases by the office, including deciding to file charges or requesting case continuances, can result in longer case disposition times.

⁹ A disposed case means every charge has been resolved, but not every conviction has been sentenced.

City of St. Louis
Office of the Circuit Attorney
Management Advisory Report - State Auditor's Findings

Felony cases delayed significantly

CAO personnel did not dispose of felony cases timely during the FCA's administration, especially during the last 3 years of her tenure. The Missouri Supreme Court provides time standards for how long it should take prosecuting attorneys to dispose of felony cases. Per this standard, 90 percent of felony cases should be disposed of within 10 months of the case being filed. Longer case disposition times result in longer periods victims and defendants must wait for resolution of their cases. We compared the percentage of felony cases disposed of within 10 months for the previous administration, the FCA's administration, and the statewide average in Figure 7.

Figure 7: Percent of felony cases disposed of within 10 months by fiscal year for fiscal years 2014 through 2023

Source: Prepared by the SAO using the Annual Judicial and Statistical Report supplement Table 66 found on Missouri Courts website - <<https://www.courts.mo.gov/page.jsp?id=1919>>, accessed on May 28, 2024.

As shown, CAO personnel disposed of 40 percent or less of its cases within 10 months in fiscal years 2021, 2022, and 2023. This was at least 30 percent less than the state average and 50 percent less than Missouri Supreme Court standards. This is a significant decline from the prior administration and even the first 4 years of the FCA's term. While these years coincide with the COVID-19 pandemic, the data shows that statewide dispositions did not decline as significantly as the CAO's dispositions, indicating the CAO's untimeliness cannot be fully explained by court restrictions during that time.

City of St. Louis
Office of the Circuit Attorney
Management Advisory Report - State Auditor's Findings

In addition, the CAO did not dispose of 95 percent of felony cases within 14 months of case filing, as recommended by the Missouri Supreme Court. Figure 8 shows the percentage of felony cases disposed of within 14 months during the previous administration, the FCA's administration, and the statewide average by fiscal year.

Figure 8: Percent of felony cases disposed of within 14 months by fiscal year for fiscal years 2014 through 2023

Source: Prepared by the SAO using the Annual Judicial and Statistical Report supplement Table 66 found on Missouri Courts website - <<https://www.courts.mo.gov/page.jsp?id=1919>>, accessed on May 28, 2024.

While CAO personnel were unable to meet the Missouri Supreme Court standards, they did dispose of between 82 percent and 90 percent of felony cases within 14 months from fiscal year 2017 to 2020. However, during fiscal years 2021, 2022, and 2023, CAO personnel were only able to dispose of between 48 percent and 54 percent of felony cases within 14 months. At the same time, the statewide average was from 80 to 83 percent. The CAO's decline was also more significant than the statewide average, further indicating the CAO's untimeliness cannot be fully explained by COVID-19 pandemic related court restrictions.

City of St. Louis
Office of the Circuit Attorney
Management Advisory Report - State Auditor's Findings

Fewer cases disposed

CAO personnel disposed of significantly fewer cases during the last 4 years of the FCA's administration. We compared the number of disposed cases by fiscal year, in Figure 9.

Figure 9: Total number of cases disposed by fiscal year for fiscal years 2014 through 2023

Source: Prepared by the SAO using the Annual Judicial and Statistical Report Circuit Profile for the 22nd Circuit Court found on the Missouri Courts website - <https://www.courts.mo.gov/page.jsp?id=296>, accessed on January 18, 2024.

During the previous administration, the annual average number of cases disposed was approximately 5,300 cases. This decreased to an average of approximately 4,130 cases for the first 3 years of the FCA's administration and to an average of only approximately 2,080 cases during the last 4 years of the FCA's administration. Because disposing of cases is a primary duty of the CAO, this reduction indicates the office was less effective during this time.

City of St. Louis
Office of the Circuit Attorney
Management Advisory Report - State Auditor's Findings

Fewer cases closed

CAO personnel closed¹⁰ significantly fewer cases per year during the last 3 years of the FCA's administration than during the previous administration. We compared the number of cases closed by fiscal year in Figure 10.

Figure 10: Total number of cases closed by fiscal year for fiscal years 2014 through 2023

Source: Prepared by the SAO using the legal inquiry report found in PBK. Fiscal year 2014 through fiscal year 2022 data was generated in November 2023, and fiscal year 2023 data was generated in June 2024.

As shown, CAO personnel closed a significantly smaller number of cases than the prior administration, especially during the last 3 years of the FCA's administration. CAO personnel closed, on average, approximately 4,119 cases annually during the prior administration but only closed, on average, 2,352 annually during the FCA's administration. CAO personnel closed only approximately 1,218 cases, on average, during the last 3 years of the FCA's administration.

FCA did not establish performance measures

The FCA did not establish performance measures for the CAO and did not use Missouri Supreme Court standards to evaluate the office. As a result, CAO officials had no method to assess if the CAO was fulfilling its statutory obligation¹¹ to evaluate and prosecute referred cases in an efficient and effective manner. The FCA did not provide any explanation of why effective performance measures were not used.

Establishing measures of performance provides evidence to the public that the CAO is meeting its intended purpose and goals, and is essential in guiding strategic decision making. The National State Auditors Association guidance

¹⁰ Closed cases are cases for which all charges on the case have been disposed and every conviction has a sentence.

¹¹ Section 56.060.1, RSMo.

City of St. Louis
Office of the Circuit Attorney
Management Advisory Report - State Auditor's Findings

for audit organizations and government agencies states, "Performance measurement is a critical element of accountability for public resources" and further recommends considering the mission statement, goals, objectives, and an action plan when developing a performance measure process.¹² Additionally, the Government Finance Officers Association recommends, "all organizations identify, track, and communicate performance measures to monitor financial and budgetary status, service delivery, program outcomes, and community conditions."¹³

Establishing performance measures related to the length of time needed to process cases, the number of cases disposed per attorney, and the number of cases assigned per attorney, along with using Missouri Supreme Court standards would provide the CA with useful information to determine if the CAO was achieving its statutory purpose and would provide the CA key performance information for making strategic decisions.

Conclusion

During a recorded interview, the FCA indicated the reason for the decline in office performance was the COVID-19 pandemic. However, the decline in some areas began prior to the pandemic, continued after pandemic-related restrictions were lifted, and extended through the end of the FCA's administration. In addition, staffing decreases discussed in section 1.3 likely contributed to the declines. During recorded interviews with over 20 staff attorneys, 13 stated the workload was too large or overwhelming, and 4 agreed the workload exceeded professionally appropriate levels. Attorneys also stated they felt the caseload negatively impacted the quality of their work, it was difficult to avoid burnout and be proactive on cases, and their workload was too large to allow them to do their jobs effectively.

The FCA had a fiduciary and statutory duty to evaluate and prosecute, as appropriate, cases referred to the CAO by law enforcement. Case statistics show this was not performed efficiently and effectively during the FCA's tenure as compared to the prior and current CAs, court standards, and state averages; and the FCA did nothing to measure, monitor, or address these issues. Evaluation of office operations using established performance measures is necessary to identify and address areas of underperformance and the possible causes. Without such processes, the CA cannot be assured all possible efforts are being made to efficiently and effectively carry out the necessary duties of the CAO.

<<https://www.gfoa.org/materials/performance-measures>>, accessed August 5, 2024.

1.2 FCA did not devote full time to the CAO

The FCA did not devote her full time to the CAO as required. Instead, she took classes and completed clinical coursework to obtain a Family Nurse Practitioner, Post-Master's Certificate from Saint Louis University (SLU). This contributed to the lack of leadership at the CAO, caused the FCA to miss important case appearances, and prevented the FCA from fulfilling her statutory mandate.

Clinical hour records

The FCA attended post-graduate college courses during business hours without taking leave. On May 6, 2024, we subpoenaed SLU for the FCA's student records, including transcripts and clinical hour records. During our audit period, based on the information provided by SLU, there were 40 separate instances (29 full days and 11 half days)¹⁴ in which the FCA spent time during normal CAO business hours completing clinical coursework. This equates to 34.5 working days, or approximately 7 weeks, away from her circuit attorney duties. During a recorded interview, the FCA indicated she was taking the classes to improve the office and bring mental health awareness to the CAO.

There was no documentation to support her schooling was an effort to improve the office, nor did the FCA request reimbursement for the costs of classes to suggest this was part of her official duties. In addition, we did not identify, and the FCA did not know of, anyone else in the office taking any nursing classes to enhance the office. According to the FCA, only the Chief Clerk knew she was taking classes.

The FCA's efforts to use her additional medical training for the improvement of the office were mostly unknown and unsupported, and no other CAO personnel were participating in similar efforts; all of which indicate the schooling was not for the benefit of the CAO, but rather was for the pursuit of the FCA's personal educational goals while she was supposed to be serving in her elected capacity.

Important case missed

Completing clinical coursework during CAO working hours distracted the FCA from performing her duties. For example, on April 27, 2023, court was set for 1:30 p.m. to determine whether or not there was sufficient reason to find the FCA in indirect criminal contempt of court. The judge had ordered either the FCA or a designee to appear. According to coursework records, the FCA was in class from 8:00 a.m. through 12:00 p.m. that day, and the FCA sent a designee. However, the designee who appeared knew little information about the case when questioned. The judge stated, "I asked for a designee but

¹⁴ If the number of hours the FCA spent doing clinical coursework for the day was between 1 and 5 hours, we considered it a half day missed. If the number of hours the FCA spent doing clinical coursework for the day was over 5 hours, we considered it a full day missed. We took into consideration holidays, weekends, and leave requests.

City of St. Louis
Office of the Circuit Attorney
Management Advisory Report - State Auditor's Findings

you sent someone who didn't have the ability to stand in Ms. Gardner's shoes."¹⁵ The Judge found there was sufficient reason to find the FCA in indirect criminal contempt of court and said that the FCA was the captain of a "rudderless ship of chaos."

Conclusion

Section 56.445, RSMo, requires the CA and CAO employees to dedicate their entire time and energy to the discharge of their official duties. The failure of the FCA to do this and provide the necessary oversight of her office likely led to the less efficient case handling and the employee dissatisfaction discussed in sections 1.1 and 1.3, as well as one contempt of court charge. The FCA's full-time dedication to her position was not only needed to meet statutory requirements but also to ensure her office acted in the best interest of defendants, victims, and the citizens of the City of St. Louis, which was her duty as the elected CA.

1.3 Staff shortage

During the FCA's administration, a significant number of CAO personnel left employment, which likely contributed to the decline in the efficiency and effectiveness of the office. At the beginning of her tenure, the FCA had 141 employees. By May 2023, the office had only 89 employees, a 37 percent decline. Figure 11 shows the number of full time employees working for the CAO by fiscal year.

¹⁵ "Judge Michael Noble Was Not Having It With The former CA Today," *Riverfront Times*, April 27, 2023, <<https://www.riverfronttimes.com/news/judge-michael-noble-was-not-having-it-with-kim-gardner-today-39946742>>, accessed on August 8, 2024.

City of St. Louis
Office of the Circuit Attorney
Management Advisory Report - State Auditor's Findings

Figure 11: Total full time employees by fiscal year for fiscal years 2014 through 2024

Source: Prepared by the SAO using payroll records provided by the City of St. Louis Comptroller's office for the period July 1, 2014, through June 30, 2024. We used the highest number of employees in the quarterly reports per fiscal year for illustrative purposes.

As shown, employment levels at the CAO did not significantly decline until the FCA's administration and only rebounded when the new CA was appointed.

More employees left the CAO than were hired for most years during the FCA's administration. We analyzed CAO personnel data to determine if the decline in CAO staffing was due to attrition, a lack of hiring, or a combination of both.

Figure 12: Turnover During the FCA's Tenure

Employees	2017	2018	2019	2020	2021	2022	2023	Total
Began employment	41	44	28	31	28	26	6	204
Left employment	58	40	41	29	36	40	14	258
Net employee gain/(loss)	(17)	4	(13)	2	(8)	(14)	(8)	(54)
Turnover percentage*	44%	32%	34%	26%	32%	40%	16%	33%

* The turnover percentage was calculated by dividing the number of employees who left the office by the average number of employees working per year. The turnover percentage for calendar year 2023 was calculated only for the FCA's tenure (January through May 2023).

Source: Prepared by the SAO using calendar year payroll records provided by the City of St. Louis Comptroller's office.

City of St. Louis
Office of the Circuit Attorney
Management Advisory Report - State Auditor's Findings

As shown in the table, numerous employees left shortly after the FCA's term began in 2017, while at the same time, hiring also declined, resulting in significant turnover in most years. More employees left than were hired in 5 of the 7 years of the FCA's tenure. In 3 of those years, the net loss was more than 10 employees. While the COVID-19 pandemic may have had some effect on staffing, 2 of the years with the most significant turnover were prior to the pandemic.

Legal staff declined significantly

A significant number of the CAO's legal staff left during the FCA's administration. We performed the same analysis used in Figure 11 for legal staff¹⁶ in Figure 13.

Figure 13: Legal staff by fiscal year for fiscal years 2014 through 2024

Source: Prepared by the SAO using payroll records provided by the City of St. Louis Comptroller's office from July 1, 2014, through June 30, 2024.

Less than half the number of attorneys remained at the end of the FCA's administration

Figure 13 shows that by the end of the FCA's tenure, the legal staff declined from 94 employees when she took office to only 58 employees when she left, an over 38 percent decline. The decline includes a reduction in the number of attorneys from 53 in January 2017, to only 24 in May 2023, a 55 percent decline. As of June 30 2024, the legal staff has expanded to 73 employees including 44 attorneys.

The significant decline in legal staffing meant there were fewer attorneys to handle existing and incoming cases, which likely contributed to the increase in case processing time and the backlog of cases entered into PBK. This also resulted in fewer experienced attorneys available to sufficiently train new

¹⁶ Legal staff include the following titles: Assistant Circuit Attorney, Attorneys I-IV, Attorney Manager, Chief Investigator, Chief Misdemeanor Attorney, Chief Misdemeanor Officer, Chief Trial Assistant, Chief Warrant Officer, Circuit Attorney, Deputy Warrant Officer, Diversion Specialist, First Assistant Circuit Attorney, Investigators I, I/A, and II, Paralegal, Special Assistant Circuit Attorney II and III, and Special Attorney II.

City of St. Louis
Office of the Circuit Attorney
Management Advisory Report - State Auditor's Findings

Support staff declined significantly

hires and to handle more complex cases, likely resulting, in part, in the decline in CAO dispositions as discussed in section 1.1.

A significant number of support staff also left the CAO during the FCA's administration. We reviewed support staff levels by fiscal year in Figure 14. By the end of the FCA's tenure support staff consisted of only 19 employees, down from 32 employees when she took office in 2017. Support staff levels rebounded to 29 employees by the end of the first full year of the current administration.

Figure 14: Support staff employees by fiscal year for fiscal year 2014 through 2024

Source: Prepared by the SAO using payroll records provided by the City of St. Louis Comptroller's office from July 1, 2014, through June 30, 2024.

The decreased support staff resulted in legal staff needing to perform additional administrative tasks, further increasing workload for the attorneys and likely contributing to the increase in case processing time discussed in section 1.1.

Conclusion

The FCA, in a recorded interview, indicated staffing shortages were the result of low salaries. However, salary levels were not significantly different during the prior administration and have not changed significantly with the new administration. We interviewed over 20 CAO staff attorneys who worked under the FCA. Only 8 of the attorneys mentioned salary as one of their reasons for the high turnover, and it was not their only reason. Most attributed the turnover to high workload; high stress; lack of communication, transparency, authority, guidance, and leadership; being overworked; no clear chain of command; large caseloads; insufficient training; being overwhelmed; and disorganized management.

Adequate staffing is necessary to maintain the proper functions of the office and helps ensure caseloads are feasible and cases are handled according to legal and professional standards. Adequate staffing also allows appropriate

City of St. Louis
Office of the Circuit Attorney
Management Advisory Report - State Auditor's Findings

onboarding, training, and supervision of staff to ensure the office is operating effectively and efficiently in accordance with established standards.

Recommendations

The Circuit Attorney:

- 1.1 Ensure cases are processed as timely as possible and in accordance with state standards and establish performance measures to assess the efficiency and effectiveness of the office.
- 1.2 Work full time to discharge his/her official duties as required by statute.
- 1.3 Ensure staffing is sufficient and proper hiring and training processes are in place for all staff levels.

Auditee's Response

The Circuit Attorney's response is located in Appendix A.

Auditor's Comment

The Circuit Attorney's response indicates he does not believe the State Auditor has plenary authority to question the management of the office and that the Circuit Attorney answers to citizens of the county (city in this case). The audit was conducted at the request of the Board of Aldermen which represents city citizens. From the beginning of the audit, and throughout its extended period, one of the objectives was to evaluate the office's efficiency and effectiveness. The audit identified weaknesses in the efficiency and effectiveness of the office and recommends using standards established by the Missouri Supreme Court, which does have oversight over court proceedings. In addition, recommendations 1.1 and 1.3 ask the Circuit Attorney to establish and ensure the office meets its own standards, which is a recommended practice for all governmental bodies.

2. Disbursements

CAO disbursement policies and procedures need improvement. For the period July 2021 through May 16, 2023, CAO officials and personnel disbursed \$260,571, including \$22,944 in credit card purchases, from the 7 bank accounts the CAO maintains outside of the city treasury.

2.1 Personal reimbursements to the FCA

The FCA authorized reimbursements to herself totaling \$6,688 for personal legal fees. These payments were approved by the FCA and the Chief Clerk. When asked, CAO officials indicated the reimbursements were approved at the direction of the FCA.

Supreme Court fines
reimbursed

In August 2022, the Supreme Court of Missouri found the FCA violated the Rules of Professional Conduct during her prosecution of former Governor Eric Greitens.¹⁷ The Court assessed the FCA fines of \$5,004 and the FCA

¹⁷ *In re Kimberly M. Gardner*, Case No. SC99645 (August 30, 2022).

City of St. Louis
Office of the Circuit Attorney
Management Advisory Report - State Auditor's Findings

made 4 payments to the Court totaling this amount. She then directed the CAO to issue her the following reimbursements from the Contingency bank account:

- Check number 1353, dated November 1, 2022, for \$750
- Check number 1398, dated January 10, 2023, for \$1,000
- Check number 1759, dated February 24, 2023, for \$1,500
- Check number 1778, dated April 26, 2023, for \$1,754

On July 23, 2024, the FCA signed a diversion agreement with the United States Attorney's office, and accepted responsibility for the misuse of more than \$5,000 in public funds and agreed to pay back the \$5,004 to the CAO.¹⁸

Legal fees reimbursed

In March 2023, the Attorney General, on behalf of the State of Missouri, filed a petition for quo warranto to remove the FCA from office.¹⁹ The CAO, FCA, and FACA each filed motions in that case requesting that various attorneys be admitted *pro hac vice* pursuant to Rule 9.03 of the Missouri Supreme Court Rules. Rule 6.01(n) of Missouri's Supreme Court Rules requires a lawyer seeking to appear *pro hac vice* in any case to pay an enrollment fee for each case in each court in which the lawyer seeks to appear. The FCA personally paid the Supreme Court the *pro hac vice* fees for 4 attorneys in 2 payments totaling \$1,684,²⁰ and then directed the CAO to issue her the following reimbursements from the Contingency bank account:

- Check number 1761, dated March 10, 2023, for \$419
- Check number 1762, dated March 21, 2023, for \$1,265

Conclusion

When asked in a recorded interview, the FCA indicated she requested and authorized these reimbursements because the legal actions were brought against her as the Circuit Attorney, and she considered them to be CAO expenses. While these expenses arose while the FCA was in office, the underlying legal actions were due to violations of her personal professional conduct standards and not those of the office. Also, as noted, she later accepted responsibility for the misuse of public funds, and per the diversion agreement, has reimbursed the CAO in the amount of \$5,004. The FCA had a fiduciary duty to the taxpayers to ensure city funds were only expended on necessary items and in a manner that provides the greatest benefit to the city, and not on personal legal fees and fines.

²⁰ The amount paid and reimbursed includes service fees for electronic payment.

City of St. Louis
Office of the Circuit Attorney
Management Advisory Report - State Auditor's Findings

2.2 Misuse of restricted funds

CAO officials made unallowable purchases with the Contingency account they improperly hold outside the city treasury. CAO officials spent approximately \$104,950 from the Contingency account during the audit period.

Unallowed disbursements

CAO officials issued 64 checks, totaling \$58,482, for disbursements from the Contingency account that were not allowed by state law. These purchases included food, flowers, disc jockey services, wall art, party and community meeting location rentals, a Sam's Club membership, chili cook-out supplies, Sunshine Law violation fines (see Background section), car detailing, employee plaques, personal legal expenses, a new CAO website, and credit card late fees and interest charges.

Section 56.530, RSMo, restricts Contingency account disbursements to those related to bringing witnesses from other states, costs associated with prosecuting a defendant, and generally any expense for prosecution of the duties of the office. CAO officials indicated General Fund money was available to use for the disbursements noted, so it is unclear why they used the Contingency account, other than it was common practice for previous administrations.

Unallowed bank account

CAO officials maintain the Contingency account outside of the city treasury in violation of state law. The annual allotment of \$32,000 is transferred directly to the CAO account when requested. During our audit period the CAO requested the entire \$32,000 in one lump sum every year.

Section 56.530, RSMo, requires the city treasurer to maintain the contingency fund and to "pay out as needed to the circuit attorney. . . ." CAO officials indicated there was a lack of understanding on the restrictions for the Contingency account. In addition, CAO officials indicated this was the way the previous administration handled the account and they were following that guidance.

2.3 Lack of documentation to support purchases

CAO personnel could not locate some or all of the supporting documentation for 47 of the 173 Contingency bank account disbursements reviewed (27 percent), totaling \$10,639. Additionally, CAO personnel did not retain/maintain adequate documentation to support 57 of the 160 credit card purchases reviewed (36 percent),²¹ totaling \$8,652.

CAO personnel indicated the office only had informal policies and procedures regarding document retention and CAO personnel did not always follow the informal procedures. Best practices require retention of receipts, invoices, or other documentation indicating the amount of the disbursement, the vendor,

²¹ The CAO paid credit cards with the Contingency and Bond and Asset Forfeiture accounts.

City of St. Louis
Office of the Circuit Attorney
Management Advisory Report - State Auditor's Findings

and the purpose of the disbursement. Without such documentation, there is less assurance these purchases were for the benefit of the CAO and a prudent use of taxpayer funds, and there is an increased risk that loss, theft, or misuse will go undetected. Additionally, Section 109.270, RSMo, provides that all records made or received by an official in the course of his/her public duties are public property and are not to be disposed of except as provided by law. Section 109.255, RSMo, provides that the Local Records Board issue directives for the destruction of records. Record retention schedules can be found on the Secretary of State's website.²²

2.4 Questionable purchases

CAO officials made questionable food and other purchases totaling \$18,860 and the CAO does not have a policy regarding such purchases. CAO officials made 49 questionable purchases, totaling \$18,137, using Contingency bank account funds and 2 questionable purchases totaling \$723 using the Bond and Asset Forfeiture account funds during our audit period. These purchases were for parties and a picnic, disc jockey services, location rental for the office picnic, executive staff dinner, meetings, and luncheons. The CAO did not maintain a list of any of the participants for the staff dinners or meetings, nor did personnel document the purpose of these events. For example, CAO officials spent \$5,180 at a bar and grill and \$2,585 to purchase pizza for various functions without such documentation. As noted in Section 2.2, Contingency account use is restricted; however, even if other funds were used, these disbursements would be a questionable use of taxpayer dollars. When asked during a recorded interview if she authorized these items, the FCA stated, "To my knowledge yes," and when asked why, the FCA stated it was to "boost morale."

The CAO has not established any guidance or policies about food or entertainment purchases. Such guidance or policies can have various provisions. For example, the State of Missouri's agency provided food policy²³ only allows for food at official business functions, if it will promote the efficient conduct of business, and light refreshments at other agency sponsored events (employee retirement, employee appreciation, etc.), but banquets for such events are not allowed. In addition, the policy requires documentation to support food purchases including (1) purpose, (2) list of participants or estimated number of invitees, and (3) cost of food provided. The CAO has a fiduciary duty to spend public money in a prudent and necessary manner. Established policies on office provided food would

²² Office of the Missouri Secretary of State, Local Government Records Retention Schedules are available at <<https://www.sos.mo.gov/archives/localrecs/schedules>>, accessed November 20, 2024.

²³ Missouri Office of Administration, *State of Missouri Administrative Policy SP-5 - Agency Provided Food*, Issued January 2002, <https://oa.mo.gov/sites/default/files/agency_food.pdf>, accessed July 8, 2024.

2.5 Distributions withheld and delayed from the School Building Revolving Fund

provide employees necessary guidance and better transparency for citizens about the use of public funds.

CAO officials and personnel have not disbursed approximately \$15,600 in asset and bond forfeiture payments to the city's School Building Revolving Fund, and delayed an additional \$8,904 in similar payments to the fund. In total, the CAO received \$19,344 in asset forfeiture money and \$11,286 in bond forfeiture money from July 1, 2021, through September 29, 2022. Based on the amounts collected, the CAO owed the School Building Revolving Fund \$24,504, by September 30, 2022. However, CAO personnel only disbursed \$8,904 to the fund on March 3, 2023, 5 months after the statutory deadline, leaving \$15,600 still owed.

CAO personnel receive asset forfeiture money for property seized by law enforcement, and bond forfeiture money when the court orders a defendant's bond money forfeited. Based on state law and a CAO interoffice memorandum, 80 percent of the amount received is to be transferred to the School Building Revolving Fund and the CAO is allowed to retain 20 percent to cover costs associated with handling forfeiture money. The forfeited money is due to the School Building Revolving Fund (maintained by the city Treasurer) annually by September 30.

Section 166.131, RSMo, indicates all forfeiture proceeds should be disbursed annually, on or before September 30. Section 513.623, RSMo, indicates the net forfeiture proceeds shall be distributed pursuant to the Missouri Constitution, which requires the funds to be distributed to city school funds. CAO officials indicated payments were withheld due to lack of oversight, high employee turnover, and a lack of employee training. Timely disbursement of money collected is necessary to reduce the risk of loss, theft, or misuse of funds; and to comply with state law.

Recommendations

The Circuit Attorney:

- 2.1 Continue efforts to recover misspent funds from the FCA and ensure future reimbursements are appropriate.
- 2.2 Establish controls to ensure Contingency account disbursements are allowable and work with the city Treasurer to maintain the fund within the city treasury.
- 2.3 Establish policies and procedures to ensure adequate supporting documentation is maintained for all disbursements and retain all records in accordance with state law.

City of St. Louis
Office of the Circuit Attorney
Management Advisory Report - State Auditor's Findings

- 2.4 Ensure all disbursements are a reasonable and prudent use of public funds. Additionally, develop a comprehensive policy regarding food and other purchases.
- 2.5 Establish controls to ensure forfeiture payments are distributed as required.

Auditee's Response

The Circuit Attorney's response is located in Appendix A.

Auditor's Comment

- 2.2 The Circuit Attorney's response indicates that no changes are necessary to the established practices regarding the Contingency Fund and that the maintenance of the account outside of the city treasury is sound practice. There is nothing in statute that allows for the Circuit Attorney to maintain the fund outside of the city treasury. The response also indicates that statute allows for discretion in the use of the Contingency Fund for the "proper and vigorous prosecution of the duties of his office." However, it is unclear how the questioned expenses in the finding including food, flowers, disc jockey services, wall art, party and community meeting location rentals, a Sam's Club membership, and chili cook-out supplies are necessary to carry out the duties of the office.

3. Accounting Controls and Procedures

CAO accounting controls and procedures need improvement. As a result of accounting control weaknesses, CAO officials and personnel do not know how much money should be in the bank accounts or who is owed the unidentified money in the Restitution and Bad Check bank accounts. From July 1, 2021, through May 16, 2023, CAO personnel maintained 7 bank accounts with deposits totaling \$285,250 and disbursements totaling \$260,571.

3.1 Bank reconciliations

CAO personnel do not reconcile the Restitution and Bad Check bank accounts, and do not maintain book balances or lists of liabilities for the accounts.

- Personnel indicated they do not enter checks into the accounting system as they are written, but instead use the monthly bank statements to identify the checks that cleared the bank account, and then enter those checks in the accounting system. However, not all reconciling items (deposits in transit and outstanding checks) are accounted for using this method; therefore, accurate book balances are not maintained, and it is not possible to compare the reconciled bank balances to book balances.
- Personnel do not prepare lists of liabilities for the Restitution and Bad Check bank accounts. As a result, the reconciled bank balance is not compared to liabilities, and the CAO has unidentified balances in both accounts. As of May 30, 2023, the bank balance for the Restitution

City of St. Louis
Office of the Circuit Attorney
Management Advisory Report - State Auditor's Findings

account was \$73,439 and the bank balance for the Bad Check account was \$32,362. A portion of the Restitution bank balance consists of outstanding checks as discussed in section 3.2. CAO personnel cannot identify to whom the remaining balances belong and this may represent undistributed restitution and bad check payments owed to victims.

Personnel indicated they believed entering the checks into the accounting system was reconciling the bank accounts and officials indicated they believed personnel were completing the reconciliations. However, no one reviewed the work done to ensure the reconciliations were complete and accurate. During a recorded interview, the FCA was asked if she was checking the bank reconciliations. She stated, "No. We had people who were over that type of stuff."

Preparing adequate monthly bank reconciliations, cumulative book balances, and monthly lists of liabilities helps ensure receipts and disbursements have been properly handled and recorded, and increases the likelihood errors will be identified and corrected timely. Regular identification of liabilities and a comparison of liabilities to the reconciled bank balance is necessary to ensure accounting records are in balance, and money is available to satisfy all liabilities. Additionally, by reviewing the bank reconciliations, CAO officials can monitor the Restitution and Bad Check bank accounts to identify accumulating balances and possible unpaid amounts to victims.

Similar conditions were noted in our prior audit report.

3.2 Outstanding checks

CAO personnel do not follow up on old outstanding checks in the Restitution bank account. As of May 16, 2023, 63 checks, totaling \$10,417, issued from June 29, 2021, through April 28, 2022, had been outstanding for more than a year. This represents 11 percent of the total checks issued during that time. CAO personnel indicated they had not followed up on these checks, were not aware of the importance of following up on old outstanding checks, and had not established procedures to do this.

Procedures to routinely follow up on outstanding checks are necessary to prevent the accumulation of funds in the account and ensure funds are appropriately disbursed to the payee or as otherwise provided by state law. Section 447.532, RSMo, provides that any funds held by a political subdivision that remain unclaimed for more than 3 years should be turned over to the Missouri State Treasurer's Unclaimed Property Division.

3.3 Inaccurate accounting records

CAO personnel incorrectly recorded the check number for 97 percent of the restitution checks we reviewed in the accounting system. This complicated the limited bank reconciliation process for CAO staff and made it more difficult to detect errors. We compared all 459 checks numbers shown on the bank statements during our audit period, to the accounting system, and

City of St. Louis
Office of the Circuit Attorney
Management Advisory Report - State Auditor's Findings

identified 445 check numbers (97 percent) that were recorded incorrectly in the accounting system. CAO personnel indicated they previously determined there was a glitch in the system which caused an error when entering the check numbers. However, instead of correcting the error, CAO personnel continued using incorrect check numbers. Accurate accounting records are necessary to reconcile account balances to book balances and to ensure all transactions are properly accounted for.

3.4 Numerical sequence of receipt slips

CAO personnel do not account for the numerical sequence of receipt slips and some deleted transactions were not reviewed. The clerk that receipts and records payments also has the ability to delete transactions in the accounting system.

During our cash count on June 14, 2023, we noted receipt numbers 11105 and 11108 were not included on the collection detail report and were deleted. There was no documentation included with the reports to show the missing receipt numbers were investigated. At our request, the clerk generated a report listing the deleted transactions from January 1, 2023, through June 14, 2023. During that period, the clerk deleted 4 receipts totaling \$1,295, including receipt numbers 11105 and 11108. When asked why the transactions were deleted, the clerk indicated a mistake was made when entering the transaction into the accounting system and the transaction had to be deleted to re-enter the information. The clerk did not retain any documentation to support this and no one regularly reviewed the collection reports or deleted transaction reports to ensure any missing receipt numbers were accounted for and the deleted transactions were appropriate.

Failure to account for the numerical sequence of receipt slips and review deleted transactions increases the risk that loss, theft, or misuse of money will go undetected and accounting records will contain errors. CAO officials indicated they were not aware a deleted transaction report could be run from the system.

Recommendations

The Circuit Attorney:

- 3.1 Establish controls and procedures to ensure bank reconciliations are prepared, accurate cumulative book balances are maintained, and lists of liabilities are prepared and reconciled to book balances. Any amount that cannot be identified should be turned over to the Missouri State Treasurer's Unclaimed Property Division in accordance with state law.
- 3.2 Establish procedures to routinely investigate outstanding checks. Old outstanding checks should be voided and reissued to payees that can be readily located. If the payee cannot be located, the funds should be disbursed in accordance with state law.

City of St. Louis
Office of the Circuit Attorney
Management Advisory Report - State Auditor's Findings

- 3.3 Ensure accounting records are accurate, including check numbers entered, and correct inaccurate records.
- 3.4 Ensure personnel account for the numerical sequence of receipt slips and deleted receipt slips are supported by documentation and independently reviewed.

Auditee's Response

The Circuit Attorney's response is located in Appendix A.

4. Procurement Procedures

CAO officials did not solicit bids or proposals for goods and services as required, and did not maintain documentation to support procurement decisions. In addition, the FCA did not establish policies and procedures for the selection of vendors providing goods and services.

We identified 11 CAO vendors providing services during the audit period that should have been competitively procured. However, CAO personnel were unable to provide any documentation of a competitive selection process for any of the vendors. These vendors provided legal and consulting services, and software and office equipment as shown below:

Vendor	Total Paid During Audit Period
Law Firm 1	\$ 66,586
Law Firm 2	245,129
Law Firm 3	12,520
Consultant 1	180,000
Consultant 2	120,000
Consultant 3	125,000
Software Provider 1	161,471
Software Provider 2	123,348
Software Provider 3	70,288
Software Provider 4	731,494
Office Equipment Provider	91,088
Total	\$ 1,926,924

Source: Prepared by the SAO using disbursement records provided by the City of St. Louis Comptroller's office for July 1, 2021, through May 16, 2023.

During a recorded interview, the FCA stated, "Not to my knowledge" when asked if certain vendors were bid. The FCA chose to follow the city's procurement process but did not use this process for all procurement, and officials indicated the CAO did not have its own procurement policy. They also indicated they were unaware of the importance of establishing and following competitive procurement procedures.

Section 50.660, RSMo, requires competitive bidding when contracts and purchases made from any one person, firm, or corporation exceed \$12,000

City of St. Louis
Office of the Circuit Attorney
Management Advisory Report - State Auditor's Findings

during any ninety-day period. Lack of proper competitive bidding increases the likelihood of obtaining goods and services for a higher price than necessary and inefficient use of taxpayer funds. Formal procurement procedures would provide a framework for economical management of resources and help ensure the office receives fair value. Retaining complete documentation of all bids and proposals received and justification for awarding the bid or proposal would provide additional assurance state laws were followed.

A similar condition was noted in our prior audit report.

Recommendation

The Circuit Attorney formally adopt city procurement policies and procedures or establish office specific procurement policies and procedures that comply with state law. Policies and procedures should include documentation requirements for bids or proposals received and the justification for the vendor selected.

Auditee's Response

The Circuit Attorney's response is located in Appendix A.

Auditor's Comment

The Circuit Attorney's response indicates the recommendation requires the office to formally adopt city procurement procedures. However, the recommendation allows for the Circuit Attorney's discretion in either adopting city policies *or* establishing CAO policies that comply with state law. Procurement policies and procedures are necessary to ensure there are proper controls over the procurement process and provide a framework for economical management of resources.

5. Seized Property

Controls and procedures over seized property need improvement. As of June 15, 2023, the CAO was storing 4,426 seized property items in 4 different property rooms, according to the PBK system.

5.1 Property listing and physical inventories

CAO personnel do not maintain a complete and accurate seized property inventory listing and do not conduct periodic physical inventories of seized property. Personnel enter and track seized property in the PBK system. We haphazardly selected 30 seized property items from the 4,426 items on the seized property list to determine if the information entered into the PBK system was complete and accurate. CAO personnel could not locate 1 of these items (3 percent). In addition, we haphazardly selected 30 seized property items from property rooms to determine if the items were on the seized property listing. We could not locate 3 of these items on the seized property listing (10 percent). CAO personnel also could not locate the items because the evidence boxes did not include sufficient information to match to the property listing.

The Chief Investigator indicated there has not been a physical inventory since he started overseeing seized property in October 2020, and did not know

City of St. Louis
Office of the Circuit Attorney
Management Advisory Report - State Auditor's Findings

when the last time CAO personnel completed a physical inventory. The Chief Investigator also indicated the office does not require physical inventories and would not have staff available to perform them.

Considering the often sensitive nature of seized property, adequate internal controls are essential and would significantly reduce the risk of loss, theft, or misuse of the property. Maintaining complete and accurate inventory control records and performing periodic physical inventories with the results compared to inventory records is necessary to ensure property is accounted for properly.

A similar condition was noted in our 2 prior audit reports.

5.2 Disposal of seized property

The CAO has not disposed of old seized property timely, nor have personnel responded timely to requests from other agencies for disposal of seized property. As a result, the CAO, Sheriff's office, and St. Louis Metropolitan Police Department (SLMPD) unnecessarily maintain significant amounts of old seized property. When a trial is about to begin, evidence will be brought to the CAO by other law enforcement agencies. The seized property remains in the custody of the CAO until it is either disposed of or returned to the other agency (e.g., drugs, items that need testing, etc.). For any agency to dispose of seized evidence, the CAO must obtain a court order. To request this, the applicable agency sends notice to the CAO, which must determine whether the evidence in question is still relevant. Once this is determined, the CAO will file the request with the courts.

The CAO seized property list includes seized evidence dating back to 2006, when the CAO started using PBK for tracking purposes.²⁴ Based on seized property records, CAO personnel maintain evidence for 1,180 cases, dating from December 31, 2006, or earlier. Additionally, while performing the seized property test, we identified many items dating earlier than 2006. For example, 1 evidence box observed was dated October 8, 1989, and consisted of 2 empty liquor bottles.

In addition to the CAO not periodically disposing of evidence in its possession, other City of St. Louis law enforcement agencies have had difficulties with the CAO fulfilling their requests for destruction of seized property. For example,²⁵ the SLMPD filed a petition seeking a court order to destroy controlled substances in its possession. The CAO filed a response requesting the court deny the petition. On November 7, 2022, a hearing was held to address both issues. The court denied the CAO request and granted

²⁴ All property seized prior to 2006 is shown with a 2006 date in the PBK system.

²⁵ *In re Controlled Substances Custody City Police*, Case No. 2222-CC09640 (22nd Circuit Court), filed October 6, 2022.

City of St. Louis
Office of the Circuit Attorney
Management Advisory Report - State Auditor's Findings

the SLMPD petition. On November 8, 2022, in response to the court's actions, the CAO filed a motion for stay of the order, but it was denied. On November 9, 2022, the CAO filed a motion to reconsider the denial of the stay; however, the Court again denied the CAO's request. The Court stated:

. . . the CAO has at least attempted to misdirect the Court or offer partial truths, but, has also perhaps plainly lied to the Court. The evidence at the November 7 hearing clearly demonstrated it had about twenty months to respond to the City's request. As such, the Court finds the CAO is not entitled to the benefit of any doubt. It has squandered any goodwill it may have had by attempting to mislead the Court.

Periodic review and disposal of seized property, including timely filing of disposal cases for other agencies, is necessary to maintain adequate space for evidence, and can assist with organization and accessibility of evidence. Section 542.301, RSMo, provides the requirements for the disposition of seized property that has not been forfeited or returned to the claimant. The Chief Investigator indicated the CAO did not have sufficient staffing or time to dispose of its seized property or process and file the requests from other agencies.

A similar condition was noted in our two prior audit reports.

Recommendations

The Circuit Attorney:

- 5.1 Establish procedures to maintain complete and accurate seized property inventory records, ensure a periodic inventory is conducted and reconciled to the seized property inventory records, and investigate any differences. In addition, the Circuit Attorney should ensure resources are sufficient to adequately track and monitor seized property.
- 5.2 Ensure appropriate resources are available to dispose of seized property timely and timely file disposal requests from other law enforcement agencies with the court.

Auditee's Response

The Circuit Attorney's response is located in Appendix A.

6. Capital Assets

CAO officials do not ensure employees return all CAO property upon termination, do not have adequate capital asset records, and do not perform annual asset inventories.

No procedures to return office equipment

The CAO does not have procedures to ensure employees return office equipment upon termination as required by policy, and some employees did not return items. The only procedure performed when an employee leaves the

City of St. Louis
Office of the Circuit Attorney
Management Advisory Report - State Auditor's Findings

office is for the Chief Clerk to send an email message to the information technology department requesting employee access to various internal systems be removed. As a result, there is little assurance all CAO assets are accounted for when an employee leaves. During the FCA's tenure, 258 employees left the office.

For example, the former FACA did not return her office laptop computer until December 2023, after our November 2023 subpoena was issued ordering her to appear and produce all CAO-related information and property in her possession. She resigned in May 2023, 7 months before returning her property to the CAO. When asked why she waited to return the items,²⁶ she stated when she resigned she was on leave and she brought back the items she knew at the time to bring back. She also indicated the SAO subpoena caused her to realize the need to gather everything to provide to the CAO and no one at the CAO reached out to her about the missing items. The CAO was unaware the laptop computer was missing.

CAO policy 7.1 indicates, "Terminated employees (voluntary or otherwise) must return any and all office property. . . ." Prior to one of the administrative employees leaving the office, CAO personnel indicated there were procedures to collect equipment, access badges, and other property. However, these did not continue after that employee left. Implementing procedures to monitor and account for city assets would decrease the risk of theft or misuse occurring without detection.

Capital asset records and
annual inventories

CAO personnel do not maintain complete capital asset records or conduct annual physical inventories of assets such as computers and cell phones. We requested a listing of capital assets and their values. However, CAO personnel could only provide a list of current employees and their assigned equipment, but nothing that shows assets not specifically assigned to an employee or assets assigned to previous employees that have not been returned. In addition, CAO personnel could not identify the last time a physical asset inventory was performed.

Adequate capital asset records and procedures, including annual inventories, are necessary to provide controls over city property; to safeguard city assets that are susceptible to loss, theft, or misuse; and to provide a basis for proper financial reporting and insurance coverage. CAO officials indicated they were not aware of the importance of performing annual physical inventories. The FACA's missing laptop computer may have been identified sooner if asset records were complete and periodic inventories were conducted.

²⁶ Items returned included a laptop computer and 14 flash drives.

City of St. Louis
Office of the Circuit Attorney
Management Advisory Report - State Auditor's Findings

Recommendation

The Circuit Attorney establish policies and procedures to ensure employees return all office property upon termination of employment, asset records are complete, and annual inventories are conducted. The Circuit Attorney should also ensure unaccounted for items are investigated, and take necessary action to recover any missing assets.

Auditee's Response

The Circuit Attorney's response is located in Appendix A.

7. User Access, Identifications, and Passwords

CAO attorneys share CaseNet user identifications and passwords with trial support staff and other office employees. Attorneys use the CaseNet system to process, track, and monitor cases.

Trial support staff and other office employees often enter information into the CaseNet system on behalf of the attorneys in the office. There are no controls or policies in place to limit case access to only those employees assigned to a particular case. Instead, personnel maintain a list with the login credentials of all attorneys. During recorded interviews, several attorneys stated case dismissals and nolle pros judgements²⁷ were entered on their cases in the CaseNet system without their knowledge. The shared credentials makes it difficult to identify who entered this information on behalf of the attorneys.

According to Court Operating Rule 27.03, the sharing of attorney login credentials is allowed if the attorney authorized the employee to enter information into the CaseNet system on his/her behalf. Court Operating Rule 27.03(4) allows login information to be used by non-attorney agents and employees, as long as the attorney permits them. CAO officials indicated they were not aware of the importance of establishing controls and procedures limiting shared login credentials.

Recommendation

The Circuit Attorney establish controls and procedures to limit CaseNet access in accordance with the court operating rules.

Auditee's Response

The Circuit Attorney's response is located in Appendix A.

Auditor's Comment

The Circuit Attorney's response indicates that timely CaseNet entry is a "group effort" and the audit finding does not take into consideration the busy nature of Circuit Attorney's office. Controls and procedures to limit CaseNet access in accordance with court operating rules are necessary to properly limit case access to only those individuals necessary for timely case handling and to help ensure entered information is appropriate based on the assigned attorney's requests. As the Circuit Attorney indicates in his response, his office is very busy, so appropriate oversight of case information, including appropriately limiting case access, is critical.

²⁷ A nolle pros judgement is a formal notice of abandonment by a plaintiff or prosecutor of all or part of a suit or action.

City of St. Louis - Office of the Circuit Attorney

Supporting Documentation

The following appendixes provide the Circuit Attorney's responses to our recommendations and copies of the subpoenas discussed in the Background section. These appendixes are summarized in the following table:

Appendix A
Office of the Circuit Attorney
Circuit Attorney's Responses to Audit Recommendations

The following addresses the specific issues and recommendations raised in the draft report.

1. Efficiency and effectiveness of operations.

The bulk of the draft audit focuses on his immediate predecessor in this office. Mr. Gore has no comment regarding the various allegations or suggestions of wrongdoing by his predecessor. Mr. Gore believes his efforts and the office's resources are better focused on moving forward rather than looking back.

That said, Mr. Gore does not believe that the state auditor has plenary authority over any county prosecutor's management of a county law department, including any authority to question the Circuit Attorney's hiring, training, or supervision of personnel or the exercise of his prosecutorial discretion in accepting and prosecuting matters in the county. Mr. Gore certainly acknowledges that his management approach has differed, and will differ, greatly from that of his immediate predecessor. But ultimately, a county prosecutor answers to the citizens of the county in the operation of the law department.

In terms of the specific recommendations, Mr. Gore certainly accepts recommendation 1.2. As to recommendations 1.1 and 1.3, Mr. Gore and his team will work diligently to fulfill the statutory duties of the office. The draft report's references to "state standards," "performance measures" and "proper" hiring and training processes lack any specific references and are too vague to be accepted as written. Mr. Gore absolutely commits to using his best efforts in running an effective and efficient public law department.

2. Disbursements

As with section 1 of the draft report, section 2 focuses largely on the conduct of the immediately prior administration and the recommendations focus on discontinuing conduct that Mr. Gore has not, and will not, engage in, such as the conduct described in section 2.1.

The draft report addresses at length the prior administration's use of the contingency fund established by RSMo. § 56.530. The report addresses both where this account is maintained (either by the City Treasurer or in an account in the name of the Circuit Attorney) and the purposes for which the prior administration used these funds.

As to the first issue, Mr. Gore understands that for decades the City's practice has been to put a lump sum of \$32,000 per year into an account in the name of the Circuit Attorney and that the Circuit Attorney has withdrawn from the account as needed, as opposed to maintaining the fund in the City treasury and requiring seriatim voucher and disbursements. Neither the City, any prior Circuit Attorney nor any prior state auditor has ever complained about this practice.

Mr. Gore has not been advised by the City that it desires to discontinue this long-standing practice and, for a variety of reasons, believes the practice is sound. For example, requiring the Circuit Attorney to submit a voucher to the City to pay for the travel and hotel expenses of out-of-state witnesses could well make information about such witness' plans available to the public, including the criminal defendant and his or her allies. This would adversely affect the administration of justice.

Appendix A
Office of the Circuit Attorney
Circuit Attorney's Responses to Audit Recommendations

As to the second issue – the proper uses of the fund – Mr. Gore believe the statute allows any circuit attorney discretion in this area. While RSMo. § 56.530 lists certain specifically permitted uses, it also provides that the fund can be used “generally [to pay] such expenses as may be put to in the proper and vigorous prosecution of the duties of his office.”

In terms of the Auditor’s recommendations, the efforts to recover funds from the prior Circuit Attorney (recommendation 2.1) have been undertaken by the U.S. Attorney, not the Circuit Attorney.

As set forth above, the Circuit Attorney does not believe that any changes are necessary to the established practices regarding the contingency fund (recommendation 2.2).

Mr. Gore agrees to establish reasonable policies and procedures to collect and retain records regarding reasonable disbursement requests (recommendations 2.3 and 2.4) and to comply with the timing requirements of §166.131 (recommendation 2.5).

3. Accounting controls and procedures

This section again focuses on the prior administration. The issues raised do not appear to involve any misappropriation of public funds but, rather, the alleged failure to follow best accounting practices in such items as reconciling bank accounts.

Mr. Gore commits to retaining and training staff to improve the office’s compliance with standard accounting controls and procedures.

4. Procurement procedures

The draft report asserts that the Circuit Attorney is subject to the provisions of RSMo § 50.660 and that the Circuit Attorney should “formally adopt [St. Louis] city procurement policies and procedures” including procedures for competitive bidding and, apparently, City approval of contracts entered into by the Circuit Attorney with outside vendors. The Circuit Attorney disagrees and knows of no authority supporting the Auditor’s opinion. To the contrary, the office of any county circuit attorney is an independent office, not subject to the oversight of any municipality within the county. *City of St. Louis v. Doss*, 807 S.W.2d 61, 63 (Mo. banc 1991) (“[s]ubjecting county officials to the regulation of the diverse public entities for whom they perform services would soon lead to chaos.”).

5. Seized property.

Mr. Gore concedes that he inherited a “property room” and procedures for seized and retained evidence that needs to be improved. He commits to using his best efforts to improve in this area.

6. Capital assets.

Mr. Gore has established procedures to ensure, to the extent possible, the return of all Circuit Attorney property upon the separation of employment and will endeavor to maintain records of the office’s property.

Appendix A
Office of the Circuit Attorney
Circuit Attorney's Responses to Audit Recommendations

7. User access, identifications and passwords

Finally, the draft audit criticizes the office because multiple attorneys and staff have access to individual attorney's casenet.com passwords and log-in information. According to the Auditor, information on particular cases was entered into the system without the knowledge of the attorney(s) assigned to the case, although the report does not state that the information entered was inaccurate or harmful to the case. The report's criticism focuses on the belief that the "shared credentials make it difficult to identify who entered" the information into the system.

The Auditor's comments fail to appreciate the dynamics of a busy law office handling hundreds of matters through the efforts of dozens of employees. Getting documents on file through casenet.com in a timely manner is often a group effort, and the members of that group can change for multiple reasons – from attrition to sick days. Part of Mr. Gore's overall changes to the management of the office already include stabilizing the workforce and establishing a more structured team approach to case management. Mr. Gore believes that these changes will address the issue raised in section 7 of the draft report.

Office of the Circuit Attorney
State Auditor Subpoenas - Kimberly Gardner

SCOTT FITZPATRICK
MISSOURI STATE AUDITOR

EXHIBIT A

You are to preserve for production and inspection, and then appear as instructed on the attached subpoena and produce for inspection and examination, the following items in your possession or under your control:

All documents or other records, in whatever form, whether hard copy or electronic, pertaining or belonging to the St. Louis Circuit Attorney's Office, for the time period of January 2017 to May 2023.

This request includes, but is not limited to, the following:

1. Documentation for any expenditures related to the Circuit Attorney's Office.
2. Any user guides, documented procedures, policy guidelines related to the Circuit Attorney's Office.
3. Any documentation related to any professional or other organization you worked with in your capacity as the Circuit Attorney for the St. Louis Circuit Attorney's Office.
4. Any equipment still in your possession, which belongs to the St. Louis Circuit Attorney's office.

This request for records includes all materials that exist in paper ("hard copy") or electronic form (including but not limited to records and data maintained on computers, tablets, smart phones, external electronic storage drives, thumbnail drives, remote servers or back up tapes). All information requested in the items above are subject to inspection, review and copying by the state auditor. Section 29.235.4(1), RSMo.

Appendix H
Office of the Circuit Attorney
State Auditor Subpoenas - Saint Louis University

Scott Fitzpatrick
Missouri State Auditor

SUBPOENA

To: General Counsel
Saint Louis University
221 N. Grand Blvd.
DuBourg Hall, Room 219
St. Louis, MO 63103

YOU ARE COMMANDED AND REQUIRED to appear personally before the State Auditor or his representatives, Leslie Korte, General Counsel, Wayne Kauffman, Audit Manager, and James Kayser, Auditor In Charge at the Wainwright State Office Building, 111 N. 7th Street, Room 500, St. Louis, MO 63101, at 10 a.m. on Friday, May 17, 2024, for purposes of providing testimony, and producing for examination, copying, and interrogation the following records and documents listed on Exhibit A attached to this Subpoena.

In lieu of appearance, physical access to the records described in Exhibit A may be granted for State Auditor staff on or before the appearance date listed above. Alternatively, records may be shipped to the Missouri State Auditor to the attention of James Kayser at 149 Park Central Square, Suite 814, Springfield, MO 65806 or you may send them electronically to james.kayser@auditor.mo.gov to be received no later than the appearance date listed above.

ISSUED this 6th day of May 2024, pursuant to Section 29.235.4(1), of the Revised Statutes of Missouri.

Scott Fitzpatrick
Missouri State Auditor

I served the foregoing subpoena by HAND DELIVERY on this 6 day of MAY, 2024.
